THE CARRIER'S ADDRESS.

THE CARRIER TO HIS PATRONS.

I have just dropped in upon you,
On this happy New Year's day,
To confer a visit on you,
As has been my usual way.

I'm not very glib in talking,
And for this I've sorry felt,
But for down-right rapid walking
I deserve the champion's belt.

So I thought that I, in numbers,
Would express what I'd have said,
Yet I feared that easy slumbers
Might o'ertake you as you read.

Yet I'll venture—pray peruse it,
And I hope you'll say "first-rate!"
But if not, why, just abuse it,
While you drop it in the grate.

I THUS ADDRESS THE OLD YEAR.

The midnight bell with solemn boom
Tolls the departure of a year;
While chilling winds moan round his tomb,
And strew with withered flowers his bier.

Down in the chambers of the dead,
With all thy brethren gone before,
Make thou thy everlasting bed,
For we have need of thee no more.

Another now rules thy domain,
Another wears thy robe of State,
And they who followed in thy train,
Forgetting thee, his nod await.

Scarce had'st thou let thy sceptre fall,
When giddy crowds proclaimed his birth,
And welcomed him in cot and hall,
With feast and song and noisy mirth.

Yet little fault hast thou to urge,
For thus wert thou received, and then,
The wailing of the funeral dirge
Was hushed beneath thy trumpet's din.

Thus has it been from year to year,
Thro' all the ceaseless march of time;
The knell that summons to the bier
Has blended with the birth-day chime.

O Scion of illustrious race,
Adieu! thy deeds let history tell.
We leave thee now to rest in peace,
Departed Year—hail! and farewell.

MY REMARKS TO THE NEW YEAR.

All hail New Year! thy youthful brow
The diadem is wearing,
And on the throne thou'rt seated now,
While all on earth before thee bow,
A true allegiance bearing.

We wish for thee a prosperous reign;
Let right and justice flourish,
May labor just reward obtain,
And every wrong may'st thou restrain,
And every virtue nourish.

Let discord and contention cease;
O, strengthen ties fraternal;
From every evil give release,
And grant that universal peace
May banish war infernal.

Give to the toiler on the main
The gift of winds pacific;
And to the farmer, gentle rain
To help his fields of golden grain
To yield him crops prolific.

Encourage science and the arts,
And aid in man's progression;
Give all who strive with earnest hearts
To faithfully perform their parts,
Success, as their possession.

Give to the needy daily bread,
And peace to all that sorrow;
May we the past before us spread,
Lead by thy hand, in safety tread,
Till dawns the glorious morrow.

Stretch forth thy sceptre, gracious King,
And rule o'er all victorious,
Through winter's frosts and budding spring,
O'er all that summer's suns shall bring,
And autumn's fruitage glorious.

AGAIN TO HIS PATRONS.

I presume that you have read it,
And perhaps pronounced it flat;
Yet I hope that you have said it
Was occasionally pat.

Please remember my endeavor
To procure you all the news,
Just as soon as I could ever
Get it for you to peruse.

That I trudged through wind and weather,
Every week throughout the year,
To the damage of my leather,
Just that you the news might hear.

The Carrier having been remembered, says in conclusion:

Thanks, kind friend! may fortune bless you,
Give you health and hearty cheer,
Till I thus again address you
For similar purposes, NEXT YEAR.

A CELESTIAL REVELATION.

Mr. Goober—as the story goes—lived in the Mormon country. He had but one wife, and never thought of taking any more till one day an elder told him it was his religious duty to seal unto himself a few others. Mr. Goober went home and sadly informed his wife of what the elder had said, and Mrs. Goober said she had no objection, provided the elder would come round and argue the case with her piously. Goober told the elder and the elder dropped around. He smiled sweetly as Mrs. Goober advanced to meet him. The next thing he knew he was skipping around the room with his coat slit up the back and his hat knocked into pi, while Mrs. Goober wielded the broomstick. He finally jumped out of a window, and escaped with his life, a sadder and a wiser man. The next time he met Goober he told him he had had a celestial revelation by which Goober was relieved from the necessity of taking any more wives—Mrs. Goober would count for almost 1,000 in the New Jerusalem.

Into one of the largest dry goods stores entered a gentleman the other day, and with the air of one who had been used to this sort of thing all his life, you know, he said to the astonished saleswoman: "Give me a yard of maroon-colored ... to match a baby, please." Cor... ...ly, he began again: "... up; I mean a yard of flannel to ... maroon-colored baby—(here producing a bit of flannel from his vest pocket), I want a yard of that."

MISCELLANEOUS READING.

HOW THE BABY LOOKS AT IT.

People assume a good deal in their treatment of babies, a good deal more than they have any right to. Regarded from a political standpoint, a baby is organized much in the same way that a Territory is; that is to say, it is entitled to speak in its own behalf for or against measures affecting its welfare, but it is not entitled to vote nor otherwise to take part in actually deciding whether these measures shall not be adopted. This arrangement places the baby at a serious disadvantage. It loses the vote... ...guage every time, and just as to take whatever somebody else shall declare to be good for it. What makes its position the harder is the fact that what is good for it always must be a matter of the wildest conjecture. No woman come to discretion remembers how she felt when she was a baby; and men are equally oblivious as to their infantile sensations. It follows that the existing fund of so called knowledge in regard to baby management being wholly of an a priori, empyrical character, necessarily must be altogether untrustworthy.

Accordingly the baby constantly is misunderstood and very frequently is most shamefully wronged. Possibly the worst wrong put upon it is that of "dandling" it. A more pernicious practice scarcely could have been devised. As everybody knows, a baby has a most inordinate appetite and at all times is pretty nearly even full. Now how would you feel yourself should a well-meaning but densely stupid giant take to bouncing you up and down, as hard as you could be bounced not to break, just after you had eaten a hearty dinner? The mere statement of the question sufficiently answers it, and shows what a hideous injustice is wrought by such an ill-timed wabbling upon even a toughly-built baby's little insides. And it is a pitiful sight indeed to observe the poor little creature's endeavors, by laughing, crowing, and otherwise exerting its little store of blandishments, to propitiate its cruel tormentor. When this cruel treatment has produced its natural results and the baby is doubled up in a colicsome agony, the attempt usually is made to cure it by giving it a fresh shaking—by giving it, in extreme cases, a sever spanking! Why this is barbarious; it is unworthy of the brutes that perish. Nor is the baby any better off in regard to those offices which, foolishly are intended by their perpetrators to be indicative of kindness. Doubtless many babies have perished from immoderate hugging—have had their little ribs stove in and have gone down into their little graves absolute martyrs to a criminally careless expression of maternal love. Less fatal, but scarcely less displeasing to the baby, is the practice of kissing it to a nauseating excess. Babies cry a great deal—creating the impression that they are colic-stricken and so subjecting themselves to severe corporal punishments, as already described. It is a safe assumption that more than half the crying that the baby does is caused by the absolutely painful hugging and offensive kissing that it is compelled to endure. Making it go to sleep when it is interested in something and wants to stay awake; wrapping it up tight in a blanket so that it is almost smothered; washing it to an extent that would be repugnant to the feelings of a young frog; undressing and dressing it many times a day, a process involving its retention for comparatively long periods in unnatural and shockingly uncomfortable positions—as upon its little stomach, or even upon its head; waking it up, when, in the midst of its woes, it has succeeded for a moment in finding shelter in sleep, in order that a young woman may "see the color of the little darling's eyes"—these are among the many minor miseries which the baby suffers and which it finds so greviously hard to bear.

People assume that all these direful abuses of its person and feelings are not only not distasteful to the baby, but actually give it pleasure. Never, surely, was an assumption more baseless, more widely severed from the facts upon which it is supposed to rest. The baby, poor little wretch, may remonstrate to the utmost of its meagre power; but its remonstrances are treated with contempt and the governing body constantly bears it down; refusing to see that the baby is right and that the governing system is radically wrong. But the philosopher readily perceives that a system of baby management founded in ignorance of all fundamental conceptions of a baby's feelings must be an outrage alike upon the baby and upon common sense. This is the way that the baby looks at it, too.—*Philadelphia Times.*

A VERY REALISTIC ARTIST.

"Do you—ahem!—do you ever print any art items in your paper?" asked a rather seedy-looking man with long hair, a slouch hat and paint on his fingers, softly edging into the *Post's* inner sanctum the other day.

The managing editor glanced savagely up from his noonday sandwich, and evidently repressing a desire to add the long-haired party to his viands, replied in the affirmative.

"Because," continued the young man, scowling critically at a cheap chromo on the wall, "because I thought if you cared to record the progress of real esthetic art culture on this coast you might send your art critic around to my studio to take some notes."

"Might, eh?" said the editor between chaws.

"Yes, sir. For instance, there's a mammoth winter storm land scape I've just finished for Mr. Mudd, the Bonanza King. It's called 'A Hail storm in the Adirondacks,' and a visitor who sat down near it the other day caught a sore throat in less than fifteen minutes. The illusion is so perfect, you understand. Why, I had to put in the finishing touches with my ulster and Arctic overshoes on."

"Don't say?"

"Fact, sir; and then there's a little animal gem I did for Governor Glerkins the other day—portrait of his Scotch terrier Snap. The morning it was done a cat got into the studio, and the minute it saw the picture it went through the window like a ten inch shell."

"Did, eh?"

"Yes; and the oddest thing about it was that when I next looked at the canvas the dog's hair was standing up all along his back like a porcupine. Now how do you account for that?"

"Dunno."

"It just beats me. When the Governor examined the work he insisted on my painting on a post with the dog chained to it. Said he didn't know what might happen."

"Good scheme," growled the Freebleeder.

"Wasn't it, though? My best hold, however, is ... views. You know George Bromley, and how abstracted he is sometimes. Well, George dropped in one morning and brought up before an eight by twelve view of the San Joaquin River, with a boat in the foreground. I'm blessed if George didn't absent-mindedly take off his coat and step clear through the canvas trying to jump into the boat—thought he'd go out rowing, you know."

"Have they carried out that journeyman with the smallpox?" said the editor, winking at the foreman, who had come in just then to swear for copy.

"Smallpox! That reminds me of a realistic historical subject I'm engaged on now, entitled 'The Plague in Egypt.' I had only completed four of the principal figures when last Tuesday the janitor, who sleeps in the next room, was taken out to the hospital with the most pronounced case of leprosy you ever saw, and this morning the boy who mixes the paints began to scale off like a slate roof. I don't really know whether to keep on with the work or not. How does it strike you?"

"It strikes me that you'd better slide," said the unesthetic moulder of public opinion, gruffly.

"Don't care to send a reporter round then?"

"No, sir."

"Wouldn't like to give an order for a life-sized 'Guttenberg Discovering the Printing Press,' eh?"

"Nary order."

"Don't want a seven by nine group of the staff done in oil or crayon?"

"No," said the editor, as he again lowered himself into the depths of a leader on the Roumanian imbroglio, "but if you care to touch up two window frames, some desk legs, and the fighting editor's black eye for four bits and a lot of coupon exchanges, you can sail in."

"It's a whack!" promptly ejaculated the disciple of esthetic culture, and borrowing a cigarette from the dramatic critic on account, he drifted off after his brushes.—*San Francisco Post.*

THE WICKED MARINER.

A Buffalo lake captain, when interviewed regarding his experience of the great gale of two weeks ago, answered that he spent more than an hour in prayer. A Chicago captain said he was made to feel what an awful sinner he was. A Clevelander replied that he made a solemn vow to quit swearing in case he was saved. An interview was held with a Detroit captain yesterday to see how he felt. It started off as follow:

"You were in the great gale, were you?"

"I was."

"As the gale increased, the seas grew higher and your foretopmast was broken off, did you realize what a miserable old sinner you was?"

"No, sir. My time was occupied in clearing away the wreck and thinking how the owners would blast my eyes."

"By and by, when the seas swept your decks and carried off your yawl at the davits, did you make any vows?"

"I did not. I told the mate that we'd got to square off and run before it or we'd all be in—in less than twenty minutes."

"You meant Texas, did you not?"

"I did. I knew we were headed directly for Texas, with the seas piling right over us."

"Did your mate suggest holding a prayer meeting or singing any Gospel hymns?"

"Not by a gone sight! He suggested that we'd better be mighty lively about paying off or the infernal old tub would be at the bottom of Lake Michigan."

"When the awful voice of the gale roared in your ears, and the mountainous combers rushed down, as if to bury you from sight, did you have the least thought of making a vow to quit swearing, if you were spared?"

"No, sir, on the contrary, I believe I swore faster than usual, as I was in a hurry to get her around."

"As the wheel was put over and she fell into the trough of the sea for a moment, what were your solemn reflections?"

"Well, sir, I solemnly reflected that if the blasted old sticks ever wanted to plant dirt on me then was the time to do it."

"When you got squared away before the wind did you tell your crew that they ought to return thanks to Providence for having escaped certain destruction?"

"No, sir. I told 'em to ask the steward for about three fingers of good whisky apiece and then turn in all standing."

"Did you feel that you have any particular cause to be thankful?"

"I do. The elevator men in Buffalo didn't steal but forty bushels of wheat out of this last trip, while on the other they took ninety-one! I am very thankful for that fifty-one bushels and shall strive to be a better man hereafter. Take suthin', sir?"

BAFFLED CURIOSITY.

Miss J—— was on the way South to spend the winter with some relatives. Her friends Mr. and Mrs. H—— were her travelling companions as far as Goldsborough, where they separated, Miss J—— having about a hundred miles more of railroading to do alone, as a telegram received at Goldsborough stated that her expected escort could not meet her there. As usual, the passengers on the branch road were few, and Miss J—— was the only lady on the train.

The conductor was an ex-Confederate captain—a peculiar characteristic of Southern roads. He was a native of the town to which Miss J—— was ticketed, and was very anxious to find out who his fair passenger was. His rather officious offers to assist her in finding her friends when she should reach her destination were rather coldly refused. He finally got desperate, and appealed to an ancient gentleman in the car (a friend of his) to assist him. Presently the old gentleman crossed the car, took a seat immediately behind our fair traveller, and addressing her very politely, said: "My friend Captain P—— is very anxious to know who you are."

Looking up from the pages of her novel, Miss J—— said: "You didn't tell him, did you?"

He was so thoroughly taken aback that it was some moments before he recovered himself sufficiently to stammer, "N-no."

"Thank you," said Miss J——, gratefully, and coolly resumed her reading.

The crest-fallen old "Mercury" retired to the smoking-car, and our traveller was annoyed no more.—EDITOR'S DRAWER, in *Harper's Magazine for August.*

A TEST OF PRONUNCIATION.

The following rather curious piece of composition was recently placed upon the black board at a teachers' Institute, and a prize of a Webster's Dictionary offered to any person who could read it and pronounce every word correctly. The book was not carried off, however, as twelve was the lowest number of mistakes in pronunciation made: "A sacrilegious son of Belial, who suffered from bronchitis having exhausted his finances, in order to make the deficit, resolved to ally himself to a comely, lenient and docile young lady of the Malay or Caucasian race. He accordingly purchased a calliope and coral necklace of a chameleon hue, and securing a suit of rooms at a principal hotel, he engaged the head-waiter as his coadjutor. He then dispatched a letter of the most unexceptionable calligraphy extant, inviting the young lady to a matinee. She revolted at the idea, refused to consider herself sacrificeable to his desires, and sent a polite note of refusal, on receiving which he procured a carbine and a bowie knife, said that he would not now forge fetters hymeneal with the queen, went to an isolated spot, severed his jugular vein, and discharged the contents of his carbine into his abdomen. The debris was removed by the coroner." The mistakes in pronunciation were made on the following words: Sacrilegious, Belial, bronchitis, exhausted, finances, deficit, comely, lenient, docile, Malay, calliope, chameleon, suit, coadjutor, calligraphy, matinee, sacrificeable, carbine, hymeneal, isolated, jugular and debris.

TRAGIC EVENT OF THE WAR.

An old volunteer officer, who is now writing an interesting account of the Irish brigade, relates the following story: There was a tragic event at Malvern Hill, which deserves to be recorded, and shows what may come in civil war. One of our best non-commissioned officers, Sergeant Driscoll, an excellent shot, noticed the distinguished daring of a rebel officer, and resolved to counteract his inspiriting efforts in the most effectual way. ...ing his intention, he waited till he got a fair view through the smoke, raised his rifle as he would at a pigeon, and cracked away. The officer fell, and the line broke, with our fellows after them with the bayonet. Driscoll stopped as he came to the victim of his unerring shot who had fallen on his face, and turned him over. The victim [illegible] eyes and murmured Fa[illegible] Driscoll had shot [illegible] grief transformed the m[illegible] for his coolness hitherto, possessed with immeasurable fury, with a fearful execration tore off his coat and equipments, and with unloaded musket plunged headlong into the fight; the enemy were strongly reinforced and the conflict was warm. His bayonet was streaming with blood, as he fought like a fiend, hemmed in by the enemy. He was brought to ground again and again, each time springing up afresh and striking out with deadly force. He fell dead just as our line reached him, covered with wounds.

"I dweamed that I was all asleep in my bed, and Santa Claus he came into the room and he looked all around till he saw my stocking hanging up, and he said, 'Ha, ha! what a little short stocking that is,' and then he peeped over the foot of the bed and said: 'Next Christmas borrow the largest stocking you can find; I don't feel away my time filling up such little bits of stockings;' and then he acted mad and he went away. JEFFERSONIAN.

As with the natural elements, so with the political, peaceful calm succeeds the violence of storm.

The New Year opens upon a comparative cessation of partisan hostility. The Republicans having secured, after extraordinary efforts and certain favoring circumstances, another lease of power, are, for the time being, well satisfied; the Democrats, although justly disappointed, are not in the least discouraged, but rallying with commendable unity and zeal around their time-tested standard; confidently await a future opportunity to carry it forward into popular supremacy, and that auspicious day for the permanent welfare of country and of all the people will come.

Stand uncompromisingly loyal to your principles, Democrats!

They were framed for your safe-guidance four score years ago by the immortal author of the Declaration of Independence, Thomas Jefferson, and to-day as faithfully portray sound government and the rights of freemen as they ever did.

We have before quoted at length in [illegible] political creed of [illegible] reproduce it, because [illegible] value, its proven purity, and should be indelibly impressed upon individual memory.

It reads as follows:

"Equal and exact justice to all men, of whatever state or persuasion, religious or political.

Peace, commerce and honest friendship with all nations—entangling alliances with none.

The support of the State Governments in all their rights, as the most competent administrations for our domestic concerns, and the surest bulwarks against anti-Republican tendencies.

The preservation of the General Government in its whole constitutional vigor, as the sheet-anchor of our peace at home and safety abroad.

A jealous care of the right of election by the people.

Absolute acquiescence in the decisions of the majority—the vital principle of republics, from which there is no appeal but to force, the vital principle and immediate parent of despotism.

The supremacy of the civil over the military authority.

Economy in the public expense, that labor may be lightly burdened.

An honest payment of our debts, and sacred preservation of the public faith.

Encouragement of agriculture, and of commerce, as its handmaid.

The diffusion of information, and the arraignment of all abuses at the bar of public reason.

Freedom of religion.

Freedom of the press.

Freedom of person, under the protection of the habeas corpus.

Trials by juries impartially selected."

That is the creed of the Democratic party, and it is the vitality of the Constitution of the United States. For eighty years it has braved every vicissitude and still retains the vigor of youth. In the language of Jefferson—"it is the touchstone to try the services of those we trust; and the road which alone leads to peace, liberty and safety."

To advocate the principles of Jeffersonian Democracy, because of their own inherent worth, and in direct opposition to every species of personal ambition or corrupt jobbery, is the sure passport to political success and the public good.

[illegible]ESTS ARE GOING.

[illegible] enough for Amer[illegible] annually 100,000 [illegible] timber, and to make our lucifer matches, 300,000 cubic feet of the best pine are required every year. Lasts and boot-trees take 500,000 cords of birch, beech, and maple, and the handles of tools 500,000 more. The baking of our bricks consumes 2,000,000 cords of wood, or what would cover with forest about 50,000 acres of land. Telegraph poles already up represent 800,000 trees, and their annual repair consumes about 300,000 more. The ties of our railroads consume annually thirty years' growth of 75,000 acres, and to fence all our railroads would cost $4,000,000, with a yearly expenditure of $15,000,000 for repairs. These are some of the ways in which American forests are going. There are others; our packing boxes, for instance, cost, in 1874, $12,000,000, while the timber used each year in making wagons and agricultural implements is valued at more than $100,000,000.—*Fishkill Standard.*

WHAT WOMEN INVENT.

Some one who has taken the trouble to count the patents issued to women finds that the number for the year ending July, 1880, was seventy, or ten more than the average. Most of the inventions of women have to do with household appliances. Among the past year's are a jar lifter, a bag holder, a pillow-sham holder, a dress protector, two dust pans, a washing machine, a fluting iron, a dress chart, a fish boner, a sleeve adjuster, a lap table, a sewing machine treadle, a wash basin, an iron heater, and frame, a garment stiffener, a folding chair, a wardrobe bed, a weather-strip, a churn, an invalid's bed, a strainer, a milk-cooler, a sofa bed, a dipper, a paper dish, and a plaiting device.—*Scientific American.*

This year, 1881, has several peculiarities. It began and ends on Saturday. It reads the same backwards as forwards. Divide it by 11 it gives 171 which reads also the same when read backwards. Dividing 1881 by 19 the number of the century, we have 99, the sum of these figures being 18, the same as the sum of the figures 1881. Dividing by 18, the sum of the digits, you have 104½, the age of the nation in years on the 4th of January. There are also 313 week days in the year, which number also reads the same both ways. The superstitious have ample chance to surmise in regard to the coming events.

FIRE MATTERS.

The Board of Fire Commissioners met in regular meeting on Wednesday last. The President in the chair; and Messrs. Van Winkle, Morris, Depew, Mayer, and Sudner present; Mr. Jones coming in later. Minutes of previous regular meeting read and approved. Mr. Morris from Committee on Repairs and Supplies reported the return of the new suction for Gazelle Engine Co., in working order, and that the steamer gave increased satisfaction by its use. Also that the Department was in an excellent condition and ready for any emergency. The Chief reported that maps of the city with locations of firewells and limits could be furnished for $5 each. Filed. A communication from Zephyr H. & L. Co., stating that three of its members had been expelled for non-payment of dues, was received. Mr. Depew thought that before any action in the matter was taken by the Board, the delinquents should have an opportunity of being heard in their own behalf. The President considered that such a chance had been given the members by their company. Mr. Morris claimed that there should be placed before the Board some record or specification to show whether they had been notified of their expulsion, and when such action had been taken, in order that the Board might be able to judge if the parties in question had been given every chance to protect themselves. On motion the communication was referred back to the company for additional information regarding the cases. Messrs. D. W. Littell and C. F. Goddard presented their application for exemption certificates. The claims of Richard Davis $2.45, F. A. Dunham, 3.50, T. O. Doane, 7.35 and J. S. Cotter 13.81 were ordered paid, and the following bills referred to the Committee on Repairs and Supplies for examination: Thos. Worth, $11.45, Spicer & Hubbard, 18.25, Street & Preston, 110.18 and Henry Goulier, 5.50. A bill of the Mutual Fire Ins. Co., $16.80, was referred to the Treasurer for investigation. A communication from Gazelle Eng. Co., was read asking the ruling of the Board on the question as to whether a member who had served one year or more, afterwards expelled and subsequently reinstated, could count the time of first service in addition to the last. The President thought not. In his opinion the candidate came in the second time as a new member entirely and could not claim the time past that had, to a certain extent, been canceled by his expulsion. Mr. Morris disagreed with such a view, as neither the Laws of the State nor the Charter of the Fire Department said that a member should serve seven consecutive years. As long as there had been seven years service—no matter at what times or periods—he thought the member was entitled to exemption papers. Mr. Depew moved that the secretary answer "yes" to the communication, seconded by Mr. Mayer. By a subsequent motion it was laid over. The Plainfield Gas Light Co., addressed the Department in writing to the effect that it would not in future furnish coal for the Department's use. The reason assigned was that it (the Department) wanted all the lumps and left it (the Gas Co.,) all the screenings. Mr. Morris stated that he was informed by the Chief that the coal was just as good, and it was not necessary to select "lumps". No action was taken regarding the matter. The Chief called the attention of the Board to the present condition of the streets which rendered it an impossibility to drag the steamers through them by hand, should the occasion arise. On motion he was empowered to stable a team of horses in the house of one of the engine companies; and secure others, if necessary in his judgment, until the roads were passable again. Mr. Morris presented an amendment to Sec. V. Art. 7., of the Rules and Regulations, allowing for the reinstatement of an expelled member after three months had expired. The President thought there was a resolution permitting such act, as the Boards of past years had frequently reinstated expelled members. The matter was laid over as is necessary. Mr. Matthew Grey was confirmed as a member of Zephyr H. & L. Co. The Board then adjourned.

Morristown experienced a very destructive fire on Friday afternoon of last week. At 2 o'clock flames were discovered issuing from the barn on the premises of Day & Muchmore, the lumber merchants near the depot, and in a little time the lumber yard was wrapped in the devouring element. The fire department did good service, but before the flames were extinguished the buildings and lumber were nearly all consumed. The fire is believed to have originated in the hay mow from the pipe of some one in the barn. The loss is estimated at $15,000, upon which there is insurance to the amount of about $6,000.

The members of "Gazelle Hose Co. No. 1" eighteen in number, have purchased neat fatigue caps, with name of Company on the front in gilt letters.

ALMOST GONE,

But the Minister's Last Call Postponed—Remarkable Recovery of a Lady who was Pronounced Beyond Hope of Recovery.

A well-known business man, of New Hartford, Conn., writes as follows to Dr. David Kennedy, of Rondout, N. Y.: "A few months ago I let a neighbor of ours have some of your "Favorite Remedy," out of a bottle we kept for our own use, to try for some transient trouble. That neighbor induced a sister-in-law, who lay almost at the point of death, to test its efficacy for her disease. For weeks previous she could not eat anything without experiencing great distress, and the medicine given her by her physicians afforded no help, and often seemed to increase her distress. *It was thought she had Cancer of the Stomach*, and at the time of which I write friends had sent for her pastor to make what it was believed would be his last call. This lady *recovered, and is now comparatively well, and* says she would not be without 'Kennedy's Favorite Remedy,' no matter what its cost might be. You cannot advertise it too highly." Dr. Kennedy's "Favorite Remedy" is a specific for all Diseases of the Blood, such as the ills peculiar to females, and is invaluable in all Diseases of the Kidneys and Liver. When once known no family will be without it. "Dr. Kennedy's Favorite Remedy" for sale by all druggists. jan7w4

SHERIFF'S SALE.—In Chancery of New Jersey: Between The Mutual Benefit Life Insurance Company, complainant, and Anthony Q. Kearney, et als., defendants. Fi. fa., for sale of mortgaged premises.

By virtue of the above stated writ of fieri facias to me directed, I shall expose for sale at public vendue, at the Court House, in the city of Elizabeth, N. J., on

WEDNESDAY, THE NINTH DAY OF FEBRUARY, A. D., 1881,

at two o'clock p. m., all those tracts or parcels of land and premises hereinafter particularly described, situated, lying and being in the township of Fanwood (formerly Westfield) in the county of Union and State of New Jersey.

The first tract: Beginning at the southwesterly corner thereof on the northerly side of the road leading from Westfield to Scotch Plains, adjoining the southeasterly corner of Eliza Miller's lands; thence running easterly on the northerly side of said road and bounded thereby ten chains and seventy-eight links to the line of Simeon Frazee's land; thence northerly with the line of said Frazee's land bounded thereby eighteen chains and fifty-four links to northeasterly corner of the premises hereby described and to other lands of said Frazee; thence westerly with said Frazee's other lands and the lands of Stewart E. Clark and bounded thereby thirteen chains and eighty-one links to the line of Sara Miller's land; thence southerly with the land of Sara Miller and bounded thereby on his line [illegible] twenty-nine chains forty-four links to the aforesaid road and place of beginning; containing thirty acres and seven hundredths of an acre of land more or less.

The second tract: Beginning at a stone on the south side of the aforesaid road leading from Westfield to Scotch Plains, being the north corner of a lot of land sold by the administrators of [illegible] Miller to Simeon Frazee; thence along said Frazee's line bounded thereby south forty-four degrees west two chains and fifty-three links to the north side of the Central Railroad of New Jersey; thence along the north side of said railroad and bounded thereby north eighty-five degrees west twenty-three chains and forty-seven links to a corner of H. B. TESTIMONIALS:

* * * * * "You ask me to favor you with my experience and impressions of Miss NELLA F. BROWN. I seldom if ever yield to requests of this nature. I feel less hesitation in this instance because of Miss Brown's exceeding modesty and unpretentiousness, which are characteristics of genius.

I am informed that she never received instruction in the conventional school of elocution, which fact is greatly in her favor. In this she may be compared with Fanny Kemble and the late Charlotte Cushman, who were illustrious examples of what genius may attain without elocutionary training.

Miss Brown has appeared twice upon the "Star" Course in one season to the eminent satisfaction of vast audiences, and will appear again this coming season. This, I take it, is a sufficient endorsement. Yours very truly,
T. B. PUGH,
Manager of "Star" Course, Phila.

THE Legislature convenes next Tuesday.

THE churches were all well attended on Sunday last.

THE heavy snow fall of Tuesday night has improved the sleighing.

THE CONSTITUTIONALIST Carrier, "Cookie," returns thanks to his patrons for their liberality bestowed on New Year's Day.

MEMORIAL services, relating to the life and death of Dr. George Smillie, will be held in the First Presbyterian Church on Sunday morning next.

THE reports of the condition of the First National and City National Banks at the close of business on Dec. 31st, will be found in another column.

THE special music given by the Crescent avenue church choir at the Christmas services of the 26th ult., was repeated, by request, on last Sunday morning.

JOHANNA HALEY of this city, is making a ten day's visit to Warden Marsh at Elizabeth. Captain Dodd escorted Johanna there at the request of Judge Runyon.

WERE the Council of 1880 afraid to let the dear people know the state of the finances of the City, that they failed to order published the annual statement of the Treasurer.

JOSEPH W. YATES, Esq., was the first purchaser of a through Washington ticket at the Plainfield depot, after the consolidation of the Baltimore & Ohio and the Central Railroads.

THERE were numerous black noses in Plainfield on Friday, the last day of the year 1880—caused by the owner of said noses gazing through smoked glass at the eclipse of the sun.

THE funeral services of the late Dr. George Smillie, on Monday last, called together, in honor of his memory and sympathy with his family's affliction, a large gathering of friends.

THERE was a notable (and audible) fall in the thermometer of the First Presbyterian church, last Sunday morning. Messrs Howard Pope and Wm. Woodruff took charge of the remains.

THE ancient order of Pottowatomies were on the war path last Saturday night. The chief, however retired to his wigwam earlier than many of his braves. There are several aspirants to his office.

THE Union County Democratic Executive Committee met for organization for 1881 at Elizabeth on Monday last. Mr. Thomas Budd was elected Chairman, J. William Crane Treasurer and Chas. Ryan Secretary.

A TRIAL of Messrs Kline & Co's flavoring extracts will convince everyone of their worth and purity. The head of the firm is a resident of North Plainfield, and orders sent to Box 645, city post office, will receive prompt attention.

THE next time the scissor editor of the *Perth Amboy Republican* takes an item from the columns of our contemporary, the *Times*, will he please give proper credit for it, and not vilify THE CONSTITUTIONALIST by crediting it with a slur on our honored Governor.

A LARGE black Newfoundland dog, whom want of home and master had led into ways of vagrancy, was fatally shot on Front street during Thursday night of last week. He now roams the streets of that warmer place provided for similar tramps of the *genus homo*.

MR. Robert Walker, a carpenter living on New street has just received through the efforts of Mr. Alex. B. Butts a check for $894, pension money. When the attention of Mr. Butts was first called to the case it had been neglected at Washington and Mr. Walker had given up all hope of getting the money.

DR. VINCENT delivered an able discourse at the First Presbyterian Church, on Sunday morning last, before a congregation that filled the building. His subject was "Jesus Only," and the speaker dwelt in an instructive and interesting manner upon the men and scenes identified with Christ's Transfiguration.

THE Plainfield Cornet Band was out on New Year's day rendering the sweet strains of "Boccacio", "Widow Dunn" and the "The Full Moons," before the residences of their friends. It is needless to say that their instrumental efforts were appreciated, and they received and accepted many invitations to "come in."

MR. I. Lederer of No. 9 W. Front street, announces a closing out sale of his large stock of Fall and Winter goods at and below cost. Purchasers would be wise to call and see what bargains he is offering in all his departments. This merchant is also the sole agent for Belding Bros. & Co's sewing silk and John Clark Jr & Co's "Mile End" cotton of all shades.

A LITTLE daughter of Mr. Albert Perry of Third Street, fell backwards from a sled on which she was being drawn last Tuesday, and fracturing the base of her skull was killed almost instantly. A post-mortem was held by County Physician Thos. Terrill, assisted by City Physician Lowrie and Drs. Frittis and Tomlinson.

CONTRARY to the expectations of the Plainfield Gas Co., it was found possible to furnish a slight supply of light during the evenings of last Thursday and Friday. The street lamps, however, were not lighted, and public buildings were compelled to be satisfied with glimmering rays. "Something froze up" and caused the unavoidable discomfort.

THE boys like best to see the old farmer with his big empty sled drive in from the country. The old sled looks much more attractive than the gaudily painted, much be-robed cutter, because they can hang on, jump in, make fast their sleds or do almost anything they like without fear of the ugly looking whip the farmer carries.

A VISITOR to the Marble Works of Mr. L. Manning on West Front Street, cannot fail of being pleased with the handsome assortment of mantels and grave stones in many colored marbles and polished granites, displayed. The most efficient workmen only are employed and the cutting and carving done to order by steam and hand, will compare favorably with the finest work of larger establishments.

As the Council of 1880 did not see fit to extend thanks to the press of the city for their endeavors to keep the public posted on their doings during their term of office, we don't know as it is necessary for us to take up valuable advertising space in publishing encomiums upon each individual Councilman just retired. They were as a whole, up to the average of all such officials.

THE Common Councilmen of Plainfield City for 1880 were very economical with the printers. It cost the city just $274.65 during their terms of office for Printing and advertising (in three papers) It cost THE CONSTITUTIONALIST more than its share for printing and advertising fees in reporter's fee for reporting the proceedings of the august body. And yet some people think Plainfield editors ought to grow rich. Yes, they do—in their minds.

NEW Year's eve was especially commemorated by a fancy-dress ball held in the rooms of Mr. Jules Boutes on Park avenue. A large number of invited ones was present, and the many handsome costumes were combined to make the affair beautiful to the sight as well as enjoyable to the other senses. A bountiful supper was served during the evening, whereat a great variety of eatables furnished by able cooks, disappeared in an incredibly short time. It was daylight before the pleasures of the occasion were exhausted.

THE Plainfield Saengerbund held enjoyable festivities in their rooms on Front street, New Years Eve. A handsome Christmas tree, loaded down with prizes, was the centre of attraction during the earlier part of the evening, and loud was the laughter when some unfortunate drew a ridiculous prize, and hearty the congratulations when some more fortunate one drew something more valuable. Mrs. Joseph Blatz was one of the latter mentioned. Later, dancing was indulged in, Guttman furnishing excellent music for the occasion. It was well toward the small hours of morning when the happy company dispersed to their homes. The rooms were tastefully decorated with bunting, evergreens, mottoes and designs. This Society contemplate holding a Grand Masquerade Ball at the same place some [illegible]

The Vocal Society's Entertainment.

The First Subscription Concert of the Plainfield Vocal Society, occurs at the Park Avenue Baptist Church on Tuesday evening next. Besides the usual choruses, madrigals and glees which this organization so ably render under the direction of Mr. Fishbaugh, there will be solos by Miss House, of New York, Contralto, and Mr. Carl Werner, Violoncellist. Miss Pratt of this city will be the Accompanist. The selection of reserved seats can now be made at E. J. Shaw's Pharmacy.

Somerset County Courts.

The trial of Daniel Cory was concluded on Thursday last and the case given to the jury. They were out until Saturday when they came into Court with a verdict of $4,800.21 for the county. Mr. Cory has appealed the case to the United States Supreme Court.

Gen. McClellan's Intentions.

We are authorized to state that General McClellan has not declined the Presidency of the New York Underground Railway Co., and has no intention of visiting Europe during the present year. A widely circulated item to the contrary notwithstanding.

Relief Association.

The Relief Association receives constant appeals for cast-off clothing, shoes, &c. Will any person who can contribute such articles, be kind enough to send to the rooms, corner 2d street and Madison avenue, where all packages will be gratefully received, and judiciously appropriated. By order

Mrs. E. D. Burlingham
Secretary.

A Card.

To the Members of Warren Eng. Co. No. 3,

GENTLEMEN:

Allow me herewith to express my sincere thanks to you all for the very handsome token of your kind feeling received from your hands. If my services as an officer of your organization have been worthy of your approval, I am truly satisfied; and shall continue in future, at all times, my efforts to further the interests of the Company of which I am proud to be a member.

Very Respectfully Yours,
AUGUSTUS SMITH.

Plainfield, Jan. 3d, 1881.

Second Musical Recital.

The Second Feininger-Evans Recital, which takes place on Tuesday evening the 18th inst., will be fully up to the high standard attained by the First. Although the patronage accorded this series shows the public to be unappreciative of the better class of music and undeserving the efforts made in placing the most talented artists and their execution before it, yet the managers intend to follow out their intentions of engaging none but the best and producing only the finest of compositions. On the date mentioned Miss House, of New York, will be the vocal soloist, and we are promised a violoncello performance by the renowned Wilhelm Mueller.

Democratic Association

At the meeting of the Democratic Association, held at their rooms on Tuesday evening, the 4th inst., the following name gentlemen were elected as the officers thereof for the ensuing year:

President—James E. Martine.
Vice President, 1st Dist.—Nathan Harper.
Vice President, 2d Dist.—E. Theo. Polak.
Vice President, 3d Dist.—Jos. W. Yates.
Treasurer—William H. Voorhees.
Recording Sec.—Louis F. Wadsworth.
Corresponding Sec.—James O'Neill.
Judge of Election—Gilford Mayer.
Inspectors of Election—Louis M. Stover, Stephen Davis.
Clerk of Election—Louis F. Wadsworth.

The amendments made to the By-Laws provide that all primary elections shall be under the supervision of an election board, who shall require from each voter his name, place of residence, &c., with right of challenge, and the Democratic primaries hereafter will be conducted with all the formalities of a regular election.

Music and Recitals.

The announcement of the executants who will contribute their talents towards the musical and recitative entertainment of the Y. M. C. A., Course on Thursday evening next, appears in another column. The reputation of the artists respectively, assures a programme of unusual attractiveness by its worth and variety, and guarantees a successful affair throughout. Mr. Henry Gait, the elocutionist of the occasion, is a humorist of rare ability and his [illegible] is said to be an enjoyable feature. Mrs. Florence Rice-Knox is well enough known in this city to need no commendation—singing last summer with her customary success at the Hotel Netherwood. Great things are justly expected of Mr. Carlos Hasselbrink, a violinist who comes to this country fresh from the Grand Conservatorie of Paris; and the reputation of Mr. W. F. Mills both as a player and teacher of the arts of piano music, is hardly lower than that of his more notorious brother. Mr. F. G. Bourne a baritone of sufficient talent and power to fill a part in "Le Damnation de Faust," under the direction of so particular a leader as Dr. Damrosch, will undoubtedly claim a large portion of the approval accorded the entertainment.

The New Year's Opening.

An unusually pleasant day was the first of the present year—alike comfortable to those who traveled on foot or runners—but in spite of such a rarity, the number of calls made by the male sex on their lady friends, fell far short of the latter's expectations. The attractions of perfect sleighing and the temptations which a Holiday has to draw our young men to the "City," no doubt account in a measure for the neglect of the day's demands. A greater number of "baskets" than customary, instead of "open houses," were to be regretted, as it really seems as though the ladies are derelict in their duty if not at home to the gentlemen on so auspicious an occasion. It is a day especially favored by the business man of the community, who are—to a greater or lesser extent—unable to keep up a calling acquaintance during the other days of the year when the demands of their occupation absorb their time; and as many a bashful young heir would never experience the ease of mind that comes after the first visit to an admired and coquettish belle, if New Year's day did not offer an excuse, it seems no more than right that "open house" should be the universal custom. Unless the ladies do their part in the matter, the custom of calling, so extensively followed by the gentlemen of the past generation, will eventually be entirely done away with.

The Sleighing and the Sleighers.

The bright warm sun of Monday last not only contributed towards making the afternoon perfect overhead, but its mild rays had such a destroying effect on the snow beneath that all were warned of the lack of lasting qualities the frozen element possessed and were advised thereby to take immediate advantage of the sleighing. Contrary to the natural expectations of "the poor who walked, by gracious!" there was but very little trotting by the crack roadsters of the vicinity; and the large gathering who assembled at the "finish" and "turn" on Park avenue, was correspondingly disappointed. "Uncle Billie" Moore was to be seen handling the ribbons over "Carbolic's" back, but a knowledge of what his horse could do naturally justified him in his refusal to try a brush with the animal's inferiors. Mr. E. P. Thorn drove his bay mare "Pet" with ease to the front; and Messrs O. T. Waring, W. S. Darling H. H. Moore and Dr. Charles Stillman the younger, had no trouble in leaving all competitors in the rear. Mr. Solomon Dunn's big bay left many an astonished driver behind, and Mr. Percy Ohl's clipped horse "Harry" seemed to have no trouble in beating Mr. Halsey Compton's long coated red.

Among those driving for pleasure were to be noticed Mr. L. L. Martin behind a free-going bay, Major Eugene Gross and wife with their stylish grey, Mr. W. W. Coriell and bay, Mr. Elmer Moffett and high-stepping "buckskin" Mr. Cornelius Stattis and long limbed bay, and Mr. Benj. Foren.

The young men of the municipality, who were enjoying themselves and favoring their lady friends, were represented by Messrs Geo. Titsworth, Lambert Foster, Wm. VanVoorhees, George Vialment, and Herbert Fraley. Mr. Harry Johnson, in a neat cutter behind his clipped pony, presented a handsome appearance.

Many of the families of our leading citizens added to the liveliness of the scene with their attractive turn-outs. Mrs. R. H. Davies and coachman, in a single cutter drawn by a stylish span of greys, were much admired, as well as Mr. A. D. Cook's beautiful bays and Mrs. Percy C. Ohl's clipped team and family sleigh. Mr. John Osborne drove Mrs. J. W. Johnson behind a clipped sorrel, and Mrs. W. P. Humbert, Mrs. S. A. Potter, Mrs. Geo. Van Deventer and Mrs. John Shotwell, were out in their respective equipages. The handsome black teams of both Messrs Wm. B. Lewis and O. B. Burgess were out as finally. The beautiful span belonging to Mr. Nate Robbins of Metuchen with that gentleman driving, was missed on Monday, although on New Year's day its speed was experienced by many who tried to pass it.

The stables of Roberts & Calhoun, Laing, Marshall and Hobbleff were extensively patronized, and their horses and sleighs were among the finest on the road. Many who left it until too late, found it impossible to procure a rig of any of these livery men, so great was the demand.

Prof. Fiske.

The first of the series of lectures on the American Political Idea, to be delivered by Prof. John Fiske at the Seminary, was given on Tuesday evening. Despite the unpleasant weather an appreciative audience assembled, that was held interested by the instructive subject and the able manner in which it was presented. The discourses that are to follow in continuance of the course, are set down for January 6th and 11th.

Variety Wedding.

MR. Joseph Haynes, the genial freight agent at the depot, this city, and his estimable wife, celebrated their fifteenth wedding anniversary at their home on Monday evening last. Cards of invitation had been issued to a large circle of friends and acquaintances, and the numerous guests present on the occasion evidenced with what appreciation "Joe" and his better half are held in the community. Among those present were many well known railroad conductors and attaches of the Central R. R. The presents bestowed were numerous, useful and valuable. The large room on the third floor of the station, Mr. H's residence, was tastefully bedecked with flags, and under inspiring strains of fine music, dancing was indulged in until the dawn of day warned the guests that it was time to leave for their homes. The affair was most enjoyable in every particular.

C. Y. M. U. Ball.

The catholic Young Men's Union has every reason to congratulate itself upon the success of its first Ball. The event took place on Wednesday evening, and in every way deserves favorable commendation. The weather was most unpropitious (which word decidedly expresses the unpleasantness and discomfort of the drizzling rain and slushy pavements) but in spite of such a condition of things outdoors, the assured pleasures promised in St. Mary's Hall attracted a large number of young belles and their admiring partners. The arrangements of the evening were in charge of Messrs Thos. Carty, James Keegan and M. Sweeny, Jr., who looked after the interest and enjoyment of all in a most satisfactory manner. The Hall was attractively decorated and the conveniences all that could be desired. The gallery, occupied in other days by the choir, now forms a suitable dressing-room for the ladies; the extreme end of the Hall is occupied by a raised platform for the musicians; and at the left of the latter is a refreshment-room furnished with the necessary tables, chairs and eatables. Five instruments rendered the finest dance music the city has been favored with in some time, and throughout the entire evening the pleasures of waltz and other movements occupied the attention of all.

Personalia.

Mrs. Coriell, wife of Councilman Wm. Mc D. Coriell, died at her residence, Evona, on Saturday night last after a lingering illness from typhoid fever, despite the efforts of skilled physicans to save her life, transfusion of blood having been resorted to as a last hope. Mrs. Coriell was widely known for her benevolence and charity. She was the mother of ex-Chief Engineer B. F. Coriell of the Plainfield Fire Department.

We regret to learn that Governor-elect Ludlow is confined to his house at New Brunswick, suffering from an attack of quinsy sore throat.

We acknowledge the receipt of a number of delicious oranges grown on the premises of a former Plainfielder, Henry Hand, now located at Fort Reed, Orange county, Fla. Mr. Hand is now engaged in setting out orange trees on 160 acres of ground, at his above mentioned place of residence.

The many friends and acquaintances of "Harry" Stewart, a former resident of Plainfield, will learn with sorrow and surprise of his sudden decease from ulcers in the stomach, at Newark, N. J. on Tuesday last.

The happy face our popular newsdealer Mr. Wm. Williams has been wearing for the past two days, is due to the fact that a little daughter was among his Christmas blessings.

The mail brings the glad tidings that our old friend Charlie Johnson has a little son. Our best wishes for the future of the heir, and may he grow up as courteous; as obliging and as well-liked as his father.

Common Council Proceedings.

FRIDAY EVENING Dec. 31st, 1880.

In pursuance of adjournment, the last meeting of the Council of '80 was held with a bare quorum on the last evening of the old year.

President Potts called it to order long after the usual hour. Present: Messrs. Whiton, Darling, Flanders, Finch, Dunlap, Ryder and Potts.

Mr. Dunlap presented a petition from Mr. S. A. Ginna in application for a cross-walk from his place of residence on Hillside avenue to the opposite side of the street. The walk to be laid and kept in repair by the petitioner. Ref'd to Street Com.

Mr. Flanders presented claims of Wm. Addis, steam apparatus in City Jail $20.00 and Morgan Bird, rent of same $62.50; Ref'd to Police Com.

By the same: Spicer & Hubbard repairs on street lamps $4.60; Ref'd to Lamps Com.

Also: E. O. Chamberlin, printing and advertising, $10.30; Ref'd to Printing Com.

By Mr. Finch; claims of Chas. Dodd $58.36, R. Hapenny $41.67 and R. Randolph $41.67; Ref'd to Com. on Salaries.

By Mr. Whiton; claims of H. Hamilton, $22.50, J. VanWinkle $75, N. Runyon $75, G. P. Suydam $75, and O. B. Leonard $75. Ref'd to Com. on Salaries.

By Mr. Darling, claims of Frank Courson $3, A. V. Searing $60.50, P. Langenbahn $6, D. Hand $160.36 and T. J. Gillies; $50. Ref'd to Alms Com.

Also, Plainfield Gas Light Co., $240.50, N. Y. & N. J. Globe Gas Light Co. $109.50 and $8.60; Ref'd to Lamps Com.

A Communication from the Mayor was received, as follows:

To the Common Council:

GENTLEMEN:—Permit me to lay before you herewith the statement of the disbursements of the City [illegible], which has been carefully compiled from [illegible] vouchers.

As a closing act of my official term, I respectfully and cordially proffer to each member of Council the assurance of personal regard.

NATHAN HARPER,
Mayor.

Plainfield, Dec. 31, 1880.

STATEMENT.

NATHAN HARPER,
Mayor.

Plainfield, December 27th, 1880.

Statements from the Overseer of the Poor, City Clerk and City Treasurer, and reports of the Chairmen of the Finance, and Police Committees and Police Board, were received and placed on file.

Mr. Ryder reported no quorum of the Alms Com. present and returned the claims in its hands. Received and laid on table. The rules were subsequently suspended and Mr. Ryder was allowed to certify the following correct: N. Thompson, $47.49, A. V. Searing, $60.50, Children's Home, $25, W. C. Ayres $24, L. A. Rheaume $2.53, Jane Mullener $6, B. Goodman $9, L. Vail $5, Ayres $18, Mehl $18, and $96, T. J. Gillies $19.80 and $50. Ref'd to Auditing Com.

Mr. Walton returned to Council the bill of Onderdonk for grading Park ave. Laid on table.

Mr. Darling reported correct, claims of N. Y. & N. J. G. L. Co., $8.60 and $109.50; Spicer & Hubbard $4.60; P. G. L. Co., $240.50. Ref'd to Aud. Com.

The claims before the Police Com. were returned to Council, there being no quorum present. Afterwards referred back to Chairman Finch upon a ruling of the President to the effect that the signature of the Chairman of a Committee was sufficient. The following claims were thereupon referred to Aud. Com: Chas. Dodd $58.36; R. Hapenny $41.67; and R. Randolph $41.67.

Bills of Morgan Bird laid on the table, and that of Wm. Addis, $20.00, referred to Aud. Com.

Mr. Flanders from Printing Com. reported correct claim of E. O. Chamberlin, $10.30. Ref'd to Aud. Com.

Mr. Ryder of Com. on Salaries, reported correct claims of Suydam $75, Runyon $75, VanWinkle $75, Hamilton $22.50 and Leonard $75. Ref'd to Aud. Com.

Mr. Flanders presented a communication from the Corporation Counsel to the effect that the Council had power to lay cross-walks even should not the street be flagged on both sides. Filed.

On motion it was recommended that Mr. Ginna be allowed to lay a cross-walk, at his own expense, over Hillside avenue at the corner of Lake street.

Mr. Whiton called for a report from the special committee appointed to revise the rules of order.

President Potts, as Chairman of such committee, stated that the members had taken so little interest in the matter that he had never called them together, and in consequence, had no report to make.

The Bills of Morgan Bird were handed back to the Police Com., reported correct and referred to Aud. Com.

Mr. Dunlap from Auditing Com., reported correct all bills, and warrants were ordered drawn for the same with the exception of the claim of the N. Y. & N. J. G. L. Co., which was not properly sworn to.

On motion of Mr. Finch, seconded by Mr. Whiton, the Council voted its thanks to President Potts for his able and courteous management of their meetings.

Mr. Potts, in reply, thanked his fellow members for their kind expression of sentiment, and returned like feelings of friendship and good will.

Mr. Whiton presented his congratulation to the retiring members and wished he was one of the number.

Mr. Finch did not feel sorry to go; but Mr. Flanders regretted that all those who had served with him were not to continue in office.

The Council of '80 then adjourned, sine die.

MONDAY, JANUARY 3rd, 1881.

The members of the new Council were rather backward in coming forward at their first meeting. It was some time after the regular hour of assembling before all had arrived and were called to order by the City Clerk.

Present, Messrs Whiton, Darling, A. H. Smith, H. Smith, Flanders, Hamilton, Guion, Waring and Tyler. Absent, Coriell.

On motion of Mr. Darling, Mr. Mason W. Tyler was chosen temporary Chairman. That gentleman, however, thought that in view of the affliction that had befallen a fellow member it would be no more than proper to adjourn for one week with the hope that the absent one might then be present. A motion to that effect seconded by Mr. Whiton, was then carried.

A comparison, after adjournment, of the conveniences of the date selected for reassembling, resulted in empowering the City Clerk to call the Council together on Tuesday evening next at 8 o'clock.

NORTH PLAINFIELD PARAGRAPHS.

The members of Warren Engine Co. made New Year's day a memorable one for their Treasurer, Mr. Augustus Smith, by the presentation to that gentleman of a handsome gold badge. This gift was a token of the Company's appreciation of Mr. Smith's services during the past many years, and was undeniably deserved.

The residents of such streets as are cleared of snow by Mr. P. M. French's horse-drawn and Mr. Abel Stewart's hand-propelled ploughs, cannot be too appreciative of such a blessing. Will not some one in Plainfield city show as much enterprise in the same direction for the benefit of his fellow-man?

POSTSCRIPT.

A Probable Murder!

George Harrison, a widower, formerly employed by a Mr. Cooley, in North Plainfield and now employed by Joseph W. Yates, Esq., of this city, as janitor of a Flat in Brooklyn, N. Y., visited this city on Wednesday for the purpose of seeing his children who are boarding in North Plainfield. He met a friend named James Kelley and signified an intention of remaining over night and taking the 3 a. m. train from this city for New York and thence to Brooklyn in time to attend to his business.

Mr. Kelly insisted upon his remaining over night at his residence. Mr. Harrison agreed, and stated he would sleep on a lounge on the first floor and retired. He left early in the morning, and when Mr. Kelly awoke at about 5 a. m. he heard some one at the front door, which he opened and discovered with surprise Mr. H., who was terribly bruised and unable to talk.

After being taken inside and given a cup of tea, he uttered the words: "The d—— —— got the best of me!" and sank into unconsciousness. Dr. Frittis of this city was called and did all in his power towards the man's comfort, but it is expected (as we go to press) that he cannot live. The affair is wrapped in the greatest mystery.

The Grand Jury of Union County adjourned this (Thursday) morning after bringing in ten bills of indictment.

Mrs. Meierhoeffer and Frank Lammens were hanged to-day (Thursday)—neither making a confession.

THE FORM OF ELY'S CREAM BALM, for the cure of Catarrh and Hay Fever, and the method of its reaching the diseased mucous membrane (viz., by absorption) renders it far superior to any other article. I have yet to hear the first complaint of its failure to do what is claimed for it. I unhesitatingly recommend it to the trade as a very saleable article, and to those who are suffering from the above mentioned complaints, as the great desideratum. E. J. Various Causes—

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. Ayer's Hair Vigor will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous. For sale by all dealers.

Wonderful successes like those of Stewart, the Vanderbilts, or the Astors are seldom reached by luck or accident. It is the result of something within the compounds of success; and it is only done that prove them all right. While new discoveries are daily brought forward here few remain as monuments of their worth. It is the merit that lasts—ANDREW'S ELIXIR OF SULPHUR for Coughs, Colds, Consumption, etc., first discovered or originated after long years of study by a patient Massachusetts chemist, has gradually proved itself a success from Maine to Oregon, and to-day no more successful preparation for the care of Throat and Lung complaints can be found in the world. MISCELLANEOUS READING.

AT THE STAMP WINDOW.

Just before 11 o'clock in the forenoon there were thirteen men and one woman at the stamp window of the postoffice. Most of the men had letters to post for the eastern trains. The woman had something tied up in a blue match-box. She got there first, and she held the position with her head in the window and both elbows on the shelf.

"Is there such a place in this country as Cleveland?" she began.

"Oh, yes."

"Do you send mail there?"

"Yes."

"Well, a woman living next door asked me to mail this box for her. I guess it's directed all right. She said it ought to go for a cent."

"Takes two cents," said the clerk, after weighing it. "If there's writing inside it will be twelve cents."

"Mercy on me, but how you do charge!"

Here the thirteen men began to push up and hustle around and talk about one old match-box delaying two dozen business letters, but the woman had lots of time.

"Then it will be two cents, eh?"

"If there is no writing inside."

"Well, there may be. I know she is a great hand to write. She's sending some flower seed to her sister, and I presume she has told her how to plant 'em."

"Two threes!" called one of the crowd, as he tried to get to the window.

"Hurry up!" called another.

"There ought to be a separate window here for women!" growled a third.

"Then it will take twelve cents!" she calmly queried, as she fumbled around for her purse.

"Yes."

"Well, I'd better pay it, I guess."

From one pocket she took two coppers. From her reticule she took a three-cent piece. From her purse she fished out a nickel; and it was only after a hunt of eighty seconds that she got the twelve cents together. She then consumed four minutes in putting on the stamps, asking where to post the box and wondering if there really was any writing inside. But woman proposes and man disposes. Twenty thousand dollars worth of business was waiting for a twelve-cent woman, and a tidal wave suddenly took her away from the window. In sixty seconds the thirteen men had been waited on and gone their ways, and the woman returned to the window, handed in the box, and said: "Them stamps are put on kind of crooked, but it won't make any difference, will it?"—*Detroit Free Press.*

A SLEEPING CAR SOLO CONCERT.

The passengers on last Wednesday's overland were endeavoring to snatch a few final winks during their last night on the way, when a man got in at Reno about one a. m., and asked the sleeping-car porter for a berth.

The few passengers who were awakened by the newcomer grumbled a little at the ingress of cold air, but the majority of the sleepers would have snored peacefully on had not the new arrival persisted in whistling the "Swanee Ribber" in a low but particularly shrill and exasperating key. After everybody in the car had turned over and sworn at least once apiece the whistler finished the air.

Then he began on "The Old Kentucky Home." It took him fifteen minutes to work that off, aided by an invisible swearing accompaniment. Then he whistled "Kingdom Coming" in a spirited manner, and, as negro melodies seemed his strong point, followed that with "Don't Get Weary."

"I wish you'd get weary," growled a nervous man in the compartment underneath as he pounded on the partition. "Hi! there; let up, can't you?"

But the whistler was evidently a little deaf or very obstinate, as he paid no attention to the sensation he created, but branched calmly off into "Swing Low Sweet Chariot."

Pretty soon half a dozen enraged men in their underclothes congregated around the water-cooler and went into executive session on the state of affairs.

"Let's find the conductor," suggested one.

"He's six cars forward playing pedro, with the baggage-smashers," growled another.

There was a pregnant pause during which "The Gospel Train" could be heard sweetly trilled from the other end.

"Well, gentlemen, I suppose there is no other way," said a big, morose looking man, glancing furtively at the rest of the committee.

"Don't see that there is," they replied thoughtfully.

"Same old verdict: Fell outer the window in a nightmare" continued the big man, rolling up his sleeves. "Come along, gentlemen, we'll slam him right in."

But when they drew aside the curtains the intended victim was calmly warbling through "We'll all be dar," with mocking bird variations.

With grim sarcasm the committee waited until he was quite through. Then the whistler shut his eyes and *turned over.*

"You don't mean to say that's the last air you know," said the Chairman getting ready for a grand boost.

"No," said the warbler apologetically, "I know one more, 'We's Comin', Comin',' but I've got a cold here on the tip of my tongue, and you'll have to excuse me to-night, boys. Be patient, and I'll try to work you off a chune or two in the morning," and he began to snore.

And after a few minutes silence that could be cut with a knife, the crowd softly replaced the curtain, and respectfully withdrew by a common consent.

"I've heard about cheek," said the big man, as he shinned back into his berth, "but a man with a gaul like that is a natural curiosity. He is something to be proud of, he is. He takes in the entire cake, crumbs and all.—*San Francisco Post.*

"No, marm," said the shoe dealer, "I would like to give you a smaller pair, but to sell you anything below eights, would render me liable under the statute for the prevention of cruelty to animals." He didn't sell her anything under eights or over it. Some women are so touchy about the size of their feet.

The mule, like time, should be taken by the forelock, and not by the fetlock.

The man who stole a march couldn't dispose of it, and sent it back.

When a man puts on a wooden leg he performs a genuine act of sublimity.

The linen duster can safely be stowed away, but the leather duster never.

HAPPY ENDING.

Long Suffering of One of the Best Men of Pleasant Valley, Dutchess Co., N. Y.—His Relief and Complete Recovery from Gravel.

PLAIN WORDS ARE BEST.—Mr. Edward S. Hicks, of Pleasant Valley, Dutchess county, N. Y., had suffered long from Disease in the Kidneys. He sought relief, of course. Who would not? What are time and money to health? Mr. Hicks consulted the best physicians of his village and also of Poughkeepsie—and none better can be found anywhere—but, unhappily, without a great result. A friend in Rondout advised Mr. Hicks to go to Rondout and see Dr. David Kennedy about his trouble. This Mr. Hicks finally did. Dr. Kennedy saw at once what the suffering man's difficulty was, and that Favorite Remedy was the medicine he needed. The Doctor prescribed it, and Mr. Hicks went home without much confidence in the power of "Favorite Remedy" to do him more good than other medicines had done before. But hope clings to [illegible], and he thought there might be one chance out of many in his favor. He followed the directions and was both surprised and delighted to find himself presently improving. To-day Mr. Hicks is a well man.

While Dr. Kennedy is interested in introducing "Favorite Remedy," he continues to practice his profession and performs all the capital and minor operations in surgery. State your case. Letters promptly answered. Address Dr. David Kennedy, Rondout, N. Y. dec10w4

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper throughout the year to come everybody will find:

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eye-sight. THE SUN long ago discovered the golden mean between redundant fullness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. THE SUN'S habit is to speak out fearlessly about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of partisan organizations, but unwavering loyalty to true Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the years immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free.

Beware of Pedlars!
How to Correct and Improve

YOUR **SIGHT**

IMPROVEMENTS OF THE DAY.

One of these is found in KING'S PATENT COMBINATION SPECTACLES.

As the name indicates, they consist of a combination of silver and steel frames, the silver bridge making a more elegant, durable and flexible frame and enabling any dealer to adjust it to any face, so that the centre of the lens is in the direct line of vision, thus giving the greatest benefit possible to be derived from the use of spectacles.

It also enables anyone to adjust it themselves to the position where it best corrects the sight.

All persons buying the COMBINATION SPECTACLES have their eyes fitted by KING'S NEW SYSTEM, the method used by Professional Oculists and the only true means of accurately testing the vision.

THIS SYSTEM IS COPYRIGHTED, and can only be used by Mr. King's Agents, all of whom are instructed in its use.

WARNER'S
SAFE
KIDNEY & LIVER
CURE

The leading Scientists of to-day agree that most diseases are caused by disordered Kidneys or Liver. If, therefore, the Kidneys and Liver are kept in perfect order, perfect health will be the result. This truth has only been known a short time and for years people suffered great agony without being able to find relief. The discovery of Warner's Safe Kidney and Liver Cure marks a new era in the treatment of these troubles. Made from a simple tropical leaf of rare value, it contains just the elements necessary to nourish and invigorate both of these great organs, and safely restore and keep them in order. It is a POSITIVE Remedy for all the diseases that cause pains in the lower part of the body—for Torpid Liver—Headaches—Jaundice—Dizziness—Gravel—Fever, Ague—Malarial Fever, and all difficulties of the Kidneys, Liver and Urinary Organs.

It is a Blood Purifier it is unequaled, for it cures the organs that make the blood.

READ THE RECORD.

"It saved my life."—*E. B. Lakely, Selma, Ala.*

"It is the remedy that will cure the many diseases peculiar to women."—*Mothers' Magazine.*

"It has passed severe tests and won endorsements from some of the highest medical talent in the country."—*New York World.*

"No remedy heretofore discovered can be held for one moment in comparison with it."—*Rev. C. A. Harvey, D. D., Washington, D. C.*

This Remedy, which has done such wonders, is put up in the LARGEST SIZED BOTTLE of any medicine upon the market, and is sold by Druggists and all dealers at $1.25 per bottle. For Diabetes, enquire for WARNER'S SAFE DIABETES CURE. It is a POSITIVE Remedy.

THE BEST PAPER! TRY IT!

BEAUTIFULLY ILLUSTRATED.
36th YEAR.

The Scientific American.

THE SCIENTIFIC AMERICAN is a large First-Class Weekly Newspaper of Sixteen pages, printed in the most beautiful style, profusely illustrated with splendid engravings, representing the newest inventions and the most recent advances in the Arts and Sciences; including new and interesting Facts in Agriculture, Horticulture, the Home, Health, Medical Progress, Social Science, Natural History, Geology, Astronomy. The most valuable practical papers, by eminent writers in all departments of Science, will be found in the Scientific American.

Terms, $3.20 per year, $1.60 half year, which includes postage. Discount to Agents. Single copies, ten cents. Sold by all Newsdealers. Remit by postal order to MUNN & CO., Publishers, 37 Park Row, New York.

PATENTS. In connection with the **Scientific American,** Messrs. Munn & Co. are Solicitors of American and Foreign Patents, have had 35 years experience, and now have the largest establishment in the world. Patents are obtained on the best terms. A special notice is made in the **Scientific American** of all Inventions patented through this Agency, with the name and residence of the Patentee. By the immense circulation thus given, public attention is directed to the merits of the new patent, and sales or introduction often easily effected.

Any person who has made a new discovery or invention, can ascertain, free of charge, whether a patent can probably be obtained, by writing to Munn & Co. We also send free our Hand Book about the Patent Laws, Patents, Caveats, Trade-Marks, their costs, and how procured, with hints for procuring advances on inventions. POETRY.

AFTER THE RAIN.

The rain has ceased, and in my room
The sunshine pours an airy flood;
And on the church's dizzy vane
The ancient cross is bathed in blood.

From out the dripping ivy leaves,
Antiquely carved, gray and high,
A dormer, facing westward, looks
Upon the village like an eye.

And now it glimmers in the sun,
A globe of gold; a disc, a speck;
And in the belfry sits a dove,
With purple ripples on her neck.
—T. B. ALDRICH.

THE DOCTOR'S STORY.

BY JUDGE CLARK.

I had just returned from a late visit to a patient and was glancing over a note left in my absence, when the night bell rang.

It was past eleven o'clock, and the office boy being gone, I tossed aside the note and went to the door, where I found a dark-featured man, who wished me to go to the bedside of a wounded friend. I took down my surgical case and accompanied the stranger to the street. The latter called a hack from the next corner.

"It's a long way to walk," he explained, "and the moments are precious."

As I took my seat inside he gave the driver his instructions, which I failed to overhear, and then took his place at my side.

"I trust you will pardon me," he said, when we had gone a little distance; "it is through no distrust I offer the suggestion, but it may relieve you from answering embarrassing questions in the future if you will suffer your eyes to be bandaged till we reach our destination. You need have no fears, I assure you."

I hesitated for an instant, but the man's manner from the first had impressed me with his good faith and I yielded to the proposal. After tying his handkerchief securely over my eyes, my companion relapsed into silence and neither of us spoke, till, at the end of twenty minutes the driver stopped.

"Let us alight here," said the stranger; and opening the door he took my arm and assisted me out. After a short walk we ascended some steps. A door opened and closed again behind us, and then we passed up a flight of stairs and halted. My guide tapped twice at the door, after which I was led into a lighted apartment, as I was able to discover in spite of the bandage. A deep moaning, as one suffering intense pain, met my ears. The handkerchief being at once removed, I saw stretched on a couch the form of a man from whose parted lips a bloody foam exuded; while his upturned, glassy eyes and rigid feature betokened that his last hour was near.

On his right breast, which was exposed, a small red spot was visible, of which it needed no second glance of a practical eye to divine that the man was dying of a pistol shot. The scene before, and the precautions taken in my introduction to it, awoke the suspicion that what I saw was the sequel to a startling crime. My startled looks doubtless betrayed my thoughts, for a man who had been keeping watch at the sufferer's side, as he rose to give me place, said, hurriedly:

"It was a duel, sir, between two gentlemen who had been close friends. The quarrel was sudden and they fought here in this room. One, you see, lies wounded there and the other has fled, for you know the severity in such cases to all concerned, principals and seconds, which last position was filled by this gentleman and myself."

A brief inspection of the patient sufficed to determine that his case was hopeless, as the ball had entered the chest and penetrated the lungs, whose action was well nigh choked by internal hemorrhage. There was nothing to be done but allay, as far as practicable, the sufferer's pain. Apprising his friends of this and prescribing an anodyne, with directions how to administer it, I rose to depart.

"By accident," said one of the men, "we are without money; but if you will accept this," placing in my hand a small silver watch, apparently of no great value, "it may serve as some compensation for your trouble."

I took the watch more as a souvenir of the night's adventure than for its value, and after being again blindfolded, was conducted to the road, where, after walking a little way, another hack was called, in which, accompanied by my previous companion, I was conveyed to the vicinity of my office and set down without further words.

A week or more passed without the happening of anything to recall the late occurrence, when one morning I had a call from a couple of strangers.

"You were acquainted, I believe," one of them began, "with a young man named Howard Eccles."

"Slightly," I answered; "we boarded in the same house until recently."

"Perhaps, then," interposed the other visitor, "you can give us some information as to his present whereabouts?"

"I cannot. He has left the city, I believe—at least I received a note from him some days since stating such to be his intention. There is the note," I said, handing over the one I was reading when called to attend the wounded man.

The two strangers bent their heads over it and scanned it together.

"Ha!" exclaimed he who had spoken first, "I see he asks you here to meet him at an out-of-the-way place. Did you do so?"

"I did not," I answered. "I came in late and did not receive the message in time."

The men conferred briefly aside, then one of them spoke up quickly, while both eyed me sharply:

"A body identified as that of Howard Eccles has been found floating in the river with a bullet wound in the breast. He was never seen alive after the time at which he here appoints to meet you. As officers of the law it is our duty to follow every clue, and we must begin by searching these premises."

One of the first objects brought to light was the watch already spoken of. It was opened eagerly, and again the two heads met in close inspection. "I think we need proceed no further," spoke up one of the men, excitedly. "This is the murdered man's watch, bearing the maker's name and number, as we have them from the man who last repaired it."

And before I had time to realize the situation, I was dragged away and locked up on a charge of murder.

No one doubted my guilt. I was young and comparatively friendless; and, to the circumstance of the victim's watch being found in my possession, and that of the note inviting me to meet him, others were soon added—among them my mysterious movements on the night in question, which had not passed unnoticed.

My account of the manner in which I had gained possession of the watch was received with derision; its improbability, in the minds of many, added a fresh link to the chain of evidence against me. A jury of my countrymen pronounced me guilty, and the judge, after denouncing me as a monster of iniquity, pronounced upon me the law's dread sentence. The days sped rapidly after that. I had but a week left to live, when one day as I peeped through the grating of my cell, a new prisoner was led past. He turned his head and a cry escaped me. It was Howard Eccles!

"You here!" he exclaimed.

"Yes; condemned to die for your murder!"

"What a good joke if it wasn't so serious!" he said; "and what fools judges and juries are sometimes. A year ago, in a neighboring city—I may as well own up, for they have clear proof against me, I made too free with my employer's money. When you knew me I was a fugitive under an assumed name. The day I wrote you the note I had received an intimation that detectives were on my track. I determined to sail for Europe, and wished to intrust you with some slight commissions before departing.

"After waiting as long as I could at the place appointed in my note, I was hurrying to go aboard the vessel on which I had taken passage, when I was attacked by three men. One of them grabbed my watch, while another attempted to secure my money. Before he could succeed I drew my pistol and fired, and the robber staggered back. In the confusion which ensued I escaped and reached the ship, which sailed almost immediately. But ill luck pursued me, and here I am fast in their clutches, and doubtless you would have heard the good news sooner—for it must be good to you—but as I've been brought back in my own name and haven't seen any of my old acquaintances, I suppose that accounts for my identity with the late Howard Eccles not being sooner discovered."

As I looked on the face before me I was struck with its wonderful resemblance to the wounded man whom I had been so mysteriously called to attend, and whose body had evidently been disposed of by casting it into the river.

That day I walked forth a free man, devoutly thankful to that Superior Power to whose intervention I shall ever attribute my escape from a peril at the recollection of which I still shudder.

FASHION NOTES.

India shawls never go out of fashion.

Vermicelli lace is the latest novelty in lace goods.

Bangles are worn to excess by fashionable women.

Furniture effects are sought for in recent costumes.

Fur-trimmed costumes begin to make an appearance.

Hoods on dresses, as well as on wraps grow in favor.

Lace pins have completely superseded other kinds of brooches.

Deep yellow or coral-pink China asters are the flowers of the moment.

Dull red is a popular shade for young girls' and children's wool suits.

The latest hoods on dresses and wraps are rounded, not pointed, in the back.

The only flowers used for winter hats and bonnets are made of plush, velvet and satin.

Mother Hubbard bonnets are shirred hats of good large size, tied down over the ears.

Chenille fringes, with strands of gold or silver thread, are much used for ball dress trimming.

The harmonies or symphonies of color must be well preserved in Japanese screen front dresses.

Six bangles on each arm are not considered too many by girls who adopt the extreme of that style.

Very wide muslin cravats trimmed with lace are worn around the neck again, with the large bow tied on the side a la Bernhardt.

When the embroidered Japanese screen fronts of dresses are in bright colors, the brocades, satins or plushes of the other parts of the costume are in colors to match the tone of the screen drapery.

The latest novelty in costumes is the use of fine embroidered satin Japanese screen draperies for the front breadths of the underskirt, while the overdress is of striped plush and satin in colors to match the drapery.

Black satin Japanese screen draperies, embroidered in gold, are sold for the front breadths of dresses, to be combined with black and gold striped plush, or black and gold ciselé velvets. The trimmings of such dresses are gold embroidered bands and gold and black fringes.

Satin petticoats are very fashionable this winter, made in every shade of color, from black and garnet to gold and scarlet, and laid in puffings and quiltings or trimmed with flat bands of the material, richly embroidered and often hand painted. Very pretty and serviceable skirts are also made of Austrian wool. These skirts are usually trimmed with several rows of knife or box-plaited frills, which have previously been brightened by the fine lines of silk machine stitching.

A stylish walking costume is made of dark blue vigogne and cashmere brocade in dark Oriental colors. The underskirt has fine knife-plaited ruffles around the bottom, headed by bias border of the brocade. The overskirt forms a double drapery in front, and is trimmed on both edges with bias bands of the brocade. It is trimmed the same in the back and slightly draped. The bodice is long waisted, and high in the neck, and is fastened with handsome Persian buttons. The outside coat is of the vigogne.

DIDN'T HAVE ANY INFLUENCE.

"Durn yo' newspaper! That's what I say! Talk to me 'bout influence—why they ain't got no more influence over people than a bed-bug has!"

That's what he said, standing at our front gate, last Tuesday afternoon.

He is one of our staunch citizens, one of that class known as the backbone of society. That is to say, he is one of that class noted for stubbornness and unprogressiveness. Your "backbone of society" men are always stubborn and unprogressive.

Having delivered the oracular words mentioned, he shuffled on up Tripp street home.

When he reached home, he walked up stairs to his room, pulled off his boots, settled back comfortably in his chair and glanced around the room. His eyes rested on a copy of last week's Messenger, and upon that particular spot in the joke column headed "A remedy for corns." He picked up the paper and read, "If you are suffering with a corn tie a string around it, attach a stone to the other end of the string, and drop the stone out of the window. Instant cure guaranteed."

Now he had a corn. A great big eternally painful corn.

He couldn't give a reason for it next day, but he concluded to try the remedy.

He found a strong twine string, went down into the yard and procured a ten-pound stone, returned to his room, tied the string around his corn, and stood up in the middle of the room ready for action.

Balancing the stone in his hands, he counted, "One, two, three!" and pitched it out of the window.

The result was surprising.

The weight of the stone tore the corn out by the roots, and jerked him flat on the floor. He rolled over and over toward the door, yelling and crying with pain.

"Murder! Fire! Thieves! Jimmy, oh! Jiminy! The devil's to pay up here! Run for Dr. Nisbet! Put me in a bucket of cold water! Oh! the dingnation!"

Oblivious to everything except the pain, he hadn't been very particular as to his movements, and, before he knew it, he had rolled to the head of the stairs and started head first toward the bottom.

It didn't take him long to get down, and when he got to the bottom he was met by an infuriated female who pulled his hair, kicked him in the side and finally "wound up" by sitting on him.

It was his wife, upon whose head the stone had fallen.

In the course of time things got quiet, and as he stood moodily at the front door he remarked, seemingly to the wide expanse of the skies:

"Durn every newspaper in America! If ever another one comes into my house, I'll kill the editor, or my name ain't Aristides Tyler Williams, by thunder!"

MAN.

The average weight of an adult man is 140 pounds 6 ounces.

The average weight of a skeleton is about 14 pounds.

Number of bones, 240.

The skeleton measures one inch less than the height of the living man.

The average weight of the brain of a man is 3½ pounds; of a woman, 2 pounds 11 ounces.

The brain of a man exceeds twice that of any other animal.

The average height of an Englishman is 5 feet 9 inches; of a Frenchman, 5 feet 4 inches; and of a Belgian, 5 feet 6¾ inches.

The average weight of an Englishman is 150 pounds; of a Frenchman, 136 pounds; and of a Belgian, 140 pounds.

The average number of teeth is 32.

A man breathes about 20 times in a minute, or 1,200 times in an hour.

A man breathes about 18 pints of air in a minute, or upwards of 7 hogsheads in a day.

A man gives off 4.08 per cent carbonic gas of the air he respires; respires 10,666 cubic feet of carbonic acid gas in twenty-four hours; consumes 10,667 cubic feet of oxygen in twenty-four hours, equal to 125 cubic inches of common air.

A man annually contributes to vegetation 124 pounds of carbon.

The average of the pulse in infancy is 120 per minute; in manhood, 80; at 60 years, 60. The pulse of females is more frequent than that of males.

The weight of the circulating blood is about twenty-eight pounds.

The heart beats seventy-five times in a minute; sends nearly ten pounds of blood through the veins and arteries each beat; makes four beats while we breathe once.

540 pounds, or one hogshead one and one-quarter pints of blood pass through the heart in one hour.

12,960 pounds, or twenty-four hogsheads four gallons, or 10,782¼ pints pass through the heart in twenty-four hours.

WORSE OFF THAN THE PRODIGAL.

In an alley off Hastings street, just back of a tumble-down rookery, a member of the sanitary police squad found a man lying under a wagon and inquired if he was ill. The man pointed to the old house, cautioned the officer to speak low, and replied:

"I'm the husband of the woman you see hanging out clothes over there."

"And why are you hiding here?"

"I've been off on a spree for a whole week."

"Ah! I see. It is the return of the prodigal."

"Worse than that, sir. The prodigal had no wife, and he didn't steal the rent money to get drunk on. Oh, I'll catch it, sir, if you don't intercede for me."

"But what can I do?"

"You slip around to the front of the house and say you have news for her. Watch her face, and see how she takes it. Then tell her lies about me. Watch and see if she gets white around the mouth. Tell her that you have news that I was drowned at the ferry dock. Watch her tears at this point. Tell her that I called her dear name as I went down for the last time. Watch and see if that melts her. If I can get her all broken down and overcome I'll bust in on her and get her forgiveness before she gets over wiping her eyes and pulling her nose. Go now, and I'll owe you a debt of gratitude all my life. I think Mary will melt under your soft words."

The officer slipped around and told the wife that her husband was hiding in the alley, and then took a position where he could witness what followed. He had hardly secured it when the man came down the alley on a gallop, followed at a short distance by the wife, armed with a hoe-handle. There were no words spoken, but the man simply threw up clouds of dust with his heels as he put on the steam. As he passed the officer he somewhat curtly observed:

"Ah! that [illegible] ain't worth shucks at the melting business."—*Detroit Free Press.*

A FOULLY INJURED MAN.

"John Hall, you were very drunk last night," said his Honor, as a send off.

"I think not, sir."

"Well, you have a right to differ. Officer, was he drunk?"

"He was, sir."

"How drunk?"

"Well, he fell down four times in crossing the road, and the last time he fell he settled down for a nap."

"That's our case, Mr. Hall. Have you any defense?"

"I have, sir. I had not tasted any liquor of any sort all day long. Just before I met the officer I got choked, and that was what ailed me when he picked me up."

"Choked? What with?"

"With an apple."

"Have you got it?"

"Yes, sir. When the officer shook me, he shook the apple out of my gullet, and I put it in my pocket to bring and show you."

He thereupon pulled from his coat-tail pocket a frozen greening, larger than a coffee cup, and laid it on the desk.

"Do you mean to tell me that you had that apple in your mouth?"

"Yes, sir. I was going to take a bite when it slipped down into my gullet, and if the officer hadn't given me a shake, I might have suffocated."

"You can't get the apple into your mouth. No such story will go down here."

"See here, Judge," and he opened a mouth big enough to take in a quart bowl, tossed in the apple, rattled it around, and dropped it into his hand again with a smile of triumph.

"You may go," said his Honor, after a long silence. "With such a mouth as that you'll eat more than you can earn in any prison. Take your frozen apple and go your way."

"Thank you. I'd like to bring my brother in some day, and let you see his mouth. He can hold a peck of hickory nuts and sing a song at the same time."

ANOTHER GOOD BOY.

A Detroit grocer was the other day hungrily waiting for his clerk to return from dinner and give him a chance at his own noonday meal, when a boy came into the store with a basket in his hand, and said:

"I seed a boy grab up this ere basket from the door and run, and I run after him and made him give it up."

"My lad, you are an honest boy."

"Yes, sir."

"And a good boy should always be encouraged. In a box in the back room there are eight dozen eggs. You may take them home to your mother and keep the basket."

The grocer had been saving those eggs for days and weeks to reward some one. In rewarding a good boy he also got eight dozen bad eggs carried out of the neighborhood free of cost, and he chuckled a little chuck as he walked homeward.

The afternoon waned, night came and went, and once more the grocer went to dinner. When he returned he was picking his teeth and wearing a complacent smile. His eyes caught a basket of eight-dozen eggs as he entered the store, and he queried:

"Been buying some eggs?"

"Yes; got hold of these from a farmer's boy," replied the clerk.

"A lame boy with a blue cap on?"

"Yes."

"Two front teeth out?"

"Yes."

The grocer sat down and examined the eggs. The shells had been washed clean, but they were the same eggs that good boy had lugged home the day before.—*Free Press.*

HOW A DUTCHMAN GOT EVEN.

Once on a time there lived a jovial Dutchman, whose name was Hanness Von Shrimpelffel. He had a wife. He also had a little grocery where beer and such personal property was sold. He gave credit to a parcel of dry customers, and kept his books with a piece of white chalk on the head-board of the bed-room.

One day Mrs. Shrimpelffel, in a neat fit took it upon herself to clean the house and things, so she did and cleaned the head-board and with soap and water settled the old man's accounts, wiping away every chalk mark.

Pretty soon before long the old vender of things came into the house and saw what ruin his frau had wrought. Then he said:

"Mein Gott, Frau Shrimpelffel, what for you make a ruined man of me I guess not? You make wipe away all dem names and figures what I owe dem fellers what's going to pay me before they get ready, and I lose more as ayet hundred tollar!"

His frau left the room in fear and disgust. When she returned he had recovered the head-board with chalk marks. Then said she:

"Hanness, you have make them all right again, don't it?"

"Vell, mein teerer frau, make the figures all right, but I put down some petter names as dem old fellers vot you wiped out!"

People like to read how their city has grown in population, but the Philadelphia *Record* reminds us that there is a dark side to this picture when it says:

"Populous cities are monsters that destroy life rather than nourish it. In the city of New York, for the year 1880, there were [illegible] deaths and only [illegible] births. Two-fifths of the deaths are among children under five years of age. These tender lives cannot stand the bad air and close confinement of pent-up dwellings and unwholesome streets."

ONWARD! DEMOCRATS!

The distinguishing trait of the Democratic party over all other parties, and one that makes it illustrious, is the fact of its lengthened vitality and practical usefulness.

Born soon after the adoption of the Constitution of the United States, and following implicitly the teachings of that instrument, in peace and in war, it has withstood every change in human affairs, dashed aside the bitterest of opposition, strengthened with the growth of freedom, and remains to-day, as it was originally designed to be, the sure bulwark of civil and religious liberty.

Many parties have reared hostile fronts and strove with might to crush out Democracy, but time has written their epitaphs. They moulder in political graves, while Democracy lives as vigorous as of yore.

Why?

The answer is brief and truth attested.

Because the Democratic party is and always has been swayed by definite principles, and furthermore, because it is of and for the people.

For that reason the Democratic party cannot be destroyed. Its death would be the extinguishment of the Republic, and the American people will never permit such a dire catastrophe.

In the future as in the past, adverse political organizations will arise and may for a season flourish, but, like their numerous predecessors, only to sink beneath the waves of oblivion.

Federalism, National Republicanism, Whigism, Anti-Masonry and Know Nothingism all killed themselves in futile efforts to annihilate Democracy, and the present Republican party will be no exception to the obituary list.

The Jeffersonian banner is bound to wave in triumph.

Democrats! Onward to victory!

NEW JERSEY LEGISLATURE.

The Legislature of this State organized last Tuesday by the selection of the following named officers:

HOUSE.

Speaker—Harrison Van Duyn, of Essex. Clerk, Cummins O. Cooper, of Morris. Ass't. Clerk, Asa W. Dickinson, of Hudson. Sergeant-at-Arms, John A. Brown, of Gloucester. Ass't Sergeant-at-Arms, Theo. H. Lawrence, of Mercer. Engrossing Clerk, Geo. C. Wynkoop, of Camden. Keeper of Ladies' Gallery, August Bergmann, of Passaic. Keeper of Gentlemen's Gallery, Wm. B. Mulford, of Somerset.

SENATE.

President—Garret A. Hobart, of Passaic. Secretary, George Wurts, of Passaic. Ass't. Secretary, Wm. Hunt, of Essex. Engrossing Clerk, Dr. Edward M. Beasley, of Warren. Ass't. Eng. Clerk, Mr. S. Snyder, of Ocean. Sergeant-at-Arms, L. L. Mulford, of Salem. Doorkeepers, J. H. Herbert, Chas. Randall and David Hickman. Journal Clerk, Joseph A. Hulme, of Burlington. President's Private Secretary, William J. Bruce, of Burlington.

A number of bills were introduced, the Governor's message received and on Wednesday both branches of the Legislature adjourned to Monday of next week. The contest for United States Senator raged fearfully, and in all probability Gen. Sewell will be chosen on the 25th.

The Governor's Message.

Governor McClellan's third annual message was read before the Legislature on Tuesday. The document is a brief and concise one, giving much information regarding the State's affairs. We make the following extracts from it. He says:

Following the practice of my previous messages, I shall not dwell upon the details of the financial condition, but refer you to the exhaustive reports of the Comptroller and Treasurer for full information.

During the year just ended no temporary loans, in anticipation of receipts, have been required by the State Fund to meet accruing liabilities, and at its close there was no indebtedness other than the outstanding war bonds, which then amounted to one million nine hundred and ninety-six thousand three hundred dollars ($1,996,300), and at the date of this message have been reduced to one million eight hundred and ninety-six thousand three hundred dollars ($1,896,300). As indicated by the Comptroller, in two years, at most, this debt will probably cease to be a charge upon the State Fund, and can be cared for entirely by the Sinking Fund.

The receipts on account of the State Fund were two hundred and fifty-five thousand four hundred and three dollars and eighty-six cents ($255,403.86) from the proceeds of the State tax, and eight hundred and twenty thousand and seventeen dollars and twenty-four cents ($520,317.24) from regular sources of revenue, making together one million seventy-five thousand four hundred and twenty-one dollars and ten cents ($1,075,421.10) which, with the balance on hand at the beginning of the year, made up the sum of one million three hundred and ninety-two thousand one hundred and nine dollars and seventy-nine cents ($1,392,109.79) available for the purposes of this fund during the year.

The disbursements on this account were one million seven thousand three hundred and seventy-nine dollars and thirty-four cents ($1,007,379.34), a decrease of fifty-nine thousand nine hundred and eighty dollars and ninety cents ($59,980.90) as compared with the preceding year.

The balance on hand to the credit of the State Fund on October 31st, 1880, was three hundred and eighty-four thousand seven hundred and thirty dollars and forty-five cents ($384,730.45), an increase of sixty-eight thousand and forty-one dollars and seventy-six cents ($68,041.76), in comparison with the year before.

The experience of the past year has proved the propriety of the removal of the State Tax; for the decrease in expenses and the increase from the regular sources of revenue, together with the balance on hand, will safely carry us through the coming year.

In regard to Public Schools, he says:

Although there was a falling off in the proceeds of the two-mill tax, the total receipts for school purposes were a little greater than in the preceding year, and with the increase in the assessed value of property, it is to be expected that in future, there will be a steady increase in the amount available for the support of public schools. There is to be noted the usual slight increase in the school census, and the number of enrolled children; the average attendance shows a gratifying increase.

The decrease in the average salaries of teachers is not a pleasant feature of the year's history. Certainly there are few positions in life more important or which require such a happy union of rare qualities.

The practice, too generally, is to commence all measures of economy by reducing the small salaries of the teachers and to regulate the quality of the teachers by the amount set aside for the salary, instead of the reverse operation.

There can be no question that the general results of public education would be far greater were those entrusted with the direction of such matters, to adopt the principle that they would first select the most competent teachers available and then assign them salaries sufficient to content them and make them regard teaching as their permanent occupation, and that the last measure taken in the interest of economy should be the decrease of the teacher's salary below a proper point.

It would be well if all in this land could be taught to realize that for those who perform their allotted life work honestly and manfully all pursuits are alike honorable, and that he who spends his life in hard manual toil, if he is worthy and industrious, is just as deserving of respect as he who devotes himself to purely intellectual labor; and more than this—that it may be doubted whether at the close of a busy life the sum of content is greater in the latter than in the former case.

There is another branch of education which comes, I think, fairly within the consideration of the State: that is Industrial Education.

The returns of the Bureau of Labor and Industries show that for the year 1880 the products of twenty-six (26) branches of industry were of the value of one hundred and ten million dollars ($110,000,000), and that they paid nearly twenty-eight million five hundred thousand dollars ($28,500,000) for wages to nearly seventy-five thousand five hundred (75,500) employees.

Never before in the history of industrial enterprises has there existed so great a demand for skilled labor, while the practical abolition of the system of apprenticeship and the lack of technical schools renders it impossible to supply the demand to the requisite extent. Unskilled labor is superabundant—the professions are overstocked. The necessity of the hour is to convert unskilled into skilled labor, and also to open avenues for remunerative employment in the arts and industries to those who otherwise would only add to the already excessive number striving for existence in the professional or mercantile walks of life.

The establishment of schools for technical and artistic instruction—for both sexes—seems the only practicable solution of a pressing need.

In regard to the State Prison the Governor says that according to the report of the Inspectors, Keeper and Supervisor, the management of that institution has been entirely satisfactory; strict, but not harsh discipline has been maintained; economy has been carefully practiced; due attention has been paid to the health and well-being of the prisoners. Considering all the circumstances of the case, the financial management and results will be found eminently gratifying. Concerning much-needed improvements and changes, he says: "I refer to the insufficient accommodation for the prisoners, the need for larger facilities for washing, baking and cooking, the excellent suggestion that immediate quarters should be provided for the officers in the vicinity of the prison, the necessity for a chapel, an appropriation for the prisoners' library, some separate provision for the care of those prisoners whose age, antecedents and conduct may give good reason to anticipate favorable results from special reformatory efforts; and finally, such an extension of the workshops as will enable the authorities to increase the number of industries practiced, so that no one branch pursued outside of the prison may be really injured by the undue competition of convict labor." Further on the Governor invites the action of philanthropic men and women of the State in helping convicts who leave the prison walls wishing and intending to live better and industrious lives.

The Governor speaks favorably of the management of the State Reform School, the Industrial School for Girls, the asylums for the insane, the asylums for the deaf, dumb, blind and feeble-minded; the Soldiers' Home, the Board of Health, the State Geological Survey, the Agricultural College, the Agricultural Experiment Station and the Bureau of Labor and Industries. He recommends a liberal addition to the small appropriation of $750 for the State Library, and calls especial attention to the report of the Pilot Commissioners in regard to the preservation of the channels in the navigable waters of the State. Extended mention is made of the proposed World's Fair Exhibition to be held in New York, and the Governor cordially commends the proposition. He hopes that New Jersey will be properly represented at the Yorktown Centennial. In reference to the National Guard of the State, he says that now, more than ever before, it is necessary that troops should have full instructions in the use of their weapons, and that it would be extremely injudicious to deprive the National Guard of the opportunities which they now enjoy.

In conclusion he says:

It is my prayer and hope that the good State of New Jersey and its people may always merit and enjoy the blessing of Divine Providence, and that their paths through the coming years of the unknown future may be marked by the greatest happiness and progress, and by the least adversity possible in human affairs.

New Jersey's Loss.

The correspondent of the Philadelphia *Times* at Washington thus writes concerning the retirement of Senator Randolph:

"It is a pity that New Jersey is to lose Senator Randolph, who has done the State great credit. Everything he has ever done in Washington has been Senatorial and gentlemanly. It could not be otherwise. Whenever he has had had occasion to speak he has spoken like a statesman."

Somerset County Courts.

In the Somerset County Courts last Tuesday, the jury in the case of John V. Veghte, former President of the Somerset County Bank, charged with causing a false statement concerning the assets of the Somerset County Bank, to be published in the month of January, 1879, brought in a verdict of guilty, with a recommendation to mercy. Judge Magie presided. Prosecutor Bergen was assisted by Attorney-General Stockton in behalf of the State, and Messrs. A. A. Clark and J. Newton Voorhees appeared for defendant.

The case of the County vs. the Freeholders, has been postponed until the April term, the Attorney-General not being able to attend before that time.

COURT MATTERS.

The case of Geisner vs. Fritz came to a close on Monday, the jury rendering a verdict of $225 damages to Geisner, who claimed damages from Fritz, in consequence of alleged injuries during an encounter between them in this city some months since.

The trial of Michael Sweeney, Jr., of this city, on a charge of assault and battery, has been set down for the 24th of this month. Sweeney is out on bail.

The trial of John Johnston, charged with the murder of Samuel Williams in this city, is set down for the 19th. Messrs O. F. Suydam, of Plainfield and R. A. Lindabury of Elizabeth are counsel for the prisoner.

George Harrison's Death.

The mystery surrounding the case of George Harrison, who has since died, assumed such a peculiar phase on last Thursday was seemingly so closely connected by the man's own words and other circumstances with an outrage, as to lead the public mind into the belief that an assault with malice intent had been committed. A subsequent examination by Drs. Fritts and Gilliam, Jr., and the discovery of the victim's purchase of a quantity of laudanum, has set at rest any such supposition only to arouse a more insolvable mystery by the act of suicide. The testimony of the unfortunate man's employer, the Hon. Jos. W. Yates, given at the Inquest of Friday evening last before Moses H. French, Esq., acting coroner, and County Physician Henry G. Wagoner, sheds no light on the affair and furnishes no reason for the action. Mr. Yates' evidence showed that the man, Harrison, was employed in a position peculiarly valuable, and that his family of two children were well cared for at the Children's Home of this city. His employer had told him that whenever the weather should moderate sufficiently to allow the keeping of a reduced amount of steam through the apartments of the Flat which was in his charge, he might visit his children; and by this permission the man probably considered himself justified in leaving Brooklyn for Plainfield on Wednesday of last week without any notification of such intention. Harrison was first seen, to be recognized, by the proprietor of the Somerset House in North Plainfield, whereat he stopped about noon on Wednesday. While employed in the vicinity during previous years he had frequently dined at that Hotel, and was consequently well known to Mr. and Mrs. Hughes. Dinner being almost ready he was urged to wait for it, but remarked that he had no time, as he had a great deal to do, had only just arrived and must return to his duties in Brooklyn that evening. He was to all appearance in usual spirits, but referred regretfully to his being without a settled home for himself and his children. The evidence of Mrs. James Kelly shows undoubtedly that Harrison went direct from the Hotel to her house, arriving there between twelve and one o'clock of the same day. He had boarded with her at different times past, and was in the habit of stopping at the house during his occasional visits. The testimony of Mrs. Kelly, which, upon her recall was strenuously adhered to, established the fact (?) that Harrison did not leave her house from the time of his arrival until during that night. In contradiction of which, Mr. T. S. Armstrong, the Somerset street pharmacist, established by his evidence the fact (?) that Harrison purchased three ounces of laudanum at his place of business on Wednesday about five p. m. In substantiation he offered the additional testimony of his clerk, who was present—but it was not considered necessary. Mrs. Kelly could not be induced to allow that the man might have left her sight without her knowing it. She stated that upon his arrival he put on a pair of slippers, took off his coat and lay down on a sofa where he was left at nine o'clock on Wednesday night when she and her husband retired. During the afternoon he stepped out into the yard once and was gone two or three minutes.

The testimony of the attendant physicians was to the effect that the man was found by them under the influence of a large quantity of narcotic poison, from the effects of which he died on Thursday night. The cause and result thus being so indisputably established, it was expected that the jury would need but a few minutes to draw up an unanimous verdict in accordance with the facts presented. But for some reason or another it took three hours and twenty minutes for it to find that "George Harrison came to his death from an overdose of laudanum," and to agree that "circumstantial evidence leads us to believe that it was administered by his own hand." We give the jury below, allowing our readers to imagine whom among it thought there was a possibility of any other hand than "his own" administering the poison. Elisha C. Van Norstrand, foreman; Martin W. Schenck, George A. Collins, David J. Carney, Isaac Brokaw, Vorhees Van Fleet, Joseph W. Randolph, David R. Weaver, Daniel I. Smalley, John N. Gulick, John Bodine and George W. Townley.

To attach any blame to the druggist who furnished the means to the end, is under the circumstances, unjust. Mr. Armstrong knew Harrison by sight as a frequent customer while employed by Mr. Cooley, and although aware of his leaving such situation understood that he had since returned. The man came into Mr. Armstrong's store, Wednesday evening, with nothing in his manner or appearance to warn the proprietor of the intention in view—if any intention was at that time contemplated. After a few casual words of greeting he asked for three ounces of laudanum, stating it was for bathing purposes. The quantity being unusually great the druggist naturally supposed it was for the use intimated and had no hesitation in selling it.

The Good-Will's Entertained.

The "Good-Will Brass Band" of New Brunswick, whose services were engaged by the Zephyr H. & L. Co., at the late Fireman's Parade, arrived in Plainfield by sleighs from New Brunswick on Wednesday night last. The members were all dressed in a tasty uniform of light brown ulsters and seal-skin caps, and with their new drum, handsome President, and polished instruments presented a most attractive appearance. The Band's intention was to serenade the Zephyr boys in return for the kind treatment given them by the latter upon the occasion referred to. They were received with hearty cordiality and escorted to Chief Voorhees residence on Front street where the strains of their fine music filled the cool night air. From there to Laing's Hall was the next move, at which place more music passed away the time that preceded the bountiful dinner ordered for the visitors. About seventy-five partook of the collation which was made additionally entertaining by speeches from Chief Voorhees, Fire Commissioner Van Winkle, the President and leader of the band, Mr. S. C. Ryder and others. It was Thursday morning before all arose satisfied, and some time later when the Good-Wills started on their return home, halting long enough in front of Fire Commissioner Mayer's residence to tender him a serenade. The members of the Band were overwhelming in their expressed appreciation of the reception accorded them, and most sincere with their hearty invitations for all to come and visit them at New Brunswick.

SCOTCH PLAINS SCRATCHINGS.

The address upon "Temperance," delivered in the school house last Friday afternoon by Mr. Lewis of Plainfield, was well attended by our most prominent citizens; Mr. J. Frye, Dr. Westcott and lady, Miss E. Coles and a number of others being present.

On Monday, Dr. G. H. Coutin had the misfortune to drive to Morris Plains with a lady patient for the Asylum.

Excelsior H. & L. Co. No. 1, will hold their regular monthly meeting on Monday evening next.

The following are newly elected officers of "Good Will Lodge 104 K. of P.:"

J. McNair, C. C.; J. M. B. Pyatt, V. C.; J. Gutridge, P.; F. Gibbs, K. R. S.; J. Haskard, M. F.; A. Dobbins, M. Ex.; E. Tallman, M. at A.; F. Gibbs, Rep.; R. Brittin, Trustee.

Installation of Officers Thursday evening, Jan. 15.

WESTFIELD WISPS.

A pleasant surprise was tendered on Tuesday evening last to Bro. F. R. Pennington, at his residence in Westfield, by the members of Atlas Lodge, No. 125 F. & A. M., at which time the presentation of an elegant masonic chart took place. W. B. Addison & Clark in presenting the same made appropriate remarks on behalf of the Lodge, as a token of their high regard and esteem for his zealous working and careful watching over the Craft, as master for the past two years. After passing a very enjoyable evening, they adjourned in peace and harmony, and it is to be hoped that brotherly love may always prevail.

A grand vocal concert under the auspices of Atlas Lodge F. & A. M., will be given at Lyceum Hall on Thursday evening, the 20th inst. The combination of artists under the name of The Bedford Vocal Society of Brooklyn, includes twelve male voices with the Misses Belle and Nettie Cooke as Soprano and Contralto, and other talent in addition. The price of tickets is 50 cents (children 25 cents) which may be procured of members of the Lodge and at the drug stores of Messrs. Bayard and Gale and the news store of C. A. Wittke.

Mr. John Kane of this place, in company of Joe and Ed. Shindler of the well-known "Shindler Gang," got into an altercation in Lambearding's Hotel at Cranford this week, during which things were pretty generally broken up. The constables are on their track and the mercy of the Courts will subsequently be meted out to the culprits.

The sympathies of the townspeople are with Mr. Thos. Kenny in his great affliction. An eight-year old daughter of that gentleman was buried on the 5th inst., and just one week later the body of a son, two years of age, was carried to a grave beside her. Both were stricken down with scarlatina.

TOLU
ROCK
AND
RYE
For COUGHS, COLDS, SORE THROAT, BRONCHITIS, ASTHMA, PNEUMONIA, CONSUMPTION, and all Diseases of the THROAT, CHEST and LUNGS.

BALSAM OF TOLU Has always been one of the most important weapons wielded by the MEDICAL FACULTY against the encroachments of COUGHS, COLDS, BRONCHITIS, ASTHMA, SORE THROAT, CONSUMPTION in its incipient and advanced stages and all diseases of the THROAT, CHEST and LUNGS, but it has never been so advantageously compounded as in the celebrated TOLU, ROCK and RYE. In addition to its soothing balsamic properties, it affords a diffusive stimulant and tonic, to build up the System after the cough has been relieved.

Over 1,000,000 Bottles Consumed Annually.

Extract from Report of Com'r of Internal Revenue.
Treasury Department, Office of Internal Revenue,
Washington, D. C., January 26, 1880.

Messrs. LAWRENCE & MARTIN, Chicago, Ill.
Gentlemen: The TOLU, ROCK and RYE compounded according to the formula, has a sufficient quantity of the BALSAM of TOLU to give it all the advantages ascribed to it in pectoral complaints, and [illegible] it an agreeable remedy to the patient. It may properly be classed as a Medicinal Preparation under the provisions of U. S. Revised Statutes, and when so stamped may be sold by Druggists, Grocers and Other Persons WITHOUT RENDERING THEM LIABLE TO PAY SPECIAL TAX as liquor dealers.
Yours Respectfully,
(Signed) GREEN B. RAUM, Commissioner of Internal Revenue.

CAUTION! Don't be deceived by unprincipled dealers who try to palm off upon you Rock and Rye in place of our TOLU, ROCK and RYE, which is the ONLY MEDICATED article made—the genuine having the signature, LAWRENCE & MARTIN, on the Proprietary Government Stamp on each bottle.

PUT UP IN QUART SIZE BOTTLES FOR FAMILY USE.

MAYOR Randolph's first message will be found in full in our Council Proceedings.

NEW styles of type and borders are constantly being added to our already large stock of Job Type.

THE firm of Rockfellow & Kilbourn was dissolved on January 1st by the retirement of the latter gentleman.

PARK avenue, beyond Ninth street, is the "speeding" place, and crowds do congregate there each day to witness "trial heats."

WHERE is the man who wrote "Beautiful Snow?" Did he ever have to shovel paths and clear off sidewalks, almost every day in the week?

MR. C. E. Russel, Superintendent of the Delaware and Raritan Canal, has been appointed General Manager of the Susquehanna Canal Company.

WE trust we are right in judging that Mayor Randolph is going to enforce the ordinance against allowing side-walks to remain covered with ice, &c.

WHEN are we to have a Public Hall or Opera House large enough to hold the audience that could be induced to attend a first-class entertainment?

THE Sunday evening services at the Seventh Day Baptist church will be resumed next Sunday evening, Jan. 16, 1881. Subject "The Art of Telling Lies."

ABOUT a million copies of Webster's spelling book continue to be sold annually, it is said, but no one would suspect it who reads the manuscript sent to a newspaper office.

THE Chiefs of Police of this and other cities of New Jersey, were most satisfactorily entertained with a dinner and its accompaniments at Brocksmith's Hotel, in Elizabeth, on Tuesday last.

THE "Jolly 3," whose late Ball is remembered by many a fair damsel with pleasure, are perfecting arrangements that are to culminate in an invitation Ball at some not far distant date.

THE dog-census has been decreased exactly two since our last issue. Which number—including a Newfoundland and a red Spitz—was run over by the 7:38 p. m. train from New York, on Monday.

THE Central Railroad has reduced the fare of excursion tickets to Trenton on the day of Gov. Ludlow's inauguration, next Tuesday. The fare from Plainfield to Trenton and return will be $1.52, good for five days.

WM. B. MAXSON, Esq., of this city, is mentioned in connection with the office of Prosecutor of the Pleas of Union County. The profession would be honored and the County efficiently represented by his appointment.

A NUMBER of couples of young people "surprised" Mr. and Mrs. Fine at their residence on West Front street last Thursday evening, and the affair proved a most enjoyable one. Prof. Frasse furnished excellent music for the occasion.

MAYOR Randolph is the owner of a horse that can "throw snow" in the faces of many a so called "trotter" on Park avenue, but the animal seems to know that it is not in keeping with the dignity of a Mayor's horse to race with others and violate a city ordinance.

A SLIGHT change has been made in the time table of the Central Railroad, which went into effect on the 10th. The train formerly leaving this city for New York at 6:08 in the morning, now goes at 5:42, which is a beneficial change to those who desire to reach their places of business in New York at an early hour.

THE heavy rains of Sunday night last made the streets of our city well nigh impassable, in some places, especially on Park avenue, the waters overflowing the sidewalks. Street Commissioner Angleman was about during the day, with workmen, opening gutters and sewer mouths to allow the waters to run free.

TOLU, Rock and Rye, a new medicinal preparation for coughs, colds, etc., may be procured of E. P. Thorn, at the Mansion House, who is the only authorized Agent for its sale in this city, or at Reynolds' Pharmacy. Tolu is recognized as one of the greatest medical discoveries of the age. Read advertisement in another column.

MESSRS. Melbourn & Manning, builders, are constructing a handsome brick dwelling house on First Place, between Crescent avenue and Ninth street, which will be ready for occupancy about April 15th. It is to be three stories high, 30x40 in dimensions and undoubtedly will be disposed of to some fortunate customer at a bargain, before it is finished.

PROF. Wm. Harris of Princeton College will address the Young People's meeting of the Crescent Avenue Presbyterian church on Friday evening next, at a quarter to 8 o'clock, in the chapel, in place of Rev. [illegible] A. Worden who will be unable to speak at that time as announced. The meeting will be in the interest of the Sabbath School. All are welcome.

THE inauguration of Gov. Ludlow occurs next Tuesday at Trenton. There will be no military display on the occasion, in accordance with the expressed wishes of the Governor-elect. The oath of office will be administered to him in the Governor's Room at the State House, after which he will immediately proceed to the transaction of business properly coming before him.

CONTRARY to the rumors that are being circulated, we are empowered to state that the firm of Weaver Bros., of Front street has not dissolved. These efficient workmen are still carrying on their extensive business as pains-taking paper-hangers and painters, and continue to hold themselves ready to fill all orders they are favored with in a manner that is sure to give complete satisfaction.

WHAT a comfort it is to put on a new pair of boots and "break them in" without excruciating pains to the feet. It requires a competent boot maker to construct such a pair of boots and Plainfield has just such a personage in her limits. His name is Solomon Flaig, and his place of business corner of Front and Church streets. "Sol" deserves this compliment. Try him once.

THE handsome sign-writing and glass-lettering which daily claims the attention of the public and adds to the attractive appearance of the principal business establishments throughout our city, is the work of Mr. David Runyon, an artist who is securing for himself in his line a reputation that is second to none. He has located an office for the receipt of orders at the store of Messrs Sherwin & Mason, No. 23 west Front street, where all demands for his services will meet with prompt attention.

OUR Republican friend, Stephen C. Ryder, of this city, must by this time, be fully aware that political promises are a sham and delusion. Last year he was sure of receiving a position as Sergeant-at-arms or Door Keeper at Trenton during the session of the Legislature. He failed to receive it. This year he was more sanguine of success, only to be again disappointed. "Uncle Steve" certainly deserved the slight recognition of his stalwart services to party he asked for. He is not, however, the only disappointed one.

THE New Brooklyn mill property is now under charge of L. B. Boles, Esq.

THE last of Prof. Fiskes' valuable lectures on "The American Political Idea" was delivered at Seminary Hall on Tuesday evening.

WHITNEY the dry goods merchant in the Van Deventer building, is selling three-button kids at 75 cents a pair. He is also offering lace goods at less than cost.

A FREE lecture on the art of mastering the French language by the oral system, will be given on Monday evening, in the Y. M. C. A. rooms, by Prof. Etienne Lambert.

A SON of Mr. Dennis Teeple of North Plainfield, was one day last week standing up in a sleigh about to throw a blanket over the horse, when the animal suddenly started. The movement jerked the young man backwards, who in falling broke his arm in two places.

DUPREZ & BENEDICT's minstrel company is a big show by itself but with Tom Warfield it's twice as big. The entertainment which Tom and the other troupe gave on Saturday night was way above the usual, and included in its feast of humor many local hits appropriately inserted. Come again!

ONE of the most desirable of commemorative devices is an escutcheon setting forth the entrance into the late war of the soldier, a list of the battles engaged in, his progress as an officer step by step, a record of wounds and imprisonments and the date of resignation, discharge or death. Mr. William Taylor is at present in Plainfield soliciting orders for the same, samples of which (one painted for Gen'l Hancock) have been exhibited in this city. They are artistically arranged and finely painted in gold and colors, forming a beautiful and valuable heirloom that is sure to be treasured for ages.

Where to Find Them.

Senator Vail and Assemblyman Sheldon, representing Union County in the Senatorial and Third Assembly District, will stop at the Trenton House during the present session of the Legislature.

Assemblyman John T. Dunn from the First District will be found at the American House.

Assemblyman Schomp, of the Second District, Somerset County, stops at the Trenton House.

Relief Association.

On Tuesday, Jan. 18th, at 3 o'clock p. m., an informal meeting of those connected with the Relief Association and others interested in charitable work, will be held in the parlors of Crescent avenue church. The object of this meeting will be to increase interest and mutual helpfulness in persons thus engaged. These meetings will be held monthly and interesting papers bearing on the subject under discussion will be read from time to time.

By order of the Board of Managers.

A Pleasant Time.

Last Monday evening the Sunday School teachers of the Scotch Plains Baptist Church, in sleighs, headed by the pastor, Rev. Mr. Guiscard and wife, drove to the hospitable residence of the Superintendent, Mr. David Hand, at Netherwood, where after spending several hours very pleasantly in social intercourse, singing and playing on the piano, the company sat down to a sumptuous repast. When an hour later the party broke up, all spoke in the highest praise of the hearty welcome they received from the genial Superintendent and family.

The Second Recital.

The programme we publish to-day will, by its many attractions, forecast the treat in store for those who attend the Second Plainfield [illegible] Recital at the Park ave. Baptist Church on Tuesday evening next. The same string quartette that was so much enjoyed upon the past occasion will contribute towards the entertainment as will also Mr. Clark Evans. The new features include Miss M. S. Huss, who is no longer a stranger to Plainfield music-lovers; and Mr. Wilhelm Mueller whose reputation is world-wide.

I. O. O. F.

The Lodge rooms of Plainfield Lodge No. 44, I. O. O. F. were filled last Monday evening with members and visiting brethren from Elizabeth, Westfield, Somerville and High Bridge to witness the installation ceremonies of the following named officers of Plainfield Lodge No. 44, who will serve for the ensuing six months: N. G., James B. Clarkson; V. G., Charles E. Austin; R. S., James K. Arnold; P. S., Peter V. Weaver; Treas., Thomas J. Young. The installation services were conducted by District Deputy Sanborn of Elizabeth, assisted by Past Deputy Grand Lucas, of Memorial Lodge, same city.

The First Vocal.

Ex-members of the Plainfield Vocal Society may feel offended (without cause) and new ones correspondingly flattered (without reason), if we express as our opinion that the Chorus of the present season—as was introduced to the public on Tuesday evening last—is the best the Society has ever succeeded in combining. The parts were all well sustained, and a thorough drilling resulted in the perfect rendition of an unusually enjoyable selection of glees, anthems and songs. Enthusiastic encores were accorded the vocal compositions of Bishop, "Now by Day's Retiring Lamp," and Pinsuti, "In this Hour of Softened Splendor." A selection from Ernani, "Crowned with the Tempest," was the gem of the evening; allowing the admiring public the too rare opportunity of listening to a solo from Mr. William W. Howland. A quartette consisting of Mrs. Collier, Mrs. Freeman, Mr. Mitchell and Mr. Howland gave Malloy's "Song of the Triton" in a most acceptable manner considering the noticeable unacquaintance of the tenor with his part and possible need of rehearsal with the others. Miss M. S. Huss, the specialist of the occasion, did not appear to as great an advantage as her fine contralto voice deserves for its possessor. Owing to circumstances beyond the lady's control she was extremely fatigued, but showed by the fullness and richness of her notes her enviable talent and great capabilities. In reply to a flattering recall she sang Sullivan's "Lost Chord" with most pleasing effect. Mr. Charles Werner as a violoncellist was equal to the average soloists in his line of execution; while words of praise should be given the able manner in which the accompaniments were played. The general success of the concert will excite pleasant expectations c[illegible] the second of the series on March 17th.

An Unfortunate Case.

So much [illegible] idle rumor has been published and [illegible] in relation to the unfortunate case of small-pox reported in North Plainfield, and as many false statements in relation to the matter have been made that are calculated to needlessly frighten the timid and do an injustice to the authorities of the Township who have been most commendable in their care of the affair, that we feel it a duty to the public to publish a brief statement of the facts regarding what, under other circumstances, might be justly considered a private matter.

The patient, a young girl of about ten years of age named Helen Burrows, lies sick at the house of her aunt, a lady of the same name, living in Prospect Place, North Plainfield. The child's parents are residents of Philadelphia, and with them she spent the holidays just past, returning home last week seemingly in perfect health. On Thursday the 6th, Dr. South was called in, as the girl had been complaining for a day past, but he declined to make a professional determination at once—although giving strict orders to allow no one to go into the room where the patient was. Having satisfied himself that the case was one of small-pox, arrangements to prevent infection were immediately made. Every inmate of the house was vaccinated and the place quarantined. The Town Committeemen were notified, whereupon they caused signs to be printed and posted conspicuously about the premises notifying passers of the case. Nothing has been left undone that would afford protection to others, nor anything omitted which might prevent contagion; so all fears of danger from a spread of the disease are foolish. Dr. South is the only person who enters or leaves the house, and he goes from the patient direct to a disinfecting room in his own residence. In such apartment he leaves all the clothes worn during the visit, remains there some time after bathing thoroughly, and afterwards dresses in an entire change in every particular from shoe to neck-tie.

The case is a very severe one—having been so from the beginning—but all hopes of the young girl's recovery are not as yet given up. The disease was probably taken by the patient from her sister in Philadelphia—the latter, at present, lies dying of it in that city.

Personalia.

Louis F. Wadsworth, Esq., of this city, has been appointed assistant to County Clerk Voorhees, in the Clerk's office at Elizabeth.

Thanks to Hon. Miles Ross for legislative documents.

We were honored by a visit from our old friend, John Prentice, on Tuesday. "Uncle John" looks well and happy. We congratulate him upon his new domestic relations. It is a little girl.

We, in common with the host of other friends of baggage-master Garretson, are glad to see him once more attending to his duties at the depot, after his recent severe illness.

Notice.

The "Ordinance to provide for keeping streets sidewalks and gutters free from snow, hail, slush and ice," adopted Dec. 30, 1877, prescribes in substance that it shall be the duty of owners, lessees and occupants to keep a pathway at least four feet in width on the street sidewalk, and gutter to the width of one foot, along each lot in care of such owners or occupants, free from snow, slush, hail and ice. In case ice shall form which cannot be removed immediately without injury to sidewalks or gutters, the ordinance prescribes that it shall be strewn with ashes, sawdust, or sand, until the ice can be thawed and removed. It is hoped that citizens will bear in mind this ordinance, and, out of respect thereto, as well as for each other's convenience, will be prompt to keep free the sidewalks and gutters, and thus render unnecessary the application of the penalty attached to the violation of the ordinance.

L. V. F. RANDOLPH,
Mayor.

Installation Exercises.

The newly elected officers of Anchor Lodge, No. 149, F. & A. M. of this city, (a list of which we published last week,) were installed, with due ceremonies, at their rooms last Monday evening. Many distinguished visitors were present. The Grand Lodge was represented by R. W. Jos. W. Martin, D. G. M., and R. W. C. C. Stevenson, D. D. G. M., Washington Lodge, of Elizabeth, by P. M. J. C. Rankin; and Jerusalem Lodge, of this city, by W. M. W. R. Cock and Wardens Nelson and Ulrich.

After installation, by P. M. H. E. Harris, of Atlas Lodge, Westfield, assisted by P. M. Wm. L. Gavett of Jerusalem, No. 26, of this city, as Marshall, all adjourned to Van Deventer Hall, where an elegant collation was awaiting them, gotten up by Mr. John Crawford, of 922 6th avenue, New York, who is a member also of "Anchor," which was served in the latest and most approved style, with fruit, coffee, etc. When the centre piece was taken down it was found to contain a button hole bouquet composed of the choicest buds and flowers for each guest. Speeches were made by Bros. L. V. F. Randolph, D. D. P. M. Rankin, P. M. H. E. Harris and others. P. M. Wm. L. Gavett recited an original poem which elicited much applause, after which the company adjourned in Peace and Harmony.

Now and Then.

There is a vast difference between the sleighing parties of to-day and the sleighing parties of old times. Then they had but one sleigh. It was a square box, very heavy, and the back of the sleigh was higher than the head when seated, over which a coverlet was thrown. The sleigh was so heavy that two horses were required to draw it. The sleighs were all painted yellow and were called the family sleigh. They would not accommodate more than two persons. Then they frequently had good sleighing for a couple of months, and sleighing parties were the order of the day. The farm wagon body was placed on the runners of the wood sled, a lot of straw was put in the bottom and the young men and women seated themselves on the straw. The fiddler always accompanied the party. They would drive to some tavern (they had no hotels then), when the first thing in order was to get a glass of "flip." Flip was simply cream beer, which was served up in large mugs. Every landlord had an iron rod about two feet long with a ball on the end about the size of a walnut, which was heated red-hot and put into every glass of beer, which heated it and made it foam. This was called [illegible]. After drinking flip the music struck up and there was a dance, and those who did not desire to dance played games of different kinds. A stranger happening in our city on Saturday last, would have been greeted with an entirely different sight; that of a long cavalcade of one-horse cutters occupied and driven by ladies alone. There were middle-aged ladies and the young ladies—bless their sparkling eyes—and all knew how to drive, too. None of your Miss Nancy about them! Each seemed to know that she who first reached the goal—i. e., the Livery Stable, was sure of the best place for her horse; and right well did they seem to know where to drive to—the Livery of "Uncle John" Laing, who has had the care of more such feminine sleigh-riding parties on his hands than any other Livery merchant of the State. Thanks to liberal room and plenty of willing hands, the animals, sleighs, robes, etc., of each driver was soon cared for, and then the merry party made a rush for the parlors of Col. Miller's hospitable hotel adjacent. Here refreshments were ordered by the chaperone of the party, Mrs. Dr. Jobs and Mrs. H. E. Agens, and furnished in the usual prompt manner for which this house is so popular. After that had been disposed of, a number of the ladies took a stroll about Front St. THE CONSTITUTIONALIST office was invaded and captured by some twenty-five of them, all expressing themselves as delighted with the elegant and commodious quarters we occupy. After being shown about the establishment by one of our gallant attachés, the ladies took their departure, ordered up their horses, paid their bills, and started on their return home by way of Westfield, where we presume they met with a hospitable reception by the citizens of that place. Included in the party were the following from Springfield, N. J.:

Mrs. Dr. N. C. Jobs, Mrs. Rev. H. W. Teller, Mrs. C. Henery, Mrs. H. E. Agens, Mrs. M. Bell, Mrs. Schuyler, Mrs. G. Mulford, Mrs. W. Denman, Mrs. C. Corby, Mrs. L. Terry, Mrs. W. Clousier, Mrs. E. Miller, Mrs. W. Pierson, Mrs. R. Marsall, Mrs. C. H. Bell, Mrs. T. Sickley, Mrs. E. McCollum, Mrs. T. Rollo, Mrs. J. Drew, Mrs. S. Brown, Mrs. E. Meeker, Miss Ada Denman, Miss Eunie Denman, Miss Laura Smith, Miss Lizzie Agens, Miss Mary Wade, Miss Mamie Sickley, Miss L. Jacobus, Miss G. Mulford, Miss Grace Randall, Miss Ada Marshal, Miss Bell Marsh, Miss Ella Brown, Miss A. Parks, Miss Phebe Parkhurst, Miss Thresa Parkhurst, Miss Netty Drew, Miss L. Drew, Miss Nealie Woodruff.

From South Orange, N. J.—Mrs. E. Price, Mrs. F. Stewart, Miss Mamie Jobs, and Miss E. Benson, from Millburn, and Miss Debor, from Brooklyn, N. Y.

Common Council Proceedings.

TUESDAY EV'G, Jan. 11, 1881.

At a few minutes past 8 o'clock the Council was called to order by Clerk O. B. Leonard, and upon roll call the following members responded to their names: William McD. Coriell, William S. Darling, William Flanders, Charles S. Guion, Theodore Hamilton, Andrew H. Smith, Henry Smith, Mason W. Tyler, John M. Whiton, Orville T. Waring.

The Clerk then stated the next thing in order to be the selection of a President for the ensuing year.

Nominations being in order, Mr. Guion nominated Mr. Mason W. Tyler. That gentleman declined the honor, preferring the floor. Mr. Tyler thereupon nominated John M. Whiton. No further nominations appearing, a ballot was had with the following result: Ten ballots in all—3 for Tyler, 6 for Whiton, and 1 Blank. The Clerk thereupon announced that Mr. Whiton had received the requisite number of votes, and declared him elected.

Upon Mr. Whiton taking the chair he thanked the Council for the honor bestowed in a few well-chosen remarks.

The Pres. announced the next thing in order to be the election of a City Clerk.

Mr. Flanders nominated O. B. Leonard. No further nominations appearing, Mr. L. was balloted for and received a unanimous vote—10, and was declared elected.

The next thing in order being the election of a Janitor, Mr. Coriell nominated Henry Hamilton, (colored), who, upon motion, was elected by acclamation.

The respective seats of the members were filled without any drawing, all being satisfied as seated.

The Pres. announced that Rules of Order to govern the Council for the ensuing year, was next in order.

Mr. Coriell moved that the Rules of Order of 1879 (adopted by last Council) serve for this Council.

Mr. Tyler thought that the Rules of 1877 were more concise, &c., and would offer those as an amendment to Mr. Coriell's motion. Resolution, as amended, on motion, adopted.

The Pres. then stated that he would announce the Standing Committees, although incomplete, owing to a vacancy in the Council.

Mr. Tyler thought that time should be taken in selecting a member, and would move that the selection be made at next meeting of Council. The motion being put, and not receiving the attention it should by the members, Mr. Tyler called for a standing vote. The Pres. directed the Clerk to call the roll on the motion, which resulted as follows: For—Coriell, Tyler, Whiton—3. Against—Darling, Flanders, Guion, Hamilton; A. H. Smith, Waring—7.

Nominations being in order, Mr. Hamilton nominated Edward L. Morris, Mr. Darling—Washington Lithgow, and Mr. Flanders—A. B. Dunlap. Upon a ballot being taken, Lithgow received 4 votes, Morris 3, Dunlap 3. No election. Upon the 2d ballot, Lithgow received 6 votes, Morris 2, Dunlap 2. The Pres. declared Lithgow elected, and notified the Clerk to so acquaint the gentleman.

Mr. Coriell offered a res. that a Com. of 3 be appointed to wait upon His Honor Mayor Randolph, and inform him of the organization of Council, and receive whatever communications he may have to present to Council. Adopted.

The Pres. appointed as that Com. Messrs. Coriell, Waring and Flanders.

The Pres. then announced the following Standing Committees:

Alms—Flanders, H. Smith, Lithgow.
Auditing—H. Smith, Darling, Coriell.
Finance—Darling, Lithgow, Guion.
Fire, Water & Lamps—Waring, Tyler, Flanders.
Laws & Ordinances—Tyler, Hamilton, A. H. Smith.
License—Lithgow, Waring, Tyler.
Police—Hamilton, A. H. Smith, Waring.
Printing & Stationery—Guion, Coriell, H. Smith.
Salaries, Offices & Elections—A. H. Smith, Guion, Darling.
Streets & Public Health—Coriell, Flanders, Hamilton.

Mr. Darling wished to decline the chairmanship of Finance Com., as he did not think he would have the time to attend to it. The Pres. then changed Mr. Darling to the chairmanship of the Fire, Water & Lamp Com., and appointed Mr. Waring chairman of Finance Com. That gentleman declining, as did Mr. A. H. Smith, Mr. Darling finally consented to act.

On motion, Messrs. Hamilton, A. H. Smith and Waring (in conjunction with the Mayor and of Pres. Council) were elected as Board of Police, for the ensuing year.

Mr. Darling offered a res. that the Clerk be instructed to have roll call blanks and Com. cards printed for use of Council. Adopted.

Mr. Waring presented petition of Wm. Sullivan for a Saloon License. Ref'd to License Com.

Mr. Flanders presented claim of Jos. Maynard, winding city clock, $6. Ref'd to Salary Com. Also, claim of Mrs. J. Wilkins, $3. Ref'd to Alms Com.

Mr. Darling presented two claims of N. Y. & N. J. Globe Gaslight Co., gas, etc., for months of Sept. and Oct., 1880, $218 45. Ref'd to Lamp Com.

Mr. Coriell presented the following from His Honor, Mayor Randolph:

To the Honorable the Common Council of the City of Plainfield:

GENTLEMEN: It is my privilege to congratulate you, as the representatives in Council of the people of Plainfield, on the general prosperity of our city. We have enjoyed in large measure the blessings of good health, good order, and the administration of good men in the various departments of the city government. We have been saved from epidemics and conflagrations, and, as a community, have many causes for gratitude to an ever merciful Providence.

In taking up the responsibilities of the city government where they have been laid down by our predecessors, we find certain subjects requiring more or less of attention; and I shall venture to offer to you such suggestions and recommendations as come to my mind in connection with our pending duties, trusting and believing that the spirit of harmony will not only prevail in your honorable body, but will characterize all our mutual relations, both official and personal.

RE-DISTRICTING THE CITY.

Owing to the increase of voters in our several election districts, and particularly in the second district, it will be incumbent on the Common Council to re-adjust boundaries, so that whilst the several districts shall be nearly equal in population, no one district should contain more than 600 voters. I refer you to election law approved 12th March, 1880. Probably the first and second districts, which contain about 1,200 voters, could be divided into three. Either this or some other plan should be adopted, making in all four districts of the city, each to contain 400 to 450 voters and about 2,000 inhabitants. This re-adjustment should be made before 1st August next.

STREET LIGHTS.

A proposition has, I understand, recently been made by parties interested in one of the new electric light devices to light our city streets by this means. It may be early yet in the history of this invention to make a positive contract with any party for this purpose, but the general subject is certainly worthy to be considered and investigated. Nearly one-half of the sum permitted under the charter to be raised by tax for general city purposes is now required to light the streets throughout the year; and whenever the city can, without incurring special risk, secure an improved light at a saving in cost, it will be wise to avail of that opportunity. It may be well to take pains to obtain soon, from the various inventors and proprietary companies, the latest information and the most favorable proposal they can offer as to the introduction of this new light.

WATER SUPPLY.

A scheme for supplying Plainfield with water from one general source through pipes and hydrants has for several months been before the Council and in the hands of the proper committee. It contained useful and attractive features, particularly in the form to which the projectors expressed a willingness to modify the original plan. In a city like ours, containing many frame buildings, it would be a manifest advantage to have a force of water as a protection against a possible conflagration. The objection to the scheme amongst councilmen and citizens were, 1st, That it would bind the city to the gift of an exclusive privilege, which in the course of time would be found expensive and onerous. 2d, That the cesspool system would be found insufficient for waste following the establishment of a strong head of water and a full use of the water supply; that thus the adoption of the water scheme would probably necessitate the construction of sewers, and that this would entail considerable cost and be a source of peril to the health of the inhabitants, particularly as it was supposed that difficulty would be experienced in obtaining sufficient fall for the ready escape of sewage matter. 3d, It was by many deemed unnecessary in view of the undoubted fact that Plainfield has everywhere, at an average depth of 20 to 25 feet, an abundant supply of the purest water adapted to drinking, washing and other use. The general subject may bear some further consideration, and, in this connection, I would call the attention of the Council to the experiments recently tried at Belleville and other places, with driven wells as a source of water supply for Newark. In considering this matter it will appear that any policy adopted must be fraught with important results to the city, and I submit the question: Would it not be wise for the Council, before making its decision, to consult the best authorities and experts on such matters as to the practical wisdom of any plan or plans presented for approval?

PUBLIC CHARITY.

In the administration of public, as well as private charity, such a policy should be pursued as will at once most effectually relieve the wants of the needy, whilst encouraging their self-respect and a laudable ambition toward self-support. It manifestly tends neither to the permanent benefit of the poor, nor to that of the public, to bestow as an outright gift money for which the recipient is reasonably able to return even a partial equivalent. Even among the poorest and weakest of our race may be found forces susceptible of utilization. It has been frequently suggested that in helping the Plainfield poor what is sometimes known as a "Poor Farm" would be found at once wholesome to the indigent and economical to the city. It is at the present time a project worthy of consideration, and if it should not be found one which can be entirely consummated out of the revenues to be legally raised and applied from the "poor tax," other aid might be hopefully solicited toward this end. Again, assistance rendered to the poor should be accompanied by a discrimination at once wise and kind. Poverty resulting from willful wickedness, constantly persisted in, should not, so far as the wicked individual is concerned, be dealt with in precisely the same fashion as that which falls heaviest upon honest, struggling industry; and charity should also discriminate in respect to the *kind* of aid best suited to real necessities. Now, it is not to be expected that any one man holding the office of Overseer should meet all these requirements and exercise all this discretion. The salary attached to the place would not compensate for the trouble and responsibility of the entire task; and even if the work were to be done purely as one of philanthropy, one man, in a city of over 8,000 people, could hardly do it thoroughly. True it is that there are not so many poor people as in some other settlements of similar population, and there are many channels of church charity and private charity reaching the worthy poor; but this latter fact, whilst it is encouraging and gratifying, complicates to some extent the duties of administering the city's charity; for it is not well that in some cases help should pour in from several sources, whilst other cases of equal requirements should have but meagre streams. Fortunately for Plainfield, some years ago an organization was put at work which has already proved its capacity, and which is ambitious for a still greater opportunity. I refer to the Ladies' Relief Association. Whilst not claiming for the ladies of this society (what they certainly do not claim for themselves) either unfailing wisdom in administration or an absolutely comprehensive experience with people and facts, it is beyond cavil that they have not only been actuated solely by the desire to do good, but they have in a broad sense accomplished this noble object, even under many difficulties. The well known character and abilities of the workers of the society, and their equally well known record, are sufficient assurances that the Alms Committee and Overseer of the Poor would do well to avail of their generous offers and their knowledge of the class who claim our sympathies and assistance; and I suggest that in all legal and efficient ways the authorities avail of their willingness to co-operate in the care of the poor.

LIQUOR AND OTHER LICENSES.

You will be called on, as is each city Council, to deal with the question of granting licenses to sell liquor. It is not necessary to remind you on the one hand of the frightful evils of intemperance, with its attendant sorrows and crimes, nor on the other of the peculiar difficulties of dealing with this question in Plainfield. I feel sure you will act in the exercise of a good conscience and judgment, and shall, on my own part, cordially second your endeavors to promote the good order and best interests of the city. If you shall determine to grant licenses in exceptional cases, it will be just to those who pay the fees, and especially to the public interest, to prevent the selling of liquor by unlicensed parties; and in this regard, as well as others, I propose to do my part in securing respect and obedience to the law.

In this connection I venture to suggest some re-arrangement of the ordinances governing licenses to expressmen, hackmen, street vendors and others. The interests of this class of citizens, and of the city, would probably be advanced by an equitable scale of moderate charges, punctually collected, and serving as a protection to those who have embarked in these vocations, as well as bringing a small revenue to the public purse. The ordinance covering collection of license fees from hackmen has not been enforced for some months, owing to a doubt existing as to the right of the city government to impose such charge. The plain reading of the general powers granted in the Charter seems to sustain the validity of the ordinance without additional authority from the Legislature, but this question may be further considered. The ordinance should be either enforced or repealed.

COLLECTION OF TAXES.

It is the province of the Common Council to attend to the levying of certain taxes, and after seeing that the taxes are collected and paid over to the City Treasurer, to apportion in their judgment the expenditure of the same raised for city purposes. The officers who have charge of the assessment and collection have had several years' experience and have been honored with the confidence of the public. It is simply necessary that the Common Council, on its part, shall exercise such supervision as properly devolves upon it, and take such measures as to the collection of taxes as will insure a fair and equitable distribution of the burdens on all assessable property. These duties should receive the early and careful attention of each new Board of Councilmen, and will doubtless receive yours. In this connection I call your attention to the fact that there is overdue, of taxes assessed for the years 1874 to 1880 inclusive, $12,587.39, and that, notwithstanding the increase in the general prosperity, the amount of unpaid taxes is enlarging. The whole amount of taxes collected for the general fund last year was $8,764.70, including various amounts of back taxes for previous years.

FINANCIAL.

It certainly is not necessary that I should suggest the observance of economy or the avoidance of debt to gentlemen who have striven in the city's service to make $10,000 do the work of $15,000. It was not unreasonable to ask permission to lay an additional tax of $5,000 on property possessing an actual value of not less than $10,000,000. But the permission was not granted, and the city government must do the best it can with its small revenue. Touching one matter the sentiment of the people is happily unanimous. Municipal debt is a curse and often a disgrace. Our freedom from debt and from heavy taxation is just cause for congratulation and operates as an inducement for the heavily-taxed inhabitants of other cities to cast in their lot amongst us. But a rigid economy indeed must be practiced to make ends meet on the present receipts from city tax; and in this connection you may find use for the suggestion that the policy taken up in 1879, but not long adhered to, of obtaining subscriptions from property holders desiring certain kinds of improvements or repairs, might serve a useful purpose.

SYSTEMATIZING THE LAWS.

I beg leave to suggest also that additional pains be taken to systematize the public laws and documents. Though most of the existing ordinances are found to operate beneficially, exceptional ones will probably be found unserviceable. Those in force should be in convenient form for reference. There should be a safe depository, under proper control and responsibility, for all books and papers to which the City Council shall, either this year or hereafter, have occasion to refer. Through lack of care or of sense of personal responsibility in these matters there is danger of loss, and this danger I am sure you will desire and endeavor to avoid.

PUBLIC HEALTH.

The prosperity of Plainfield is built largely on its reputation for health. Take away its salubrious air, pure water and general cleanliness, and it would sink again to the condition of a village—a deserted one at that. Fortunately, this fact is appreciated. Our citizens evidently desire that the subject of health shall have particular attention. The lessons taught by the experience of other places in our own state should be heeded. Such nuisances as were recently reported to the Common Council should not be permitted. There is a law forbidding the introduction of sewage matters into a brook or raceway, and even if there were not, every considerate man must know that dangerous nuisances are thus created, and good citizens will not incur such risks for themselves or their neighbors. The outlets for the large sewers thus far constructed present a somewhat more complex problem, and on this subject I suggest that the Common Council shall direct the employment of a competent engineer with a view of ascertaining what other or better outlet can in each case be obtained than that afforded by Green Brook. Meantime it is necessary also to remember that the sewers thus far provided by the city have been built for the purpose of affording passage for surface drainage only, and the defilement of these passage ways by excretal and other filthy matters is contrary to law and to the public welfare.

Again, it would appear self-evident that the naturally pure water of Green Brook, rising, as it does, amongst the hills a few miles northeast of our city, and fed, as it is, by springs along its whole course, (including some which start from its very banks within our city) should be kept clean and free from all impurities. It ought to be the home of such fish as live only in pure water. Offers have been made to stock the stream with the finest varieties of fish, provided the purity of the water could be assured. It were unfortunate indeed if not only this advantage were permitted to pass, but the naturally beautiful and useful stream should be changed into a positive agent of harm. To a certain limited extent this appears to have been done already. There is little ground for doubt that the confined waters of the brook, in the two lower ponds within the city limits, should be set free, and the ponds themselves be definitely abolished. Even as to the upper pond, the time will probably come when the public welfare will demand its removal, and the Committee on Streets and Public Health has reported the necessity for its being thoroughly cleansed. These matters require early attention. If the Common Council will do what it can, and the people of North Plainfield will co-operate, it is hoped that substantial progress in the work will be made before the opening of the spring. Whatever is done should be done under proper legal advice, and with a just regard for the rights or equities pertaining to individual citizens. But, in the end, no selfishness of individuals should be permitted to stand as an absolute bar to the rights and necessities of the community in this vital matter of the public health. It is well that this subject is so early under consideration, whilst, as at present, there are no desperate evils requiring desperate remedies. But it is none the less the part of wisdom to act promptly.

I shall hope for the active co-operation of your honorable body in this direction, and shall, on my own part, obtain such information and advice as may be of use in determining the policy of the Board of Health, or furnishing further suggestions to submit to you.

Very respectfully,
L. V. F. RANDOLPH,
Mayor.

Filed.

Mr. Tyler presented resolution referring the several matters of the Mayor's message to their respective committees, and the following res. relative to the health of the city:

"*Resolved*, That the Council has heard with satisfaction the views expressed in the Mayor's message on the promotion of health, and, recognizing the importance of the subject, is prepared to co-operate cordially with the Mayor and Board of Health in all legal and efficient means to preserve the health and prosperity of the city."

Bonds of Constables Amos Moffett and Peter I. TenBroeck were presented by Mr. Darling. Ref'd to Com. on Finance.

The unfinished business on the table of the Clerk of last Council—comprising bills of Morgan Bird, Peter Langenbahn, A. V. Shotwell, Frank Connheny, David Hand, Bernard's Township, A. V. Searing, Rockfellow & Kilbourn, were ref'd to the respective Committees.

The report of Law & Ord. Com. of last Council, on motion of Mr. Tyler, was adopted and the recommendations to be acted upon by Council at their earliest convenience.

The several comm's relative to supplying the city with water, were, on motion, ref'd to a Special Com., appointed by the chair, for action thereupon. Committee—Darling, H. Smith, Hamilton.

No further business appearing, on motion, Council adjourned to meet first Monday in February, (7th) at the usual hour, 7.30 p. m.

Election of Bank Officers.

At the annual election of officers of the City National Bank of Plainfield, held Tuesday, Jan. 11th, the following were elected to serve the ensuing year: President, Chas. A miraculous escape from death is an oft quoted remark in our newspapers, and yet, how many such occurrences happen every day and are unrecorded, unheard of and unappreciated except by the few who are closely interested. There is probably no larger collection of such facts than in the correspondence of B. F. Jackson & Co., whose Elixir of Sulphur has caused many a grateful heart to express its thanks for help in time of danger. This preparation is a certain cure for all diseases of Throat and Lungs—Coughs, Colds, Consumption, Catarrh, etc., and is sold by A. Killgore, Druggist. 16dec

A FREE ACKNOWLEDGMENT.

I hereby certify that I habitually use Dr. Kennedy's "Favorite Remedy" in my family in all those cases in which a domestic medicine is needed, and that it has never yet failed to accomplish the purpose desired. We look upon it as an anchor to windward that is sure to hold in every instance mentioned on the Doctor's bill of particulars. I make this acknowledgment freely, in hope of doing good to others, feeling that a medicine that is near at hand, and to be implicitly trusted, is worth more than it costs. jan14w4

REV. G. C. [illegible]

AN HONEST PREPARATION.

The world is so crowded with swindles that a really honest man, or honest thing is almost as scarce as robins in January. Yet Mr. J. R. Northrop, of Lansingburgh, N. Y., formerly captain of the Troy police, says Dr. David Kennedy's "Favorite Remedy" is "an honest preparation." And the captain ought to know for the medicine cured him of Liver Complaint. Try it, or write to the Doctor at Rondout, N. Y. jan14w4

IT certainly looks as though the old farmers' adage was to be verified. The first snow storm of the season was on November 24, and there is every indication that there will be twenty-four snow storms before the Winter ends.

E. W. [illegible], DRUGGIST, ELIZABETH, N. J.—I could scarcely speak above a whisper, and it was almost impossible to breathe through my nostrils. Using Ely's Cream Balm a short time I was entirely relieved. My head has not been so clear nor my voice so strong in years. I have warded off several colds since. I recommend this admirable remedy to all who are afflicted with Catarrh or Colds in the head. J. O. TICHENOR, Dealer in Boots and Shoes, June 15, 1879.—See Adv's.

ELY'S CREAM BALM gives general satisfaction to all that use it. We hear from it every day as a reliable preparation for Catarrh. We recommend it with confidence. R. G. VAN PELT & Co., Druggists, New Brunswick, N. J.—See Adv't. jan14w4

GO WEST, YOUNG WOMAN.

Young women, go West! What shall we do with our girls? is the question of the day in Boston. There are 60,000 more women than men in Massachusetts and when men have trouble in getting situations, women have hardly any chance at all. The Boston *Globe* has been discussing the matter, and the discussion has brought out quite a number of curious letters. Fannie Jones tells her experience, which is rather interesting. She tried to get a place in some of the large stores of Boston, but was unsuccessful. Then she stayed at home and learned to keep house. When she became an expert housekeeper she joined a party that was going West, and soon found herself in Helena, Montana. This is a place, says Fannie, of about 4,500 inhabitants, mostly men, and some of them students and graduates of Eastern colleges. Now, if there is one thing more than another that a Boston girl likes, it is a college man. This was two months ago, and now Miss Jones is home in Boston selecting her wedding outfit, and she tells Boston girls that the West is just full of fine, manly young fellows of whom her *George* is, as may be expected, the best; and all these young fellows are just yearning for Boston girls. Fannie is quite sure that if the average Boston girl saw those splendid fellows out West she would never be content to cast her lot with a "spindle-shanked, hollow-chested young clerk." Therefore, young woman, go West.

PUNCHED AND CLIPPED COIN.

Punched and clipped coin seems to be increasing rapidly, and it is already a source of vexation to many, and of loss to small dealers. The practice of drilling pieces of coin as playthings for children has always prevailed to a limited extent, and, although it is wrong, it is not done with wrong intent, and the number of pieces drilled for this purpose is insignificant in comparison with the number which are drilled, punched or clipped for the sole object of gain. Dealers generally would be pleased if a law could be devised which would enable them to refuse mutilated coin without giving offense or losing customers; but it is doubtful if such a law could be devised. Something can be done, however, to abate the nuisance, if not to abolish it; and it is the special province of business men to do it. They should not only decline it at their places of business, but they should refuse it in the saloon, the restaurant, the cigar store, the street car, the market, and in all other places. It is competent for Congress to pass an act prohibiting the circulation of such coin as money, but the government would be incompetent to enforce the law, and it would be unwise to make a crime of what is considered an indifferent action. If the business men in every community would do their duty in the premises, their example would be followed, and mutilated coin would become scarce.—*Bradstreet's*

RULES FOR A LONG LIFE.

Live up to your engagements.

Never speak evil of any one.

Drink no intoxicating liquors.

Never play at any game of chance.

Keep good company or none, and never be idle.

Always speak the truth, making few promises.

When you speak to a man, look him in the face.

Place a good character above all things.

Never borrow money if you can possibly avoid it.

Save when you are young, to spend when you are old.

Avoid temptation through fear you may not withstand it.

Live within your income earning your money before you spend it.

Remember that your character cannot be essentially injured except by your own acts.

Make no haste to be rich; small and steady gains give competency with tranquility of mind.

A bang is considered loud.

An object of interest—An unpaid note.

Men are like wagons; they rattle prodigiously when there is nothing in them.

Information comes from Athens, Greece, of the discovery of a superb statue, supposed to be of Minerva the Victorious, completd in all its parts, and a master-piece of Phidias, the great sculptor of the time of Pericles about 450, B. C.

The amount of capital invested in manufacturing pursuits in New Jersey is $82,000,000, which gives employment to 75,000 persons. Of this number, 13,000 of the working people are engaged in Paterson in the manufacture of silk. The horse-power used in the State is 50,000.

The Morristown *Banner* says it has hardly paid to manufacture apple whiskey this year. The ruling price per gallon is only $1.25, out of which comes the Government tax of ninety cents per gallon, leaving a margin of only thirty-five cents. Some of the distillers have sold their stock as low as $1.19 per gallon. Many of the distillers have disposed of their whole stock, one Mendham manufacturer having already cleared out one hundred barrels of the boiled apple juice. Age, however, gives it a value, four year old apple whiskey retailing for from $2.50 to $3 per gallon. If prices don't improve we suppose distillers will tear down their stills and go to manufacturing apple butter.

Here is a chance for some of our boys. Next September twenty-five cadet engineers are to be appointed upon competitive examination. The applicants must be from 16 to 20 years of age, and will be examined in arithmetic, algebra, geometry, geography and natural philosophy. The rank is the same as that of cadet midshipman, and the pay $500 per annum for the four years at the Naval Academy, and $1,000 per year after graduating. Any boy in the county can get a permit to appear for examination by simply writing to the Secretary of the Navy.

NEW ADVERTISEMENTS.

ALMOST GONE,

But the Minister's Last Call Postponed—Remarkable Recovery of a Lady who was Pronounced Beyond Hope of Recovery.

A well-known business man of New Hartford, Conn., writes as follows to Dr. David Kennedy, of Rondout, N. Y.: "A few months ago I let a neighbor of ours have some of your "Favorite Remedy," out of a bottle we kept for our own use, to try for some transient trouble. That neighbor induced a sister-in-law, who lay almost at the point of death, to test its efficacy for her disease. For weeks previous she could not eat anything without experiencing great distress, and the medicine given her by her physicians afforded no help, and often seemed to increase her distress. It was thought she had Cancer of the Stomach, and at the time of which I write friends had sent for her pastor to make what it was believed would be his last call. This lady recovered, and is now comparatively well, and says she would not be without 'Kennedy's Favorite Remedy,' no matter what its cost might be. You cannot advertise it too highly." Dr. Kennedy's "Favorite Remedy" is a specific for all Diseases of the Blood, such as the ills peculiar to females, and is invaluable in all Diseases of the Kidneys and Liver. When once known no family will be without it. "Dr. Kennedy's Favorite Remedy" for sale by all druggists. jan7w4

WARNER'S
SAFE
KIDNEY & LIVER
CURE

The leading Scientists of to-day agree that most diseases are caused by disordered Kidneys or Liver. If, therefore, the Kidneys and Liver are kept in perfect order, perfect health will be the result. This truth has only been known a short time and for years people suffered great agony without being able to find relief. The discovery of Warner's Safe Kidney and Liver Cure marks a new era in the treatment of these troubles. Made from a simple tropical leaf of rare value, it contains just the elements necessary to nourish and invigorate both of these great organs, and safely restore and keep them in order. It is a POSITIVE Remedy for all the diseases that cause pains in the lower part of the body—for Torpid Liver—Headaches—Jaundice—Dizziness—Gravel—Fever, Ague—Malarial Fever, and all difficulties of the Kidneys, Liver and Urinary Organs.

As a Blood Purifier it is unequaled, for it cures the organs that make the blood.

READ THE RECORD.

"It saved my life."—E. B. Lakely, Selma, Ala.

"It is the remedy that will cure the many diseases peculiar to women."—Mothers' Magazine.

"It has passed severe tests and won endorsements from some of the highest medical talent in the country."—New York World.

"No remedy heretofore discovered can be held for one moment in comparison with it."—Rev. C. A. Harvey, D. D., Washington, D. C.

This Remedy, which has done such wonders, is put up in the LARGEST SIZED BOTTLE of any medicine upon the market, and is sold by Druggists and all dealers at $1.25 per bottle. For Diabetes, enquire for WARNER'S SAFE DIABETES CURE. It is a POSITIVE Remedy.

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper throughout the year to come everybody will find:

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eye-sight. THE SUN long ago discovered the golden mean between redundant fullness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. THE SUN'S habit is to speak out fearlessly about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of partisan organizations, but unwavering loyalty to true Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the years immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Rings for monopoly, the rings for plunder, and the Rings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free.

Beware of Pedlars!

How to Correct and Improve YOUR SIGHT

IMPROVEMENTS OF THE DAY.

One of these is found in KING'S PATENT COMBINATION SPECTACLES.

As the name indicates, they consist of a combination of silver and steel frames, the silver being making a more elegant, durable and flexible frame and enabling any degree of adjustment to any face, so that the centre of the lens is in the direct line of vision, thus giving the greatest benefit possible to be derived from the use of spectacles.

It also enables anyone to adjust it themselves to the position where it best corrects the sight.

All persons having the CONSTRUCTIVE SPECTACLES have their eyes fitted by KING'S NEW SYSTEM, the method used by Professional Oculists and the only true means of accurately testing the vision.

THIS SYSTEM IS COPYRIGHTED, and can only be used by Mr. King's Agents, all of whom are instructed in its use.

The KING SPECTACLES are the first in merit over a million pair now being in daily use.

We are glad to announce that the Sole Agent for this place and vicinity is

POETRY.

WHERE IS YESTERDAY.

"Mother, some things I want to know,
Which puzzle and confuse me so,
To-day is present, as you say;
But tell me, where is yesterday?

"I did not see it as it went;
I only know how it was spent—
In play and pleasure, though in vain;
Then why won't it come back again?

"To-day the sun shines bright and clear;
But then to-morrow's drawing near.
To-day—oh, do not go away!
And vanish like dear yesterday.

"'Tis when the sun and all the light
Has gone, and darkness brings the night,
It seems to me you steal away
And change your name to yesterday.

"And will all time be just the same?
To-day—the only name remain?
And shall I always have to say,
To-morrow you'll be yesterday?

"I wonder, when we go to heaven,
If there a record will be given
Of all our thoughts and all our ways
Writ on the face of yesterdays?

"If so, I pray God grant to me
That mine a noble life may be;
For then I'll greet with joyous gaze
The dear lost face of yesterdays.
—Chambers' Journal.

MISCELLANEOUS READING.

THE OLD CAPE.

"Must you really go, Walter?"

"I really must, Kitty. Didn't your father tell me only yesterday that he would never give you to me until I am worth $500?"

"But to go to the city—so far away!"

"I shall do better there than here. I will write to you constantly, and—"

"Kitty!" interrupted a sharp voice from the house—"Kitty, haven't you finished that milking yet?"

"I must go," said the young man, hastily; "but I have a great deal to say to you, and must see you again before I leave in the morning. Can't you come down to the maple tree stile about dusk? Then we shall have time to talk over our arrangements."

Kittie hastily promised, and stood for a moment tearfully watching her lover as he crossed the field toward the schoolhouse, where for three years he had been teaching for a miserable pittance, scarcely sufficient to support himself in even that inexpensive neighborhood.

Kitty, taking up her milk pail, went slowly toward the house. As the girl entered the house, after depositing her pail in the dairy, she saw why her mother had called her so sharply.

Seated on the settee of the large, neat "living room" was a traveling peddler busily engaged in unstrapping his pack, and meanwhile talking volubly in a shrewd but waggish way, which appeared mightily to amuse the listeners.

As he unbuckled the last strap he displayed to the admiring gaze of Mrs. Lane and her daughter a quantity of light colored ribbons, lawns and other similar commodities.

"The very thing for you, miss," he said, holding out at arm's length a bright, sky-blue lawn. "The very latest fashionable shade—a favorite with the Empress Eugenie, because becoming to her style—blonde, like yours."

So he ran on, until by dint of eloquence, argument and "coming down" in the price, he had induced Mrs. Lane to invest some dollars in articles useful and ornamental for herself and Kitty, and her husband to lay in a store of patent rat exterminators, matches and blacking, also "warranted."

Then, while Mrs. Lane and Kitty laid the supper table with extra dainties, in hospitable consideration of the guest, the farmer and peddler settled the account, the former displaying a big roll of bills.

Then, the bill settled, the farmer replaced the tin box, locked the door, and put the key in an old-fashioned mahogany dressing-case, which appeared to have its permanent place on the top of the high secretary, and the family sat down to supper.

Of course, the guest must "stay over night," and equally, of course, they would not hear of his offer to pay for his accommodations. So, after supper and prayers, the peddler was shown to the guest chamber, over the "best room" or parlor; and by the time that the old clock in the hall struck nine the house was wrapped in profound stillness.

Now it so happened that, owing to various circumstances, one of which was the time consumed in bargaining with and subsequently entertaining the peddler—Kitty had been constantly employed, and unable to keep her promise of meeting Walter at the stile.

He would not come to the house, for her father had spoken some hasty words, which had offended the sensitive pride of the young man; and now, as the girl, unable to sleep, sat at her own window, she reflected uneasily upon what Walter would think of her breaking her promise to grant him that last parting interview.

Suddenly she started. Some one had called her name in so low a voice that had it not been so familiar to her she might not have recognized it. Looking out she perceived Walter standing amid the heavy shadows of the lilac thicket below her window.

Kitty knew that he had waited all this time in hope of the promised interview. Her heart was touched, and she was, moreover, fearful that if he remained where he was he might be discovered. So, creeping softly down the back stairs, and noiselessly opening the door of the little entry, she stood a moment at her lover's side.

"Oh, Walter! why did you come so late? It is past 9 o'clock, and every one in the house is asleep."

"How could I leave in the morning without seeing you again? I knew that you would come to the stile if you could, and waited, expecting you, until I saw the light in the window, and then I came here, if only to see your shadow on the curtain."

They moved away from the house, and, passing through the little garden gate, walked slowly down the embroidered alley to the bench in the shadow of the hedge, where they talked long and earnestly, forgetful how rapidly time passed.

The faint sound of the kitchen clock reached them where they sat, and Kitty started.

"Ten o'clock! I must go, Walter. I am afraid father would be angry if he knew of my being out so late."

As she passed around an angle of the wall toward the back entry she was surprised to see something dark lying before her at her feet, close to the wall. It might be Oscar, the house dog, and, passing, she stopped to pat him; but the touch revealed that the object was some sort of a garment, which had doubtless been accidentally left out of doors.

She picked it up, and had moved away a few steps, when a slight sound caused her to turn. It was very dark just here, in the shadow of the thick elm, that shaded this side of the house, yet Kitty could distinguish another dark object let down slowly and cautiously from the window above—the window of the best room.

A vague alarm seized her; yet in the midst of it she felt brave and self-possessed. If he were leaving the house in this manner something was wrong, and her father ought to know of it.

Perhaps—yes! suddenly there flashed upon her the recollection of the peddler's keen observation of her father's movements while he was getting the money out of the secretary drawer.

The man was robbing her father.

Quick almost as the thought itself, Kitty had sprung to the entry, and thence to her parent's bedroom, which opened upon it.

At her first touch and words the farmer was wide awake, and, snatching a loaded gun which hung above the mantlepiece, was in the yard and beneath the window as quickly as Kitty herself could have been.

There, indeed, was the peddler, his pack already on his shoulders, something gleaming faintly like a tin box in his hand, while he groped about the ground, as if in search for some missing article.

With one bound Farmer Lane was upon him, and for some moments, there was heard only the sound of a desperate struggle, mingled with smothered oaths from the peddler, who at length, on hearing the rapidly-approaching footsteps and voices of some of the farm hands, who had been aroused by Kitty's cries, suddenly wrenched himself from the grasp of his antagonist, gave him a stunning blow in the face, and with long swift strides made for the nearest fence, and was out of sight before the men could reach the spot.

Farmer Lane was bruised and stunned; yet for this he was, on coming to consciousness, consoled by the sight of his precious tin box, unopened and safe. The thief had been compelled to drop it in the struggle, after which to have paused and look for it in the dark would have occupied too much time and exposed him to capture.

Six months after the event just related Kitty Lane was seated alone by the bright fire of the farm-kitchen, when there hobbled in an old woman of the neighborhood, a sort of poor pensioner on the bounty of the farmer's family. She had come for liniment for her "rheumatics" and Kitty, as she gave the phial into her hand, noticed that she wore but a thin wrapping for such cold weather.

"Stay!" said she, kindly; "and while you drink a cup of tea, I will search in the attic for something thicker than this old shawl to keep you warm."

The attic was the depository for broken or superannuated furniture and old clothes and blankets, and among this latter store Kitty now proceeded to search.

As she pulled aside an old coat of her father's suddenly her eyes fell upon a large cloth cape, very much worn and faded, which hung on a nail beneath it.

Kitty looked at it with a sort of loathing. It was the garment which she had picked up on that—for her—fearful night of the peddler's attempt robbery.

Unconsciously she had kept it in her grasp when she ran to give her father the alarm, and next day Betsey, the kitchen maid, found it, and had stowed it with rubbish in the attic wondering whatever it would ever be called for. It was this for which the robber had been anxiously searching when Farmer Lane seized him. Since then the old cape had remained, unseen and forgotten, in the gloomy attic, until now brought again to light by Kitty's search.

"It looks shabby enough outside," thought Kitty, as she stood gazing at it, "but the green flannel lining is new and thick. It will make a comfortable wrapping for old Mrs. Holmes—if she will wear it." Reluctantly she grasped it and attempted to reach it down from its place. But it had hung so long that the nail had penetrated through the flannel lining, a slip of which was torn off by the jerk she gave it.

"It can be mended," thought Kitty. "I will ask Betsey to do it."

She stopped short and her eyes grew wider.

What was that protruding just beyond the torn edge of green flannel? Something green also—a piece of soiled paper it at first seemed. She looked closer. It was a bank note.

Kitty took from her pocket a tiny pearl handle pocket-knife, and carefully cutting away some stitches, produced a bank note—a $50 bank bill.

She could hardly believe her eyes: but on further stripping away the cloth she discovered another, and then another, all carefully stitched against the thin oil silk, which formed a lining of the old cloth cape, and protected them from the wet.

Trembling with excitement and a sort of horror which yet fascinated her, the girl sat down at the dusky attic window, and stripping out the green flannel lining, unstitched note after note, until there lay before her such wealth as she had never dreamed of—nearly $2,000. Gained honestly it might be, and yet, perhaps stolen.

At this thought she let the notes fall with a sickening horror. How did she know but that a worse crime than robbery had been committed for the sake of those notes?

But, meanwhile, what would she do with this money? She wondered that the peddler had never attempted robbery of her father's house, he had never been seen or heard of by any one of that neighborhood.

Some young men had on the following day, scoured the woods and roads in search of him, but had seen no stranger, save a tall man, with short red hair, who spoke in a broad Scotch accent, and carried a Bible and some tracts in his pocket.

It was in December that this good fortune befell the young couple, and when the April crocuses put forth their little heads among the young grass in the garden of the cross roads cottage, they beheld Kitty tying up the vines about her little porch, while Walter seemed particularly busy within a door, over which was inscribed in big black letters, "Store and Postoffice."

WORDS OF WISDOM.

True piety is the best friend to prosperity.

There is no good in preaching to the hungry.

The more virtuous a man is the more virtue does he see in others.

We retain our spiritual strength no longer than we cleave to God and duty.

Faith never stops to look at circumstances or possible results; it only looks at God.

Men owe their resolution, and most of their success, to the opposition they meet with.

There are few occasions when ceremony may not be dispensed with; kindness never.

Never resent a supposed injury, till you know the views and motives of the author of it.

God brings his people into straits that he may bring them out of straits in answer to their prayers.

The raven is like the slanderer, seeking carrion to feed upon, and delighted when a feast is found.

One of the kindest things heaven has done for man is denying him the power of looking into the future.

Men will never know us by our faith, for that is within us; they know us by our works, which are visible to them.

Plato will have disciples, but Socrates will have adorers; because if the one knew how to think, the other knew how to die.

Take the good with the evil, for we all are the pensioners of God, and none may choose or refuse the cup his wisdom mixeth.

So live that when old age has crept upon you, you will have else than years to offer as evidence of the long road you have passed over.

The winter's frost must rend the burr of the nut before the fruit is seen. So adversity tempers the human heart to discover its real worth.

We may not all create as the world's greatest men have done; but there is nothing to prevent us feeling and being as noble as any of them.

Men of the noblest dispositions think themselves happiest when others share their happiness with them.

'Tis an ill thing to be ashamed of one's poverty, but much worse not to make use of lawful means to avoid it.

The reason why so few marriages are happy, is because young ladies spend their time in making nets, not in making cages.

Open your mouth and purse cautiously, and your stock of wealth and reputation shall, at least in repute, be great.

Men are sometimes accused of pride merely because their accusers would be proud themselves were they in their places.

The qualities of your friends will be the qualities of your enemies; cold friends, cold enemies; half friends, half enemies; fervid enemies, warm friends.

The noblest building made with hands for spiritual ends may lack the perfection of grace and beauty unless lit from the lamp of sacrifice.

Gluttony is the source of all our infirmities, and the fountain of all our diseases. As a lamp is choked by a superabundance of oil, a fire extinguished by excess of fuel, so is the natural health of the body destroyed by intemperate diet.

On the surface of lakes that I have seen, just so long as the wind blew there was nothing but a great black roughness; but when the wind went down, and the water was tranquil, then all the stars of heaven were reflected in it. So in the tumults of this life, in the thunder of anger, in the strife of envy and passion men's hearts are so disturbed that the divine influences fail to reflect themselves therein.

YANKEE ANSWERS.

The Galveston News man says: "Did you ever observe," said Colonel Gillhooly to Major Spilkins, as they meandered down Galveston avenue, "did you ever observe, Major, how difficult it is to get a straightforward answer, a plain yes or no, from people generally?"

"I don't think I ever did."

"Well, sir," continued Gillhooly, "I'll bet two schooners of beer that we can go into a dozen stores and ask if they have certain things, and if they have not got them the storekeeper will not say so plain out, in one single instance."

Spilkins investigated his clothing, and finding two car tickets, said it was a bet.

Then they strolled into a French or Italian fruit store, and Gillhooly asked:

"Have you a green watermelon for sale?"

"Watermelon," exclaimed the astounded foreigner, "zis is ze Wintaire season."

"I don't ask you for any meteorological intelligence. Anybody who pays ten dollars a cord for wood is apt to suspect that Summer is fading away; besides I've got an almanac at home. Have you got a green watermelon?"

"Here is ze orange, ze banana, ze apple."

"Don't want lessons in botany. Have you got a green watermelon.

"Ze green watermelon is not ripe?"

"I didn't ask whether it was ripe or not; I merely asked you if you had one; but come, Spilkins, let's go. He will give us a history of the French revolution before he answers the question. Let's meander."

The next place was a millinery establishment.

"Madame," said Gillhooly, "have you a fried apple for sale?"

The lady got as red as a turkey gobbler and craning her neck out, said:

"Sah?"

"Have you a fried mule in your elegant establishment?"

"I've got a husband, sir, and brothers who will protect me from insult."

"I didn't ask you for your pedigree, ma'am, I've got one of my own. There is no insult intended. I merely asked you a civil question."

"I've got a husband, John! O, John!"

"No need of calling him, ma'am. If you will say that he is a mule, you needn't produce him. We will take your word for it."

"John! Oh, John! come quick; here are two galloots insulting me."

"Let's go," said Spilkins. "I'll pass an appropriation to pay for the beer."

"You might as well," responded Gillhooly, "for you won't get one to answer straight out. If you go into a drug store and ask for a cranberry pie, or some baked hay, or a copy of "Pope's Essay on Man," or an accordion, they will spring some new liver-encourager on you or a box of bunion eradicator."

And they went and got the beer.

HINTS ON ENGLISH COMPOSITION.

The following are opinions. Opinions are not always facts.

The great aim in writing is to tell as much as possible in as few words as possible. The age is nearly past when through the love of the sound of words people care nothing for the sense.

There is a tendency in words to creep in where they are not needed. Every rank of fifteen or twenty is apt to contain one unnecessary idler.

A good plan to find out how many words can be kicked out of a sentence is to telegraph messages at ten cents a word.

Some use quotations with as easy and confidence as if they had originated them. It is well to remember that quotations are not your property.

Omit the remark common at the commencement of many letters, "Thinking that some facts relative to the recent boiler explosion in Nashville might interest your readers, I take the liberty of sending," etc. All unnecessary and a waste of time, labor, paper, pen, ink, type and space. If the matter you write is to interest anybody, it will do so without your preface.

Avoid prefaces one-third or one half as long as your article. Nobody builds a railway half a mile long to get into a small house.

In long articles the same thing is generally said two or three times.

It is much more difficult to write a short article than a long one. An old editor speaks of "not having time to write a short editorial." It is harder to condense than to expand.

The words "but" or "yet" may, in many cases, be substituted for that illegal monstrosity, "notwithstanding," and a man who writes "nevertheless, notwithstanding," is a word-maniac.

A steady practice of writing immediately after eating will probably result in a confirmed dyspepsia. The stomach must have its time to manufacture and store up brain force.

The best efforts in composition are generally realized when the body is in its best physical condition. You cannot write well when you are tired, and writing on stimulants involves a heavy discount on the morrow's strength.

When you imagine that you have "just scribbled off something," if that something is really clever, please remember how much of your past life, experience, study and observation it has taken to produce it. The ripe fruit which in autumn falls from the tree, has taken many months to store up all its richness. Trees don't just "scribble off" apples.

Don't let your bravery in print go ahead of your bravery in personal interview with the subject of your abuse.

When a man asks you if you are still "grinding away" or "scribbling," knock him down, pick him up, put him under a pump and explain to him that these are not terms consonant with the dignity of the editorial profession.

Honor the foreman and the proof-reader. They can slaughter you, and hardly know how they do it themselves.
—Jersey City Herald.

AN OLD HOSS DOCTOR.

Two Logansport attorneys—Smith and Jones—went into Fulton county to try a horse case before a Justice of the Peace not long since. It was the old, old story. The man who got the worst of the trade sought redress in law. The case hinged on the soundness of the horse, and the plaintiff introduced Smith, his attorney, to a Mr. Brown who "knew all about the old rack of bones." Brown charged Smith to be sure and ask him if he were a horse doctor when he placed him on the witness stand. After two or three witnesses had been examined, Mr. Brown was duly sworn.

Smith—"Mr. Brown, what is your occupation?"

Brown—"You mean what do I foller?"

S.—"Yes, sir."

B.—"I'm a hoss doctor, sir."

S.—"How long have you followed it?"

B.—"Followed it? Why, sir, I was born a hoss doctor, and have followed it for forty-five years. I know the horse that Bob Jenkins sold Bill King wasn't worth the powder and lead to blow him up. He had hereditary consumpshun, sir; a well-defined case of thoss consumpshun as ever I seen, and I've seen as many cases as any man in America. That plug's lungs were so near gone that he didn't breathe for nearly three weeks afore he died."

S.—"All right. Mr. Jones, you can take the witness."

Jones—"You say you are a veterinary surgeon, Mr. Brown."

B—"I didn't say any such a darned thing. I'm a hoss doctor, sir."

J.—"And you know all about a horse, do you?"

B.—"Yes, sir. No man in Amer—"

J.—"Where do you feel for a horse's pulse?"

B.—"Most anywhere, sir, but generally in the ear or hoof."

J.—"How fast does it beat?"

B.—"Well, sir, in a good, healthy conditioned hoss, it will beat two hundred revolutions in a minute, but in a slow-grained hoss it won't go more nor one hundred and sixty revolutions."

Jones tried in vain to convince the intelligent jury that Brown knew nothing about horses. The foreman said it stood to reason that a man who had been doctoring horses for forty years, knew more than a young lawyer from Logansport, and the case was decided on Brown's evidence. Jones has lost confidence in Fulton county jurors, and now walks the street with an abstracted air, humming, "There's nothing sure but Heaven."

FRANKLIN'S MAXIMS.

Plow deep while sluggards sleep, and you shall have corn to sell and keep.

Pride is as loud as want, and a great deal more saucy.

Silks and satins, scarlets and velvets, put out the kitchen fire.

Diligence is the mother of good luck.

Pride breakfasted with plenty, dined with poverty and supped with infamy.

Extravagance and improvidence end at the prison door.

It is easier to build two chimneys than to keep one in fuel.

If you would know the value of money, go and try to borrow some.

What maintains one vice would bring up two children.

He that goes borrowing returns sorrowing.

Rather go to bed supperless than rise in debt.

Sloth, like rust, consumes faster than labor wears.

A life of leisure and a life of laziness are two different things.

Creditors have better memories than debtors.

The rolling stone gathers no moss.

THE CHARMS OF AN EDITOR'S LIFE.

One of the beauties and charms of an editor's life is his dead-heading it on all occasions. One who has never tasted the sweets of that bliss can never take in his glory and happiness. He does one hundred dollars worth of advertising for a railroad company, gets a "pass" for a year, rides twenty-five dollars; and then he is looked upon as a dead beat or a half blown dead beat. He "puffs" a concert troupe ten dollars' worth, and gets one dollar in "complimentaries" and is then passed "free." If the hall is crowded he is begrudged the room he occupies, for if his complimentaries were paying tickets, the troupe would be so much more in pocket. He blows and puffs a church festival free to any desired extent, and does the poster printing at half rates, and merely gets a "thank you" for it. It goes as part of his duty as an editor. He does more work gratuitously for the town and community than all the rest of the population put together, and gets cursed for it all, while in many instances where a man donates a few dollars for the Fourth of July, a base-ball club or a church he is greatly remembered. He passes "free" you know.—[illegible]

THE WORLD MOVES.

A Western man of prominence advocates the construction of a continuous Railroad throughout the entire length of both the Northern and Southern Continents of America.

Some criticising editors ridicule his project as the idle dream of an enthusiast.

Be wise gentlemen. Don't venture such condemnation. Nothing is impossible in this inventive and progressive age.

Remember the past and withhold skepticism as to the future.

Columbus was jeered when he declared a new world lay beyond the sea horizon. Fulton met derision when he experimented with steam as a navigating power, and so did Stephenson in his efforts to utilize it as a propelling agent on land. Less than forty years ago Morse could not make intelligent people believe it possible to practically communicate thoughts by electricity, and long since then, Engineers who planned the Pacific and other cliff poised and mountain tunnelled railways were deemed candidates eligible for the mad house.

Consider for a moment what steam has accomplished on land and water, and how electricity is now speaking even under the widest and deepest oceans.

Nothing is impossible for the nineteenth century.

If progress and scientific knowledge attend the coming two score years as the past attest, no mortal can estimate future achievements.

We believe young men are living who will witness the completion and successful operation of lines of Railroad travel from Alaska to the Straits of Magellan, with the result of disseminating not only the boundless riches of intermediate regions, but spreading North and South, East and West, the blessings of international fraternity and enlightened civilization.

"The world moves."

For saying that, Galileo was ignorantly pronounced a heretic.

Yet the ancient philosopher spoke the truth.

BONDS.

As citizens of Plainfield we cannot appreciate too highly the good fortune of being clear of the incubus of bonded indebtedness. The value of such an exemption, in view of both public and private prosperity, is beyond computation, and stands in marked contrast with the deplorable financial condition of neighboring municipalities.

Take for example Rahway. That City, on the first of the present year, had a Bonded debt outstanding, exclusive of Water Bonds, to the amount

of	$1,344,200
And a floating debt of	96,739
Making altogether	$1,440,939

or about one and a half million of dollars.

That is the fearful load resting upon a City whose population numbers considerably less than Plainfield.

The Common Council at a recent meeting unanimously resolved—*"that the City of Rahway can pay twenty-five per cent of its existing indebtedness and no more."*

Which may be a present truth, but at the same time, meditates the withering blight of repudiation.

Plainfield has an unsullied record.

Let the watchful efforts of her citizens be directed to keeping in perpetual sovereignty the decree of NO BONDS!

GUBERNATORIAL.

Rarely, if ever, did a Governor of New Jersey, or of any other State, retire with more honor and personal popularity than George B. McClellan.

He has discharged every imposed duty with dignity and fidelity, and won eulogium even from political opponents.

Unexceptionable as Governor McClellan has been, we are confident that his successor, Governor Ludlow, will earn a like noble record.

It does the Democratic party credit to place such candidates before the people.

WORLD'S FAIR.

General Grant has been elected President of the World's Fair Commission, the purpose of which is to suitably commemorate in the City of New York the centennial of peace between Great Britain and her American Colonies, or in other words, the birth of the great Republic of the West. The Commission is composed of the very best class of men, and as a member of its Executive Committee, our worthy fellow citizen, General Sterling, occupies a prominent place.

MAYOR RANDOLPH.

The inaugural of Mayor Randolph, as given by us at length in last week's issue, was a well written and thorough review of municipal affairs and reflected credit upon its author. Our new Mayor has evidently made himself familiar from the start with the requirements of official position, and will, no doubt, to the extent of granted authority, earnestly strive to advance the best interests of the City of Plainfield. In furtherance of that laudable ambition we proffer him our humble support.

THE MAYOR OF NEW YORK.

In consequence of all that has been said by the opponents to the election of Mr. Grace as the Chief Magistrate of the largest city in our country, we have been curious in watching his career and so far we are confident of his earnestness in the right direction; that the freshness and determination with which he has entered into and executed the duties of his office during the early part of his administration, gives promise that he will give general satisfaction to the tax payers, and in the end show that a great public trust can be discharged upon the same principles as those entered into in private life.

* * *

It may be Congressional wisdom to retain the stamp tax on checks, but people of ordinary common sense cannot see its utility.

* * *

How strangely inconsistent for a Government like the United States to coin and set afloat the silver trade dollar, and then discredit it as a currency at home.

* * *

A proposition has been started that Congress allow a life pension per annum to each retiring President of the United States to the extent of one-fourth the salary paid him as Executive. Such generosity would in many cases be superfluous, as for instance that of Mr. Hayes, whom report makes wealthy out of savings from his $50,000 a year.

INAUGURATION OF GOV. LUDLOW.

There was a large number of visitors at Trenton on Tuesday last to witness the inaugural ceremonies of Gov. George Craig Ludlow, but owing to the fact that the ceremonies took place in the Senate Chamber, and only those who were fortunate enough to secure a ticket were admitted, many were disappointed in not witnessing the interesting ceremonies. Both branches of the Legislature met in their respective Chambers at 11 o'clock, and a half hour later the House of Assembly marched into the Senate Chamber and took the seats assigned them, among other dignitaries of the State. Every available space on the floor of the Senate Chamber was filled, and the galleries packed with ladies and gentlemen, while the various Committee rooms were crowded with spectators. At a quarter to twelve o'clock, the firing of a Governor's salute of 15 guns commenced, and President of the Senate Hobart called that body to order. Then came the inauguration ceremonies according to the following

PROGRAMME OF EXERCISES.

1. Prayer by Rev. John Hall, D. D.
2. Administration of the oath of office by Chief Justice Beasley.
3. Delivery of the Great Seal of the State by ex-Governor McClellan.
4. Acceptance of the Great Seal by Governor Ludlow.
5. Introduction of Governor Ludlow to the President of the Senate by ex-Governor McClellan.
6. Introduction of the Governor to the Senate and General Assembly by Hon. Garret A. Hobart, President of the Senate.
7. Inaugural Address.
8. Benediction by Rev. S. Van Benschoten.

The Governor-elect repeated the oath of office in a clear and audible voice, which could be heard in the remotest parts of the room.

Ex-Governor McClellan, in delivering the Great Seal of the State to Governor Ludlow, said it give him great pleasure in delivering it to one whose well-known integrity and ability entitled him to receive it.

Governor Ludlow, in response, said he congratulated ex-Gov. McClellan sincerely at the close of his term. His administration had been characterized with honesty, integrity, purity and fairness, and he would be remembered by the citizens of the State with affection and admiration. He concluded by saying he would ever remember the kind and friendly words addressed to him in delivering to him the Great Seal of the State, which he would now receive.

After ex-Gov. McClellan had introduced Gov. Ludlow to the President of the Senate, the latter introduced him to the Legislature.

Gov. Ludlow then stepped forward to the President's desk, and read his Inaugural Address in a clear and distinct voice. He was greeted with loud applause as he proceeded to read. The document, which is an able one, will be found in supplement form with this issue. At the conclusion of the address, the ceremony of adjourning both Houses took place in the Senate Chamber, after which adjournment was made to the Executive Chambers, where Gov. Ludlow held a reception. Many distinguished State officials and citizens were present, hundreds seizing the opportunity of shaking the new Governor by the hand, he having a kind word and hearty welcome for all. The Young Men's Democratic Association of Trenton, the Joel Parker Association and Krueger Engineer Corps of Newark, attended the reception, but did not enter the rooms as clubs, in deference to the Governor's wishes. These clubs afterward paraded through the principal streets of the city. The Joint Committee on Inauguration afterward entertained Gov. Ludlow, ex-Govs. McClellan and Parker, President of Senate Hobart, Speaker VanDuyne, Private Sec. Jos. L. Naar, ex-Private Sec. J. A. Hill and Rev. Dr. Van Benschoten with a dinner at the Trenton House. In the evening, from 8 to 10, the Governor held a second Reception, at which were present members and officers of the Legislature, Chief Justice Beasley, Judges Scudder, Knapp and Vansyckel, Sec. of State Kelsey, Clerks Little and Lee, Comptroller Anderson and other State officers and citizens with their families.—Petermann's band furnished fine music for both Receptions.

The entire inaugural ceremonies were of a civic character and conducted throughout with dignity and without ostentatious display, all of which was in accordance with Gov. Ludlow's wishes and views.

The Governor and family have taken rooms for the present at the residence of Mrs. Kay, nearly opposite the State House.

Quite a number of our citizens visited Trenton to witness the inauguration.

The Governor has appointed Joseph L. Naar, of Trenton, his Private Secretary. Mr. E. D. Fox is retained as Clerk in the Executive department.

GRAND CELEBRATION.

Arrangements are already quietly progressing in reference to the grand flag celebration which will take place in this city next Summer, and very probably on June 21. The beautiful and costly flag presented by the German ladies of the city to the Aurora Singing Club will at that time be formally presented to them, and the occasion made one of general enjoyment. The celebration will take place in the neighborhood of Jos. Schneider's brewery, in East New Brunswick, on whose grounds a large dancing platform and booths will be erected, surrounded by a high enclosure. Already some thirteen singing societies have signified their intention of being present from Newark, Orange, Jersey City, Elizabeth, Plainfield, Trenton and other places. It is expected there will be over 1,500 visitors present, who will be accompanied by brass bands, who, before proceeding to the grove will make a parade through our principal streets.—*New Brunswick Times.*

The explosion of a large boiler under the sidewalk at Broadway and Eleventh street, New York, last Sunday evening, is calculated to remind people that in walking the streets of that city they are stepping over hidden volcanoes. The crash and noise of the blow up was great, the terrified watchman within the store affirming that he thought "the day of judgment had come in a heap," and some Democrats, hearing the report a long distance up town, concluded that the United States Senatorship had "busted."

It will now be in order for the leading Republican papers of the country, as well as much of the small fry press, to take back all they said about Garfield in 1873. Then they denounced him as a perjurer and bribe taker. They have since supported him for President of the United States but they have not denied or repudiated the grave charges then made. Was Garfield guilty as charged by the Poland Committee and the Republican press, or did they falsify the evidence, and now refuse to make the correction? Which?

Both Houses of the Legislature have adjourned to next Monday.

Our recent cold wave reached England the present week, filled the Thames, with drifting ice, and made Londoners shiver and groan. Only 87 vessels were built in this country for foreign ocean traffic during 1880. Twenty years ago hundreds such were annually constructed and profitably sailed. It is criminal neglect and burning disgrace that means are not taken to reinstate the glory and wealth of American Commerce. The people would be greatly benefited by a copious infusion of practical intelligence and patriotism at Washington.

Senator Blaine has been continuously in Congress for eighteen years, and going into that body poor, is now said to be one of the richest men in the State of Maine. The salary of a Congressman is $5,000 per annum. How an ordinary mortal can accumulate a fortune on that, is a conundrum for the thoughtful to solve? Senator Hamlin, of Maine, has been in Congress for about double the term of Blaine and is a poor man yet.

The long agony is over and the lawmakers at Trenton can now settle down to business. After one of the most bitter and exciting Senatorial fights ever witnessed in this State, the Republicans have selected Hon. Wm. J. Sewell as their United States Senator. His selection is no surprise to us, as we have all along thought he had the most fight in him of all other candidates. He is a more acceptable candidate than Robeson would have been.

The annual meeting of the New Jersey Agricultural Society was held in the State House, Trenton, on Wednesday last, the Hon. Amos Clark presiding. The report of the Executive Committee shows a gratifying condition of the agricultural interests of the State. There has been a decided improvement in the cultivation of soils and in the increase of products. The Hon. Amos Clark was re-elected President for the ensuing year, and the old officers were generally re-elected.

The Census Committee of the U. S. House of Representatives Hon. S. S. Cox in the Chair, is almost ready to report on the new apportionment bill. It seems to be settled that under it the House will be composed of 301 members. As compared with the present representation, Arkansas, California, Iowa, Michigan, Mississippi, South Carolina and West Virginia gain one each; Kansas gains three, Texas four, Minnesota and Nebraska two each; Pennsylvania, Ohio, New Hampshire, Maine, Indiana, Tennessee, Florida and Vermont lose one each, and New York loses two.

The Complete Census.

WASHINGTON, January 17.

The Superintendent of the census furnishes for publication to-day the complete census, showing the population of all the States to be 49,369,595, and of the Territories 783,271, making the total aggregate population of the country 50,152,866.

The complete census of New Jersey as furnished, according to the above statement is 1,130,983.

New Jersey Editorial Association.

The twenty-fifth annual meeting of this Association was held at the American House Trenton Monday forenoon.

The meeting was called to order by Chas. H. Folwell, Esq., of the Mount Holly *Mirror*, who stated that the Secretary elected at the last meeting had tendered his resignation, and Mr. Chas. Bechtel was acting in that position.

The list of newspapers was called, and 23 were represented.

The following propositions for membership were made:

By Mr. Bechtel—C. M. Herrick, *Guardian*, Paterson; Mr. Babcock—S. C. Jennings, *Courier*, Toms River; Mr. Stahl—A. L. English, *Atlantic Review*, Atlantic City; Mr. Vance—Joshua Brown, *Chronicle*, Morristown; Mr. Semple—Thomas C. Hamilton and John H. McMurray, *Reporter*, Gloucester City.

The propositions were referred to the Executive Committee, which made a favorable report, and the parties were elected.

Mr. Bechtel, Secretary pro tem., made a verbal report of the condition of the Association.

Major J. S. Yard, Treasurer, presented his report, showing the balance at last report and receipts for 1880 to be $834; expenses for the year, $83.50; leaving a balance on hand of $750.50. The Excursion account showed the receipts to be $5,484.50; expenses, $5,321.77; surplus paid over to general account, $162.73. The report was received.

The President appointed as the committee to nominate officers for the ensuing year the following: Messrs. Hyer, Goodwin, Kilgore, Glasgow, Bell, Cheesman and Jennings.

Mr. Babcock, from the Legislative Committee, stated that last year he spent six weeks at the Legislature, and that there had been 15 bills detrimental to the press which were killed. No advanced legislation had been obtained through the action of the committee. Major Yard made a supplement report. The report was received.

The President reported the death of Judge David Naar, late of the *True American*, and that he had appointed Col. M. R. Hamilton, to prepare a memorial.

Mr. John F. Babcock read a memoir of the late Daniel Porter, of the Somerset *Unionist*.

Mr. Morris R. Hamilton read memoirs of the late David Naar of the Trenton *True American*, and Frederick W. Foote, of the Elizabeth *Journal*.

Mr. Bechtel read a memoir of Sylvanus D. Slack, of the Hunterdon *Independent*.

The above memoirs were, on motion, directed to be printed with the minutes.

Mr. Jennings, from the Committee to nominate officers, made the following report:

For President—Robert J. Killgore, Hunterdon *Democrat*.

Vice Presidents—First District, A. M. Heston, Bridgeport *Chronicle*; Second District, W. J. Bruce, Burlington *Enterprise*; Third District, W. L. Force, Plainfield *Constitutionalist*; Fourth District, Adam Bellis, Warren *Journal*; Fifth District, L. O. Stiles, Morris *Jerseyman*; Sixth District, Charles E. Lum, S. Orange *Bulletin*; Seventh District, Edward Gardner, Bayonne *Times*.

For Secretary—Charles Bechtel.

For Treasurer—James S. Yard, Monmouth *Democrat*.

For Executive Committee—Sinnickson Chew, West Jersey *Press*; A. A. Vance, Morris *Jerseyman*; Edward Gardner, Bayonne *Times*; Lewis A. Hyer, *National Democrat*, Rahway.

On motion, the Executive Committee was authorized to act in all matters of legislation affecting the press.

A discussion ensued upon the matter of top of column advertisement. A number of members expressed themselves as being opposed to and having refused to insert them. Adjourned.

State Reports.

We are in receipt of a number of the Reports of State officers. Comptroller Anderson's report shows a balance in the Treasury at the begining of the fiscal year of $500,288 44. The receipts during the year were $2,467,697 16. The disbursements were $2,423,918, leaving a balance to the credit of the State of $544,067 55. The receipts were $171,746 69 less than for the year before; the expenditures $77,097 23 less. The abstract of ratables shows the total valuation of the taxable property in the State to be $518,617,518.-84. Essex County has the largest valuation, and Cape May and Ocean the smallest. The counties that show a decrease in taxable valuations are Burlington, Cumberland, Hudson, Hunterdon, Salem, and Union. The increased valuations in other counties make a net increase in valuations over last year throughout the State of about $10,000,000. Among the disbursements made by the Treasurer, with Controller Anderson's counter-signature, are $290,511 for the support of charitable and reformatory institutions; $297,752 for court expenses; $132,259 for the salaries of State officers and their expenses.

In his report as Commissioner of Insurance, Secretary Kelsey says that the life policies of companies doing business in New Jersey remaining in force are $53,-468, and represent an aggregate insurance of $42,930,432. In 1880 there were 28,356 policies issued, for $5,967,743. The premiums received were $912,967 63, and the losses paid were $801,297 55. In his report as Bank Examiner, Mr. Kelsey says that the total assets of all the savings banks in the State amount to $18,-361,011 47, with liabilities, except surplus, of $17,533,655 41. They have 68,457 open accounts, and a surplus over all liabilities of $831,599 92.

The Sinking Fund Commissioners furnish in their report a list of 125 mortgage securities held by them. The total of their loans on these securities is $931,-567, on which $55,528 interest is due. The largest mortgage is held against Hewes & Philips, and is for $40,000, and ex-Congressman Phelps, Gen. Sewell, the Camden and Atlantic Railroad Company, and ex-Congressman Cutler are among the conspicuous mortgageors. Thirty-one of the securities, representing an aggregate of $242,000, are in process of foreclosure, one of the mortgageors thus proceeded against being ex-Congressman Cutler.

The boys in the reform school at Jamesburg, according to the report of the Reform School Committee, divide their time between sewing and the machine shop and the laundry-room. They washed 98,501 shirts and ironed 32,267 shirts last year. Then they made 497 shirts, 922 pairs of trousers, 439 suspenders, 275 caps, and 580 jackets. The receipts from their labors approximated $19,000. The whole cost of running the institution was about $40,000. The labor of the girls in the State Industrial School completed 17,928 shirts, 129 dresses, and smaller quantities of other articles of wearing apparel. The work of the sewing-room netted the State, however, only $705.

The convict labor in the State prison realized $68,572 50, an increase of $22,000 over last year. The cost of running the institution was $115,928 77. The profits of convict labor would have been larger but for the fire of September last. Of the prisoners in the State prison at the close of the fiscal year 1879, 31 have died, 15 were pardoned, 4 were sent to the Lunatic Asylum, and there are 836 left within the prison walls. Of this number 6 are in for life, for murder. Ten others are imprisoned for shorter terms for manslaughter. One of the convicts has been in the prison since 1860, and 336 were committed in 1880. One is serving out his seventh term in the prison, and 6 are on their fourth, 31 on their third and 133 on their second. The convicts employed on shoe contracts number 376, and 307 are unemployed. The 22 female convicts made 7,066 shirts during the year.

Edward Williams, aged thirty-three, an unmarried man, son of Hartshorne Williams, a well-known New York merchant, and nephew of the late Commodore Carpender, U. S. N., while removing a platform from the boathouse of Dr. Fields at Red Bank, Jan. 14, in order to release an ice-boat, was carried with the falling platform a distance of thirteen feet, striking his head and shoulders on the ice. He lingered until one o'clock, when he died.

An unknown man was struck and instantly killed by the train on the Erie Railroad at Rutherford Saturday night about six o'clock. It was impossible to learn who the man was. He was poorly dressed, and appeared to be a laborer.

STATE ITEMS.

Lizzie McMahon, the young girl who was recently found sick in the street and taken to the Trenton Almshouse, still refuses to give any explanation concerning herself.

Reed Anderson, a resident of East Trenton, while crossing the canal on his way home broke through the ice and would have been drowned had not some citizens rescued him.

There is no truth in the report that a large portion of the railroad dock at Sandy Hook has been carried away by the ice. Neither that nor any other dock there has been damaged.

At Trenton, Jan. 15, William Coombs, a brakeman on the Pennsylvania Railroad, jumped from his train at the coaling post, to place a switch, and fell under the wheels. Several cars passed over him, crushing him so badly that he cannot survive.

A serious fire broke out on Saturday in the extensive silk dyeing works of J. Weidman & Co., in Paterson. The damage to the buildings, which are new, was not very heavy, but there was a serious loss on the stock of silk in process of dyeing.

Nettie Richards, aged eight years, of Jersey City Heights has been missing from her home since last Thursday. It is feared that she has been abducted. Last Wednesday when the girl returned from school she said that she had been given a short ride in a sleigh by a strange man. The next day the child disappeared.

Miss Annie Blanchard of New York city, and a leader in demi-monde society, has brought a suit against the executors of the estate of the late Dennis Coppers of Hoboken, for the recovery of a quantity of jewelry which she alleges Coppers took from her previous to his death. Coppers it will be remembered, is the man whose body was refused interment in Calvary Cemetery, and over which litigation is now in progress. Judgment has been rendered in her favor for $1,550.

Counsel for ex-Alderman Hermann W. Gedicke of Newark convicted of criminal malpractice and sentenced to two years' hard labor in the State Prison and to pay a fine of $250, applied to Judge Depue Saturday for a writ of habeas corpus. The counsel insisted that the statute under which Gedicke was convicted and sentenced was unconstitutional; that a valid sentence could not be pronounced under an invalid statute. The Prosecutor for the State insisted that the court had no jurisdiction. Judge Depue reserved his decision.

The hood of the crown plate of a boiler in Watson's bleachery in Passaic City, blew off with a loud report at noon on Saturday, filling the engine room with steam. Owen Garland, one of the firemen, was instantly killed by being struck by the hood. His skull was crushed in a horrible manner. He was married, and had a wife and seven children. Michael Tully, the other fireman, who was in the engine room at the time of the explosion, was badly scalded by the steam which escaped from the ruptured boiler. The explosion is supposed to have been caused by a defect in the iron.

THE days have gained several minutes in length during the past fortnight.

SLEIGHING, coasting and skating were never better in this city and vicinity than at present.

A FEW more sidewalks left to be sprinkled with ashes. Beware of the penalties of neglect!

THE Calico Sociable of "The Jolly J" is the coming attraction of the season. Prof. France will furnish music.

LOTS of Sabbath breakers on "Sylvan Lake" (?) last Sunday, but—strange to say—none were drowned, and all enjoyed themselves.

BACHMAN announces a large stock of bleached and unbleached muslins at New York prices, and a line of Winter goods at great reduction, to close out.

IT is stated that a new regulation will soon be promulgated requiring every employee in the post offices to wear a uniform similar to that of letter carriers.

THE periodical sociable of the Crescent Avenue Y. P. A., takes place this evening. A feast of reason and a flow of soul—with the customary refreshments—are promised.

ANY one in need of horse or mule, or any having such animals to sell or exchange, will find satisfaction and fairness by dealing with Mr. John W. Morris of New Brunswick.

A MEETING of the Chiefs of Police of the State was held at Trenton on Monday evening. This city was not represented; its lack of protection demanding the attention of the entire force (?).

THAT rubber which was lost by one of the "Good-Will" boys while on the recent visit to Plainfield, was found suspended from the limb of a tree in front of a farm house near Plainfield on Sunday.—*Fredonian.*

STRAINED jokes regarding the author of "Beautiful Snow" and imaginative and nonsensical accounts of his terrible slaughter in numerous sanctums, are becoming more hackneyed and stale than the subject itself.

THE new brass band at Flemington is learning to play, and can manage "four or five airs without making a discordant sound," so says the *Democrat* of that place. Let it visit this city and the P. C. B. will show it how.

VENNOR, the weather-prophet, says we are to experience snow falls during the middle of the present month, terminating in milder weather. A thaw, interrupted by a brief cold spell, will set in about the 18th and extend into February.

THE new Trustees of the Crescent Avenue Church—elected on Monday evening last—are Messrs. Edward L. Brown, Jas. T. Closson, Lawrence Myers, Chas. Place, Oliver B. Matthews, Ernest L. Walz and John W. Moore. All but the last named being re-elected.

AN entertainment will be given to-night at Dunellen, wherein will take part the admired elocutionist, J. Seaver Page, Esq., of the New York Palette Club, and formerly a summer resident of Bound Brook. Mr. T. B. Brown, the vocalist, and other talented artists will assist.

MOTHER SHIPTON's prophecy said:

"The world to an end shall come
In eighteen hundred and eighty-one."

It is desirable, therefore, that all indebted to THE CONSTITUTIONALIST office, square their accounts immediately.

THE trial of Komah Nyman for the murder of his father in Passaic a year ago last summer was concluded in Paterson yesterday. The jury, after half an hour's deliberation, made a verdict of "Not guilty." Nyman's face brightened up, but he did no show much emotion.

THE Potter Press Works resumed its manufacturing on Monday morning after a few day's cessation. The cause of the stoppage was the putting in of a new engine of sixty-horse power, the one in former use being found unequal to the demands of the increasing business of the works.

THE Milltown Cornet Band visited this city on Tuesday evening under the leadership of Mr. Geo. Schlosser. After serenading Messrs. S. C. Ryder, Auguste Saltzman, John W. Murray, Geo. Miller and Fred. Caspar, and passing a sociable and pleasant evening, the Band returned to its home.

MR. L. B. BOICE of 63, 65 and 67 Somerset street, having lately purchased the New Brooklyn Mills and placed therein improved machinery, is prepared to receive all kinds of grist. The securing of this property enables him to assure his patrons that he will keep on hand none but the purest of flour and feed of all kinds.

WE fail to see any application in the following, from the Mount Holly *Herald*:

"Politics makes strange bedfellows." Here we have the Bull Domingo Consolidated Mining Company of Colorado, with William H. Barnum as President and Stephen W. Dorsey, Vice President. Barnum is chairman of the National Democratic committee and Dorsey is secretary of the National Republican committee.

IN these nights of cold it will not be amiss to remind the poor that two or three newspapers pasted together will afford as much warmth as an additional blanket. The paper should be placed between two thicknesses of other covering. Paper coverlets are now manufactured in England, seven feet by five, and sold at thirty cents each. They have been in use in China and Japan for thousands of years.

FOR several years a law has been enforced in New Jersey, under which junkmen and others found with stamped bottles in their possession belonging to tradesmen and duly registered are fined 50 cents for each bottle. In October last Martin Leach was arrested with 300 stamped bottles in his wagon. Justice Allen fined him $400. The case was appealed to the Supreme Court, and Judge Knapp has reversed the judgment of the Justice, and decided that to justify an arrest or conviction the complainant must prove that the prisoner not only had the bottles in his possession, but was vending, using, and destroying them.

FITZGERALD's Manual of the present session of the Legislature gives the following facts: Mr. Lawrence, of Mercer county, is the oldest member of the Senate, aged sixty-four; Mr. Nichols, of Cumberland, the youngest, aged thirty-two. There are eight lawyers in this body, three farmers and the others are a railroad official, pork packer, glass manufacturer, editor, merchant, etc. One was born in Ireland and one in Connecticut, and the others in New Jersey. Fifteen are old members and six new. The House has thirty-six old and twenty-nine new members. Col. William E. Murphy, Dem., of Burlington, is the oldest, aged 76, and Mr. McMurray, of Camden, the youngest, aged 26. Thirteen of the members are farmers, ten merchants, seven lawyers, four editors, three school teachers, five with no special business and two liquor dealers.

CIRCULARS have been issued by the Finance Committee of the Muhlenberg Hospital requesting subscriptions toward the completion of its building. A blank form convenient for filling out the amount donated, accompanies them.

THE Rev. A. H. Lewis' discourse on "The Art of Lying" was listened to by a large and attentive congregation on Sunday evening. The speaker absolved none from the pernicious habit, even accrediting its practice to theologians, physicians and lawyers.

LAING's Hotel, under the management of Mr. Geo. Miller, is becoming one of the most popular of destinations in the State for sleighing parties. Almost every evening a merry crowd of ladies and gentlemen from surrounding places stop at this hostelry for rest and refreshment.

THE little girl, Helen Burrows, who has been ill of small pox for the past two weeks, at the residence of her uncle on Prospect Place, North Plainfield, died on Wednesday and was buried the same night. She was just nine years of age lacking one day. There is no other case of the disease in this vicinity.

AT a regular convention of section No. 387, endowment rank, K. of P., held at their Castle Hall in this city, Monday, Jan. 17th, 1881, the following officers were installed for the ensuing year:

P.—Henry C. Scott,
V. P.—Benj. R. Force,
S. & T.—Wm. M. Parrine,
Chaplain—Jas. H. Buckle,
G.—U. B. Crane,
I. G.—S. C. Lilienstern,
Sentinel—L. R. Woolston.

MESSRS. Frohman, Bacon, Norton, Davis, Tries, Adams, Moore and Alwards of the Elizabeth Poor Man's Club, visited Plainfield on Tuesday evening last, being transported hither in a four-horse sleigh. One of landlord E. P. Thorn's bountiful and enjoyable suppers was served the guests upon their arrival, and an evening spent under the roof of the Mansion House that will be long remembered by the Club as an occasion of pleasure to which its sociality and the host's generous endeavors contributed.

THE absence of snow and the presence of ice, of late, have made coasting on the much patronized Broadway hill a dangerous enjoyment. Many accidents of more or less seriousness are reported, which should serve to warn those who persist in indulging in the sport of what might happen. An ex-lawyer and embryo banker was wounded in his apparel recently at the same time a young collegian was somersaulted through the air. Mr. George Stevenson was so hurt about the knee while coasting on Rockview avenue as to necessitate confinement to the house. The ladies also, have had more than their share of bruises and scrapes.

Installation.

At a special session of the Classis of Newark, on Wednesday of last week, it was arranged that the installation of Rev. A. V. V. Raymond, as pastor of the Trinity Reformed Church, Plainfield, shall take place on Thursday evening, Feb. 3. Rev. S. M. Woodbridge, D. D., of the Theological Seminary, New Brunswick, is to be invited to preach the sermon. The Stated Clerk was requested to present to the next meeting a suitable minute in reference to the death of Rev. Mr. Kruger.

Y. M. C. A. Entertainment.

Contrary to the expectations of many the Methodist Episcopal Church was not filled to overflowing on Thursday evening of last week. The occasion was the fourth of the Y. M. C. A. course, and it was naturally supposed that the unexcelled programme selected and the unrivalled galaxy of artists engaged to carry out its great variety, would attract a much larger gathering than could be conveniently accomodated. Fortunately such was not the case, and the audience was comfortably seated without overcrowding, although there was not too much room unoccupied.

Mr Henry Galt, a combination of pathetic and humorous elocution with musical attachments, occupied the place of honor at the head of the programme. His reading of Longfellow's "Robert of Sicily," accompanied by Miss Florence Tyler on the organ, was pleasurable, although too much attention was paid to the rythm and measure of the poem. He, however, displayed by the recitation of humorous sketches later, the only power in his possession to interest an audience—by amusing it. Mrs. Florence Rice-Knox was, as always, in remarkably good voice. Although of late years no improvement in her chest notes can be claimed, yet her wonderful compass of tone must be admired. It was to be regretted that both *encores* given the lady were replied to with selections she had sung within a year to a Plainfield audience. Mr. F. G. Bourne's baritone voice was finely displayed in Pinsuti's "Bedouin Love Song," and all his selections were thoroughly enjoyed. The duett "When I know that thou art near me," by this gentleman and Mrs. Knox, was undoubtedly the gem of the evening.

Mr. W. F. Mills' piano solos were perfect interpretations. His playing of the Mendelsohn-Liszt "Midsummer night's Dream" was particularly commendable. Of the violin performances of Mr. Carlos Hasselbrink, too much in praise cannot be written. The artist showed an enviable command of the latest capabilities of his instrument, and brought forth such in a sympathetic manner that proved the congeniality of his feelings with the harmony produced.

Some allowance should be made on account of the fact that the entire company were compelled, by an accident that delayed the New York train, to come direct to the church and fill their separate parts without rest or refreshment. This occurrence also necessitated a late opening of the entertainment; which, however, was not to be regretted, as Mr. Clark W. Evans kindly volunteered one of his exceptionally interesting piano solos during the wait.

Common Council.

A special meeting of the Common Council will be held next Monday evening at 7:30. The special questions that will come before the body will be in regard to the financial condition of the city, including the collection of present and back taxes; claims due to and by the corporation, and in relation to applications for liquor licenses.

Inducement to Subscribers.

It being the custom of many journals to offer chromos and other inducements to their subscribers, the Hunterdon Co. *Democrat* attempts trade by the following suggestion:

"In these nights of cold it will not be amiss to remind the poor that two or three newspapers pasted together will afford as much warmth as an additional blanket."

Land League.

Sympathizers with the cause have established in this city a branch Land League officered as follows: Michael Quinn, President; James O'Neill, Vice President; William Tobin, Cor. Secretary; Edward Burmingham, Financial Secretary; and Thomas Callahan, Treasurer. The membership numbers about fifty, and it is proposed to hold a grand public meeting at an early date. The next regular meeting will take place in St. Mary's Hall, Sunday evening, at 7:30.

Illumination at Menlo.

We understand that quite a number of sleighing parties have recently taken their course toward Menlo Park, possibly in the hope of seeing the place illuminated by the electric lamps. In order that there may be no disappointment hereafter, we are authorized to state that Wednesday and Thursday evenings of each week will be the ones on which the lamps will be tested, and all the lamps lighted. This will give a favorable opportunity to parties wishing to witness the illumination.—*New Brunswick Times.*

The Johnson Trial.

The trial of John Johnson for the murder of Samuel Williams (both colored) which occurred on the night of Sept. 11th 1880, and was reported in this paper, was begun before Judge Van Syckle and associates in Elizabeth, Wednesday. The following jury was impanelled: Jerome B. Maddell, Rahway, Foreman; Samuel Ayres, Rahway, James W. Tabors, Elizabeth, John S. Stryker, Elizabeth, Stites M. Parse, Fanwood, Thos. S. Smith, Elizabeth, John D. Miller, Elizabeth, Theo. Ludlow, Rahway, Geo. Andelfinger, Rahway, John Steile, Clark, Milo R. Wilcox, Elizabeth, and J. Clark Luster, Elizabeth.

Of Interest to City Clerks.

The following has been introduced into the State Legislature. Should it become a law, City Clerk Leonard will have his hands full of business:

"H. 23. By Mr. Munn, 'Act relating to dogs.' Provides that the Common Council or Township Committee shall annually direct the imposition of a tax upon each dog or bitch owned within the municipality, not less than 50 cents nor more than three dollars. The Clerk to keep a dog register to contain a number and description of the dog, and to supply a metallic tag upon payment of a fee of 25 cents. Makes all dogs registered personal property."

The N. J. Central Stock.

The stock of this railroad was sold last Saturday at 87½. During the panic, when this stock was quoted at 6, a gentleman of Dover went to New York city one day with $18,000 which he had resolved to put in this stock at this price. Going to a friend, who was a broker, the latter dissuaded him from carrying out his intention and he did not invest. A comparison of the price of the stock at that time and its value to-day shows what an opportunity was missed for making a large fortune. The sum of $18,000 at that time would have bought $300,000 of Central stock, which to-day is worth $262,500, netting the investor the handsome fortune of $244,500. We also know of another gentleman of this vicinity who went to New York with $5,000 at the same time and for the same purpose, but was dissuaded in a similar manner.—*Iron Era.*

Sensible Advice.

The Newark *Register* has the following comment on the subject of blockaded sidewalks, which is as applicable here as elsewhere. The *Register* says: "Every householder should bear in mind that it is a duty imposed upon him by the law to clear away the ice and snow from the pavement in front of his store or residence. If he does not do so he not only lays himself open to fine, but what is much more serious, renders himself liable to an action for damages in case any pedestrian sustains an injury through such neglect. Even though the law did not compel this action, every citizen should clean his sidewalks for both philanthropic and prudential motives, and thus do what he can to make the way of the pedestrian safe before him. From a business point of view the advantages of doing so, are too obvious to need pointing out. When the sidewalk is covered with ice the passer by is too busily engaged in watching his footsteps to look either to the right hand or to the left, and the store window offers its attractions in vain."

Feininger-Evans.

The attendance at the Second Feininger-Evans Recital of Tuesday evening was all that could be desired in the way of both quantity and quality. The superb programme and artistic talent of the previous one was serviceable in attracting music-lovers of cultured taste to the second entertainment of the series, and every reserved seat was occupied.

The Feininger Quartette played selections from the works of Mozart and Beethoven in their usual praiseworthy manner. The themes were all thoroughly enjoyed and appreciated—menuettos, allegrettos and allegro movements, being especially pleasing. Mr. Clark W. Evans rendered piano solos from Henselt and Rubinstein in a way that added materially to his achieved reputation as an artist of wonderful skill and execution. An additional performance being insisted upon, the audience was favored with Gottschalk's "Last Hope" interpreted with a softness of touch and expression of feeling that claimed the finest sympathies of all with the sentiment of the composition. Miss Mary S. Hunt, a contralto with a future before her, sang productions of Beethoven and Jensen with vocal ability sufficient to elicit a recall. In reponse she gave an English ballad composed by her brother who acted as accompanist. Mr. Wilhelm Mueller's exposition of his talents on the 'cello, was one of the most enjoyable features of the evening. That artist proved his claim to rank among the highest performers on his special instrument. He was accompanied by Mr. Julius Risch.

We were promised, at the begining of the season, a portion of more modern music than is usually rendered at classical recitals. This the public has not been favored with except in reply to encores. While we would not do such injustice to the high musical cultivation of every individual, without exception, who attended on Tuesday evening, as to say that they would separately or collectively enjoy any composition of later date than the Symphonies of Beethoven, yet there are innumerable productions of recent years that from harmony of sound and beauty of expression would be listened to with satisfaction.

A Good Idea.

Lately the Erie Railroad has been doing an immense freight business, and, in consequence, the passenger trains have been considerably delayed. Last Saturday the Orange county express was late, and the conductor, David Ennis, who is something of a wag, to avoid answering questions, labeled a paste-board and pinned it to his vest: It contained the following information: "This train is twenty minutes late at Graycourt, waiting for President Burt of the Warwick Railroad, and eighteen minutes' delay in putting a car on the track at Newburg Junction. Passengers will ask no questions."

Congregational Church.

The Rev. Dr. Vincent will preach in the Seventh Day Baptist Church on Sunday next, the 23d inst., both morning and evening, on behalf of the Ladies Aid Society of the Congregational Church, which worships at present in the Seventh Day church. The Congregational friends having so far prospered in their new enterprise that their permanent continuance is now fairly insured, are turning their attention toward securing a church of their own. The special services next Sabbath, are for the commencement of a fund for furnishing the building soon to be erected. We hope to see a large turnout at both services.

The New Baltimore and Ohio Red Book.

A little volume with the above title, issued by the Baltimore and Ohio Railroad Company, and just received, while in one sense an advertisement, is a most complete compilation of Congressional returns of the late election, presented in such form as most clearly to show its results, and to this end the returns of previous elections are given, and from them the gains and losses compiled. The returns for 1880 are given as received under the official seals of the County Clerks of each county, and subsequently revised from Secretaries of State. No such extended and thorough compilation of political results was ever before attempted. The present edition is confined to Congressional returns. A second edition will be issued within a few weeks giving the Presidential returns by counties in each State, and showing comparisons with the vote of 1876, with majorities, gains and losses. The copy for the Presidential edition is complete and in the hands of the printer. The New Baltimore and Ohio Red Book, while not for careless or indiscriminate circulation, will be sent without money and without price to all who care to write for it to C. K. Lord, Baltimore, Md. The enclosing of a three-cent stamp will pay the postage.

An Ice Dam.

The ice in the Raritan River from a point just above the railroad bridge broke up in a great measure during the late storm, and floating down until it reached the solid ice has formed an ice dam stretching entirely across the river, where it appears to be jammed into a solid mass. This has had the effect of backing up the water until yesterday it was within three or four feet of the bottom timbers of the landing bridge, and covered the low portion of the road from near the northern end of the bridge to the old Bound Brook road to the depth of two feet, and over which the current ran very swiftly. An accident occurred at this place yesterday forenoon of a very unpleasant character to Dr. Titsworth of New Market, who attempted to pass over the submerged road in a sleigh. When about half-way over, the water floated the sleigh, carrying the horse attached thereto off his feet, despite the efforts of both horse and man, and had it not been for the wire fence that stretches alongside the road, which stopped their progress down the stream, the accident might have been serious. The condition of the doctor was fortunately observed by several persons who went to the rescue and finally succeeded in relieving him from his unpleasant predicament. A blanket from the sleigh was picked up a long distance down the river.—*New Brunswick Times*, Jan 12th.

An Impromptu Race.

A horse attached to a sleigh in which was a bale of hay, started from in front of the office of its owner, Mr. P. M. French, last Wednesday afternoon, on an expedition of its own across Front street, through Park and into North avenues. As the animal, running its fastest, turned into the latter thoroughfare, the sleigh behind it was thrown against a hay-rigging belonging to Mr. Reagan of Bound Brook to which was harnessed a span of sober appearing horses, standing unhitched before Rockfellow's grocery. But the looks of the team belied it. Undoubtedly feeling that the reputation of Bound Brook's trotters depended on them, and ignoring that they were handicapped with a heavy wagon, the pair started in the race. The single horse was well under way and some distance ahead *before* the span got the rigging behind them moving, but the contestants were neck and neck as they neared the depot. Drivers of other vehicles got out of the way with alacrity to give a clear field and no favor; while the depot hackmen stood in the middle of the road waving their hats until the horses were within 600 feet of them, and then jumped back onto the sidewalk. The turn into Peace street was made with the team ahead and in this position Front street was reached, down which the hay-rigging and its pullers started for Bound Brook. Mr. Wm. Harding saw it coming and realizing the danger of its continuing its course through that thickly traveled part of the city, he sprang in behind, climbed out on the tongue and seizing the reins succeeded in stopping the mad race. The single horse and cutter, feeling chagrined and ashamed at their defeat, turned into lane near Demass's shop on Somerset street.

Important to Firemen.

A correspondent writes as follows to the New Brunswick *Times*, on a matter that concerns firemen in this city as well as throughout the State.

"The commission appointed by the Governor of this State to devise a plan for the better government of cities have agreed upon the following clause:

Any fund or property belonging to the fire department of any city, town or borough shall hereafter be vested in and held by the city hereby created as successor to said city, town or borough, and shall be held, managed, dealt with and disposed of in accordance with the law, deed or grant, will, bequest or devise under which such fund or property originally acquired.

We wish to call the attention of our firemen to this clause and to its injustice, and we claim it to be the duty of every honest man and fireman to oppose this attempt to legislate the management and control of the Relief Fund into the hands of politicians. It should be remembered that no city government had aught to do with the creating of this fund; it has been raised through the efforts of the firemen themselves, with the contributions of private companies or individuals. The fund has been managed so judiciously that there is or has been no cause of complaint. The firemen of New Jersey can do much to thwart the scheme, and we trust those of this city will not be backward with their help. We ask, how long would our fund last if placed in the hands of the city? How long before it would be absorbed into some other fund, or placed to the credit of the incidental account. And again, in the event of an injury to a fireman, no relief could be secured until a special meeting of the Board of Aldermen was called."

The firemen throughout the entire State are combining to resist this invasion of their rights, and have been holding meetings, appointing committees, etc., with this end in view. We understand the Committee have promised to strike out the paragraph, but the bill should be watched nevertheless."

SUPPLEMENT with this number of THE CONSTITUTIONALIST, containing Gov. Ludlow's Inaugural Address.

Japan As It Is.

The Rev. Dr. Syle, for seven years resident in Japan, will deliver a lecture on "Japan As It Is," in Seminary Hall, 7th street, on Thursday the 27th inst., at 8 o'clock p. m. Admittance 25 cents.

Personalia.

Thanks to Assemblyman William A. [illegible], of Somerset, for public documents.

The Rev. John C. Bliss is entertaining his brother and that gentleman's wife at the parsonage.

Mr. John W. Moore, of Grove street, is traveling in the Far West and California in search of renewed health.

Gen. Wm. H. Sterling has been appointed a member of the Executive Committee of the World's Fair Commission.

Mr. and Mrs. Auguste Saltzman have the sympathy of their many friends during the serious illness of their two children.

The marriage of the only daughter of a prominent architect of this city to the Professor of Mathematics of Rutgers College is on the "tappee."

The re-appointment of Rev. Wm. Day, the late pastor of the Plainfield M. E. Church, to a charge at Montclair, is reported to take place in the Spring.

Dr. J. H. Vincent lectured on "That Boy's Sister," at Rahway, on Thursday evening of last week; the evening previous, speaking at New Brunswick.

Mr. James Wilson Ryno of this city died of paralysis at the residence of his father-in-law, Mr. R. A. Gibbs of Newark, on Tuesday last. He was buried on Thursday.

Mr. T. R. Force of Philadelphia, agent for George A. Stone, is in town selling all kinds of nursery stock. The Pocklington Grape, Cuthbert, Raspberry and Roses specialties.

There was buried on Sunday last, from the residence of his son, 189 Dean street, Brooklyn, Mr. John F. Lee, formerly of this city. The deceased expired on Thursday after a lingering illness.

Mr. and Mrs. Henry Woodland will celebrate the fifth anniversary of their marriage at the residence of Henry W. Haviland, Esq., near Kingston, N. J., on Wednesday evening next at eight o'clock.

Mr. Cornelius Snedeker, a well-known clothing-merchant of New Brunswick, of the firm of Snedeker, Outcalt & Co., died suddenly from apoplexy at his residence in that city on Tuesday last. Mr. Snedeker was well-known to parties in Plainfield and was universally esteemed for his many excellent qualities.

Mr. Adam Fritz of Front street has decided to dispose of his well established business next month and start in the raising of cattle on a ranche in New Mexico. The sincere wishes of all for his success will go with him. He has changed his intention of appealing the late case against him, and has since settled the affair.

We found a number of delicious oranges upon our editorial desk the other morning, left there by our esteemed friend, Auguste Saltzman. We learn they were grown at Port Orange, Fla., in a fine young grove of orange trees owned by Mrs. A. Saltzman and E. Marcus. In flavor they were the best we have tasted in a long while.

The World's Fair.

The Executive Committee of the World's Fair Commission met on the 19th inst., consisting of the twenty-five members appointed and the Finance Committee of the same number, who are members ex-officio. The latter reported that $1,000,000 had already been raised and there would be no trouble in securing $3,000,000 in addition. A resolution was adopted to notify property owners that were concerned, to the effect that the Inwood site had been accepted. The expenses of all the meetings of the Committees, so far, have been defrayed by its members, and nothing of the kind will be charged to stockholders. The latter thus start in free from any indebtedness. Gen. Grant has accepted the Presidency unconditionally which will undoubtedly contribute to the success of the affair. The Executive Committee meet every Wednesday, the first of such meetings in the month being a "regular" meeting at which are received reports of the Finance and other committees. The securing of suitable rooms as headquarters is now in progress.

FIRE MATTERS.

The following list of officers of the American Hose Co., of Trenton, elected on the 12th inst., includes many personal friends of firemen in this city:

Pres.—Abraham Chamberlain; Vice Pres.—John P. Rogers; Sec.—Chas. Q. Carman; Ass't Sec.—Henry Seabridge; Treas.—Wm. McGill; Foreman—John Kreigner; Ass't Foremen—First—Arthur McGill; 2d—Wm. McCoa; 3d—Sam'l Seabridge; Engineer—Walter Davison; Team Com.—Josiah Jeates; Collector—James R. Seabridge; Aud. Com.—John P. Rogers, John E. Welsh and John Kreigner.

SPORTSMEN'S CORNER.

There is evidence of considerable legislation on the game laws the present session, if we may judge by the number of bills being introduced into the State Legislature relating to game and game fish. The following have already been introduced:

Senate, No. 12. A supplement to "An Act to amend and consolidate the several acts relating to game and game fish," which applies to the killing of deer in this State, making the season the month of November only.

H. 40. By Mr. Johnson, supplement to the act to consolidate the acts relating to game and game fish, prohibits the killing of woodcock between January 1 and July 1, and August 1 and October 15.

H. 41. By Mr. Johnson, an act prohibiting the killing of grouse and pheasants between January 1 and October 15, and December 15 and December 31.

H. 42. By Mr. Johnson, an act prohibiting the killing of rabbits during the same period as above; also the killing of partridges under a penalty of from $5 to $15.

H. 44. By Mr. S. Martin, an act repealing the section of the consolidated game law, which provided penalties for killing woodcock between January 1 and September 1; re-enacts the law fixing the date at January 1 and July 1.

H. 47. By Mr. Johnson, An Act repealing section 60 of the game laws of 1877.

James Chamberlain of Tom's River, while out gunning on Thursday, killed an otter in the creek, near the flood gate, a short distance west of the town. The animal measured nearly six feet in length.

Major E. J. Anderson, of the New Jersey Fish Commissioners, has received a letter from Prof. Baird, of the United States Fish Commission, proposing to send to the former a hundred thousand western salmon eggs, to be hatched and deposited in the Delaware river. Of course the offer was accepted, and the eggs will be hatched under the direction of the Fish Commissioners of this State. This liberal donation will make, with those heretofore sent, 400,000 salmon to be deposited in the waters of this State, when ready for distribution this year.

Mr. George Cook of this place, killed a hen a few days since, the liver of which weighed two ounces. The fowl seemed to be in a perfectly healthy condition before killing, and why its liver should have grown to such an enormous size cannot be accounted for. Two ounces we believe, is a little above the average weight.—[illegible]

NEW YORK, JAN. 10, 1881.

MESSRS. EDITORS:—Yesterday I had the pleasure of attending the Union Congregational Church, in Brooklyn, of which the Rev. N. E. Smith, D. D., formerly of this city, is now the Pastor, and has commenced laboring in his new field with great energy. Scarcely a month has passed since the Doctor took charge of this church, and yesterday there were added to its membership seventy-five by confession and certificate. Notwithstanding the inclemency of the weather during the past week, his evening meetings were well attended. Dr. Smith is now located amid many of his old friends, and it is astonishing how they are rallying around him—it is safe to say that by early Spring every available seat in the church will be occupied. Among the audience I noticed Mr. and Mrs. Parker, Mr. Geo. Hegg and family, Mr. Theodore Young, formerly of your city, and District Attorney Bergen, of Somerville.

A FREE ACKNOWLEDGMENT.

I hereby certify that I habitually use Dr. Kennedy's "Favorite Remedy" in my family in all those cases in which a domestic medicine is needed, and that it has never yet failed to accomplish the purpose desired. We look upon it as an anchor to windward that is sure to hold in every instance mentioned on the Doctor's bill of particulars. I make this acknowledgement freely, in hope of doing good to others, feeling that a medicine that is near at hand, and to be implicitly trusted, is worth more than it costs.

Proceedings of the Board of Chosen Freeholders of the County of Union, N. J.

[OFFICIAL.]

ELIZABETH, N. J., Jan. 6th, 1881.

Pursuant to adjournment the Board of Chosen Freeholders of the County of Union, met at the Court House, on Thursday, January 6th, 1881, at eleven o'clock A. M.

Regular meeting.

Present—Director Martine and Freeholders Briant, Crowell, Doty, Forsyth, Hubbard, Isenmann, Jewell, Miller, Nolte, O'Sullivan, Randolph, Thompson and Wilcox—14.

Absent—Freeholders Ball, Roll and Smith—3.

The minutes of the last meeting were read (omitting bills ordered paid) and on motion approved as read.

Freeholder Hubbard moved that the Board take a recess until 1 o'clock.

Amended by Freeholder Thompson to 1.30 o'clock.

Which was accepted, and the motion as amended, carried.

The Board re-assembled at 1.30 P. M.

Present—Director Martine and Freeholders Briant, Crowell, Doty, Forsyth, Hubbard, Isenmann, Jewell, Miller, Nolte, O'Sullivan, Randolph, Thompson and Wilcox.

Absent—Freeholders Ball, Roll and Smith.

COMMUNICATIONS.

The following from the City Council of the city of Elizabeth, was read:

OFFICE OF THE CITY CLERK,
ELIZABETH, N. J., Dec. 23, 1880.

To the Board of Chosen Freeholders of the County of Union, N. J.:

GENTLEMEN:

At a meeting of the City Council of the City of Elizabeth, N. J., held Dec. 23d, 1880, the following resolution was unanimously adopted:

Resolved, That the City Clerk be directed to notify the Board of Chosen Freeholders of the County of Union, that on and after January 1st, 1881, no provision will be made by the city authorities remunerating the Keepers of the South Front street, South street, and Bridge street bridges, in this city.

Attest: WM. R. C. COLEMAN,
City Clerk.

On motion of Freeholder Forsyth the communication was received and ordered spread upon the minutes.

COMMITTEE REPORTS.

To the Board of Chosen Freeholders of the County of Union:

Your Committee "on the payment and issue of bonds for this fiscal year," would respectfully report that there has been issued twenty-two thousand ($22,000) dollars 6 per cent. bonds, dated January 1st, 1881, to renew a portion of the twenty-five thousand ($25,000) dollars falling due at that date. Said bonds will fall due January 1st, 1885, and Jan 1st, 1886. The price obtained was 102 38-100. All of which is respectfully submitted.

GEORGE W. DOTY,
WM. H. BRIANT,
J. F. HUBBARD,
WM. JEWELL,
THOMAS FORSYTH,
Committee.

January 6th, 1881.

On motion of Freeholder Randolph received and placed on file.

RESOLUTIONS.

By Freeholder Forsyth:

Resolved, That the bill of Babcock & Wilcox, amounting to $151.11, be paid when properly sworn to and audited.

On motion of Freeholder Randolph adopted by a unanimous vote.

By Freeholder Doty:

Resolved, That $100 be transferred to the stationery account from bond account.

On motion of Freeholder Hubbard adopted by a unanimous vote.

By Freeholder Crowell:

Resolved, That the bill of J. W. Dunn, amounting to $205.75, for record books, be paid when properly authenticated and audited.

On motion of Freeholder Randolph adopted by a unanimous vote.

By Freeholder Randolph:

Whereas, a communication having been addressed to this Board to the effect that in future the City of Elizabeth would not maintain bridge tenders for South, Front and Bridge street draw bridges, as has been the custom since these bridges were built, therefore,

Resolved, That before any steps are taken in the matter a committee of three be appointed to confer with the County Attorney and the Common Council, and such committee be instructed to call the attention of the Common Council to a resolution adopted by a previous Council, October 1st, 1860, and to an agreement made under it, and now on file in County Clerk's office, and inquire if the Common Council desire in face of such resolution and agreement to break their plighted faith and re-affirm their action as expressed in their communication in question, and report back to the Board at its next meeting.

Freeholder Hubbard moved the adoption of the resolution.

Which was carried.

By Freeholder Isenmann:

Resolved, That fifty dollars be appropriated to enable the Committee on Cranford bridge at South avenue, to properly finish the same.

On motion of Freeholder Randolph adopted by a unanimous vote.

By Freeholder Doty:

Resolved, That a committee of five be appointed to confer with the Township Committee of Summit to arrange for a settlement, and report to this Board at its next meeting.

Freeholder Briant moved the adoption of the resolution, which was carried and the following committee appointed.

Freeholders Doty, Miller, Forsyth, Thompson, Isenmann.

BILLS ORDERED PAID.

The following bills were read and ordered paid, all bills on which the roll was called being by unanimous vote, except bill of C. H. Brocksmith for Grand Jury dinners.

Freeholders Hubbard, Miller and Thompson being excused from voting.

Louis Quinn, bridge, Elizabeth, 4.50; Post & McCord, do., Summit, [illegible]; J. R. Farley, do., Fanwood, 4.15; Thomas Noonan, do., Elizabeth, [illegible]; J. B. SPORTSMEN'S CORNER.

It is now as illegal to sell game as to shoot it.

A few days ago, a large white owl was captured by Mr. Snyder, near Kingwood, Hunterdon County. It measured four feet and eight inches in length.

A number of South Jersey sportsmen are advertising to pay fifty cents per pair for live quail, their object being to keep and feed them through the Winter and let them loose in the Spring.

Upon killing the prize hog of John P. Smith, at Mount Holly, it was found to weigh 769 pounds, which amount having been guessed exactly by Thomas Schuyler, he carried off the $1 box, containing 228.

Scott and Carver have signed articles to shoot at 100 pigeons each for $1,000 a side. Should Carver be beaten, there is still left the champion Bogardus to uphold America's fame, not to speak of the Missourian, young Erb, who has done remarkable work with the shotgun.

As Mr. John S. Lyon, of Union Hill, returned home from Dover last Saturday he saw on entering his barn a large hawk with a half demolished rooster in his claws, upon which he was making a meal. With the aid of a pitchfork Mr. L. killed the intruder, which measured three feet and ten inches from tip to tip of the wings.—*Iron Era.*

The recent extreme cold weather has been hard on the quail and other game. In some sections of the State we hear where quail have been found frozen to death. When the weather is so cold that a meadow lark will freeze to death, as we know of a case where one was thus found dead, a quail has but little show for life, unless kind hands furnish them the food which they are unable to find beneath the deep snow. Every lover of this noble bird, knowing where there is a remnant of bevy, should see to it that grain is scattered about the vicinity where they keep. He will be well repaid for his trouble next summer when he hears the cheery notes of the "Bob White" that is thus kept over by his thoughtfulness and humanity.

ALMOST GONE,

But the Minister's Last Call Postponed—Remarkable Recovery of a Lady who was Pronounced Beyond Hope of Recovery.

A well-known business man, of New Hartford, Conn., writes as follows to Dr. David Kennedy, of Rondout, N. Y.: "A few months ago I let a neighbor of ours have some of your 'Favorite Remedy,' part of a bottle we kept for our own use, to try for some troublesome trouble. That neighbor informed a sister-in-law, who lay almost at the point of death, to test its efficacy for her disease. For weeks previous she could not eat anything without experiencing great distress, and the medicine given her by her physicians afforded no help, and often seemed to increase her distress. It was thought she had Cancer of the Stomach, and at the time of which I write friends had sent for her pastor to make what it was believed would be his last call. This lady recovered, and is now comparatively well, and says she would not be without 'Kennedy's Favorite Remedy,' no matter what the cost might be. You cannot advertise it too highly." Dr. Kennedy's "Favorite Remedy" is a specific for all Diseases of the Blood, such as the ills peculiar to females, and is invaluable in all Diseases of the Kidneys and Liver. When once known no family will be without it. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Wanamaker & Brown, and Jacob Reeds Sons,

PHILADELPHIA.

A FIT GUARANTEED

For Catarrh, Hay Fever, Cold in the Head, &c., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

For Deafness, occasionally apply a particle into and back of the ear, rubbing in thoroughly.

ELY'S CREAM BALM

Is receiving the endorsement of the sufferer, the druggist and physician. Never has an article of such merit been produced for the treatment of catarrhal diseases as this never-failing BALM, and is universally acknowledged as being all that is claimed for it. The application is easy and pleasant, causing no pain, is soothing, and is fast superseding the use of powders, liquids and snuffs. Price 50 cents. On receipt of 60 cents, will mail a package free. Send for circular, with full information.

ELY'S CREAM BALM CO., Owego, N. Y.

"MERIT MUST REAP ITS JUST REWARD."

Of the many Catarrh and Hay Fever remedies we keep in stock there is none of which our customers speak more highly than of Ely's Cream Balm Discovery. We have never handled a remedy which has increased so rapidly in sales or that has given such universal satisfaction.

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper throughout the year to come everybody will find:

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eye-sight. THE SUN long ago discovered the golden mean between redundant fullness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. THE SUN'S habit is to speak out fearlessly about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of partisan organizations, but unwavering loyalty to true Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the years immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free.

TOLU ROCK AND RYE

For COUGHS, COLDS, SORE THROAT, BRONCHITIS, ASTHMA, PNEUMONIA, CONSUMPTION, and all Diseases of the THROAT, CHEST and LUNGS.

BALSAM OF TOLU Has always been one of the most important weapons wielded by the MEDICAL FACULTY against the encroachments of COUGHS, COLDS, BRONCHITIS, ASTHMA, SORE THROAT, CONSUMPTION in its incipient and advanced stages and all diseases of the THROAT, CHEST and LUNGS, but it has never been so advantageously compounded as in the celebrated TOLU, ROCK and RYE. In addition to its soothing Balsamic properties, it affords a diffusive stimulant and tonic to build up the system after the cough has been relieved.

Over 1,000,000 Bottles Consumed Annually.

Extract from Report of Com'r of Internal Revenue.

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE,
Washington, D. C., January [illegible], 1880.

Messrs. LAWRENCE & MARTIN, Chicago, Ill.
GENTLEMEN: The TOLU, ROCK and RYE, compounded according to the formula, has a sufficient quantity of the BALSAM of TOLU to give it all the advantages ascribed in pectoral complaints, and rendering it an agreeable remedy to the patient. It may properly be classed as a Medicinal Preparation under the provisions of U. S. Revised Statutes, and when so stamped may be sold by Druggists, Grocers and other Persons WITHOUT RENDERING THEM LIABLE TO PAY SPECIAL TAX as liquor dealers.

Yours Respectfully,
(Signed) GREEN B. RAUM, Commissioner of Internal Revenue.

CAUTION! Don't be deceived by unprincipled dealers who try to palm off upon you Rock and Rye in place of our TOLU, ROCK and RYE, which is the ONLY MEDICATED article made—the genuine bearing the signature, LAWRENCE & MARTIN, on the Proprietary Government Stamp on each bottle.

PUT UP IN QUART SIZE BOTTLES FOR FAMILY USE.

LAWRENCE & MARTIN, Propr's, Chicago, Ills., and No. 6 Barclay Street, New York.

How to Correct and Improve

YOUR SIGHT

IMPROVEMENTS OF THE DAY.

One of these is found in King's Patent Combination Spectacles.

As the name indicates, they consist of a combination of silver and steel frames, the silver bridge making a more elegant, durable and flexible frame and enabling any dealer to adjust it to any face, so that the centre of the lens is in the direct line of vision, thus giving the greatest benefit possible to be derived from the use of spectacles.

It also enables anyone to adjust in themselves to the position where it best corrects the sight.

All persons buying the COMBINATION SPECTACLES have their eyes fitted by KING'S NEW SYSTEM, the method used by Professional Oculists and the only true means of accurately testing the vision.

THIS SYSTEM IS COPYRIGHTED, and can only be used by Mr. King's Agents, all of whom are instructed in its use.

The King Spectacles are the first in merit ever a million pair now being in daily use.

JANUARY 18th, 1881.

Gentlemen of the Senate and General Assembly:

In taking the oath prescribed by law and entering upon the duties of Governor, I am not unmindful of the honor which has been conferred, nor do I fail to appreciate the importance of the duties and responsibilities which are imposed upon and accepted by me.

To be the Chief Executive of a State like ours, whose industries and interests are so numerous and variant, and whose people are so intelligent, well informed and independent, quick to observe and fearless to criticise, is no easy task. To that task I shall bring an earnest desire to so act, under the blessing and guidance of the Supreme Ruler of the Universe, as to conserve the best interests of the State, and secure the prosperity and happiness of her people.

Conscious as I am of the fallibility of human judgment, I shall ask only that it may be believed that no act committed by me does not proceed from a sense of duty and an intention to perform it.

The annual message of my distinguished and honored predecessor fully sets forth in a concise and admirable manner the condition of the State and that of the several departments, and institutions of learning, charity, reform and correction.

It will not, therefore, be necessary, nor have I the information, to enter into the subjects therein treated, except to note what have been matters of observation and reflection in an unofficial capacity.

The general condition of our State and its people is in every way satisfactory.

The recovery from the ill effects of the recent depressed condition is general, and, it is to be hoped and believed, stable and thorough: labor is more generally employed, and business is conducted at more remunerative prices.

While it is, as yet, impossible to procure any accurate or complete statement of the findings of the last census, there is no doubt but that they will show as to our own State a great advance in the last ten years in all the essential elements of public prosperity and welfare, and more particularly so in the manufacturing and other labor-employing industries.

Our State is gradually passing from an almost purely agricultural and mercantile community to a mixed condition, in which, in a very few years, manufactures will occupy a very important if not predominant position.

The most casual observation will give evidence that within a comparatively brief period not only have many new industries been located within our borders, but that some of them have grown to immense proportions, and that those which formerly existed have multiplied and extended.

There is no county without them. They are found among the hills of Hunterdon, Warren, Sussex and Morris, bringing into service their flowing streams and transforming their natural resources into more merchantable conditions, and they absorb and utilize the sands and forests of the southern counties.

Between these two sections, the chain of cities, and outlying towns and villages, form an almost continuous workshop, giving employment to thousands and support and maintenance to hundreds of thousands souls, and bringing into reproductive use and taxable form millions of dollars of capital.

The enterprises are as various and multiform as the ingenuity of man; they include almost the entire list of manufactures, and they range from the small shop to those giant enterprises whose wares are sold in almost every civilized country.

In some, such as the silk manufactures of Paterson, the potteries of Trenton, and the hat establishments of Newark, we furnish a very large proportion of the entire production of the country.

The railroads which traverse our State in every direction are constantly bringing into prominence locations favorable for the establishment of special industries by reason of their proximity to the raw materials, a steady market and cheap fuel, and they are being constantly utilized.

It is to this fact more than to any other single cause that we may fairly attribute much of the increase of our population.

The quiet country town of the interior soon finds itself transformed by the establishment of a factory, giving employment to its resident population, and bringing others from a distance.

The farms contiguous to cities, which gave labor to but a few persons, producing from their fields the largest part of their own support, give way to work shops, which form the centre of clusters of houses filled with a population needing the products of the farm and the commodity of the merchant for their subsistence and comfort.

This process is regular, constant and certain, and there is being evolved by it a condition of affairs most favorable to the growth and prosperity of the State.

This good fortune has crept upon us almost unawares, and we have not yet fairly learned or appreciated the changes which it has wrought in the character of our population and the consequent modifications of the policy of the State.

It has, so far, except for the incidental assistance of the Geological Survey, been secured solely by individual energy and enterprise, availing themselves of the advantages of our location and natural resources.

That they have been able thus to make such rapid and valuable progress is naturally a subject of satisfaction, but there is yet room for improvement and enlargement.

The immense surplus product of the Western States in cereals and live stock, and the ease and cheapness with which that surplus can be placed in our markets, tend to render the production of these articles unprofitable on our high-priced lands, under the system of farming now prosecuted in many parts of the State.

It will soon be necessary for our agriculturists to maintain a closer cultivation of their lands, and perhaps, even to abandon some of the present crops, supplying their place with others for which there is a greater local demand, or which cannot successfully be brought from more distant points.

In the direction of the former of these two changes, we have the Agricultural College, at which the application of modern science to the successful manipulation of the soil is taught; experimental stations at which are tested and demonstrated the effects of different fertilizers and crops upon the various qualities of land, and the more productive and economical management of the field and the orchard, the cattle yard and the dairy; and finally the annual appropriation of money to be expended as incentives to, and rewards for the successful application of the information thus derived.

As to the latter, the growth of our population and the increased demand for raw material for the supply of our manufactures, will undoubtedly point out the special lines in which the skill and labor of our agriculturists can be most profitably employed.

There is no reason to fear that our agricultural interests will not share in the general prosperity, if those in whose hands their management and conduct are placed, will but keep themselves in the line of intelligence and enterprise, so much demanded and so necessary in other spheres of business.

With agriculture and manufactures prospering, which will be sure, if our people keep up with the progressive spirit of the times, there can be no doubt of the continued advancement and growth of our State.

In the contest between the older countries of Europe and our own for business in the markets of the world, we are rapidly gaining on, and in many instances, outstripping them.

The past few years has found American machinery and American manufactures in, to them, hitherto unknown fields of use; and the demand for our productions from without our borders is constantly increasing.

That New Jersey should maintain her position among her sister States, needs but a little care and wisdom on our part.

We should consider the importance of the interests involved and recognizing the changing condition of our State, give the encouragement and protection rendered proper and necessary by it.

By the Governor's message and the reports of the Comptroller and Treasurer, we are informed of the prosperous condition of the State's finances, and of the absence of any necessity for the levying of any tax for the support of the government, except for our schools.

This is a condition of affairs greatly to be desired, and upon which we are to be congratulated.

The present prosperity in business matters, and the marked appreciation in values, while they will, beyond a reasonable doubt, result in an increase of the revenues of the State, should not be made the warrant for any departure from wise economy in the management of public affairs.

Nothing should be wasted in extravagance or useless show—the current expenses should be kept within their present limits. For, after all, it must be remembered that the field for even economical expenditures is a wide one, and that for State income, without resorting to a State tax, is limited.

Should a surplus arise from the ordinary receipts of the State fund, it might well be used either in further reducing the burthen of the people, or in aiding in the establishment or fostering of those industries which tend to develop our territory, to provide employment for our people, and create a demand for accumulated wealth.

Either of these two courses is open for examination and trial.

In the advancing growth of our State and gradually changing character of the occupation of our people, education demands much consideration.

Our public school system depends for its income upon the annual State appropriation, the revenue from the investments of the School Fund, and local taxation.

Of the one million eight hundred and sixty-three thousand five hundred and forty-eight dollars ($1,863,548) expended on our public schools in 1879, nearly seven hundred thousand dollars ($700,000) were raised by a tax upon the property of citizens. This, if it is thought proper and the receipts of the State warrant it, might be abated by increasing the State's appropriation from the surplus receipts of the State fund.

It is no doubt considered by many that the local taxation serves as a stimulant to local pride and personal interest in the schools, and produces a watchfulness and care on the part of the people of the school district, which otherwise would lessen and finally disappear. There is much of human nature in this suggestion, and if it be thought best that the local taxes should be continued, the State's aid might be used in broadening the scope and increasing the efficiency of the schools themselves.

Marked as has been the progress of the last twenty years in our public schools, there is, to my mind, yet room for a wise and economic extension.

The rich and varied mineral resources of our State; the immense and constantly increasing manufactures, which are now within and constantly seeking our borders; our location between the vast and practically limitless markets for the products of our agriculture; the recent strides in all branches of trade in the direction of artistic excellence—all tend to create a demand for educated intelligence.

Such intelligence, fostered and directed by the State, marks in almost every European country a superiority in some branch of commerce or manufacture. There is no one of them which has thus judiciously expended a portion of its surplus wealth in developing its own resources but has been amply repaid for the investment. At the suggestion of my predecessor, a beginning was made in this direction a year or two ago in our State, and I sincerely trust that our people will not permit this beginning to be the end of a matter of such importance to our advancement and prosperity.

How best to give vitality and vigor to it is a subject calling for your judgment and careful action.

It may be that the time has not yet arrived when the State can do this; but I deem it proper to refer to it at this time as showing one way at least in which its means may be expended with a sure return, rather than to waste them in an increased expenditure in directions which cannot be made to produce greater results than at present.

Another and very important matter demands the earnest and immediate consideration of the governing power of our State.

The Legislature of 1879 provided for the appointment of a commission to revise our tax laws; but beyond the report by that commission of a bill to the last Legislature, and its reference to a committee, very little has been done to comply with the injunction of our constitution that "property shall be assessed for taxes under general laws and by uniform rules, according to its true value."

That such is not the case under the practical operation of our present system, is apparent to all who have looked into the subject with any care.

Much of the assessing is done in the way calculated to give the least trouble to the assessor and the assessed, rather than to the ascertainment of the amount subject to taxation, and it is undoubtedly true, that no small amount of property properly taxable escapes altogether.

The rate of assessment varies in different localities.

Those communities which from their local necessities require large returns, place the assessments at a high rate, in order to keep down the percentage of taxation; while on the other hand, many lower them to a merely nominal figure, in order to avoid the payment of the proper proportion of county and State taxes.

Between these two extremes, there is every shade of variance, and the result is that the same basis of taxation exists in very few places in the State.

This is a condition of affairs which should not be allowed to exist, and it was to secure its abolishment that the amendment to our Constitution was proposed and adopted in eighteen hundred and seventy-five.

But the dicta of the Constitution are of little avail, unless given form and expression by legislative enactment. And so far this has not been had.

There is no function of the State which so materially affects its citizens as that of taxation; and it is but due to them, that they should have every reason to believe that the burden is fairly and equally distributed and borne.

I most earnestly commend to your consideration the propriety of promptly framing such a law as will meet the requirements of the Constitution, and thus remove the many inequalities that now exist.

Another subject which demands careful and particular attention at this hour is, that of preparing and adopting a system of general laws for the government of municipalities.

The evils which called for and led to the adoption of the amendments to the Constitution, forbidding legislation for cities and towns by special acts were by no means slight or fanciful.

A glance at the statute books of that period, will show how constantly recourse was had to the Legislature for the passage of laws trivial and yet often dangerous.

When it is remembered that a sort of common courtesy vested in the Senator or the member, the power of saying what should and should not be adopted for his county or district, it needs no exaggeration to say, that the evil was not only threatening but absolutely pressing.

The result inevitably must have been as it proved to be—harmful alike to the Legislature and to those for whom it acted.

The evil was carried so far as to force upon one of our largest cities, against the wishes of her people and despite the protest of her representatives in the Legislature, a system of government entirely foreign and in opposition to the principles on which the Republic is based,—a system which involved the admission that the people are not competent to control their own affairs, and transferred the election of their local officers from them to the halls of the Legislature.

Individual demands rather than public claims were the basis of municipal legislation; all sorts of schemes were passed for localities whose representatives asked for them, and public debts were piled up to colossal heights.

These were the dangers which the amendments to the constitution were designed to avoid in the present and prevent in the future, and a compliance with their demands would have been productive of good results. But the legislative treatment of the amendments has been such as to make a bad condition of affairs worse. The whole effort seems to have been to avoid rather than conform to their spirit and meaning; not to adopt general principles for the government of all, but to legislate for single localities by laws under a general title and context, from the operation of which all the rest of the State is sought to be absolved by a proviso often grotesque in its complications.

By this method not only have all the old evils been retained, but there have been added to them the doubts as to what localities the laws are intended to and do apply, and further, whether they are themselves constitutional.

As it is now, after the lapse of but a very few years, neither a Common Council, a Town Committee, nor their legal advisers can possibly tell what they are authorized and what they are forbidden to do until the whole mass of seemingly general legislation shall be carefully gone over, and the applying acts culled from the chaos which fills the books of the past five years.

When that has been done, there still remains the by no means trivial question as to how many of them have been either directly or by implication abrogated by the courts as evasions of the Constitution.

Were this the result of accident it would not be so bad, but the practice has been of general adoption; and it has more than once happened that acts have been passed which had, previous to their enactment, been declared by the legal adviser of the Legislature to be unconstitutional.

It is proper to say that there was at first a desire to comply with the Constitution, but as difficulties arose, the policy of evasion was inaugurated. One success paved the way for others, and each succeeding session has gone a step further than its predecessor, until the above culmination has been reached.

There seems to be but one way out of this labyrinth of doubt and uncertainty, so long as the requirement of the constitution remains as at present; and that is by the passage of a general law or laws under which municipalities can act, and then compelling them to do so.

Much of the difficulty of the position will disappear on the mere resolution to overcome it, and to abide by the law. If it is known that a city cannot get authority to spend money for a Fourth of July celebration, or to open some particular street in some peculiar way, or to take away from or give power to some particular officer unexpectedly elected, by a special act of the Legislature, the act will not be applied for; much time and money will be saved both to the city and to the State, and nobody will really be the loser. And yet it will be found, that much of the special legislation for which the directions of the constitution have been disregarded, has been of a character and grade no more important than these.

There are, undoubtedly, some subjects needing legislation which are more complicated and difficult of treatment, but they can be successfully met by a system of broad, fair and liberal acts, consonant with our theory of popular government, which will place the proper amount of power in the hands of the local authorities, and subject them to a proper responsibility.

The Commission on General Laws for Municipalities have prepared bills relative to this subject, and they will be presented to you for your action.

The character of the gentlemen composing the commission, their ability and practical experience and the attention which they gave to the problems submitted to them, all tend to render the results of their labors worthy of the gravest consideration.

It seems to me that no greater service to the State can be rendered than the prompt and satisfactory solution of this question so vitally important to good local government.

The decennial census of the United States government having been completed, it will be incumbent on the Legislature at this session, to make the apportionment of members of the General Assembly among the several counties.

The injunction of the Constitution that such apportionment shall be in accordance with the number of their inhabitants, will, no doubt, be strictly heeded, and I would respectfully suggest that it would be well to take the opportunity thus afforded, to correct the inequalities and injustice of the present law in the matter of the arrangement of the legislative districts within the counties.

The foundation stone of the Republic is that the legislative branch of the government shall be a reflection of the opinion of the people from whom they derive and for whom they exercise their power.

Our Constitution requires an apportionment of members among the counties to be made after every census, in order that the increase or decrease in population shall find prompt expression in the Legislature; and the obligation to do this is no more potent or binding than is the requirement that the distribution of the membership within the counties shall be fairly and equitably made.

It is useless to provide that the representation shall be proportionate as between the counties if such an arrangement of the Assembly districts is permitted, as allows the election of a delegation which does not represent the sentiments of the people of the county itself.

It ought to be no difficult matter to frame such a law as will comply with the spirit of the Constitution, and allow the people to feel that there is no just cause of complaint.

All persons at all observant of public affairs in this and the adjoining States must have noticed that there has gradually been growing a decided opposition to the employment of the inmates of our State Prison and other penal institutions in work, the product of which competes in the market with that of the private citizen.

This feeling, it must be remembered, is not limited to those who as employers or employed are engaged in the special branches of manufacture prosecuted in our institutions, but extends to and includes most of the labor organizations and those connected with them by affiliation of sentiment or interest, and not a few citizens having no personal interest in the subject other than as a question of equity.

Stated broadly and somewhat in the language of those most earnest in the matter, the proposition is, that the honest labor of the State should not be forced to work in competition with its convict labor hired out by contract at rates far below that necessary for the support of the laborer.

That this, as a general principle, is true, not many will, after reflection, seriously question.

But the experience of the management of the prisons of this and other States shows that higher rates of compensation for the labor of convicts is not to be had, and hitherto it has been simply a question between the present low rates and none at all.

If the convicts be not employed, the entire cost of maintaining the prison (increased as it necessarily would be by the attendant circumstances) must be borne by the tax payers of the State.

In this contingency there arises the counter proposition that the honest citizen should not be called upon to pay the earnings of his labor for the maintenance in idleness of the criminal classes—themselves able to work.

Between these two extremes there is a medium line on which will probably be found the true solution of the question.

It has been proposed as a remedy for the difficulty that the State should purchase the necessary stock, materials and machinery and undertake for itself to employ its convicts in the manufacture of some article of commerce. But I cannot consider this in any other light than as an aggravation of the evil intended to be cured.

From the very nature of things, no State can do business as well as private individuals; and it would soon be found that the cost of producing the articles was much higher than in private establishments. The result of the experiment, in all probability, would be increased expenditure and decreased income. Then, the State would be compelled to go into the open market for the sale of its goods, and this would create very much the same competition as to the price of the labor that is now complained of, with the same result. While the effect upon the labor interests would remain the same, the plan would create another injustice, for it would be hard to discover the fairness or propriety in the use by the State of the money paid by the business interests in the shape of taxes as a means to break down those interests by a forced and unequal competition.

While I do not agree to the propriety of this method, I cannot fail to believe that careful inquiry and reflection on your part will develop some plan by which the present difficulty might be avoided, or, at least, mitigated.

To diversify the range of employments and reduce the number of men engaged in each, or to seek some branch of manufacture which is large in volume, and the products of which are not subjects of so close a competition, or a mingling of the two plans, might relieve the subject of much of the embarrassment now surrounding it, and at the same time prevent the cost of maintaining the institution from falling on the taxpayers more than at present, or than is unavoidable.

It is to be earnestly hoped, that the Legislature will apply itself to the task, and provide the desired relief.

There has been for some time within our State a steadily growing demand for the amendment of the Constitution in several particulars.

This sentiment operates from different sources in different minds.

The hampering effects of some of the amendments of eighteen hundred and seventy-five, and the well-founded desire for such a change in the present formation of our courts, as would make them more adaptable to the duties which they are called upon to perform; these, and other subjects of public thought and practical experience, have created in the minds of many an opinion that steps should be taken towards the change of our Constitution.

There are two methods of effecting this—

First. By specific amendments proposed by one Legislature, adopted by a second and submitted to the people at a special election; and

Second. The passage of an act calling a convention and providing for the election of delegates thereto, whose duty it shall be to prepare a new instrument to be submitted to the people at a special election.

Of the two methods, it seems to me that of a convention is the safer and more desirable.

There is now pending a specific amendment to the Constitution, providing for biennial sessions of the Legislature. It was passed at the session of 1880, and must be considered by the present Legislature.

Its adoption would preclude any further specific amendment for five years.

But, aside from this contingency, there seems to me to be grave objections to the changing of the Constitution in such weighty matters as the formation of our courts or the powers of the Legislature, by specific amendments.

Our form of government consists of certain powers delegated by the people to three coordinate branches—the Executive, Judiciary and Legislative, and, beyond all, of certain rights reserved by the people to themselves.

In amending or reforming the Constitution, which is the embodiment of those rights reserved and powers ceded, it is but proper that all the parties interested should be represented at every stage of the proceedings, especially where the rights of either are likely to be trenched upon.

It is true that under both plans the right of the people to vote is the same; but in the case of specific amendments, that would be merely a negative power, exactly similar to that of the Governor in the making of laws.

They might reject any proposition, but they could not propose or alter any.

The right of proposal being limited to the legislative branch, it can easily be seen to what disadvantages the others might be subjected, if the Legislature should see fit to restrict the changes to such as might be agreeable to it.

In a convention all would have the opportunity to be represented; the attention of the people would be more thoroughly directed to its work, and their wishes have a better chance for expression and consideration.

Besides, it would seem that a Legislature, whose attention is engrossed with the manifold matters of business which come before it, and in which the line of political partisanship is so easily and readily drawn, cannot be as likely a source from which to expect that reflection and impartiality so necessary to the important work of framing a constitution, as is a convention, composed of citizens drawn from the various positions of life's work, for the single purpose of giving their thought and deliberation to the one subject.

The constitution of 1844, the work of the convention of that year, remained untouched for thirty (30) years, and was then altered only for the purpose of meeting the necessities of a changed people living in another condition of affairs, while the amendments of 1875 have been the subject of contention since their adoption, and it is already asked that they be remodeled.

The people of our State are, as a rule, intelligent and conservative. They can safely be trusted to perform this most important of all their duties with a due regard for their own dignity and the rights of others, and I should be extremely unwilling to believe, or even to seem to believe, that they are not, and that there is no safety unless their wishes should first be compelled to pass through the filter of a legislative act.

For these and other reasons, it would seem to me that the better course to provide for amending the Constitution, if at all, is by a Convention, rather than by specific amendments.

Gentlemen of the Legislature, it will be my pleasure as well as duty, to join with you at all times in the adoption of all such measures as will seem best calculated to serve the great interests of those whom we represent. My official oath shall be considered as no matter of form, but as binding me to so act as to support the constitution in all its bearings upon the welfare of our citizens.

I trust that when the time shall come for me to return to private life, I shall do so, leaving unimpaired in its dignity and prerogatives the office so worthily held and maintained by a long line of predecessors.

To the consummation of this result, I humbly ask the guidance and direction of our Eternal Father.

POETRY.

FAREWELL.

The boat went drifting, drifting, over the sleeping sea,
And the man that I loved the dearest sat in the boat with me.
The shadow of coming parting hung over the great gray swell,
And the winds that swept across it sobbed on, farewell, farewell!
The boat went drifting, drifting, in the lingering northern night,
And the face that I loved the dearest paled with the paling light.
We strove to join light laughter; we strove to make a jest;
But the voice that I loved the dearest rang sadly 'mid the rest.
The boat went drifting, drifting, while the dull skies lowered down,
And the "ragged rims of thunder" gave the rocky head a crown.
The boat went drifting, drifting, while to the darkening sky,
For the man that I loved the dearest, the prayer rose silently.
Oh, true, strong hand I touched no more; brave smile I may not see;
When the God who gave us them will bring him back to my life and me!

MISCELLANEOUS READING.

A CHURCH MOUSE.

"I must trust to your instinct," muttered the traveler, letting the bridle fall upon his horse's neck. "The eyes of an owl would be at fault on such a night as this. Be quiet, you brute! Do you mean to repay my confidence by breaking my neck?"

The animal had shied so violently as nearly to throw his rider, and stood trembling in every muscle. His master peered through the darkness in the endeavor to make out the cause of his terror. He could perceive before him the dim outline of a dismantled church, with its brood of gravestones clustered about it. Beside the road, so close that he could have touched it with his whip, he discovered an indistinct white object crouching upon one of the graves.

Resolved upon knowing what it was, he dismounted and approached it. As he did so, it arose and fled rapidly away. With his curiosity now fully aroused he followed it. As it neared the church it turned suddenly and confronted him. At this moment a broad glare of lightning flashed athwart the sky and he saw before him a young girl dressed in a thin, water-soaked garment, her hair falling in drenched coils upon her shoulders. For an instant her white, scared face was turned toward him and her large, sorrowful eyes met his with an appealing look, then she seemed to melt into the solid body of the church.

As well as the darkness permitted, he examined the spot where she had disappeared, but could find no opening through which she could have escaped.

He called aloud that he was a friend, and that she had nothing to fear. The only answer was the weird wail of the tempest through the broken arches. With a feeling akin to superstitious terror, he hastily remounted his horse, and did not draw rein until he reached the village [illegible] he inquired of the landlord.

"Ah! you have seen it," exclaimed the landlord, mysteriously.

"It?" echoed the traveler. "I saw what I take to be a poor demented girl."

"You saw the spirit of one," answered the host, solemnly. "Every one here knows the story. When she was alive her name was Ada Morton. Her father died a year back, leaving her heiress to his property. As she was yet a minor, he appointed his friend Stephen Eastburn her guardian, who, in case of her death unmarried, was to inherit the property. It is said that he beat, starved, and cruelly ill-treated her. One night—just such a night as this—she disappeared. Her hat and cloak were found on the river bank next morning. It was plain that the poor creature had sought deliverance from her persecutor by suicide. That was three months ago. Her body was never found, but her spirit has been often seen in the churchyard, where her father lies. Meanwhile, the man who drove her to her death lives at his ease in her father's house on the hill."

The traveler was evidently deeply interested in the story, but he made no comment upon it. Merely informing the landlord that he should remain for a week or two, he retired to his room.

Like many another young man of fortune, Charles Barclay was afflicted with too much leisure. His sole object in this part of the country was merely a languid search after amusement. The *landlord's story has strongly aroused* his curiosity. Moreover, the young girl's sad face and beseeching glance in the churchyard had made a strange impression upon him. Something in her improbable history had led him to form a vague suspicion of a truth nearly as improbable. Eagerly accepting the possible chance of an exciting experience, he determined to sift the matter to the bottom.

Without dropping a hint as to his intentions, he left the inn on the next night shortly after eleven o'clock and proceeded to the old church. The place was silent and deserted; not even a stray dog was to be seen wandering about the churchyard. An ineffably dreary air hung about the place, depressing his spirits and almost resolved him to abandon his object. But a sentiment of pride urged him on, and he cautiously made his way into the church and sat down in one of the pews.

For more than an hour nothing occurred to attract his attention. He became drowsy and was on the point of falling asleep where he sat, when a low, weird peal from the old organ moaned through the church. He sat erect and listened with suspended breath. The sound rose higher and clearer, and presently the sweet but mournful tones of a woman's voice joined it. He could make out the words of prayer for the wretched.

After a moment the music ceased, and he could hear the singer sobbing in a low, heart-broken way that brought tears to his eyes. He strained his eyes through the darkness, but could make out nothing. Arising, he called out:

"Whoever you are, you are in sorrow and affliction. I cannot see you. I will not pursue you. All I desire is to be your friend. Will you answer me?"

There was no reply, and the weeping suddenly ceased. After a moment of hesitation he made his way to the organ loft and struck a match. No one was visible, nor was there the smallest trace of the recent presence of any human being. Considerably startled, he left the church, determined to repeat his experience on the following night.

Providing himself with a dark lantern, he went to the church on the next night, and secreted himself near the organ. As before, it was nearly midnight before he became conscious of the presence of another person in the building. On this occasion the organ was not played, but there was a slight rustle as of a woman's dress, and presently he heard the same low bitter weeping.

Quickly arising, he shot the rays of the lantern in the direction whence the sounds proceeded. Not more than three yards from him, in the broad glare of the light, he beheld the girl whom he had met in the churchyard. She was looking at him with an expression of intense terror in her white face and tear-wet eyes. As she stood cowering before him she reminded him of some innocent animal crouching at the hunter's feet. With an accent of deep pity he addressed her:

"I saw you in the churchyard night before last; I spoke to you last night. I am not an enemy, nor an idle curiosity-seeker. I earnestly want to aid you. Will you not trust me?"

Keeping her eyes fixed upon him with the same distrustful look, she answered in a faint, far-off voice:

"Your friendship or your enmity can be nothing to me. The world you live in, by its wickedness and cruelty, drove me to my death. I am doomed to this place until justice is done upon my destroyer."

"You are trying to mislead me," exclaimed Barclay. "You are no spirit, but a poor, starving, homeless young girl. You have suffered miserably, and I have resolved to restore you to your rights, as well as exact reparation from the man who has wronged you."

He advanced toward her as he spoke and stretched out his arms to seize her. In an instant she seemed uncertain how to act, then even as his hand seemed to pass bodily through her shape, she melted into the shadows of the place. This time he did not pursue her. Her mysterious escape, which seemed to confirm her own words, began to impress him with the belief that he had indeed confronted a visitant from the other world.

Next morning, however, cool reflection taught him that he might easily have deceived himself in his excitement. He therefore resolved all the more obstinately to pursue the investigation.

For three nights following he secreted himself in the church and awaited her appearance, but his watch was fruitless. *This caution on her part fully convinced* him that he was dealing with a human being and not with an impalpable phantom.

Meantime in pursuance of the suspicion which the landlord's story had imparted to him, he found a pretense on which to make the acquaintance of Stephen Eastburn. The man impressed him unfavorably at the first sight. Tall and gaunt of figure, with small, restless grey eyes and a false smile, he seemed to Barclay to be capable of any villainy. The young man was careful to avoid mentioning the supposed ghost, and departed with an invitation to call again.

On the fourth night Barclay again secreted himself in the church. It was cold for the season, and he shivered in his hiding-place, despite his warm clothing. Hour after hour passed away, and he was beginning to fear that his errand would again prove fruitless, when a faint light in the body of the church caught his eye. As it rose higher, he could see that it proceeded from a small heap of [illegible] fingers to the flame, he beheld the figure of the young girl. Evidently overcome with the cold, she had ventured to indulge in this small comfort in the hope that it might escape notice.

Pulling off his shoes, Barclay crept up behind her, and before she was aware of his presence, seized her in his strong grasp.

"I knew you were no ghost," he said, smiling; "though if you continued this life much longer you will become one."

She uttered a faint cry of terror and sunk upon her knees.

"Spare me," she sobbed. "I am only a poor, homeless, friendless girl who never wronged any one. Why do you pursue me?"

"For your own good, my poor girl," he said, kindly. "Why will you not believe in my good intentions?"

"Why should I?" she cried, passionately.

"Did not my father's trusted friend, the man who had sworn to be my second father, seek my life?"

"Ah!" said Barclay, with a start. "My conjecture was true, then. He decoyed you to the river, and, after believing you safely out of the way, left your cloak and hat upon the bank to give the impression that you committed suicide?"

"Yes," she answered; "but the river was more merciful than he, for it cast me ashore alive. Sickly with horror, and madly afraid of the whole world, I came here where my father lay, to die *upon his grave.* But it is hard for one so young to die. I have lived here these three months, suffering, freezing, dying. That I was taken for my own ghost was fortunate for me, for it kept every one away from me, and aided me to get what little would keep me alive, after nightfall. And I have encouraged the superstition. Now you know all. If you are the man's emissary, may God forgive you and help me."

"I am an emissary of mercy," returned Barclay. "I am here to do justice on a villain and to restore you to your rights. Will you trust and help me?"

She looked up at him.

"You have a good, kind face," she said, offering him her hand. "I will trust you."

"Then," said Barclay, "keep up the character you have assumed for one more day. To-morrow night I shall bring Eastburn here with witnesses. Do you play on the organ when you hear us enter. When I turn the dark lantern upon you arise and denounce him as your murderer. We can safely leave him to accuse himself."

"I will do as you wish," she answered, brokenly. "How can I thank you?"

"By following my directions," replied Barclay, brusquely, to hide his own emotion.

With a few words more of advice he left her. His next move was to go directly to the landlord of the inn, relate the whole story, and secure his support.

At ten o'clock on the next night, in company with the landlord, he called upon Stephen Eastburn. Cutting short his smooth salutation, Barclay said:

"Mr. Eastburn, the obscure manner of your ward's death has given rise to strange rumors in the village. Her spirit is said to wander in the old church. We desire you to accompany us there to-night in order to see these stories at rest."

Eastburn's jaw dropped, his face became livid, and he was barely able to reply in a quivering voice:

"Ghost! absurd! Do you mean to make a fool of me? *I will not go to the* church at this hour of the night."

"Allow me to observe," said Barclay, sternly, "that the rumors, unless you aid in dissipating them, may culminate in a charge of murder."

Something significant in his tone seemed to render Eastburn suddenly submissive.

"Of course I will go, out of politeness, if you insist. We shall probably bag a church mouse. They are proverbially *as starved as to be incapable of flight.*"

No reply was made to this lame attempt at humor, and in a very uncomfortable frame of mind he went to the church and was shown into a pew in the dark between them. After a moment of silence the low tones of the organ sounded through the church, accompanied by a woman's voice.

"What is this?" cried Eastburn, starting up. "Whose voice was that?"

"Be silent," said Barclay, sternly. "Good reason have you to hear that voice with guilty horror."

At the same instant the glass from his lantern fell broadly upon the organ. Standing before it, looking down at them, was the figure of Ada Morton.

"Oh, God," groaned Eastburn, chokingly. "My sins have found me out. She has come back from the other world to accuse me of her death."

"Yes," said the girl solemnly. "Stephen Eastburn, you are my murderer."

"I confess it," shrieked the terror-stricken wretch; "I ask no mercy from man, for the grave has condemned me. Take me away—hide me from this awful sight."

The light was turned out, and the girl's figure disappeared. The horror-stricken Eastburn, shrieking mingled prayers and curses, was taken to the village and imprisoned on the double charge of fraud and attempted murder. In the course of time he was convicted and punished.

On the same day that he was sentenced, Barclay called upon Ada Morton, now installed in her father's house. With her restoration to her rights, she had recovered her health and beauty, and it was with a strange feeling of mingled hope and fear that the young man took her hand and said:

"I have called to say good-by, Miss Morton."

"The bright smile faded from her face, and a look of pain came in its place.

"You are going away?" I had hoped you would stay with us."

"My work here is done," he answered. "I have restored you to your home, and to-day your enemy receives the punishment of his crimes. What more is there to do?"

"Nothing," she returned, brokenly, "but to forget the poor girl whom you have befriended. That will be easy."

"No," he replied earnestly. "So difficult that I shall never accomplish it. To stay as your friend is impossible. I must go away and labor to crush out this longing, this love for you, which has overgrown my whole heart, or stay to cherish it for your sake. Tell me, dear Ada, which must I do?"

She looked up at him shyly, and came nearer to his side as she whispered, "Stay."

UNCLE AARON'S RAT TRAP.

Uncle Aaron lived near Hartford, and was a matter-of-fact man. His barn and out-houses fairly swarmed with rats, and Uncle Aaron was telling a friend from another town, who was visiting at his house, how he was troubled by rats, and how he had seen a hundred, at least, at a time. The friend laughingly told him a [illegible] plied that he was fixing a trap, and if his friend would wait a few days he would show him a haul of rats which would convince him he was not lying.

"All right," answered his friend; "if you will catch anywhere near a hundred, just let me know."

Uncle Aaron, too, said, "All right," adding, "I'll let you know."

When his friend started for home, the last thing he said was: "Be sure and let me know how many rats you catch. A hundred is a good many."

The trap Uncle Aaron was at work on was a sort of platform almost as large as a big barn door, and the plan was to *weigh it with heavy rocks, raise one end* about three feet from the floor and have it so rigged that the pull of a string would spring it and let it fall to the floor, making it decidedly uncomfortable for any living thing that might happen to be under it. After arranging it to his mind he began to bait it. He threw meal all around and under the trap, and went to a place conveniently near and watched things. He did not have to wait long before he counted at least twenty rats busily investigating that meal. But they did not go under the platform. This was kept up for several days, and after awhile the patient watcher, who spent an hour or two every day in seeing them sit nouvre, had the satisfaction of seeing several of the rats venture under the trap. Then he knew his plan would be a success. He could pull the string almost at any time of day and catch a dozen or twenty, but he was "lying low" for a bigger haul. The upraised platform was no longer a terror to the animals. They took the bait from under it as readily as could be desired. Finally Uncle Aaron thought the time was ripe to pull the string. He had not baited it the night before, so the rodents would have a keen appetite when he sprinkled the cheese crumbs and meal that morning. After doing this he took up his position and waited. First one rat—a sort of pioneer—came gliding out and began to partake of the feast. Next a pair came out; then three or four, then a dozen. They came from all directions. Uncle Aaron was trembling with excitement. He could hardly keep his hand from pulling the string. But he waited until the space under the platform seemed fairly alive with the creatures, and then—he pulled. Down went the platform with a crash. A number of the rats were seen scampering off, but Uncle Aaron felt confident that he had nailed some of 'em. As he came up he saw the heads and tails protruding, and he thought he would give them all a good square chance to die before he raised the trap. He waited till night, when he lifted it. He counted one hundred and twenty dead rats.

CALENDAR FOR THE BOYS.

The sports and games of boyhood succeed each other in unerring regularity, although it is difficult to give any definite reason why. It has occurred to us that a sporting calendar would be of great service to the boys:

January: Make snow forts, garrison them with snow men, slide down hill and get your feet wet. This takes up *all the month.*

February: Go skating, fall into the "danger" holes and get nearly drowned; stay in the house three weeks with a sore throat and fever.

March: Fish through rotten ice, and run all the risks possible. Get your hawkey sticks in shape.

April: First week, play practical jokes till you get some one mad enough to "lick" you: "hawkey" and baseball the rest of the month.

May: Paste up a few kites, spilling the paste all over the carpet, and try to fly them; marbles a good deal, hop scotch and "tag."

June: A little croquet, not much; cut your fish poles, go in swimming and worry your mother out of her senses; go in [illegible] at on going barefoot; Sunday-school picnics; play circus.

July: The horse, fire-crackers, hurrah, blow yourself up, and stack it on your vacation: a little fooling around in the woods, picking huckleberries, etc.

August: Up at grandpa's playing in the haymow, eating green apples, taking paregoric, getting chased by cows—in consequence.

September: Marbles again, general leading season of the year, jack-knife swapping "sight unseen."

October: Political campaigning: torches, torches, jack o'lanterns, capes, processions, badges, "Young America" [illegible], setting an enthusiastic example to "old America," which is followed.

November: Clappers, tambourines, a trip to the wood-shed, testing [illegible] [illegible] general stuff of turkey, plum pudding and the natural consequences.

December: Snow-balling the school [illegible], breaking window glass, bragging about "Christmas coming," growling [illegible] it served you no better when it did come.

[illegible] is subject to cyclones of leg-ging, jumping, leap-frog and tornadoes of new and brilliant sports that appear on the surface for a brief time and disappear as suddenly as they come.—*New Haven Register.*

HOW TO BE A TRUE GENTLEMAN.

When you go to the Post Office, carry with you a cheap cigar, and while making the air as blue as you can, slobber on the floor, that the ladies may have the satisfaction of dragging their dresses through it; they dearly love to do it.

They also enjoy the odor of a cheap cigar in preference to the aroma of any other perfumery.

Don't forget the three cent stinker when you go to the Post Office.

After leaving the Post Office, go and squat on a ledge or door step, and whilst besmearing the sidewalk with tobacco juice, get up a spirited conversation with half a dozen other squatters, in which you will take pains to introduce all the obscenity and profanity you can. The ladies perfectly revel in the remarks, that they catch as they pass by you to the street. In fact this is all the ladies go out of an evening for.

Or you might support your delicate carcass against a post or building, and after a couple of dozen of your intimate friends have congregated about you—all provided with the all-important three-cent stinkers—smoke grandiloquently, taking care to blow the smoke in the faces of passing ladies; then, once in a while you might slobber profusely on the sidewalk, and when a particularly good looking young lady comes along, remark in chorus loudly with your mates, "That's my girl," which you may call her a "[illegible]" or something of that sort. Girls never go out for any other purpose.

When going along the street, swagger and talk loud, it makes people respect you. Always use discretion when out of an evening; for instance, never insult a girl who has a brother bigger than you are.

Go to church regularly. Get there just at the close of the sermon, and join forming the standing tactics described for the squad.

Lastly, always look out distinctly for us.

When carrying an umbrella, endeavor to shove it into the eyes of each passer-by.

Never allow a lady to get too close to the delivery window of the Post Office. She might get her mail before you do yourself. Endeavor to thwart all such purposes, for it is essentially necessary you should get your mail first. A LADY.

GETTING IT OUT OF HIM.

They had just the loveliest sleighing in Philadelphia all last week, and young Keepitup was out enjoying it all one afternoon. When he drove into the stable, [illegible] but the man was mad. He roared when he looked at the horse, and danced around, and, as Uncle Remus says, "he cust, he did."

"Look at that hoss," he wailed, "look at that hoss! Ain't a dry hair on him, an he's nigh ready to drop. That's a [illegible] Nice man you are, to let a good hoss to!"

Young Keepitup was fairly astonished. "Man alive," he yelled, picturing his amazement in his voice, "and what did you expect when I hired him? When a horse is costing me an even $1 an hour he's got to keep moving, you understand. When I'm paying out more than eight cents every minute I cannot afford to let *no horse lean up against an ice box* while he figures out the oat crop of the United States for 1881. I did my level best to keep my whip arm warm, and then I couldn't get more than $3.25 an hour out of him. I didn't hire the horse to rest him. Now if you had only charged fifteen cents an hour I would have had the horse fed every thirty minutes while I was out, and I would have taken him to sleep in my arms, wrapped him up in blankets, and laid him in the sleigh and hauled him back to the stable myself. That is the difference, you see, Mr. Silkcracker. Here's your money, and I want the same horse, or a better one, next Saturday afternoon, if the snow holds on."

And he went away, while Mr. Silkcracker stood looking alternately at the money and the horse, thinking it all over.—*Burlington Hawkeye.*

MEDICINAL USES OF EGGS.

For burns or scalds nothing is more soothing than the white of an egg, which may be poured over the wound. It is softer as a varnish for a burn than collodion, and being always at hand, can be applied immediately. It is also more cooling than the "sweet oil and cotton," which was formerly supposed to be the surest application to allay the smarting pain. It is the contact with the air that gives the extreme discomfort experienced from ordinary accidents of this kind, and anything which excludes air and prevents inflammation is the thing to be at once applied. The egg is also considered one of the best remedies for dysentery. Beaten up slightly with or without sugar and swallowed, it tends by the emollient qualities to lessen the inflammation of the stomach and intestines, and by forming a transient coating on those organs to enable nature to resume her healthful away over the diseased body. Two or at most three eggs per day would be all that is required in ordinary cases; and since the egg is not merely medicine but food as well, the lighter the diet, otherwise and the quieter the patient is kept, the more certain and rapid is the recovery.

"Mamma," said a little down town chap, as his indulgent parent gave him a second piece of pumpkin pie, "mamma, I guess this is a locomotive pie." "Why so?" queried the puzzled parent. "Cause, mamma, it goes so fast!" In two minutes he passed his plate for a third piece.

WAR.

For the past two years hostilities have been carried on between the South American Republics of Chili and Peru. Success has attended the armed forces of Chili throughout, culminating in the recent capture of Lima, the Peruvian capital.

The war originated, like many other wars, out of a difficulty which could have been amicably adjusted through arbitration, and without the loss of a particle of national honor, the dispute being the right to tax the exportation of nitrates from a narrow belt of territory bounded by both countries.

But obstinacy bred defiance, which soon eventuated in bloody combat, and now, after a deplorable sacrifice of life and property, and the complete discomfiture of one nation, the controversy comes back to where it started, a matter of peaceable negotiation.

What blessings would accrue to the human family the world over, was arbitration made a national code, justice rigidly observed, and every possible effort for the preservation of peace exhausted before resorting to the terrible cost of war?

CONSTITUTIONAL.

The time has evidently arrived when the best interests of the State of New Jersey calls for a Convention to review her present Constitution, and we are glad to notice that Governor Ludlow in his inaugural address favored such action.

There were certain specific amendments to the Constitution adopted about five years ago, and however well intended, they certainly have muddled things greatly.

Those amendments struck at special legislation by providing for general laws, but unwisely included therein governing authority for cities, which, as results show, is utterly impracticable.

It is no doubt salutary to enact general laws for the establishment and regulation of private corporations, but to bring municipalities under such control, when there are not two in the State needing in all particulars like powers and privileges, is simply absurd.

Let a Convention be assembled at the earliest practicable date, and from it exclude mere partisanship, but in it place as members the very best men of the State, for the purpose of overhauling, carefully and intelligently, the entire Constitution and amending it in accordance with the manifest requirements of the present day.

IRELAND.

There is in Ireland a deep-seated and earnest enmity to the aristocratic rule of England over that chain-bound country, and viewed in the light of justice, well founded is the cause of Irish discontent.

The land being held to a large extent by English owners, rents are levied and collected regardless of any other purpose than the emolument of lordly non-residents. Small property holders are disallowed, and they who lease are constantly battling with want.

The whole system is wrong, and plainly shows the evil results of monopoly and the blighting curse of monarchy.

Then again, adding insult to injury, Ireland has no control over the regulation of her domestic affairs. True, she is permitted a representative voice in Parliament, but that amounts to nothing against the overwhelming aristocratic influences of England.

It is impossible to conceive a reason why Ireland should be treated differently from Canada and Australia.—They all three owe allegiance to the British Crown, but, while one is held in vassalage, the other two are permitted to freely exercise Home Rule as to the tenure of lands and all other home interests.

England once tried the mercenary exactions on the American Colonies. The experiment threw tea into the harbor of Boston, loaded cannon on Bunker Hill, and promulgated the immortal Declaration of July 4th, 1776.

Were England wise she would ponder history and practice equity.

THE NEW JERSEY STATE PRISON.

The report of this institution for the year ending October 31st, 1880, has just been published. The following is a synopsis of the report of General Mott:

The number of prisoners confined November 1st, 1879, was 788; number received during the year, 482; number discharged, 434; leaving at this date, 836. The maximum number during the year was 877, on the 18th of June, 1880; the minimum 786, on the 2d of November, 1879. The daily average last year was 802; this year it is 830; an average increase of 28; this is the highest average ever reached in this prison.

The total cost of each convict (including officers salaries, ordinary repairs, amount paid to discharged convicts and expenses paid for returning and escaped prisoners,) per day, was thirty-eight cents and three mills; per annum, $139.68. In 1875, the year preceding my administration, the cost per capita, per annum, for the above was $184.47. A comparison shows a saving in favor of this year, 44.79 per prisoner, and of $37,175.70 on the total average number confined, although a large number of convicts were employed on contract work during this year, thereby materially increasing the cost of their maintenance. This saving is not to the detriment of the prisoner, as according to the testimony of those long connected with the prison, the food and clothing issued here have never been better in quality nor greater in quantity per convict; but is due to the economy and care exercised in every department of the prison. The earnings per capita during the year are $82.62, against $58.15 the preceding year, this is accounted for by an increased number of convicts being employed by the contractors.

The 814 male convicts at this date are accounted for as follows:

Employed on shoe contracts, 276; laundry contract, 3; sick, 25; incapable, 99; unemployed, 307; employed on prison detail, 104. Total, 814.

Vennor says that February will open mild, with boisterous winds toward the end. March is to come in like a lion, with heavy gales and snow storms. The weather on St. Patrick's day is to be bad. The month will have a lamb-like end. April will begin with sharp frosts. There will be a little snow, but the month on the whole will be pleasant. Winter, lingering, will chill the lap of May to a slight degree. After the 10th warm weather may be looked for and the month will end hot and sultry. This is as far ahead as Mr. Vennor cares to make detailed and definite predictions.

NO LICENSE.

After the very admirable action of the Common Council, during the early part of its special meeting of Monday evening, in relation to matters concerning the financial prosperity of the city, it was surprising and is to be regretted, that the result of its deliberation and vote on a subject concerning the morality of Plainfield should be so faulty and unsatisfactory. A perusal of our report of the proceedings will acquaint all with the discussion and subsequent action taken upon the license question, but a glance at the condition of affairs as they stand at present may not be out of place.

Mr. Darling's motion to the effect that licenses be granted by the present Council, was lost in accordance with Rule XVIII, "when the vote of the Council shall be equally divided, including the vote of the President, the section voted upon shall be lost." This settles the matter for the present. The victory belongs to the Anti-License members, and they can hold their advantage until their term expires. By the same vote a re-consideration of the motion can be prevented, and an additional license man can be kept out of the vacancy that will occur upon the acceptance of the resignation of Mr. Lithgow, now in the hands of the President of the Council. Had Mr. Coriell's motion of a strictly contrary tenor not been withdrawn it would have, by the same course as Mr. Darling's, been defeated and a decidedly opposite ruling in relation to the matter have come into effect.

It now remains entirely with the anti-license members whether any license for the sale of liquor in this city, during the coming year, shall be granted. When one of the five who have arrayed themselves against liquor selling chooses to vote for the election of another license Councilman—and not until then—a license may be procured. Mr. Flanders and Mr. Coriell have voted and worked during past meetings, against the granting of license in every case. Mr. Henry Smith and Mr. Tyler are put on record regarding the matter for the first time. Mr. Whiton upon different occasions has voted both ways. Is it fair to suppose, in view of the above, that there is one of the five who will eventually be responsible for the continued traffic in liquor?

Besides this particular effect, what a blundering piece of business the whole matter has resolved itself into. Neither in the wording of the motions nor in the discussion that ensued was the fact seemingly taken into consideration, that other than liquor licenses were to be granted. The vote allows neither hackmen nor traveling shows and venders to take out the license necessary for the legal carrying-on of their occupations. The Council claims to enroll among its membership the pick of many professions and those experienced in the intricate ways of the business world. We are glad that that is the case, as such are ably fitted to advance the welfare of the city. But, therefore, carelessness is more inexcusable and lack of foresight more culpable. Gentlemen, you are not establishing a reputation for wisdom in Councilmanic proceedings.

MR. VEGHTE'S SENTENCE POSTPONED.

J. V. Veghte, who was convicted in Somerville, of false swearing in connection with a statement of the Somerset County Bank when he was its President, was arraigned for sentence on Saturday last. The validity of the Grand Jury which found the indictment against Veghte was questioned by counsel, because the jury was drawn by order of Judge Magie, after Sheriff Van Liew, since deceased, had made a mistake in drawing the jury. The Court granted a certificate to carry the question to the Supreme Court, and postponed sentence until the next term of court.

OUTRAGE AND LYNCHING IN SOUTH CAROLINA.

Miss Bessie Werts, daughter of Wm. Werts, living near Prosperity, in Newberry Co., South Carolina, was brutally outraged and murdered on Monday evening of last week, while going from her brother's house to her home. Two negroes, named Spearman and Fair, were arrested upon suspicion and lodged in the guard house. They confessed their guilt, and next night a large body of men took them out to lynch them. Spearman was shot to death on the spot where the crime was committed. Fair made his escape, but was captured next day and hanged near Prosperity by a crowd of whites and blacks. The unfortunate victim was 22 years old, and was a beautiful and excellent young woman. The verdict at the inquest was that she came to her death by being choked and other outrages committed by Spearman and Fair.

In passing sentence Judge Magie commented upon the frequency with which defendants in criminal cases went upon the witness stand and swore to what was false in order to clear themselves, and remarked that it was the duty of members of the Bar to advise their clients of the enormity of the offense of perjury, not to say the absurdity of its perpetration.—In consideration of the defendant's youth, his parents, and because he was specially marked for life by having this brand put upon him—marked in a way that no offense but perjury marked under the laws of this State—the lowest possible period of imprisonment was adjudged.

Twenty-six new Senators are to be sworn in on the 4th of March next. Nearly all have been elected. New Jersey will send William J. Sewell to succeed Senator Randolph. The New York Republican machine ground out Thomas C. Platt. John Sherman succeeds Judge Thurman. Rhode Island returns General Burnside. Senator Edmunds, of Vermont, succeeds himself. General Mahone will succeed Senator Withers, of Virginia. Philetus Sawyer, Republican, succeeds Cameron, of Wisconsin. John F. Miller, Republican, who succeeds Booth, of California, has had no experience in statesmanship. The Republican legislature of Connecticut has elected General Joseph R. Hawley. Delaware re-elects Thomas Francis Bayard. Florida makes Senator Jones his own successor. General Ben. Harrison, Republican, comes in from Indiana. Maine sends Eugene Hale, in place of Hannibal Hamlin, and the country will not gain by the exchange. A. P. Gorman, Democrat, will succeed Senator Whyte, of Maryland. Massachusetts returns Dawes. Michigan sends O. D. Conger. The Minnesota Republicans have re-elected McMillan. J. Z. George, the new Democratic Senator from Mississippi, is a leading lawyer of his section. Senator Cockrell, of Missouri, is honored with a re-election. Colonel J. G. Fair will succeed Senator Sharon, of Nevada. On Wednesday, Tennessee elected Judge Howell E. Jackson, a Democrat.

The State Comptroller's Report.

COMPTROLLER ANDERSON'S first annual report, which has just been printed, is a model document, presenting in a clear yet concise manner the entire workings of the State Government. The table of "Abstracts of Ratables" shows that out of the twenty-one counties of the State six of them presented a decreased valuation in the year 1880 from the preceding year. Burlington returns a decrease of $365,311; Cumberland, $70,000; Hudson, $1,795,476.91; Hunterdon, $93,259; Salem, $52,492; Union, $696,250. The largest increase during the year was in Essex, $3,565,000, while Passaic follows with $2,678,573. The most remarkable showing of increased prosperity is made by Bergen, one of the smallest, territorially, of the counties, of $2,533,804. The total amount of ratables returned to the Comptroller by the Board of Assessors is $578,617,518.94 against $505,892,358.02 for the preceding year. While the Comptroller credits the revival of business with the increase shown in the various counties, he believes that the apparent depreciation shown in the six counties is justly attributable to the defects in the system of valuing property for taxation. The Constitution requires that the Legislature shall make provision for the maintenance and support of a thorough and efficient system of free public schools, and the general school law provides for the collection of a tax for the purpose, to be levied each year, at the rate of two mills on each dollar of the taxable property of the State as exhibited by the abstracts of ratables from the several counties filed yearly in the office of the Comptroller. The whole sum thus received is apportioned to the several counties by the Superintendent of Public Instruction on the basis of the number of children in each county entitled to the benefits of free-school education, and the Comptroller shows the importance of having a fair and equitable valuation made of the property upon which the law is levied for the support of free school education.

The receipts of the State fund during the fiscal year were $1,075,431.10 divided as follows:

Tax on Corporations	[illegible]
State tax	[illegible]
State Prison receipts	71,946 [illegible]

Total	[illegible]

Leaving a balance on hand of $384,730.45, which includes the cash balance on hand at the beginning of the year of $316,638.69. The Comptroller gives a detailed account of the disbursements. The State Insane Asylum at Trenton cost $42,165.79, and the one at Morristown $33,075.03. The five County Asylums secured from the Treasury as follows:

Essex County	[illegible]
Hudson County	[illegible]
Burlington County	[illegible]
Camden County	[illegible]
Passaic County	[illegible]
Total	[illegible]

The number of persons confined or under treatment in these asylums are:

Insane convicts in State Asylum at Trenton	[illegible]
Patients in State Asylum at Morristown	[illegible]
Patients in Essex County Asylum	[illegible]
Patients in Hudson County Asylum	[illegible]
Patients in Burlington County Asylum	[illegible]
Patients in Camden County Asylum	[illegible]
Patients in Passaic County Asylum	[illegible]
Total	[illegible]

The State Treasury pays per capita for the benefit of the insane $60.67 per annum. [illegible] State of late years has awakened a great interest in the State and county asylums, the management of which is likely to be thoroughly investigated by the Legislative Committee.

THE LEGISLATURE.

Since the battle ended for the U. S. Senatorship, wherein Hon. Wm. H. Sewell was selected to represent the people of New Jersey in place of Hon. Theo. F. Randolph, the law-makers at Trenton have settled down to business and many bills have been introduced into both Senate and House. Among them we notice the following important ones, presented and acted on since our last issue:

S. 27. By Mr. Taylor, supplement to the act entitled "An act concerning taxes," (Revision) approved April 14, 1846. Provides that in all incorporated cities five mills shall be allowed to Justices of the Peace for every delinquent upon whom a tax warrant is issued.

S. 30. By Mr. Paxton, supplement to the act to authorize the apportionment of taxes, assessments and water rents. Provides that where lots or parcels of land have been taken to lay out any avenue or street, the State shall bear the expense.

S. 34. By Mr. Vail, an act requiring the refunding of moneys over-paid in certain cases. Provides that whenever any over-payment has been made in any city of this State, of interest on any assessment for sewers or any other street improvement, through an inadvertence or misconception, the City Treasurer shall refund the amount of such over-payment, with lawful interest.

H. 53. By Mr. Lawrence, an act to authorize cities to exchange registered for coupon or registered bonds. Provides that the financial agents of cities may exchange bonds for other bonds as named in amounts smaller than the original bond.

H. 63. By Mr. Beekman, an act amending the Doctors Act of last year, includes Veterinary Surgeons in the provisions and penalties of the act.

H. 65. By Mr. Wilkinson, an act relating to the assessment and revision of taxes in cities. Provides a Board of Assessment appointed from the two principal political parties, who shall assess the property and revise the assessment, be empowered to appoint assistant assessors and appointing days for assessment, revision, &c.

H. 66. By Mr. McDermott, empowers cities to sell lands dedicated for public use, and not so used. Sale at auction after two weeks advertisement, the proceeds to be used in buying other public property as needed.

H. 74. By Mr. Van Cleef, supplement to the Court of Small Causes Act. Limits jurisdiction of Justices of the Peace to $200.

H. 75. An act to prevent frauds in primary elections by both political parties, requires the officers of election boards to take an oath to faithfully perform its duties, and be subject to $200 fine for every violation of his oath. If they shall knowingly reject the vote of any person qualified, or receive the vote of any one not qualified, $100 fine; a fine of $500 or imprisonment not exceeding six months for any person stuffing ballot boxes or defacing ballots.

S. 36. By Mr. Schenck, an act to provide for the payment of a fixed salary to Prosecutors of the Pleas in counties of this State. Provides that a salary of $400 shall be paid annually in lieu of all fees, and where the population of the county is over 20,000, the salary shall be raised by as many dollars as will equal 2 per cent. of the increase over such population.

S. 40. By Mr. Sewell, (for the President) a supplement to the act to authorize Boards of Aldermen and Common Councils to change the salaries of any city officer holding his office during life or good behavior; not to take effect until termination of next fiscal year after passage of this act.

H. 26. By Mr. McDermott, act to provide for the payment of differences between old and new assessments for improvements in cities. Provides that the cities may borrow money and issue bonds at not more than 6 per cent. interest. Boards of Finance to have full power to act for cities.

[illegible] 36. By Mr. Donnelly, act for the preservation of documents. Providing that the Governor, Comptroller and Adjutant General be appointed a commission to collate for distribution documents relative to the history of the State during the Revolution. Cost not more than $2,000 a year.

SECOND READING.

The following were ordered to a third reading: S. 10, prohibiting telegraph companies from charging additional rates for delivering messages within one mile of the office; S. 11, permitting the wife of a man charged with murder to give testimony on his trial; S. 13, providing for the re-organization of turnpike, bridge, plank road, water or gas companies after they have been sold; S. 18, relieving persons who have been conveyed into another State for the purpose of serving of process on them; S. 17, providing that no sale of real estate shall become invalid through any irregularity or omission in the advertisement; S. 19, giving the court crier of the Essex Courts $500 annually, in lieu of all fees.

H. 24, act to prevent trespassers on railroad cars or trains. Makes the act disorderly conduct instead of a misdemeanor. Ordered to third reading; H. 25, act relative to Justices' Courts. Relative to fees and bills of cost; H. 30, supplement to act respecting juries—Provides that Sheriffs deliver the list of jurors to the Court of Common Pleas, and the Court to select 24 Grand Jurors. Laid over for one week. H. Joint Resolution No. 1, relative to care of interest on School and Sinking Funds.

Another Councilmanic Dead-Lock?

Although the Common Council is as yet complete, it is known that Mr. Lithgow's declination to serve will be presented to it at a special meeting to-morrow evening. If accepted a vacancy then occurs and the body will proceed to fill it. There are rumors afloat that the license men will vote against such acceptance and endeavor to persuade Mr. Lithgow to first cast his vote with them for the granting of licenses. Such rumors are false, we feel satisfied in asserting. It is also said that the anti-license men will refuse to vote for a member not in sympathy with their views on the liquor question, and thus create a dead-lock until they are compelled to back down.

Those mentioned prominently for the expected vacancy are Messrs. E. L. Morris, S. P. Huntington and I. W. Rushmore.

Mr. Tunis W. Carey had the misfortune to have a horse he was driving drop dead near the "Noses" last Wednesday night.

THE New Brunswick *Times* recently fastened the ownership of two "snobs" on our city. Now the Metuchen *Inquirer* remarks as follows:

On Sunday afternoon as two men residing in Plainfield, who were on their way from Perth Amboy, were driving through Metuchen, they were upset while crossing the Pennsylvania Railroad track. Their horse took fright, broke loose from the sleigh and ran away. He was caught at Bonhamtown and returned to the owners. We were unable to learn the names of the men. It is said that they were both intoxicated.

SEVERAL sleigh loads of the members of the Leiderkranz Singing Society of Plainfield visited New Brunswick yesterday afternoon and were handsomely entertained by the Aurora Club of this place, at Senger Hall. They departed for home shortly after dark.—*New Brunswick Times, 24th.*

WESTFIELD WISPS.

The Vocal Concert in Lyceum Hall, Tuesday evening, under the auspices of Grace Church, by New York Amateurs, was well attended and the Concert a success.

Rev. Dr. Vincent was prevented in consequence of illness, to deliver his lecture on "Heights," before the Lyceum Association last Monday evening. In consequence many were disappointed.

Ex-Surrogate Addison S. Clark has been appointed agent for the Mutual Benefit Life Insurance Company, of Newark, N. J. Mr. Clark has a wide circle of acquaintances, and will undoubtedly do well in his new sphere of business. He represents a good and reliable company.

Moffett's House (formerly Brocksmith's) receives frequent visits from sleigh-riding parties, who are accorded the best of cheer and attention by the able proprietor, Mr. A. W. Moffett. Everything connected with this establishment is in first-class order, and those who visit there once are sure to speak of the house in commendatory terms. A fine billiard room is connected with the hotel, and ample accommodations for horse and vehicle are also attached.

The Concert given by the Bedford Vocal Society of Brooklyn, in Lyceum Hall, last Thursday evening, under the [illegible] was a grand success and an enjoyable occasion in more than one way. The audience present was large and composed of the best element of the village, the singing was elegant and received the applause it deserved. After the Concert the members of the Society, together with sojourning brethren were entertained in a right royal manner by "Atlas," a fine collation and sleigh ride about the village being prominent features. The Society expressed themselves as highly pleased with their visit and reception. The brethren of Atlas Lodge know how to entertain their friends and guests.

SUNDAY Schools are thinking out. Christmas is past and the picnic season is a long way off.

THE gas lights were "off their centre" again, Wednesday night. When, oh, when, will we have electric light?

TELEGRAPHIC communication from this city to all points, was temporarily destroyed by Friday's storm of ice-forming rain.

THE Hobby Baking Co., will open at 20 W. Front street, a first-class bakery in connection with the one already so successful at 14 W. Fourth street.

"CHARLEY Shay's Quincuplexal Troupe" will furnish unlimited fun and entertainment for all at VanDeventer Hall, on Monday evening. It is highly spoken of in other cities.

A BILL before our Legislature requiring that druggists' prescriptions should be written out in full, will call attention to the room there is for mistakes under the present system.

THE livery business has been good during the past season, with every prospect of its continuing so. The physicians—we are happy to say—complain of dullness in their line of trade.

A GRAND BALL at Blatz's Hall on Somerset street, North Plainfield, will be held on the evening of Monday, Feb. 14th. The best of music will be furnished and a general good time is promised.

"Is it a good thing to be dissatisfied?" This question will be treated in its relation to the formation of character, and the duties of life, at the Seventh-day Baptist Church next Sunday evening, Jan. 30.

THE regular weekly meeting of the Land League will be held in St. Mary's Hall every Sunday evening at 7:30. All lovers of justice and freedom to the oppressed, are respectfully invited to join the ranks.

MESSRS. Andrew and John Carney, old employees of Berry & Thorn, contemplate starting in the Plumbing and Tinning business for themselves shortly on Somerset street, adjoining Homan's carriage factory.

A LAMP exploded in the Young Ladies' Seminary building, on Seventh street, last Sunday evening, and but for the presence of one of our fire laddies who happened in the building at the time, serious results might have ensued. As it was, the flames were extinguished by him by throwing a quilt over them.

THE notices sent the press of last week relating to the preaching of Dr. Vincent on Sunday last, were incorrect in so far as they promised an evening discourse by that minister. He addressed a large audience in the morning, but his place was filled by Rev. Drs. Lowry, Ketcham, & Hiles jointly, in the evening.

THE dressmakers of Plainfield are, at present, very busy making up a number of handsome costumes, which we are told privately, are to be worn by our belles at the Calico Sociable of the "Jolly 3." This merry affair occurs at Laing's Hall on Wednesday evening, Feb. 16th, and a large gathering of the *elite* intends to be present.

A receipt for making soup: Take a pail of water and wash it clean, then boil it till it is brown on both sides; pour in one bean; when the bean begins to worry prepare to simmer. If soup won't simmer it's too rich; pour in more water; dry the water with a towel before you put it in; the drier the water the sooner it browns. Serve hot.

ON Monday evening last a sleighing party from Plainfield being unable to obtain a hall for dancing down town were on their way to Lambert's Hotel, when the horses became frightened at a passing train when near the National Bank and upset the sleigh throwing the occupants out. Save a few scratches all escaped injury.—*Rahway Times.*

THE regular meeting of "Gazelle" Eng. Co., occurs next Wednesday evening, Feb. 2d, 1881. It is urgently requested that the members present themselves at this meeting, as business of importance will come before them.

By order
DAVID LEMSON,
T. A. Sofield, Sec. Foreman.

OVER three bushels of fish, mostly trout, were found recently landlocked in the bed of a mountain stream on the line of the Erie Railroad. The brook is almost entirely dried by the drought, and at the foot of a little ledge of rock these fish were found in a pool of about two barrels of water. They had evidently been driven into it as the water grew lower and lower in the stream.

A LARGE gathering of those interested in the organization of a Sabbath School in connection with the Netherwood Chapel, was brought together at that place on Sunday morning last. The following officers were elected: Mr. A. G. Conant, Superintendent; Mr. Walter S. Graham, Treasurer, and Mr. Henry E. Bowen, Secretary; and the project was begun most auspiciously. Exercises will hereafter be held *every* Sunday morning, at 11 o'clock.

THE Saengerbund Masquerade, to take place in their Hall on Feb. 21st., the night before Washington's Birthday, promises to be the grandest affair of the kind ever held in this city. No one will be allowed admittance, under any consideration, without a mask; and everything possible for the comfort and convenience of those who attend, will be done. Most efficient committees are in charge of of all necessary arrangements, and an unusually enjoyable time is promised. Tickets may be procured of members of the Society.

Hospital Officers.

A full meeting of the Medical Board of Muhlenberg Hospital was held at the residence of Dr. Burlingham last Saturday evening. Full rules and regulations were adopted and the Board organized as follows to serve until the annual meeting in May next:

President—Dr. Charles H. Stillman.
Secretary—Dr. George W. Endicott.
Consulting Surgeons—Drs. Joseph B. Janvrin and C. M. Field.
Consulting Physician—Dr. Charles H. Stillman.
Physician-in-Chief—Dr. Harvey D. Burlingham.
Surgeon-in-Chief—Dr. Charles A. Hart.
Medical Service—Drs. J. H. Probasco, T. H. Tomlinson, Wm. M. Boone.
Surgical Service—Dr. Geo. W. Endicott, M. B. Long.

A Night of Pleasure.

The many friends of that popular Conductor, Mr. A. P. Hatfield, enjoyed themselves right merrily at his residence in Dunellen, N. J., on Wednesday night last. Extensive preparations had been made by the gentleman and his wife, which contributed to the enjoyment of the largest number of guests who were so fortunate as to receive an invitation. The best of dance music was at the service of the gathering and tempting edibles were served at the proper time. The coming day was dawning when the last good-night was said, and the happy couples departed with kind thanks and genuine feelings for their host and his charming wife. The occasion will be long remembered by all who attended.

Facial Arts.

Our New Council has got considerable nerve—as the boys say. The members had not the slightest hesitation Monday evening, voting that Collector Clark should compile a useless abstract of the City Record (with an appendix) to satisfy their curiosity, and impart to the public a belief that the Council was wide awake and industrious. Mr. Clark, with a true understanding of the amount of work required in return for $150 a year, will sensibly refuse to present the Council with six months' gratuitous labor. We agree with Mr. Clark in his resolution, which "appears to be carried—it is carried."

Too Fresh!

The indisputed duty of a whistle is to whistle. But too much duty is more than sufficient or requisite. Somebody pulled the string at Potter's Press Works on Thursday evening last, to notify the [illegible] that six o'clock had again arrived. The whistle responded gallantly and probably thinking it would be a grand idea to finish up its customary year's work while at it, continued its labors so perseveringly that the public believed the Works were visited with an immense conflagration. When the Fire Department arrived on the spot, the whistle shut up out of fear that it would be "put out" and its occupation—like Othello's—gone.

Trinity Reformed Reception.

On Thursday evening of last week, the first reception of the Trinity Reformed church during Mr. Raymond's pastorate, was held in the lecture room of the church. The occasion was most satisfactory socially and in every way, enabling all to meet the new minister and his wife under circumstances that served to show their thorough congeniality and increase their popularity. Singing, speaking and such particular features enlivened the evening; a general introduction of strangers to each other and a formation of pleasant friendships, occured, while a bountiful supply of refreshments added to the combination of enjoyments.

New Jersey's Grand Lodge.

TRENTON, Jan. 20.—The annual session of the Masonic Grand Lodge of New Jersey was concluded here to-day, only one new lodge, Mariners' Lodge, of Barnegat, No. 150, was chartered. Three additional districts were decided upon, for which District Deputy Grand Masters will be appointed. The following are the grand officers for the ensuing year: Joseph W. Martin, Lafayette Lodge No. 27, M. W. G. M.; William Hardacre, Camden, No. 15, R. W. D. G. M.; the Rev. Henry Vehslage, Franklin, No. 10, R. W. S. G. W.; Joseph W. Congdon, Ivanhoe, No. 88, R. W. J. G. W.; Chas. Bechtel, Trenton, No. 5, R. W. G. Treasurer; Joseph H. Hough, Ashlar No. 76, R. W. G. Secretary; T. H. R. Redway, Union, No. 19, R. W. D. G. Secretary; the Rev. Gustavus M. Murray, R. W. G. Chaplain; John Whittaker, Orient, No. 126, W. G. S. D.; Thomas F. Cooper, Florence, No. 87, W. G. J. D.; Charles Russ, Washington, No. 33, W. G. Marshal; Charles H. Brinkerhoff, Eureka, No. 39, W. S. G. Steward; Albert F. Randolph, Brearley, No. 2, W. J. G. Steward; Thomas Cook, Washington, No. 9, W. G. Sword-bearer; George W. Fortmeyer, Hope, No. 124, W. G. Pursuivant; Heber Wells, Ivanhoe, No. 88, R. W. G. Instructor; Amos Howell, Trenton, No. 5, G. Tiler.

No Contagion in Plainfield.

Some fools take pleasure and delight in frightening old men, timid women and young children with tales of the direst calamities that are about to visit us, and conjure up the most terrible fates that will be meted out in spite of every effort. The town of North Plainfield was visited, unfortunately, with a case of small-pox recently, which was met by commendable action on the part of the Town Committee and the professional ability of Dr. South; all of which combined, prevented any infection or evil result arising outside its confines. The severity of the attack caused the death of its victim, who was immediately buried and possible danger, except to members of the family, entirely passed away. Then uprose the armies of excitement-breeders, sensation-contrivers and rumor-fabricators who joined with the scandal-mongers in circulating reports among the school children who innocently spread such throughout the community. One of the most authentic (?) will show by its utter fallacy the lack of foundation possessed by all. It was extensively circulated as a fact that the younger Dr. Stillman had two cases of aggravated small-pox in First Place. Upon inquiry being made the statement was found to be—as the Doctor himself describes it—a lie. The public may rest entirely easy in regard to the present prevalency of any contagious disease. The beautiful weather we are having is sufficient assurance that no general sickness of any sort will arise; and the unusual freedom from disease, which our physicians report our city to be indulging in, will continue.

An Old Offender in New Roles.

A first, second or even third offence of a young man, while sowing his proverbial wild oats (whatever they are), should be passed over by compassionate fellow beings, but when the sowing is persisted in to the injury of the worthy and respected, forbearance ceases to be a virtue and publicity becomes a duty. A young scion of unenviable notoriety in this city as a till-tapper, overcoat-snatcher and follower of like occupations, has lately been fleecing the solid men of Plainfield in a number of ways that prove his versatility in schemes of false pretension.

Around the merry Holiday time when all were happy in prospective, this promiscuous youth appealed to a prominent layman in mission schools for some money to enable him to buy his "poor, sick mother" an invalid's chair. The party thus struck responded heartily and generously to the striker's request, and praised him most expressively for the kindness of heart displayed. Need we say the chair was never purchased?

A gentleman not unknown as a presiding officer over Common Council meetings, was about the same time called upon by the hero of our biography. The latter stated that he had procured a situation in New York and was in need of funds sufficient to secure a commutation ticket. The gentleman acceded to the modest demand, but to be sure that his contribution would find its way to the intended source, gave a check payable to the order of the Receiver of the railroad. In this case, in consequence, the article specified was bought but probably sold again, as it was afterwards taken from the possession of an amateur printer by Conductor Hood. The C. R. R. Co., have not yet settled the affair so far as they are concerned.

Two others, a large commission merchant and a prominent dry-goods jobber, were not so far seeing or suspicious, and $10 in cash was the amount of their donation to the wiles of the ingratiating lad.

A physician of great reputation was told by this one of many parts, that his girl (not the physician's girl—he's married) was about to make him (our hero) a visit from her palace in Trenton, and in order to make a suitable appearance it was necessary he should get his clothes out of pawn. Money was given for this purpose which, of course, went another way.

We might continue this record to any extent, and a history of what we know and what is unknown regarding the subject, would fill a big book. But enough has been said to show the manner of the youth's labors and warn others of his [illegible] and games.

To the Public.

The Muhlenberg Hospital, Plainfield, N. J., was incorporated under an act of the Legislature in the Spring of 1877. Three years were spent in fruitless efforts to obtain a situation suitable for the Hospital, and at the same time unobjectionable to the adjoining property owners. Early in the present year a site was found, and a lot on Third Street, West of Plainfield Avenue, was purchased by Mr. Job Male. The deed is to be presented as a gift when the Hospital shall have been erected and paid for.

The Corner-Stone was laid last May, and the building is now so nearly completed as to indicate its excellent internal arrangements, and handsome exterior. For its size, it is not surpassed by any in the country, and is an ornament and credit to the city.

The Building has been contracted for at a cost of $4,400. About $2,400 has been expended under the contract. There is now needed to complete it $2,000.

Unless the public will come forward and give their aid the work must stop, as the Board has no power to incur debt. It rests with the citizens of Plainfield whether this good work shall be carried forward to a speedy completion or stop where it is. The work has the full approval of the Medical Gentlemen of this city, many of whom have signified their willingness to contribute their personal services.

Let every one contribute at least "A MITE," and there will be no need to stop.

"Tempestuosity."

An exceedingly unusual and one of the most remarkable storms that have visited this part of the country in years, broke forth during the early morning of Friday last. The consistency of the mass of sleet, hail and rain that began to descend, appeared to foretell the disappearance of the stock of snow on hand and the subsequent ruination of the fine sleighing. But such catastrophe (fatal to the desires of fair maids and livery men) was happily averted by the action of the atmosphere in freezing solidly the soft elements whenever and wherever they rested. The scene in the morning was magnificent. The surface of everything exposed was a sheet of ice; icicles were suspended from every projection, and the trees were draped with a glacial foliage. The unreliable pavements offered no foot-hold upon their surfaces, and until sharp-shod horses had somewhat broken the roadways, pedestrianism was [illegible]. [illegible] many branches were broken from their positions by the unusual loads upon them, and signs and shutters took unexpected courses downward, yet no blocked-hats or more serious contusions are to be recorded. From all parts of this State reports indicate that the storm was fruitful of disastrous consequences. In Newark some $50,000 damage was done to the telegraph wires. There is not a street which did not show evidences of the wreck of trees, and in some instances houses suffered. The same disaster befell other cities and towns of the State. New York, Pennsylvania and other States over which the storm swept, suffered in like manner.

Caring for the Poor.

The world-wide reputation justly accorded the Roman Catholics as generous and kind-hearted watchers after the needs of their poor, is to be added to by the effective action, at present being taken in the same direction by the ladies of St. Mary's parish. The Society of St. Vincent de Paul of Plainfield, N. J., was formally organized on Sunday, Jan. 16th, under the patronage of the ladies of the congregation. At no time will the necessity of such an institution be more vividly felt than during the present severe Winter; and its purposes—the alleviation of the sufferings of the poor, the visitation of the sick and infirm and the providing of work for the worthy and willing—will appeal to the sympathies of all. In order that active work may be begun as speedily as possible, one of the wings of St. Mary's Hall on Fourth street has been secured for the transaction of business, which office will be open every Thursday morning from 10 to 12.

Twenty-five cents has been agreed upon as the direct monthly contribution. Larger and smaller donations will be thankfully received through the poor boxes of the church. Cast-off clothing will also be acceptable. Valuable assistance can likewise be afforded by those who will send in their sewing, which will be done for them at moderate prices.

The following are the present officers: Mrs. Paulino Echeverria, President; Mrs. James Brady and Mrs. N. F. DeRevere, Vice Presidents; Mrs. Eugene Gross, Treasurer, and Mrs. M. Velasquez, Secretary.

Killed by Coasting.

Several terrible and a host of less serious accidents occurring throughout the country recently, have called the attention of the public generally to the great danger of indulging in sled coasting. In our last issue we spoke a word or two of warning and pointed out the fact of its being a most perilous pastime. To-day, it becomes our sad duty to report the death in our midst of a bright young lad, from a disease contributed to if not caused by this recreation.

Pierre M. Hurlbut, the eldest son of the Rev. J. L. Hurlbut, died at ten o'clock on Wednesday morning of peritonitis. The attack was sudden and severe, and the attendant physician did everything in his power. But the case being an alarming one and the peculiarities of the disease and situation of the parts affected making an attack almost necessarily fatal, the unfortunate lad died after a short illness. The complaint was caused in this manner. Young Hurlbut had been in the habit of coasting on a sled that from being of a heavy make or having unshod runners was not particularly swift. One day, recently, he tried for the first time another which was an unusually fast one. Not being used to riding so rapidly or being unable to guide it at an unaccustomed gait, he lost control of its direction and running forcibly into a fence the boy was violently thrown against the obstruction. The direct result of which is the sad fate spoken of above.

It would be incomprehensible if any, after this fearful warning, should persist in pursuing the sport in this vicinity. In some places municipal action has been required to "regulate it" and "prevent accidents," but it is almost impossible to adopt measures for such a purpose. Parents forbid your children doing it. Young gentlemen and young ladies stop of your own accords, and be thankful that you are not an example of its perils or a victim of its dangers.

Trial and Sentence of John Johnson.

As announced last week, the trial of John Johnson for the murder of Samuel Williams in this city on the evening of September 11th, began in the Union County Court of Oyer and Terminer at Elizabeth on Wednesday morning the 19th inst. The occasion called together a large attendance of all ages, sizes, sexes and colors, which filled the seating and standing capacity of the Court room to its greatest extent. The entrance of the prisoner was a moment of satisfaction to lovers of sensation, but nothing in the man's appearance showed hopelessness on his part. He was plainly dressed in a suit of black with white shirt and collar; and during the entire trial seemed to realize his situation and was remarkably attentive to the proceedings. He was frequently questioned by his counsel, Messrs. Suydam & Jackson of this city and R. V. Lindabury of Elizabeth, regarding points that arose—to all of which interrogations he replied clearly and understandingly.

When the Sheriff was about to call the jurors, Mr. Lindabury objected to the drawing except with a full panel, there being four jurors absent. The Court overruled the objections, to which exceptions were taken. A large number of jurors were challenged both peremptorily and for cause. Several challenged for cause, upon examination said they had conscientious scruples against capital punishment, and would be unwilling to return a verdict of murder in the first degree, even if the law and evidence should require such a verdict. Nearly all the morning was taken up in the calling of a jury, as published in our last issue.

Prosecutor Fay in opening the case for the State, referred to the indictment of the Grand Jury and stated that under it the jury might find a verdict for murder in the first or second degree, or for manslaughter. He gave a brief resume of the affair as follows, being substantially as published already in this paper.

On the 11th of September last, Samuel Williams, the deceased, lived with his wife in one of a row of houses known as "Battle Row," on Fourth street in this city. In the same house his mother-in-law, Sarah Thompson, resided with her daughter Eva, a miss of sixteen years. On the evening of the 11th, Eva, in company with Mary Stewart, a girl about the same age, were out walking, returning at midnight with Johnson, whom they had met on the street. On entering the yard, Williams, who was standing behind a well, stepped out, caught hold of his sister-in-law, and telling Johnson he wanted to see him, went out to the gate, pulling Eva with him. At the gate Eva fell down and got away, and was called into the house by her mother. Williams seemed to have been in an angry mood. He challenged Johnson to go out in a field and fight a fist fight, demanding him to put up a pistol which he (Johnson) had. Words passed between them, and Johnson fired a shot at Williams, while they were standing facing each other a short distance from the gate. Williams staggered back and then ran into the yard, around the house and through a small gate into an adjoining field. Johnson pursued, firing three shots. Williams fell dead a short distance from the gate. Johnson went to the place where he was employed as a coachman, and was there arrested on the following morning by Chief Chas. A. Dodd.

The revolver used by Johnson was brought into Court by Chief Dodd, and under direction of Judge Van Syckel and the presence of the counsel the revolving chambers were removed. Witnesses were excluded from the room and placed in charge of constables. A map of the place where the homicide took place, was proved by Mr. John M. C. Marsh, Constable of Westfield Township, who made the survey. A number of colored people living in "Battle Row" were sworn as witnesses and described what they saw and heard of the homicide.

Letitia Johnson, one of these witnesses, testified: At twelve o'clock on the night of the homicide she was attracted to her door by voices of men who were evidently quarreling. She heard Williams say "Put that in your pocket and I can whip you." Johnson replied "I've got it, and I'm going to give it to you, too." Williams repeated "I've got nothing, and if you put that in your pocket I can whip you." Johnson said "What do you take me to be? I've got it, and I am going to give it to you, too." Then they came in a kind of scuffle together, and Johnson gave him a kind of sling to the edge of the sidewalk; then they stood face to face; then Johnson up with the pistol and shot him; the flash lit Samuel's head all up, and he backed; Johnson stood against the fence and Samuel at the edge of the walk; Samuel took out and run, and Johnson after him; he ran toward the little gate that goes round to the back of the house; Johnson fired as he started to run and fired again as he got about to the gate on Fourth street; heard him run down the back of the house; Johnson followed him.

Chief Dodd testified to the arrest of Johnson in the stable of his employer, on the morning following the deed.

The theory of the State, that Williams was not wounded by the first shot, was supported by the testimony of the surgeons, both of whom testified that a person receiving such a wound could not have run 250 feet before death, but would have fallen almost instantly.

The defense opened in an attempt to destroy this theory and called Dr. Oakley, who testified that four cases are reported in U. S. Surgeon General Barnes' reports where persons wounded in the heart, in a manner similar to that described by the State's witnesses, who lived hours and days afterwards. In his opinion Williams might have received the wound described and ran 250 feet before falling.

Other witnesses, including a ten-year-old girl, a sister-in-law of the deceased Williams, were examined to show that Williams was criminally intimate with Eva Thompson, in support of a theory that it was jealousy that had provoked him to assault Johnson. An iron bedstead fixture was offered in evidence, and witnesses testified that it fell out of Williams' pocket in the ice box at the undertaker's; this the defence alleged was used as knuckles, and would have been used to Johnson's injury had he not defended himself.

Johnson, the defendant, was put on the stand and he told a straightforward story, alleging that he fired the first shot only when Williams seized him by the throat and was about to strike him with what he believed was a razor, but was probably the iron produced in Court. Williams staggered back, and he (Johnson) followed, shooting again three times. He fired the last shots under excitement.

The testimony was all in at noon on Friday and the counsel followed in able speeches summing up the case for and against. Mr. Lindabury making a specially eloquent appeal for the prisoner and Prosecutor Fay arguing for the State with his customary force. The jury retired after Judge Van Syckle's charge at 11:30 Saturday morning, coming in at 3:15 with a verdict of murder in the first degree.

Johnson's wife visited him in prison last Monday. There was no demonstrative scene. They were married in Brooklyn about two years ago. Johnson is about 25 years old.

Yesterday being the day set down for sentence, the Court room was consequently crowded to overflowing. The absence of the colored population was as remarkable as their presence was noticeable on the days of trial. But a few of such were scattered among the variety of classes that occupied the seats. The presence of County officials was large, the general matter before the court exciting even their curiosity. Director Martine and other freeholders were observed among the miscellaneous assemblage, taking more than less interest in the affair. Mr. R. V. Lindabury entered at about 10:15 seemingly unconcerned regarding the effort he was making for the prolongation of a human life. Counsel Suydam was present, looking none the worse for his late labors on the case. Sheriff Ryder appeared to be the only person who showed the slightest personal interest in the matter. That officer was apparently greatly exercised. His sympathies were generously—and in fact naturally—with the unfortunate man, and his feelings entirely against the tenor of the verdict. He, however, hoped that a new trial would be granted and the penalty at least postponed until after the expiration of his term of office. As far as an observer might feel assured, Prosecutor Fay was the only one who beamed satisfaction from every feature of his countenance. Even his bald head shone with pride at his latest victory.

At 11:31 a. m., Judge VanSyckle took his seat and the Court was opened. During the progress of the customary forms, a short and confidential conversation was held between the Court and Messrs. Fay and Lindabury—Judge McCormack being an attentive audience. A minor case was called up and disposed of, after which the State Prosecutor asked that the passing of sentence on John Johnson be postponed until Tuesday Feb. 1st. Such petition was granted and the disappointed gathering left without the satisfaction of the excitement they expected.

We are enabled to state that the Court has privately said it would grant a new trial on its own motion, if Dr. Green and others would swear on the stand that it was possible for a man to run 250 yards with a bullet in his heart, before dying. This medical gentleman has volunteered to do so. Consequently it is safe to suppose that the accused will be allowed another chance with another jury.

Personals.

The son of ex-Councilman John B. Brown is at present exceedingly ill.

The painting of Col. Julian Scott displayed at the exhibition of the American Society of Water Colors, was sold the first evening. The art critics reflected great credit on this gentleman's work.

The loss that had been experienced by the Rev. and Mrs. J. L. Hurlbut, in the death of their eldest son, Pierre, is a most severe one. The compassion and condolence of all is with the parents in their affliction.

It is said that Miss Willetts, one of the Public School's new teachers and among its most capable, has accepted a more advantageous offer elsewhere. If this is so, at the expiration of her year's engagement here the Board will experience some difficulty in filling the vacancy so satisfactorily.

Common Council Proceedings.

MONDAY EV'G, Jan. 24, 1881.

Council met in special meeting.

Present—Coriell, Darling, Flanders, Guion, Hamilton, Tyler, A. H. Smith, H. Smith, Waring, Whiton. Absent—Lithgow.

Pres. Whiton then stated the object of the meeting to be the financial condition of the city, including the collection of present and back taxes; claims due to and by the corporation, and in relation to application for licenses.

Mr. Darling wished to know what measures were to be adopted, as to the finances of the city.

The Pres. stated that it was found that the delinquents in taxes amounted to a large sum; and unless some steps are taken to collect these taxes, the city cannot be properly run on the amount authorized—$10,000.

Mr. Hamilton wished to know what the amount of back taxes were, and why they had not been collected.

The Pres. stated for Mr. Hamilton's information, that the taxes in arrears amounted to $12,587.59; he stated also that the City Judge was authorized to issue his warrant for the collection of back taxes, and he refused so to do; it was agreed upon that the matter be carried to the Supreme Court in a friendly suit for a writ of mandamus, and the Supreme Court decided that the City Judge had a right to issue his warrant, but for the year 1880, only. The Pres. stated that since the decision the City Judge had declined to issue the warrants, etc.

Considerable discussion was had by the members of the Council of the different ways to collect the back taxes; some were of the opinion that the taxes back of 1880 could be collected, and others that they could not. After further conversation in the premises, Mr. A. H. Smith presented the following:

Resolved, That the Collector be and he is hereby requested to furnish the Finance Committee for the information of the Common Council a full and complete statement of all taxes in arrears; dates and amounts of the same; names of delinquents; description of property where located; what his action has been in each individual case, and the condition and circumstances of each case.

Resolved, That the City Judge be and he is hereby requested to furnish the Common Council with a full and complete statement of all actions in law or otherwise which he has taken for the collection of taxes in arrears.

The above, by consent, were placed to one a'ct, and the following resolution presented by Mr. Tyler:

Resolved, That a notice be published in each of the official newspapers of the city of Plainfield at least once a week for three weeks, to the following effect: That on and after the 28th day of February, 1881, a list of all delinquent taxpayers existing at that date for taxes due the city of Plainfield will be published by the Common Council; and on and after the 16th day of March, 1881, the list of taxpayers then delinquent will be delivered to the Corporation Counsel with instructions to collect them by action or by such processes or remedies as he may deem advisable to take.

Mr. Darling did not favor the publishing of the names.

Mr. Tyler favored the plan; he thought it would have a tendency to shame them into paying their taxes.

Mr. Flanders thought that some other plan might be taken beside that of publishing the names. He knew some parties that were striving to do the best they could; and were only behind a few dollars. &c.

After further discussion, Mr. Darling offered as an amendment that that portion relative to the publishing of names be stricken out, and that suits begin February 28th, 1881.

Mr. Waring remarked that the custom of advertising delinquents in taxes was the usual form in the State of Pennsylvania.

After further discussion in the premises, the amendment of Mr. Darling was put and lost. The original motion was then adopted. All aye.

The resolutions of Mr. A. H. Smith on motion, were then taken up and adopted.

The claims against the city were then taken up. That of James E. Martine was acted upon, and referred to the Finance Com. for investigation. Those of L. W. Serrell, E. J. Boice, Magie & Cross, and others, were then read.

Mr. Darling said he should vote against paying any of these claims, out of the General Fund. An extra tax levy would be his plan.

Mr. Hamilton thought the other taxes should be collected first. [Laughter.]

Mr. Flanders thought these claims should be paid, even if the lamps were shut off and our streets receive half the quantity of gravel, etc.

Mr. Coriell thought the city would be [illegible] for expending the $10,000) to cover arrearages of [illegible]. He was not in the [illegible] business himself.

After further consideration of the matter, Mr. Tyler offered the following res:

Resolved, That the several claims upon the table of the Council, referred to the Law & Ord. Committee of the Council of 1880, and by them reported for payment and directed to be paid at the last meeting of this Council, be referred to the Law & Ord. Com., to report whether said claims cannot be paid in some other way than from the General Fund.

Adopted.

The following applications for License were presented:

Fred. Casper, petition for license to sell spirituous and fermented liquors in the building now occupied by him, situate on East 2d St., near Park Ave.

James Connelly, petition for a Saloon license, in the building owned and occupied by him, situate at 21 Madison Ave.

Patrick Day—Saloon license, in the building now occupied by him on 3d St., near Liberty.

E. P. Thorn, petition for a license to keep an Inn and Tavern in the building now occupied by him, and known as the "Mansion House," situate on corner of Park Ave. and 2d St.

The Pres. stated that the above petitions he would refer to the License Com.

Mr. Flanders arose and said: "I object to granting licenses on the ground that they are not needed, and are not of any benefit to the city."

The Pres. informed Mr. Flanders that that was not the question.

Mr. Darling wanted the license question settled to-night.

Mr. Coriell, in order to get the matter before the Council, moved that licenses be not granted this year.

Mr. Darling thought that any such movement would assume just the opposite from the aim desired. Grant no licenses, and I will wager ten dollars to one that every shanty in the "Boulevard" will keep liquor and sell it; this city cannot be run on sentimental ideas, etc.

Mr. Waring wished to know if the applicants applying for license this year, were licensed last year? He was answered in the affirmative.

Mr. Tyler asked when the several licenses expired? He was given the desired information by the Clerk, from a com'n presented by ex-Mayor Harper toward the close of last year's Council.

Mr. Flanders then arose and delivered a short temperance discourse. In the course of his remarks he said: "They say if we do not grant them licenses, they will move across the creek and sell, and North Plainfield will get all the revenue, and this city all the paupers. I will pay my share toward helping them, (the paupers) rather than vote to sell liquor," &c.

Mr. Coriell heartily coincided with his colleague, Mr. Flanders, on the question of licenses. "I cannot," he said, "conscientiously vote for the granting of licenses; the people and this Council are aware how I stand on this question; I cannot vote for licenses."

Mr. Darling said that he looked at this license question in a practical light; the evil is here and we must do the best we can with it.

Mr. Coriell wished to be excused, as he wanted to catch the train.

The Pres. asked him if he wished his motion put to vote to-night? His reason for thus asking the question was, that he had received a com'n from Mr. Lithgow who declines to serve; he would like to have a full Board present to act upon this question.

Mr. Coriell, upon leaving the room, said his motion could be laid on the table, as he wished to do what was right in the premises.

Mr. Darling wanted the matter settled to-night, and moved that licenses be granted.

A vote was taken on the motion, with the following result:

Ayes—Darling, Guion, Hamilton, A. H. Smith, Waring—5. Nays—Flanders, H. Smith, Tyler, Whiton—4. Mr. Coriell, at this juncture, entered the room, and stated "he had missed his train, and was good for an hour and a half more."

The Pres. stated that a vote had just been taken on granting licenses, and he (Mr. Coriell), was just too late. If it was the wish of the Council, however, that Mr. Coriell's vote should be taken, his name would be called. No objection appearing, Mr. Coriell's name was called, and he answered in the negative, thus making a tie vote—5 ayes and 5 nays. The Pres. declared the motion lost, quoting Rule 18, which says, "When the vote of the Council shall be equally divided, including the vote of the Pres., the motion voted upon shall be lost." The Pres. stated he took this action because he thought that a full Board should be present to vote on this license question.

On motion, Council then adjourned.

PUTTING DOWN A CARPET.

There are times in the life of a man of family when he feels like throwing himself entirely away, never more to be heard from; and one of these trying times is when he has a carpet to lay down, especially if the carpet is too small for the room, and it must be made to fit by stretching, and he has to do the stretching himself.

Smith fell upon trying times last night, and from my heart I pitied the poor fellow. He laid in a supply of tacks, borrowed a hammer from his landlady, and went to work after supper. The carpet was unrolled and Smith noticed its shortcomings. He figured up the length and breadth of the room, then of the carpet. It was near nine o'clock before he reached anything like a correct estimate of the fitness of his carpet for his room. His wife added her knowledge of arithmetic to his own scanty store, and between them the problem was solved, and preparations made to make a 16x18 carpet fit a 19x20 room.

Smith spread out the woolen plaster in one corner and commenced to tack down. The first tack turned over before the hammer reached it, and Smith stuck a mashed finger in his mouth, perhaps to prevent that organ from giving utterance to a well-developed "cuss-word." The next tack went home, and then Smith stretched the carpet for another drive. Finally, the carpet was fast in one corner, and then Smith bethought himself to tack it in another corner. Moving a couple of heavy trunks, turning over the wash-stand and breaking the bowl and pitcher, did not deter him in his purpose. Smith is a man of firm resolution.

When Smith had worn all the skin off his fingers stretching one side, his wife discovered that he had tacked down the wrong side. The double process of ripping up the carpet and ripping out Sunday school words was here instituted, and now the thing went down right. The carpet-laying business was going on swimmingly; Smith was hammering away happily, whistling "Down on the carpet you must kneel;" the children were playing all sorts of didos; the wife was straining her weak back trying to move the bureau out of the way, when a message comes up from the landlady saying that, as there was a sick boarder in the next room, and company in the parlor underneath, less noise would be highly appreciated. To comply with her request, Smith tied one of his wife's stockings over the face of the hammer, and attempted to drive home the tacks; but the best stocking his wife ever had (so she said) soon presented the appearance of having been chewed by hungry rats. Smith's wife saw how her property was being destroyed, and laid an embargo on the proceeding, and a hot shovel on Smith's head. Then Smith tried a new plan.

He started the tack with his thumb, then hit it lightly with the hammer; then he'd wait a while as if for the musical echo to die away before he would give it another lick. During these charming intervals Smith mentally calculated how long it would take him to put down the carpet at that rate. He found that it would take him just two weeks, including Sundays. Here he rested from his labors. He scratched his head and bawled at the children. Eureka! He resolved upon a new departure—one good lick to each tack, and his wife to give the rest when the sick boarder got well. It was a capital idea, and Smith put it into execution at once, forgetting to let his wife know anything about it until the job was done. The idea worked well; he got three sides of the room done in a jiffy. But when he went to stretch the carpet preparatory to nailing it down on the fourth side, the half-driven tacks broke loose from their moorings, and the tortured carpet went adrift. It was really too bad!

Smith sat down on his wifes toilet set, and wept—not because he wished the carpet somewhere else, but because he was tired. The children, bless their dear souls! took in the situation at a glance, and sympathized with their dear papa by turning over the centre table on his pet corn. But, as I said before, Smith was a man of firm resolution. He did not howl with pain over the calamity that had befallen his corn, nor give that as an excuse for letting the carpet alone, as many a fond parent would have done under similar circumstances; but he took up an idle razor-strop, and the way he caressed the round places on his oldest boy's body was a sight to see. Then he went back to his work somewhat recuperated by the diversion. He retacked the broken-loose carpet with two licks to the tack, regardless of noise and the sick boarder. Again the three sides were attached to the floor, and an attempt was made to stretch the fourth side into position. But it wouldn't stretch worth a cent. The more Smith would pull, the less the carpet would come; and when he did get it right, the plaguey tack would turn over before he could get his hand on the hammer. Smith began to get excited. The piano in the parlor beneath struck up the tune "I'm Dying, Egypt, Dying;" and if there is anything in this world that Smith does really despise, it is that. It was enough to drive him crazy; but in the firmness of his resolution he hammered his tacks, mashed his fingers, and smothered his oaths in silence. Just about 2 o'clock in the morning he got up, stretched his cramped limbs, yawned, and announced the job completed. He laid down and slept an hour. Then he awoke and looked at his—last night's adventure. The carpet was on the floor—he knew that much; and if the stripes looked like a row of crooked rivers, he didn't care—he had done his best.

It was a bad night's work for Smith. The neighbors called in, and not a soul of them went away without expressing admiration of the way in which the job was done; and, besides, they all exacted from Mrs. Smith a promise that when they got their new carpet, Smith should lay it for them. I saw Smith this morning en route for the depot. He said he was going to the Springs. What a man of his health wants at the Springs this cold weather, is more than I can conjecture.

Some farmers think that a hard Winter will kill all the potato bugs and destructive varmints. Well, if the blizzenish weather of the Holidays didn't kill the bugs and things we don't want Vennor and Hazen to try it again. Paris green will keep down the bugs at a much less cost than humanity can keep up the necessary heat, with coal at $5 and $6 a ton.

When you hear a young lady very carefully say "I haven't saw" you may be quite confident that she is a recent graduate from one of the most thorough of our numerous female seminaries.

A MISTAKE.

That editors are always delighted to get anything to "fill up" their paper.

That they have plenty of time to correct bad manuscript.

That they should "puff" everybody for nothing.

That they should know everything, whether informed or not.

That they have plenty of money.

That they should notice every scalawag show that travels.

That they should have news, whether there is any or not.

That they should print the name of every man who attends a dog fight or horse race.

THE MIDWINTER (FEBRUARY) SCRIBNER has always been a special number, as rich as the choicest literary matter and the most beautiful wood engravings can make it. Of last year's mid-winter number the London *Times* said: "It is a really magnificent triumph of American pictorial art and literary genius." The English publisher of SCRIBNER has telegraphed for 17,000 copies of the present number,—an advance of 6,000 upon his orders last year, and the largest edition of an American magazine ever sent to England;—in fact, it is said to be larger than the monthly sales of *any English magazine.* The American edition of SCRIBNER has grown during 1880 about 20,000 copies.

A delightful feature of the magazine this year is a series of sparkling novelettes, or condensed novels, instead of a serial story. "A Fair Barbarian," the story of a piquant American girl in England, by Mrs. Frances Hodgson Burnett, begins in this February number with a twenty-two page installment, and will run through three issues. Since the death of George Eliot it may be said that Mrs. Burnett commands a larger English-speaking audience than any other woman. Her novelette will be followed by one by George W. Cable, author of "The Grandissimes," etc., and afterward Boyesen's "Queen Titania" will be published. "Peter the Great," Eugene Schuyler's historical work, begun in February, 1880, will be finished in October of this year. By means of the recently published special offers of SCRIBNER, the whole of this great work, with its wealth of illustrations, can be had at a very low price, in connection with a year's subscription. All booksellers can give the terms.

In the same ratio that SCRIBNER'S MONTHLY is prospering, ST. NICHOLAS, the famous magazine for girls and boys, issued by the same publishers, grows apace. About 100,000 copies of the Christmas (December) number were sold, while the January number has been for some time out of print. In February, there is a full account of the Obelisk, richly illustrated from sketches and photographs, showing the great monolith in all stages of moving.

The MIDWINTER SCRIBNER will be ready January 20th, and ST. NICHOLAS five days later.

Fear God and keep out o' debt.

Fules mak feasts, and wise men eat them.

Wise men mak proverbs, and fules repeat them.

Fair words ne'er brak a bane, foul words may.

There is a Judge in Galveston whose head is as bald as that of an American eagle. A little boy, living next door, has got into his head that lack of hair is inseparably connected with the title of Judge, consequently when a lawyer, whose head is densely covered with hair, called, and was addressed as "Judge," little Tommy shook his head and said: "You ain't no Judge. Can't fool me." "Why am I no Judge?" "Cos yer hair ain't parted wide enough," was the guileless reply.

A wedding party was assembled at Cleveland, and everything was ready for the ceremony, except that the bridegroom had not arrived. After waiting an hour beyond the appointed time, the bride fainted and the guests were about to disperse. Then a policeman came in, and said that he had driven from the door a drunken man, who wanted to enter. A search in the neighborhood resulted in finding this man, who was the missing bridegroom. He was not intoxicated, but had gone insane.

He was going out for the evening, and his wife said: "Dear, you will please not drink any brandy." "No," said the little girl, "for ma drank it all this morning."

"Kissing your sweetheart" says a trifling young man, "is like eating soup with a fork; it takes a long time to get enough."

If the most cultured and intellectual were always the severest critics of preachers, it might perhaps be well to pay more attention to carpers. But this is not so. The harshest critic is the man who does not know the difference between a lightning-bug and a star.

When a boy walks with a girl as though he were afraid some one might see him, the girl is his sister. If he walks so close to her as to nearly crowd her against the fence, it is another fellow's sister.

One Sunday evening a well-known revivalist preached from the text, "Saul, Saul, why persecutest thou me?" In the audience there was an engineer named Saul, who was accompanied by his wife and little girl. The reverend gentleman repeated his text several times, "Saul, Saul, why persecutest thou me?" At last the daughter of Saul, thinking that the text had personal application, looked up into the face of her parent, and said, "Don't you mind him, father; he's been drinking."

The hands of the newly-established hat factory at Eatontown struck a few days ago for an increase of wages from 90 cents to $1.50. The company refused to deal with the strikers and found new hands at the wages they had been paying.

County Physician Converse and Drs. Calvey and Varick, the three physicians appointed to examine Mrs. Mary O'Connor of Jersey City the woman who killed her three children, state that Mrs. O'Connor was insane at the time of the murder, and ought to be placed under restraint.

Gen. Grant is again to be a summer resident at the Branch. An architect and builder at that place has received instructions from the ex-President to make such repairs upon his cottage as are necessary, and to put it in complete order for his occupancy early next season.

MISCELLANEOUS.

ALMOST GONE,

But the Minister's Last Call Postponed—Remarkable Recovery of a Lady who was Pronounced Beyond Hope of Recovery.

A well-known business man, of New Hartford, Conn., writes as follows to Dr. David Kennedy, of Rondout, N. Y.: "A few months ago I let a neighbor of ours have some of your "Favorite Remedy," out of a bottle we kept for our own use, to try for some transient trouble. That neighbor induced a sister-in-law, who lay almost at the point of death, to test its efficacy for her disease. For weeks previous she could not eat anything without experiencing great distress, and the medicine given her by her physicians afforded no help, and often seemed to increase her distress. It was thought she had Cancer of the Stomach, and at the time of which I write friends had sent for her pastor to make what it was believed would be his last call. This lady recovered, and is now comparatively well, and says she would not be without 'Kennedy's Favorite Remedy,' no matter what its cost might be. You cannot advertise it too highly." Dr. Kennedy's "Favorite Remedy" is a specific for all Diseases of the Blood, such as the ills peculiar to females, and is invaluable in all Diseases of the Kidneys and Liver. When once known no family will be without it. "Dr. Kennedy's Favorite Remedy" for sale by all druggists. jan7w4

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper throughout the year to come everybody will find:

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. THE SUN long ago discovered the golden mean between redundant fullness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. THE SUN'S habit is to speak out fearlessly about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of partisan organizations, but unwavering loyalty to true Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the years immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free.

Address, I. W. ENGLAND,
Publisher of THE SUN, New York City.

WORK TOGETHER.

If all men had the self-same mind,
And sought the same position,
The world would be, as you'll agree,
Chaotic in condition.
Thus some must sow and some must reap,
And some must plow the mighty deep;
And some must wake while others sleep—
Each has his given mission.

And though they seek quite different paths
In bright and cloudy weather,
And seem to stray, each his own way,
They really work together;
The one who weaves, the one who bakes,
The one who cuts and he who rakes,
Bound by a silken tether.

Thus the great world thrives and grows,
As each man helps his brother;
The great and small, the short and tall,
They all help one another.
For some must print and some must fold,
Some must carve and some must mold,
And some count silver, scrip and gold,
Each one pursuit or other.

Then banish envy from our hearts,
And keep your soul well lighted,
The world should be, as you'll agree,
At peace and all united.
The water course will turn the wheel—
The mill will grind the corn and meal—
And God will reign through woe and weal,
And every wrong be righted.

MISCELLANEOUS READING.

THE HARVEST TIME.

Faith Irwin, aged eighteen, gray-eyed, dainty and sweet as a wild rose—and quite as unconscious of her beauty as that same sweet flower of its own—stood with flushed cheeks before her aunt and cousins, talking earnestly, and with a suspicion of tears in her low, clear tones.

"Yes, I understand you all. I am in your way and unloved by you. It was a pity that when mamma and papa died, I, too, could not relieve the earth of my presence, instead of having to ask the protection and affection of my own uncle's family. For his love—what little he gives me—I am grateful, and Uncle Dick knows it, I think. But from you, Aunt Upham, and you, my cousins, I have never had a kind or loving word since one year and a half ago"—the girl's lips quivered and her voice grew tremulous—"I came with my heart half-broken to this house, which was the only home I had in all the world. Oh! you needn't interrupt me, auntie. I haven't spoken before, but I have suffered and had such lonely thoughts and longings for some one to love and be kind to me that at times it has seemed as if I should die. And now here is Miss Mark's letter, in answer to one I wrote her asking if she could help me find a position as teacher somewhere—anywhere—so that I need not eat the bread of this bitter dependence no longer. She offers me the place she now occupies, because she is going away, and I will send her word this very day that I will go to P—— next Monday. And I need not ask if you are willing, for too well I know how delighted you all will be."

Mrs. Upham and her daughters might have replied, but Faith went quickly from the room, and was seen no more until dinner time. The truth of all she had said was too well felt by Mrs. Upham, whose haughty and proud heart had never yielded an atom of love to the orphaned niece since she had entered the family.

And why? Simply because Faith had the advantage of her cousins in youth and personal attractions; and where jealousy reigns love can scarcely enter. And that her aunt and cousins were jealous of the lonely, orphaned girl beneath their roof was something they could not deny.

After Faith had left the room the mother and her daughters looked at each other.

"Whew! What a temper!" said Anna.

"Could anything have happened better!" cried Belle. "Papa has invited the son of an old friend of his, who has just returned from Europe, rich, handsome and splendidly stylish—his father left him all his money, you must know, when he (the old man) died—to spend a few days with us, and he has promised. Now, you see, if Faith were to be here she would be sure to manage in some way to keep him at her side. We never should stand a chance, being so much older and plainer than she."

Then Mrs. Upham spoke up.

"Yes, it is very fortunate that she is going. Really, I knew Faith was quick-tempered, but had no idea she could show such a temper as we have seen to-day! What is the name of the young gentleman your father has invited here?"

"Howard Blake, I think," was the reply; "and I shall be thankful to see a new face amongst our friends."

* * * * *

"This is the room, miss. It's mighty little and poor like, and like enough you'll be bumping your head agin that there beam in the corner. But you see, dear, Jim would take them city folks to board again this summer, because it kinder paid to have 'em last year, and so I ain't got no room but this for ye just now. Mebbe long in the fall, now, I kin fix ye more comfortable-like. Anything I can do 'fore I can go down?"

Faith Irwin lifted her face from its bowed position over the little trunk which she was unstrapping, and replied, gently:

"No I thank you, Mrs. Jones; I shall be quite comfortable here, and hope to give as little trouble as possible."

Mrs. Jones' good-natured face beamed all over with kindly feeling as she replied:

"Lor! don't you be a going and worrying yourself about trouble, my dear; 'taint likely as you're the kind that'll do that. It's them city folks I'm dreading, with their airs and graces. But I hope you'll be quite happy with 'em, miss, and—bless me! I smell my bread a-burning!"

And the good woman hurried down the steep, old-fashioned staircase, muttering all the way:

"Poor dear! How lonesome and pale she does look, to be sure. And so young to be a teaching them rough children to the school, too!"

After Faith had refreshed and cooled her flushed face in a basin of clear, delicious spring water, and arranged as tidily as possible the little rings of soft hair which would not lay straight upon her forehead, and after she had fixed her room to suit herself, and given it a more home-like appearance by the addition of a few books upon the table and the little work-basket which once belonged to her mother, she stood beside the window and looked out upon the soft green fields stretching on every side of the old farmhouse, the shady road which led down toward the village, the grand old elms and maples clustering about the yard and lining the road as far as her eyes could follow it.

The house faced a fork in the road, and stood between the two branches—one, the old Albany road, famous during Revolutionary times, and the other lively with the teams and light wagons going to and coming from Lake [illegible], every [illegible] the village of P——, where our story is located.

The summer breezes were laden with wild-flower fragrance and the sweet breath of the wild herbs and forest pine, and the summer sunshine flickered merrily on the green lawn beneath the stately trees, which held their heads as proudly as though the weight of a hundred years or more were not upon them. And the little red, bushy-tailed chipmunks frolicked and chattered in the boughs of a venerable willow which clung to life tenaciously, notwithstanding that age had stolen the sap from one-half of its noble old trunk. That willow had a history, and it seemed well aware of its importance.

It was the only tree on Farmer Jones' place that could boast of having been a riding whip in the hands of an American officer during the Revolutionary war.

The riding whip stuck carelessly in the soft earth when the soldier dismounted for refreshment at the tavern—which was this very old farmhouse—put forth, strangely enough, tiny shoots and roots, and grew into strength and beauty, and saw the traces of war and bloodshed disappear, and peace at last where all had been trouble and disquiet.

But we have left Faith too long at the window, and return to find that the dinner-bell has rung and she has gone down stairs.

* * * * *

The summer days sped on, and Faith had grown fond of the little red schoolhouse on the hill, where she taught her sunburnt and tow-headed pupils to love her even while climbing the tiresome hill to knowledge and wisdom.

There were now no words of kindness, no hints thrown out at her by envious hearts and tongues, no tears caused by words and deeds of injustice.

And so Faith grew merry and glad with the joyousness of nature and its sunshine.

With Mrs. Jones' boarders she had little to do beyond the ordinary courtesies of social life. And as she was the only working-bee among a swarm of fluttering young butterflies, it may be imagined that her path and theirs differed considerably during the days of such idleness for them and duties for her.

But one grief had our heroine, and that was indeed the only cloud in her summer sky.

The brother of one of the young ladies in the house with Faith had in every way betrayed his preference for the latter; and, being rich, young, and with a fair share of good looks, it seemed hard that Faith could not welcome his love.

For weeks he had devoted himself to her in every way possible, without venturing beyond respect and courtesy, and Faith was not blind to his devotion nor insensible to his kindness.

But the thoughts of her inmost heart were not what he desired. He knew it by her averted face, her unwillingness to allow him a tete-a-tete with her, and in a hundred ways beside he knew that as yet the one sweet woman in the world for him had not learned the lesson he had learned through her unconscious charms.

But, though she had not "learned the lesson" for or with him, somebody who mowed the fields and merrily whistled over his work, pausing, only to touch his broad-brimmed straw hat when he saw the young school teacher coming up the hill each day, was hoping with all the strength of his honest heart that she would learn it for himself, as long before this it had suddenly come to him. Only one of Deacon Hill's farm hands, there was yet no finer specimen of manhood to be found than young John Grey.

The deacon's house was only a short distance from Mr. Jones', and in going and coming to and from school Faith had to pass the fields where the old deacon and his "boys," as he called them, were at work over the hay.

But it was on an afternoon, soon after Faith had commenced teaching, that an accident happened which introduced the girl and John in a manner utterly unceremonious. She had left the schoolhouse en route for home, when a cross cow appeared before her in the road, and with lowered horns and angry eyes refused to allow her to pass.

Terrified beyond measure, Faith involuntarily screamed, and John Grey, alone in the field near by, sprang into the road to assist her. The cowardly cow started off at a run, but Faith thanked the young fellow with her gray sweet eyes, as well as her lips, and when they parted at the foot of the hill they felt well acquainted and each was conscious of a newly-learned pleasure, not exactly to be described but simply felt.

And ever since, when Faith had passed him, there had been a friendly smile and nod, and little by little John had grown to watch for the dainty figure which never failed, rain or shine, to pass the fence where he was at work, on its way to the building near by.

In some way, Faith had made the acquaintance of the deacon and his wife, and had finally learned the habit of spending an hour with the kind old lady after school hours, and frequently she remained to tea, and it always happened that John was the one detailed to escort the young lady home.

The degree of respect and affection bestowed upon that young man was plainly perceived by Faith, and after she grew to know him better, she did not wonder at it.

Intelligent and gentlemanly in conversation and manner, and winning in every way, what wonder that his kindness and evident liking for Faith's society was pleasant to her heart, so long starved and lonely in its longing for friendship. And that by-and-by they became best of friends was no surprising.

"Lor!" the deacon's good wife would exclaim when she used to see Faith tripping by the fields, and noticed the alacrity with which John Grey and some of the other "boys" would touch their hats to her—"Lor!" now, deacon, wouldn't it be the funniest thing if them two young critters should take a fancy to each other. She doesn't even dream, now, does she, of—"

Here the deacon invariably interrupted his wife with—"Not a word more, Jerushy. 'The gift of gab will be death of things yet."

And the old lady always subsided after that speech, which, to be sure, she had heard so often, it was a wonder she ever forgot it.

Meanwhile, without knowing the state of her own little warm heart so far as John Grey was concerned, Faith yet knew it well enough to be sure that, notwithstanding she had a sincere liking and respect for the young man who was ready at any time to lay his heart and wealth at her feet—this brother of the only intimate friend she possessed amongst the boarders under Mrs. Jones' roof—she could not and never could love him, and therefore his attentions hurt and grieved her beyond measure.

And so it happened that one day—one sweet day, when all the earth was jubilant and glad in sunshine, as Faith stood leaning upon the gate, weary with her walk from school, and pausing a few minutes under the shade of the grand old elms growing like sentinels beside the gate, she had to put her thoughts of the young man into kind but honest words, and tell him, when he found her there and whispered his love for her, that, although his friend, he could never be her lover. And when he left her she knew she would see him no more.

As the August days drew near the end of the month many boarders took flight, and the old farmhouse was nearly empty.

"Shall you be home to tea to-night, Miss Faith?" asked Mrs. Jones one morning, as Faith was starting for school. "'Cause I'm going' to have that there shortcake you like so well. Thought I'd tell ye, for like as not you'd stop to Deacon Hill's; you've sorter took a notion to the old lady lately, haven't ye?"

Faith laughed.

"Why, yes, Mrs. Jones, she's as kind to me—almost as kind as you are, and she seems so lonely, now that the deacon is away, that I promised I'd take tea with her this afternoon. But can't I have a piece of shortcake on my return, please?"

"Bless your pretty face!" replied Mrs. Jones—"a dozen if you like." And as Faith started up the road the good woman thought to herself that "'t'ud be strange if some of the boys up to the deacon's didn't take a hankerin' after that gal, with her takin' ways and such!"

So Faith took tea with Mrs. Hill, and the evening passed away pleasantly until the full September moon at last reminded the girl that her early bedtime was near, and Mrs. Jones would want to be "shutting up." And presently she and John Grey were walking down the hill in the moonlight together.

Faith was talking of the dear old lady who was more like a mother to her than even her own aunt had been, and spoke gratefully of the kindness she had met with since leaving home.

The sweet voice grew sweeter as it took a tone of sadness (for Faith's heart was yearning for some news from her uncle, and no letter had come to her for weeks), and John saw that tears were sparkling like diamonds in her eyes and on the lashes as she spoke. He felt that he could no longer contain himself, or hold back the words which lately had burned upon his tongue. That Faith held him in high regard he could not doubt. And he could not but hope that a warmer feeling was hiding there in that dear heart of hers, if only he could have a chance to search for it through the brown eyes which were dearer than any eyes in the world to him. And at last he laid his hand on her arm and asked her to wait one little moment while he asked her a question.

"I am going away next week, Miss Faith," he said, "and it would be a comfort to me if I knew I had a right to carry your friendship with me. Please tell me if I am worthy to offer you mine."

Faith felt her heart beat quickly. She looked at the tall, manly young fellow who stood before her, with his blue, honest eyes looking straight into her own. She looked at the coarse straw hat on his well-formed, fair-haired head, and did not fail also to notice how coarse the suit of clothes he wore, but they were neat and clean and whole, and she knew despite his poverty, his hard life of honest toil in sun, wind and rain, John Grey was every inch a man, and as such worthy of the friendship he asked of her. Oh, what a dull feeling her heart already acknowledged in the simple anticipation of his going away!

Yes, indeed! he was welcome to her warmest, truest friendship, and she answered his question frankly as she looked up at him.

"And I am glad of your friendship, also, John," she added, simply.

John drew nearer, and he held out his hand.

"Faith, look at me. Do you not guess, do you not see that it is more than mere friendship I am giving you? Oh, Faith, Faith, your name has laid deep in my heart for so long that at length it has become part of my nature, and I have failed to think that my love has not been unnoticed by you, dear, and that perhaps in time you may let me have a right to lay that dear head of yours just where your name has engraven itself. Faith, don't turn away! Tell me if I am right in trusting and hoping?"

Faith answered, and ere she had quite finished her reply a pair of strong arms had clasped her closely to a strong heart and the words were smothered on her lips.

"One thing more, darling," said John, after a moment's silence—a sudden fear entering his heart—"tell me if you love me just for myself alone?" And he looked at her wonderingly.

"Why, John, dear, what is there but yourself to love?"

"True enough, darling, but I was only afraid lest, because you had been so sad and lonely since your mother died, you might imagine you love me, when, after all, you are only being very kind to a poor chap like me."

"Well, dear," replied Faith, half ready to cry or laugh, she didn't know which, "do you know I don't really believe I knew I loved you until you told me you were going away, and then my heart felt suddenly cold and sick, so I must have been loving you a long time without guessing it."

"Bless that old cross cow, I say!" laughed John, as with his arm about Faith's waist, the two walked on again, all the happier for the short rest by the roadside.

"And you don't care a bit for my being poor, and only a farm hand, little Grey Eyes?" John asked, when he was leaving her at the farmhouse porch, and saying good-night in true lover style.

"Not a bit!" was the smiling reply.

"And was it true, Faith, that a rich fellow boarding here fell in love with you and offered himself?"

"Who told you that, sir?" asked Faith, trying to look stern.

"Oh, a little bird in the shape of Mrs. Jones told Mrs. Hill one day that she guessed it would be a match, etc. I happened accidentally to hear it; but I heard later that he had cleared out. Why didn't you marry him, Faithie?"

"No matter, sir; don't ask impertinent questions! Oh, John, I couldn't love him!"

So John went away satisfied, and Faith went to bed and dreamed of cows and John all night.

* * * * *

"Lor', dear child! I s'posed you knowed it, since you an' he's been engaged! Well, now, I'm beat! To think you hain't found it out yet. Land alive! the deacon jist told me I had the gift er gab! He'll [illegible] about kill me, he an' John together! You see his health give out when he came from furrin parts, and the doctor ordered him to work on a farm, and have plenty of outdoor life. And a friend of the deacon's he sent him up here, and the boy made us promise not to betray his secret, 'cause he didn't keer about being joked about it, arter he went back to the city, by a parcel of his stylish friends, you know. So me and the deacon kep still as mice! But Lor'! he ain't no more a farm hand than you be. He is all well agin now, and me and the deacon's rale sorry to part with him. He'll be back to-night, and I don't know what he'll do 'bout my telling you."

* * * * *

"Faithie, I've something to tell you. Come out under the trees."

It was John Grey who spoke, and Faith looked up from her desk, where she was busily setting copies for the morrow's work, to see her lover's head poked in through the small window at the other end of the room.

The scholars were all gone, and Faith gave the owner of the head permission to enter in at the other door.

"Tell me here," she replied. "But I know all the time, sir, what you have to tell me. John, I'm ashamed of you! I didn't think there was any deceit about your nature, and, after what I learned this morning, I'm astonished!"

The gray eyes were scarcely as stern in expression as the severe words warranted, and John stooped for a kiss, but the girl put him away.

"Excuse me, sir. I engaged myself to one of Deacon Hill's farm hands, not to you, a gentleman of elegant leisure! Really, I hardly know you in this grand suit of broadcloth! I feel quite ashamed of myself with only this humble dress on—the regular 'schoolmarm' dress, you see!"

John laughed, and, without further parley, coolly lifted the dainty figure from its throne of state, and bore it out under the elm trees.

There he made ample apology for his fault, owning to the fact that he had at the last restrained from confessing his true social position because he wanted to discover if there might be anything about him—outside of his wealth—worth the love of a girl like Faith.

"But now I have the proud satisfaction of knowing that my darling does really love me for myself; and we will just take things into our own hands, dear, and be married soon. Will we not?"

"But, John——" began Faith, blushing at his haste.

But John interrupted her.

"There's just one more thing, Faithie, that you must forgive me for; you are mistaken about my name. It isn't John Grey any longer, but Howard Blake, if you please."

Faith's astonishment was something too great to admit of description here; but yet it did not equal the amazement of Uncle Dick and his family when a joint letter from the lovers reached them soon after.

"Just like her!" exclaimed Anna. "It is simply disgusting!"

"Pshaw! Just Faith's luck! If Howard Blake had kept his promise to papa and come here this nonsense would not have happened."

But when in the sweet, mild October weather, Faith and her husband started for Europe, the young wife put out of her heart for ever all the old cares and sorrows; for, though she had sown in tears, she had reaped in joy and gladness, and verily her harvest-time was rich in fruition.

RULES FOR THE JOURNEY OF LIFE.

1. Never ridicule sacred things, or what others may esteem as sacred things, however absurd they may appear to be to you.
2. Never resent a supposed injury till you know the views and motives of the author of it.
3. Always take the part of an absent person who is censured in company, so far as the truth and propriety will allow you to.
4. Never think worse of another on account of his differing on political and religious subjects.
5. Never dispute with a man who is more than seventy years of age, nor with an enthusiast.
6. Do not jest so as to wound the feelings of another.
7. Say as little as possible of yourself, and of those who are near and dear to you.
8. Never court the favors of the rich by flattering either their vanities or their vices.
9. Speak with calmness and deliberation, especially in circumstances which tend to irritate.
10. Always speak the truth.

The Constitutionalist.

DEMOCRACY.

The Jefferson Democratic Association, of York, Pennsylvania, preambles its Constitution as follows:

"Our purpose shall be
The preservation of the Constitution of the United States.
The autonomy of the States.
Home rule.
Freedom of elections.
And resistance to
Revolutionary changes tending to consolidation or empire.
To the election of any person to the Presidency a third time.
To the presence of regular troops at the polls.
To any appropriation of public money for any purpose but the support of Government.
To commercial restrictions for the benefit of the few at the cost of the many.
To class legislation which destroys the natural freedom of trade and despoils labor to build up monopoly."

The foregoing graphically portrays the principles of the Democratic party, whose sole object remains to be the honor of a free country and the genuine good of all the people.

COMMERCIAL.

Senator Blaine has introduced a bill to ostensibly revive American Commerce by the paying of subsidies, which would unquestionably put millions into the pockets of a favored few, but leave the rich legacy of ocean freighting, as now, in the hands of foreigners.

Subsidies are not the remedy, but freedom is the thing needed to again unfurl the American flag on every sea, and retain as American wealth the one hundred million of dollars annually paid to vessels of other nations for transporting American products.

Senator Beck, in opposition to Senator Blaine, advocates free ships, and bases his argument on the following six suggestions made by an enlightened and practical merchant of New York, viz:

"1—The repeal of the navigation laws so as to enable the American ship-owner to buy his vessels abroad and obtain for them American registers.

2—The repeal of the duties on all articles of every kind and nature whatever which are used in ship building.

3—Abolition of taxation on American vessels by either the general or local government.

4—Permission for American vessels engaged in foreign trade to take their stores out of bond duty free.

5—A revision of our consular system so as to bring the fees imposed on vessels in foreign ports on a parity with those of England.

6—Changes and modifications in the laws relating to seamen."

The importance of reviving our commercial prosperity is clearly exhibited in the following startling facts:

In 1860 the United States owned 2,379,396 tons of shipping engaged in foreign trade.

That year the foreign commerce of the country amounted to $657,192,000.

In 1880 American vessels in foreign trade aggregated 1,314,402 tons.

And foreign commerce footed up $1,503,593,300.

Which shows that during those twenty years the value of our merchandise carried on the ocean *increased* 125 *per cent*, and that the tonnage of our merchant marine *decreased* 45 *per cent*.

In 1856 American tonnage entered at the seaports of the United States was 71 *per cent* of the whole entries.

In 1880 it was only 21 *per cent*.

There is no question of more vital moment to national welfare than the practical and permanent reestablishment of ocean commerce under the supremacy of the stars and stripes.

Subsidizing is hot-house cultivation—freedom the sturdy growth that fears no blast.

THE BOSTON COMMUNE.

The Republican papers of Boston have been denouncing Governor Plaisted, of Maine, as a wicked incendiary communist, because in his inaugural address he made use of the following words:

> "Universal suffrage and great landed estates cannot long exist together, for either the owners of the estate must restrict the right of suffrage, or that right of suffrage will in the end divide their estates."

A terrible bad man was Plaisted for uttering such infamous doctrine.

What means the change?

Of a sudden the Republican organs became as dumb as oysters.

It appears Governor Plaisted only echoed Daniel Webster, the great idol of Massachusetts, who in a speech delivered many years ago spoke thus:—

> "The freest government, if it could exist, would not be long acceptable if the tendency of the laws were to create a rapid accumulation of property in few hands, and to render the great mass of the population dependent and penniless. In such a case the popular power would be likely to break in upon the rights of property, or else the influence of property to limit and control the exercise of popular power. Universal suffrage, for example, could not long exist in a community where there was great inequality of property. The holders of estates would be obliged, in such case, in some way to restrain the right of suffrage, or else such right of suffrage would before long divide the property."

If Plaisted is a communist, so was Webster.

Boston is quiet. Order sadly reigns. Webster is dead.

Plaisted is his disciple.

IRELAND.

When Palmerston was at the head of affairs in England, and agitation, as now, existed in Ireland, an astute Englishman proposed, as a sovereign peace panacea, the payment of a bounty to every Irishman that took to himself a Scotch or English wife, and a dower to every daughter of the Emerald Isle who wedded a Scotch or English husband.

The experiment was not tried, possibly, for fear of draining the British Exchequer.

A wise Briton now comes forward with the novel idea of transforming Ireland from an island into a peninsula, by constructing across the narrowest distance between the Scotch and Irish coasts, about nineteen miles, an artificial isthmus, thereby, as he argues, creating a more homogeneous people.

It is folly for Johnny Bull to rack his brain inventing artificial remedies to remove Irish discontent. The malady is severe, but would quickly yield to proper treatment.

Home Rule is the certain cure.

Allow the people of Ireland to govern themselves in all matters appertaining to the well being of Ireland.

That would bring peace and prosperity, and lull the fierce storm of commotion into the calmness of content.

THE POPULAR VOTE FOR PRESIDENT IN 1880.

[Baltimore *Sun* (Ind.), Jan. 28.]

Careful revision of the returns from all the States, obtained by correspondence with the best sources of information, enables us to lay before the readers of the *Sun* a correct table of the popular vote of the United States for President in November, 1880. The total vote of the country was 9,200,794, divided as follows:

James A. Garfield, Republican	[illegible]
Winfield S. Hancock, Democrat	[illegible]
James B. Weaver, Greenback	[illegible]
Neal Dow, Prohibition	9,644
Scattering	[illegible]
	9,200,794
Hancock's major'y over Garfield	[illegible]

The total vote polled for President in 1876 by the same States as in 1880 was 8,411,136, and the increase is 789,658.

DESERVED COMPLIMENT.

The New York *Times* thus remarks on the retirement of ex-Governor Randolph as U. S. Senator, in its issue of Jan. 31st:

> The retirement of Theodore F. Randolph, of New Jersey, leaves a vacancy which is to be filled by the election of Gen. Sewell, a Republican lawyer of ability, who it is hoped will not permit his large railroad connections to influence his action as a legislator. Senator Randolph may be commented upon as one of the handsomest and most affable gentlemen in the present Congress. He has always been an avowed partisan, but at the same time he has been an outspoken and honorable one. He cannot be accused of having professed to be what he was not. A large circle of personal friends will miss him from the seat he has so long occupied.

ELIOT'S MURDERER ACQUITTED.

OWENTON, KY., Jan. 30.—The jury in the trial of Colonel Buford for the murder of Judge Eliot at Frankfort, over a year ago, returned a verdict late last night of not guilty, on the ground of insanity. The jury had been out five hours. Their verdict is severely criticised.

A PASTOR'S IMPRUDENCE.

KINGSTON, N. Y., Feb. 1.—The Rev. B. C. Miller, the Reformed Church Pastor at Roxbury, Delaware County, recently threw that little village in a whirl of excitement by kissing the wife of David Williams, with whom he boarded, in the church parsonage, and admitting it publicly, has since resigned his pastoral charge there, and his resignation was gladly accepted by his people. Mrs. Williams, who is the object of the Pastor's brotherly attention, is a member of the Roxbury Baptist Church. She is young, prepossessing, and sprightly. Mr. Williams, her husband, is a meek, liberal-minded man, who places implicit trust in the honor of both parties, believing, as he avers, that the Pastor was prompted by holy and brotherly motives entirely. He therefore sees no occasion for any alarm, and the domestic relations at the parsonage continue very much as before. Mr. Miller is also young and handsome, and talks very freely about the little incident to reporters and others. There seems to be nothing about the affair he desires to take back, unless it be the kiss itself, which many believe he would not hesitate to do. His resignation is offered not because he thinks he has done wrong, but because his people think so. The people of the village condemn the preacher in unmeasured terms, and there is still much excitement over the matter.

There are 550,802 names on the United States pension list.

The rate of taxation in Philadelphia is about 2 per cent.

The British Museum has 1,000,000 volumes in its library.

The distance between New York and San Francisco is 3,997 miles.

The colored population of South Carolina is 61 per cent of the whole.

Hon. Thomas C. Platt, the next U. S. Senator from N. Y., is a brother of Wm. H. Platt, of Metuchen.

The Supreme Court of the United States has affirmed the constitutionality of the income-tax.

The foreign born population of Massachusetts increases six per cent faster than the native.

The annual production of eggs and poultry in France is valued at twenty million dollars.

Michigan made 2,700,000 barrels of salt in 1880. That is amply sufficient to save her bacon.

Dakota shows a population of 150,000. She is likely to be the next star added to the glorious constellation of Union.

Germany has 11,867 breweries. Which fact is respectfully referred to the Plainfield Common Council, or half of it, for consideration.

The Viceroy of Ireland receives one hundred thousand dollars a year salary and allowances. Home Rule would make a vast saving on that.

California produces about $8,000,000 pounds of wool per annum. A great realm is California, and it was the Democratic party that made it American.

British Rail Roads are managed by 224 distinct companies, and the aggregate capital invested is much more than the public debt of the United States.

Report credits Florida with four hundred churches. If that be true, oranges and piety must be congenial. We hope the churches are as full of worshipers as the groves are of golden fruit.

Tennessee has done well in electing Howell E. Jackson to the United States Senate. He is a staunch Democrat, as might be expected from the fact of his being a grand nephew of Old Hickory.

The end of the world has been postponed to 1897, when, astronomers say, the earth and a comet are to pass each other on the same track. Which, doubtless, has occurred before more than once.

The Chinese flags of to-day are essentially the same in design as they were when Homer sang. A Chinaman has the sure right to boast of national antiquity, even though modern Solons call him a heathen.

Three-fourths of the vessels that pass through the Suez Canal carry the English flag. Scarcely an American merchantman is seen entering the Canal. A sad commentary on the decline of our commercial fame.

Another Republican Postmaster has been found with short accounts. This time it is Wells Tyler, postmaster at Palmyra, N. Y., who fails to account for several hundred dollars of government funds.

The reduction of the public debt for the month of January was $7,382,168, and for the seven months ending Feb. 1st, 1881, $50,172,727.

The 320,807 immigrants who were landed at Castle Garden last year brought with them 276,259 pieces of baggage and the duties collected thereon aggregated $10,569.95.

A party of between one and two hundred Chicago lawyers, merchants, gamblers and shoulder-hitters went out to Crystal Lake to witness a chicken fight. No disgrace attached to the feathered gladiators. That was monopolized by the audience.

William F. Dalrymple, of the famous grain farm in Dakota, says that the clear profit for 1880 was over $250,000. He raised more than a half-million bushels of wheat on 24,000 acres, and sold it in Buffalo at a profit of fifty cents per bushel.

A gas company in Cleveland reduced the price of gas to $1.80 per thousand feet, and finding that the plan resulted so well, in increased consumption, they made a still further reduction to $1.65. Possibly a similar experiment might result as well here.

The Committee on Ways and Means of the House of Representatives will probably report in favor of abolishing certain stamp taxes, including those on matches and bank checks. It is to be hoped that Congress will have sense enough to make the recommendation a law.

An Austrian inventor has designed an apparatus for preventing a runaway accident by instantly detaching the horse from the carriage. It should be at once introduced into Plainfield, where there are more runaways, it is said, than in any other place of its size on the face of the earth.

The Republicans in the House of Representatives at Washington are throwing every possible obstruction in the way of the Democratic resolution to provide for a proper Electoral Count. What are they fearful of? Nobody harbors the least design against the formal declaration of Mr. Garfield's election.

The great six days' walking-match at the American Institute, New-York, ended on Saturday night last. Thirty contestants entered the race, but only six kept the track until Saturday evening. At the close the score stood, Hughes, 568 miles, Albert, 558 miles, Vint, 550 miles, Krohne, 530 miles, Howard, 515 miles, Campana, 425 miles.

The Hunterdon *Democrat* makes the following timely suggestion: "The time for holding the annual township elections is rapidly drawing near, and it behooves the people to be looking around for proper persons to fill the various offices that then become vacant. The election is on the second Tuesday of March, which falls this year on the 8th."

The citizens of Perth Amboy at a special election have decided by a majority of 240 to have water introduced into that ancient city. The first attempt to secure this result was made 35 years ago, and repeated efforts to carry out the project have since then been attempted and defeated until as late as last Spring. The promoters and friends of the enterprise are jubilant over the result of the election.

The friends of temperance are not going to have things all their own way at Trenton this Winter. The Liquor League, a rich and powerful organization, has secured a suite of rooms for the accommodation of the members of the League during the session of the legislature. The Liquor League has its membership in all parts of the State, and backs its operations against local option or prohibition in any shape, by large expenditures of money.

The Elizabeth *Herald* says that "among those mentioned for the office of Sheriff are Freeholder Forsyth, ex-Chief Keron and ex-Freeholder Halliday on the Democratic side, and on the Republican side, Hon. George W. Stiles, Deputy Sheriff C. A. Ryder and ex-Assemblyman Luffbery." As Messrs. Forsyth and Keron are both residents of Elizabeth, and considering that the Democratic candidate the last time came from that city, it would seem that ex-Freeholder Samuel Halliday, of this city, should stand No. 1 on the list.—*Rahway Democrat.*

The Camden *Courier* says Governor Ludlow's policy is to geographically locate the State offices, giving one to North Jersey from Sussex, another to East Jersey from Middlesex, another to West Jersey from Mercer and the other to South Jersey from Cumberland. If these surmises are correct the "slate" will be as follows:

Secretary of State—H. C. Kelsey, of Sussex, re-appointed.

Prison Keeper—Charles Campbell, of Middlesex.

Clerk of Chancery Court—G. D. W. Vroom, of Mercer.

Clerk of Supreme Court—Benj. F. Lee, of Cumberland, re-appointment.

The Beverly *Banner* says that a lady of that town while riding in a street car a few days ago, was attracted by a magnificent diamond ring on the finger of a well-dressed and gentlemanly looking passenger along side of her. On reaching her destination she left the car and after making some purchases, put her hand in her pocket to get her porte monnaie, but it had disappeared; in its place she found something else, which upon examination proved to be the same diamond ring that had dazzled her eyes on the finger of the occupant of the car. A competent jeweler pronounced it worth $600. The pocket-book contained but very little and was a poor compensation to the thief for the loss of his ring.

New Jersey sent to the late war the following number of men: Of four years standing, 115; three years, 43,573; two years, 2,153; one year, 16,812; nine months, 10,877; three months, 3,105, and ten days, 700; the number of men furnished and not classified, 2,973, and men furnished but who went into regiments of other States, 8,937, making a total of all the Union soldiers sent to the war by New Jersey of 88,305. To the boast and glory of New Jersey be it said that no other State in the Union, according to the number of its population and extent of its territory, sent more soldiers to the war. The number of men called for by Uncle Sam was 78,247, and New Jersey sent 10,057 more men than was demanded of her. Two hundred and eighteen officers and 6,082 enlisted soldiers of this State died in the service, making in all 6,300 who were killed or died for the Union. And all this from Democratic Jersey, which the Republicans are pleased to dupe, sneeringly, with the "Solid South."

Resolutions of Condolence.

The Sunday School Normal Class, at a meeting held Saturday evening, Jan. 29th, in the Second Presbyterian church, Elizabeth, passed the following resolutions:

WHEREAS, We have learned with deep sorrow of the sad affliction that has befallen so heavily upon the home and heart of our beloved leader, Rev. J. L. Hurlbut; therefore

Resolved, That we tender to him and to his family our heartfelt sympathy in this hour of their sore bereavement, while we together pray that the dear Lord may impart to him and to them richly of His grace, supporting them by the consolations of His word in this time of severe trial.

Resolved, That we hereby testify to the helpfulness of his genial presence and earnest works.

Resolved, That he has endeared himself very much to the members of this class and we feel that this blow which has fallen on him has touched our hearts also, and calls for this expression of our sympathy.

At a regular meeting of Warren Eng. Co. No. 2, held last Wednesday evening, the following resolutions were adopted. Mr. Charles Smith son of the deceased, was appointed Treasurer in his place. Expressions of thanks were also made to the other fire companies who attended the funeral.

WHEREAS, In view of the loss we have sustained by the decease of our friend and associate August Smith, and of the still heavier loss sustained by those who were nearest and dearest to him; therefore be it

Resolved, That it is but a just tribute to the memory of the departed to say that, regretting his removal from our midst, we mourn for one who was in every way worthy of our respect and love.

Resolved, That we sincerely condole with the family of the deceased, on the dispensation with which it has pleased Divine Providence to afflict them, and commend them for consolation to Him who doeth all things well and whose chastisements are meant in mercy.

Resolved further, that the foregoing be appropriately engrossed and presented to the bereaved family.

Resolved, That a copy of these proceedings be published in each of the newspapers of this city.

Plainfield, Feb. 2, 1881.

The World's Fair of 1883.

The Congress of the United States has enacted that the Centennial Anniversary of the treaty of Peace and the Recognition of American Independence shall be celebrated by an International Exhibition of the Arts, Manufactures and Products of the Soil and Mine, to be held in the city of New York in 1883, and has appointed a Commission, consisting of representatives from each State and Territory, to supervise the celebration under the auspices of the laws of the U. S.

These representatives have formed themselves into a permanent organization by the appointment of the necessary committees and the election of Gen. U. S. Grant as its President. The financial affairs are in the hands of able and influential men, and subscriptions to the capital stock are progressing with satisfactory results.

The site selected extends from Dyckman street to 219th street, and lies between Sherman avenue and Harlem river. It contains about 250 acres, which are level or gently undulating. It is already served with gas and with Croton water, can be easily and effectually drained and is regarded as most accessible by railroad and river transportation. It can be reached by steam, elevated and surface roads, and also by steam-boats on the Hudson and Harlem rivers.

To make this centennial celebration such a success as the patriotism and pride of every American demands, will require the enthusiastic co-operation of the people of the whole country. It is estimated that twelve millions of dollars will be required, and Congress has provided that this sum shall be raised by stock subscription divided into shares of ten dollars each. As each State will receive its share of the benefits of this exhibition, the Commission appeals with greater confidence to all the people, relying upon them for such a display of zeal, patriotism and liberality as will enable the Commission to make this the grandest International Exhibition in the history of the world.

Concerning Municipal Authority.

There are two bills in the hands of Legislative Committees of this State, which are of vital importance to cities, and which will undoubtedly be a "bone of contention" in the Legislature before the session is over. We refer to the general bills providing for the government of cities, towns and counties. One is the bill formulated after much labor by a Legislative Committee appointed two or three years ago, and the other is one embodying parts of the general bill, with several amendments that materially change it in form and substance. The main features of difference between the two bills concern the location of the chief municipal authority, and the system for the enforcement of the collection of the local taxes. The first bill makes the Mayor of the city the responsible head of the City Government. In him resides the power of appointing the several heads of the executive departments; even the Board of Education in the cities is of his creation. The amended bill divides the responsibility for appointments between the Mayor and the Common Council, and among other things makes the Board of Education an elective body. The general bill enacts a stringent system for the collection of taxes. It empowers one acquiring property by tax purchase to enter into possession, and after the lapse of time makes a transfer in fee of the property sold. It prevents the cities, too, from running more deeply into debt than they are, by requiring that any deficiency in the collections under the current year's tax levy shall be included in the tax levy of the succeeding year. The amended bill eliminates these wholesome provisions, and in their stead substitutes the Newark system of funding the tax arrearages. On account of taxes due for three years, short bonds can be issued, and the money collected on account of the arrearages is sacredly reserved for the redemption of the bonds so issued. It is probable that the original bill will finally be sent into the Senate for action, with the popular suffrage amendment referred to.

SPORTSMEN'S CORNER.

There will be a meeting of the Board of Directors of the New Jersey Game and Fish Protective Society, held at the Mansion House, Plainfield, N. J., Wednesday evening, Feb. 9th, at 8 o'clock. Business of importance.

Capt. Bogardus has accepted Dr. Carver's challenge to shoot a hundred pigeons each for £500 a side. The match will probably take place early in May.

Farmers report that numbers of quail have perished from cold and scarcity of food.

A skater at New Brunswick thought he saw a seal raise his head from an air-hole in the river one day last week.

A match has been made between the owners of the celebrated trotters "Poralite," owned by Mr. John Stearns, of Elizabeth, and "Alice," owned by Mr. Carles, of Orange, President of the Gentlemen's Driving Association, of Waverly, to trot against each other some time next Spring for $1,000 a side, forfeit money being deposited.

Fish Commissioner Anderson has just received through the United States Fish Commission at Washington, 20,000 land-locked eggs. They were from the Schoodic salmon breeding establishment at Grand Lake Stream, Maine. They were placed at once in the hatching house at [illegible], and the young fish, when [illegible], will be placed in the [illegible] of the northern part of [illegible].

OUR TRENTON LETTER.

(From our Trenton Correspondent.)

TRENTON, Feb. 1st, 1881.

Since your account of the business of the Legislature published in last week's paper, the following has been transacted: The Senate adjourned last Wednesday; the House continued in session until Thursday; very little was done on Wednesday afternoon except committees considering bills before them. The Senatorial excitement, which has not only almost blocked the wheels of the Legislature, but has nearly turned the heads of some of the disappointed friends of the defeated candidates, has now about subsided—both Houses are getting down to business. It is said that the Senator from Morris who was an ardent advocate of the Hon. (?) ex-Secretary of Navy, Mr. Secor Robeson, together with his friends were very sanguine of success in their disappointment; they now give expression of their displeasure in various ways by assailing in the press the successful candidate, and also by introducing a concurrent resolution attacking Senator Kelsey, Secretary of State, charging him with taking fees for preparing the laws for publication in the papers in excess of what the law gave him, amounting, as claimed, to some $32,309 in the last five years, and directing the Attorney-General to proceed in the name of the State to recover by legal proceedings. The facts are that in April, 1878, after Secretary Kelsey had been appointed, the Legislature passed an act giving him $1,000 per year for the service. The question was raised at the time Barker Gummere, a Republican lawyer of high reputation and other eminent lawyers, examined the question and decided that Mr. Kelsey was justified in taking and receiving for his services whatever the law gave at the time he was appointed, and it is considered that the Senate now is in a very small business to attack an officer in this manner. If he has taken illegal fees he is liable to indictment by the Grand Jury, or impeachment. No one supposes for a moment that they expect by this resolution to collect one cent from him but that is merely for buncombe.

The Governor now has numerous friends, each of whom can satisfy him beyond a doubt, that he individually by his own effort elected him Governor, and therefore should immediately be made Clerk in Chancery, Secretary of State or State Prison keeper; many candidates are mentioned for each one, except for Secretary of State. It is generally supposed Mr. Kelsey will be reappointed.

Hon. Chas. Campbell of Middlesex and ex-Sheriff Laverty of Hudson, are the prominent ones for keeper of State Prison and G. W. D. Vroom of Mercer for Clerk in Chancery.

The reapportionment of the members of Assembly, under the late census, gives the Republicans great trouble. The population of the State divided by 60, the number of members fixes the basis. It is settled that the following changes will take place: Burlington, Gloucester, Salem and Somerset, each lose one, Hudson gains 2, Essex 1, Passaic 1. The difficulty is that the Democrats will gain 2, if not 3; let them do the best they can; yet it must be done, this disagreeable duty. They have re-districted the State heretofore so outrageously to make Republican Districts, that they now can't improve upon it.

Legislation since your last issue:

In Assembly, bills introduced of interest to your readers—are to prevent Doctors practicing without diploma, genuine; to prohibit Constables from arresting tramps, where there is Police, a General Local option bill, prevent collusion between tramps and officers; to erect a monument to Soldiers in front of the State House; to allow Savings Banks to invest 80 instead of 70 per cent. in Bonds and Mortgages; Supplement to Plainfield Fire Department; several acts in regard to Game Laws; to regulate sale of food in the cattle yards. The House passed bill, Woodcock can be killed in July, and from Oct. 15 to Dec. 15, only; Pheasants only from Oct. 15 to Dec. 15. Bill in relation to Rabbits and Quail was defeated.

No important bills have been passed.

The tax question is being agitated. The Bridge bill is now being argued before the Committee by ex-Judge Bedle and others in Jersey City. Large delegation is here from there.

TRENTON, Feb. 2, 1881.

The Senate has adjourned until Monday. The House adjourned at 4 o'clock until to-morrow morning. The Jersey City Bridge Bill is again being heard by the committee on Municipal Corporations in the Assembly rooms, and the House is nearly full; there seems to be the usual excitement over the matter. The people of Jersey City say that they are determined to have this improvement. It is opposed by the Sugar House Company and the Lehigh Valley R. R. Co. who is the lessee of the Morris Canal Company. Attorney General Gilchrist, Thomas McCarter, Jno. W. Tayler are to be heard next Tuesday afternoon and evening, which is supposed to be the final hearing before the committee. It will then come before the House. Mr. Kelsey was before the Committee to-day who has under consideration the Bloodgood resolution. Mr. B. was present. Mr. Kelsey stated that the whole matter had been fully examined into by Committees of the House and Senate, and he had been fully and entirely exonerated; he feared nothing from this resolution; he had understood that it had been made a Caucus measure and must go through. I have been told that in caucus Mr. Bloodgood was severely set down upon.

The only Bills of importance passed to-day are a Senate Bill permitting a wife to testify in a murder case for or against her husband. The General Bill for Counties. In the House a Bill to prevent cattle from running at large. A Tax Bill not allowing any deduction for debts from real estate, has occupied the House all the afternoon; the Essex and five County people wish to get, it passed before the General Tax Bill comes up. There has been no appointments by the Governor yet, so the Candidates are as yet all his dear friends. P.

The Pennsylvania Railroad Company has recently contracted for the longest wooden pier in America, to be built at Harsimus Cove, the freight terminus in Jersey City, for the shipment and delivery of ocean and railroad freight and especially grain. The original plan was for a pier 500 feet long, which has been increased to the extraordinary length of 1,380 feet, with a width of 75 feet, making the largest pier in the country. The contract requires that it shall be built in one hundred working days, ending in the middle of March next. Its extent may be further judged of from the fact that 5,800 piles are used in the construction, gathered from New York State and floated down the Hudson River or brought from the East. The cost of this great wooden pier will be $150,000.

IN CHANCERY OF NEW JERSEY.
To William Harmon Brown and Sarah J. Lewis:
By virtue of an order of the Court of Chancery of New Jersey made on the day of the date hereof, in a cause wherein William C. Stanbury is complainant and you and others are defendants, you are required to appear and plead, answer or demur to the bill of said complainant on or before the Twenty-eighth day of March next, or the said bill will be taken as confessed against you. The said bill is filed to foreclose a mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbury, on lands in the city of Plainfield, in Union County, N. J. dated July 13, A. D., 1872. And also to foreclose a certain other mortgage given as collateral to the first described mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbury, on certain lands in the city of Plainfield, in the County and State aforesaid dated July 13, A. D., 1872.
And you, William Harmon Brown are made defendant, because you hold a mortgage on the lands described in the mortgage first above described.
And you Sarah J. Lewis are made defendant because you hold a mortgage on the lands described in said collateral mortgage.

A FOUR-horse load of merry Plainfielders came to grief one night recently. Turning a corner too shortly upset the sleigh, and the belles and beaux were strewn promiscuously on the "Beautiful Snow." The body left the runners, falling with some weight on a young lady's arm and severely bruising it; but otherwise no lamentable damage was done.

IN response to the demands of the coming season, Mr. L. E. Barkalew, of 36 Grove street is manufacturing a chest for holding furs and such winter apparel as will soon be laid away. What makes these receptacles particularly desirable is their complete protection from moths. By means of their thorough air-tight construction, and the use of a lining that will repel insects, nothing hurtful to the goods can find entrance. Orders by mail, Box 13, will receive prompt attention.

THE broken and twisted parts of a connecting rod of a locomotive engine, attracted attention and comment at the depot Monday morning last. The following was elicited regarding the matter: As the fast Baltimore and Ohio train from New York was approaching Dunellen about eight o'clock Saturday evening last, a connecting rod of the engine suddenly broke, and before the engineer could stop the train, considerable damage was done to the cab and boiler of the locomotive. Fortunately the engineer and firemen were not injured. Engine No. 147, of the Central rolling stock, was attached to the train and finished the run, being but about a half hour behind time upon arrival at its point of destination.

WHEN some fast gliding sleigh, without warning bells attached to its horses, runs over and seriously damages some pedestrian, then the Ordinance against the driving of such vehicles without bells will be enforced. Possibly!

A PUBLIC meeting, under the auspices of the Plainfield Land League, will be held at St. Mary's Hall, on Thursday evening the 17th inst. It will be addressed by Mrs. Parnell (mother of Chas. Stewart Parnell), Miss Ford, Mr. Henry George and others.

OUR ice merchants have finished their labors of securing the finest crop of ice gathered in years. Messrs. Simpson & Co. have cut three crops from their lake at Washingtonville, and are now engaged in stacking a vast pile of the commodity outside their large ice houses. The thickness of the ice gathered from the first crop was 17 inches and that of the third 11 inches of clear spring water freezing.

MESSRS. Smith & Shay have secured the contracts for doing the mason work on three new buildings about to be constructed. One is for Mr. D. W. Littell on North avenue, one for Mr. Ross on the corner of Seventh street and Franklin avenue and the other for Mr. Shotwell at Peace and Fifth streets. They will all be of brick; the carpenter work on the first two being in charge of Mr. A. J. Winckler, and the latter in charge of Mr. Dan'l Pierson.

OUR congratulations are extended to Mr. Vennor on his prediction for this month, which we copy from his almanac to-day. According to the Canadian prophet January closed with a "mild spell," which is extending into February, "balmy and springlike weather prevailing generally, with the snow fast melting away." If Mr. Vennor had predicted one of his cold periods for this time of the year we might have expected to see the North River frozen solid.

Criminals.—Capital Punishment.

At the Sunday evening service at the Seventh-day Baptist Church, Feb. 6, the pastor will discuss the duty which Christian communities owe to the criminal classes. The theme will include strong reasons against the continuance of Capital Punishment at the present stage of Christian Civilization.

Another Warning.

A colored lad of about fourteen years of age, named Willie Fisher—son of the sexton of the Seventh Day Baptist Church—met with a terrible accident on Saturday afternoon last, that may possibly result in his death. While coasting on the Broadway hill, the bob on which he was riding with a number of other boys, ran into an obstruction with such force as to throw young Fisher against a rock and split his head almost entirely open.

Far Ahead.

It seems as though the forty-eight ballots lately taken by our Common Council, have not finally settled the election of a member to fill the vacancy caused by the declinations of Messrs. Tweedy and Lithgow. Mr. E. L. Finch is announced as the unanimous choice of the Council after much division, and Mr. E. L. Morris notifies the President that he has received a certificate of election from the City Judge and will take his seat as a member of the body at its next meeting. As the law does not allow twelve members to serve during the same time, it remains to be decided who will be disappointed in securing the position. The foundation on which Mr. Morris bases his claim, is the same as is set forth by our correspondent "Justice" in another place; and he is sustained in this view of the matter by well-known members of the legal profession.

The "Rock House."

During the prevailing sleighing carnival, the above favorite resort, situated on the top of the mountain back of Plainfield, kept by Mr. S. O. Staats, has been visited by many sleigh-riding parties, and the scene of enjoyable occasions. Tuesday evening of last week, a large party from this city and surrounding country visited the "Rock House," and with the assistance of Pro. Franse, who furnished fine music, and the kind attentions of the proprietor, a most enjoyable night was spent, the merry party returning to their homes in the small hours of the morning. A large and commodious ball room is attached to the "House," and the larder is well supplied with substantials. The roads leading to this mountain resort are in first-class condition. There is no better or more hospitable hotel for a sleighing party to visit in Winter, or a pleasure party of any kind in Summer, than the "Rock House." The party of last week was under the management of Messrs. John Morton and Chas. Tallman, of Plainfield.

A New Trial Moved for Johnson.

Messrs. Geo. F. Suydam of this city and R. V. Lindabury of Elizabeth appeared before Judge Vansyckle in the Union County Court of Oyer and Terminer on Tuesday morning last, with a motion to set aside the verdict of the jury in the Johnson murder case and grant a new trial. Drs. Green and Oakley testified as to the possibility of a man running a distance of 250 yards after being shot through the heart—giving their own observations and authentic records as foundation for their belief that the majority of persons so wounded would live from fourteen to sixteen hours.

The State Prosecutor was censured by the Court for not bringing forward all the witnesses capable of throwing any light on the case. "It is your duty" said the Court, "to obtain and present to the jury all the facts of the case, and not to suppress what might be of benefit to the defendant."

The Court took the papers and affidavits relating to the motion of the defendant's counsel, and will pass upon it Monday morning.

Rahway's ex-Treasurer Acquitted.

The trial of Joseph T. Crowell, ex-Treasurer of the city of Rahway, indicted for embezzlement, came to a final close in the Union County Courts at Elizabeth, on Monday last, after a three day's trial. He was acquitted by the jury.

Fire Board.

The Board of Fire Commissioners met in regular meeting Wednesday night. A resolution presented at its last meeting, allowing the restoration of an expelled member, was adopted. The matter of amending the charter so as to make the office of Chief an appointment by the Board instead of an elective position, was considered. Numerous bills were passed and other routine business transacted; after which the Board adjourned.

The Funeral of Mr. August Smith.

The funeral services of the late Mr. August Smith, took place at his residence on Front Street, last Sunday afternoon at 2.30 o'clock. The attendance of friends and relatives was exceedingly large; the deceased's residence of twenty-seven years in this city having drawn around him a wide circle of acquaintances who admired and respected him. The Rev. Mr. Schnellendreussler performed the usual rites and ceremonies at the house and at the North Plainfield cemetery where the body was deposited. The Saengerbund,—whose first President Mr. Smith was in 1862, when he organized the society under the name of the Plainfield Liedertafel—was present, and sang effectively a beautiful and appropriate dirge at the grave. Besides the large number of our well known citizens who attended in their carriages and on foot, delegations of officers and members from all the fire companies were present—showing the high esteem in which the deceased was held by all classes. The prominence attained by him in business circles will cause his absence to be felt and regretted for some time; while those who have met him socially and admired his universal good-fellowship, and those who have been helped by his generosity, will always remember his loss. The pall-bearers were Messrs. Flagg, Kline, Kurzhals, Steiner, Heideloff and Rickert.

The Rev. Dr. Syle's Lecture.

On Thursday night in Seminary Hall, Dr. Syle very pleasantly transported his audience to Japan, and introduced them to their cousins. He contended that the first settlers of Japan were of the same race as the North American Indians, and advanced many proofs of the assertion.

He took his audience with him all over the Island and gave them a very instructive and interesting account of the history, geography, habits and present condition of this strange people and their home.

He pointed out the marked and striking differences between the Chinese and the Japanese, showing that the Japanese are much more advanced, there being one hundred and fifty (150) newspapers published in Japan and only four in China. Through these papers, which are allowed very considerable freedom of discussion, and through their chambers of commerce the Japanese have approached very near to the American idea of representative government.

The graphic description of their Legislative council and of their mode of procedure was very amusing.

It was surprising to hear how this people combined the greatest courtesy with a startling savagery which led a man to think little of killing his wife for a "curtain lecture" and for a very small offence driving one to "hari kari." He said that they had much to learn and he feared that their young men, educated in this country, did not always carry back with them a knowledge of the things that were "true and honest and pure, and of good report."

Coming Entertainments.

The fifth entertainment of the Y. M. C. A. Fourteenth Annual Course will occur on the 22nd of this month. It will take the form of a Grand Concert at which many prominent artists are expected to appear and contribute their talents.

Extraordinary endeavors are being put forward to make the Third Feininger-Evans Recital, on the 15th inst., unexcelled by any like affair ever given in this city. A vocalist of remarkable ability is to be engaged.

Don't miss the Calico Sociable of the "Jolly 3," at Laing's Hall, on the evening of the 16th inst. Prof. Franse will lead the music, and with a handsome and graceful partner an uninterrupted night's pleasure will be experienced by all who attend.

The Fifth Annual Sociable of the T. A. B. Society, of St. Mary's Church, is to be held on the evening of Feb. 24th.—Mr. John B. Cahill, of Elizabeth, will furnish the music, and a committee consisting of Messrs. P. W. McDonough, Peter Galbraith and John Motley has in charge the arrangements for the guests' convenience, comfort and pleasure.

The grand ball at Blatz's Hall on Somerset street, Monday evening, Feb. 14th, is one of the coming events of the season. No more convenient rooms for dancing and dining can be found in this vicinity. Take the affair in and you'll never regret so doing.

A Grand Masquerade Ball at M't Bethel Hall, is announced to come off on Monday evening the 21st inst. Prof. Scheuermann will have charge of the music, and a cordial welcome and lots of merriment is promised all who attend.

A Terrible Accident.

While on his way to school last Friday morning, the son of Mr. Isaac Oldman, of West Fourth Street, noticed a crowd of people collected in the coal yards of Messrs. A. D. Cook & Bro. Naturally curious to learn what was attracting the gathering, the lad forced his way through to discover his father crushed under a mass of frozen coal from which a number of fellow workmen were trying to drag him. The victim was able to deliver some instructions to the boy and messages for his mother at home—which the horrified lad, throwing down his books, staggered away, almost fainting from the shock, to attend to.

The man had been employed in the yards but recently, and had been frequently warned not to pick under the overhanging masses of coal that often formed when wagons were loaded from the base of the enormous heaps contained in the sheds. Carelessly inattentive of such advice, he had that morning loosened about five tons of the frozen mass from above, which sliding down crushed him beneath its weight. Upon it being removed sufficiently to release Oldman, it was found by Dr. Fritts who was present, that the right leg was fractured and the right arm broken in three places. Pieces of the sharp-edged coal had been pressed into his wrist with such force as to almost sever his hand from the limb. With such material as could be found the arm was bound up, and the man removed to his residence. A subsequent examination by Dr. Hart showed that his arm must be amputated in order to save life; and as no conveniences for such an operation and the after-nursing necessary were obtainable at the man's home, the managers of the Elizabeth hospital were telegraphed to for accommodation. A satisfactory answer being received with the place of board &c stated, and as Messrs. Cook & Bro., immediately expressed their intention of assuming all the expenses, the patient was removed to the hospital the same afternoon. The operation was afterwards satisfactorially performed, and at last accounts the man was doing well.

Common Council Proceedings.

SATURDAY EV'G, Jan. 29, 1881.

Council met in special session.

Upon the call of the roll, the following members responded:

Coriell, Darling, Flanders, Guion, Hamilton, H. Smith, Tyler, Waring, Whiton—9. Absent—A. H. Smith—1.

The Pres. then presented communication from Mr. Lithgow, declining to serve as Councilman, on account of business calling him out of the city most of the time. On motion, filed.

The Pres. stated the object of the meeting to be the election of a Councilman to fill vacancy, and declared nominations in order.

Mr. Hamilton nominated Edward L. Morris.

Mr. H. Smith nominated George R. Goddard.

Mr. Coriell nominated I. W. Rushmore.

The Pres. stated (in answer to question if Mr. Rushmore would serve) that he had seen Mr. Rushmore and that gentleman declined to serve.

Mr. Coriell withdrew Mr. Rushmore's name.

Mr. Tyler nominated Samuel Huntington.

No further nominations appearing, and the Pres. stating that it required 6 votes to elect) the Council proceeded to ballot—the Pres. appointing Messrs. H. Smith and Darling as tellers—with the following result:

1st Ballot—9 votes cast—of which Huntington received 2, Goddard, 2, Morris, 4, Blank, 1. No election.

2d Ballot—Morris, 5, Goddard, 3, Huntington, 1.

3d Ballot—Morris, 5, Goddard, 4.

4th Ballot—Same result.

5th Ballot—Morris, 5, Goddard, 3, Huntington, 1.

The 6th, 7th and 8th Ballots resulted the same.

At this juncture, Mr. Tyler nominated J. E. Tracy.

The 9th Ballot resulted, as follows: Morris, 5, Tracy, 4.

Mr. Waring moved an adjournment.

Mr. Tyler thought that some early date should be decided on, and asked when the thirty days expired.

Mr. Waring informed the gentleman that the thirty days would expire next Tuesday, and would add, as an amendment to his resolution that when Council adjourn it adjourn to meet next Monday evening. On motion, resolution, as amended, adopted.

The Pres. declared Council adjourned to meet the evening in question, at 7½ o'clock.

MONDAY EV'G., Jan. 31, 1881.

Council met pursuant to adjournment.

At the call of the roll the following answered to their names:

Coriell, Flanders, Guion, Hamilton, H. Smith, A. H. Smith, Tyler, Waring, Whiton—9. Absent—Darling—1.

The object of the meeting being stated by the Pres., and the Clerk reading the nominations made at Saturday night's meeting, and no new ones presenting themselves, the Council proceeded to ballot—the Pres. appointing Messrs. Flanders and A. H. Smith as tellers—with the following result:

1st Ballot—9 votes cast—E. L. Morris receiving 4, J. E. Tracy, 2, George H. Goddard, 2, Blank, 1. No election.

2d Ballot—Morris, 4, Goddard, 3, Tracy, 2.

At this stage of the meeting, Mr. Darling came in and took his seat.

3d Ballot—Morris, 5, Tracy, 3, Goddard, 2.

The 4th, 5th and 6th ballots resulted the same.

7th Ballot—Morris, 5, Tracy, 5.

The 8th, 9th and 10th ballots were the same.

At this juncture Mr. Tyler nominated Julius Cary.

11th Ballot—Morris, 5, Tracy, 4, Cary, 1.

12th Ballot—The same.

13th Ballot—Morris, 5, Tracy, 5.

The 14th, 15th and 16th ballots—same result.

17th Ballot—Morris, 5, Tracy 4, Blank 1.

18th Ballot—Morris, 4, Tracy, 5, Blank, 1.

19th Ballot—Morris, 5, Tracy, 5.

20th Ballot—Morris, 4, Tracy, 5, Blank, 1.

21st Ballot—Morris, 5, Tracy, 5.

22d Ballot—Morris, 5, Tracy, 4, Blank, 1.

On the 23d, 24th and 25th ballots, Morris and Tracy each received 5 votes.

26th Ballot—Morris, 5, Tracy, 4, Huntington, 1.

27th Ballot—Same result.

28th Ballot—Morris, 5, Tracy, 5.

29th Ballot—Same result.

The Pres. appointed Messrs. Guion and H. Smith as tellers, thus relieving Messrs. Flanders and A. H. Smith.

The 30th, 31st, 32d, 33d, 34th, 35th and 36th ballots resulted in Morris and Tracy receiving 5 each time.

Mr. Tyler thought that something should be done, as it was getting rather monotonous. He wanted to know if some other person could not be thought of—one that could be elected, etc. At this rate, he said, we might keep on balloting for the rest of the night without a choice.

Mr. Hamilton thought that the matter could easily be settled if one of the men (Tracy element) would vote for Morris.

Mr. Flanders was of the opposite opinion.

The 37th Ballot resulted in Morris receiving 5, and Tracy 5 votes.

Mr. Tyler moved a recess of 10 minutes.

(At this stage of the proceedings, His Honor, Mayor Randolph, entered the Council Chamber and took a seat inside the railing.)

At the expiration of the recess, Council was called to order.

"The next (38th) ballot stood—Morris, 5, Tracy, 4, H. A. Thorn, 1.

Mr. Darling thought if another recess was granted for 15 or 20 minutes, a person would be found that the Council could agree upon. On motion, a recess was granted of 20 minutes.

At the expiration of the recess, the Pres. called the Council to order, and asked if there were any further nominations?

Mr. Darling nominated Mr. E. L. Finch.

The 39th ballot resulted in Mr. Finch receiving 8 votes and Tracy 2 votes.

Mr. Waring moved that the election of Mr. Finch be made unanimous. So agreed to.

The Pres. then declared Mr. Finch unanimously elected to fill vacancy, and instructed the Clerk to notify Mr. Finch of his election.

On motion, Council then adjourned to meet the first Monday evening in February, (7th) at 7½ o'clock.

At the End of his Rope.

Last week's CONSTITUTIONALIST contained an account of the wrong-doings of a young man, resident of this city, whose name we refrained from publishing out of consideration to his family, but when a rogue gets into the hands of an officer of the law and is brought before a legal court for trial, it is time to let the public know of the facts. In the present instance, a young man named William Smith, son of a tailor, in this city has for some time been carrying on a systematized confidence game, some of his victims being well-known citizens of Plainfield. Last March, it is alleged, he forged the name of B. J. Mills to a recommendation, or order, on Mr. J. W. Johnson, John street, New York, dealer in silver ware, inducing that gentleman to let him have samples of his goods. Failing to return to Mr. Johnson the sum of $47.70, or its equivalent in merchandise, Mr. J. caused Smith's arrest in this city on Tuesday evening last. Capt. Dodd effected the capture and lodged the prisoner in his castle. He was arraigned before Justice Wadsworth, at the Station House, 10 o'clock Wednesday morning to answer to the charge; Mr. Geo. F. Suydam appearing in his behalf. By request of the latter the case was postponed to 10 o'clock Thursday morning. When the case was called up before a room full of curious friends and other spectators, Mr. Geo. F. Suydam, counsel for the defense, stated that they waived an examination; but the Justice declined to allow such action and Mr. J. Wesley Johnson was sworn.

He testified:—The accused called at my house about the 13th of last March and stated that he wished to obtain some merchandise on sale; I told him I desired security. He replied that he could furnish any amount up to $500 if necessary. I said $50 would be sufficient. He called the next evening with a letter of recommendation, but I told him that it was not what I required—I wanted a guaranty. He afterwards brought a paper signed J. B. Mills.

The witness was here shown the following, which he identified as the paper and read to the Court:

PLAINFIELD, MARCH 15th, 1880.

MR. J. W. JOHNSON, Esq.:

It is with great pleasure that I can recommend my friend W. T. Smith and in other words guarantee anything which he may desire, he has spoken to me this day about which he proposes to do and asking me to guarantee whatever stock he wishes not exceeding $50. I am only too pleased to do this for I know he will fulfill everything he undertakes faithfully, but if he should happen to fail short I will settle the remainder or in other words I will guarantee the amount.

Respectfully,
B. J. MILLS, Esq.,
J. B. SMITH.

The witness continued: I made inquiries as to the standing of Mr. Mills and being satisfied, let the accused have what he wanted. I believed the letter to be genuine and gave him merchandise, on which there is due the amount of $47.70. I afterwards saw Smith's father who told me Mr. Mills knew nothing of the letter. He said nothing in relation to his own signature. I went for Mr. Mills and he said he never wrote the letter.

[The entire amount obtained was on different dates from March 16th to April 23d, reaching a total of $82.45, of this $9.75 was returned and $25 on account paid.]

Mr. Mills was sworn and shown the letter. He testified: The signature is not mine. My name is J. B. Mills and I so write it. I am generally called Benjamin. Have no reason to suppose that the signature was intended for mine.

Mr. J. B. Smith, father of the accused testified: I have seen the letter but never signed it. Have no reason to believe that the name was intended for my own. I do not know who wrote it.

The accused declining to make any explanation, the Justice held him to appear before the Grand Jury for forgery. The complaint charges the committing of a forgery, the uttering of a forgery and the obtaining of goods under false pretenses.

Not being a bailable offence, except so ordered by the Court of Oyer and Terminer, the prisoner was taken to Elizabeth by Captain Dodd on Thursday afternoon. Judge VanSyckle will be appealed to for the acceptance of bail, at once.

The prosecution is made by the State of New Jersey, and not by Mr. Johnson as may be supposed. That gentleman stated to our representative, that he was present under compulsion, having been served with subpoena. For the sake of the young man's family, he would gladly forgive the accused for the personal injury, but he had been advised by his counsel that the matter was now in the State's hands, and himself a mere witness compellable to testify.

Personals.

Comptroller Anderson will please accept our thanks for public documents.

Mr. Thomas Worth lies seriously ill of inflammation of the bowels, at his residence on Grove Street.

For the fourth time is the happy family circle of Mr. Adam Fritz enlarged by the advent of a little girl. Of course the pleased father would not part with a single one of the little maidens, but he does wish there was a boy amongst them.

The many friends of Mr. and Mrs. E. L. Morris will unite in wishing continued prosperity for them during the new relations they have entered into. They are keeping house at the corner of Kensington and Putnam avenues.

The Rev. T. H. Stockton is delivering a series of "Panoramic Sermons" relating to a prodigal son and daughter. These discourses will be continued during the present week at the M. E. Church every evening except Saturday, at 7:45, and are proving remarkably interesting and instructive.

We are sorry to learn of the illness of Jacob Kirkner, Esq., from a severe cold.

Mr. Robert Simpson, of the firm of Simpson & Co., ice merchants, was taken seriously ill on Monday evening last from inflamation of the bowels.

The sickness of Mr. Geo. Miller, proprietor of Laing's Hotel is alarming in the extreme to his family and friends.

Mr. Wright Robins, of Metuchen, has been confined to his residence for several days with alarming sickness.

COMMUNICATED.

For "The Constitutionalist."

E. L. Morris Elected.

MESSRS EDITORS:—

There was a special meeting of the Common Council held last Saturday night, 29th ult. called for the purpose of filling an existing vacancy in that body. There were nine members present and Mr. Morris received five votes for the vacant position, *a majority of one*; he was therefore unquestionably elected according to Section 10 of an amendment to the city Charter approved April 4th, 1872, which provides, "That in case of a vacancy happening in any office created and made elective by this act, by death, resignation, removal, or otherwise, except in officers of election, on the day of election, it shall be filled by the said Common Council within thirty days thereafter, and the said appointment shall continue until the next annual election, and no longer." The Charter nowhere says that six votes shall be necessary for a choice in filling any vacancies; but where six votes are required to carry any measure it so distinctly declares, as in case of appointing a city Clerk and other subordinate officers, and in passing, altering or repealing ordinances, as provided in Sections 5 and 7 of the amended Charter of 1872. It is claimed by some that the Council in the matter of filling vacancies are governed by their rules of order. No. 12 of which says that "The vote of the Council upon all nominations to office by the Mayor, and upon all appointments to office by the Common Council, shall be by ballot, or upon call of the roll, unless by unanimous consent, and six votes shall be necessary for confirmation of every nomination, and for every appointment to office." The "appointments to office" above referred to clearly means subordinate city officers and not members of the Common Council, and even if it should mean a Councilman it would have no effect against the explicit declaration of the Charter above quoted, and a further provision of the Charter which emphatically declares in Section 14 of the amendment of 1872, last clause, that "And the said Common Council shall or may enact or pass such and so many other ordinances or by-laws for the peace, good government, order, well-being and convenience of the said city as they may deem necessary, proper and expedient, *not repugnant to this act*, or to the Constitution of this State, or of the United States." Now, as the "Rule of Order" above quoted is "repugnant" to the Charter, and in violation of it, necessarily falls to the ground and is absolutely null and void. And Mr. Morris was legally elected a member of the Common Council; but as he does not desire to hold the office, it is not probable that he will claim the seat he is entitled to.

We notice that our friend Mr. J. Spencer is again coming to the front; he is fixing the old homestead on the hill.

Why is it? We notice that few, if any, sleighing parties drive over Johnston's drive. Again, why is it?

Monday evening of last week the Sunday School Teachers and friends of the M. E. Church, seventeen in number, in one sleigh, drove to the hospitable residence of Mr. and Miss Raymond, at Summit, where after spending an hour very pleasantly in social intercourse, singing and playing on the piano, the company sat down to a sumptuous repast. When an hour later the party broke up, returning home by way of Springfield, all spoke in the highest praise of the hearty welcome they received from the genial former teachers and family.

Decisive Battle of the World.

Creasy's extremely interesting volume narrating the history of the fifteen decisive battles of the world, those few battles of which a contrary event would have essentially varied the drama of the world in all its subsequent scenes, is highly esteemed by all readers of history. It has a long time been on Harper's list as one of their standard books, at the price of $1.50. Now it is issued in a very handsome cloth-bound volume, by the American Book Exchange, New York, at the nominal price of 35 cents. It forms one of their Acme Library of History, which includes Macaulay's England, $1.25 (reduced from $7.50), Gibbon's Rome, $2.00 (reduced from $9.00), Rollin's Ancient History, $1.75; Froissart's Chronicles, $1.50, and to which list will soon be added, at equally low prices, Grote's Greece, Green's (larger) England, Mommsen's Rome, Masson's Guizot's France, Carlyle's French Revolution, Schiller's Thirty Years' War, and others. Catalogues of the standard low-priced books of the Literary Revolution will be sent on application to the American Book Exchange, Tribune building, New York.

RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a VIOLENT BLEEDING OF THE LUNGS followed by a severe cough. I soon began to loose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work." Sold by druggists.

We are not in the habit of puffing any sort of patent medicines in our columns, for the business of a newspaper is to let people know what is going on in the world, and not to lend aid to what may be an imposition. But we happen to know Dr. David Kennedy, of Rondout, N. Y., and can personally testify to the excellence of the medicine which the doctor calls "Favorite Remedy." For diseases of the blood, kidneys and bowels, it has no equal. We would not be without it for five times the dollar that it cost.—*Daily Times.*

"Ever Ready" Wheat and Buckwheat and Indian Meal Flour, at the City Mills.

THE Paterson Press says that young Harris, who was so badly hurt by the late coasting accident, is improving rapidly and the fear of a fatal result is now dissipated. The poor boy will be compelled to wear an artificial roof in his mouth, as the upper jaw has been torn out. The lad, will, it is thought, be dreadfully disfigured and broken in speech. The other lads injured at the same time are doing well and will recover.

THE SMALL BOY AGAIN.

A boy about fourteen years of age was smoking a cigar on the south portico of the City Hall the other morning, when a citizen halted before him and said:

"Boy, do you realize what you are doing?"

"Smokin' a powerful good five-center, won on a bet," was the reply.

"But don't you know that you are filling your system with poison?"

"Naw."

"Well, you are. That cigar contains enough nicotine to kill a cat."

"I'm no cat."

"I know. It does not kill you suddenly, but poisons the blood and sows the seeds of fell disease. You may drop dead on your way home."

"I ain't goin' home."

"It fills me with horror to see a lad of your age destroying both soul and body. Boy, I entreat you to throw away that vile cigar."

"I dassn't. Some one else would pick it up and be pizened."

"Throw it away and I'll buy you three apples."

"Don't like 'em."

"Or a quart of peanuts."

"Say," said the boy as he fondly regarded the inch of ashes at the end of his cigar, "I bet a boy the cigars this morning that he couldn't tech his tongue to a lamp-post and then sing 'Sally Walters.' He teched, and there's a crowd up there now tryin' to thaw him loose. I ain't very scart about bein' pizened, and I don't keer much for fatherly advice, but if you've got any spare time you might go up there and tell that ere boy that a chunk of natural philosophy is worth a bull barnful of experiments."—*The World.*

A PERNICIOUS HABIT.

There is a habit, which has within a few years become almost universal with the male portion of our theatre goers in this country, that is as disgusting to all well-bred people as it is degrading and disgraceful to those who indulge in it. We refer to drinking between the acts. It is really a distressing sight nowadays to see the spontaneous rush of young and old men for the neighboring bar-rooms, which follows every fall of the curtain during a performance at any place of amusement. And this is in utter disregard of the comforts or feelings of those more refined and better behaved people who are compelled to submit quietly to the incessant annoyance to which these blackguards subject them. No gentleman would be guilty of this sort of thing, and any man who is, no matter how elaborate his dress or charming his manners, is unworthy of respect, and should be denied the association of reputable men and women. We may seem to exaggerate in this matter, but he who thinks so, gives the best possible evidence of a dangerous partiality for the most grievous popular evil of the day. Intemperance is the American national curse, common alike to the rich and poor, young and old, and is responsible for more domestic infelicity and individual degredation than any other cause that can be mentioned. This is not a revelation, we know, and it has only been referred to by way of preface. It is bad enough that this should be true, but worse that it should be a subject of general indifference. Still, what a man does in his own home or elsewhere, so long as he does not exceed legal limits, is not to be remedied by outside interference, however much shame and misery his conduct may entail upon loving and sensitive hearts. But when, as in this matter of tippling between the acts, he obtrudes his brutal and shameless instincts to the distress and discomfort of more respectable people, he at once becomes amenable to managerial authority, and should be made to so understand. Indeed, we regard it as a duty which managers owe to themselves and to the better class of their patrons, to co-operate in a determined effort to suppress this growing and inexcusable nuisance. —*Turf, Field and Farm.*

WHAT BECOMES OF HIM?

Man lost! Not overboard, for in that case we might find his body, for the man referred to travels on the cars. He wears a natty blue-black suit—almost a uniform. His cap has a gold band around it, and he generally has a nickel lantern in his hand. He is the sleeping-car conductor. We know he exists, for we see him standing by the steps as we go into the sleeping-car. He has a list of berths in his hand; it a stiff pasteboard, and he figures on it occasionally with a pencil, while his nickel lantern hangs on his arm. After that we never see him again. He is a lost man. We are afterwards in the clutches of the porter. The porter attends to our sleeping-car ticket and our train ticket. He gropes under the berth for our boots. He industriously brushes our coat in the morning, and his hand is held out for as much of our cash as we are foolish enough to give him. But what we want to know is, where has the conductor gone? Why is he not at the terminus to see us off? The last we see is the smiling face of the porter. Unobservant people might imagine that the conductor did not come with us, but such is not the case. If we have occasion to return the next night, we shall find him, as usual, by the steps of the car with lantern, schedule and all. Where has he been since we saw him there last?

A TENACIOUS FOE.

During the draining of some huge carp-ponds upon an estate in Warmbrunn, Silesia, it was observed that frogs were clinging to the backs of many of the larger carp. Most of the fish thus bestridden were blind, the frog's fore-feet being found firmly fixed in the eye sockets of its victim. The chief pond keeper explained that the frog's object in bestriding the carp was to feed upon the slimy matter that so frequently forms a sort of spongy crust on the heads and backs of the older fish; and, once settled in its favorite seat, it speedily succeeds in gouging its finny steed, which, when blinded, being unable to look for food, soon perishes of hunger. How tightly those voracious batrachians held on to their living pastures was exemplified by the pond-master, who picked up a carp weighing two pounds and a half, and held it suspended in the air by one of the hind legs of a frog perched upon it in the manner above described. Carps thus frog-ridden begin to turn green on the third day after the parasitical croaker has taken its seat, rapidly waste away, and generally die within a fortnight from the beginning of their martyrdom.

"Well, miss," said a knight of the birch-rod, "can you decline a kiss?" "Yes sir," said the girl, dropping a perplexed courtesy. "I can, but I hate to most plaguily."

TEACH THE LITTLE ONES.

Endeavor always to talk your best before your children. They hunger perpetually for new ideas. They learn with pleasure from the lips of parents what they deem is drudgery to learn from books, and even if they have to be deprived of many educational advantages, they enjoy in childhood the privilege of listening daily to the conversation of intelligent people. We sometimes see parents who are the life of every company which they enter, dull, silent and uninteresting at home among their children. If they have not mental stores enough for each, let them first use what they have for their own households. A silent home is dull system for young people, a place from which they will escape if they can. How much useful information, on the other hand, is often given in pleasant conversation; and what unconsciousness, but excellent mental training is lively social argument! Cultivate to the utmost the graces of conversation.

One of the growing industries of Australia is the cooking and canning of rabbits. The Colas preserving company near Melbourne had on an average 7000 of these rodents brought in every night at the beginning of the past season, and the supply increasing, orders were given to limit the daily quantity to 2,700 pair. During the season which lasted 25 weeks, 675,000 rabbits were canned by this company alone.

Statistics of the Society of Friends in England show that the average age of all of its members who died in 1879-80 was 58 years, 1 month and 2 days. According to the reports of the Register General's office, in London, the average of life in England and Wales is 39.91 years with males, and 41.85 with females. It thus appears that the average duration of life among the Friends in Great Britain is seventeen and one-fifth years greater than it is among the whole population.

A Massachusetts man, who has resided in South Africa, proposes to utilize the waste land of San Bernardino county, Southern California, by establishing a farm for the rearing of ostriches. His plan is to enclose a large tract with a board fence, and stock it with birds imported from Africa. Ostriches are very valuable for their feathers, at eight months of age the crop of feathers being worth $5 to each bird, and at the end of another eight months $25. Ostriches do not breed until they are four years old, and then by good care a pair will produce four broods of chicks a year, each brood with luck numbering twenty.

Mr. Wm. M. Budd, of Chester, has ground during the past season over 45,000 bushels of apples, and has distilled 8,500 gallons of apple brandy, and has cider sufficient now on hand to make 3,000 gallons of whiskey, the tax on which will amount to $10,200—a pretty good haul for Uncle Sam. No man in the State makes purer or better "apple jack" than Mr. Budd.

Mayor Chas. F. Hopkins, of Boonton, sometimes unbends from his official dignity and can enjoy himself like other mortals. A few evenings since he procured a single sleigh, and after filling it with his friends, got between the shafts upon a small sled and guided the party down the steep hill from Holmes's corner to the river bridge, a distance of about half a mile, in twenty-four seconds. The Mayor's friends was so elated over his smashing exploit that they placed him in the large sleigh and drew him up the hill.—*Jem Era.*

THE STATE LIBRARY.

From the report of the State Librarian, for the year ending Oct. 31, 1880, we glean the following in relation thereto: The additions to the library have been as follows: From purchase, miscellaneous, 80; from purchase, law, 80; from subscription, 13; from donation, books, 48; from donation, newspapers, 14; from United States, 46; from State Treasurer, 259; from State exchange, 295; total additions, 817; number of books at last report, 25,926; total number now in library, 26,743.

The additions to the Library for the year past are smaller than usual for the reason that there was not sufficient funds to the credit of the Library for needed purchases.

He calls attention to the need of an increased appropriation, which was recommended in the Governor's last message, but the bill for that purpose was introduced so late in the session that it failed to become a law. Although the demand for books is constantly increasing, the income of the Library is now smaller than it has been at any time for thirty years past, and is not sufficient for the needs of the Library.

He respectfully suggests that there is urgent necessity for an additional annual appropriation.

He also suggests that there should be provided a fire-proof safe or vault for the protection of valuable books and manuscripts, which could not be replaced if destroyed.

The following are the Commissioners of the Library:

Governor, George C. Ludlow; Chancellor, Theodore Runyon; Secretary of State, H. C. Kelsey; Treasurer, Geo. M. Wright; Comptroller, Edward J. Anderson.

Librarian, James S. McDanolds.

AN INTERESTING ACCOUNT.

Stone in the Bladder Expelled by using Dr. Kennedy's "FAVORITE REMEDY."

Mr. S. W. Hicks, of Pleasant Valley, Dutchess Co., N. Y., the son of Mr. E. S. Hicks, whose name may have appeared in this journal in connection with an article similar to this, was, like his father, afflicted with Stone in the Bladder, only that his case was more serious than his father's. On the appearance of the disease, the father advised the son to write to Dr. David Kennedy, of Rondout, N. Y., who, he said, would tell him what to do. Dr. Kennedy replied, suggesting the use of "Kennedy's Favorite Remedy," which had worked so successfully in the father's case. Mr. Hicks, who had been assured by the local physicians that they could do nothing more for him, tried "Favorite Remedy" at a venture. After few weeks' use of it he passed a stone [illegible] of an inch long and of the thickness of a pipe-stem. Since then he has had no symptoms of the return of the trouble. Here is a sick man healed. What better results could have been expected? What greater benefit could medical science confer? The end was gained; that is surely enough. Dr. Kennedy assures the public, by a reputation which he cannot afford to forfeit or imperil, that the "Favorite Remedy" does invigorate the Blood, and cures Liver, Kidney and Bladder complaints. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

THE SUN FOR 1881.
Everybody reads THE SUN. In the editions of this newspaper throughout the year to come everybody will find:
I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eye-sight. THE SUN long ago discovered the golden mean between redundant fullness and unsatisfactory brevity.
II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates and troubles. This story is more varied and more interesting than any romance that was ever devised.
III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.
IV. Honest comment. THE SUN'S habit is to speak out fearlessly about men and things.
V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican.
VI. Absolute independence of partisan organizations, but unwavering loyalty to true Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the years immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.
Our terms are as follows:
For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.
The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.
The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free.

TOLU ROCK AND RYE
For COUGHS, COLDS, SORE THROAT, BRONCHITIS, ASTHMA, PNEUMONIA, CONSUMPTION, and all Diseases of the THROAT, CHEST and LUNGS.
BALSAM OF TOLU Has always been one of the most important weapons wielded by the MEDICAL FACULTY against the encroachments of COUGHS, COLDS, BRONCHITIS, ASTHMA, SORE THROAT, CONSUMPTION in its incipient and advanced stages and all diseases of the THROAT, CHEST and LUNGS, but it has never been so advantageously compounded as in the celebrated TOLU, ROCK and RYE. In addition to its soothing Balsamic properties, it affords a diffusive stimulant and tonic, to build up the system after the cough has been relieved.
Over 1,000,000 Bottles Consumed Annually.
Extract from Report of Com'r of Internal Revenue.
TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE, Washington, D. C., January 26, 1880.
Messrs. LAWRENCE & MARTIN, Chicago, Ill.
GENTLEMEN: The TOLU, ROCK and RYE, compounded according to the formula, has a sufficient quantity of the BALSAM of TOLU to give it all the advantages ascribed to it in pectoral complaints, and rendering it an agreeable remedy to the patient. It may properly be classed as a Medicinal Preparation under the provisions of U. S. Revised Statutes, and when so stamped may be sold by Druggists, Grocers and Other Persons WITHOUT RENDERING THEM LIABLE TO PAY SPECIAL TAX as liquor dealers.
Yours Respectfully,
(Signed) GREEN B. RAUM, Commissioner of Internal Revenue.
CAUTION! Don't be deceived by unprincipled dealers who try to palm off upon you Rock and Rye in place of our TOLU, ROCK and RYE, which is the ONLY MEDICATED article made—the genuine having the signature, LAWRENCE & MARTIN, on the Proprietary Government Stamp on each bottle.
PUT UP IN QUART SIZE BOTTLES FOR FAMILY USE.
LAWRENCE & MARTIN, Propr's, Chicago, Ills., and No. 6 Barclay Street, New York.
Sold by DRUGGISTS, GROCERS and DEALERS Everywhere.
For sale in Plainfield, N. J., by EDWARD P. THORN, Agent, and at H. P. Reynolds' Pharmacy.

POETRY.

REVEILLE.

BY MISS A. N. E. NICHOLS.

The dawn smiled thro' all the [illegible] overhead.
The lark awoke;
The mists and mysteries of the night were fled,
The morning broke;

And soon the crystal chalice of the air,
All pure and clear,
Was brimming o'er with music sweet and rare
From far and near.

It overflowed the universe with song
So fresh and bright
That a sorry [illegible], pale with vigils long,
Suffused with light;

And turning toward the tenderest [illegible] sky,
In glad surprise,
Reflected half the glories from on high
In happy eyes.

And in the rosy shadows of the morn
A tiny life,
In [illegible] bush of joy and love, was born
To human strife.

A bruised heart, long cold as drift of snow,
'Neath heaven as white,
Stirred strangely in the rapturous morning glow,
And throbbed with might.

A weary soul, unloved, alone and old,
Long oppressed,
Sped outward through the azure and the gold
To endless rest.

The dawn smiled through the [illegible] overhead,
The lark awoke;
The mists and mysteries of the night were fled,
The morning broke!

QUIROGA AT BAY.

Our story relates to that time of suspense and terror when Quiroga was dictator at Cordova in the Argentine Republic. This cruel dictator was filling the city with his murders, rivaling the red-handed leaders of the French Revolution. Each citizen, particularly if he were possessed of wealth or political influence, lived in daily fear of arrest.

To be suspected by the tyrant was to be arrested and thrown into the "cavildo," and from Quiroga's *cavildo*, as from Robespierre's *conciergerie*, few went forth alive.

In the rear of this grim structure was a walled enclosure termed the *coral de muerte* (yard of death); and here scores were daily led out from their cells and seated on the "blood-bench," where they were executed.

Yet unlike Robespierre, Quiroga was not a coward personally, but a veritable jaguar in war.

Of large stature and brawny muscle, the scent of battle roused him at once to a pitch of reckless courage. His warlike fury in a fight knew no bounds. Indeed, he fought more like some savage beast than like a man, as the following account of him at the battle of *Tablada*, given by Col. King, then a young man in the Argentine service and an eye-witness of the action, most graphically depicts:

"Both armies had broken into detachments, and the men were fighting all hands like blood-hounds. We saw Quiroga everywhere. He had thrown off every vestige of clothing, save his drawers, which were rolled up about his legs. Both he and his horse were covered with blood, and presented an appearance like nothing human. Goaded with the prospect of defeat, galloping madly from point to point, cutting down with his sword not only his foes, but such of his own troops as quailed or turned for their lives, leading detachments into the hottest of the fight, naked as he was and streaming with gore from his victims, he seemed a very personation of evil presiding over the carnage."

Like all such human monsters, who have for the time held power, Quiroga lived in daily fear of assassination; not even his associates in crime were safe from his jealously and his sleepless suspicions.

Some years previous to the event to be described, a party of native sharpers had made a collection of silver and gold ores which they had taken to England and displayed to capitalists there as specimen ores from mines in their possession; and they succeeding in selling these mines to certain English parties who formed a company and went to the Argentine country to work them, provided with all the expensive machinery necessary to quartz-mining.

On their arrival in the country, they found that they had been swindled; the titles of the mines which they had bought were worthless, for the mines were situated on government land which had never been the property of the sharpers.

In this dilemma, the Englishmen appealed to Quiroga for permission to work the mines; and he, perceiving that their operations might be turned to his own account, at length gave them a verbal permit, but withheld his titles to the land.

On the strength of this official permit, the company proceeded with their enterprise, and after a large expenditure, began to realize good returns.

Quiroga, who had watched their progress, began to practice upon them the most flagrant extortion, exacting large sums for all privileges under his control.

For a year or more, the company bore these exactions—for their capital was all at stake in the enterprise. But it soon became apparent that Quiroga was determined to have their last dollar. Several members of the company were already in prison; work at the mines was abandoned; and those of the party who could command the means left the country as expeditiously as possible—glad to escape from the clutches of a man who held international law in supremest contempt.

Numbers of the workmen, however, who had come out from Europe, found themselves without the means to return.

Among these were two young mining engineers from Germany, Wilhelm von H—— and Frederick W——.

These two had been boyhood friends, and had studied at the same school of mines.

Together they had come out to Buenos Ayres, in the employment of the mining company; and between them subsisted strong friendship and brotherly attachment which not unfrequently marks the sons of the "Fatherland" in a foreign country.

The miners called them the "twin brothers;" and though unrelated by birth, they resembled each other in that both were stalwart, blonde young men, broad of chest, with frank, open countenances and firm blue eyes. It was said, too, that Wilhelm was the betrothed lover of a very dear sister of Frederick.

When the company broke up the two found themselves unpaid and without means. For months they went about the provinces on foot, seeking even menial labor to obtain the amount necessary to purchase passage home.

Quiroga, who suspected the existence of a conspiracy against him, was now making daily arrests, and, from some freak of jealousy, had Wilhelm apprehended and shut up in the cavildo.

As can readily be imagined, his arrest threw Frederick into the greatest alarm and distress of mind. In his broken Spanish, he protested and pleaded for his more than brother before all the officials, and at length obtained audience of Quiroga himself.

With tears in his manly eyes, the young foreigner besought the dictator to spare Wilhelm's life, offering pledges and proofs of his entire innocence of the charge of conspiracy.

Quiroga heard him in amazed and contemptuous silence. What the tyrant wanted most was not proofs of innocence, but daily victims with whom to hold in awe his already outraged subjects. A smile—Quiroga's peculiar, flickering smile—played over his dark and cruel countenance.

"You waste your words, young man, and your tears as well," he said, and had him turned out.

From this interview Frederick went away almost destracted. He walked the streets and neither ate nor slept. The second morning after, the order was signed for Wilhelm's execution in the afternoon.

Those who knew Fredrick expected that the tidings would drive him to madness. But he had no sooner heard of it, than a sudden set purpose seemed to fall on him. Hitherto he had worried, entreated, even wept; but when he heard the irrevocable death sentence, a deliberate calmness took possesion of his mind.

The desperate resolve to save Wilhelm's life, or die with him, had been taken; the young engineer, though he could weep for his friend, was yet a man of iron nerve and unquailing courage.

He procured a fleet horse and rode to the cavildo where Wilhelm was confined. It stood near Quiroga's quarters. Leaving the horse with the captain of the prison-guard who already knew him well, Frederick remarked calmly that the General was to reprieve Wilhelm, and asked the officer to give the horse to him when the order of release was sent.

This the captain promised to do. Frederick then proceeded to Quiroga's quarters, and having his former order for admission still in his possession, he passed the sentry and going along the corridor to the reception-room, found the dictator alone, sitting at a table.

"General," he said, "you know the object of my visit; it is to intercede once more for my poor friend. You have been misinformed concerning him. He is an innocent man. He is quite incapable of joining in a conspiracy. I beg, I implore you, to release him!"

Quiroga looked at him, and with a wicked smile said, "You must forget your friend. He dies at three o'clock. When I condemn a man I never pardon him!"

"Ah! but he is my only friend in all *this strange land!*" exclaimed the poor fellow on his knees. "He is my heart's brother. If you take his life, you take mine as well. Senor, he is guiltless. He has not the heart for such a deed; he has not the power. Why, senor, how could Wilhelm conspire? Even now he cannot speak a word of Spanish. My General, spare him!"

"If he doesn't understand Spanish, he will be saved the labor of learning it," said the cold-blooded despot; then raising his voice, he ordered Frederick to retire. "No word of yours can prolong Wilhelm's life one pulse-beat!"

But like lightning Fredrick had bounded to his feet, and levelling a cocked pistol at Quiroga's head, exclaimed,—

"Is it so, monster! Speak one word and you die! I have come to liberate my friend. I will do it."

The astonished dictator sprang up from his seat, but saw in the cold blue eye of the young German a gleam of baleful resolution before which his own brutal ferocity quailed. For a moment the two confronted each other, and the tyrant trembled.

"What will you then of me?" he exclaimed, in a hoarse whisper.

Frederick stepped backward to the door, and without taking his eye off Quiroga, turned the key.

"I will have Wilhelm's pardon," he said in calm, measured tones. "See, senor, I have saved you the trouble of drawing the order for his release. Here it is ready drawn, and with it his passport to leave the country. It wants only your signature. Sign it instantly!"

Quiroga glanced at the bold intruder. The bristly, short hair on his forehead worked convulsively up and down; and his large mouth drew out the corners till his teeth were half uncovered, while his hands slowly clutched and unclutched.

"Senor," continued the calm voice of the German, "you have no time to lose. My life you may have and welcome to it. But these papers you must sign. Hesitate while your own pulse beats five strokes more and I will forever deprive you of the power to commit more murders."

The tyrant was at bay. There was no alternative. Dropping back into his seat, he signed. With his pistol still covering its mark, the German stepped backward again to the door, and opening it, beckoned to the guard, and handing him the paper, said quietly:

"Here is the General's order for the release of the foreigner, Wilhelm. Deliver it at once to the captain of the guard."

He had spoken to the soldier, but never once had taken his eye off Quiroga; and now, relocking the door and taking a seat, he said in the most quiet manner:

General, I will now have an hour's conversation with you."

Upon the margin of the order for release, Frederick had written a few words in German, directing his friend to take a horse which the captain would give him and escape, without an instant's delay, from the province.

For a full hour now this self-sacrificing man sat and conversed with the grim tyrant across the table; and during that time, he told him many unpalatable truths.

He spoke of the injuries that himself and his companion had unjustly suffered at the dictator's hands, and besought him as a ruler to adopt a more humane policy toward his fellow-men.

"Well, Senor Frederick," Quiroga at length observed, "you have accomplished your object. Your friend is well on his way, if not safe over the border; and I suppose you are ready to retire."

"After I have obtained from you a single promise," said Frederick.

"And what is that?"

"Promise me, on your honor, as a Spanish American, that you will order no pursuit within one hour from this moment. Will you do it?"

"I promise it!" exclaimed Quiroga, abruptly, and took out his watch. "If you can escape in that time, you shall not be harmed."

With polite bows the two separated.

But the young German had been more thoughtful on behalf of his friend than himself. He had provided no horse for his own escape; and rather than lose the time necessary to obtain one, he trusted to his ability to reach the neighboring [illegible] and [illegible]. Possibly he had not the money to either buy or hire another horse.

Now a Spaniard, even a South American Spaniard, regards his words as more sacred than his life. Villain though he was, Quiroga would not break his.

Watch in hand, he paced his apartment in almost frantic impatience, and on the second when the hour expired he leaped into the corridor, shouting:

"Pursue the foreigner Frederick! A hundred ounces of gold to him who brings me his head!"

Pursuit was instantly made in every direction. A thousand cavalry were soon scouring the plains, and it was not long before the poor fellow saw the hunters on his track.

But he reached the ravine just as a squad of his enemies came galloping up. Escaping a recess, he ran forward and took refuge in a narrow cleft of a huge rock, hoping his pursuers would pass without espying his retreat. It was a vain hope. He was discovered, and fighting desperately for his life, soon fell pierced by a dozen lances.

But Wilhelm escaped and returned to Germany.—*Youth's Companion.*

JOSH BILLINGS' PHILOSOPHY.

I kno lots ov horses in this country (and men, too,) who are good for 2:30 in a stable that are good for about four minnitts on the road.

The man who has got four things to worry about will last longer than if he only had one.

Thare aint but fu opinyuns that are worth much, they are so adulterated with pride, envy and a general pigheadedness.

Patriotism too often konsists in sarving one's country for rashuns and about twenty-five dollars a month.

Manner is the chief power of eloquence; a blind man is a poor judge of eloquence.

However little a man may have written, he sometimes has written poetry, and if it wur decent poetry the less he tried to write the better.

I have seen men who were as sharp as lightning up to seventy-five cents, but a dollar transackshun allways beat them.

The fust thing a man thinks ov is himself, the seckond thing he thinks of iz himself agin, and the third thing he thinks ov is himself once more. Billy for men.

Yung man, don't talk about yureself any more than yu are obliged to; stop praising the other phellow all the time, this is the kard that wins.

No man has a right to be joyful unless he has done sumthing good, but I hav seen men rub their hands with glee because they had just cheated a naber out of fifty dollars in a hoss trade.

Science is a grand thing to studdy, but when a man sits down in a wash tub and expects to lift himself up by the handles, he has undertaken a kontract that science cant help him fill.

The man who kant change his mind is a phool, and the one who wont is a bigger one.

Sentiment is the crumbs that fall from the table where truth takes its lunch.

It is impossible to make a true friend ov a servant, because to do it yu must make it his pleasure as mutch as his interest to serve you.

Big hands, big heads, big hands and big feet are generally found together.

The Lord has ruined but very fu, the want of it has millyuns.

It is allwuss the safest to be natural, even a natral phool is the most endurable kind.

The man who iz allwuss blowing his own horn will soon play his tune out.

To the kredit of humanity let me here assert I hav allwuss found them reddy to give me all the kredit I deserve.

It is better to make even a huge blunder once in a while than never to trust to our powers.

Man is an animal, with this disadvantage, he has only got two legs.

Nature luvs phun, if she didn't she never would have made a munkey.

The milk of human kindness, like other milk, is principally valuable for the kream that is on it.

Men seldum argue mutch about what both ov them understand, they readily agree that twelve inches make a foot, and sixteen ounces a pound.

Life is short, but all ov us manage to waste more ov it than we use.

SCINTILLATIONS.

When are two potatoes precisely alike? When they're pared.

Who was the first post boy? Cadmus; he carried letters from Phoenicia to Greece.

The greatest fault that can be committed in life is to quarrel with a superior man.

Expression alone can invest beauty with supreme and lasting command over the eye.

An ignorant man from the country inquires whether mock turtle soup is made out of tortoise shell cats?

Reject with indignant scorn all self-congratulations of conscious villainy, though they be uttered by Richard or Iago.

Why is a young lady just from boarding school, like a building committee? Because she is ready to receive proposals.

Sympathy and disgust are the lines that separate terror from horror, though we shudder at, we scarcely pity what we abominate.

The wise and active conquer difficulties by daring to attempt them. Sloth and folly shiver and shrink at sight of toil and hazard, and make the impossibility they fear.

Consult your friend on all things, especially on those which respect yourself. His counsel may then be useful, where your own self-love might impair your judgment.

Great is the power of eloquence; but never is it so great as when it pleads along with nature, and the culprit is a child strayed from his duty, and returned to it again with tears.

There are words which, like the trumpets, cymbals and base drums of mountebanks, attract the public. The words "beauty," "glory," "poetry," have witcheries that seduce the grossest minds.

Evasions are the common shelter of the hardhearted, the false, and impotent, when called upon to assist; the real great alone plan instantaneous help, even when their looks or words presage difficulties.

"Samuel, my son, don't stand there scratching your head; stir your stumps or you'll make no progress in life." "Why, father, I've heard you say the only way to get along in this world was to scratch a-head."

A lady, observing the following notice on a board—"Horses taken in to grass; long tails, three shillings and sixpence; short tails, two shillings," asked the owner of the land the reason for the difference in price? "Why, you see, ma'am," he replied, "the long tails can brush away the flies, but the short tails are so tormented by them, they can hardly eat at all."

THE SUBSCRIBER'S ADDRESS.

The carrier's address is legendary with every newspaper, but no one ever hears anything of a "subscriber's address." Why not? He has a side to this story, and is entitled to a hearing. When he gets it his address will read something as follows:

"Say, you carrier-boy, hold on a minute! This is New Year's day—the beginning of 1881. There are several new leaves I want you to turn over before the sun goes down to-night. When you come spooking along here at 5 o'clock in the morning to leave my paper, I want you to remember that it is to be shoved through the opening of the side door. I have left word at the office about fifty times, but you insist on throwing it in on the front steps. If you persist in this persistency I'll make hash of you some fine morning!

"There's another trifle I want to refer to. Why on earth can't you come along here without trying to raise the dead? You are not hired to slam gates, stone dogs, chase cats or whistle. You are not happy unless you wake up half your patrons, but I'm a patron who won't stand it any longer. The very next time you come along here with that infernal 'Sally Walters,' or whatever her cognomen is, I'm going to jump out of bed and take after you, and five minutes after I have got hold of your hair you'll take rank with the baldest bald-headed in America.

"And, by the way, how often are you going to skip me this year? Your excuses are altogether to thin. Don't try that on me this year? I'm kind-hearted and long-suffering, but there is a limit to all things. The very next time you miss my daily I'm going to hire a field-piece, load it to the muzzle with powder, nails, glass and broken stones, and tie you where you will get the full force of the discharge right between the two eyes!

"And you want to leave that dog of yours at home. I'm laying for that cur! When you can't set him on our cat you manage to meet some other carrier with another canine and get up a fight and raise a neighborhood hubbub. Oh! I've had my eye on you, young man, and you've got to step high for the next 365 days! Yes, I know it's cold, and you have to get up early, but you must also respect my feelings. Here's a dollar for you, and I want you to brace up and drop your mean little tricks. No reason why you shouldn't some day be President if you begin right. That's all; and when you want a new pair of mittens you know where to come for them."

HOW TO GET ALONG.

Do not stop to tell stories in business hours. If you have a place of business, be found there when wanted. No man can get rich by sitting around stores and saloons. Never "fool" on business matters. Have order, system, regularity, promptness. Do not meddle with business you know nothing of. Never buy an article you do not need, simply because it is cheap, and the man who sells it will take it out in trade. Trade in money. Strive to avoid harsh words and personalities. Do not kick every stone in the path; more miles can be made in a day by going steadily on than stopping to kick. Pay as you go. A man of honor respects his word as he does his bond. Aid, but never beg. Help others when you can, but never give what you cannot afford to, simply because it is fashionable. Learn to say no. No necessity of snapping it out dog fashion but say it firmly and respectfully. Have but few confidants, and the fewer the better. Use your own brains rather than those of others. [illegible] for yourself. [illegible] rather than [illegible]. [illegible] cut this out, and if there be [illegible] argument, let us know.

THE OBELISK.

Far back in ancient days, five and thirty centuries ago or more, the then famed land of Egypt was ruled by a King of high renown—Thothmes III. His conquering arms added vastly to national glory, subjugating even Syria and Mesopotamia, and from the spoils of victory he endowed temples and embellished his own country with works of architectural grandeur. Among the obelisks sculptured from the close grained Syenite granite by his command, and inscribed to perpetuate remembrance of his achievements, two of massive proportions were erected in front of the great temple at Heliopolis, the 'Biblical' City of On, and one of those identical pillars now occupies a conspicuous and permanent place in the Central Park of New York.

Monuments are silent, yet the most potent of teachers. They concentrate and carry the thoughts of observers into the past as no other influence can, and gazing upon that of ancient Egypt, just planted on the soil of modern America, what a wonderful history it recounts! Moses, the law-giver and chosen leader of Israel, looked upon it, and when we think of the long line of Kings and Princes, Patriarchs, Prophets and Priests, that have greeted with mortal eyes its majestic presence, and the marvelous events that have transpired since it first pointed skyward, the interest becomes absorbing. In this country we esteem the landing of the Pilgrim Fathers an incident of the long ago. That dates back about two hundred and sixty years, while the Egyptian monolith we thus mention measures time over sixteen centuries before the birth of Christ. What food for meditation!

It is a splendid gift, and appreciated aright, will prove a source of profitable instruction to the present and coming generations. Honor attaches alike to the Khedive who nobly tendered the obelisk as a token of regard from the oldest civilization to the newest, the persevering and accomplished Lieutenant who transported and re-erected it, and the generous hearted American citizen who bore the expense of the undertaking.

The obelisk will be unveiled and formally presented to the City of New York by the United States Secretary of State, with appropriate ceremonies, on the approaching birth-day anniversary of George Washington. May it witness through all coming time his countrymen a united and happy race, wise by pondering the past, and strong in the faithful discharge of every patriotic duty!

5 TO 3.

The City of Plainfield has the enormous force of three regular policemen, and to govern that formidable array, the Common Council in December, 1877, passed an Ordinance of ten lengthy sections, amply sufficient to manage a regiment, and therein provided for a Police Board to consist of five, namely—the Mayor, President of Council and three Councilmen.

If we had five regulars, then each member of the Board might boss his man, but having only three, three-fifths of a poor fellow is the allotted quota.

To erect such immense legal machinery for so trivial a purpose is ludicrous.

The present Council would act wisely to repeal the entire Ordinance, and enact a short one *placing the Police directly under the authority and control of the Mayor.* That is what a practical administration of public affairs demands.

BLAINEISM.

Republican politicians like Senator Blaine are clamorous for the payment of liberal subsidies.

We marvel not at that, because there is a rich placer of profit for interested parties beneath all such appropriations of public money.

To enrich the few at the expense of the many is the proper interpretation of subsidy.

Commerce needs nothing of the kind, as fictitious aid so bestowed would deaden general prosperity instead of invigorating it. Competition based on perfect freedom of action is the thing wanted. Give American enterprise and intelligence such an opportunity and ere long our national ensign would again be the emblem of maritime power over every sea.

The welfare of all, not the emolument of a favored few, is both Justice and Democracy.

It is shown by the last statistics of our foreign carrying trade that less of it is done by American citizens now than at any time within the last thirty years, except during the period of the war. Out of 4,682 sailing vessels engaged in carrying our products only 884 are American. Of the 698 sailing vessels running to the West Indies and South America 444 are American, but nearly all are small schooners which might properly be ranked as coasters. Of the 560 steamers doing our marine carrying business 46 are American, and of these only 14 are in transoceanic trade, the others trading to Mexico and the West Indies. It is estimated by the statistician of the New York Produce Exchange that the freightage on American commodities exported in 1879 was $88,304,000, and that the freight money paid on return cargoes amounted to $45,000,000, making $133,000,000 earned in the American ocean carrying trade in a single year. A writer, who has devoted much attention to this subject, says that American ships would have received about $110,000,000 of this sum if they held the place they once occupied. As it was, they got only a little over one fifth of it.

When President Grant was domiciled in the White House and disposed, like the African gentleman, to take "all that was guv," presents were frequently sent him in the shape of pups. The style appears to have become fashionable and distinguished, as we notice by foreign advices that a Japanese official recently arrived in Berlin direct from Yeddo, bringing as a gift to Her Majesty the German Empress a couple of rare Japanese dogs," long-haired and silky, snowy white in color, with a few black spots on the body, coal-black heads, and lustrous eyes the size of a two-shilling piece." If Grant had been nominated at Chicago instead of Garfield, what a glorious addition might have been made to the canine population of America.

STEAMERS FOR LIBERIA.

The great continent of Africa is the only virgin soil yet undeveloped on the face of the globe. Germany, France, England and Spain are giving impetus towards its civilization. America, the parent of the Liberian Republic has thus far been indifferent in advancing their interests, therefore we are pleased to notice the following article taken from the New York press, in which one of our fellow citizens has taken an active part:

Articles of incorporation were filed at Albany last week for the New York, Madeira and West Coast of Africa Steamship Company. The incorporators are Hon. William E. Dodge, Henry M. Schieffelin, John D. Fish, F. A. Potts, Algernon S. Sullivan, Joseph W. Yates, F. S. Lathrop, Robt. Potterfield and Lorenzo O. Yates. The purpose of the company is declared to be the establishment of a line of steamships for passengers, mail and freight between New York, Madeira, St. Thomas, Teneriffe, Cape de Verde, the Western Islands, the Canary Islands and the ports of the west coast of Africa. The capital stock is $4,000,000 00, and the company is to continue for twenty years. The company was organized in this city on Monday. J. W. Yates was elected President; Ambrose Snow, Vice President; Chas. T. Geyer, Secretary, and Jas. D. Fish, President of the Marine National Bank, Treasurer. Mr. W. E. Dodge said yesterday of the enterprise: "There is a strong and increasing movement among the colored people of this country to Western Africa. The shortest time in which they can now reach their destination is forty days, and as communication is entirely confined to sailing vessels this is very uncertain, and it is in any case entirely too long to meet the demand. With a regular line of steamers we are satisfied this traffic will largely increase. The mails carried in our steamships will put people in Liberia in so much closer communication in time with their friends in this country that the people will be more willing to go, arrangements can be effected quicker and the emigration will rapidly increase. Already a good many natives of Africa and these Atlantic islands come to this country to be educated, and after spending a few years here return and take high positions in the communities from which they come, as doctors, teachers, merchants and traders."

Mr. Yates was found at his office, No. 115 Wall Street. He said: "The company are already actively at work. But it is too early yet to give all the details, as many of them have yet to be decided upon. We have not determined whether to buy or build our steamers, or, in case we build, where to build. The steamers will be first-class as to safety and speed and of about two thousand tons burden, perhaps somewhat less. The amount of trade with these islands and the West coast of Africa is much larger than is generally supposed, but the trade is chiefly in the hands of the English, French and Germans. American goods, are, however, popular, and traffic with American ports is constantly increasing, and with steamship facilities we can compete with any other nations. Our chief exports to these islands and Africa are grain and provisions of all kinds, the entire range of canned goods, cured meats, dry goods of all varieties, agricultural and mechanical implements, tobacco, powder and arms, and our principal imports are palm oil, ivory, rubber, hides, cochineal, the finer qualities of dye woods, sugar and coffee. We get very superior coffees from Liberia and St. Thomas. The ports in Africa which we will touch are Sierra Leone, Monrovia, Bassa, Cape de Palmas, River Gaboon, St. Paul de Loanda, Ambres and Cape Town. We find the greatest demand for agricultural implements and all sorts of improvements at Sierra Leone, the towns of Liberia and at Cape Town. The goods we bring back to this country come almost entirely from the interior, but that part of the business has been and will be carried on by resident agents in the African ports. The trade with the natives is almost altogether by barter. The distance from New York to Cape Town by the proposed route is about 9,000 miles. The firm of Yates & Porterfield have found, by their long experience in the West African trade that the business is intricate and peculiar, and the only way that it can be carried on successfully is by training their captains, mates, agents and officers to the business, by bringing them up in the ranks. Many efforts to trade with Africa have failed because of ignorance of this necessity. Mails from this country to the Atlantic islands and Africa are now carried by way of England. European traffic with Africa and these islands is largely carried on in steamships."

MR. EDMUNDS ON BIENNIAL SESSIONS.

Senator Edmunds, of Vermont, has lately written a letter to a Massachusetts inquirer in which he says: "I do not think the change from annual to biennial sessions of the Legislature in Vermont has done good, but the reverse. I am satisfied that it has resulted, in connection with the one-term idea which came in with it, in having a smaller proportion of the members of former experience, and, in respect of the re-elected members, has left them in a condition of less memory of, and acquaintance with, previous legislation, &c., than they had under the annual system. I believe, also, that, even in our little State, the general value of annual sessions, compared with biennial, is great in respect of keeping up personal acquaintanceship, communion, and interchange of ideas upon all topics, from the simplest agricultural and school-district affairs to the broadest ones of finance and politics, among the citizens who thus assemble. Again, even in so simple a community as ours, the frequent critical observation and overhauling of every department of administration, is, I think, of immense value as a preventive as well as a corrective of bad or negligent administration. In all these respects, and many others that may be mentioned, I think the annual meetings of the representative men of a commonwealth are worth a hundred times what they cost."

CASHIER BERRY'S SENTENCE.

HACKENSACK, Feb. 5.—Cashier John J. Berry, who pleaded *non volt contendere* to eight indictments charging him with the embezzlement of $119,000 from the Bergen County Savings Bank, was to-day sentenced to five years at hard labor in State prison on each indictment, the terms to run together. Mr. Berry was not apparently affected by the sentence, which was pronounced by Judge Dixon in the fewest possible words. The people regard the sentence as too light. The bank of Bergen County will pay its first dividend of fifteen per cent. on the 19th, and it is said that the full payment will reach forty-five per cent.

THE ELECTORAL COUNT SETTLED.

WASHINGTON, Feb. 8.—The House today passed the Senate concurrent resolution for counting the electoral votes. The only opposition manifested was to the second branch of the resolution, which provides for the announcement of the result both with and without the State of Georgia, with the declaration that the persons elected are the same in either case.

The following is the full text of the resolution as adopted:

Resolved, &c., First—That the two Houses of Congress shall assemble in the hall of the House of Representatives on Wednesday, the 9th of February, 1881, at 12 o'clock meridian, and the President of the Senate shall be the presiding officer; that one person be appointed a teller on the part of the Senate and two on the part of the House of Representatives, to make a list of the votes as they shall be declared; that the result shall be delivered to the President of the Senate, who shall announce the state of the vote and the persons elected to the two Houses assembled as aforesaid, which shall be deemed a declaration of the persons elected President and Vice President of the United States, and, together with a list of votes, be entered on the journals of the two Houses.

Second—That if it shall appear that any votes of electors for President or Vice President of the United States have been given on a day other than that fixed for casting such votes by act of Congress, in pursuance of the Constitution of the United States, if the counting or omitting to count such votes shall not essentially change the result of the election, they shall be reported by the President of the Senate in the following manner: "Were the votes of electors cast on the ——day of——1880, to be counted, the result would be for A. B. for President of the United States——votes and C. D. for President of the United States——votes; if not counted, the result would be for A. B. for President of the United States——votes, and for C. D. for President of the United States——votes; but, in either event,——is elected President of the United States." And in the same manner for Vice-President.

In accordance with the above on Wednesday last, James A. Garfield was declared President of the United States and Chester A. Arthur Vice President.

The editor of a Nevada newspaper, writing from a camp in the mountains, says;—"As we climb the hill on snowshoes we can hear the gold below howling for quicksilver. The wind here is a holy terror to people who were raised in a dead calm. A puff will turn a dog inside out, and several stage companies have been busted by trying to keep paint on their wagons." That throws our Plainfield gold diggins completely in the shade. The wind sometimes howls around these parts, but the oldest inhabitant never heard gold doing the like. We yield the palm to Nevada.

OUR TRENTON LETTER.

(From our Trenton Correspondent.)

TRENTON, Feb. 8, 1881, 4:30 P. M.

The House has just adjourned to permit the committee on municipal corporation to hear argument pro and con on the Jersey City bridge bill. The Assembly chamber is full. Thos. McCarter is now speaking in behalf of the Morris Canal company. Attorney-General Gilchrist, J. W. Taylor and others are all here. The committee say that they will sit until 12 o'clock *p. m.*, if necessary, to hear all that may be said on both sides, after which the committee will report the bill, if favorably then, it will come before the House upon its merits. It will hardly come up for final passage this week. No very important legislation has taken place this week. The Senate has passed a number of bills: The General bill for Counties, which was amended in many particulars, among others to give Freeholders $150 per year in lieu of the $3 per diem; also a bill to allow Railroads to build and operate Telegraph lines, and fixes the rates; also a bill in reference to the publication of the laws that the Secretary of State shall only send to the paper for publication only such laws as are general in their character and such as are of special interest to the County in which it is to be published; also a bill to reduce the salary of the Secretary of State to $6,000, and $3,000 for his assistants.

The Governor is yet confined to his house by sickness, although he is now convalescent and will be able to attend to his duties in the State House next week. There have been no appointments sent into the Senate yet. All the applicants are yet on the anxious seat. The Governor is said to be an excellent listener, and singularly non-committal; his intentions are certainly well and securely kept within his own breast, as no one seems to know any of them. The question of Biennial session has not yet taken shape in a bill, nor the Redistricting measure.

FEB. 9th 1881.

The discussion on the Bridge Bill was heard before the Committee last evening until 6.30, and then from 7:15 p. m. until 11 o'clock. The bill was reported this morning by the Committee without recommendation. It was on its second reading laid over until next Tuesday afternoon. Sen. 88, to publish only the general and special public laws passed the House to-day. It has been decided that a joint meeting will be held Feb. 16, to appoint Com'rs of Deeds &c. The Governor has re-appointed James A. Yard as R. R. Commissioner. This is the first of his appointments. Gen. Sewell's bill to acquire title to lands for building depots, &c., is the only bill of importance passed to-day. In the House the Plainfield Fire Dept. bill was on two readings recommitted for amendment.

Surplus, $9,228,294; an increase of One and Three-quarter Millions of Dollars in 1880.

New business, $35,170,805; an increase of over Eight and a half Million Dollars in 1880.

Amount paid to Policy-holders and their representatives during 1880, $4,792,937.

A liberal surrender value in paid-up insurance is provided for in all ordinary policies, in case of forfeiture.

Tontine Savings Fund Policies may be terminated at the close of certain defined periods, on terms more advantageous than upon any other plan. These policies prove more profitable to the policy-holder than any other form of insurance.

Actual examples can be furnished at the Society's office, of persons being insured for ten years, and then upon terminating their Tontine Policies, receiving cash in some instances equal to the whole of the premiums paid; in others, nearly all.

No technicalities nor arduous conditions in policy contracts.

Policies incontestable after having been in force for three years. All such incontestable policies will be paid at maturity, without rebate of interest, immediately after the receipt at the Society's office in New York of satisfactory proofs of death, together with a valid and satisfactory discharge from the parties in interest, and without requiring any delay, even for sixty or ninety days, as has been the custom heretofore, and is still usual with other companies.

The Choice of Books.

A very elegant little volume with the above title, by Charles F. Richardson, is just issued by the American Book Exchange, Tribune Building, New York, at the very low price of 25 cents; also a cheap paper edition at the nominal cost of five cents. It will delight all who love good books, and its wise suggestions will be greatly helpful to all who want help in choosing the best books. In its various chapters it treats of The Motive of Reading, The Reading Habit, What Books to Read, The Best time to Read, How Much to Read, Remembering what One Reads, The Use of Note Books, The Cultivation of Taste, Poetry, The Art of Skipping, The Use of Translations, How to Read Periodicals, Reading Aloud and Reading Clubs, What Books to Own, The Use of Public Libraries, The True Service of Reading. The volume is remarkably rich in striking quotations from the world's most famous authors and thinkers, from Aristotle to Emerson, including such names as Addison, Bacon, Burns, Cato, Carlyle, Disraeli, Fenelon, Gibbon, Hugo, Keats, Lamb, Locke, Luther, Milton, Petrarch, Ruskin, Shakespeare and Thoreau. It is a real literary treasure house.

Notice is hereby given that Charles Zimmer has made application to the Common Council of the city of Plainfield for a saloon license to sell spirituous and fermented liquors at No. 19 West Front street, and that said application is signed by

Samuel Dreier,	Henry Piker,
Werner Heidsdorf,	Joseph Unany,
Sophia Zimmer,	George Sueck,
G. J. Marshall,	Andre Zehra,
John A. Schaek,	Florrid Wormser,
Christopher Becker,	

as citizens and freeholders. Any persons knowing of any good reason why said license should not be granted are hereby notified to certify the same to the undersigned, or either of them, in writing, on or before the 7th day of March, 1881, on which date action on said application will be taken by the Common Council.

AN ORDINANCE

Of the Township Committee of the inhabitants of the Township of Fanwood, in the County of Union and State of New Jersey, to license, regulate and prohibit inns and taverns of spirituous vinous, malt or other strong or intoxicating liquors, and to license and regulate hawkers, pedlers and slaughter houses in said Township. Be it ordained by the Township Committee of said Township as follows:

Sec. 1. No spirituous, vinous, malt or other strong or intoxicating liquors shall be sold directly or indirectly, and no hawker or pedler shall sell any article of merchandise, except such hawker or pedler as may have been or shall be licensed by the Governor, and no slaughter house shall be erected or maintained in the said township of Fanwood without license for such purpose respectively first obtained from the committee of said township as hereinafter provided.

Sec. 2. Licenses for any of the purposes stated in the foregoing section of this ordinance may be obtained by application in writing, approved by ten (10) freeholders of said township, to the township committee of said township at any meeting of said committee, and shall state for what purpose the license is required; in case of application to keep an inn or tavern to sell any of the liquors aforesaid, or to build or maintain a slaughter house, the location of such inn, tavern or slaughter house shall be stated and the license, if granted, shall apply only to the building named in the application.

Sec. 3. Said township committee shall consider each application and grant or refuse the same as a majority of said committee may think proper; all licenses shall be signed by the chairman of the township committee and attested by the clerk and sealed.

Sec. 4. Whenever and application for a license shall be made and refused, the applicant or applicants shall not have power to apply for a license for the same purpose within one year from the time of the first application.

Sec. 5. The fees for licenses shall be as follows: For license to keep an inn and tavern to sell any of the liquors mentioned in this ordinance, the sum of thirty dollars.

For license as hawker or pedler the sum of five dollars.

For license to maintain a slaughter house the sum of five dollars to be paid before said license is delivered to the applicant.

Sec. 6. All persons to whom licenses are granted shall be subject to all ordinances, rules and regulations concerning the same that are in force at the time such licenses are granted, and such other ordinances, rules and regulations as may be afterwards made.

Sec. 7. Licenses shall not be transferable, and shall only protect the persons to whom they are granted and their servants and agents, and shall remain in force for the term of one year from the time when dated.

Sec. 8. Any person violating any provision of this ordinance shall upon conviction be punished by a fine of twenty (20) dollars for the first offence and for the second offence by imprisonment in the County jail for the space of ten days.

Sec. 9. All actions for violation of this ordinance shall be prosecuted in the corporate name of the Township of Fanwood, and all fines and license fees collected shall be paid to the treasurer of the township for the use of the township.

Sec. 10. Nothing in this ordinance shall be construed to interfere in any way with the ordinary business of druggists.

Signed this 8th day of February, 1881.

JOHN J. MARSH, Chairman,
J. A. BAKER, Town Committee.
Town Clerk. feb11w2

A LECTURE

Will be delivered at Plainfield, N. J., and Washington, D. C., (time and places to be noticed hereafter) by

W. E. SMITH, Esq.,

now of New Brooklyn, N. J., Barrister-at-Law and Queen's Counsel of N. S. & C. B., and Counsellor-at-Law of New York Supreme Court, on the "Laws of New Jersey" and their administration, and the "Bureau of Pensions" in the Interior Department at Washington. The following critical notice of one of Mr. Smith's many Lectures on the maladministration of Law and Justice, speaks for itself:

[From the St. John, N. B. Courier, Oct. 1868.]

THE LECTURE.

We last evening attended the lecture of W. E. Smith, Esq., Barrister-at-Law and at Queen's Counsel of and from the Provinces of Nova Scotia and the Island of Cape Breton, B. N. A., and Counsellor-at-Law of the New York Supreme Court and applicant for pension allowed for wounds received, [illegible] for 7 years past) during the last war as a soldier in the American army, upon Law and the maladministration of Law and Justice in the Courts, [illegible]. Thos. Ritchie presided as Chief Justice. Such a Lecture was quite a novelty here, and created much excitement and secured the attendance of a large and highly respected audience, consisting of Judges, Lawyers, Dignitaries from the Capitol, &c.

Mr. Smith's manner of opening his Lecture was [illegible] and he displayed much talent and [illegible] throughout as to the laws of Nature and present days. From this he proceeded to the conduct of the Judges in his matters and doings and rulings, &c.; and these cases were disgusting to every [illegible], [illegible] as they were by documentary proofs, while others, from their [illegible], provoked roars of laughter, particularly that of the pig stealing. Mr. Smith's manner of showing up the conduct of the Judges was most [illegible] and though he dealt with [illegible] severely, yet those well acquainted with the Penitentiary said he dealt with them justly. Many passages of the lecture [illegible]. We would advise Mr. Smith to adhere to the law, however great may be [illegible], and he is not to be discouraged by the [illegible]; [illegible] truth and justice will prevail. [illegible] wish the Lecturer well, and we should like to hear another on the same theme, for our Courts want his attention.

Justice.

REIMS, March 15th, 1880.
GENTLEMEN:—Having learned that certain reports, seriously reflecting on the antiquity and authenticity of our House, are being circulated in the commercial World, we feel bound in the interest of our House to publish the following remarks:
At the end of the year 1852 the agreement of partnership of the firm of P. A. MUMM & CO., Reims, having come to an end, the principals separated and each one founded a new Firm.
Mr. JULES MUMM, OF COLOGNE, *retaining the business premises of the old Firm,* founded a new Firm under the style of
JULES MUMM & CO.,
Mr. G. H. MUMM, OF FRANKFORT ON THE MAIN, also founded a new Firm under the style of G. H. MUMM & CO.
These facts prove incontestably that we have the same origin and are as old a Firm as our namesakes.
We have thought it right to inform you of these circumstances which will enable you to appreciate the true state of the case and to contradict all contrary assertions.
We remain, Gentlemen,
Faithfully Yours,

SURROGATE Gerber has admitted to probate the will of the late August Smith. Mr. Joseph A. Blatz is the Executor.

THE celebrated stallion "Le Grande" owned by Mr. Mahlon Vail, of New Market, is dead. He was valued by his owner at $7,000.

MR. Joseph Blatz, administrator of the late August Smith, will sell the personal effects of the latter at public auction, on Wednesday next.

A SPECIAL prayer-meeting was held in the Holly Tree Inn, during last Monday evening, its object being the offering up of supplications to free the city of the evils of intemperance.

IN another column will be noticed the advertisement of the Health Board of North Plainfield informing the inhabitants of the Township where and when they can be vaccinated.

SOME careless person, having no fear of the law, will get in trouble yet if they don't put bells on their horses when driving with a sleigh. A city ordinance imposes a penalty on all such.

NEXT Thursday evening, in St. Mary's Hall, will be held a public meeting of the Plainfield Land League. Prominent speakers, whose names were announced last week, will address the gathering.

As was just and expected, the Union County Court of Oyer and Terminer has granted a new trial for Johnson the murderer of Williams, in this city. It will be commenced during the May term.

TWO brothers engaged in the business of peripatetic vegetable selling in this city, and not unknown as artistic dancers, fall heirs to about $2,000 each, some time ago, and recently received the money after the usual lawsuit.

WE understand that Mr. Oldman, who was so seriously injured two weeks since by a mass of coal falling upon him, while at work in Cook's coal yard, is improving rapidly and will recover, although one hand has been amputated.

THE populace of Mt. Bethel and its vicinity are anxiously awaiting the coming of Monday evening, Feb. 21st, at which time a Masquerade Ball in the Hall at that place, will call together its youth and beauty for fun and enjoyment.

A PARTY of roughs from Sterling, N. J. made night hideous with their loud and profane language and fighting on Somerset street, last Saturday night. No policeman put in an appearance until the gang had crossed into Somerset County.

PHOTOGRAPHER Langhorn is busily engaged on a large picture he is making to contain the photographs of 75 members of the Plainfield Saengerbund. He intends to finish it in time for exhibition in the Society's rooms on the night of their Ball.

SIXTEEN double and single, sleigh, cutter, sled and bob loads of animated humanity of all ages and both sexes, passed through this city on Tuesday afternoon last. They are credited with being the out-pourings of a Bound Brook Sunday School.

NEITHER inclement weather nor severe frost can avail against the ability of Mr. J. Newton Jenkins. That gentleman, last week, in spite of frozen ground, moved the building of Wm. Addis' on North Avenue, in a manner entirely satisfactory to all concerned.

THE old established firm of G. P. & C. E. Brown & Co., of No. 321 Canal Street, New York city, are doing some of the finest decorative work in wall papering in the country. Their assortment of styles is most various and their prices entirely satisfactory.

AN entertainment will be given in Dunellen, by Prof. Bartow, on the evening of Thursday the 17th inst. for the benefit of the R. C. Church of that place. It will commence at 7:30 o'clock in the School Hall, admission to which is placed at 25 cents.

SEVERAL narrow escapes from being run over by drivers of fast horses on our main thoroughfares have occurred during the recent sleighing carnival. The practice indulged in by young boys, and even girls, of catching a ride on passing sleighs should be stopped by the police.

MR. E. P. Thorn of the Mansion House has been appointed agent for Jules Mumm & Co's. champagnes, in this vicinity. By purchasing of him, a reduction in the usual price will be secured, express charges from New York saved and the risk of breakage during an extended shipment, avoided.

SIXTEEN couples of married people from Tottenville, Staten Island, came to this city on a sleigh ride last Wednesday, under the leadership of Mr. John Henry, a former resident of Plainfield. The party stopped at the Mansion House, where mine host, Edd. Thorn, furnished them with a bountiful dinner.

A CATASTROPHE at Mr. Geo. W. Rockfellow's grocery last Monday made work for the glazier. A kitten-cat reposing in the show window turned over in its sleep, thereby upsetting a chest of young hyson that toppled into the street through a large pane of glass. This brand of tea is quite popular with 'Rocky's' customers who suffer with headache, as it is warranted to take the pain out.

WE are glad to learn that generous hearted citizens are contributing toward making up the deficiency necessary for the completion of Muhlenberg Hospital. This institution is a needed one in Plainfield, as witness the case of poor Oldman whom it was necessary to remove to Elizabeth Hospital for treatment after his unfortunate accident in Cook Bros. coal yard a couple of weeks since. Help the good cause along, all you that are able.

THE "Jolly 3" and their friends and acquaintances, which includes all the fair women and charming men of our city, will unite in a general good time at Laing's Hall on next Wednesday evening. Admirable dance music by Prof. Franze's orchestra and a bountiful supper, are among the tempting attractions of the occasion. The reputation already achieved by this trio, as capable managers, will assure all who attend that many hours of continuous enjoyment will be experienced.

THE New Jersey Historical Society, at the annual meeting held at Trenton on Wednesday last, elected the following officers for the ensuing year:

President—Samuel M. Hamill, D. D., Lawrenceville.

Vice President—John T. Nixon, Trenton; John Clement, Haddonfield; Samuel H. Pennington, M. D. Newark.

Corresponding Secretary—Wm. A. Whitehead, Newark.

Recording Secretary—Wm. Nelson, Paterson.

Treasurer and Librarian—Frederick W. Ricord, Newark.

Executive Committee—Marcus L. Ward, Newark; John Hall, D. D., Trenton; Samuel Allison, Yardville; N. Norris Halsted, Kearny; Joel Parker, Freehold; Joseph N. Tuttle, Newark; George Sheldon, D. D., Princeton; David A. Depue, Newark; Nathaniel Niles, Madison.

THE February thaw commenced on Monday.

THE Common Council do not meet again until Spring.

WASHINGTON'S Birth-day, Feb. 22d, is the next legal holiday.

THE sleighing for the present, is about done with. Plenty of time to have more snow.

PAY your taxes before Feb. 20th, after which date a list of all delinquents will be published.

THE attendance of "outsiders" at the Council meeting of Monday evening, was unprecedented.

THE extent of the ice harvest having been seemingly settled, isn't it about time we heard from the peach crop?

VALENTINES addressed to children should be in care of their parents to insure correct distribution at the post office.

FOURTEEN hundred and twenty extra patrons, accompanying sleighing parties, have been fed at Laing's Hotel during the past six weeks.

CADMUS & ROBERTS rightly deny that a sleigh was procured at their Livery Stables to convey the small pox patient to North Plainfield.

MANY attractions never before offered the public will add to the pleasure of those who attend the Saengerbund Masquerade on the 21st inst.

THE ordinance requiring the taking out of licenses to run hacks, stages and expresses, is declared by the Common Council to be null and void.

ACCORDING to the homœopathic principal that like cures like, it is reported that all the bees have been killed by the stinging cold weather of late.

TWO weeks from Monday is the last day of Winter. Tickets for excursions to Ocean Grove and elsewhere printed at this office at reasonable rates.

THE "Boy Incendiary" Charley Vail, died at 4 o'clock a. m., Tuesday from injuries received when endeavoring to jump on a moving coal train in December last.

LAST Sunday at the Trinity Reformed Church was made especially memorable by the administering of the Communion and the reception of seventeen new members into the Society.

THE Pennsylvania Railroad has discontinued the use of the word "depot" and substituted "station" therefor, as more properly expressing the idea of a place where trains stop for passengers.

THE "old folks" of St. Mary's Parish will hold another Sociable at the Hall on Monday evening next, whereat the merry strains of Kerrigan and his silver pipes will contribute to the universal pleasure of all.

IMMEDIATELY following the many petitions sent into the Common Council by the churches against the granting of liquor licenses, four new applications were handed in and five previous ones granted.

THE conveniences and comforts of the dancing and dining halls at Mr. Joseph Blatz's Hotel on Somerset street, will induce a large gathering to attend the ball to be given at that place, next Monday evening.

NEW Jersey strawberries are selling in New York at $8.50 per quart. We made ourselves sick of them last week by eating too many, in order to prevent their being devoured by the swallows in our garden.

CADMUS & Roberts, Livery merchants, inform us that the price of hay is now $— per ton and straw $20 per ton. It takes a large quantity of this fodder and bedding to accommodate the above firm's large stock of horses.

THE CONSTITUTIONALIST office is visited frequently by curious patrons and friends to see the presses running by steam power. A cordial invitation is extended to the public to call and inspect our comfortable quarters at all times.

W. E. Smith, Esq., a resident of New Brooklyn, Middlesex county, advertises in another column that he will deliver a lecture on the maladministration of certain laws by the Government at some future date. Go hear him at the time.

THE first of a series of four Franz Rummel matinee recitals, will take place next Thursday afternoon at 2:30 o'clock, at Steinway Hall. The programme includes many difficult selections from the works of Beethoven, Bach, Mendelssohn and others.

THE St. Mary's T. A. B. Society's ball on the evening of Thursday, Feb. 24th, will close the succession of such amusements for the season. This last chance to float through the fascinations of the dance, should not be neglected by the young and merry.

GOV. Ludlow's first appointments were sent into the Legislature on the 8th, consisting of Major James S. Yard, of Monmouth County, as State Commissioner of Railroads and C. E. Stahl as Translator of the laws into the German language. They were confirmed.

A FOUR horse sleigh load of members of Zephyr H. & L. Co. No. 1 went to New Brunswick last Tuesday evening on a visit to Good Will Band. They were welcomed in a right royal manner by the New Brunswickers, and returned safely home "early in the morning."

THE pressure was so great that the Legislative Committee, appointed by the Governor to frame a bill for the government of cities, towns and villages, have stricken out the clause providing for the transfer of the fund of Firemen's Benevolent Associations to the charge of the authorities of the cities, towns and villages.

SATURDAY evening last a number of persons were indulging in coasting on Cliff street, Somerville. While crossing the street, Mr. David M. Sutphen, a prominent young lawyer of the place was struck by a swiftly descending "bob" sled, filled with passengers, and knocked down, receiving such injuries that he died on the following Tuesday.

THE River and Harbor Appropriation Bill, just reported to Congress, Congressman Ross Chairman of the Committee, contains the following items of interest to our citizens: Rahway River $10,000; Elizabeth River, $4,500; Raritan Bay, from Perth Amboy to South Amboy, $60,000; Raritan River, $25,000; South River $6,000; Passaic River, $50,000.

WE call particular attention to the announcement of the Equitable Life Insurance Company, of New York, in this week's issue of THE CONSTITUTIONALIST. This Company undoubtedly ranks highest in the land for soundness. Mr. Richard Garretson is agent for the Equitable in New Jersey, and has taken out already several policies in Plainfield. We advise all who contemplate insuring their lives to consult him.

AN old resident of this city, who has recently been occupying a house on Broadway belonging to Mr. Lee, moved himself, his family and everything else that was portable, down South one day last week, without his landlord's knowledge. The water pipes and tank inlet were left open, in consequence of which a general freezing up resulted and a universal pipe bursting took place. The owner of the premises discovered the state of affairs only after much damage had been done.

THE coachman of Mr. Chas. Hyde had a narrow escape from serious injury on Thursday morning last. In attempting to turn his carriage around in front of the residence of J. B. Coward, Esq., the vehicle was upset and the driver imprisoned in such a way beneath it, that had the horse run away he would have been seriously injured. He was released from his perilous position by passers-by, Messrs. John N. Schenck, and an employee of Mr. D. J. Boice. The vehicle was considerably damaged.

A TROTTING match between Mr. W. H. Kidder's horse Hohenstaund Peralto will take place at the Waverly Park Course on May 15th, for $1,000 a side.

THE recently elected officers of the police force will meet this Saturday evening at 7:30 o'clock, at the office of City Clerk, to take the required oath of office.

THERE is a strong feeling among the firemen regarding the proposed amendment to the Rules and Regulations of the Fire Department introduced by Mr. Meyer, providing for the selection of a Chief Engineer by the Board of Fire Commissioners instead of by the firemen themselves, and to make the office a salaried one. Such a plan would undoubtedly be the means of breaking up the Department as was the case with Rahway, when it was tried there. It is about the only privilege the firemen have in payment for their arduous duties, to select their own rulers, except perhaps it be to pay for their own uniforms and receive the condemnation of a certain class of people who the evil one himself could not please. The resolution should be withdrawn.

Moderate Drinking, &c.

How not to cure drunkeness by "Moderate drinking;" and the present duty of the people of Plainfield on the temperance question, will be discussed at the Seventh-day Baptist Church on Sunday evening, Feb. 13th.

A Many-Tongued Almanac.

We have received from the long founded and far famed house of Dr. Ayer & Co., Lowell, Mass., a handsomely bound copy of the Almanac for 1881, arranged to suit various sections of the globe, and printed in nine different languages, namely:—English, German, Dutch, Norwegian, Swedish, French, Spanish, Portuguese and Bohemian. The medicinal remedies prepared by Dr. Ayer & Co., have a standard reputation, and the book before us not only attests enterprise and ability, but proves their demand to be world wide. It is not inappropriate to add, that a former esteemed resident of Plainfield, Charles C. Dawson, Esq., now fills a highly responsible position in the great establishment of Ayer.

Episcopal Visitations.

Bishop Scarborough of the Episcopal Diocese of New Jersey will make his annual visitations for the purpose of confirmation as follows:

St. Luke's parish, Metuchen, on Wednesday in Easter Week, April 20.

St. Peter's, Perth Amboy, on May 20, and on the day following at Church of the Holy.

Christ Church, South Amboy, on Ascension Day, May 26.

The Last Recital.

The programme of the last Feininger-Evans Recital on Tuesday evening next, which we publish to-day, cannot fail of attracting a large attendance. The artists are all most talented in their particular lines, and the attention of those interested in music will be drawn to the excellent selections composing the entire programme, surpassing even that of the two former occasions. A deal of pleasurable music is promised, and for those who do not appreciate the classical composition of the old masters, a chance is given to enjoy more popular and modern compositions artistically rendered. Among the most interesting numbers is to be mentioned the sextette for voice, piano and stringed instruments, forming as it were, an exceedingly harmonious ensemble.

Vennor Scores One Against Himself.

Vennor, the weather prophet, has written the following letter in explanation of the way in which he did not know anything of the recent storm:

"The date given for the commencement of 'The Thaw,' in my general prediction for this winter, is 'out,' but the general position given to it as a whole, namely, in February, will, I think, yet prove correct. My February probabilities contain the great breaks in the winter, and possible disappearance of snow and sleighing, not those of January. In other words, while admitting the Head of the Thaw to have been misplaced, it is my belief that the body of the same will occur just in the place assigned to it in my almanac. However, let all observers score one against me, and go on reading as closely as they will. February and March—particularly the latter month—will furnish severe tests of my weather theory. As for these, my probabilities are given in considerable detail."

International Commission Reception.

A large number of the representative capitalists and professional men of New York and other cities, together with some of the most prominent public officials of the United States, responded to an invitation from the United States International Commission of 1883 to meet Gen. Grant in Delmonico's last Saturday evening, the object of the gathering being to afford the commission an opportunity to urge upon the public the claims of the proposed Exposition to general support. Mr. Frederic A. Potts, late candidate for Governor, Gen. Wm. H. Sterling and others represented this State; while the attendance included the Consuls of Great Britain, Turkey, France, Spain, Brazil, Holland, Chili, Venezuela, Greece, Sweden and other nations.

General Grant received the guests in one of the parlors of the suite secured for the reception. So many pressed forward to shake his hand, it was after eight o'clock before an adjournment was made to the large audience hall where the meeting was called to order by Cornelius N. Bliss, Esq. After all had been seated Mr. Bliss arose, and, amid great applause, named Gen. Grant as the presiding officer of the meeting. Gen. Grant said: "Gentlemen, I could not, if I were to try, present to you the object of this call this evening any better than you know it, each and all of you, nor yet nearly so well as the gentlemen whom I will call upon. First, therefore, I will proceed to call upon Mr. A. S. Sullivan, who will present to you the object of this call." (Applause.)

Mr. Sullivan spoke of the prospects of the fair and was followed by Messrs. E. W. Stoughton and Wm. E. Dodge.

Cornelius N. Bliss then presented a report of the labors of the Finance Committee. He said that there had not as yet been that systematic canvassing that was intended. The total amount of subscriptions thus far was $222,500. Arrangements had been made to procure the co-operation of the great railroad companies and others who were expected to subscribe. He had no doubt that $2,000,000 could be raised in subscriptions of $10,000 and $5,000 each. Gen. Grant arose and requested all to remain and partake of the hospitalities of the commission. It was not, he said, intended to ask for subscriptions at the meeting, but merely to explain the condition and prospects of the proposed Exposition. Nobody should, therefore, feel any delicacy about not responding to such a call. Subscriptions were announced of $5,000 each from Wm. E. Dodge and Frederick A. Potts, and the assemblage adjourned to the dining room, where an excellent collation had been spread.

The Governments of the following nations have announced their intention to accept the invitation to make exhibits at the World's Fair: Spain, Venezuela, Norway, Sweden, England, Denmark, Greece, Turkey, France, Guatemala and Austria.

Common Council Proceedings.

MONDAY EV'G, Feb. 7, 1881.

The Council met in regular meeting.

Present—Coriell, Darling, Flanders, Finch, Guion, Hamilton, A. H. Smith, Tyler, Waring, Whiton. Absent—R. Smith.

President Whiton in the chair.

Minutes of the previous regular, two special and two adjourned meetings, were read and approved.

Mr. Tyler presented the following communication from Chas. Hand and others asking for the location of 4 or 5 lamps on Second street, between Central avenue and William street. Ref'd to Lamp Com.

By the same, the following:

PLAINFIELD, N. J., Feb. 7, 1881.

To the Hon. the Common Council:

Gentlemen:—I claim that I was elected a member of your body at a special meeting of the Council held on Saturday evening, January 29th, 1881, when nine members of the Council were present (three more than a quorum), and voted to fill an existing vacancy in your body; of the nine votes thus cast, five were for myself, which gave me a majority of one. I do not present myself to-night to take my seat, (hearing that another gentleman claims the seat) preferring to have the matter fully considered by you before doing so, through your Committee on Laws and Ordinances and Corporation Counsel, before whom I ask to have an early hearing, and to whom I desire to forthwith present arguments, authorities, decisions of Courts, opinions of law commentators and able jurists, laws bearing upon the matter, provisions of the city charter in relation to the subject, common law rules and all other matters pertaining to the question. I have taken the oath of office and duly qualified in every particular as a Councilman, in accordance with the requirements of the city charter.

Very Respectfully,
EDWARD L. MORRISS.

On motion, ref'd to Law & Ord. Com. for their determination.

Mr. Coriell presented a com'n from Messrs. Titsworth & Marsh stating that a judgment had been obtained by them against the city for $37.64 in the matter of widening Manning ave., with costs, amounting to $37.51. They would therefore request the payment of the same at once. Ref'd to Law & Ord. Com.

The Clerk read petitions presented by Mr. Finch, and signed by a large number of the members of the Park Ave. Baptist, First Baptist and Methodist Episcopal Churches, urging upon the Council the demand that no licenses for the sale of liquor be granted. Filed.

Mr. Coriell presented a like petition from Mr. H. H. Baker of 34 E. 5th St., to and with the same effect.

Mr. Finch presented applications for saloon licenses of Chas. Smith, Front St. near Somerset, Theo. T. Mullen, North Ave. near the depot, and Chas. Zimmer, Front St. Ref'd to License Com.

By Mr. A. H. Smith—Application for liquor and Inn and Tavern licenses of Werner Heidelolf, Somerset St. Ref'd to License Com.

By Mr. Flanders—Claims of Malcolm Thompson, Overseer of Poor Bernards Township, $22.16; S. E. Young, Overseer Poor Westfield Township, $4.75; Geo. W. Tewsley, $90; Alex. Warnock, $3.65, and H. H. Lowrie, (salary) $69.50. Ref'd to Alms Com.

By Mr. Hamilton, claims of Chas. W. Dodd, $58.75; R. Randolph, $41.67; R. Hapenny, $41.67; Geo. W. Grant, $15; Geo. Henry, $5, and Michael Conway, $15. Ref'd to Police Com.

By Mr. Darling—Claim of Plainfield Gaslight Co., $157.82. Ref'd to Lamp Com.

By the same—Claim of D. Thickstun, $39.52. Ref'd to St. Com.

By Mr. Tyler—A communication from His Honor the Mayor, with nominations for the several city offices of appointment. Tabled for the present.

By Mr. Darling—A com'n from the City Collector asking the Council that some remuneration be appropriated for the work of preparing such a list of delinquent taxpayers as was desired. Ref'd to Finance Com.

Mr. Flanders, from Alms Com., reported as correct claims of Mrs. J. Wilkins, $3; P. Langenbahn, $6; A. Shotwell, $25; F. Conchay, $6, and D. Hand, $180.28. Ref'd to Aud. Com.

Mr. Darling, from Aud. Com., reported correct claims of M. Thompson, $47.49; Rockfellow & Milbourn, $29.04, and A. V. Searing, $60.50. Warrants ordered drawn on Poor Fund.

Mr. Waring, from Lamp Com., reported correct claims of N. Y. & N. J. Globe Gaslight Co., $108.60 and $109.85 (bills of Sept. and Oct.). Ref'd to Aud. Com.

Mr. Tyler, from Law & Ord. Com., reported on so much of the Mayor's message as referred to the city ordinances. The committee found that the law relating to municipalities, under which the "Hack" ordinance was drawn up, had been since repealed, and recommended that the ordinance be declared void and so marked. Report accepted and recommendation adopted.

Mr. Finch, from License Com., reported that in spite of the petitions against the granting of licenses to sell liquor, that had been presented and read, a majority of the Com. would recommend that such be given Messrs. E. P. Thorn, James Connegly, P. Day, Wm. Sullivan and Fred. Caspar.

On motion of Mr. Darling, the recommendation was adopted by the following vote on each application separately: *Ayes*—Messrs. Darling, Guion, A. H. Smith, Waring, Finch, Hamilton and Whiton. *Nays*—Messrs. Coriell, Flanders and Tyler.

Mr. Hamilton, from Police Com., reported correct claim of M. Bird, $67.50. Ref'd.

Mr. A. H. Smith, from Sal's Com., reported correct claim of Jas. Maynard, $6. Ref'd.

The Mayor's communication was taken from the table, and on motion of Mr. Tyler, the rules were suspended and the nominations confirmed separately, viva voce.

The nomination of Mr. Charles W. Kimball as Corporation Counsel, was first considered.

Mr. Coriell stated that he understood the gentleman's office was in New York. He consequently thought it was injudicious to have the Counsel of the Corporation so far beyond reach. He felt, that among the large number of lawyers in Plainfield one might have been selected to fill the position.

The nomination was confirmed by a unanimous vote, excepting Mr. Coriell.

Mr. Wm. Hand, for Street Commissioner, was also objected to by Mr. Coriell who, as a member of the Street Com., did not wish to be compelled to ride a mile whenever it was necessary to meet that officer.

Nomination confirmed by the same vote.

Messrs. A. Vanderbeek, as Overseer of the Poor, H. H. Lowrie, as City Physician, Chas. W. Dodd, Runyon J. Walker and Robert Randolph, as regular police, and the following special policemen were unanimously confirmed:

Michael Conway, Albert F. Randolph, Wm. Sutton, Geo. M. Smith, Thos. Burns Thos. Callahan, Geo. W. Grant, Wm. H. Wyckoff, Stevenson H. Hope, Peter Brown, William D. Randolph.

Mr. Guion presented the following:

WHEREAS two cases of small-pox have appeared in the adjoining town of North Plainfield, and it is possible that the disease may yet appear in this city.

Resolved that the Board of Health are requested and fully empowered to take any measures they may deem necessary in such an event, as to engage suitable quarters on the outskirts of the city, and hiring necessary attendants and securing the vaccination of the inhabitants generally, and any other acts and steps which may to them appear necessary in the protection of the city from this scourge.

Adopted—all aye.

By Mr. Darling—a res. authorizing the Mayor and City Treasurer to provide for the payment of the note of $2,000, falling due the 15th inst., by issuing another of like amount. Adopted—all aye.

By Mr. Guion—a res. authorizing the Clerk to procure two minute and Bonus books for his own use, and such stationery as was necessary for the use of the Council. Adopted—all aye.

By the same—a res. requesting the City Clerk and Corporation Counsel to furnish the Printing Com. with copies of all ordinances, amendments and supplements to the charter that had been passed, and authorizing the said committee to have 300 copies of the same printed for the use of the city. Adopted—all aye.

By Mr. Tyler—a resolution declaring the *Central Times* and THE CONSTITUTIONALIST the official newspapers of the city for the ensuing year. Adopted—all aye.

The janitor was empowered to purchase a ton of coal and two barrels of kindling wood (as already ordered by President Whiton,) and a communication signed "One of the Victims" was ruled as out of order.

The Council then adjourned until its next regular meeting.

An Important Bill.

The following bill has been introduced into the Legislature at Trenton, by the Board of Fire Commissioners of this city and has passed its second reading in the House.

ASSEMBLY, NO. 122.

A further Supplement to an act entitled "An act to incorporate the Plainfield fire department," approved March third, one thousand eight hundred and fifty-four.

1. BE IT ENACTED by the Senate and General Assembly of the State of New Jersey, That [illegible]

2. And be it enacted, That [illegible]

Two of said bonds on the first day of January, in the year eighteen hundred and eighty-five;

Two of said bonds on the first day of January, in the year eighteen hundred and eighty-six;

And four of said bonds on the first day of January, in the year eighteen hundred and eighty-eight.

3. And be it enacted, That in each year next preceding the time of the maturity of said bonds a tax shall be assessed and levied [illegible]

4. And be it enacted, That this act shall be considered a public act, and take effect immediately.

The Second Small-Pox Case.

The report of a small-pox case having been discovered on Front street between Grove street and Washington ave., was, last week, provocative of much excitement and some dread. The subsequent removal of the patient to North Plainfield and its being taken charge of by the Health Board of that Township, however, served greatly to quiet all apprehension. The facts of the matter and state of the affair are as follows:

A domestic named Lydia Harding, in the employ of Mr. H. Ellis residing on Washington ave., opposite Willow, (whose premises are directly backing onto those where died recently the little girl Helen Burrows) was taken ill with attendant symptoms that authorized the supposition that small-pox might possibly result. A place was obtained for her in the rooms of a friend living in this city, where comfortable accessories and careful attendance were to be secured at the hands of a competent and experienced nurse, who had already had the disease. The action of the girl's employer in taking such a course was most natural when the presence of young children in the family is considered; but the boarding of a small-pox patient under the same roof as themselves, was decidedly objected to by the other occupants of the house to which she was taken. These tenants notified City Physician Lowrie of the affair, who immediately made an examination of the case and satisfied himself that it was small-pox. The popular feeling thus engendered impelled the nurse to take steps towards returning the patient to the house from whence she came, and late on Friday evening a sleigh was procured from a private individual in which the sick girl drove herself back alone to her employer's. Mr. Ellis, recognizing his duty to all concerned, immediately removed his entire family to New York city, and the girl was placed in his house under charge of the North Plainfield authorities. The Town physician having an unusual number of cases in hand, all more or less at a critical stage, placed the sick one in the care of Dr. G. L. Friedrich, and as a result of his attention and ability we are happy to announce a possible recovery. The same efficient endeavors for protection of the public that were used so satisfactorily during the late similar affair by the Town Committee, are repeated in dealing with the present case, and any fear of contagion is needless. There being so many rumors as to the cause of the girl's attack, it would be unjust to repeat any as authentic, but it is safe to say that the same circumstances and effects are most unlikely to recur.

Personalia.

Mr. E. L. Finch, who has been declared by the Common Council to be its new member, will be remembered as a faithful and conscientious officer in the same body during the past year.

Mrs. Mary A. Austin, mother of Chas. E. Austin of this city, died at Long Ridge, Conn., on the 1st inst., of pneumonia, in the 75th year of her age.

Councilman A. H. Smith drove a party of friends to Rahway on last Tuesday evening. That gentleman handled the ribbons over the backs of his four beautiful steppers in a manner both artistic and commendable.

Mr. A. Vanderbeek, the new Overseer of the Poor, will go out of office when his term expires, kindly remembered by the needy for his christian charity, and greatly appreciated by the public for his efficient service.

Gov. Ludlow's private Secretary, Mr. Joseph L. Naar, is a courteous official, and daily adds to his list of friends those who have occasion to call upon him.

It is with pleasure we record that Gov. Ludlow is so far recovered from his recent severe attack of inflammatory rheumatism as to be able to attend to the many arduous duties attendant upon his office.

The Rev. A. V. V. Raymond, who was so propitiously installed as pastor of the Trinity Reformed Church on Thursday evening of last week, will preach his inaugural sermon next Sunday morning.

SCOTCH PLAINS SCRATCHINGS.

On Monday last Mr. Charles Drake had the misfortune to cut his right foot while chopping wood. Dr. Coutts dressed the wound. We learn from the Dr. that it is not likely to prove serious.

Friend Brittin is sighing and looking sad at the signs of the times, viz: "The Dissolution of a Frost."

Mrs. Jos. M. Osborn, widow of the late ex-Sheriff, last Monday, met with a serious and painful accident. While out in the yard she slipped on the ice and fell cutting a severe gash almost the length of her forehead, both hands are badly hurt. Her cries attracted the attention of Mrs. H. H. Coutts who procured assistance and helped the lady into her house. She was attended by Dr. Coutts, and is doing well.

HOW TO SECURE HEALTH.

It seems strange that anyone will suffer from the many derangements brought on by an impure condition of the blood, when SCOVILL'S SARSAPARILLA AND STILLINGIA, or BLOOD AND LIVER SYRUP will restore perfect health to the physical organization. It is indeed a strengthening syrup, pleasant to take, and has proven itself to be the BEST BLOOD PURIFIER ever discovered, effectually curing Scrofula, Syphilitic disorders, Weakness of the Kidneys, Erysipelas, Malaria; all Nervous disorders and Debility, Bilious complaints and all Diseases indicating an impure condition of the Blood, Liver, Kidneys, Stomach, Skin, etc. It corrects indigestion. A single bottle will prove to you its merits as a health renewer, for it ACTS LIKE A CHARM, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

BAKER'S PAIN PANACEA cures pain in Man and Beast. For use externally and internally.

The following sound advice is from Senator Thurman: "Boys, I have been in the Democratic harness a long time. I have always tried to do right, and now I am on the eve of retiring from the Senate; but I have this to say, that the Democratic party before many years is as sure to come into power as the stars are above us, and for God's sake when you do nominate men, nominate big souled, big-hearted, generous men, whose sympathies and feelings are with the people and the country."

A CAPITAL SUBSTITUTE.

We can't be boys or girls again. Age and infirmity are sure to come, but God did not ordain sickness. That is our fault. There is no Fountain of Youth, but there is a Fountain of Health, and the other name is Dr. David Kennedy's "Favorite Remedy." It comes from Nature—from the fields and flowers, and like them is "very good." Try it for all Complaints of Women, Blood Troubles, and pains and aches everywhere. BEWARE OF ALCOHOLIC BITTERS.

Thousands have been ruined for life by drinking popular beverages, the principal ingredient of which was alcohol. Such "bitters" are deceptive in their effects; they cause intoxication and temporary relief, while they foster the drunkard's appetite. Dr. Kennedy's "Favorite Remedy" does not flush and inflame the blood; it cools and purifies it. Better than this even, it has cured many a raving appetite for drink. It will do you good, and only good, all the days of your life. All druggists sell it. Dr. David Kennedy, Proprietor, Rondout, N. Y.

Mr. Kelsey contended that the fees he received were legal, and said that he had no desire to evade the fullest and freest investigation that could be made.

THE WIFE'S LETTERS.

On a hot day in July, 1869, a herdsman was moving his cattle to a new ranch further north, near Helena, Texas, and while passing down the banks of a stream, other cattle that were grazing in the valley became mixed with his herd, and some of them failed to be separated. The next day about noon a band of mounted "rangers" overtook the herdsman and demanded the cattle, which they said had been stolen. It was before the day of law and court houses in Texas and one had better kill five men than steal a mule worth five dollars, and the herdsman knew it. He tried to explain, but they told him to "cut it short." He offered to turn over all the cattle not his own, but they laughed at the proposition, and hinted that they usually confiscated the whole herd and left the thief hanging on a tree as a warning to others in like cases. The poor fellow was completely overcome. The Texans consulted apart for a few moments, and then told him if he had any explanations to make, or business matters to attend to, they would allow him ten minutes' time. He turned to the rough faces and commenced:

"How many of you have wives?"

Two or three nodded.

"How many of you have children?"

They nodded again.

"Then I know who I am talking to, you'll hear me;" and he continued:

"I never stole any cattle. I have lived in these parts about three years. I came from New Hampshire. I failed in the fall of 1867, during the panic. I have been saving. I have no home here; my family remain in the East, and I go from place to place. These clothes I wear are rough, and I am a hard-looking customer; but this is a hard country. Days seem like months to me, and months like years. Married men, you know that. But for the letters from home [here he pulled out a handful of well-worn envelopes and letters from his wife] I should get discouraged. I have paid part of my debts. *Here are the receipts;*" and he unfolded the letters of acknowledgment. "I expected to sell out and go home in November. Here is my little girl's picture." He kissed it tenderly, and continued:

"Now, men, if you have decided to kill me for what I am innocent of, send these home and send as much as you can from the cattle when I'm dead. Can't you send half the value? My family will need it."

"Hold on now; stop right thar!" said a rough ranger. "Now I say let him go. Give us your hand, old boy; them letters and that picture did the business. You can go free, but you're lucky, mind ye!"

"We'll do more than that," said a man with a big heart, and carrying the customary revolvers and bowie-knife in his belt, "let's buy his cattle and let him go home!"

They did, and when the money was paid over, and the man about to start, he was too weak to stand. The long strain of hopes and fears and the sudden deliverance from death had combined to render him helpless as a child. He sank to the ground completely overcome.

An hour later, however, he left on horseback for the nearest staging route, and as the rangers shook hands and bade him good-bye, they looked the happiest band of men in all Texas.

HER LOST BAGGAGE.

Down in the Union Depot there are a thousand carpet-bags, satchels, grab-bags and parcels piled up on shelves to await owners. The collection is known as stray baggage, and it is added to or taken from daily. The man who has charge of it knows pretty well the contents of each, and what he doesn't know he can guess at. Yesterday, when a woman entered his domain and said she was looking for a lost satchel, he promptly replied:

"Very well, madam. We will begin our search in division 'A.' Were both handles off your satchel, the bottom partly ripped off and a red wooden tag sticking out of the side?"

"No sir."

"Ah, then I missed it. Let's see. Here's a satchel which has been here about four weeks. The first thing on top is a red wig and a pair of blue stockings."

"That isn't mine, sir."

"Just so. Belongs to some poor soul who can't be happy without it. Here's a satchel which bears your description, but it can't be yours. The principal contents a bottle of poor whiskey, an old hat, and a dime novel. Can't belong to you nohow?"

"No sir."

"Well, here's another bundle. I should say by the feel that it contained two night-caps, a volume of poetry and *a set of false teeth.* Do you identify it?"

"No, sir, I don't."

"Does this satchel resemble yours?"

"Yes, sir."

"Any familiar marks about it?"

"Yes, several."

"Did your satchel contain a package of sixteen love letters, each one leading off with 'Dear Ben,' and closing with 'Your own darling?'"

"No, sir—no, sir—that's not mine."

"This one isn't yours, either, because it contains a euchre deck and some faro chips. Now look up there. Third one from the right, eh? Well, here it is. Is this yours?"

"Yes, sir."

"Glad of it. Can you describe its contents?"

"Yes, sir. The first thing on top is a—a——"

"Yes, I know—a pair of stockings with holes in the heels. They belong to your sister, of course."

"Sir!"

"No offense, ma'am. Many impostors come here, and we must be particular. Please go on."

"The next thing is a—a——"

"An old corset with a shoestring for a lace—perfectly correct. Please describe the next article."

"I won't do it," she exclaimed.

"Pshaw, now! but you mustn't take offense. There is a pair of shoes with half the buttons off, a bottle of face powder, a pair of gloves with the fingers out, and—"

"That isn't mine at all."

"Oh, it isn't eh? Well, I'm sorry."

"I don't believe mine is here, and you needn't go to any further trouble."

"Very well. I shall go to dinner in half an hour. I place this satchel in this corner, and I shall tell the old man who relieves me at noon that a boy will come for it. That's all—good bye—hope you'll find your baggage."

When he returned at one o'clock the satchel was gone.

HOW DR. POTTS PULLED THROUGH.

Young Cluckerson met old Judge VanSnyder on the ferry, and after shaking hands respectfully with that venerable friend of the family, said casually:

"Did you hear of the terrible accident up at Potts' the other night?"

"Accident! Why, my dear young friend, no. Nothing serious, I hope!" said the Judge, much interested.

"Well, I'll tell you how it was," said Cluckerson in a mournful voice. "You see, the doctor was out until about two in the morning attending some patients, and supposing he would be hungry when he came in, Mrs. Potts put a large pan of mush and milk—the doctor's favorite dish, you know—under the stove to keep warm for him?"

"Yes! yes!" said the Judge eagerly, as Cluckerson stopped to light a segar. "Go on—what then?"

"Well, the doctor came in after a while and went groping round in the dark for his mush—couldn't find a match you know—and, as luck would have it, picked up, instead, a pan containing bread, put there to rise over night. He was too tired to notice the difference—besides he had taken two or three sips as he drove round, and so he ate up all the dough!"

"Gracious goodness!" exclaimed the Judge.

"It's a fact, though. Well, toward morning the doctor began to swell, and swell—the yeast was just getting its work in, you know—and pretty soon the whole family was up and rushing around half distracted. The doctor kept on groaning, and shrieking, and swelling, until he looked like a Saratoga trunk. At last they found out what he had, and the whole family piled right on top of him, and sat there while they sent for a cooper."

"A cooper?"

"Yes, you see they saw at once unless something was done the doctor would burst before morning. So the cooper started in and put nine of those big half inch beer keg hoops around his stomach. Of course that stopped the swelling and, by keeping a tin tube down his throat for gas to escape, he managed to pull through."

"Oh, the doctor pulled through, did he?"

"Oh, yes, he's all right now, excepting—"

"Excuse me," said the Judge grimly, as he took out his note book, "but will you favor me with your middle name in full? They are getting up a medal for the champion liar in the State, by order of the Governor, and I think I'll send in your—"

But the boat had landed and the promising young candidate had melted away in the crowd.

THE COMING YEAR.

To be happy for a whole year involves a great deal. There will be bright days and cloudy ones, clear days and stormy ones, moonlight nights and nights of darkness and tempest. There will be times when home and business affairs move along pleasantly, and there will be seasons of chafing and vexation and disappointment. There will be the cold of Winter, and the budding of Spring, and the bloom of Summer, and the chills of Fall, and again the frost and ice of the outgoing of the year. During all of these, let us be happy. Happiness is not alone a Winter suit, or a Spring suit, or a suit for Summer or for Autumn. We can wrap ourselves in it by day or night, and wear it the whole year round. It adapts itself to every season and every climate. It is the most elastic garment on earth, accommodating its blessings alike to the new-born infant and to the patriarch ready to die of old age. Unlike other robes, its influences strike in and affect heart, brain, and everything else in the human organization. He who makes a pretense of happiness finds it a sorry business. No counterfeit is more easily seen through. To have any happiness that is worth enjoying, it must be the genuine article.

Health and wealth and snug homes and kind friends are valued elements of happiness. With them almost anybody ought to be happy. It looks easy enough for people who have everything in abundance and exactly as they want it to be happy. Almost anybody can be happy when everything goes right. But to be happy when everything is wrong—that is the problem. When the money is out, and credit is gone, and the house is no longer a home, and friends have turned to enemies, and health has given way to a host of infirmities, it seems hard to be happy. Yet some of the most unhappy people the world ever knew have been those who occupied high station, and seemed to have plenty of money, and of everything else. On the other hand, some of the happiest have been God's lowly ones, who were poor and shabby, and despised, and always lacked money.

WHO NAMED THE COLLEGES.

Harvard College was named after John Harvard, who, in 1638, left to the College £779 and a library of over 300 books.

Williams College was named after Col. Ephraim Williams, a soldier of the old French war.

Dartmouth College was named after Lord Dartmouth, who subscribed a large amount, and was President of the first Board of Trustees.

Brown University, received its name from Hon. Nicholas Brown, who was a graduate, and endowed the College very largely.

Columbia College was called King's College till the close of the war for independence, when it was named Columbia.

Bowdoin was named after Gov. Bowdoin, of Maine.

Yale College was named after Elihu Yale, who made liberal donations to it.

Colby University was named after Mr. Colby, of Boston, who gave $50,000 to the College in 1866.

Dickinson College was named after Hon. John Dickinson. He made a very liberal donation to the college, and was President of the Board of Trustees for a number of years.

Cornell University was named after Ezra Cornell, its founder.

THAT BLACK EYE.

Reader! hast thou ever asked a man "whence his black eye?" We have. We append some of the answers we received:

Running after a cat and tripped over the clothes line with my neck.

Grandfather left it to me in his will.

Got up in the middle of the night and went down stairs after a drink.

Told a man he lied.

Trod on the teeth of a hoe.

Was splitting wood.

Cork flew out of a champagne bottle.

Has ran an umbrella in my eye.

Baby hit me with a rattle-box.

Tried to kill a mosquito on my nose.

Didn't have the money to pay for my drinks and told the bar-tender to hang it up.

Tried to get on a car after it was two blocks up the street.

Fell off the East River Bridge Tower.

Ran a knot hole in it.

Cracking a hickory nut.

Some boys playing shinny in the street asked me to be umpire.

Went to kick a dog and my boot came off.

Fired a bootjack at a cat and lost my grip on it.

SHE HAD A PLAN.

A gaunt woman jumped into the Central Station, bonnet askew and eyes blazing, and as she reached the sergeant's desk, she exclaimed:

"I'm the Widow Coon!"

"Ah!" remarked the sergeant.

"And I want to know if my landlord can raise the rent on me?"

"I guess so—landlords can do most anything."

"But I'm a widow!"

"So you say."

"And isn't there a law to protect a widow from having the rent raised?"

"Never heard of one."

"And I haven't any more rights than a married woman?"

"Not one."

"Very well," she said, shutting her teeth together, and striking the desk; "if a widow hasn't any rights, I'll marry somebody afore Sunday—you hear me now!"

And she kicked over a chair, and walked out.

A big thing (but not on ice) is talked about down in Florida, being no less than the draining of Lake Okeechobee. If the scheme should be carried out 12,000,000 acres of the best sugar land in the world will be re-claimed. The territory re-claimed will include the celebrated Everglades, and will be in extent twice as large as the State of New Jersey. This is one of the largest contracts on record, and, when completed, Florida can produce more sugar than the United States now consumes; in fact, if thoroughly cultivated, would be able to produce enough sugar to supply the whole world. The cost of the whole will be comparatively trifling, probably not over 25 per acre, or, say, $300,000,000.

RAHWAY has been excited the past two weeks in consequence of the finding of a new-born female infant at the front door of a respectable family, left there by parties unknown. In spite of medical aid the child died, and a jury empanelled by the County Physician, decided that the "infant came to its death from fracture of the skull, or exposure, or both, at the hand of some person or persons unknown." The only clue the police have who are working up the case, is the basket in which lay the child when found. It has the name "Abram Smalley" upon it in two different places.

THE New Brunswick *Fredonian,* of Jan. 29th contains an account of how two young girls from Rahway were induced to accompany a couple of "gallants" to New Brunswick, ostensibly to witness a performance at the Opera House, but who endeavored to induce the girls to enter the house of their "aunt," which upon being discovered to be a house of low repute, the girls declined entering. The men (?) then left them in the streets, without a cent of money with which to reach their homes. About midnight they were discovered by a gentleman, who took them to their homes early Friday morning. Their experience may prove a warning to them in the future as to who their "gallants" are.

Mr. Hicks, who had been assured by the local physicians that they could do nothing more for him, tried "Favorite Remedy" [illegible] "Kennedy's Favorite Remedy" for sale by all druggists.

LEGAL ADVERTISEMENTS.

IN CHANCERY OF NEW JERSEY.

To William Herman Brown and Sarah J. Lewis:

By virtue of an order of the Court of Chancery of New Jersey made on the day of the date hereof, in a cause wherein William C. Stanbery is complainant and you and others are defendants, you are required to appear, plead, answer or demur to the bill of said complainant on or before the [illegible] day of [illegible] next, or the said bill will be taken as confessed against you.

The said bill is filed to foreclose a mortgage given by Kate E. Fuller and Henry U. Fuller, her husband, to said William C. Stanbery, on lands in the city of Plainfield, in Union County, N. J., dated July [illegible], A. D., 1879. And also to foreclose a certain other mortgage given by [illegible] to the first described mortgage given by Kate E. Fuller and Henry U. Fuller, her husband, to said William C. Stanbery, on certain lands in the city of Plainfield, in the County and State aforesaid, dated [illegible] A. D., 1880.

And you, William Herman Brown are made defendant, because you hold a mortgage on the [illegible] in the Bill of Complaint above described.

And you, Sarah J. Lewis, are made defendant, because you hold a mortgage on the lands described in said [illegible].

POPPING.

He shakes the popper o'er the coals,
She eyes the kernels by his side,
As 'round about the [illegible],
In [illegible], they [illegible].
They both are blushing—[illegible] the fire,
Though now the kernels 'gin to hop;
He brings his chair a little nigher—
And then a big corn utters "Pop!"
Encouraged thus, his courage mounts;
[illegible] down as half afraid;
And though his heart doth give a bounce,
He stammered forth, "[illegible], sweet maid;
At my fireside forever bask,"
He almost lets the popper drop;
"Dear John," says she, "[illegible]—"
And then a kernel flutters "Pop!"

MISCELLANEOUS READING.

A CLEVER CAPTURE.

"A letter, Sir Richard."

"Any answer required?"

"I do not know—the messenger is outside."

"Wait!"

The speakers were Sir Richard Mayne, the chief of the London police, and a subordinate. With the last word of command, the commissioner, who was seated in his private office, in Whitehall, opened the envelope and read:

"The Duke of Skelty presents his compliments to Sir Richard Mayne and would be obliged for the attendance of a suitable detective at the ball and supper to be given by the duchess to-morrow evening."

The chief smiled cynically as he perused the communication, for hitherto he had great difficulty in breaking down a prejudice amongst the titled classes and the work of his favorite department (the detective bureau) had been much impeded. Taking up his pen he wrote:

"I have the honor to acknowledge the receipt of your grace's letter, and to inform you that an officer will be present at the time mentioned.
"Your obedient servant,
"RICHARD MAYNE."

Folding the letter, and inclosing it in an envelope with deliberation, the commissioner handed it to his subordinate, who immediately left the room. Sir Richard Mayne understood the duke's motives in requesting the presence of a detective. He was aware that some of the most daring robberies in the metropolis had been perpetrated in those brilliant assemblages, but hitherto his hands had been tied by the conventional reluctance to even temporarily recognize a detective as an equal. The Duke of Skelty has [illegible] matters easy, and Sir Richard felt glad that the self introduction of members of the "swell" mob into reception and ball room had at last opened the way for police representation. On this occasion he was determined to send the best man available—one whose gentlemanly deportment and professional abilities would reflect credit on the department. He thought over the matter for a few moments and then, touching a bell which was promptly answered, said briefly to the messenger: "Send for Inspector Carlton." The inspector of detectives shortly after appeared, and, as he entered the commissioner's office, that gentleman favored him with a smile, for he was a favorite with the chief. "Dick" Carlton was conceded to be "the handsomest man on the force." He had been well brought up and had received a good education. Though a blonde and rather effeminate in appearance, he had nerves of steel and a fine muscular development. He was always well dressed, imperturbably cool and self-possessed, spoke all the Continental languages with fluency and ease, was quick in his movements and prompt to take advantage of any circumstance that might further his professional ends. Most of the department, when they entered the office of the chief, waited in a respectful attitude for the great man to bid them be seated, which he sometimes neglected to do. "Dick" Carlton, as stated before, was a favorite, and with a favorite's privilege he walked carelessly into the room, and gracefully posed himself in an easy chair.

"You sent for me, Sir Richard," said the inspector.

"Yes, Carlton, I have special work for you," was the answer; "several robberies have been committed in West End drawing rooms recently. To-morrow there will be a ball at the Duke of Skelty's town residence in Belgravia. Although every invitation has been personally sent out by the duchess, it is possible that one or two objectionable persons will contrive to be present. You will attend in full evening dress, and the duke will, for the time, give you the welcome of a guest."

"That all, Sir Richard?"

"Yes, excepting that I desire you to report to me personally after the ball."

Inspector Carlton arose from his seat and leisurely withdrew. Those who knew the least of him dubbed him as lazy and not worth "his salt," but his intimates never made such a mistake. While his body was posed in a lazy attitude, his mind was active—teeming with life.

Questions which were asked in an idle, indifferent tone were pregnant with meaning to the questioner, if not to the person questioned. He seldom looked any one in the face when conversing, not because he was afraid to, but because his eyes were seeking information in one direction while his brain sought it in another. Far from looking lazy, he was, in reality, the most active man in the department. While others were fretting and fussing, hurrying hither and thither, with no very clear idea what to do, Carlton would arrange his programme while quietly smoking a cigar, then composedly hail a cab and go about his way in a methodical, cool, and clear-headed way. More than any other man on the force, he utilized the telegraph, cabs, railroads, etc., not because he was lazy, but because he estimated all these aids at their proper worth. Inspector Carlton had been engaged in some dangerous business since he adopted the vocation of a detective, and when he left his chief's office he congratulated himself that he had a pleasant task for once. Not one thought of danger entered his head, and yet, as a matter of fact, it was to be one of the most perilous adventures of his life. In pursuance with his instructions the detective made an elaborate toilet and presented himself at the residence of the Duke of Skelty. He went early because he desired to have an interview with the duke, and also to carefully note each arrival, while he, himself, was unobserved. His grace looked surprised when Carlton exhibited his inspector's card, countersigned by Sir Richard Mayne, by way of introduction. The Duke of Skelty was too well bred to make any comment, but he was astonished beyond measure. He had expected to see a respectable person, but not the polished man before him. He was considerably relieved, however, for he had dreaded that the detective's appearance would be noticed and commented on.

"Has your grace any instructions?" asked Carlton.

"I simply desire that you will keep your eyes open in the interests of my family and my legitimate guests in case any person outside our circle should gain admittance."

"Very good."

"Of course," continued the duke, "if you see anything wrong you will be careful to avoid a scene—I do not desire that under any circumstances."

"Your grace can rest easy, for there will be no scene."

"May I ask if you anticipate any trouble, Mr. Carlton?"

"I do not, but it may occur," was the detective's answer.

"As you are quite a stranger Mr. Carlton, I must see that you are treated courteously," said the duke. "Come with me."

Inspector Carlton followed to the drawing-room where he was introduced in due form to the duchess, who treated him with frigid courtesy. The guests soon after began to arrive, and from a retired corner of the room Carlton listened to the names and keenly scanned the features of the visitors as they arrived. Magnificent dowagers, queenly wives and pretty misses filed into the room attended by the officers of the army and navy, dignitaries of the church, officials high up in the civil service, M. P.'s and a few cabinet officers. Most of these personages Carlton knew by sight and others by name, and certainly none of them would answer to the description of a "suspicious character."

"Lady Durbin and Colonel Hetherington!" shouted the lackey at the door. The detective looked at them critically. Lady Durbin was well known in the fashionable world, but who was her escort? Externally he looked like a gentleman, but there was not much of the military bearing in his walk. There was an undefinable something about him which caused the eyes of the detective to turn to him again and again. He was dressed perhaps a little too "loud" for the company he was in. His jewelry was too loud to be in keeping with good taste. Detective Carlton continued his watch, and as he noticed the perpetual motion of the man's body he unhesitatingly pronounced him a fraud. There was nothing of the grace and dignity of a well-trained soldier in his movements. They smacked more of the genuflections of a dancing master. In fact, Colonel Hetherington was acting a part, and, like many another actor he overdid it. The lynx-eyed Scotland yardman did not know that Hetherington was a fraud, but he concluded that he was, and for that reason kept him under close surveillance. Moving across the room Carlton asked the duke in a low tone.

"Did her grace favor Colonel Hetherington with an invitation?"

"Hetherington!" said the duke, musingly. "Yes, he is a friend of young Gilman, Lord Gilman's son, who is staying with his aunt, Lady Durbin."

"Indeed!" Detective Carlton had not time to say more for the duchess approached and immediately after the remark the duke hurried him away with the remark: "Let me introduce you to Mrs. Morton."

"Mrs. Morton—permit me—Mr. Carlton."

The lady smiled, and the inspector, as in duty bound, requested the honor of her hand for the opening dance. The lady monopolized Carlton's attention so that, for a time, he could not follow the movements of Colonel Hetherington. He was not satisfied with the duke's answer, for he knew that Gilman kept notoriously bad company. Later in the evening he noticed the colonel in an alcove quietly conversing with a lady magnificently attired and in whose coiffure glittered a cluster of beautiful diamonds. A few moments afterward they took their places for a quadrille, and inspector Carlton, being disengaged, moved to the alcove just vacated and watched the progress of the dance. He saw the gentleman slightly press the arm of the lady, who immediately gave a start and a little cry. Colonel Hetherington supported his fair partner to a lounge and seated himself by her side. The Duchess of Skelty soon after followed, supposing her guest was sick.

"I hope your ladyship is not indisposed," said the duchess.

"Oh, no," was the answer, "a slight pain in my arm, that is all. It was but momentary."

The hostess expressed her sympathy and retired, leaving the two alone on the lounge. Detective Carlton noticed that the brilliants in the lady's coiffure were no longer there. What had become of them? Lord Varney, the husband of the lady, now approached, and Hetherington resigned his charge, and moved leisurely toward the ante-room. This was just what the inspector supposed he would do, and he no longer doubted that the bogus "colonel" had the diamonds in his pocket. The Duke of Skelty was standing near one of the doorways, and the detective whispered in a respectful tone: "Will your grace permit me a moment's conversation outside?" The duke nodded, and followed Carlton out. "What is it?" he asked in an annoyed tone, as if anticipating some unpleasantness.

"I have no time to explain," answered the detective, "but if your grace will kindly permit me to meet you in the library in a few minutes I have no doubt I shall be able to introduce an unworthy guest."

The Duke of Skelty moved away without vouchsafing a verbal reply, his answer being a slight inclination of the head. He had scarcely gone when the colonel came jauntily down the hall with the evident intention of making a hasty exit.

"Colonel Hetherington?" asked the detective.

"At your service, sir."

"His grace desires to see you for a moment in the library, if you will be so kind."

The colonel turned a shade paler, but with great presence of mind said, coolly: "I am much pressed for time if the matter is not important."

"He desired me to say that he particularly wished to see you," said the detective, looking keenly at the man before him.

"In that case," answered the colonel, "I am at his grace's service."

Detective Carlton walked by Colonel Hetherington's side chatting pleasantly until they came to the library, in which the duke was pacing up and down in a restless mood.

Carlton knocked, and then opening the door, followed his companion in. Giving the master of the mansion a quick look of intelligence the detective said: "I informed Colonel Hetherington that your grace desired to speak with him."

The duke, by way of answer, invited the colonel to take a seat, and Carlton, turning to the fraud, said, quietly and firmly:

"Hetherington, or whatever name you choose to be known by, your game is up—please to lay on the table the diamonds you despoiled Lady Varney of."

The whole expression of the man's features changed in an instant, and there was a deadly gleam in his eye, which the detective did not fail to notice.

"Who are you, sir, that dares to insinuate that Colonel Hetherington is a thief?" he asked, in a tone of suppressed anger.

"Inspector Carlton, of Scotland Yard," was the prompt answer.

"Ah! I've heard of you," was Hetherington's only comment.

The duke rose from his seat and said, with grave dignity: "Is the inspector's charge true or not, sir?"

"The question itself is an insult, and I decline to answer," said the colonel, in the same cold and even tone.

"Will your grace kindly order a cab to be brought to the door?" asked the detective.

"For what purpose?" asked the duke, sharply.

"My duty is plain, your grace. This man is my prisoner, and must accompany me to Bow street."

"Never!" hissed Hetherington; and the next instant he drew a tiny but perfectly-finished revolver from his breast and sent a shot crashing into the detective's wrist. It had been aimed with lightning-like rapidity, at his body, but quick as the movement was, Carlton's arm moved quicker, and so his life was probably saved. The duke sat for a moment stupefied, and in that moment Hetherington sprang to the door, but ere the handle had been turned the detective's fingers were on his throat.

Hetherington was a powerful man, but he could not shake off the inspector's grip. With his teeth hard set, Dick Carlton bore his opponent to the floor, although he could but use one arm. Hetherington still maintained his hold of the jeweled pistol and with the butt end struck the detective a cruel blow in the face partly stunning him and causing the blood to flow freely. Inspector Carlton's fingers tightened on the man's throat until he was nearly black in the face, and then, while he was still gasping for breath, the detective loosened his hold, and with an adroit movement drew a small pair of steel "cuffs" from his pocket and locked them on Hetherington's wrists. The duke had failed to render the slightest assistance. The whole affair had been so sudden that even now he scarcely realized what had happened. Seeing the blood still flowing from the detective's wounds, he said hastily: "We must have assistance." Carlton answered, coolly: "Please not to call any one, I will sponge the blood from my face here, and if your grace will order a cab I will convey my prisoner to the station." With the same calmness of demeanor he locked the door and washed his face. Then a servant was summoned, a cab ordered, and the detective linked his arm in Hetherington's and escorted him to the door. Outside, two officers in uniform were on duty. "Jones," said the inspector to one of them, "get on the box with the driver—Bow street!" "All right, sir," answered the officer and the cab rattled away.

At the station Hetherington was searched, and his jewelry taken away from him. The diamonds were found on his person as the detective knew they would be. He had not, however, been able to satisfactorily account for the sudden start and cry of Lady Varney in the ballroom but while handling Hetherington's signet ring the mystery was solved, for he accidentally touched a spring and a small needle projected, receding when the pressure was withdrawn. The police surgeon was sent for, and Carlton submitted patiently to the operation of extracting the ball, after which he was driven home.

Hetherington was retired from the public gaze for fifteen years, other and more serious crimes having been proved against him. This was the secret of his desperate resistance to arrest, for he knew if he once got in the power of the law his past record would be diligently hunted up and used against him. Lady Varney's $25,000 jewel was restored to her, the loss of which greatly astonished her. Inspector Carlton was complimented by his chief on the ability he had displayed and, what was probably more acceptable, he received from the Duke of Skelty a check for £400 as a salve for his wounds, for alas! he was no longer "the handsomest man on the force."

COMMERCIAL.

THE TRADE IN DRIED FRUITS.

The man who discovered how to dry fruits, like he who invented the sofa, conferred a great blessing upon humanity. His frame ought to be perpetuated, but his name and the place where he was born and is buried are already forgotten.

The Americans are distinctively a fruit-drying Nation. No other compares with us in this regard, and nearly all come to us to purchase what to them is a luxury.

Dried fruit is largely taking the place of canned fruit, though the amount of it annually put up is still very large. Nearly all kinds of fruit are dried, apples, peaches, plums, cherries and even berries.

In drying apples New York takes the lead; Ohio follows, and Indiana comes next. Tennessee and others of the Southern and Southwestern States also dry large quantities of apples. From North Carolina, in large part, come dried peaches and blackberries. All the older States are to some extent engaged in fruit drying.

As is natural the trade in dried fruits in the far West is extensive. The frontier—mining districts included—is largely settled by New England people and their descendants, most of whom are inveterate pie-eaters, and they must have their pie as regularly as some must have their "eye-opener" in the morning and their "eye-closer" at night, and but for dried fruits they would be pieless. The invigorating life they lead enables them to eat three times a day the year round pies that would give ordinary mortals the dyspepsia in less than a week. But it is not to be implied that dried fruits are indigestible.

There are other reasons for the immense trade in dried fruits in the West, important among which are their transportability, and the fact farmers in many localities have not had time to grow orchards. They are in special demand in the mining districts, and are in the nature of a delicacy.

Immense quantities of dried fruits are annually exported. The foreign demand is mainly for apples. Other fruits are shipped, but the demand for small fruit is not very great.

For export to France the common grade of apples is preferred, especially the Southern fruit. The reason for this is that large quantities of the dried fruit are bought by the French distillers for the manufacture of brandy and the Southern fruit is said to yield ten per cent. more alcohol than the Northern fruit. The demand for the English market is wholly for evaporated apples, while Continental Europe prefers "sun-dried" fruit. In the German market fruit dried in quarters is preferred. There is said to have been a general failure of the apple crop this year in France, England, Belgium and Germany, and in consequence they are making large purchases of American dried fruit. During October there were exported 1,653,044 pounds, and during the first ten months of the year 4,490,156 pounds.

During the past few years the export trade has increased astonishingly. In 1874 only 1,203,729 pounds of dried apples were exported. In 1876 the trade increased to 5,300,535 pounds. Last year, which was a bad one for dried fruits, the quantity exported was nearly 25,000,000. This year it will be much larger.

FEMININE NOTES.

The ladies of Paris are going bear footed; that is to say, they are wearing Bruin's paws as ornaments.

Ladies who go to church for the purpose of showing their sealskin sacques are spoken of as sacque-religious.

Fashionable Calls—(Callers, seated in the parlors of an up-town mansion:)

"I've heard she gave $300 for that group, I'd just as soon have a chromo, wouldn't you?"

"H-u-s-h!"

"And just look at that centre-table, looks like a fancy fair for all the world, one would think"—

"H-u-s-h, she's coming."

(Enter, lady of the house.)

"Oh, you dear, darling creatures! What an age since I've seen you! Where have you been? enjoying the holidays, no doubt. I'm so glad to see you both!"

(Together.) "And we are so glad to see you! How perfectly sweet you do look! What have you been doing to yourself? Oh, it's that lovely new dress! so becoming! but then you look well in everything!"

"Oh! oh! Who's got a new seal-skin cloak? Dear Mrs. Smith I just envy you; it's a be-a-u-ti-ful thing!"

Mrs. Smith—"Well, it ought to be; James gave $425 for it."

"Yes! but that's nothing for Col. Smith you know. How is he? I do admire the Colonel so much! But then he never *looks* at any one but you."

"Oh! yes! make me believe that! He's a regular old flirt; but I forgive him for everything since he's got me this cloak. Well, we really must go; ever so many more calls to make. Now, return this soon, there's a darling. By-by, sweetness."

(Lady of the house to next caller:)

"Yes, *that* Mrs. Col. Smith and her sister—what a dowdy that sister is—did call here, and, do you believe, she had the impudence to tell me—*me*—that her husband gave $425 for that shabby old sealskin, as if I didn't know exactly what *it was worth! He'd much better pay his* debts," etc., etc., etc., ad infinitum.

The Constitutionalist.

Published every Friday by
W. L. FORCE and A. L. FORCE.

IN HEALTH.

It is a grievous disappointment to many Republican politicians that the Democratic party won't die. They have so often and confidently predicted that as a swift coming event, they begin to think the life of Democracy must be indestructible and unlimited.

So it is.

The Democratic party was born with the Constitution and will live as long as the Republic stands, aye longer, for even should the Republic, that glorious edifice of Freedom, reared by the patriot valor of Washington and statesman skill of Jefferson and Madison, unhappily fall, Democrats will survive and be found fighting for its re-erection.

Democracy means a government by the people.

Not a government of monied aristocrats;

Of subsidized favorites;

Of greedy monopolists;

Of political cormorants;

Of narrow minded bigots.

But a government wherein the people are unfettered and supreme, by virtue of organic law and in accordance therewith, and their rights and interests cherished and impartially defended.

That is the character of government the Democratic party always maintained when in authority, it is the kind of government the advent of Democracy to power would re-establish, and furthermore, it is the very government this country must have in practical operation, ere prosperity becomes universal and up to the high standard natural resources and national advantages demand.

The Democratic party is in health, and will, when the time arrives, be on hand to meet its foes. It has been wounded by conflicts among members of its own household, but therefrom quickly recovered, wiser and stronger than before. It fairly elected a President in 1876, but was counted out of victory, and would have inaugurated the gallant Hancock on the approaching fourth of March, had it not been for false play and plethoric money bags. Onward! Democrats!

FINANCIAL.

State Comptroller Anderson has issued in pamphlet form his very able and interesting annual report, including detailed statements of the financial condition of the Counties, Cities, Townships and Boroughs of New Jersey, as existing on the first of October, 1880.

For some unaccountable reason several such bodies neglected to respond, as the law directs, and among them the Cities of Trenton and Salem. The other Chartered Cities of the State reported their respective *Funded Debts* to be as follows:

Atlantic City,	Atlantic County,	$34,420
Egg Harbor City,	"	5,600
Beverly	Burlington	8,740
Burlington	"	44,500
Bordentown	"	None
Camden	Camden	990,100
Gloucester	"	None
Cape May	Cape May	80,000
Bridgeton	Cumberland	75,000
Millville	"	27,000
Newark	Essex	11,884,000
Orange	"	219,000
Woodbury	Gloucester	[illegible]
Bayonne	Hudson	315,000
Hoboken	"	[illegible]
Jersey City	"	18,815,100
New Brunswick	Middlesex	1,617,000
Perth Amboy	"	[illegible]
Paterson	Passaic	1,358,100
Elizabeth	Union	4,983,100
Plainfield	"	None
Rahway	"	1,802,500

Making a total of $[illegible].

It will be noticed that four cities (Woodbury being virtually free) are clear of the *Bond* incubus, and that among the favored number the City of Plainfield proudly ranks.

May her record so remain?

The statement for Plainfield, as submitted to the Comptroller by Mayor Harper, read thus:

Amount of Floating Debt, $3,500.
Composed of note in Bank.
Rate of interest six per cent.
Cost acted to anticipate tax collections.
Falls due November 9th, 1880.
Rate of tax for State purposes—29 cents.

THE BOARD OF PROPRIETORS OF EAST JERSEY.

The people of Monmouth, Morris and Sussex Counties are considerably exercised over the public sale of lands under water in those Counties by alleged proprietors, "The Board of Proprietors of East Jersey." The Monmouth *Democrat* gives the following brief history of the origin of the Board and its powers and privileges:

The first grant by the Crown of England was in 1584, when Sir Walter Raleigh obtained a patent from Queen Elizabeth "for him and his heirs to discover and possess forever, under the crown, all such countries and lands as were not then possessed by any christian prince or inhabited by christian people." This grant appears to have covered the whole of North America. Raleigh and his partners settled a colony at Roanoke, but meeting with discouragements abandoned the enterprise. In 1606 James I, without regard to Raleigh's right, granted a new patent of Virginia (which was the name given to the country by Raleigh) to Thomas Gates and others. This patent included the whole country from Maine to the Carolinas (from the 34 deg. to the 45 deg. north latitude). In 1620 this patent was declared forfeited and particular patents were granted to Lord Musgrave and others, who planted several colonies. The Dutch in the meantime had set up a claim to a portion of the territory under color of Hudson's explorations in 1609. In 1614 they made a settlement at New York and built forts at several places from the Hudson river to Gloucester on the Delaware. The Swedes and Finns followed the Dutch in 1637, and laid claim to the country from Cape Henlopen to the Falls of the Delaware, on both sides of the river. The Dutch and the Swedes quarrelled about the jurisdiction, but united in opposing the claims of the English. In 1664 Charles II. gave a patent to his brother, the Duke of York, for a great part of North America, including the provinces of New York and New Jersey, and Sir Robert Carre was sent to put the Duke in possession. The Dutch made no defence, but surrendered, Stuyvesant, the Dutch Governor, protesting, however, that they were the first discoverers, and had purchased the land from the Indians. The Duke of York's patent was dated March 20, 1664, and on the 24th of June following he conveyed to Lord Berkely and Sir George Carteret the "tract of land hereafter to be called Nova Cesaria, or New Jersey." Berkely and Sir George Carteret thus became sole proprietors of New Jersey. About 1675 Lord Berkely sold his undivided one half part of the province to John Fenwick in trust for Edward Byllinge, and Fenwick established the settlement of Salem. Subsequently, Byllinge transferred his interest to William Penn and others for the benefit of his creditors. These Trustees, in 1676, agreed with Carteret for a division of the province, and he became proprietor of East Jersey, and the trustees of Byllinge of West Jersey. At Carteret's death his interest was conveyed by his widow to The Proprietors of East Jersey. Subsequently, in 1702, these Proprietors of East and West Jersey, who had hitherto exercised the government of the province, surrendered the government to Queen Anne, retaining only their interest in the soil. From these in regular succession by inheritance and by purchase, the shares have descended to the present Board of Proprietors. It is understood that there were twenty-four original shares, now divided into quarter-shares, each quarter share entitling the owner thereof to a seat in the Board.

The Board now numbers some thirty-five persons. Hon. H. W. Murphy, of Monmouth County, has introduced a resolution into the Legislature, asking that a Committee of five be appointed to investigate the alleged right of the Board to dispose of the lands.

There were landed at Castle Garden during the last year, from Germany 104,264 emigrants, Ireland 66,399, England 33,168, Sweden 35,217 and Italy 11,190.

The total value of breadstuffs exported from the United States for the twelve months ending December, 1880, is stated by the Bureau of Statistics to have been $263,295,359.

The tenth census of the United States has been officially declared. The population of the thirty-eight States on June 1, 1880, was 49,369,595, and of the Territories 783,272, making a grand total of 50,152,866. The State of New York ranks highest, with 5,083,010 inhabitants, and Nevada the lowest, having only 62,265. New Jersey with her 1,130,983 population stands twentieth on the list.

The first railroad constructed in England for carrying passengers, was the Stockton and Darlington, opened in 1825, with horses as the propelling power. The Liverpool and Manchester was put into operation in 1830, and soon thereafter George Stephenson astonished the natives by building and placing on the track in running order his locomotives the "Novelty" and "Rocket." In this country, the first division of the Baltimore and Ohio road was also opened in 1830, and two years subsequently had on it American engines. It is a curious fact, that fifty years ago, among the wonderful inventions was a car propelled by sails; and to show the marvelous advancement made, it is only necessary to state that the ninety-five miles of railroad then laid in the United States have grown to be about a thousand times as many.

A Canadian paper gives the following interesting data:

"Bands of music are forbidden to play on most of the large bridges of the world. A constant succession of sound waves, especially such as come from the playing of a band, will excite the wires to vibration. At first the vibrations are very slight, but they will increase as the sound waves continue to come. The principal reason why bands are not allowed to play when crossing certain bridges, the Suspension Bridge at Niagara for instance, is that if followed by processions of any kind they will keep step with the music, and this regular step would cause the wires to vibrate. At suspension bridges military companies are not allowed to march across in regular step, but break ranks. The regular trotting gait of a large dog across a Suspension Bridge is more dangerous to the bridge than a heavy loaded wagon drawn by a team of large horses."

Joseph Adler and Leo von Hillen were prisoners at New York Police Headquarters, a few days since, charged with a novel species of fraud, of which the Metropolitan Life Insurance Company is the victim. The Company insures the lives of children for weekly payments of five cents. If a child dies within the first year the sum paid to the beneficiaries is $134; and this amount increases with the length of time during which the premium has been paid. Joseph Adler for years had acted as an agent of the Company, when accidentally the suspicion was excited that he was defrauding his employers. Detectives McNaught, Cosgrove and Weinberg were detailed to watch him, and they ascertained that Adler was practicing a system of forgery and fraud. He had insurance policies made out on fictitious names, and within a few weeks or months reported the death of the persons. No suspicion was excited, as the reports were signed by a reputable physician, and the losses were paid. The police obtained positive evidence of fraud in four cases, the physicians' signatures being forged.

The briefest of all the State documents is the annual report of the "Board of Commissioners of Pilotage," of New Jersey, as it occupies less than two pages of real matter. The Commissioners are: Thos. S. Negus, President, Jersey City; James Parker, Secretary, Perth Amboy; Andrew A. Smalley, Newark; David Cox, Jersey City; George W. Johnson, Allaire, Monmouth County; Robert Simonson, Orange; William M. Gamble, Morristown. Inwards and outwards there were piloted during the past year 3,837 vessels, and "discipline has been maintained." Only two cases came before the Board for action; one was an error of judgment, the other a case of drunkenness. Four pilots died, and two new ones licensed. There are 4 Perth Amboy pilots, who piloted 138 vessels during the year. There are also, under State supervision, 48 Sandy Hook pilots and 19 apprentices. Total number of vessels piloted inward from the sea to Jersey City and New York, in 1880, 1,904 (of which 483 were steamships); in 1879, 1801; piloted outward in 1880, 1,710; in 1879, 1,539. There are 7 pilot boats (one for each commissioner), named Thomas S. Negus, Ezra Nye, Thomas D. Harrison, Mary E. Fish, William W. Story, Jas. Gordon Bennett, Centennial.

The staunch Republican cities of Philadelphia and Pittsburgh have just elected Democratic Mayors. Democracy lives for the public good.

It was the intention of the late A. T. Stewart to enrich the City of New York by erecting a magnificent building for the exhibition of the fine arts. Death left his great purpose unaccomplished.

The Dance of the Jolly 3.

After the unqualified success of the first sociable given by that lively trio the "Jolly 3," it was hardly surprising that their salon hop of Wednesday evening was the merriest and liveliest affair of the kind ever remembered in Plainfield. The boys pronounced it immense, and the girls said it was "quite too awfully lovely for anything." It had been the intention of the bachelor triangle to hold the affair in Laing's Hall, but the serious illness of Mr. *Geo. Miller* necessitated a change and Van Deventer Hall was secured instead. The seats were cleared from the centre of the floor, the rear of the hall was divided off into a serviceable supper room and the dressing rooms at each side of the stage were put to use for that purpose. These changes made the place of the greatest convenience for the purpose, and in consequence the comfort of all resulted. Behind the same footlights that had previously shone up into the faces of Charley Shay's performing dogs and other dramatic artists, was stationed Prof. Frazee's admired orchestra which drew sweet strains of light fantastic music from violin, harp and cornet. By ten o'clock a large gathering of the beautiful and brave had assembled, and upon the starting of the opening promenade, about thirty couple joined in the intricate evolutions through which they were led by Messrs. McCarthy and Robinson with their chosen ladies. While the first dance was forming, Mr. Frank Wright, the jolliest of the 3, addressed the attendance with a few well chosen words of apology for the unfortunate circumstances that had compelled the selection of another hall; at the close of which speech, the ever pleasurable lanciers was enjoyed by ten sets of graceful dancers. From that time onward until Thursday's sun was throwing the covers off and giving a visible yawn previous to its getting up, waltz, polka, quadrille, galop and all the other mazy movements were floated through with no thought of flying moments or weary feet. A short intermission was indulged in during which a bountiful supper was served, after which "Frazee's Reel" and the "Saratoga Lanciers" offered variety to the usual style of dance. In mirth, merriment and complete happiness the night passed away, and when farewell was said and the comforts of sleep were sought, all united in giving "3reehc rof eht ylloj 3."

The World's Fair of 1883.

A meeting of the Executive Committee of the U. S. International Commission was held at its rooms on Wednesday afternoon. Gen. Grant presided, and most flattering reports of progress were received from the Finance Committee and Secretary. Algernon S. Sullivan, Chairman of the Committee on Legislation said he had been to Washington to lay before Congress the drafts of bills, the passage of which the committee had decided was necessary to the success of the World's Fair. Before presenting his bills he had seen the committees of both houses before which they would come for action, and he had been assured by prominent members of these committees that the bills would pass. The first was a joint resolution which authorized the President, in the name of the United States, so soon as adequate preparations had been made for the World's Fair of 1883, to invite foreign Governments to participate in the Exhibition, and to send duly accredited representatives to this country to represent them at the Fair. The other bill was designed to procure the admission, free of duty, of all goods from foreign countries, designed simply for exhibition at the Fair. "The committees," said Mr. Sullivan, "gave their cordial approval to the two bills, said that their report on them would be favorable, and that they would recommend their immediate passage. In the Senate the joint resolution has already been submitted and passed, and now only awaits the action of the House. I have received the assurance of Representative Cox," said Mr. Sullivan, "that the matter shall have prompt attention in the House, and that, so far as he can judge, there will be no difficulty in passing the bill. During my visit to Washington I did not hear the utterance of a single sentiment against pledging the Government, so far as it was possible, to the success of the World's Fair in this City, and I assure you, gentlemen, that no one of you could have heard what I heard in the capital of the Nation about the Exposition, without finding a new incentive to the promotion of this grand enterprise."

Gen. Grant also spoke a few words testifying his entire confidence in the Fair being "a grand success." Before the adjournment the subscriptions had swelled to $512,500. The resignation of a number of gentlemen who were among those named as Commissioners in the act of Congress creating the Commission, and which resignations were sent in last June, were accepted. The committee adjourned until Wednesday of next week.

The report of the Adjutant General of New Jersey is quite a voluminous document. Wm. S. Stryker is Adjutant General; Col. L. M. Dickinson, Assistant Adjutant General; Wm. H. Sterling, Inspector, etc.

There are 23 State pensioners. The National Guard of the State is composed of 49 companies of infantry, 1 battery of artillery, and 2 Gatling gun companies. This is an increase of 2 companies of infantry during the year. The force now consists of 260 officers and 3,149 men, an increase, during the year, of 20 officers and 162 men.

In regard to rifle practice the report states: "The troops of this State have had another year of practice with the rifle at the ranges of the State. Their improvement in the skillful use of their weapon has been apparent during the entire season and is very gratifying to all who have charge of this branch of the military service. The splendid score made by the New Jersey team last year at the inter-State military match at Creedmoor has been followed by our team this year, carrying off the prize from the well-trained contestants of other States."

There is no actual enrollment of militia; but, by means of the recent census, the following is the actual number of the reserve militia in the State:

Atlantic,	3,817	Middlesex,	10,643
Bergen,	7,346	Monmouth,	10,960
Burlington,	10,916	Morris,	10,274

Hancock's Majority.

Instead of Hancock's popular majority over Garfield being, as the Baltimore *Sun* makes it, 4332, it appears that it is 7014, another county having just been heard from. This is Hampton county, South Carolina, which gave Hancock 3099 and Garfield 1301. The returns did not come in in time to be included in the report of the South Carolina Secretary of State, whose figures were adopted by the *Sun*. Adding these returns, the total vote in South Carolina was: Hancock, 114,896, and Garfield, 58,893.

A Summer Resort for School Teachers.

There was an extensive auction sale of water property Saturday week at Perth Amboy, by the Board of Proprietors of East Jersey. It consisted of four plots which have been in the possession of the Board for over 140 years, and from which very little revenue has been received. The first is lake Hopatcong, or Brooklyn Pond, a body of water covering 1,500 acres, and a strip of land, 100 yards in width, bordering on the lake its entire circuit. It is situated in Morris and Sussex counties. It was sold to Nathaniel Niles, ex-Speaker of the House, for $600, and includes rights now used by the Morris Canal, as its supply of water is drawn from this lake.

The property would have sold for a much larger sum had it not been understood that Mr. Niles intended to convert the lake into a summer resort for the benefit of the school teachers of New Jersey in the vacation season. It is to be arranged somewhat on the plan of the Chautauqua Assembly Grounds. All the desirable features of that place will be adopted, and any which may be considered objectionable or unnecessary will be avoided. It is situated in the mountains of Morris and Sussex counties, is 900 feet above the level of the sea, nearly eight miles long, and from one-quarter to two miles wide. Mr. Niles intends to have it stocked with fish by the United States Fish Commissioners. All kinds of fish adapted to the climate and the temperature and quality of the water will be placed in the lake for the benefit of the public, with certain restrictions. Arrangements will be made for school teachers, so that they can spend their entire vacation at the lake for a very small sum of money and listen to a series of lectures from persons most learned in scientific and literary subjects, and enjoy other privileges otherwise beyond their reach. Teachers from other States may also avail themselves of the privileges offered. It is proposed to erect suitable buildings, beginning on a small scale and increasing the accomodations from year to year.

The lake called Culver's Pond, in Sussex county, which is two miles long and from one-quarter to one mile wide, and Quick's Lake, in the same county, comprising 100 acres, and 100 yards' width of land around it, were also bought by Mr. Niles, but they will be used for private purpose. The first was sold for $600 and will be stocked with fish, and the second was sold for $200.

Shark River, in Monmouth county, which comprises several hundred acres, was also sold. For 100 years this stream has been occupied by oystermen, and has produced some of the finest oysters sent to New York Market. Mr. Niles forced the property up to $950, for the benefit of the Free School Fund of New Jersey, but it was struck off at $975 to the representative of the oystermen and landowners. It is claimed that the proceeds of the last sale belong to the Free School Fund, as the River is tide-water.

FIRE MATTERS.

The bill presented by the Board of Fire Commissioners to the Legislature, asking that body to grant them certain monied privileges, has been recommitted in the House, and will be amended.

The firemen are aroused in reference to the resolution presented before the Board of Fire Commissioners providing for the appointment of a Chief Engineer by that body instead of electing said official by the firemen, and a communication regarding the matter will be presented to the Board at their next meeting.

OUR TRENTON LETTER.

[From our Trenton Correspondent.]

TRENTON, Feb. 15, 1881.

The Governor has recovered and is attending to his duties at the Executive Chamber. This fact was made known by his private secretary, Jos. Naar, when he presented veto messages on Assembly bills 62, 87 and 52, one for restoration of citizenship of Edmund Teal, one for building engine houses in cities, and one for replacing or repairing fire alarm telegraphs, the two latter being in judgment unconstitutional, according to former decisions of the Supreme Court, being in the nature of special bills.

A motion was made by Mr. Fritts, of Warren, to pass the Teal bill over his veto, which was lost. It was ably advocated by Mr. Fritts, in quite a lengthy speech appealing to the sympathy of members. The Bridge bill was up this afternoon on 2d reading. The House was full; the meeting of the Supreme Court to-day, brought many people here. All went along quietly under the reading of the bill, until the 4th section was read, when a bomb-shell was thrown in camp by Mr. Mann, of Essex, who moved to amend this section, so that no bridge shall be erected over any lands heretofore leased by the riparian commissioners until the consent of the lessees be first obtained. He said it was to remove the unconstitutionality of the bill. Mr. Potts the introducer of the bill, was soon on his feet and hoped the amendment would not prevail as it would certainly kill the bill, and he was opposed to its death in this unfair manner. Mr. Dell opposed the amendment in a long and well prepared speech he gave what he and some of the members considered very strong arguments in favor of the passage of the bill. The amendment was lost on a vote of 18 ayes, 34 opposed. Another amendment was offered by Mr. Parrot, striking out the 5th section, which was lost. The bill was then ordered to be engrossed, and have a third reading. The Bridge men are jubilant, and from present appearances, it may pass the House.

No nominations yet sent in by the Governor. P

Surplus, $9,228,294; an increase of One and Three-quarter Millions of Dollars in 1880.

New business, $35,170,805; an increase of over Eight and a half Million Dollars in 1880.

Amount paid to Policy-holders and their representatives during 1880, $4,792,937.

A liberal surrender value in paid-up insurance is provided for in all ordinary policies, in case of forfeiture.

Tontine Savings Fund Policies may be terminated at the close of certain defined periods, on terms more advantageous than upon any other plan. These policies prove more profitable to the policy-holder than any other form of insurance.

Actual examples can be furnished at the Society's office, of persons being insured for ten years, and then upon terminating their Tontine Policies, receiving cash in some instances equal to the whole of the premiums paid; in others, nearly all.

No technicalities nor arduous conditions in policy contracts.

Policies incontestable after having been in force for three years. All such incontestable policies will be paid at maturity, without rebate of interest, immediately after the receipt at the Society's office in New York of satisfactory proofs of death, together with a valid and satisfactory discharge from the parties in interest, and without requiring any delay, even for sixty or ninety days, as has been the custom heretofore, and is still usual with other companies.

A Big Oil Tank Blows Up.

A tank containing about 20,000 barrels of naphtha oil, in the northeast corner of the Standard Oil Company's works at Constable Hook, near Bayonne, exploded Saturday morning at 6½ o'clock. It is supposed that through some leak in the roof of the tank air was admitted, forming with the naphtha a highly explosive combination. The tank was of half-inch riveted boiler iron, 30 feet high and 40 feet in diameter. The explosion rattled the windows for miles along the line of the New Jersey Central Railroad, and startled some of the residents of Staten Island, who jumped out of bed and stared at the Kill von Kull, thinking the boiler of a steamer had exploded. After the explosion the oil caught fire and burned rapidly. Some was saved by drawing it off from the base of the tank. The Fire Department at Bayonne was in readiness to proceed to the scene of the fire, but its services were not called for.

The total loss will probably not exceed $10,000.

REIMS, March 15th, 1880.

GENTLEMEN:—Having learned that certain reports, seriously reflecting on the antiquity and authenticity of our House, are being circulated in the commercial World, we feel bound in the interest of our House to publish the following remarks:

At the end of the year 1852 the agreement of partnership of the firm of P. A. MUMM & CO. [illegible]

Mr. JULES MUMM, OF COLOGNE, *retaining the business premises of the old Firm,* founded a new Firm under the style of

JULES MUMM & CO.,

Mr. G. H. MUMM, OF FRANKFORT ON THE MAIN, also founded a new Firm under the style of G. H. MUMM & CO.

These facts prove incontestably that we have the same origin and are as old a Firm as our namesakes.

We have thought it right to inform you of these circumstances which will enable you to appreciate the true state of the case and to contradict all contrary assertions.

We remain, Gentlemen,
Faithfully Yours,

THE Rev. A. H. Lewis on temperance, was attentively listened to by a large congregation at the Seventh-Day Baptist Church, last Sunday evening.

THE Dry Goods firm of Pope Bros. have dissolved partnership, David Pope retiring and Messrs. Elias R. and Howard Pope continuing the business.

CITIZENS having business with the new Street Commissioner, Wm. Hand, will find him at his head quarters, which is at the office of F. A. Dunham, on Front street.

AT a recent cocking-main held in the vicinity of this city, the spurred fowls of Metuchen won a hard fought series of combats over the gamey birds of Woodbridge.

MANY hundred valentines were distributed through the Plainfield post-office last Monday addressed to the friends, enemies and sweet hearts of the senders.

MR. HENRY Clay Randolph, of this city, has received a check for $25 from the Treasurer of the Waverly Fair Association, as a first premium on best acre of wheat grown on his farm.

THE REV. A. V. V. Raymond preached the first sermon since his installation as pastor of Trinity Reformed Church, on Sunday morning. The text selected was from 2nd Thess. III, 1, and the discourse was a most impressive one.

THE following item from the Jerseyville, Ill., *Democrat*, strikes a chord of kindred feeling: "The small-pox scare proves to be a case of measels." We are glad to find that the Plainfield people are not more easily mislead than others.

IN another column will be noticed a card to the public, signed by Dr. R. H. Lowrie, secretary of the Board of Health. The caution, advice and suggested action contained therein seem most appropriate when the state of affairs referred to is considered.

OUR respects to the Elizabeth *Journal*, and will it please give credit whenever anything in our columns finds sufficient favor in its eyes to be republished. Two of the most fondly nurtured jokes (?) of our "funny man" were kleptomainied by our contemporary, recently.

BEFORE the disappearance of the remarkable sleighing season we have lately experienced, the scholars of Mrs. Austin's Craig place school were given an enjoyable ride by Mr. John Whitlock. In consequence of which many young hearts were made glad and young lives happy.

EVERYBODY is desirous of attending the Saengerbund masquerade next Monday evening, but as it is intended to be most select, none but the better class of our citizens are so fortunate as to secure invitations. No one allowed on the floor unmasked, and no admission by payment at the door.

WE learn with pleasure that arrangements are being perfected for the delivery in this City during March of a lecture by Judge Good entitled—"Men and things in Europe as seen in 1880." It will be worth everybody's hearing. When and where tickets can be obtained will be duly announced.

EX-COUNCILMAN John Cameron, of this city, and Mr. A. Fagan, of Penn., have received a contract for constructing a new short line of railroad about 25 miles in length from Danville to Belvidere, this State, known as the New Lehigh and Hudson Railroad. Work will be commenced on the road at once.

VENNOR, in the almanacs he prints and sells for twenty-five cents, says that the 4th, 5th, 9th, 11th, 16th, 17th, 25th and 26th days of next July will be excessively hot days; that next August will be decidedly moist; that next October will be foggy all the month; and that next December will be muddy and mild.

A FIRM of means and experience formerly doing business in Brooklyn, has recently purchased the Hillman property on Somerset street. Necessary alterations will be made tending to convert the out-buildings into factories for the manufacture of fly-nets for horses, to supply the Southern trade. About thirty men will be employed.

THE cheery notes of blue birds heard in the early morn in this city on Tuesday last reminded the hearer that Spring was approaching even if it is two months away. These little harbingers, however, are to be seen at times and places in the North during the severest days of winter, although many contend that the blue bird migrates Southward on the approach of cold weather.

THERE are so many lecturers and pastors who seem to believe that the sale of intoxicating liquors can be stopped and the inhabitants of the World converted into disciples of total abstinence, we would urge upon some of them the proving that water will run up hill and that the sun can rise in the west. Either of the latter is fully as possible as the former, and as susceptible of proof.

THE Chautauqua Literary and Scientific Circle of Plainfield, will hold a meeting on next Monday evening, Feb. 21st, in the Y. M. C. A. Hall, at eight o'clock. A review of the studies of the month and an address by the Rev. A. H. Lewis on "The Philosophy of History," will be given. Music, both vocal and instrumental, is expected and "a round table" will be held, for which members are requested to send written questions relating to the subjects of the course, to the office of the C. L. S. C. before Monday evening, that answers may be given at the meeting. All persons, whether members or not, are cordially invited to be present and enjoy the exercises.

A MAN with a pinching shoe has put this conundrum to the Central *Times*—which its editor, taking pity on the correspondent's ignorance, passes unanswered—"What right has the Common Council to publish a list of delinquent taxpayers"? It has every right to do so; and as to the Council "assuming very doubtful powers," the *Times* correspondent shows his lack of knowledge that such is the custom all over the State, Westfield and many other places having made such a publication during the present week. Unless the Council rescind their resolution, the name of the correspondent will be found on the list after the 28th inst.

THE township affairs of North Plainfield were settled up and its cash account balanced, on Tuesday of this week.

THE new firm of Geo. W. Rockfellow has hung out a most beautiful and tasteful sign, the work of Mr. David Runyon.

MESSRS. Jay Gould and Sidney Dillon were yesterday elected directors in the C. R. R. of N. J. The stock closed at 112.

NEW Jersey C. R. R. stock rises to 114. That is what comes of the renewed confidence of the people upon the election of Gov. Geo. C. Ludlow.

THERE are rumors afloat that ice dealers intend increasing the price of that article, on the plea that so much was carried away by the recent thaw.

THE series of games between the chess experts of this city and Elizabeth, to decide the championship of the County, commenced on Wednesday evening.

THE Turn Verein of North Plainfield have accepted an invitation from a brother society in Brooklyn, to attend a masquerade in that city, next week.

THE CONSTITUTIONALIST has been selected as the official paper of Plainfield to publish the Laws of New Jersey passed during the present Legislature.

THE cases of *certiorari* in matter of assessment on Somerset street and Johnston Drive, will be argued before the Supreme Court at Trenton next Wednesday.

THE fare to Washington and back during the days of inauguration, has been cut down to $10 by the B. & O. R. R. with every prospect of a further reduction.

THE masquerade at Mt. Bethel, on the eve of Washington's birthday, will be one of the pleasantest events of the kind that have happened during the present season.

THE "Mite Society" of Westfield will hold a Lady Washington reception and tea party in the parlors of the Presbyterian Church of that place, next Tuesday evening.

THE power of Silent Interferences in the formation of Character, will be the theme at the Seventh Day Baptist church next Sunday evening. "Reading" will be especially considered.

INDICATIONS of an extensive spring trade are already being noticed by our city's merchants. Advertisers in THE CONSTITUTIONALIST will undoubtedly do a lucrative business during the coming season.

IT was hard to persuade those who overslept themselves last Wednesday, that there had been a snow storm the night before. There was not enough of the frozen element left by evening to prove the assertion.

MR. P. Garretson has opened a fish stand in connection with the meat market of Mr. I TenEyck, on Park ave. opposite the Chautauqua building. All varieties of fresh fish in their season, will be kept on hand.

THE St. Mary's T. A. B. [illegible] hall on Fourth street, will not be forgotten or neglected next Thursday evening. Strenuous efforts are being put forward to make it the most successful event of the kind ever held in the parish.

THE next regular rehearsal of the Plainfield Vocal Society will take place on Monday evening, Feb. 21st., at 8 o'clock, in Assembly Hall. All the members are earnestly requested to be present, as new music will be taken up in anticipation of the coming concert.

EDSALL & PRICE are making quite a stir among the ladies in the addition of their new department of ladies and children's muslin underwear. This the ladies say is a department much needed in this city. We would call the attention of our readers to their advertisement.

THE last jury in the case of Mulford vs Milliken brought in a verdict for the plaintiff last Monday afternoon. By this decision two competitive real estate agents received each a commission for renting a piece of property which was in the hands of one but leased through the efforts of the other.

REAL Estate in this city booms and keeps a booming. There is quite a demand for houses by new settlers and rents are developing a tendency towards increase. Wise house owners who have good tenants and sensible lessees with generous landlords, should avoid rather than impel a change.

A HORSE belonging to Mr. S. A. Ginn, of Hillside avenue, ran away on Saturday afternoon last but fortunately no noticeable damage resulted. The animal navigated itself through the city and past the depot in spite of every effort to arrest its progress; checking its speed only upon reaching the residence of its owner.

The Banner Township.

From the financial statements of the Collector and Treasurer of Fanwood Township, printed at this office, we glean that there is a balance of $1,193.23 in the Collector's hands and $296.08 in that of the Treasurer. Good for Fanwood.

Masonic Notice.

The members of Jerusalem Lodge, No. 26 F. & A. M. of this city are hereby notified to attend a Special Communication at Masonic Hall, Sunday Feb. 20, at one o'clock, p. m. "sharp" for the purpose of attending the funeral of our late brother, Geo. Miller.

The North Plainfield Ball.

The Grand Ball at Bistz's Hall on Somerset street, which had long been looked forward to by all, came off on Monday evening and was—as it deserved to be—a success in every particular. The reputation of the proprietor as a bountiful entertainer and generous host, is too well known to need any additional praise. A large number of young ladies and gentlemen gathered on the occasion; and dance after dance to the lively strains of the Plainfield Cornet Band, kept moving the tripping feet and graceful forms of our city's youth and beauty. The night passed and morning came, yet still the merriment was continued; and even those who felt the need of reviving as midnight approached, experienced renewed life and gaiety after partaking of the liberal supper provided.

The Westfield Poison Case.

The poison case which excited Westfield somewhat has been investigated. Two families, named Owens and Freely, live in a double house on Spring street in Westfield. Mrs. Freely had a spite against a dog belonging to the Owens, and threatened to poison the animal. Last Saturday evening, the dog came home, acted strangely for a time and died. In about two hours after a child of Mr. and Mrs. Owens, aged about sixteen months, took sick and died on Sunday. The parents thought their child had been poisoned, and the County Physician was summoned. He looked closely into the case and found that Mrs. Freely had not been in Mrs. Owen's house, the children had not met her, and only two or three days previous all the children of both families had eaten at the same table. The conclusion was that the child had died of convulsions.—*Eliz. Journal.*

A Good Showing.

The voters of Westfield Township should certainly feel proud over the excellent financial showing of the affairs of their corporation through the annual report of the Treasurer and Collector for 1880-81. From the latter's report there is a balance of $1,611 41 in his hands and $279 73 in the Treasurer's.

Church of the Holy Cross.

The Convocation of New Brunswick will meet in the church of the Holy Cross on Tuesday, Feb. 22d, at 10:30 a. m. A Missionary meeting will be held in the evening. Bishop Scarborough of this Diocese will be present. Also the newly consecrated Bishop of Washington Territory, the Rt. Rev. John Paddock, formerly Rector of St. Peter's church, Brooklyn.

"Why Did She Marry Him?"

Prof. Nathan Sheppard has consented to deliver a lecture in this city on the above subject, on Monday evening, Feb. 28 inst., in behalf of the "Woman's Christian Temperance Union." In the lecture Mr. Sheppard treats of "The Matrimony of the Novels and of Life," giving illustrations drawn from real life and the best society, which show that fiction is tame in comparison with fact. The lecture is full of such instruction and happy hits as make it one of the very best of the many subjects treated of by this brilliant lecturer. The admission is put at the popular price of twenty-five cents, with no reserved seats.

The Y. M. C. A. Concert.

A reference to the list of artists secured for appearance at the Y. M. C. A. concert of Tuesday evening, is convincing evidence that the entertainment will be most perfect in particular and enjoyable in general. Miss Ella Earle, the soprano of the occasion, needs no further recommendation to the public than her late introduction to this city gained for her. Those who desire to be *au fait* regarding the latest successes of the musical profession, will be pleased to learn that this lady will sing Henschel's "Hush thee my Babie". The contralto, tenor and basso parts will be sustained undoubtedly in an admirable manner by the talent selected—the whole under the able management of Mr. H. R. Humphries.

Old Folk's Sociable.

The announcement that Kerrigan and his melodious pipes would be on hand at St. Mary's Hall, inspired the attendance of the "Old Folks" of that parish last Monday evening. The interiors of the dance and dressingrooms were handsomely decorated, brilliantly lighted and comfortably warmed, so that nothing necessary for the comfort and convenience of the gathering was omitted. On a raised platform at the farther end of the Hall, Kerrigan and assisting musicians on the violin and harp, rendered the national airs of Green Erin and Bonny Scotland in a manner impossible for feet and legs to resist though they be never so aged and out of practice. The hearts of the old became young again, and even those who had left three score years of life behind, grew youthful, flexible and active. Of course a merry time was experienced and Father Morris is greatly to be praised for his endeavors to afford gaiety and amusement for the "Old Folks" of his congregation.

Robbery.

The grocery store of Mr. J. V. Hass on the corner of Third and Washington streets, was entered during Thursday night of last week, by some parties unknown, and merchandise of some value taken. Entrance was gained by opening the shutters on the Washington street side of the building, cutting through a large pane of glass and springing back the catch. Having reached the interior, the thieves possessed themselves of a case, taking therefrom cigars and tobacco valued at about $20, and made their exit. The money drawer was forced from the counter, but as the proprietor always carries home with him each night such cash as is taken in through the day, the thieves found the till empty. An old file was discovered near the window through which the entrance was made, but no other clue remained behind by which to trace the perpetrators of the deed. The supposition is that the robbery was committed by boys. No arrests have as yet been made, although we understand the affair is being traced up.

The Last Recital.

One of the most successful series of musical entertainments that this city has ever been favored with, closed last Tuesday evening with the Third Recital of Messrs. Feininger and Evans. The programme bore witness of the unceasing endeavors of the managers to accede to the demands of their patrons—combining the classical in music of both the past and present time, and affording the audience an opportunity of enjoying that which could be appreciated.

Apart from the individual performances of Messrs. Feininger and Evans, the most perfectly rendered and entirely pleasant selection of the evening was an andante movement from Op. 18, No. 5, in A major, by L. VonBeethoven. The work was interpreted in a masterly manner by the talented string quartette that Mr. Feininger has been so fortunate in combining—showing admirably the commendable result of efficient training and an appreciative understanding of the grandeur and beauty of harmony.

After an experience of the sweetness of vocal power possessed by the lady who sang at the First Recital, it has been found impossible to please the exceedingly critical audiences that this city furnishes on like occasions. Miss Huss failed to satisfy the tastes of her hearers, and Mme. Von Oertzen was hardly a success. The first of her solos, "My Sweet Repose," by Franz Schubert, jarred unpleasantly throughout; and although her last song received some applause in compliment to her sex, her reception as a whole was far from flattering to her talents.

The quintette and sestetto compositions—the latter arranged by Mr. Feininger—were rather tedious for many reasons; the former principally on account of its length, and the other by the seeming omission of a portion of the instrumental score to allow the addition of a vocal part.

In consequence, the task of retaining the interest of the attendance devolved almost entirely upon Mr. Carl Feininger and Mr. Clark W. Evans. Those artists performed such obligation, marvelously well. The solos of Mr. Feininger are expositions of the very soul and true tenderness of violin music, while Mr. Evans' executions of piano melody are wonders of the perfection of acquired art and inborn capability. Both gentlemen played compositions of their own, testifying their right to rank among creditable authors as well as accomplished producers. In response to a recall demanded by his playing of Thalberg's "Home, Sweet Home," Mr. Evans gave "The Last Rose of Summer" with variations, in the same enjoyable manner. Mr. Feininger's violin solos were worthy of urgent encores, but the outer edge of the audience, composed mainly of the supernumeraries of the occasion, was more partial than discriminating in its applause. Miss Ross' piano parts were artistically given, and Miss Gavett accompanied the soprano solos very praiseworthily.

The attendance was most favorable both in quantity and quality, plainly showing the popularity attained by these recitals; it is therefore just to suppose that a repetition of the same at some future time, will be greeted with even more flattering appreciation.

The Penitential Season.

Sunday was Septuagesima Sunday, and with it begins the long penitential season of more than two months ending with Easter Sunday, which this year falls on April 17. Although Ash Wednesday (the beginning of Lent) does not come till March 2, the three Sundays immediately preceding it are set apart for acts of penance and preparation to the devotion of Lent. In all the Catholic churches Sunday, the altars were covered with purple, and will remain so throughout the penitential season. The vestments worn by the clergy will also be of the same color every Sunday.

Accident on the Central Railroad.

On Thursday evening of last week a serious accident occurred on the Central Railroad at Communipaw. The Somerville accommodation train, Nelson Doty, conductor, consisting of eight passenger-cars, filled with passengers, left the station at Jersey City a few minutes after 6 o'clock. It makes no stop between Jersey City and Bergen Point, and runs past the Communipaw station without slacking speed. At a point about two hundred yards west of the Communipaw depot the Newark branch diverges from the main line, and at the "frog," the point of the V formed by the covering rails, the accident happened. The locomotive and six cars passed the frog safely, and unless subsequent examinations show a defective wheel or axle, it will be supposed that the truck jumped the track and caused the accident.

The first of the two cars after plunging along for some yards left the track and fell over on its side alongside the switch house, and almost at right angles with the track. The second and last car of the train retained its upright position, and its occupants, more frightened than hurt, were soon safely out. The seats were smashed and broken and fell over, and the passengers were cut, bruised and jammed tight between the broken woodwork and displaced seats. Very soon it was discovered that the upsetting of the stove had set fire to the [illegible] of the car, and the woodwork, the flames bursting out very rapidly. But willing hands were speedily at work pulling the people out through the door and window frames. Hardly had the last been got out of their dangerous quarters before the whole car was in flames, and it was speedily burned up. The switch house also caught fire and was partially destroyed before the flames could be extinguished.

The injured passengers were carried to Communipaw depot and made as comfortable as possible, and physicians promptly summoned.

Very fortunately only one of the stoves in the car was broken when it went over. Had the second stove thrown out its contents and set fire to the other end of the car, it is more than merely probable that many would have been severely, if not fatally burned, as the principal exit would then have been cut off.

Mrs. Nellie Harris, a young woman living in Brooklyn, and who was coming to visit Mrs. Patrick Quinn of Price St., in Elizabeth, was badly burned about the limbs and cut on the head. She was taken to the house of Mrs. Hudson Lovell, where she was attended by a physician, and nursed by the lady of the house. The lady had been purchasing some articles in New York, and being cold sat near the stove on her return home. When the accident occurred the stove was thrown against her, destroying a portion of her skirts and badly burning her limbs, while her parcels and a purse containing more than $40 were swallowed up in the conflagration.

Mr. A. C. Laird, No. 531 Broad street, Elizabeth, was hurt in the head, quite painfully, but not fatally.

There were a number of others living in the same city injured, but none seriously. Mr. Wm. Saunders of Somerville had one of his arms crushed, and two deep cuts upon his head, and Mr. Wm. Steele, of New Brighton, S. I., had his right arm fractured.

The loss to the company is estimated at about $8,000. The delay caused by the accident was from two to three hours.

There were several Plainfield people in the car, and two of them, Mr. Richard R. Coriell and Chas. Day, a resident of North Plainfield, were considerably shaken up and bruised. Mr. Coriell was confined to his house several days in consequence of his injuries. Several other Plainfield passengers lost their overcoats, hats and parcels.

The passengers speak in the highest praise of the coolness and promptness of conductor Doty during the short time of excitement and horror incidental to the accident.

Up the present time no injuries have resulted fatally except in the case of Mr. Edward Reeves, formerly stationed at the Plainfield ticket office and at the time of the accident employed in the same capacity on the Jersey City side of the C. R. R. ferry. He was injured by the falling of the stove upon his head and fracturing his skull. Upon being taken to the residence of Conductor Henry Mason in Lafayette, medical attendance was at once summoned; but although some hopes were entertained of his ultimate recovery, he died at four o'clock on Tuesday afternoon.

The officers of the road are still trying to ascertain the cause of the occurrence, but have not succeeded. Superintendent Moore promises to make public the result of any inquiry that may point to the negligence or culpability of anyone. Experiments have been made proving it to be utterly impossible to move a switch while the weight of a passing train is upon the rails. The probabilities are that some defect or break occurred in the flange of the wheels just before reaching the switch, that caused their taking a wrong direction; or that in swinging rapidly around the curve at that point, the truck rode up onto the rail and was thrown out of its natural course upon striking the frog.

THE very attractive billiard parlors of Mr. James H. Force have lately received additional decoration at the hands of those artistic grainers, Messrs. James Beckle and Isaac Squire. No. 5 Park Avenue. This just fills out this column.

Personals.

It is with pleasure we note that our esteemed friend, A. [illegible], has so far recovered from his recent severe attack of inflammatory rheumatism as to be able once more to resume business. Mr. [illegible] contemplates a business trip to Europe in May.

The many personal friends of John B. Cornwell will deeply sympathize with that gentleman and his wife in the affliction they have been called upon to bear, by the death of an infant son.

The removal of Mr. Joseph M. Mather from this city and the transferring of his well established insurance agency to other fields, will leave a vacancy in the list of our enterprising business men, formerly filled most acceptably by that popular gentleman.

The Rev. D. J. Yerkes, D. D., read an instructive paper before the Baptist Minister's Conference at New York city, last Monday.

Mayor Randolph's united and happy household has been encircled with an additional bond of affection, by the advent of a baby girl.

Mr. H. P. Reynolds is confined to his house by a return of his late severe attack of illness.

Mr Lewis Ayres, a well known former resident of this city, died in New York city of pneumonia a few days ago. His remains will be interred in the Presbyterian cemetery in North Plainfield to-day.

County Clerk James S. Vosseller was honored with a serenade from the Plainfield Saengerbund on Tuesday evening.

The aged mother of our new Overseer of the Poor paid him a visit in this city during the present week, and made a personal inspection of her son's very desirable property as represented in the Chautauqua Building. The lady although 90 years of age, is fully as vivacious and active as many a younger one.

Mr. Harry Roberts, a young son of Mr. D. S. Roberts, is lying very ill of pneumonia.

Obituary.

GEORGE MILLER.

It is our sad duty this week to announce the death of a well-known and respected citizen of Plainfield, GEORGE MILLER, proprietor of Laing's Hotel, which sad event occurred on Wednesday night last, at ten minutes to eleven o'clock. Although the death of Mr. Miller was anticipated by his many friends to occur at any moment during the past few weeks, in consequence of the complication of diseases from which he was suffering, still the announcement of the dread news that he was no more, caused a shock in the community.

George Miller was born in Staffordshire, England, June 11th, 1822. In his early youth he was engaged in the Pottery business with his father in his native town. In 1841 he came to this country. Of a roving disposition in his youth, he went to the Isthmus after his arrival in this country, as a hotel clerk. Returning, he established himself in business in Jersey City, in Washington street, keeping a Billiard Room and Chop House, later being a proprietor of a chop house corner of Broome and Broadway, N. Y. In 1860, at the solicitation of friends, he became proprietor of what was then known as the "Half Way House," on the corner of Front street and "Rock Avenue," near Dunellen, where he built up a fine business as a caterer to the public. Here, probably, was the initiatory of Mr. Miller's popularity in New Jersey for the "Half Way House," was, in those days, known as the best kept and well-regulated of any other establishment of the kind in this section.

In 1866 the "Half Way House" burned down, through unforeseen circumstances, and Mr. Miller suffered a severe loss. His many friends in Plainfield promptly came to his rescue and saw that he was established in another "Half Way House" near the present site of Evona. He remained there about a year, at the same time conducting a chop house and restaurant corner of Broadway and Courtlandt street (basement), afterward opening a first-class restaurant in the basement under the present location of Shaw's drug store, on Front street, this city. Here he became identified in fire matters, and seeing the urgent necessity of a Hook & Ladder Company in Plainfield, started a plan on foot to organize such a company and secure for them an apparatus, which he was successful in, and to-day Zephyr H. & L. Co. No. 1 of this city, honor Geo. Miller's name as one of its founders.

About 1870 Mr. Miller leased a dwelling house of Mr. Coles at Scotch Plains, and opened a hotel there (now Brittin's Hotel). He remained there about one year and then took charge of the present City Hotel, of this city. This house he successfully managed for some five years. Failing to purchase the property at his desired figures, the Hotel passed into other hands, and Mr. Miller leased the "Sheridan House" at Elizabeth, which he conducted in a most able manner until 1880, when his longing to once again engage in business in Plainfield induced him to lease the well-known Laing's Hotel of this city, which institution he has most satisfactorily managed up to time of his death.

While engaged in business at Scotch Plains, his old love for the firemen induced him to set on foot a scheme to organize a Fire Company in that village. Through his efforts, mainly, is due today, the existence of "Excelsior H. & L. Co. No. 1" of Scotch Plains.

In early life he was a member also of Engine Co. No. 15 of N. Y., during the days of the Volunteer Fire Department.

Geo. Miller was an honored member of Jerusalem Lodge, No. 26, F. & A. M., and Jerusalem Chapter, No. 24, R. A. M., of this city, also St. John's Commandery, No. 9 of Elizabeth.

His remains will be interred in the Presbyterian Cemetery, North Plainfield, with Masonic ceremonies on Sunday, Feb. 20, at 2 o'clock p. m., from his late place of residence and 2:30 p. m. from First Presbyterian church.

In the death of George Miller, Plainfield loses a valuable and esteemed citizen. He was a kind and indulgent parent, fond husband, true friend and an honest man. What more can we say. He has gone from our midst, and we can only revere his memory and speak well of him as he deserves to be remembered.

Deceased leaves a wife and six children, four sons and two daughters.

The members of Zephyr Hook & Ladder Co. at a meeting held last evening, resolved to attend the funeral of their late fellow member George Miller. It was also agreed to extend an invitation to the other companies of the city to be present with them, as well as the Excelsior H. & L. Co. of Scotch Plains of which the deceased was formerly a member.

SPORTSMEN'S CORNER.

A cruel shooting match came off on Tuesday week, at Gloucester. The pigeons before being placed in the trap had burning papers attached to their feet. A number of them were shot as soon as they arose in the air, but several escaped and soared off with blistered legs and feet.

A new dish is offered for the epicure to pass his opinion upon, that of English sparrow on toast. This morning as a representative of this paper was passing one of the city markets he observed a string of small birds hanging outside which resembled the common English sparrow. Upon inquiry he was informed that the birds were sparrows, and would be either stewed or served on toast. They sold for eight cents a pair.—*Albany Journal.*

A Dam Gone.

Among the many results superinduced by the late thaw, was the breaking up of the ice in Green Brook and the formation of a freshet substantial enough to carry away a large portion of the Randolph dam at Washington avenue. By reason of such casualty that inappropriately named body of water, Sylvan Lake, was completely drained; and but a small channel in the centre of a bed of mud, remained to carry off the running stream. The Board of Health are carefully watching further developments, with every view towards the prevention of any unhealthy effects arising from the coming sun of warmer days decomposing the vegetable matter that fills the bed of the much discussed pond. In all probability the estate of the property's late owner will rebuild the dam in order to fulfill the provisions of the lease which covers certain water privileges destroyed by the emptying of the lake.

Was it Small-pox?

The second and last "small-pox case" has developed—since our last issue—into a mooted question regarding which there are yet a variety of beliefs, theories and opinions. The gentleman, in whose employ the unfortunate girl was at the time of her being taken sick, and whose house had been entirely vacated and quarantined upon the establishment of the patient and nurse within its walls, for some reason declined to believe the illness was of the form attributed. In consequence, Dr. Vermilye, an appointee of the N. Y. Board of Health made an examination of the sick girl on Saturday last at the request of Mr. Ellis and gave as his professional decision that she was not afflicted with either varioloid or small-pox. It should be born in mind that the usual time of duration of the sickness had passed before this examination was made, and in the first stages of the affair prominent physicians of our city had as far assured themselves of the nature of the case, that the proper authorities, Boards of Health on both sides of the brook and Mayor Randolph had been informed that a small-pox patient needed their immediate attention. If we then assume that the girl was suffering from some disease entirely foreign to the supposed complaint, we accredit almost the entire medical profession of Plainfield with gross ignorance. We cannot admit such a view of the matter, and are inclined to believe the patient was taken with varioloid (possibly a light attack) from which she in the course of time and with careful nursing and attention, rallied. It is only fair to allow that Dr. Friedrich—into whose charge was placed the case by the family physician of Mr. Ellis and by the Township physician—is entitled to a knowledge of the disease from the large experience he claims to have had in such matters.

Mr. Ellis seems to be the only person fully satisfied in opinion. That gentleman returned with his family to his residence during the early part of the week—the sick girl, to all appearance entirely free from any eruptive disease, leaving Plainfield on Monday morning last by the 11:11 train.

BEWARE OF ALCOHOLIC BITTERS.

Thousands have been ruined for life by drinking popular nostrums, the principal ingredient of which is alcohol. Such "bitters" are deceptive in their effects; they cause intoxication and temporary relief, while they foster the drunkard's appetite. Dr. Kennedy's "Favorite Remedy" does not heat and inflame the blood; it cools and [illegible]. Better than this even, it has cured many a craving appetite for drink. RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a violent bleeding of the lungs followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years. [illegible] I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work." Sold by druggists.

Proceedings of the Board of Chosen Freeholders of the County of Union, N. J.

[OFFICIAL.]

ELIZABETH, N. J., Feb. 3d, 1881.

Pursuant to adjournment the Board of Chosen Freeholders of the County of Union, met at the Court House, on Thursday, February 3d, 1881, at 11 o'clock a. m.

Regular meeting.

Present—Director Martine and Freeholders Briant, Crowell, Doty, Forsyth, Hubbard, Isenmann, Jewell, Miller, Nolte, O'Sullivan, Randolph, Thompson and Wilcox—14.

Absent—Freeholders Roll and Smith—2.

The minutes of the last meeting were read, (omitting bills ordered paid), and on motion approved as read.

COMMUNICATIONS.

The Clerk read a communication from John C. Sickley, Esq., Poughkeepsie, N. Y., in reference to lost coupons to the amount of $17.50, and offering to furnish bond of indemnity to the county, upon payment of same.

Freeholder Hubbard moved that the communication be received and that the Director and County Collector be instructed to settle the matter when a bond of indemnity is furnished the county.

Which was carried by a unanimous vote.

COMMITTEE REPORTS.

The Committee on draw-tenders for draw bridges in the city of Elizabeth, presented the following:

To the Board of Chosen Freeholders of the County of Union:

Your Committee on draw-tenders for draw bridges in city of Elizabeth met with a committee representing the Common Council of said city at Freeholders' room, January 15th, after a free interchange of opinions in relation to the subject matter in question and no definite conclusions being reached, the matter being disposed of for the time being by the adoption of the following resolution:

Feb. 3d, 1881.

Resolved, That the Committee representing the County insist upon their legal rights, as expressed in a written agreement made by the City of Elizabeth, in relation to the maintenance of a draw-tender for South street bridge.

Respectfully submitted.
GEO. W. F. RANDOLPH,
DANIEL O'SULLIVAN,
GEORGE W. DOTY,
Committee.

Freeholder Hubbard moved the report be received.

Which was carried.

The Committee to confer with township Committee of Summit, reported as follows:

To the Board of Chosen Freeholders of the County of Union, N. J.:

GENTLEMEN—

Your committee appointed "to confer with the Township Committee of Summit to arrange for a settlement and report to the Board at its next meeting," would respectfully report—

That on investigation we find a suit now before the Courts for the amount which is shown by the evidence in the case to be $6,772.47.

At a conference with Mr. Manley, Chairman of the Town Committee, and Mr. McKeegan, their Attorney, they offer us in settlement $6,000, one-half to be paid in a short time and the other half within the present year.

Failing to see our way clear to accept their offer we have so informed them, but accompanied the information with a proposal which your committee would recommend for the action of the Board, which is as follows: "That we accept the amount ($6,772.46) as shown by the evidence in that case, each party to pay their own costs;" in making this recommendation for your action we would say it is only done to avoid further litigation and immediately bring the matter to a close. We are now informed by our attorney that the Township Committee have accepted our proposition, he having received a communication from the Township Committee to that effect, all of which is respectfully submitted.

GEORGE W. DOTY,
JAMES L. MILLER,
WILLIAM J. THOMPSON,
JOHN ISENMANN,
THOS. FORSYTH,
Committee.

February, 3, 1881.

Freeholder Hubbard moved the report be accepted.

Which was carried.

The report of the Special Committee on County Lunatic Asylum was read by Freeholder Randolph.

On motion the report was received.

RESOLUTION.

By Freeholder Doty:

Resolved, That new bonds to the amount of $90,000 be issued by the Board to renew a portion of the bonds falling due April 1st, 1881, for the payment of which no provision has been made, in accordance with an act of the Legislature approved March 4th 1880, page 118; and the Board hereby determine that they shall be coupon bonds of the denomination of $1,000 each, dated April 1st, 1881, and shall bear interest at the rate of six per cent, per annum, payable semi-annually and shall fall due as follows:

$15,000	on the	1st	of April,	1884
$ 5,000	"	"	"	1885
$ 5,000	"	"	"	1886
$15,000	"	"	"	1887
$15,000	"	"	"	1888
$15,000	"	"	"	1889
$15,000	"	"	"	1891
$ 5,000	"	"	"	1892

On motion of Freeholder Briant, adopted by the following vote:

Affirmative—Director Martine, and Freeholders Briant, Crowell, Doty, Forsyth, Hubbard, Isenmann, Jewell, Miller, Nolte, O'Sullivan, Randolph, Thompson, Wilcox—14.

Negative—None.

By Freeholder Randolph:

WHEREAS, It has pleased an all-wise Providence to remove from our midst John Ball, one of our associates, thereby creating a vacancy in the Board of Freeholders of which he was an honored member, an esteemed friend and a faithful and efficient public servant; therefore,

Resolved, That whilst we have received the announcement of his death with deep regret, we bow with humble submission to the will of "Him who doeth all things well."

Resolved, That in his death this Board has lost a valued member, and the members a friend and associate whose virtues have endeared him to all.

Resolved, That we deeply sympathize and condole with the friends and relatives of the deceased in their sorrow and great affliction.

Resolved, That these resolutions be spread in full upon the minutes of the Board, and that an engrossed copy, signed by the Clerk, be forwarded to the family of the deceased.

Freeholder Forsyth moved the adoption of the resolutions.

Which was carried.

By Freeholder Randolph:

Resolved, That the Clerk be instructed to notify the Common Council of the city of Elizabeth, that by reason of the death of one of our former associates (John Ball) there is a vacancy in the representation from the city of Elizabeth in the Board.

On motion of Freeholder Hubbard the resolution was adopted.

By Freeholder Briant:

Resolved, That copies of the report of Special Committee on the propriety of maintaining our insane within our own county, be printed, and that the Clerk mark one of such printed copies, and file it away as the official report of said committee.

Freeholder Hubbard moved to fill the blank with 1000. Carried.

Freeholder Doty moved the resolution as amended be adopted.

Which was carried by a unanimous vote.

By Freeholder Doty:

Resolved, That the sum of six thousand seven hundred and seventy-two dollars and forty-six cents offered by the Township Committee of the Township of Summit in settlement of arrears of taxes due from said township to the County of Union on State, State School, and County tax levies for the years 1872, 1873, 1874, and 1875, the said sum being the arrears of taxes now due, be accepted by this Board in full settlement for all claims and demands against said township for such taxes for the years above mentioned, and that when such payment be made or provision made for the collection thereof in the next tax levy, the suit against said township be discontinued without costs to either party, and that the said suit be stayed until the annual meeting.

On motion of Freeholder Briant adopted.

By Freeholder Hubbard:

Resolved, That the sum of $600 be transferred from Bond account to Bridge account, and that $200 be transferred from Bond account to Stationery account.

On motion of Freeholder Randolph adopted by a unanimous vote.

By Freeholder Randolph:

Resolved, That in view of the fact that the County of Union had every reason to suppose that the Bridge street draw bridge was in good condition, and that they had no reason to anticipate it would break down when an attempt was made to open it, and that the county used every exertion to restore it to its original use, in as short a time as possible, and that the Board believe that due diligence and care required by law had been exercised in the care of the Bridge before it became inoperative, therefore the Board refuse to honor the claim presented by L. B. Beerbower & Co., for alleged damages claimed to have been sustained by inability of claimant's boat to pass through said draw.

On motion of Freeholder Briant adopted.

By Freeholder Randolph:

Resolved, That the Collector be instructed to pay the New York Bridge Co., one thousand dollars on account of Cranford and Rahway iron bridges, and take his receipt therefor.

After remarks by different members Freeholder Thompson moved to amend by making the amount 700 instead of 1000 dollars.

The amendment was carried by a unanimous vote.

The resolution as amended, was adopted by a unanimous.

By Freeholder Randolph:

Resolved, That the resolution heretofore adopted, requiring all reports of committees to be spread upon the minutes be suspended so far as the same shall apply to the report of special committee on maintaining our insane within our own county.

On motion adopted.

Freeholder Randolph moved that the Clerk of the Board return to L. B. Beerbower & Co., their bill for damages, together with a copy of the resolution in reference to the same. Which was carried.

BILLS ORDERED PAID.

The following bills were read and ordered paid, all bills on which the roll was called being by unanimous vote:

Freeholder Doty moved to adjourn.

Which was carried.

The Director declared the Board adjourned to Thursday, March 3, 1881, at 11 o'clock, A. M.

JOHN L. CROWELL, Clerk.

SHE WOULDN'T KISS.

One day last week a Deer Island vessel was lying at one of the wharves of our city. The men folks had gone up town to trade, leaving a tall, rawboned woman in a faded calico dress on board alone. Three or four loafers stood on the dock watching her as she swept up the deck.

"What are you doin,' mother?" sung out one of them banteringly.

"Doin' to this deck what you ought to do to your face—keepin' it clean," retorted the woman, without looking up from her work.

The other loafers laughed loudly at this sharp rejoinder, and wagered their discomfited companion that he couldn't jump down on the vessel and extort a kiss from the woman by force. The loafer accepted the challenge, clambered down on the deck, and approached the woman.

"Keep off, you beer jug," she cried warningly, waving her broom.

"Sweet seraph, one kiss," said the loafer airily, skipping from side to side with his arms outstretched.

"One belt in the head," replied the woman grimly; "you come within the reach of this broom an' I'll make you see seven different kinds o' comets."

The man watched his chance, and dashing in flung his arms around the raw-boned woman's waist. The next instant he felt himself lifted in the air with the force of a steam derrick. As he came down and struck across the water-cask, the woman grabbed him by the collar, mopped him a few times over the deck, held him under the pump, and filled the back of his clothes full of bilge water, snapped his heels around the mast three or four times to dry off, and then dropped him carefully over the deck. Then she resumed her broom, and as the forlorn kisser laboriously crawled up the side of the wharf, the raw-boned woman said:

"The old woman's gittin' kinder stiff an' shaky like, but if there's any more o' you chromos would like to taste the sweetness of these lips he can come down and salute the bride."

They didn't salute.—*Rockland Courier.*

It is perfectly natural that a man should see his mistake after he has made it.

BARBERS' POLES.

In Europe the usual sign used by barbers is not the striped pole, but one or more brass disks or dishes, suspended over the street. The origin of the use of these signs is not, perhaps, generally known. Until the time of Louis XIV., in France, and George II., in England, the offices of barber and surgeon were united. The sign then used was the streaked pole, with the basin suspended from it. The former was to represent a bandaged wound, and the latter the basin into which the blood flowed. The barbers, after their separation from the surgical profession, appropriated the sign, apparently without appreciating the joke they were playing upon themselves.

SYNOPSIS OF THE NEW TAX LAW.

The following is a synopsis of the provisions of the new tax law, prepared by the commission appointed by the Legislature to take testimony at leading points into the errors of the present law, relating to assessments and the raising of taxes, and to report a bill remedying such defects:

Poll tax of $1 on all adults males, except soldiers and sailors, but there is no exemption for school purposes.

All real and personal property owned individually or corporately to be assessed, at full value, on the day fixed for beginning assessments, shall be taxed sufficient to raise the sum needed, after deducting poll tax and adding ten per cent, to meet the contingencies.

The term real estate, means lands, water power, underwood, wharves or piers, fees for warfage, dry docks, ferries and slips, mines, quarries, peat, clay and marble beds, and fisheries.

Personal estate includes goods and chattels of all kinds, steam and other vessels, money, good debts either on contract note, bond, mortgages or book accounts, public stock and stock in companies, here or elsewhere.

The exemptions from taxes are, United States bonds, when exempt by law; the property of counties, cities and boroughs, stocks or personals out of the State, on which taxes have been paid within twelve months previous to the day to begin the assessment, goods and chattels to the value of $100, pensions of soldiers and sailors; colleges, academies and seminaries; churches and land necessary, not exceeding five acres; except when rented, when the rent, but not the property, is taxable, endowment or charitable funds of religious; charitable or educational bodies and necessary furniture, pews in churches, grave yards not exceeding ten acres, cemeteries and necessary buildings, unless held for sale; and such stock in corporations as this State expressly exempts, or when they are taxed to the corporation.

Assessments are to be made between April 20th and June 20th, but the assessment must be made on the value on the first named date. Cities and townships may appoint deputies for any ward or township.

This valuation remains for three years, to be changed only on account of improvements or changes, but no increase or decrease shall be made unless the change equals 25 per cent in value.

Personal tax shall be assessed on a person where he resides on the day the assessment begins (April 20). Lands in two townships, if occupied, shall be assessed in township where the owner resides; if unoccupied, each part in the township where it lies. Personals of nonresidents may be assessed either to the owner or person in possession. Lands occupied by other than the owner may be assessed to such, and if unoccupied shall be denominated as lands of nonresidents, but the tax shall not be void because erroneously assessed to the wrong person; but in such case the real estate tax alone can be collected.

The Township Committee, City Council, or other boards of revision, may deduct debts bona fide due, if the creditors reside in this State, upon the debtor making oath of such debts and a statement of his real and personal estate, before the closing of the assessment, or after, if it satisfies the board of his inability to do it before. For a member of such board to deduct, without such sworn statement, is to be deemed guilty of a misdemeanor, subject to a fine of $200. No debt secured by mortgage shall be deducted without claim by the owner of the property. Mortgages shall be assessed where found, but the tax shall be collected in the township where the land lies. If the tax remains unpaid ten days after the time for paying taxes, the claim shall be sent to a Justice of the Peace in the county where the holder resides, who shall issue a warrant to the constable, who shall levy upon the goods and chattels and sell after four days' notice, and if the goods do not make the money, imprison the debtor.

The real and personal estate, except capital stock and surplus of every incorporated company shall be assessed in the township where it lies, and shall be deducted from the capital stock, and surplus.

The shares of stock in all corporations, not especially exempt, shall be assessed in the township where the corporation is, and the tax shall be paid by the company, and the company shall withhold from each stockholder's profits due him, his proportion of the tax.

Shares of stock in National or State banks shall be assessed in the township where the holder resides if in this State; if out of the State, the bank pays the tax.

Insurance companies whose capital is not divided into shares, shall be assessed upon real estate and assets valued in January. The proper officers of banks and corporations shall furnish the assessor under oath with the names of shareholders and the amount held.

Agents of foreign insurance companies must file a statement with the Secretary of State and take out a license. If the laws of the State where his company is incorporated imposes more upon agents of this State, he shall pay two per cent. upon his premiums.

Agents in cities having a firemen's benevolent fund shall pay two per cent. of their receipts into such fund. Failure or fraud in this particular will work a revocation of the license.

Express, telephone and telegraph companies shall be assessed in the township where the office is situated, and shall pay ½ of 1 per cent. of their gross receipts.

The Assessor must assess at the full price the property would bring at a fair private sale, not a forced sale, and shall furnish each taxable person with an assessment list, which the taxable must fill up and return under oath. If the return is not satisfactory, the person or corporation may be cited to appear before a Judge of the court, to answer, and the Judge shall then fix the value. Persons refusing to swear, or swearing falsely, shall be deemed guilty of a misdemeanor, fine, $200.

The office of Commissioners of Appeal is abolished, and the Township Committee, City Council or Board of Revision shall perform the duty, and shall meet for that purpose on the second Tuesday in June. No increase in valuation can be made without previous notice. The revision must be completed on the fourth Tuesday of July, and the revised returns given to the Assessor, who shall hand it in to the County Board of Assessors.

The Board of Revision shall have power to send for witnesses, and the members shall receive three dollars each per day for their services. If an appeal be decided against the taxpayer, he shall pay the costs.

When one door is shut, another is opened.

IT IS UNLUCKY

To fall out of a third-story window on Monday.

To meet a red-headed woman on a Tuesday (especially if you owe her anything.)

To break a forty dollar mirror on a Wednesday.

To dream you see red snakes or green monkeys on Thursday.

To get hung on Friday.

To lose 2.50 on Saturday.

Or to get locked up on Sunday.

Paste this in your hat.

As a writer in the London *Lancet* remarks, few people know the value of lemon-juice. A piece of lemon bound upon a corn will cure it in a few days; it should be renewed night and morning. A free use of lemon-juice and sugar will always relieve a cough. Most people feel poorly in the spring, but if they would eat a lemon before breakfast every day for a week—with or without sugar, as they like—they would find it better than any medicine. Lemon juice used according to this recipe will sometimes cure consumption: Put a dozen lemons into cold water and slowly bring to boil; boil slowly until the lemons are soft, then squeeze until all the juice is extracted; add sugar to your taste, and drink. In this way use one dozen lemons a day. If they cause pain, or loosen the bowels too much, lessen the quantity, and use only five or six a day until you are better, and then begin again with a dozen—the patient will begin to gain flesh and enjoy food. Hold on to the lemons, and still use them very freely for several weeks more. Another use for lemons is for a refreshing drink in summer, or in sickness at any time. Prepare as directed above, and add sugar and water. But in order to have this keep well, after boiling the lemons, squeeze and strain carefully; then to every half-pint of juice add one pound of loaf or crushed sugar, boil and stir a few minutes more until the sugar is dissolved, skim carefully and bottle. You will get more juice from the lemons by boiling them and the preparation keeps better.

Stone in the Bladder Expelled by using Dr. Kennedy's "FAVORITE REMEDY."

Mr. S. W. Hicks, of Pleasant Valley, Dutchess Co., N. Y., the son of Mr. E. S. Hicks, whose name may have appeared in this journal in connection with an article similar to this, was, like his father, afflicted with Stone in the Bladder, only that his case was more serious than his father's. On the appearance of the disease, the father advised the son to write to Dr. David Kennedy, of Rondout, N. Y., who, he said, would tell him what to do. Dr. Kennedy replied, suggesting the use of "Kennedy's Favorite Remedy," which had worked so successfully in the father's case. Mr. Hicks, who had been assured by the local physicians that they could do nothing more for him, tried "Favorite Remedy" at a venture, [illegible] he passed a stone [illegible] of an inch long and of the thickness of a pipe-stem since then he has had no symptoms of the return of the trouble. Here is a sick man healed. What better remedy could have been expected? What greater benefit could medical science confer? The end was gained, that is surely enough. Dr. Kennedy assures the public, by a preparation which he cannot afford to forfeit or imperil, that the "Favorite Remedy" does invigorate the Blood, and cures Liver, Kidney and Bladder complaints. "Dr. Kennedy's Favorite Remedy" for sale by all druggists. febtw4

TOLU ROCK AND RYE

For COUGHS, COLDS, SORE THROAT, BRONCHITIS, ASTHMA, PNEUMONIA, CONSUMPTION, and all Diseases of the THROAT, CHEST and LUNGS.

BALSAM OF TOLU Has always been one of the most important weapons wielded by the MEDICAL FACULTY against the encroachments of COUGHS, COLDS, BRONCHITIS, ASTHMA, SORE THROAT, CONSUMPTION in its incipient and advanced stages, and all diseases of the THROAT, CHEST and LUNGS, but it has never been so advantageously compounded as in the celebrated TOLU, ROCK and RYE. In addition to its soothing Balsamic properties, it affords a diffusive stimulant and tonic, to build up the System after the cough has been relieved.

Over 1,000,000 Bottles Consumed Annually.

Extract from Report of Com'r of Internal Revenue.

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE, Washington, D. C., January 26, 1880.

Messrs. LAWRENCE & MARTIN, Chicago, Ill.

GENTLEMEN: The OLD, ROCK and RYE, compounded according to the formula, has a sufficient quantity of the BALSAM of TOLU to give it all the advantages ascribed in pectoral complaints, and rendering it an agreeable remedy to the patient. It may properly be classed as a Medicinal Preparation under the provisions of U. S. Revised Statutes, and when so stamped may be sold by Druggists, Grocers and Other Persons WITHOUT RENDERING THEM LIABLE TO PAY SPECIAL TAX as liquor dealers. Yours Respectfully,

(Signed) GREEN B. RAUM, Commissioner of Internal Revenue.

CAUTION! Don't be deceived by unprincipled dealers who try to palm off upon you Rock and Rye in place of our TOLU, ROCK and RYE, which is the ONLY MEDICATED article made—the genuine having the signature, LAWRENCE & MARTIN, on the Proprietary Government Stamp on each bottle.

LEGAL NOTICES.

IN CHANCERY OF NEW JERSEY.

To William Harmon Brown and Sarah J. Lewis:

By virtue of an order of the Court of Chancery of New Jersey made on the day of the date hereof, in a cause wherein William C. Stanbery is complainant and you and others are defendants, you are required to appear and plead, answer or demur to the bill of said complainant on or before the Twenty-sixth day of March next, or the said bill will be taken as confessed against you.

The said bill is filed to foreclose a mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbery, on lands in the city of Plainfield, in Union County, N. J., dated July 16, A. D. 1878. And also to foreclose a certain other mortgage given as collateral to the above-described mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbery, on certain lands in the city of Plainfield, in said County and State aforesaid, dated July 16, A. D. 1878.

And you William Harmon Brown are made defendant, because you hold a mortgage on the lands described in the mortgage first above described.

And you Sarah J. Lewis are made defendant, because you hold a mortgage on the lands described in said collateral mortgage.

POETRY.

WHAT IS?

Wealth and glory and place and power—
What are they worth to me or you?
For the lease of life runs out in an hour,
And death stands ready to claim his due.
Sounding honors, or heaps of gold—
What are they all when all is told?

A pain of pleasure, a smile or a tear—
What does it matter which we claim?
For we step from the cradle into the bier,
And a careless world goes on the same.
Hours of gladness, or hours of sorrow—
What will it matter to us to-morrow?

Truth of love, or vow of friend,
Tender caresses, or cruel sneers—
What do they matter to us in the end?
For the brief day dies, and the long night nears,
Passionate kisses, or tears of gall—
The grave will open and cover them all.

Homeless vagrant, or honored guest,
Poor and humble, or rich and great,
All are racked with the world's unrest,
All must meet with the common fate.
Life from childhood till we are old—
What is all when all is told?

MISCELLANEOUS READING.

A TERRIBLE ADVENTURE.

In the spring of 1876 Mexico was in a tumult. Lerdo, the chief justice, succeeded to the presidency at the death of Juarez, and afterward elected for a second term, announced himself as a candidate for the third. His political opponents, enraged at the thought of a third term, uprose in all directions and declared for Diaz. In March of this year only the rumblings of the rebellion were heard, but society was daily becoming more and more disturbed. Armed men were everywhere about, and many bands of lawless ruffians were scouring the outskirts of the cities and towns, stealing from the farmers, and leaving behind them desolation and despair—truly a peculiarly dangerous and unfortunate time for a foreigner to set out on a journey.

On a loving morning in early March a young American gentleman left the town of Matanzas to travel to Jalapa. The narrow road at first winds up the side of the mountain, turning sharply around sudden bends, where a single misstep of the horse or mule would hurl the rider far down into the valley below. It is as if the great mountain had been hollowed out, and the jagged sides left standing, with a rude path treading from the base to the summit. The American was accompanied by six native horsemen mounted on mustangs similar to his own, and four footmen. The whole party were armed. After passing about half way up the mountain side the traveler halted, and motioned to his followers to do the same. For a long time he sat motionless in his saddle gazing out at the exquisite picture before him. In the distance, far below, lay the wonderful valley of Matanzas, the "Garden of Mexico." The rich, excessive vegetation could plainly be discerned, and a few light and graceful clouds hung drifted against the towering rocks. The beams of the lately risen sun were pouring over the hill tops and illuminating the vast plain beneath with a fresh and rosy light. He would have been indeed a prosaic and unappreciative man who would pass carelessly by such a wonder-work of nature.

His reverie was suddenly broken by a shout from above. Looking up he saw a single horseman picking his way carefully toward him. He was soon recognized by the men as a resident of Matanzas. When he drew near he spoke rapidly and excitedly to the escort in their peculiar pathos gesticulating violently all the while.

The effect was immediate and startling. The entire body of native horsemen, with one exception, and all the footmen, turned sharply around and made their way rapidly down the mountain side, without a word of explanation or farewell to their employer. The only one who remained was Filomeno, who had been sent by his master, a friend of the traveler, to accompany him to Jalapa, and who understood English after a fashion. He sat motionless in his saddle, gazing after his countrymen, now fast disappearing around the curves of the pathway.

"What's the matter, Filomeno?" asked the American at length, rising in his saddle as he spoke, and shading his eyes with his hand, as he looked after the deserters, "what did that fellow say that has made all this fuss?"

"He said," replied the Mexican slowly, "that revolution has already broken out at Jalapa; that the terrible soldiers of the plains are before us, and that if you proceed you will be surrounded and killed."

"Stuff," said the American, "I am not afraid. Filomeno, let us go on." And, as he spoke, he tightened his hold on his horse's rein, and was about to proceed, when he saw that Filomeno had not stirred.

"Come, Filomeno," said he, "time is slipping by and we must be off. Surely you are not afraid to accompany me?"

"No matter," answered the Mexican, "but I cannot go as I am. All those robbers know Filomeno, and would give a good price for my head. If I go with you I must go disguised. Wait;" and, turning around, he scrambled lightly and quickly back from the road toward a little hut near by, whence a thin wreath of smoke was curling lazily up through the clear morning air. He was gone scarcely fifteen minutes, and when he again drew near the American hardly knew him. Filomeno had disappeared under the guise of a charcoal-burner.

"Now I am ready; I have left my horse where it will be taken care of," he said, and now on foot he fell into his old place close behind the American's mustang.

And so they journeyed on, up into the clouds and then down again, over the rich breasts of valleys which are only found in the tropics, and along the tracks of old watercourses, and through brooks and little rivers of a peculiar greenish hue. Around them was nature in all her wasteful luxuriance, but no sign of anything human to help or hinder them.

That night they encamped in a small valley, and resumed their journey at daybreak. At eleven o'clock on the morning of this day they were drawing near Jalapa. The sun was beating down out of a cloudless sky; the heat was intense, and a deep stillness seemed to have settled over the great plain. Before them was the valley of Jalapa; on the right the volcano of Orizaba, its cone white with snow and ice, its sides covered with that luxuriance of foliage only known where eternal summer reigns.

The American, too tired even to notice this, was nodding in his saddle, and for a long time had not spoken to his companion. He was aroused by a low cry from Filomeno. Turning toward him and following the direction of his eyes, he saw a large body of horsemen galloping toward him. He could see at once that they were not regular soldiers. They advanced in confusion, and no two were seemed dressed alike. It was a squad of the dreaded guerrillas on a foraging expedition. With a terrible feeling of despair the American again looked around for Filomeno. He had fled. The American was alone, with 100 wild and lawless Mexican robbers bearing down upon him, like a rushing wind across a placid lake.

In a moment, as it seemed, they were upon him and around him. Resistance was useless. A score of pistols pointed at him, a score of swords were raised above his head, and a score of long sticks with knives on the ends, called "matchesies," were pricking him in all directions. He was pulled off his horse in a twinkling, stripped naked in the midst of a dense circle of howling savages, who were cursing and fighting for his various articles of dress. At length his clothing, arms and valuables were divided. The leader of the band, with the American's watch dangling from his belt, shouted out an order to his men. The troops armed with "matchesies" rode up to the prisoner and commanded him to walk before them. "You American dog," they exclaimed in Spanish, "you dog of a spy, be off to Jalapa. When we get you there we'll teach you to sneak around our lines. March!"

And in order to add emphasis to their words they prodded the prisoner with the points of their "matchesies" till the blood started from more than one wound on his arms and legs. Angry, faint and sore, and half blinded by the fierce rays of the sun, the American wheeled around and upbraided the leader of these indignities, and especially for depriving him of his clothes. In reply one of the soldiers pulled out from under his saddle a piece of coarse and filthy matting, which he carelessly tossed to the prisoner.

"Take this," he said; "it is too small for you, but the fleas in it will keep you warm."

And so, wrapping this dirty covering about his shoulders, our countryman started on his painful march to Jalapa.

At three o'clock in the afternoon they reached the town. The American was hustled into a wretched adobe hut on the outskirts of the village, and the Mexicans, after posting a guard around the place, tied their horses under a shed and gave themselves up to rest and boisterous recreation. Inside the hut on a rude bench the American sat silent hour after hour. At length he walked to a little window and begged for water. There was no response. The bare walls only echoed his cry of "Agua! agua!"

All the next day too, the prisoner was kept without food or drink or clothes. At sunset the cool evening air somewhat revived him. He moved his bench under the window of the hut, and stretching himself under it listened carelessly to the idle conversation of the soldiers outside. Suddenly his heart gave a terrible throb; and cold perspiration overwhelmed him, and he fainted.

What he had heard was this: The soldiers were talking about a fair that was to open in Jalapa on the morrow, and they were detailing to a new-comer some of the amusements that had been planned for the occasion.

"We are going to have a shooting match at noon," said one; "we have got an American spy in that box yonder, and we are going to tie him to a stake and shoot at him with our revolvers. Whoever kills him will get five silver dollars. The dog's hours are numbered."

These were the words which had fallen on the American like a pall.

It was probably much less than a hour that the prisoner lay insensible. Then he roused himself and, like the brave man that he was, looked his doom in the face. So he was to die, and die the death of a miserable cur; he, the inhabitant of a pleasant Northern city, with youth, health, kind friends and fortune. To be tied to a stake in a Mexican market place and shot for a paltry prize. These thoughts were maddening. He called fiercely to his captors to liberate him; he strode furiously up and down the room; he rushed to the window and rattled the bars; and finally from sheer exhaustion he sank down on the floor in despair.

He lay still for a long time.

He could not mark the hours, but at length he knew by the cool wind that crept in threw the bars, that the day—his last day—was not far away. Then he heard a cock crow; and then he saw a bright ray of sunlight come flashing into his hut, and he was sure that he had but a few hours more to live. He made up his mind that he would die bravely. He rose to his full heighth, stretched his limbs, and raised his head proudly. As he did so he heard the sound of horses galloping toward him. He rushed to the window and looked out. A cavalry officer in a fine uniform, with flashing arms and equipments, and followed by a squad of men, was coming every moment nearer and nearer.

The lounging guerrillas around his prison started up and stood respectfully aside; several who lingered were knocked over by the hurrying hoofs of the horsemen. The officer rode close up to the hut, and pulling his horse almost on his haunches, he leaped to the ground. With a quick and angry command to the guard at the door the bolt was drawn back.

The American, entirely naked, was standing in the middle of the room. Advancing, and speaking in English, the officer said:

"Who are you, and where do you come from?"

"I am an American traveler from the State of Massachusetts," was the reply.

"Massachusetts!" said the officer; "that is near Connecticut. I went to school in that State years ago. I like Americans. Yesterday I heard in this city that some rascally fellows had captured an American and were going to torture him at the fair to-day. It is fortunate for you that I have come."

Then taking off his coat he insisted on the American wearing it, and, in response to his call, other garments were soon obtained.

"Now," said the officer "take this horse and come to my quarters."

Then, turning around, he shouted out in Spanish to the chief of the guerrillas:

"Francisco, if I hear of another prank like this, I shall send my orderly to blow out your brains."

At the officer's quarters in the city, our countryman received every possible attention, and soon he was furnished with horses and money and escorted safely too Vera Cruz.

PRACTICAL APPLICATION OF BLACKBOARD STUDIES.—The Louisville Courier-Journal says: This is what a Sunday School Superintendent found chalked on his blackboard:

FIVE CENTS.

"Well, my boy," said John's employer, holding out his hand for the change, "did you get what I sent you for?"

"Yes, sir," said John; "and here is the change, but I don't understand it. The lemons cost twenty-eight cents, and there ought to be twenty-two cents change, and there's only seventeen."

"Perhaps I made a mistake in giving you the money?"

"No, sir; I counted it over in the hall to be sure it was all right."

"Then perhaps the clerk made a mistake in giving you change?"

But John shook his head: "No, sir; I counted that too. Father said we must always count our change before we leave a store."

"Then, how in the world do you account for the missing five cents? How do you expect me to believe such a queer story as that?"

John's cheeks were red, but his voice was firm: "I don't account for it, sir; all I know is that it is so."

"Well, it is worth a good deal in this world to be sure of that. How do you account for that five-cent piece that is hiding inside your coat sleeve?"

John looked down quickly and caught the gleaming bit with a little cry of pleasure. "Here you are!" he said. "Now it is all right. I couldn't imagine what had become of that five-cent piece. I knew I had it when I started from the store."

"There are two or three things that I know now," Mr. Brown said with a satisfied air. "I know that you have been taught to count your money in coming and going, and to tell the exact truth whether it sounds well or not—three important things for an errand boy. I think I'll try you, young man, without looking any farther."

At this John's cheeks grew redder than ever. He looked down and up, and finally he said, in a low voice, "I think I ought to tell you that I wanted the place so badly I almost made up my mind to say nothing about the change if you did not ask me."

"Exactly," said Mr. Brown, "and if you had done it you would have lost the situation; that's all. I need a boy about me who can be honest over five cents, whether he is asked questions or not."

PLATITUDINOUS PONDEROSITY.

The *New England Journal of Education* in a serio-comic lecture gives its readers some good precepts "beaten in" with examples.

In promulgating your esoteric cogitations, or articulating your superficial sentimentalities and amicable, philosophical or psychological observations, beware of platitudinous ponderosity.

Let your conversational communications possess a clarified conciseness, compacted comprehensibleness, coalescent consistency, and a concatenated cogency.

Eschew all conglomerations of flatulent garrulity, jejune babblement and asinine affectations.

Let your extemporaneous descantings and unpremeditated expatiations have intelligibility and veracious vivacity, without rhodomontade or thrasonical bombast.

Sedulously avoid all polysyllabic profundity, pompous prolixity, psittaceous vacuity, ventriloquial verbosity, and vaniloquent vapidity.

Shun double entendres, prurient jocosity and pestiferous profanity, obscurant or apparent.

In other words, talk plainly, briefly, naturally, sensibly, truthfully, purely. Keep from "slang;" don't put on airs; say what you mean; mean what you say. *And don't use big words!*

WOULD HELP SOME.

A withered and age African, who announced himself as "Judge Thomas, of Canady," entered an office near the ferry dock yesterday morning and said he was collecting money to help the Southern negroes emigrate to Liberia.

"How many want to go?" asked the man at the desk.

"Well, sah, I reckon about 5,000."

"When do you intend to start them?"

"Airly in the Spring, sah."

"How much have you collected thus far?"

"In de nayburhood of sixty cents, as nigh as I kin reckon."

"And if I should give you a nickle that would be sixty-five cents?"

"Yes, sah."

"Would sixty-five cents be of any great help towards sending 5,000 colored people to Liberia?"

"Well, sah, it wouldn't go a great ways when you come right down to bakshul expenses, but I reckon dat it would start a powerful thinkin' if it was only handled right.—*Detroit Free Press.*

TOLERATION.

It is a source of gratification to all liberal minded people to notice the growth of toleration in both religious and political sentiment.

Not many years ago it was a very rare occurrence for the minister of one denomination to exchange pulpits with the minister of another, and even laymen hesitated about entering the sanctuary where their particular creed was not dominant. To the credit of genuine Christianity that has been greatly changed.

So with members of opposing political parties. The day was when difference of opinion among them often severed personal friendship and gave rise to social and business animosity. There, too, a wise and healthy change has been wrought.

True, even now, narrow minded bigots may be found who idly think they possess all the religion worth having, and are prone to say—"Stand aside for I am more holy than thou?" And some equally contracted, shallow pated politicians are encountered, who hate a man because, in obedience to the instincts of freedom, he thinks not as they think, but such are relics of ignorance, barnacle covered logs floating along the stream of time, unsightly and worthless.

Every man has the right to hold and enjoy whatever belief and opinion he deems proper, unanathematized by opposing creeds and unmolested by partisan foes. That constitutes civil and religious liberty, the fairest jewel in the American Constitution.

MONOPOLY.

At a meeting held in the City of New York some years ago, and composed principally of merchants, irrespective of partisan name, among other resolves was the following:

"That free labor in its largest sense means the right of every man to employ his capital and industry in such manner as he may deem most profitable, and in any calling not injurious to society."

Although not put forth as the language of party, that was then, ever has been, and remains to be the genuine sentiment of Democracy.

That right is inherent to every American citizen under the Constitution, but a power in this country, growing stronger than the people imagine, now threatens its very existence, and the danger is more imminent because altogether mercenary.

There is a monster in the land, fattening on rapine and making inroads everywhere. It feeds on ill-gotten gain and is never satisfied. Give it a foot and it will surely demand a yard, and still worse, if not granted, will appropriate the increase regardless of means.

That giant power is Monopoly—the combination of monied might in the hands of the comparatively few. It matters little whether such concentration be under the guise of Rail Road, Telegraph, Manufacturing or Mining Companies, Banks or aught else, the result is the same and against the rights and welfare of the masses.

Monopoly not only crushes down individual industry and opportunity, but lays violent hands on popular liberty. It pollutes the ballot-box, corrupts Congressional and Legislative bodies, elects Senators and Representatives, subsidizes the press and maintains the lobby. It is the enemy of a free and prosperous people and must, sooner or later, be warred against by them.

PATRIOTISM.

The anniversary of the birth of George Washington brings vividly to mind that grandest of virtues possessed by him—patriotism.

Washington was the embodiment of patriotism, not a patriot by mere profession, but through every day practice of an eventful life. He loved country, not for personal gain and emolument, but for the cause of free government and the rights of man.

Washington was a true patriot, and great is the profit to be derived by his countrymen from the study and imitation of that glorious feature in his character.

He served country, not as many self-styled patriots of the present day do for pay and plunder, but to discharge honestly and conscientiously public duty.

He filled high offices, not like a horde of modern politicians who seek to elevate themselves, but at the voluntary call of the people and with the alone aim of advancing their permanent good. Washington was in reality a patriot.

No better work can we as Americans accomplish than to ponder his history and follow his example.

POST OFFICE STATISTICS.

There are 683 post offices in New Jersey, of which only two, Newark and Elizabeth, are in the first class, or where the pay of the postmaster exceeds $3,000 per annum. The second class, comprising those of which the salary is between $2,000 and $3,000, includes Jersey City, Camden, Hoboken, Morristown, New Brunswick, Orange, Paterson, Plainfield, Princeton, Rahway and Trenton. The third class is composed of $1,000 and over grade offices, which number thirty-nine. The fourth class is composed of less than $1000 offices, the nomination of postmasters not being confirmed by the Senate. The salary re-adjustment of the first, second and third classes of the officers is made in June, upon the basis of the business done during the fiscal year ending June 30, and has now been prepared. Under it the salaries of the following officers will be increased by the amounts named respectively: Asbury Park, $100; Atlantic City, 100; Belvidere, 200; Bloomfield, 100; Boonton, 100; Burlington, 100; Englewood, 200; Flemington, 100; Hacketts, 100; Jersey City, 100; Madison, 100; Merchantville, 200; Montclair, 100; Morristown, 100; Newton, 100; Passaic, 100; Orange, 100; Perth Amboy, 200; Phillipsburg, Princeton, South Orange, Trenton, Westfield and Woodbury, $100 each.

The Legislature of Florida has passed an act to prevent the intermarriage of whites and blacks, and the Governor has signed it.

OUR PLUCKY GOVERNOR.

Governor Ludlow receives from the Press of this and other States, the highest words of commendation for his prompt and just vetoes of bills passed by the Republican Legislature of this State to restore to citizenship certain men who were tried and convicted for defrauding the people, among whom were members of the renowned Warren County Ring. Last week he vetoed the bill aiming to restore to citizenship one of these ringsters, Teel, and intimated in plain terms that he would do the same thing with all bills of the kind hereafter passed by the Legislature. Despite this warning, an act was passed restoring to citizenship another of the same band of ringsters, Joseph B. Cornish, which nettled the Governor, and he accordingly "sat down on it" in the following terms:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, Jan. 18th, 1881.

To the Senate:—I herewith return to the Senate, in which it originated, Senate Bill No. 24, entitled "An act for the relief of Joseph B. Cornish."

This bill proposes to restore to Joseph B. Cornish the citizenship which he forfeited on his conviction and sentence to imprisonment for the crime of conspiracy in connection with the series of frauds perpetrated in the county of Warren.

These occurrences are of so recent date that they are fresh in the minds of every one. The conspiracy was of long growth and the widest scope; it tainted almost every branch of the county government; it embraced the daring of the robber; the weakness of moral cowardice; the false oath of the perjurer; the skill of the forger; the cunning to devise schemes of infamy; the sagacity to evade justice, and the brazen effrontery which almost makes wrong seem right. The active aid of of all these elements was necessary to its success, and each of them performed as important a part as the other. Some of the workers in it found their reward in the money directly taken; some in the elevation to office where they could enrich themselves, and others in the gratification of their ambition to control public affairs and public men.

So powerful did this combination become that it perverted public sentiment; stifled the virtuous ambition of those not willing to join in their schemes; led the youthful to believe that the path to public honor lay through personal dishonor; almost blocked the wheels of Justice itself, and but for the resolute courage and action of a few officers of the State and county, would have reigned supreme to-day.

Joseph B. Cornish was charged with being a part of that conspiracy. He was indicted by the grand jury for an act in connection with it; he was tried by a jury of his peers before a Court presided over by the Chief Justice; he was found guilty; every exception which able and zealous counsel could take to the conduct of the trial was taken and the case was carried to the higher Courts where all the acts and rulings were sustained; he was sentenced to imprisonment for one year and the loss of his citizenship. Application was afterwards made to the Court of Pardons for a remission of a part of the penalty of his crime. That Court with all the evidence before it and with a full sense of its duties to the public and to the applicant, felt constrained to deny it. And now the application is made to the Legislature and to the Executive that the forfeited citizenship may be restored.

As I have already declared, in a message on a similar bill originating in the House of Assembly, I am clear in the opinion that no pardon or remission of sentence should be granted except after due consideration of circumstances properly authenticated, justify them.

On this subject the late Chief Justice Green, in his very able opinion in the case of Crooke vs. The Freeholders of Middlesex (2 C. Dutcher, N. J. Reports, p. 326), quoting from authorities, says: "But let this power (of pardon) be deposited where it will, the exercise of it ought to be regarded not as a favor to be yielded to solicitation, granted to friendship, or least of all, to be made subservient to the conciliating or gratifying of political attachment, but as a judicial act, as a deliberation to be conducted with the same character of impartiality, with the same exact and diligent attention, to the proper merits and circumstances of the case as that which the Judge upon the Bench was expected to maintain, and show in the trial of the prisoner's guilt. The question whether the prisoner be guilty and whether, being guilty, he ought to be punished are equally questions of public justice. The adjudication of the latter question is as much a function of magistracy as the trial of the former. The public welfare is interested in both. The conviction of an offender should depend upon nothing but the proof of his guilt, nor the execution of the sentence upon anything besides the circumstances and quality of his crime."

After citing as above the learned Chief Justice says: "The power of pardoning is founded on considerations of the public good, and is to be exercised on the ground that the public welfare, which is the legitimate object of all punishment, will be as well promoted by a suspension and by the execution of the sentence."

The bill now before me brings not one particle of evidence of circumstances rendered absolutely necessary by the principles above enunciated.

For this reason I am compelled to withhold my approval.

Respectfully,
GEORGE C. LUDLOW,
Governor.

IMPORTANT RAILROAD PURCHASE.

PHILADELPHIA, Feb. 22.—President Hinckley of the Philadelphia, Wilmington and Baltimore Railroad, upon being questioned to-night concerning the reported sale of his road, said that a controlling interest in his road had been purchased by Robert Garret, third Vice President of the Baltimore and Ohio Railroad, and Mr. Haven of the New Jersey Central. The stock purchased is that of Mr. Thayer of Boston, with stock of other persons making up the controlling interest. The price paid to secure the majority of the stock will be paid to the minority stockholders should they tender their shares. The agreement, therefore, is such as to protect the minority.

The effect of this purchase will be to kill the bill now before the Legislature of Delaware for a charter for a new line between Philadelphia and Baltimore, as Mr. Garrett, who was interested in the bill, will no doubt retire from any connection with it.

A prominent official of the Pennsylvania Railroad Company said that the sale would not affect his company, as it could doubtless make all the necessary arrangements with the new management. In case it could not, it would only require the building of sixty miles of road to have a complete route of its own.

WILMINGTON, Feb. 22.—Col. H. S. McComb confirms the reported purchase of the Philadelphia, Wilmington and Baltimore Railroad by the New Jersey Central. President Garrett of the Baltimore and Ohio takes $1,000,000 worth of stock personally. The Baltimore and Ohio Company makes a traffic contract with the New Jersey Central. Col. McComb says that $10,000,000 is now ready to build the proposed Delaware Western railroad, and that the bill now before the Delaware Legislature, granting it a charter, will be passed.

A bill to tax the telegraph companies two per cent. on their gross earnings was passed in the Illinois Senate on the 17th instant.

Congressman Harris has been admitted as Attorney of the United States Supreme Court, on motion of the Hon. Milton I. Southard.

The average increase in house rents in New York is estimated to be from 10 to 15 per cent. Around the stock exchanges the increase is 50 per cent., while in some of the more desirable locations the rents have been doubled.

* * *

It is asserted that Jay Gould has purchased a controlling interest in the N. Y. *Evening Express* with a view of getting control of the Associated Press Association. The association is composed of seven papers, and, as this gives Mr. Gould three of the seven, he needs but one more to boss the whole concern and thus spread broadcast over the country such news concerning the stock market as he desires.

* * *

There is considerable discussion among the Press of the State upon the recent rejection of Hon. John T. Dunn's application for admission to the bar, on the ground that he has not been a "clerk" in a law office for a length of time prescribed by law, and that he has pursued his avocation of painter in Elizabeth the past two or three years. Mr. Dunn, we are informed, was enabled to pass a satisfactory examination as to his capabilities for the office applied for, and it seems like straining a point to refuse him on the above grounds. Many eminent legal lights have in times past pursued their regular avocation as school teachers and in other pursuits, while being qualified for admission to the bar. Mr. Dunn has natural abilities which would make him an able lawyer, without going through the form of acting as clerk for a number of years.

THE GOVERNOR'S VETOES.

Under this caption, the Trenton *State Gazette* (Republican) speaks editorially as follows:

"It is very clear that we no longer have a stranger to the State and its institutions for Governor. We now have in the Executive chair a thorough Jerseyman, familiar with the traditions of the State, and well equipped, by training, character and acquirements, for an intelligent discharge of the duties of his office.

We have seldom read anything with greater satisfaction than Governor Ludlow's three vetoes of Assembly bills, which appeared in our legislative proceedings Tuesday morning. The Governor clearly understands exactly what he is about, and it seems plain that the people are to experience that administration of the Executive office at his hands which those who knew Mr. Ludlow's sturdy independence of character and expert knowledge of our judicial and law making system, had anticipated. The "Legislative courtesy," a careless and not commendable good nature, which sometimes permits bills which are known to be defective and faulty, to slip through the Legislative mill without serious opposition, is evidently not to extend to the Gubernatorial office. Every measure is to be subjected to critical scrutiny under the searching light of the constitution, and to the inexorable judgment which such scrutiny may render imperative.

It is timely and well that the Legislature should thus be brought face to face with the folly of heedless law making. A habit has grown up in the Legislature since the constitution was last amended, to evade and circumvent those amendments by a great variety of ingenious expedients. The courts have held, in cases where these devices have been tested, that they would not hold water, and have declared such acts unconstitutional and void. But it is not often that the acts are subjected to this test, the parties affected generally acquiescing in and conforming to their requirements, where the interests concerned are not of a magnitude to warrant appeal to the courts, and the statute books are thus lumbered with and the people of the State living under unconstitutional laws. These acts are almost always designed to meet special cases, and are permitted by an easy courtesy to pass without dissent, in good natured compliance with the personal solicitation of the Senator or Member who wants the axe ground. Governor Ludlow thoroughly understands all about this business, for he has been there, and he is evidently determined rigorously to apply the constitutional brakes, and to put a *full stop* to this mischievious sort of legislation, now that he is in a situation to do so. The people of the State, and the Legislature itself, will rejoice that he has formed this determination."

WESTFIELD WISPS.

[From an Occasional Correspondent.]

"Politics at Westfield."

Although ten days intervening between this writing and the township election, politics may be said to be at fever heat in this ordinarily sleepy place, and its condition would be quite a surprise to an occasional observer whose last views had been taken at any time since last Fall or Nov. 2d, 1880. The stores, the favorite resorts for would be politicians, are even at this early day, filled nightly with eager participants in argument for this or that candidate for the highly remunerative offices of "Freeholder," "Collector," "Assessor," "Town Clerk," "Constables," "Surveyors of Highways," "Town Committee," &c. It is the old fight, however, that in this country, whether National, State or Local, is bound to be ever uppermost the fight of the "Ins vs. the Outs." Prominently mentioned for the position of Freeholder are James L. Miller, the present incumbent on the Republican side, and George A. Bayard and Robert Fairbairn on the Democratic side as contestants for that honor. While Mr. Miller has made a *fairly acceptable Freeholder*, he was elected last Spring by a small majority, and only after a spirited fight against him by an opposition that may have developed strength since then. Even in his contest for the Assembly nomination last Fall he only secured his delegates from this Township after a contest in the Convention, a fact that certainly injures his strength in the approaching contest; however, as it is not probable that any other candidate will be brought before the primary, Mr. Miller will naturally be the recipient of the nomination at least, and as he is undoubtedly seeking it, his acceptance is assured *in advance*. Either Mr. Bayard or Mr. Fairbairn would make acceptable candidates, and either's contest would show a poll not confined to party lines; the latter is, however, more likely to receive the nomination than the former, owing to the fact that Mr. Bayard is too young a citizen for the honor. The Spring election here has gradually grown into a contest between classes regarding town improvements, and obstruction as against advance; or to simplify this expression—New York vs. New Jersey. For Collector it is hardly probable that the present occupant of that position, Mr. W. W. Connolly, a Republican, will have a contestant worthy of his steel, *no matter* who the other party nominates. In fact, even at this late day, no one is mentioned as an opponent; and unless a straight ticket is placed in nomination by each party necessitating an opponent, he would undoubtedly be placed on both tickets; the only complaint made against his conduct of the office so far is that he has collected faithfully and fully (a fair recommendation at least). Mr. A. Judson Miller, a sterling Democrat, may possibly be nominated by his party for this position, but he could hardly carry his own party with him in the contest. For Assessor, even at this late day, no one has any idea that a contest against John M. C. Marsh, the present incumbent, would result in anything but defeat; it is a certain fact that no one is so familiar with the property in the township lines; Johnny can almost give you from memory all the *city lot lines*, (long since turned into farms) a fact highly creditable to the owners. For Town Clerk: It has been generally understood for the past week that Charles E. Clark, the present Clerk, who has filled that position acceptably to the citizens of this township for the past seven years, is not a candidate for re-nomination; this looks as if our citizens might be called upon to elect this worthy officer to higher honors—Freeholder or Collector, perhaps, "Go forward, Charley; a majority vote of Westfield always follows you." Luther M. Whittaker is mentioned for this position on the Republican side; this would be a splendid selection, if made. For Town Committee it seems hardly possible to name the nominees on either side; the present Town Committee is solid Republican, and yet not a very efficient one, or at least could be greatly improved upon. It certainly must seem singular to the intelligence of Westfield that a better selection cannot be made out of what may be deemed the representative citizens. I trust that more attention will be given to this matter in the primaries of both parties than heretofore. The old plan of holding primaries a day or two before election, will undoubtedly be adhered to this Spring, a fact highly gratifying to politicians, but as fully unsatisfactory to the voters; a chance might at least be given to voters to read their tickets previous to the morning of election.

A FREE LANCE.

The P. B. L. and S. Association.

The annual meeting of the Plainfield Building Loan and Savings Association, was held on Monday evening. Owing to the continued illness of President Harris, Mr. L. E. Barkalew occupied the chair. The minutes of the previous meetings were read and approved, together with the annual report—an abstract of which is given. Secretary Appleton read the printed brief delivered before the Chancellor, by the association attorneys, Messrs. Gaston and Bergen, which was a most concise statement of the case and summing up of the evidence in the suit against a former Board of Directors charged with a misuse of the funds. The announcement that the yearly election of officers was next in order, occasioned considerable discussion. It was generally desired that a reduction of the salary account should be attained by the merging of two officers and their duties into one. Mr. Haberle—the only one of the stockholders present who seemed to take enough interest in the proceedings to volunteer opinions and advice—justly thought that a saving of the President's salary would be secured by the election of Mr. L. E. Barkalew to that position, and the consequent sufficient remuneration being obtained from that gentleman's commissions as the Association's collector of its rents and manager of its real estate. Mr. Barkalew was thereupon nominated as President and Mr. John Harris as Vice. A further reduction was then considered in the combination of the offices of Secretary and Treasurer. Mr. J. VanWinkle, the present Treasurer, was nominated as the holder of both positions. At such action, Secretary Appleton took exception. In the course of his remarks that officer expressed his belief that the Association would "get into a snarl" if Mr. Van Winkle was substituted for himself. He offered, unasked, to accept both offices at an increase over his present salary of $35 per annum; or would agree to keep both himself and the present Treasurer in office and allow a reduction of the latter's salary $175 and his own $25. Upon being asked his opinion of such proposition, Mr. Van Winkle very manfully answered that he was not in the habit of making bids for office. Sensibly considering if his services proved his worth, it was not necessary for him to offer other inducements. Mr. Appleton further stated that it was not safe for the Association to appoint Mr. Van Winkle as its Secretary. The previous nomination was withdrawn and the names of Messrs. Appleton and Van Winkle proposed as Secretary and Treasurer, respectively. It was also suggested that the new Board of Directors should reduce the salaries of such officers as they had the power to do. Messrs. Zeiss, Bachman, Haberle, Hickey, John H. Van Winkle, Myers, Austin and Kurzbals were then nominated as a full Board of Directors; and there being no opposing candidates, the entire list of officers, as mentioned above, were elected. It was resolved that after the present payment of Feb. 21st, no more money would be received in the Second Series, except from those in arrears, until a settlement should be reached in the pending suit against the old Board. Also resolved that the meetings of the Association in future should be held at the Saengerbund Hall on the Tuesday of each month succeeding the third Monday. Also that the sale of shares be limited at all times to the amount of money on hand, and allow of no future privileges to be met by possible receipts. The meeting then adjourned.

North Plainfield's Finances.

The Ninth Annual Report of the officers of North Plainfield for the year ending Feb. 15th, 1881, is just published and presents that township in an enviable financial condition. Since the last report $8,000 of the outstanding bonded indebtedness has been cancelled, and upon the plan adopted the township will be free of the entire burden by 1891. A floating debt of $5,413 70, incurred previous to 1877, has been paid in full and the members of the Committee say: "we have great reason to believe that our taxes will be less, and progress and growth is before us."

The Collector in account with the School districts, reports a total balance of cash on hand to be distributed, of $3,548.84. The Treasurer's balance is $2,666. The support of the poor for the year cost $1,128 74; while the road expenses were $1,850 71. After these payments there are yet remaining in all the different departments slight balances unused.

A list of delinquent tax-payers and their respective arrearages, accompanies the report; showing both efficient service on the part of the Collector and prompt payment by those indebted, which accounts for the small amount due. Indeed the very favorable standing of the Township, reflects great credit on the abilities and efforts of its officers.

The World's Fair.

The usual meeting of the Executive Committee was called to order by Gen. Grant, on Wednesday, at the rooms of the Commission. That gentleman, delivered a few words of advice and suggestion regarding the organization of a Finance Committee and in relation to the Inwood site—objecting to the latter and favoring the Central Park. He was followed by others, more or less in accordance with his views.

SPORTSMEN'S CORNER.

Per invitation of Mr Al. Johnson, a party of gentlemen met at his residence on Johnston Drive, North Plainfield, on Washington's Birth-day for the purpose of testing their skill in shooting at pigeons and glass balls. Arriving on the grounds at 11 a. m., they found everything in readiness for them to begin work. Pools (?) were offered and sold on the result at the first five birds, 25 yards rise, 80 yards boundary, Bogardus rules. The member of the editorial staff came out ahead, killing 4 out of 5. Westfield was way back in the rear. Fresh pools (?) were sold, and an accession to the party being made in the arrival of a well-known Central R. R. conductor, excitement ran high for a time, especially when the conductor having "doctored" a bird for Westfield's champion, was obliged to go the trap himself and kill the bird, which he did handily, but that bird was a rasper and no mistake. This time "Peter" took the cake, killing five straight. At glass ball shooting, mine host Al. J. and Harry W. took the prizes. The editor, breaking 4 straight, thought he was in for a clear score, but alas! that side trap upset all his calculations. With malignant intent the puller did favor him with that trap to his discomfiture. Revenge is sweet, however. Wait. At the conclusion of the pigeon shoot, the party were invited into the house, where Mrs. Johnson insisted on their partaking of a good, substantial dinner. The thanks of all were heartily tendered host and hostess for their kindness and hospitality.

The return pigeon shooting contest between John L. Brewer of Hammon, N. J., and Dr. Bowan Talbot of New York, took place in the Brooklyn Driving Park Tuesday afternoon. The first match was decided on the 8th of this month, and Mr. Brewer won by a score of 46 to 40. Yesterday's shooting was at 100 birds each. Dr. Talbot, who uses only 4½ drachms of powder, thought that Brewer could not shoot at more than 50 birds without breaking down, because he used 6 drachms of powder. The betting, however, was in favor of Brewer, at $25 to $10. Brewer led with the first ten birds, killing 8 to his opponent's 7. After 50 birds had been fired at the score stood: Brewer, 46; Talbot, 39. After a recess of fifteen minutes Brewer went to work and killed 50 birds straight amid loud cheers. Dr. Talbot killed 40 out of 50. The total score was: Brewer, 96; Talbot, 79. Brewer's performance is the best on record in this country, considering that he used only one barrel of the gun. Capt. A. H. Bogardus has killed 99 birds out of 100, but he used both barrels on a great many birds.

REIMS, March 15th, 1880.

GENTLEMEN:—Having learned that certain reports, seriously reflecting on the antiquity and authenticity of our House, are being circulated in the commercial World, we feel bound in the interest of our House to publish the following remarks:

At the end of the year 1832 the agreement of partnership of the firm of P. A. MUMM & CO., Reims, having come to an end, the principals separated and each one founded a new Firm.

Mr. JULES MUMM, OF COLOGNE, *retaining the business premises of the old Firm*, founded a new Firm under the style of
JULES MUMM & CO.,
Mr. G. H. MUMM, OF FRANKFORT ON THE MAIN, also founded a new Firm under the style of G. H. MUMM & CO.

These facts prove incontestably that we have the same origin and are as old a Firm as our namesake.

We have thought it right to inform you of these circumstances which will enable you to appreciate the true state of the case and to contradict all contrary assertions.

We remain, Gentlemen,
Faithfully Yours,
JULES MUMM & CO.

THE price of eggs is down.

ANOTHER slight fall of snow Monday morning.

NEXT holiday comes in thirteen weeks from Monday.

TUESDAY was a day of secular rest to our business men.

A REUNION of the Sons of Temperance on Tuesday evening.

THE young maiden and her admirer are giving the livery horses a rest.

THE thaw has put the hens in a good humor and eggs are more plentiful.

NATHAN VARS, of Dunellen, has been appointed a Commissioner of Deeds for Piscataway Township.

SULTRY weather, fogs, warm rains and such forerunners of Spring, are laden with disease. Beware!

WE were treated to another snow squall on Wednesday. Flakes as large as pieces of chalk fell for about an hour.

"WHY Did She Marry Him?" Ask Prof. Sheppard, the lecturer, at Van Deventer Hall, next Monday evening.

LENT commences on the 2d of March, and the dancers and masqueraders will have to crowd all their pleasure in a short space.

THOSE who have not experienced a surfeit of sleighing and skating during the past season, are only fit to kill for sausage.

HEREAFTER the CONSTITUTIONALIST will be printed on heavy calendered paper like the present issue, although at a considerable extra cost to us.

OUR exchanges report that Dr. Vincent delivered two lectures on "Sunday School Work," at Newton on Tuesday. They were free and largely attended.

THE 71st Reg't N. G. S. N. Y., passed through this city to-day *en route* for New Orleans and the Mardi Gras. The B. & O. secured the honor of its transportation.

A COMPREHENSIVE communication in relation to the present situation of political affairs in Westfield, as seen by an occasional correspondent, will be found elsewhere.

"THIRD and last time." After this week's publication of the Common Council's notice—unless its resolution is rescinded—a full list of delinquent taxpayers will be published.

THE beautiful and artistic graining in Force's Billiard Parlors was executed by the firm of Woolston & Buckle, than whom there are no more efficient workmen of their kind in the city.

IT is privately reported that the late junior partner of a prominent grocery firm in this city, intends opening a rival establishment at Peace and Fifth streets. We offer our best wishes for his success.

A MOST pleasant time was experienced by those who attended the masquerade at Mt. Bethel on Monday evening. The affair came off in Mr. Jacob Bilman's Hall, was largely attended and thoroughly enjoyed.

THE closing lecture in the Sunday evening course at the Seventh-day Baptist Church, will be given next Sunday evening, Feb. 27. Theme—"A Nobler Purpose." Young people are especially invited.

SOME people can turn a wagon around in a smaller space than others, and then again some people get "spilled out" all the same when they try it. A little nearer and "kersouse" they would have gone into the pond.

MR. JOSEPH HARPER, son of ex-Mayor Harper, is manufacturing a superior article of ink, both black, red and violet, which he disposes of at moderate charges. We have tried the ink and find it an excellent article.

BY mutual agreement satisfactory to all concerned, the question of Messrs. Finch and Morris' respective rights will be submitted to the N. J. Supreme Court for its decision. Both sides will present "voluminous briefs."

PROBABLY one of the most rapid erections of masonry ever known in Plainfield, is that of the foundation and walls of Mr. D. W. Littel's new building on North avenue. Messrs. Smith & Shay laid the entire brick work in two days.

A GRAND sociable is advertised to be held at Goeth Hall, Dunellen, on Monday evening the 28th. Music will be furnished by Prof. Guttman, and tickets admitting a gentleman and lady are put at 50 cents. An undoubted success is assured.

A MORE artistic, satisfactory and commendable piece of work than that lately completed for the Saengerbund by photographer Langhorne, has never (no hardly ever about it) been achieved by any professional in the same line.

BEFORE the adoption of water works is finally settled by the Council and the electric light suggestion is not even fairly discussed, some visionary philanthropists are starting a company to construct an elevated railroad through Front street.

EVERY husband should be interested in having the question answered, "Why Did She Marry Him?" The matrimonial conundrum will be solved by Prof. Nathan Sheppard at Van Deventer Hall next Monday evening for twenty-five cents.

A NOTICE signed by a number of masons in this city, will be seen in another column. It notifies brother journeymen regarding the action of the late meeting in relation to the amount of wages and time that shall hereafter be an equivalent for a day's work.

NOW that pleasant weather for the pedestrian-beggar is approaching, the action of the Burlington County Board of Freeholders offers a sensible suggestion to our city authorities. The Board referred to has decided to set tramps to work and earn their lodgings.

MR. M. C. EMERY, Special Agent for the Mutual Life Insurance Company of New York, of which Messrs. Pope Bros. are local agents in this city, will remain in Plainfield for a week or so canvassing for risks. The Mutual is acknowledged to be one of the very best Companies in existence.

WE are requested to state that it was not Mr. Peter Baldwin, or "Uncle Pete" as he is more familiarly known, who committed an assault on a person near Warrenville, a short time since, as is currently rumored. Uncle Pete is not that kind of an "uncle." The party alluded to as committing the assault is known as "Deafy" Baldwin.

A SUBSCRIPTION paper is being circulated in this city for the purpose of raising money with which to purchase an artificial leg for Mr. Robert Perry, a former resident of Plainfield, who nearly two years ago received such injuries from a fall while painting an elevated railway structure in New York as to necessitate amputating his left leg. The case is a merited and charitable one, and should receive the support of our citizens.

ABOUT fifty young misses and lads assembled at the residence of Mr. Alex. Warnock on Monday night last in honor of the 13th birthday of one of Alex's heirs—Allie, and had a merry time of it. A sumptuous repast was set before them to which of course they did ample justice. With kissing games and romping, the time rapidly sped away to the approach of the hour when the "party" must break up, and there was not one of them sleepy yet. Mrs. Warnock and daughters, Annie and Maggie did everything in their power to make the little ones happy and succeeded admirably.

THE kite season has opened.

OUR Legislative letter is crowded out this week.

THE total abstinence pledge is offered for your signature at the Holly Tree Inn.

THE next concert of the Plainfield Vocal Society will be unusually worthy of support.

THE Rev. A. H. Lewis will address the Band of Hope at the Holly Tree Inn, this afternoon, at 4 o'clock.

TEMPERANCE meeting at the Holly Tree Inn next Sunday afternoon at 4:30 o'clock. Rev. A. V. V. Raymond will officiate.

OH, say, Elizabeth! Can't you send better chess players to compete with ours of this city? Make the game sort of interesting, you know.

THE press of the State are calling upon the tax-payers to pay up. Plainfield only asks those who are not tax payers, but ought to be, to settle.

THE death of the son of photographer Thorn occurred on Wednesday morning. The affliction brought upon his parents, will be sincerely sympathized in by a large circle of friends.

MR. L. White, at the Stelle Farm, Park avenue, advertises in another column that he has a number of fine cows—some Alderny—which he will offer at private sale for a short time.

WASHINGTON'S BIRTHDAY was celebrated in this city, as elsewhere, by the flying of flags, the almost universal closing of business establishments, and the general seeking after idle pleasures, by the public.

THE Republicans of North Plainfield will hold a convention at the Public School building on Saturday, March 5th, at 7:30 o'clock p. m., for the purpose of nominating Township Officers to be voted for on March 8th.

MESSRS. Carney Bros., at their new establishment on Somerset street, are ready to do everything in the plumbing, tinning and general metal-repairing line. They are putting in a large assortment of stoves, tin-ware and sheet-iron goods.

AN interesting and satisfactory meeting of the Convocation of New Brunswick embracing five counties, was held at the Church of the Holy Cross on the morning and evening of Tuesday. Bishop Scarborough was present and presided over the sessions.

THE beautiful floral decorations, (a masonic emblem consisting of a sickle and sheaf of wheat) and an anchor, on the casket containing the remains of the late Geo. Miller, at the funeral last Sunday, were the handwork of Brower the Florist, No. 953 Broadway, N. Y.

MR. E. P. Thorn is attaining almost a National reputation as one of the most conscientious dealers in and careful bottlers of family wines and liquors. Not only the Plainfield public but the inhabitants of many towns in the vicinity, depend almost entirely upon him for fine table ales, clarets, champagnes and the like.

FOR three weeks, at the art rooms of Messrs. Townsend and Evans, 107 E. 23d street, N. Y., may be inspected the entire collection of that talented landscape artist, Mr. Edward Gay. The paintings are placed on exhibition previous to their sale and prior to the departure of their owner to Europe for a visit of some years.

THE ladies of St. Mary's parish have formed a Ladies' Land League, officered as follows: Miss Annie Herring, President; Miss Mary J. Moss, Vice President; Miss Lizzie O'Keefe, Recording Secretary; Miss Gussie Loughlin, Financial Secretary; Miss Maggie McGrath, Corresponding Secretary; Miss Mary McCarthy, Treasurer.

THERE is to be a musical and dramatic entertainment in Academy Hall, Scotch Plains, for the benefit of the Episcopal Church in that place on Sunday evening of the present week. This entertainment is given under the auspices of the "Fanwood Lyceum," a literary society containing several amateur actors of great merit.

THE railroad company has not abated its efforts to bring to justice those discovered riding on another's ticket. A would-be printer of this city, whom we before mentioned as having been caught using the ticket of "false-pretenses Smith," was brought up recently on such a charge and placed under $500 bail to await the action of the Grand Jury.

THE Second street church is undoubtedly of the Dutch Reformed persuasion. Its elders are all "Vans," while the middle name of its pastor has the same prefix. The following are the recently elected officers: Elders—Daniel G. Van Winkle, Philip Van Arsdale and Geo. L. Van Emburgh. Deacons—D. O. Killbourn, Joseph Meier and Daniel Van Winkle.

ARGUMENTS of counsel were made today before the Supreme Court at Trenton, in the case brought to set aside assessment for grading and macadamizing on Somerset street and Johnston Drive. Messrs. Suydam and Jackson appeared for defendants, and ex-Judge E. W. Runyon, Wm. B. Maxson and Wm. A. Lewis for the plaintiff. Decision was reserved until June term.

A CRUSADE against unlicensed liquor sellers of this city has been started. Will certain members of the Council stand by their words and object to pay any of the city's bills with the fines obtained if the charges are proved? They would "rather see the city unprotected, unlighted and otherwise uninhabitable than to use for its benefit money received from liquor dealers."

THE trial of the President, Secretary and Treasurer of the "Irish-Republican Club" of this city, was set down for yesterday, but owing to the absence of his counsel, Mr. Geo. P. Suydam, at Trenton, it was postponed until Saturday. Mr. Flanagan is charged with unlicensed liquor selling; was arrested by Capt. Dodd; pleaded not guilty, and will be tried before the City Judge in the Common Council chamber.

Knights of Pythias.

At the annual session of the Grand Lodge of Knights of Pythias of N. J., held at Trenton last week, the following officers were installed for the ensuing year:—P. G. C., H. W. Long, Englishtown; G. C., James R. Burton, Newark; V. G. C., W. B. Trenchard, Brighton; G. P., Leslie S. Mender, Paterson; G. K. of R. S., E. V. Lorton, Plainfield; G. M. of E., Jacob P. Fowler, Haddonfield; G. M. of A., Wm. E. McCullough, Swedesboro; G. L. G., Wm. Fernis, Newark; G. O. G., Wm. Watson, Harrisonville; Representative to Supreme Lodge, Gen. Wm. Ward, Newark.

"The Matrimonial Conundrum of the Novels and of Life."

This is the more descriptive title of Prof. Nathan Sheppard's lecture on "why did she marry him?" which is to be delivered in Van Deventer Hall next Monday evening in behalf of the "Woman's Christian Temperance Union." Mr. Sheppard scarcely needs an introduction to our readers, as he has lectured here on several occasions in years past. His method of treating his subjects is decidedly original, and besides, as a critic well says, "he excels in analytical powers at once keen, delicate and profound, and is master of delightful English." His side hits at men and things, varying from the deepest pathos to the richest humor never fail to win the applause of appreciative hearers. The tickets are put at the popular price of twenty-five cents, and may be had at all the drug stores, at the Holly Tree Inn and of the officers of the Woman's Christian Temperance Union.

Erin's Cause.

The exciting scenes in England and Ireland that are now occupying the attention of the whole World, the lawless treatment of the House Rule members of Parliament, the arrest of Mr. Davitt and other such acts of arbitrary imposition, have so stirred the spirits of our Irish fellow citizens as to bring together a large gathering at St. Mary's Hall on Thursday evening of last week. The occasion was the first public meeting of the Plainfield Land League, and the great attendance, unfailing interest and boundless enthusiasm noticeable, were most propitious of the success of this branch of the organization.

Father Morris in opening the meeting spoke a few well-chosen words expressive of his sympathy with the cause, his hopes for its success and his willingness to advance its interests. The pastor introduced Mr. Murdock, a fluent speaker, who showed himself thoroughly conversant with the state of affairs it was intended to improve or do away with. He was followed by Father Downs of New Brunswick, who preceded Mrs. Parnell and Miss Ford. Both ladies, owing to the length the meeting had previously reached, spoke briefly but encouragingly. At the close, many came forward and enrolled themselves as promoters of and workers in the cause.

Church Sociables.

The usual enjoyable young people's sociable of the Crescent avenue Church, was particularly pleasurable last Friday evening. The programme of entertainment included Miss Julia Ketcham at her best as an elocutionary reader; Miss Newhall in perfect voice as a soprano vocalist, and the Misses Etta Gavett and Carrie Dewey in their talented renditions of piano music. The unpleasant weather of the evening—as has been the custom on like occasions—prevented a sufficient attendance to do justice to the bountiful spread of refreshments furnished; but the combined pleasures of the affair received flattering if not extended appreciation.

The Trinity Reformed church society held another social gathering in its lecture room, during Thursday evening of last week. The popularity of this organization as a generous host, impelled a large attendance which experienced unbounded enjoyment and satisfaction both mentally and physically. Mr. Barick, Mrs. Stewart and Miss Staats, sang admirably some fine vocal selections; Miss Skillman showed the justness of any claim she might make as a elocutionist, while a bright little daughter of Mr. and Mrs. J. A. Haynes developed talents as a reader that might well be envied by those older and more experienced. Appropriate refreshments for the digestive organization were served during the evening.

Masked Mimmery.

The devotees of jolly old King Carnival, held high revel in the rooms of the Plainfield Saengerbund on Monday night and the succeeding morning of Washington's Birthday. For weeks past in anticipation of the event, the pretty fingers of the young ladies had been plying the nimble needle in the formation of every imaginable costume suggested, and Mr. Jules Boutes had been putting into attractive and presentable shape the large variety of character dresses he was called upon to furnish. As early as nine o'clock the fortunate possessors of invitations began to gather, and their number became so unexpectedly great that before an hour had passed it was found necessary to deny admission to all gentlemen who were not members, in order to allow room to stand, and space to breath. A very admirable orchestra from Voss' celebrated Band of Newark, occupied one end of the immense hall, and the music for dance and promenade was most admirable and charming. The dressing and refreshment rooms were situated on the lower floor, thereby allowing of the entire use of the upper one by the masked terpsichoreans. Much convenience was universally experienced, although at times the number of couples desirous of joining in the giddy whirl, outnumbered the square inches of floor obtainable. Every body danced; young and old joining together with so much life and vivacity as to make it impossible, until masks were removed, to tell the youthful from the more aged.

The festivities opened with a grand pageant of all the kings and queens of ancient times, the heroes and heroines of romance, the great generals and rulers of history, the creatures of operatic imaginations and poetic dreams, with an added sprinkling of clowns, acrobats and fools. The line of march as it traversed the hall was a magnificent sight. The side walls and ceiling were decorated with appropriate mottoes and fancy colored lanterns, thus lending the beauty of a surrounding frame to the dazzling exhibition. The procession was headed by chariots drawn by milk-white goats—those animals seemingly proud of their ribbon-trimmed horns and the honor of dragging the ever-popular George Brown and Miss Louisa Krausse in seperate and respective vehicles. The Reception Committee represented by Messrs. Maas, Heinemann and Feibel, and the Floor Committee composed of Messrs. Dressel and Bachman, were conspicuous by their attractive dress as courtiers of a hundred years ago, and their efficient and valuable service during the entire night. They occupied a prominent position in the line of march, and were followed by a kaleidoscopic mass of kings and queens (jacks and ten-spots) princes and serfs, clowns and deacons, negroes and indians, old women and little girls, grandpa's and lardy-dahs, devils and angels—in fact almost every thing that ever was created or could be imagined.

Everybody seemed to be present. You could scarcely turn without coming face to face with some one you knew, thought you knew, wanted to know, or wished you did know. To describe the grotesqueness and beauty of the many raiments, would require more space than this paper covers. The sight of so much general brightness and promiscuous color, was inspiring; but no inspiration was necessary (although some, in moderation, was taken) to make all supremely successful and uncontrollably happy in their endeavors toward enjoyment. Not a feeling of disappointment in any particular arose, all desires were met by their fulfillment and the affair was a *fete* worthy in every way to be deemed the best of the season's balls, without detriment to any other. The presence of many of our most respectable American residents—men of high standing in the legal, medical and other professions; prominent bankers and capitalists, and representative merchants of the city—testified to the thorough appreciation and respect with which the Saengerbund is regarded in Plainfield. The affair will long be remembered as a carnival of light, joy, beauty, frolic and fun; unbroken in its continued pleasantness by any objectionable display, unfortunate reference or misdirected desire. Everybody attended with the intention of having a good time and had it. If slight sleepiness was felt the next day, it was immediately forgotten, as the pleasures that occasioned it passed before the eye of memory.

Mr. M. M. DUNHAM was completely surprised on Thursday evening of last week by a body of friends numbering over sixty, at his residence on Union street. This gentleman has the honor of being the person longest connected with Warren Mission and is its present Secretary and Chorister. A presentation to him of Roger's groupe "Weighing the Baby," was one of the pleasant features of the occasion spoken of.

Funeral Obsequies.

The funeral of the late George Miller, of this city, on Sunday last, was one of the largest and most imposing witnessed in Plainfield for years. The ceremonies were under the auspices of Jerusalem Lodge, No. 26, F. & A. M., of which deceased was an honored member. Promptly at two o'clock, p. m., the members of the Lodge and visiting brethren, to the number of about 100, left their Lodge rooms and marched in a body to deceased's late residence, where the remains were taken in charge by them and escorted to the 1st Presbyterian Church, followed by large delegations of firemen from Zephyr H. & L. Co. No. 1, 2 and 3 steam fire engine Companies, "Alert" No. 1 hose Co., "Excelsior" H. & L. Co. No. 1 of Scotch Plains, and citizens. At the church, the officiating pastor, Rev. Dr. E. P. Ketcham, delivered a short and impressive sermon, preaching to the living rather than particularly of the dead, from the text—"Where art thou," taken from Genesis, 3d Chap. and 9th verse. The church edifice was filled to its utmost seating capacity, many persons being obliged to remain outside of the building, until the body was borne from the church and replaced in the hearse, when the long and sad funeral cortege proceeded to the Presbyterian Cemetery in North Plainfield, under the Marshalship of P. M., William Addis, who had been selected by W. M., Wm. Cock, of Jerusalem Lodge, to act in that capacity. Arriving at the grave the Lodge formed in a semi-circle about the opening, and after the pall bearers had lowered the remains therein, Geo. E. Nicholl, Esq. of Scotch Plains, Past Master of Globe Lodge No. — New York, by request, acted as Master in performing the last sad rites of the masonic burial service, which he delivered in an impressive and beautiful manner, causing the tears to well to the eyes of many of the assembled multitude as he proceeded. At the conclusion of the masonic ceremonies Rev. Dr. Ketcham delivered a benediction and the masons and firemen marched back to their respective quarters. To those who had never before witnessed a burial by masonic ceremonies, the occasion was one of unusual and impressive solemnity.

The pall bearers were Lebbeus L. Compton, Israel D. TenEyck, John L. Hall, Robert Simpson, Edward P. Thorn and Wm. L. Force.

The remains were encased in a handsome solid rosewood casket, with silver ornamentations. On top was a massive silver plate, bearing name and age of deceased. On its top rested numerous floral decorations, conspicuous of which were a beautiful anchor, a masonic emblem representing a sickle and a sheaf of wheat, also a pillow with the word "regretted" on its surface, all made of the choicest of flowers.

The Y. M. C. A. Concert.

It is generally expected that amidst a corps of professional vocalists, combined for the purpose of a concert giving in a small suburban city, there will unavoidably be one (if not more) who falls below the average in ability to please. The Grand Concert of the Y. M. C. A. Course, given on Tuesday evening, was remarkably an exception in that particular. Not an artist of the seven that lent their powers, failed to receive an appreciative reception. Possibly Mr. E. de Kay Townsend, who had been billed as one of the baritones of the occasion, was the proverbial defection; if so, his absence was appropriate, while if not, his presence was not needed to make the affair entirely successful. The powers of Miss Ella Earle's voice to afford pleasure to the musical taste, have already been experienced by our public. In recognition of her worth, she was justly accorded a special accompanist in the person of Mr. Clark W. Evans; singing during the evening, as an *encore*, a "Waltz Song" by that gentleman, which was adjudged one of the most perfect compositions of those selected. Miss Harriet Cady, by her abilities as a pianist, agreeably surprised even those who, during the season, had been fortunate in hearing Evans, Rummel, Mills and others of high rank in the same line. Her selection of Rubenstein's Etude No. 1, was a mistake, inasmuch as the playing of "exercises"—be they never so classical—is not calculated to favorably impress the majority. Mr. J. Graff claimed the favorable verdict of all from the first. Tenors have everything to overcome in their endeavors to please; as unless very good, they are very bad and are often times placed in the latter category from habit. Messrs. H. R. Humphries, tenor and manager of the concert, and J. Phillips, baritone, ably supported the high character of the evening's entertainment. The omissions from the programme that were necessitated by the absence of Mr. Townsend, were partly replaced by a duett of Messrs. Humphries and Phillips. We may safely accept the audibly expressed opinion of the entire audience, and accord to the Concert the deserved title of best.

In Memoriam.

At a special meeting of Zephyr Hook and Ladder Company, No. 1, held Thursday evening, Feb. 17th, 1881, the following preamble and resolutions were unanimously adopted:

WHEREAS, It has pleased Divine Providence to remove from our midst our beloved friend and brother fireman, George Miller.

Resolved, That we deeply mourn the loss of our late companion who was endeared to us by long and faithful connections.

Resolved, That we sincerely sympathize with the bereaved family in their hour of affliction, and trust the Almighty Father to the fatherless will watch over, guide and protect them.

Resolved, That our Truck House be draped in mourning for thirty days and that a copy of these Resolutions be presented to the family of our late Brother.

C. L. DAVIS,
A. D. MALLINSON,
D. W. LITTELL,
Committee.

The above Committee also desire to extend the thanks of the entire company to the Excelsior H. & L. Co., of Scotch Plains and the members of the various fire companies of this city, for their attendance at the funeral of the deceased.

Personalia.

Gen's. Wm. H. Sterling and U. S. Grant were entertained at dinner by the Banker Drexel on Saturday evening last.

Mr. Orin Runyon sang in the choir of the Trinity church, at Elizabeth, last Sunday.

The Rt. Rev. Bishop Scarborough was the guest of Mr. and Mrs. R. H. Davies at their residence on Rockview avenue, during Tuesday last.

Mr. Isaac W. Pangborn has recently sold his present residence to Dr. Rushmore of Park avenue.

The many friends of Mr. Hiram H. DeCamp, who for a number of years had charge of Laing's Hotel, were pleased to see his bald head and shake his hand in this city on the occasion of his visit here on Sunday to attend the funeral of the late George Miller. Little "High," a chip off the old block, accompanied him.

It is rumored that Mr. Clark W. Evans will sail for Europe again, on or about the first of May next.

Wm. M. Stillman Esq., has been appointed a Master and Examiner in Chancery.

Rahway loses one of its most admired ladies and an enterprising merchant of Plainfield gains an enviable partner, by the marriage of Miss Marsh of the former city to Mr. John Schorb, Jr. The ceremony took place at the bride's home on Tuesday, thereby celebrating her birthday—which it was—in a remarkably pleasant manner. A number of Plainfielders were present, in entire sympathy with the occasion, and saw the couple off to Washington, the same evening, with many sincere wishes for future happiness.

Butchers and Commuters.

MESSRS. EDITORS:—

GENTLEMEN: The butchers of this city have been complaining for some time about the commuters for resorting to the practice of buying their meats in Washington Market. The latter claim, with good cause, that the rate charged by our butchers is exorbitant, and that it is but wise and just to do as they have. The fact that the excess charged is from 8 to 12 cents per pound (I am not mistaken in the figures—and trust "Cookey" will set them up straight) according to the character or grade of meat required, is a grievous wrong. When it becomes necessary to buy largely, the amount saved in buying in New York is readily apparent, and the saving is gratifying to the buyer in more than compensating him for the small loss of time and the little trouble in marketing. The butchers should use a little more discretion, and in reducing their prices to a more reasonable figure, they would diminish the number of market baskets carried to New York and have less reason to complain.

Before closing my epistle to the Corinthians (I mean THE CONSTITUTIONALIST) I wish to state one fact of recent date: Last Saturday I had occasion to purchase 1½ pounds of porterhouse steak in this city and was charged 45 cents. On the Monday following I purchased a better steak (of the same weight and quality) in Washington Market for 25 cents, *i. e.*, a difference of 20 cents on 1½ pounds of meat. Will some mathematical "cuss" figure out how much might be saved by some of our large boarding-house keepers (few of whom have pocket-books as deep as Green's driven wells) who are compelled to submit to these extortionate rates?

Yours in the faith,
ALBERT JACKSON.

Feb. 16, 1881.

It is only just and fair, upon publishing the above side of the question, to also present the reverse. Our correspondent does not seem to take into consideration the fact that he pays $9.50 a month for a commutation ticket that enables him to transport his purchases from New York without extra charge, while, on the other hand, the butcher is compelled to pay freightage on every pound of meat he buys and thereby add to its first cost. Again, the meat sold from the "sidewalk stands" of Washington Market (for which almost no rent is charged in comparison with the shops of our city's meat merchants) is notoriously poor, misrepresented in regard to its cut, and no higher in reality (when its grade is considered) than the same in Plainfield. In fact, as we have been at some trouble to ascertain, prime rib roast is sold in this city at 18 cents a pound and in Washington Market (unless some other cut is substituted) at 20 cents. Our correspondent has plainly made a mistake in his figures regarding the "porter-house steak" he refers to. At no place in Plainfield is it sold for more than 22 cents a pound, whereas he claims to have paid over 25 cents. If his view of the matter is considered a true one and our butchers are doing the citizens a "grevious wrong" and charging them "extortionate rates," why do they not achieve wealth? More money has been sunken in this business than in any other we know of. Fully one hundred thousand dollars is represented by the losses of our meat merchants during the past few years, and hardly one firm in that line is to-day making more than a respectable living. One establishment we know of cuts up and sells over twelve tons of meat a month, and if the extra profits are represented correctly by our correspondent as from 8 to 12 cents per pound, the firm we mention would not have figured upon a recent list of those financially embarrassed. Further testimony upon both sides of this question, would undoubtedly be interesting.

Back Taxes.

MESSRS. EDITORS:—There was a law passed by the Legislature at its last session allowing delinquent taxpayers to pay their arrearages of taxes and assessments on real property, with a penalty only of six per cent. per annum, *provided*, such taxes and assessments are paid before the 10th of next month. Now is the time for those who have neglected to pay their taxes and assessments to pay up and thereby save a large amount of interest, as after the 10th of March from 12 to 15 per cent. must be exacted, (together with costs) according to circumstances.

VADE MECUM.

Sidewalk Obstructions.

MESSRS. EDITORS:—There is a great deal of complaint on the part of many of our citizens in regard to the large number of sign boards that are placed over our sidewalks. There is an ordinance in force—which ought to be *enforced* or repealed—which declares that "The Street Commissioner, the Mayor, or any of the Common Council are hereby authorized to order any *article* or *thing whatsoever*, which shall encumber or obstruct any street, *sidewalk*, or public ground, to be removed; and in case the same shall not be removed within *five hours* after notice to remove the same, to be then carted or removed to the corporation yard or other suitable place, at the expense of the owner of the articles or things so removed."

Now, our *sidewalks* are encumbered and obstructed to a considerable extent, as everybody knows, by sign-boards, which ought to be removed, as they are a great nuisance to pedestrians of both sexes.

What are the new authorities going to do about it?

Past Due Taxes.

Why haven't the Common Council of our city, instead of spending their time in passing resolutions of menace to delinquent tax payers, and ordering the City Judge and Collector to issue warrants and to make out endless lists of names of citizens who have failed thus far to pay their CITY TAXES (nothing has been said in all these resolutions about State and County taxes which the city is responsible for) and now propose to publish a list of the names of all delinquents "with the amounts due from them respectively," at considerable cost to the city. Why haven't the Council, the question is asked, availed themselves of a law that was approved March 12, 1880, entitled "An act in relation to taxation and assessments in cities," and which provides that the Common Council shall have power to compromise past due taxes and assessments, that were due prior to May 1st, 1879, and provided such settlements were made before the first day of March, 1881. There is no doubt but that nearly all the taxes that are past due, prior to May 1, 1879, could have been adjusted and the city reaped a large benefit. As it is the publication of names at a heavy expense, will avail nothing, provided they are published—which is exceedingly doubtful; the same in regard to "warrants." True, the time is now past for the Council to do anything in the matter referred to, but if *business* had been commenced at the last regular meeting, a great deal could have been done.

A Card.

MESSRS. EDITORS:

I wish to say, without qualification, that whoever says that a case of small pox, varioloid, or any zymotic or contagious disease, has existed on my premises, either does not know what he is talking about or wilfully states that which he knows to be untrue. In proof of this I beg to refer such persons to Drs. Taylor, Vermilye and Purssell of New York Board of Health, (besides several other physicians) who have agreed upon the case in question; and who, from their official position, may fairly rank as experts in this special malady. Apart from any personal injury to myself—and it is certainly a very great one—I venture to suggest that the reputation of an honorable and respected profession is better sustained by candidly admitting its mistakes (to which the best of us are liable) than by absurdly laboring to establish a theory which no intelligent person can believe.

I am, dear sirs,
Very truly yours,
THEODORE ELLIS.

FIRE MATTERS.

A large and destructive fire visited Deckertown, Sussex County, N. J., on Saturday, Feb. 12, destroying among other structures, the Cox building, the largest store edifice in the town, occupied by A. C. Noble as a drug store, S. Whitaker & Son, dry goods and groceries, W. E. Noble, printing office, Dr. E. C. Tuttle, dentist, and John Truesdell, photographer.

The hat factory of T. F. Brennan & Co., at Orange, N. J., was destroyed by fire on Thursday morning of last week. The loss is about $25,000. Insured for $14,000 on buildings and machinery.

The Newton fire department, since its organization in 1873, has answered forty alarms, fifteen of which occurred during the past year.

The laddies have been having a little exercise lately but no damaging conflagrations were the cause of their "runs." A false alarm was given on Tuesday evening at 8:30 for no reason whatever. On Wednesday, at about 8 o'clock p. m., the reflection of flames in the southern sky created a short-lived excitement during which all turned out. Gazelle No. 1, took a wash before returning to her house.

The members of "Alert" Hose Co., No. 1, celebrated the 12th Anniversary of the Company's organization in the parlors of their house on Washington's Birthday, Feb. 22d, by one of their enjoyable Reunions. As is their custom, no invitations were sent out excepting to members of the Board of Fire Commissioners, Chief Engineer and Assistants, Foremen and Assistant foremen of the various fire companies of the Department. At 2 p. m. a splendid collation was served in the lower room of the Hose house, furnished by that prince of caterers, Mr. John Crawford, who is also a member of Alert. To say that the tables were loaded down with all the delicacies of the season, and that each and every particular person appreciated and enjoyed the repast, is but faintly expressing the truth. An unlimited supply of that generous and speech-inspiring fluid, Mumm's Extra Dry, assisted in washing out the throats of the "laddies" and their guests after the feast, and prepared them for speech-making and song. The former was inaugurated by the Foreman of Alert, Mr. Auguste Saltzman, who, in a few well chosen remarks and his usual happy vein, welcomed the guests to Alert Co.'s Twelfth Annual Reunion. Speeches were made by members of the Fire Board, Chief Voorhees and others. The speech of the occasion, however, was by associate member of Alert, ex-Commissioner John W. Murray, who highly complimented the members upon their efficiency and standing in the Department. He closed by offering the following sentiment:

"To the Firemen of Plainfield—May their friendship never wane, may their family cares increase, and may their worldly cares decrease."

Which was received, placed on file and —drank standing.

A pleasing feature of the Re-union was the appearance at the same of a Committee of firemen from Morristown, consisting of ex-Chief Halstead, 1st Asst. Engineer Freeman, Foreman DuBois and Asst. foreman Norris, of "Resolute" H. & L. Co., No. 1 of that city, bearing with them a beautiful picture, in colors, entitled "Maria Stuart and Rizzio," handsomely framed, which they presented to "Alert" in the name of "Resolute."—Foreman Saltzman received the beautiful souvenir in the name of his Company and made a few pleasing remarks. It is needless to say the Morristowners were dined and wined to their entire satisfaction, departing for their homes on the 7.01 p. m. train, as well pleased with their visit as their brother firemen of Alert were to meet them. The picture is on exhibition at Voorhees Drug Store.

Foreman Saltzman was the recipient of another badge on the occasion, from Chief Halstead, which makes his 13th in that line.

Prof. Frazee furnished most excellent music on the occasion, violin and harp, and rendered some fine singing.

The hose house and parlor were tastefully decorated for the occasion.

NO, SIR!

A Scotch minister once said no woman could bear pain as well as a man. That is not so. The fact is generally the other way. Mrs. Edward Meyers, of Rondout, N. Y., submitted to the operation of the removal of her hand by amputation, without taking ether, or moving a muscle, or uttering a groan. Dr. Kennedy, also of Rondout, N. Y., who performed the operation, said he never saw such heroism. The lady's disease was erysipelas, and afterward the doctor gave his "Favorite Remedy" to cleanse the Blood. Mrs. Meyers is now well and strong.

THE TROUBLE ALL OVER.

"A patient in Middletown" writes to Dr. David Kennedy, of Rondout, N. Y.: "I wrote you about five weeks ago for advice in taking your medicine, as at that time two Stones had just passed from my Kidneys, the effect of using 'Kennedy's Favorite Remedy.' I have taken the 'Favorite Remedy' ever since, and have had no more trouble from that source. It is also toning my entire system." [illegible]

It is earnestly requested by many citizens that the following Ordinance will be passed by the Common Council:

AN ORDINANCE.

Be it enacted by the Common Council of the city of Plainfield in lawful session met, and it is hereby enacted by the same, that its members henceforth and forever shall be authorized to purchase such articles of toilet and such medicinal preparations as they need, at the Drug Store of Mr. Anthony Killgore, situated at No. 10 East Front Street, under Van Deventer Hall.

SEC. 1. That before and after the passage of this act, it shall be the duty of all members of this body to procure at the before-mentioned establishment a bottle of Killgore's Cough Cure, and forever after abstain from disturbing the meetings of the Council, by coughing, hacking and sneezing.

SEC. 2. That when any member desires to buy a tooth or hair brush for the use of himself, or his family, or his sister, or his cousin, or his aunt, he is hereby advised to select the same from the large variety and great stock to be found at the store of Mr. Killgore at the place mentioned above.

SEC. 3. That no matter what family physician may be employed by a member of the Council, it shall under every consideration be the duty of such member to have any and all prescriptions compounded at Killgore's pharmacy, as it is the desire of this Council to perpetuate its existence by the use of carefully prepared medicines.

SEC. 4. That every member shall be required, within ten (10) days after the publication of this act, to call at the store of Mr. Anthony Killgore and make a personal inspection of the fine assortment of perfumes, soaps, patent medicines, and other articles contained in stock, and immediately instruct his family, his heirs, his assigns, his man servant, his maid servant and the stranger within his gates, to purchase their supplies and wants at that establishment and forever after hold their peace.

SEC. 5. Any member who shall violate or fail to comply with any provision of this act shall be deemed guilty of a *nolle pros* and upon the procurement of a *habeas corpus* shall be fined not less than two hundred dollars nor more than fifty cents for each and every offence; one-half of each fine when collected to be paid to Mr. Killgore, one-half to be devoted to the discovery of Charley Ross and the remainder to be equally divided among the members of the Council with the exception of the accused.

SEC. 6. All acts or parts of acts inconsistent with this act, are hereby repealed.

And be it enacted that this act shall be deemed a public act and take effect immediately.

BENEVOLENT MR. WIXHAM.

At a meeting of the Ladies' Benevolent Society, held the other day, it was resolved that a committee of four ladies be appointed to canvass for donations, and in the course of their perigrinations this committee dropped into Mr. Wixham's office. He received them as a gentleman should, and after the usual formalities one of them began:

"Mr. Wixham we are asking aid for benevolent purposes."

"Ah! yes. Benevolence is a thing which ought to be cultivated. Are you looking after poor folks?"

"We are."

"Very proper—very proper. You all have children of your own?"

"Oh, yes."

"All of them are well-fed, well-clothed and well-cared for, are they?"

"Yes sir."

"That's very proper. I presume their stockings are properly darned, buttons in their places, and they say their prayers when they go to bed? Am I correct?"

The women looked at each other in a sly way, and then at him, and one of them said:

"We shall be happy for any contribution."

"Yes'm, yes'm. You don't want this contribution for your own families, eh?"

"No, sir!" answered four voices in chorus.

"Well, I am somewhat inclined to benevolence. Hardly a day passes that I do not do something for charity. Here's an old account of $26 against Mr. ——. I know he's hard up and having a close time to get along, and yesterday I cancelled the debt."

One of the canvassers turned red, white and blue and looked out of the window. That was her husband, but Wixham didn't know it.

"And yesterday I found a poor, forlorn looking little boy out here crying with hunger and cold. He said his name was Tommy ——, and he lived at No. 36 —— street. He hadn't been washed or combed for a week, and I felt sad for him. I was going to take him home and feed him, but he slipped away."

Another woman suddenly looked out of the window, and her pulse ran up to 120 a minute but Wixham was as innocent as a lamb of any knowledge that it was her boy.

"Then you won't aid us?" queried the spokesman.

"Oh, yes, certainly I will. I was simply figuring to see how much I could spare. I signed a note with Mr. —— last fall, and I had to pay it yesterday, that makes me feel rather poor."

The third woman didn't turn red, but green, but Wixham couldn't have possibly known that it was her husband.

"Let's see. Let's see. I want to give you all I can spare. Mr. —— on —— street, owes me four months house rent, and I'll give you an order on him for $20."

The four women rose up. They rushed in a solid body for the door. They went out in a heap. Some were red and some were pale, and all mad. They tried to speak, but they couldn't, and as they hastened to get away from each other, Wixham held up the half written order and gasped:

"How very, very singular! Perhaps they thought they couldn't collect the money."

WORDS OF WISDOM.

Discretion of speech is more than eloquence.

Suffering has its limits, but fears are endless.

Money like muck, not good unless it be spread.

One maxim is, "A pound of pluck is worth a ton of luck."

It is easier for a man to descend to earth than to mount to heaven.

However laborious the life of the good it is less so than that of the bad.

True virtue is like precious odors sweeter the more incensed and crushed.

If a man be gracious and courteous to strangers it shows that he is a citizen of the world.

True philosophy places us above honors, but nothing places us above the ennui they cause.

The mind has more room in it than most people imagine, if you would furnish the apartments.

Strong minds, like hardy evergreens, are most verdant in winter; when feeble ones, like tender summer plants, are leafless.

The evils of the world will continue until philosophers become kings, or kings become philosophers.

There are truths which some men despise because they have not examined and which they will not examine because they despise.

Childhood often holds a truth with its feeble fingers, which the grasp of manhood cannot retain, which it is the pride of utmost age to recover.

Natural objects themselves, even when they make no claim to beauty, excite the feelings and occupy the imagination. Nature pleases, attracts, delights, merely because it is nature.

WHAT WALKING INDICATES.

Careless persons are forever stubbing their toes.

Fun-loving persons have a kind of "jig" movement.

Unstable persons walk fast and slow by turns.

One-idea persons, and always very selfish ones, "toe-in."

Cross persons are very apt to hit their knees together.

Good-natured persons snap their fingers and thumb at every few steps.

Modest persons generally step swiftly, for fear of being observed.

Calculating persons generally walk with their hands in their pockets and their heads slightly inclined.

Wide-awake persons "toe-out," and have a long swing to their arms, while their hands move about miscellaneously.

Lazy persons scrape loosely with their heels and are first on one side of the walk, and then on the other.

Very strong-minded persons place their toes directly in front of them, and have a kind of stamp movement.

Timid persons often step off from the sidewalk on meeting another, and always go around a stone instead of stepping over it.

Observing persons move slowly; their hands move alternately from side to side, while they occasionally stop and turn around.

Careful persons lift their feet high, and place them down slowly, pick up some little obstruction and quietly place it down by the side of the walk.

One of the most exasperatingly humiliating moments in a man's life comes at about two a. m., when he gets on his front stoop and finds that his night-key is in his other vest.

A WARM EPISODE.

There is an old woman living on Catharine street who delights to find a case that all the doctors have failed to cure and then go to work with herbs and roots and strange things and try to effect at least an improvement. A few days ago she got hold of a girl with a stiff neck, and she offered an old negro named Uncle Tom Kelly fifty cents to go to the woods and bring her a hornet's nest. This was to be steeped in vinegar and applied to the neck. The old man spent several days along the Holden road, and yesterday morning he secured his prize and brought it home in a basket. When he reached the Central Market he had a few little purchases to make, and after getting some tea at a grocery he placed his basket on a barrel near the stove and went out to look for a beef bone.

It was a dull day for a trade. The grocer sat by the stove rubbing his bald head. His clerk stood at the desk balancing accounts, and three or four men lounging around talking of a new party to be founded on the ruins of Greenbackism. It was a serene hour. One hundred and fifty hornets had gone to roost in that nest for the winter. The general atmosphere began to limber them up. One old veteran opened his eyes, rubbed his legs and said it was the shortest winter he had ever known in all his hornet days. A second shook off his lethargy and seconded the motion, and in five minutes the whole nest was alive and its owners were ready to sail out and investigate. You don't have to hit a hornet with the broadside of an axe to make him mad. He's mad all over all the time, and he doesn't care a picayune whether he tackles a humming bird or an elephant.

The grocer was telling one of the boys that he and General Grant were boys together, when he gave a sudden start of surprise. This was followed by several other starts. Then he jumped over a barrel of sugar and yelled like a Pawnee. Some smiled, thinking he was after a funny climax, but it was only a minute before a solemn old farmer jumped three feet high and came down to roll over a job lot of washboards. Then the clerk ducked his head and made a rush for the door. He didn't get there. One of the other men, who had been looking up and down to see what could be the matter, felt suddenly called upon to go home. He was going at the rate of forty miles an hour when he collided with the clerk and they rolled on the floor. There was no use to tell the people in that store to move on. They couldn't tarry, to save 'em. They all felt that the rent was too high, and that they must vacate the premises. A yell over by the cheese-box was answered by a war-whoop from the show-case. A howl from the kerosene barrel near the back door was answered by wild gestures around the show window.

The crowd went out together. Uncle Tom was just coming in with his beef bone. When a larger body meets a smaller one the larger body knocks it into the middle of next week. The old man laid around in the slush until everybody had stepped on him all they wanted to, and then he sat up and asked:

"Hev dey got de flah all out yet?"

Some of the hornets sailed out of doors to fall by the wayside, and others waited around on top of barrels and baskets and jars to be slaughtered. It was half an hour before the last one was disposed of, and then Uncle Tom walked, picked up the nest, and said:

"Mebbe dis will cure de stiffness in dat gal's neck, jist de same, but I tell you I'se got banged, an' bumped, an' sot down on, till it'll take a hull medical college all Winter long to get me so I kin jump off a street kyar!"

FASHION NOTES.

Bangles are worn to excess by fashionable women.

White opera toilets are in the majority in London.

Furniture effects are sought for in recent costumes.

Vermicelli lace is the latest novelty in lace goods.

Fur-trimmed costumes begin to make an appearance.

Hoods on dresses, as well as on wraps, grow in favor.

The Fanchon bonnet is called the babe bonnet in Paris.

Japanese screen front dresses are of American origin.

Lace pins have completely superseded other kinds of brooches.

Deep yellow and coral pink China asters are the flower of the moment.

Dull red is a popular shade for young girl's and children's wool suits

Serpent bracelets with golden scales and ruby eyes are coming into vogue.

The latest hoods on dresses and wraps are rounded, not pointed, in the back.

Driving gloves are made to simulate a leopard's or tiger's claw are late novelties.

Wadded and quilted satin slippers are worn for comfortable home negligee toilet.

Mother Hubbard bonnets are shirred hats of good large size, tied down over the ears.

Mother Hubbard cloaks have gathered fullness front and back, shirred in at the neck.

When the embroidered Japanese screen fronts of dresses are in bright colors the brocade, satins or plushes of the other parts of the costumes are in colors to match the tone of the screen drapery.

Chenille fringes, with strands of gold or silver thread, are much used for ball dress trimmings.

The harmonies or symphonies of color must be well preserved in Japanese screen front dresses.

Fichus, collarettes, jabots of large size and simulated waistcoat fronts in lace are almost de rigueur in full dress.

Dark-green and seal brown cloth suits, trimmed with bands of fur, take the lead for elegant street costumes.

Six bangles on each arm are not considered too many, by girls who adopt the extremes of that barbaric style.

Gilt soutache is revived for trimming street suits and wraps, but it is not in good taste save for carriage or home wear.

A true lady is as careful to make her toilet with care and taste for retiring to bed as for the morning, afternoon or evening.

Tin or wooden pail hair receivers, covered with satin and banded with brass, have reticule tops drawn up with tasselled cords.

Very wide muslin cravats trimmed with lace or worn around the neck again, with the large bow tied on one side a la Bernhardt.

The Drogan cap is shaped very much like a French pastry cook's. It takes precedence to the Tam-o'-Shanter and the Glengarry.

The most wonderful embroidery in the form of insects, birds, stems and leaves in white silk floss is now put on baby shawls and blankets.

Black satin Japanese screen draperies, embroidered in gold, are sold for the front breadths of dresses, to be combined with black and gold striped plush or black and gold circle velvets. The trimmings of such dresses are gold embroidered bands and gold and black fringes.

HOW OFFICIALS WERE ONCE PAID.

It is not a generally known historical fact that from 1777 to 1784 the territory now known as Tennessee formed a part of North Carolina, and that in 1785 the Tennesseeans, becoming dissatisfied with their government, organized a State government under the name of "Franklin," which was maintained for some years. The State organization afterward disbanded, and Territorial Tennessee was again annexed to North Carolina. The following is among the laws passed by the Legislature of the State of Franklin. We copy it as found in a speech by Daniel Webster on the currency in 1830:

"Be it enacted by the General Assembly of the State of Franklin, and it is hereby enacted by the authority of the same: That from the first day of January, 1789 the salaries of the officials of this Commonwealth be as follows, to-wit:

"His Excellency the Governor, per annum, 1,000 deer skins;

"His Honor the Chief Justice, 500 deer skins;

"The Secretary to His Excellency the Governor, 500 raccoon skins;

"The Treasurer of the State, 450 raccoon skins;

"Each County Clerk, 300 beaver skins;

"Clerk of the House of Commons, 200 raccoon skins;

"Member of the Assembly, per diem, three raccoon skins;

"Justices' fee for signing a warrant, one muskrat skin;

"To the Constable for serving a warrant, one mink skin;

"Enacted into a law the 18th day of October, 1789, under the great seal of the State."

PROVE IT BY MOTHER.

While driving along the street one day last Winter in my sleigh, a little boy six or seven years old asked me the usual question, "Please may I ride?"

I answered him, "Yes, if you are a good boy."

He climbed into the sleigh, and when I asked again, "Are you a good boy?" he looked up pleasantly, and said, "Yes, sir."

"Can you prove it?"

"Yes, sir."

"By whom?"

"Why, my ma," said he, promptly.

I thought to myself, here is a lesson for boys and girls. When a child feels and knows that mother not only loves, but has confidence in him, and can prove his obedience, truthfulness and honesty by mother, he is pretty safe. The boy will be a joy to his mother while she lives. She can trust him out of her sight, feeling that he will not run into evil. I do not think he will go to the saloon, the theatre or the gambling house. Children who have praying mothers, and mothers who have children they can trust, are blessed indeed. Boys and girls, can you "prove by mother" that you are good? Try to deserve the confidence of your parents, and every one else.—*Domestic Journal.*

WHY HE WISHED TO SEE HER.

The other night Bickels went home and found his wife particularly retrospective. She talked of the past with a tear, and looked to the future with a sigh.

"Oh, by the way," said Bickels, as he sat on the side of the bed pulling off his boots. "I saw a gentleman down town to-day who would give a thousand dollars to see you."

"Who was he? Does he live in Little Rock?"

"I don't know his name."

"I'll warrant that it was Oliver Gregg."

"No."

"Then it must be George Weatherton."

"Guess again. I might know his name if I were to hear it."

"Oh, I do wish I knew!" said the lady, exhibiting excitement. "Was it Oscar Peoples?"

"Guess again. I remember his name now."

"Harvey Glenkins?"

"No; his name is Lucas Westwing."

"I don't know a man by that name. Why would he give a thousand dollars to see me?"

"Because he's blind."

BIBLICAL AUTHORITY FOR IMMERSION.

A Kentucky preacher rose to speak and opened the Bible. The first verse that met his eyes happened to be "The voice of the turtle shall be heard in the land." "Brethren," said he, "at first sight one would not think there was much in this text, but on a little consideration you will see there's a great deal in it. Now, you all know what a turtle is. If you've been along by a pond you've seen them sitting on a log sunning themselves. Now, it is said, 'The voice of the turtle shall be heard in the land.' But the turtle hasn't any voice that anybody ever heard, so it must be the noise he makes in plunging off the log into the water. Hence, we must conclude that immersion is meant, and that immersion will become universal."

A plumber fell from a fourth-story floor to the cellar through an elevator shaft in Detroit, the other day, and was uninjured. Plumbers sometimes die of broken hearts in midsummer, when the buttercups and daisies are blooming in the meadows, when the little song-birds are twittering in the trees, and when the water-pipes are working to a charm throughout the city. But they neither die nor can they be killed by any ordinary means in the winter time. A fall of four stories through an elevator shaft, simply acts upon the plumber as a tonic.

We do not hesitate to give it as our theological opinion, founded on much study and wide observations, that one of the first questions that St. Peter will ask a man who presents himself at Heaven's gate, will be, "Did you put sand, or ashes, or sawdust, on the sidewalk in front of your premises, in slippery weather, like a good Christian?" and the man who cannot answer that question satisfactorily will find it harder to pass through the pearly gate than for a camel to go through the eye of a needle.

Early to bed and early to rise, makes *a man rich if he'll advertise.*

"I've got that down fine," said Jenkinson, as he finished his third plate of comminute food, vulgarly known as hash.

A MISSING TREASURER'S LETTER.

David R. Paul, Treasurer of Company C, Sixth N. G. S. N. J., has quitted his home in Camden. He left a letter addressed to the Secretary of the company. It reads:

CAMDEN, Feb. 10, 1881

"I am gone where the woodbine twineth. Good-by. No Doctor—what's his name—about me.

"Yours unavoidably in disgrace,

D. R. P."

Paul had $200 in his possession belonging to the company, the proceeds of a benefit recently held to enable the company to defray the expenses of a trip to Washington to participate in the inaguration ceremonies.

The doctors said the man couldn't live, and weeping friends surrounded his bedside. But he was not reconciled to depart. He was young, and there was much to hold him to life. He struggled hard, mentally to accept the situation, but he couldn't feel right about it. At length he opened his eyes and asked in a feeble whisper if the leader of the village band was at home. If so he desired, as a last dying request, that the band be brought out and allowed to play one of its favorite airs, Number 6, he thought, under his window. The appeal was granted, and before the concluding strain was reached, a submissive smile hovered about the shrunken lips of the departing one as he murmured, "I'm resigned.—Nothing —worse—can—happen—now."—Then his light went out.

It was the boy who was shingled that called his mother a stern parent.

Stone in the Bladder Expelled by using Dr. Kennedy's "FAVORITE REMEDY."

Mr. S. W. Hicks, of Pleasant Valley, Dutchess Co., N. Y., the son of Mr. E. S. Hicks, whose name may have appeared in this journal in connection with an article similar to this, was, like his father, afflicted with Stone in the Bladder, only that his case was more serious than his father's. On the appearance of the disease, the father advised the son to write to Dr. David Kennedy, of Rondout, N. Y., who, he said, would tell him what to do. Dr. Kennedy replied, suggesting the use of "Kennedy's Favorite Remedy," which had worked so successfully in the father's case. Mr. Hicks, who had been assured by the local physicians that they could do nothing more for him, tried "Favorite Remedy" as a venture. After two weeks' use of it he passed a stone ⅜ of an inch long and of the thickness of a pipe-stem since then he has had no symptoms of the return of the trouble. Here is a sick man healed. What better results could have been expected? What greater benefit could medical science confer? The end was gained; that is surely enough. Dr. Kennedy assures the public, by a reputation which he cannot afford to forfeit or imperil, that the "Favorite Remedy" does invigorate the Blood, and cures Liver, Kidney and Bladder complaints. "Dr. Kennedy's Favorite Remedy" for sale by all druggists. febl4w4

FOREST LEAF & JUNIPER KIDNEGEN THE GREAT KIDNEY REGULATOR AND DIURETIC.

KIDNEGEN is highly recommended and unsurpassed for FOUL KIDNEYS, DROPSY, GRAVEL, BRIGHT'S DISEASE, LOSS of ENERGY, NERVOUS DEBILITY or any OBSTRUCTIONS, arising from KIDNEY or BLADDER DISEASES. Also for BLOOD and KIDNEY POISONING, in infected malarial sections.

By the distillation of a FOREST LEAF with JUNIPER BERRIES and BARLEY MALT we have discovered KIDNEGEN, which acts specifically on the Kidneys and Urinary Organs. It can be taken at all times, in all climates, without injury to the system. Unlike any other preparation for Kidney difficulties, it has a very PLEASANT and AGREEABLE taste and flavor. It contains POSITIVE DIURETIC properties and will NOT NAUSEATE. LADIES ESPECIALLY will like it, and GENTLEMEN will find KIDNEGEN the best Kidney Tonic for its purpose ever used!

NOTICE! Each label has the Signature of LAWRENCE & MARTIN, and each bottle has a GOVERNMENT REVENUE STAMP (with our name), which permits KIDNEGEN to be sold as a Proprietary article (without license) by Druggists, Grocers and other dealers everywhere.

LEGAL NOTICES.

IN CHANCERY OF NEW JERSEY.

To William Harman Brown and Sarah J. Lewis:

By virtue of an order of the Court of Chancery of New Jersey, made on the day of the date hereof, in a cause wherein William C. Stanbery is complainant and you and others are defendants, you are required to appear and plead, answer or demur to the bill of said complainant on or before the Twenty-eighth day of March next, or the said bill will be taken as confessed against you.

The said bill is filed to foreclose a mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbery, on lands in the city of Plainfield, in Union County, N. J., dated July 15, A. D., 1873. And also to foreclose a certain other mortgage given as collateral to the first described mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbery, on certain lands in the city of Plainfield, in the County and State aforesaid, dated July 15, A. D., 1873.

And you William Harman Brown are made defendant, because you hold a mortgage on the lands described in the mortgage first above described.

And you Sarah J. Lewis are made defendant, because you hold a mortgage on the lands described in said collateral mortgage.

THE BORROWED BABY.

A TOUCHING STORY.

"Please, ma'am, I've come to borrow the baby."

The speaker was a rosy-cheeked girl who lived with the family across the way. It was a regular nuisance, this lending the baby all the time. She did not seem to belong to us, at all, any more. I suppose we were all a little jealous, because she really did love these new people so much, and they took so much pains with her, teaching her little cunning ways and pretty sayings; and I must say they were most judicious, never giving her sweet things to make her sick, or letting her take cold. So, for the hundredth time, I rolled little Dudu up and kissing her good-bye, sent her off to act her part as a borrowed baby.

When John came home to dinner and found the baby gone again, he was just as angry as could be.

"Why can't they get a baby of their own, and not always be borrowing ours," he said sourly. "They could go over to the asylum and take their pick of babies."

"But not like ours, John," I said quickly.

"Well, no, of course not; but I don't propose to have strangers going halves with our baby. Besides I won't have them teaching that child any more nonsense of the religious sort, and they may as well know it; when they bring her back this time you may as well settle it up once for all."

[illegible] both free-thinkers and did not go to church or subscribe to any of the religious beliefs to which we had been educated. We had both graduated in a brilliant intellectual school, utterly devoid of the foolish superstitions of any religious faith, and we intended to bring up our child in the same severely moral atmosphere. It did not once occur to us that ours was the strength of youth and presumption, or that our ignorance could pull down in a day what knowledge had been a thousand years building. We felt that we were sufficient to ourselves and our child.

The baby came home. She was nearly three years old, but, after all, only a baby, and as I took her from the girl I said:

"We won't be able to lend the baby any more, Mary; her papa and I both think it isn't a good plan, and we cannot possibly do without her; the house is too lonely. Tell your mistress so with my compliments."

"I'm sorry, ma'am," said the girl, "because we all loves little Dudu so much, and she's real sweet. She can sing 'Jesus Loves Me' all through, and not miss a word."

"Superstition!" I exclaimed angrily, "tell your mistress for me that I do not wish my child to learn those senseless hymns. I do not believe in them, nor do I intend that she shall."

"N-o-t be-l-i-e-v-e them," gasped the girl. "Why, you ain a heathen, be you?"

I dismissed her curtly, and when John came home told him of the message I had sent.

"That is right little woman! I guess we know enough to take care of this little blossom, hey wee Willie Winkle, don't we?"

Somehow just then an old forgotten text flashed into my mind, "My grace is sufficient for thee," and it ran up and down the garret of my thought all the evening. When I put Dudu to bed I noticed that her hands were hot and her eyes seemed heavy. There was lots of diphtheria in the place, but she had not been exposed to it in any possible manner, our neighbors who borrowed the baby, being as afraid of it as we were, for that was why no baby was in their home.

Oh, that dreadful time. I cannot recall it now—the days—hardly more than a day—of anguish; the awful suffering and the end, the parched lips and the fever-bright eyes—the awful realism of death, and not one hope, one word of comfort, only the cruel, dreary, unlighted grave that yawned for our darling!

Just at the last there was a moment's peace. It was not on us that her last look fell. We turned to see who or what she saw, and there stood our neighbor over the way, whom she, at least, sweet darling, had loved as herself, and then she lifted the weary little hands, and a glad look of recognition was in the wan face, and we all heard the last broken words as they fell in awful distinctness from the baby lips: "Desus loves me, dis I know."

Yes, they sung it at her funeral, for we buried her with no heathen rites, and some good man prefaced a few consoling words with the text: "My grace is sufficient for thee;" but oh! the tender melody of the child voices that sung above her;

"Jesus loves me, this I know,
For the Bible tells me so;
Little ones to Him belong,
We are weak and He is strong."

And when it was all over, and only the memory remained of so much beauty and sweetness, and our hearts were going back to the dust and ashes of unbelief, our good neighbor came like an evangelist, and giving us her own brave Christian strength, gained at the foot of the cross, said wisely: "Be content; God has only buried the baby."—*Detroit Free Press.*

MUSTAPHA'S VACATION.

BY THE HAWKEYE PHILOSOPHER.

Now in the sixth month, in the reign of the good Caliph, it was so that the Mustapha said:

"I am wearied with much work; thought, care and worry have worn me out; I need repose, for the hand of exhaustion is now upon me, and death even now lieth at the door."

And he called his physician, who felt of his pulse and looked upon his tongue, and said:

"Twodollahs!" (for this was the oath by which all physicians sworn); "of a verity thou must have rest. Flee unto the valley of quiet, and close thine eyes in dreamfull rest; hold back thy brain from thought and the hand from labor, or you will be a candidate for the asylum in three weeks."

And he heard him and went out and put the business in the hands of the clerk, and went away to rest in the valley of quiet. And he went to his Uncle Ben's, whom he had not seen for lo! these fourteen years.

Now his Uncle Ben was a farmer, and abode in the valley of rest, and the mountain of repose rose round about him. And he was rich and well-favored, and strong as an ox and healthy as an onion crop. Ofttimes he boasted unto his neighbors that there was not a lazy bone in his body, and he swore that he hated a lazy man.

And Mustapha wist not that it was so.

But when he reached his Uncle Ben's, they received him with great joy, and placed before him a supper of homely viands, well cooked, and piled upon his plate like the wreck of a box-car. And when he could not eat it all, they laughed him to scorn.

And after supper they sat up with him and talked with him about relatives whereof he had never in his life so much as heard. And he answered their questions at random, and lied unto them, professing to know Uncle Ezra and Aunt Bethesda, and once he said that he had a letter from Uncle George last week.

Now they all knew that Uncle George was shot in a neighbor's sheep-pen three years ago, but Mustapha wist not that it was so, and he was sleepy and only talked to fill up the time. And they talked politics. So about one o'clock in the morning they sent him to bed.

Now the spare room wherein he slept was right under the roof, and there were ears and bundles of ears of seed corn hung from the rafters, and he bunged his eye with the same, and hooked his chin in festoons of dried apples, and shook dried herbs and seeds down his back as he walked along, for it was dark. And when he sat up in bed in the night he ran a scythe in his ear.

And it was so that the four boys slept with him, for the bed was wide. And they were restless, and slumbered crosswise and kicked, so that Mustapha slept not a wink that night; neither closed he his eye.

And about the fourth hour after midnight his Uncle Ben smote him on the back, and spake unto him saying:

"Awake! Arise! Rustle out of this, and [illegible] is fried, and the breakfast waiteth. You will find the well down on the other end of the cow-lot. Take a towel with you."

When they had eaten, his uncle Ben spake unto him, saying:

"Come let us stroll around the farm."

And they walked about eleven miles. And his Uncle Ben set him upon a wagon *and taught him how to load hay.* Then they drove into a barn, and he taught him to unload it. Then they girded up their loins and walked four miles, even into the forest, and his Uncle Ben taught him how to chop wood; and they walked back to supper. And the morning and the evening were the first day, and Mustapha wished that he were dead.

And after supper his Uncle Ben spake once more, and said, "Come, let us have some fun." And so they hooked up a team and drove nine miles, down to Belcher's Branch, where there was a hop. And they danced until the second hour in the morning.

When the next day was come, which wasn't long, for already the night was far spent, his Uncle Ben took him out and taught him how to make rail fence. And that night there was a wedding, and they danced and made merry and drank and ate, and when they went to bed at three o'clock, Mustapha prayed that death might come to him before breakfast time.

But breakfast had an early start, and got there first. And his Uncle Ben took him down to the creek and taught him to wash and shear sheep. And when the evening was come, they went to spelling-school, and they got home at the first hour after midnight, and Uncle Ben marvelled that it was so early. And he lighted his pipe and sat up for an hour and told Mustapha all about the forty he bought last Spring of old Mosey Stringer, to finish out that north half, and about the new colt that was foaled last spring.

And when Mustapha went to bed that morning he bethought him of a dose of strychnine he had with him, and he said his prayers wearily, and he took it.

But the youngest boy was restless that night and kicked all the poison out of him in less than ten seconds.

And in the morning, while it was yet night, they ate breakfast. And his Uncle Ben took him out and taught him how to dig a ditch.

And when evening was come, there was a revival meeting at Ebenezer Methodist Church, and they all went. And there were three regular preachers, and two exhorters, and Baptist evangelist. And when midnight was come they went home, and sat up and talked over the meeting until it was bedtime.

Now when Mustapha was at home, he left his desk at the fifth hour in the afternoon, and he went to bed at the third hour after sunset, and he arose not until the sun was high in the heavens.

So the next day, when his Uncle Ben would take him out into the field and show him how to make a post and rail fence, Mustapha would swear at him, and smote him with an axe-helve and fled, and got himself home.

And Mustapha sent for his physician and cursed him. And he said he was tired to death, and he turned his face to the wall and died. So Mustapha was gathered to his fathers.

And his physician and his friends mourned and said, "Alas, he did not rest enough. He tarried at the desk too long."

But his Uncle Ben, who came to attend the funeral, and had to do all the weeping out of one eye, because the other was half way down to his chin, said it was a pity, but Mustapha was too awfully lazy to live, and he had no get up about him.

But Mustapha wist not what they said, because he was dead. So they divided his property among them, and said if he wanted a tombstone, he might have attended to it himself, while he was yet alive, because they had no time.

It is not enough to aim; you must hit.

A LOTTERY OF DEATH.

A STORY OF MOSBY'S COMMAND.

A writer in the Philadelphia *Times* relates the following story of the war as told him by a soldier of Mosby's command:

"On arriving at Rectortown, Va., we found Colonel Mosby, with full command drawn up in line, and he himself in consultation with his principal officers. One of these finally advanced toward the squad which guarded the Union prisoners and gave orders to draw them up in line. The adjutant then rode forward and read an order stating that seven of our men having been recently hung by the enemy it was determined that seven of the prisoners should be hung in retaliation, and that lots for the seven should immediately be drawn. A scene ensued which will be impressed upon my memory until the day of my death. A cry of anguish and consternation arose from among the unfortunate prisoners. Some implored the guard to intercede with Colonel Mosby and have them excluded from the drawing, two of them declaring *that they were merely sutlers and not* fighting men, never having fired a shot at a Southern soldier. Others said they had been drafted into the federal army contrary to their wishes and were friendly to the South. Others again expressed a willingness to desert that army and join our standard. While this tempestuous appeal for life was going on among these poor fellows, the main body of prisoners heard the awful sentence with deep dejection but sullen resolution.

"In the course of twenty minutes, two officers approached, one of them holding a hat, in which had been placed a number of wads or balls of paper, corresponding with the number of prisoners. Seven of these wads were marked. The drawing then commenced, the officer with the hat requiring the right-hand prisoners to take out a ball, which when drawn he handed to the other officer in attendance, who on opening pronounced it to be either a blank or otherwise. At first several blanks were drawn, then came a marked ball which was drawn by a cavalry soldier of Custer's command and hailing from Michigan. This man very cooly remarked that he was prepared to die for his country.

"'Six men have now been drawn,' cried the officer with the hat; 'one more must come.'

"The next and last victim was a drummer boy, who, upon being informed of his fate, uttered the most piercing cries, and, throwing himself upon the ground, exclaimed that he was only a drummer boy with neither father nor mother, and begged to be spared. So greatly was the pity of the officers excited that they immediately applied to Colonel Mosby to spare this boy. He very promptly replied that he did not know there was a boy among the prisoners, and ordered that he should be removed and the drawing taken over again. This was done, and on the second drawing my friend, a lieutenant, drew a marked ball. I was shocked by this and he was deeply distressed, but exhibited a courageous resignation to his fate. Calling to him a [illegible] been taken prisoner, he requested him to take to his wife an empty pocket-book and pencil case; saying that these were the only souvenirs he had left when condemned to execution, and that his last thoughts were with his wife and mother. I was deeply affected at his fate and desired to assist him if possible. Whispering to him, I asked him if he was a freemason, to which he replied in the affirmative. Immediately after this the guard was ordered to march off with the seven men who had been condemned. We proceeded with them (I being one of the guard) only a few hundred yards, when we were ordered to halt and await further orders, and in a few moments a freshly-mounted squad of fifteen men commanded by a lieutenant and equipped for a raid, approached us with orders from Colonel Mosby that we should be relieved from care of the prisoners. Among the number of this relief was an intimate friend of mine, to whom I related the circumstances in connection with the lieutenant and also informed him that he was a freemason. Being anxious to learn their destination, I questioned him about the recent order and he informed me that they had been commanded to take the prisoners across the mountains and as near to Sheridan's headquarters as possible and there hang them. He promised me that he would do all that he could (consistent with duty) in behalf of the condemned officer. They then proceeded on their way, and several days elapsed before I heard anything of their movements. On meeting with my friend he gave me the following particulars:

"They reached Paris on the same night after leaving and were there met by Captain Mountjoy, who was returning from the valley with a batch of prisoners. Being a friend of Mountjoy's he took the first opportunity of informing him of the situation of the lieutenant and also informed him that he was a freemason and requested that he would save him. Upon hearing this Mountjoy requested an interview with the officer and immediately afterward he crossed *the street* to where he kept his own prisoners and returned with two of them. These he presented to the officer in charge as two of Custer's men, whom he wished to substitute for the lieutenant. After some hesitation, and with the condition that Mountjoy should assume all the responsibility, the exchange was made. The officer, after returning earnest thanks for his life, was hastily transferred to another batch of prisoners under the care of a sergeant, who was told to make all possible haste to Gordonsville, and specially to get out of 'Mosby's Dominions' before the break of day. The others met their fate.

FOR THE FAIR SEX.

SARA'S JEWELS.

Mlle. Bernhardt exhibited her costly collection of diamonds and other beautiful gems during her recent engagement in St. Louis and Cincinnati. The estimated value of the jewelry is $75,000, but several of the pieces cannot be replaced and are therefore invaluable. One bracelet contains 5,000 diamonds and is worth $10,000; then she possesses a string of these precious stones three feet long which Mlle. Bernhardt wears coiled around her neck or wrapped around her arms as a bangle. Her rarest piece exhibited is a basket composed of alternate rows of diamonds and sapphires. The eleven sapphires are as large as filberts, of pure azure hue and cut in beryl shape. It is difficult to place any value upon them because there is no sapphire collection of equal brilliancy, size and color in the world.

CHILDREN'S WHITE DRESSES.

White pique dresses with red or blue woolen sword sashes are being made at the furnishing houses for the Spring dresses of small boys and girls. The simplest styles are in best taste for these little dresses, and while some embroidery is necessary for trimming them, they are easily spoiled by having too much of it. The very deep round collar and square cuffs should be cut from the half-yard wide Hamburg embroidery, and a ruffle of similar pattern should be placed at the head of the Spanish flounce,—not below it—and the woolen sash should in its turn head the embroidered ruffle. Such dresses are, of course, all in one piece, and are fastened in front. One stylish model has the back in three pieces, that is, without a seam down the middle, *making a single broad middle form,* while the wide side forms begin in the shoulder seams. These meet the Spanish flounce, which is in double or perhaps triple box plaits, and is very deep, beginning under the embroidered ruffle, and being merely finished below with a hem. The front is in close sack shape, without darts or side forms, and has a row of embroidered insertion, with edging each side of it down the front; this conceals the buttons and button-holes that fasten the dress. To make it more dressy, two pretty tabs, like side pockets (or else three or four, if preferred), may be made of the insertion *and edging, and used for passing the* cashmere sash beneath. White muslin dresses for children are made sack shape, with three box plaits down front and back alike, with the Spanish flounce very deep, fully plaited, instead of being gathered, and, as we have noted for pique dresses, with a separate embroidered ruffle falling over the top of the plaited flounce, instead of edging it below. For boys, such dresses may be buttoned in front, and instead of three plaits, have a single wide box plait like that on gentlemen's shirt fronts, or else several narrow tucks a third of an inch wide may be used, as this gives a skirt-front effect.

For children's colored dresses, the Scotch zephyr ginghams of solid color, or in finest bars of single threads of blue or pink on white, will be made up in square-necked Gabrielle shapes, and worn over embroidered white slips or guimpes of muslin and needle-work. The whole front of some of these colored dresses is laid in narrow box plaits from the low neck to the frills at the foot. These are the French designs, but American mothers prefer fuller dresses. The princesse designs, yoke slips, and box-plaited sacks will be retained for ginghams, prints and white muslins. For woolen dresses, *especially for* those of larger girls, the bias and puffed effects already described for skirts will be repeated, especially in striped and plaid woolens that look best when cut bias.—*Harper's Bazar.*

WORDS OF WISDOM.

One has only to die to be praised.

Handsome apples are sometimes sour.

Little and often makes a heap in time.

It is easier to blame than to be better.

Would you be strong, conquer yourself.

There is no good in preaching to the hungry.

Speak little, speak truth; spend little, pay cash.

Charity gives itself riches, but covetousness hoards itself poor.

Everybody knows a good counsel except him that hath need of it.

The men that hope little are the men that go on working.

There is no sanctuary of virtue like home.

Idleness wastes a man as sensibly as industry improves him.

The idle should not be classed among the living; they are a sort of dead men that can't be buried.

A great part of our existence serves no other purpose than that of enabling us to enjoy the rest.

Intelligence tests ignorance and wisdom tests follies. But who are the intelligent and who are wise?

Truth sometimes forces the vicious and depraved to recognize and honor the virtue they cannot corrupt.

The application of common sense in matters of belief or business is always our best guide and monitor.

Only the power and potency of nature's laws are manifested to us when we come in contact with them.

Less time is spent in idle dreaming and devoted to the duties of life would give us wealth and contentment.

Don't covet the possessions of any man until you are willing to pay for them the price which he paid; then you will not need to covet them, for you can go and get them for yourself.

ANTI-MONOPOLY.

Senator Windom, of Minnesota, in a recent letter to the National Anti-Monopoly League, uttered the following sentiments:

"Corporate power has done much to develop our country. *For its good* deeds I freely accord it full credit. As an instrument to execute the will and serve the interests of the public it is of incalculable value, but as the imperious ruler of the people it is a most cruel and relentless tyrant. Kept within the limits of proper restraint it is an invaluable servant of the public. Unrestrained by the forces of law and public opinion it will prove a most dangerous master. The individual citizen is impotent to contend with this gigantic and rapidly-growing power. Governmental authority, State and national, alone is competent to restrain its aggressions and correct its abuses. I have long foreseen that the time would come when the people would be compelled to invoke the exercise of that authority for their protection."

Has not the time arrived when the people should not only invoke, but demand, as is their sovereign right, the exercise of legislative authority to protect them from the merciless grasp of monopoly?

We believe it has.

Throughout the length and breadth of the land can be seen and felt the overreaching arm of corporate power clutching and combining for its own selfish purposes. As Senator Windom says—"As an instrument to execute the will and serve the interests of the public it is of value, *but as the imperious ruler of the people it is a most cruel tyrant.*"

And that is exactly what Monopoly is aiming to accomplish in this country, to rule the people—not promote their interests.

Its object is to aggrandize for the enrichment of the few at the expense of the many.

It is time to block its pathway.

THE ONLY WAY.

By closely watching the pointings of the compass, the mariner steers safely over the widest seas, through the roughest weather, and in a direct course towards his desired haven. Did he neglect or ignore that guide, uncertainty would attend his movements, and possibly, hidden rocks mark the place of his shipwreck.

So on the political sea, there is a compass that must be constantly consulted and obeyed for the avoidance of fatal danger.

It is the Constitution.

Among the many grand characteristics of the Democratic party, there is not one more worthy of commendation than its uniform and implicit obedience to the Constitution as the guiding point of action.

At all times and amid every contingency, in war as in peace, beneath the storm cloud or sunny brightness, the Democratic party, when commanding the Ship of State, never for a moment faltered in steering as the Constitution directs.

It is the only way to reach the port of permanent prosperity.

WHY NOT.

Why should not Banking be made as free as any other business pursuit and relieved of extraordinary [illegible] restrictions?

Why not make greenbacks, goldbacks or silverbacks, as they may be termed, the entire paper money circulation of the whole country, to be issued by the Government at various convenient points, to any association or individual, when and to the extent required, upon the actual deposit of United States Bonds, or gold and silver coin and bullion, and freely received by the Government in redemption of all such deposited securities.

Would not some practical arrangement of the kind give the country a sound circulating medium, keep it in unison with business wants, and at all times prevent financial panics and needless contraction?

We merely throw out these suggestions as they occur, adding the remark, that people are now earnestly debating the question, and in a way not altogether flattering to the existing order of things.

Why not Freedom in all matters that concern and promise general public benefit?

FRATERNAL.

Responding to invitations extended by the citizen soldiery of New Orleans, many members of Northern military companies have been there during the present week for the purpose of participating in the usual Carnival ceremonies of the season. Among such visitors were detachments from the Boston Lancers, Cadets of Charlestown, Mass., the Seventy-first New York City Regiment, and the Spaulding Guards, of Buffalo, N. Y.

The good feelings produced by such re-union of the sections appear to have been mutual and very sincere. It is with great pleasure we make note of the following incident, communicated by telegraphic advices from New Orleans of 27th inst:

"Yesterday an impressive ceremony took place in Greenwood Cemetery. About 11 o'clock the Charlestown (Mass.) Cadets, Captain Phipps in command, went to Greenwood on cars and having alighted marched into the cemetery. Drawing up in line in front of the marble statue to Southern soldiers, the company 'presented arms' and came to 'parade rest.' The hymn 'Nearer, my God, to Thee' was then sung by the entire company, after which a beautiful shield of the Union, made of flowers, with a crescent and star in the centre, was offered in memory of the dead and placed on the marble bust of Lee on the monument. Then was sung 'Sweet By and By,' after which three ruffles of the drum were beaten and the company marched silently to the cars and returned to the city."

In commenting on the above named incident the *Picayune* spoke thus:

"This act on the part of the cadets was entirely unexpected, even by their hosts, the Continental Guards, the matter having been kept a profound secret. It was a ceremony conceived in the spirit of amity and performed with imposing dignity."

Such nobility of action on the part of Northern men, and Massachusetts men at that, is calculated more than aught else to restore the blessings of national harmony and blot out the bitter memories of civil war. We most heartily applaud it.

The opinion has been often expressed, that if the terms of peace at the close of hostilities had been left entirely with the soldiers, and kept out of the hands of scheming and thievish politicians, a fraternal era between the North and South would speedily have ensued. That we fully believe.

A JUST RESTORATION TO OFFICE.

It is with pleasure we learn that Congress has passed a bill restoring to his old military position, Capt. Wm. H. Gill, of Elizabeth. His many friends in this section will doubtless learn of this with pleasure. We gather the following concerning the same from a correspondent of the Newark *Advertiser*:

The Senate, on motion of Senator Logan, has passed a bill for the restoration of Capt. Wm. H. Gill, of New Jersey, to his former position of military storekeeper in the army. Capt. Gill, who is generally well known, is at present clerk to Governor Randolph's committee, that on Military Affairs, while in the army he filled, to the entire satisfaction of his superior officers, several important posts, and transactions aggregating over $75,000,000 were conducted by him during the war without the loss of one cent to the Government. The House report, even more than severe than the Senate, says that the action of the department in refusing him leave to withdraw his resignation was, under the circumstances, "unjustifiably arbitrary and severe."

Entering the service in 1858, he was, in 1870, ordered from the Philadelphia arsenal to New Mexico. While making the necessary arrangements to transfer his stores to his successor he was granted leave for thirty days from November 1, but his inventories were not complete until December 5, at which time he desired his leave to commence. His daughter was at this time taken suddenly ill, and as the department refused to extend his leave, he offered his resignation December 5, rather than leave a sick child, particularly as there was no pressing requirements for his immediate presence in New Mexico. In a short time his daughter's health improved, and he sent by telegraph, on the 17th, a withdrawal of his resignation, then unacted upon. The request was unnoticed, and five days later, the 22d, his resignation was accepted, while President General Grant endorsed the application of Captain Gill for restoration to the army, but it was never acted upon by the War Department. The committee add, that "the motives which caused Captain Gill to tender its resignation were praiseworthy, that the request to withdraw the same was reasonable and should have been granted in justice to a worthy officer."

AMENDING THE CONSTITUTION.

It is certainly apparent to every intelligent citizen that there is great need of a revision of the State Constitution. As it now stands there is clashing and confusion in its provisions. There have been repeated efforts made to amend the instrument, but, for various reasons, the attempts have proven failures. A movement has at last been inaugurated, which may bring about the desired result in a satisfactory manner. A resolution introduced into the Senate last week proposes that a Commission shall be appointed to make a general revision. The commission is to consist of nine persons, three of whom are to be nominated by the Governor, three by the President of the Senate (he to be one of them) and three by the Speaker of the House, (he, also, to be a member of the commission). This commission are to enter upon their labors at once, and report the result of the same to this or the next Legislature. The resolution also provides that the bi-ennial session matter be submitted to this commission for consideration. By the manner of appointment a capable committee may be secured for the desired labor.

A REMARKABLE CASE.

The infant daughter of a prominent citizen of Orange, was taken with spasms a week ago Sunday, and a cathartic was administered by the family physician, who was immediately called. The child began to pass pins, needles, &c., and continued to do so during the whole of last week, with the following returns: Ten lima beans, forty-five [illegible] seven hair pins, three large safety pins, five tacks, one shingle nail, three buttons, half of a hickory nut, one large pebble, one match, half of a wooden tooth pick, one steel pen and part of a shoe-buckle. Incredible as this story seems, the truth of it is vouched for by the father of the child, which is but seventeen months old, and by the family physician, one of the leading practitioners of Orange. The child is now considered out of danger, as nothing of the kind has been passed since the first of the week. Her parents are at a loss to understand how she could have had a chance to swallow such things, as they believed that she was having the best of care from her nurse.—*Orange Chronicle.*

STATE AGRICULTURAL SOCIETY.

The directors of the New Jersey State Agricultural Society met at the Board of Trade rooms, Newark, last week and elected the following officers for the ensuing year: President, Amos Clark, Jr.; Vice Presidents, Messrs. Rue, Halstead, Trick and Brown; Corresponding Secretary, P. T. Quinn; Recording Secretary, Wm. M. Force; Treasurer, Samuel Manning; Executive Committee, Messrs. Colyer, Wilkinson, Brown, Haines and Kidder. Resolutions of regret on account of Mr. Martin R. Dennis were adopted, and Mr. A. V. Sargeant was elected to fill the vacancy in the Board of Directors caused by the death of Mr. Dennis. The time fixed for holding the next fair was the week beginning September 19th.

President Hayes has issued a call for an extra session of Congress to convene on the 4th of March.

Another severe engagement took place between the British troops and the Boers on Feb. 27th, in which the English suffered defeat with a loss of about 600 men and officers. General Colley, who commanded the troops was killed.

The life of the late Senator Carpenter was insured for $50,250 at the time of his death, $25,000 of which was in the Mutual of New York, and $20,000 in the Equitable of the same city. The latter company immediately telegraphed its readiness to pay the amount of insurance at once.

The contest over the River and Harbor Appropriation bill was ended in Congress on Tuesday, the Conference Committee reaching an agreement which was adopted by both Houses. The Senate receded from seven of its amendments and the House agreed to the others. The amount appropriated is $11,141,800.

The Post Office in Rahway was broken into on Sunday morning last, the safe blown open, and the office robbed of several hundred dollars in money, postage stamps and other valuables belonging to private individuals. Rahway has about as large a police force as Plainfield, *and of course the* officers heard or saw nothing of the robbers until after the affair was all over.

Richard Pease, colored, probably the oldest inhabitant of Monmouth County, N. J., died Monday at Rumsons. He always asserted he was born July 14, 1772, at Navesink, and old inhabitants of that place know him to be at least 101 years of age. He was a boatman all his life, and was well known to Summer residents along the Shrewsbury River.

President Garfield is importuned by colored citizens of the South to appoint Senator Bruce to a place in his Cabinet. It is safe to say it will not be done.

The State Capitol of Minnesota was burned to the ground on Tuesday evening, March 1st. The Legislature was in session, and the members escaped from the burning building with difficulty. All the public records were saved, but valuable libraries of books were burned. The origin of the fire is a mystery. *The loss is $100,000. No* insurance.

The Funding Bill passed the House of Representatives on Wednesday as amended by the Senate. There was a severe contest over the passage of the bill, the main contest being over the amendment proposed by Mr. Conger to the fifth section, which was to strike out that clause of the section which repeals section 4 of the act of June 20, 1874, this section being the law under which the national banks now deposit legal tenders to withdraw their bonds. The amendment was finally rejected by a vote of 115 to 132. It is stated by high Republican authority that the President will veto the bill.

"Calamity" Lapham is the name of a man who lives in Ottumwa, Iowa. He acquired his unhappy sobriquet from the numerous accidents of which he has been the victim. He was shot a dozen or more times during the war, was run over by a caisson, and went to the bottom of the Mississippi river with a transport sunk at the siege of Vicksburg. Since the war he has had the cholera, small pox, yellow fever, been bitten by a snake, struck by lightning, and had three ribs broken by a falling wall during an earthquake in one of the South American States. A few days ago his left hand was cut off in an Ottumwa mill.

The World's Fair.

The recent unfortunate position taken by General Grant in relation to the site of the proposed World's Fair, is greatly to be regretted, not on account of any setback that may result regarding the success of the intended exposition already so fully established, but because his expressions are plainly the out-come of certain endeavors put forth in the way of impeding the affair by those who originally established the scheme and subsequently withdrew when they discovered it could not be manipulated as a means of filling their individual pockets. The renewed proposition to select the Central Park as a site is intangible and ridiculous. The former because the people will not hear of such a desecration and the Park Commissioners recognize the fact; while the utter foolishness of any such situation being adopted is shown in one particular sufficiently to entirely condemn it. The costly labor, intricate machinery, mechanical ingenuity and extended time necessary to transport the Obelisk to its position—not to mention the loss of time and interruption of travel occasioned upon such railways as were crossed in its journey—proves the fallacy of erecting buildings in the same locality for the exhibition of fragile machinery and brittle wares that from the construction, shape and in many cases great weight, would prevent the same difficulties of transportation.

On the other hand, the site at Inwood is located so as to be conveniently accessible by railroad as follows:—From the east and the north by the New York, New Haven and Hartford Railroad, Harlem Railroad; New York Central and Hudson River Railroad, New York and Northern Railroad; and to the city of New York by the Thirtieth street line of the New York Central and Hudson River Railroad, Grand Central Depot (line of New York Central and Hudson River Railroad), New York and Northern Railroad, in connection with the Eighth ave. elevated railroad. To these will be probably added an extension to Inwood of the elevated railroad along the south bank of the Harlem River, possibly so as to connect the lines on Second, Third and Eighth avenues with the Exhibition.

Water transportation to the Exhibition can be by the Harlem River in a limited and by the Hudson River in an unlimited amount." The proposed landing on the bank of the Hudson River will be 1,500 feet distant from the Exhibition and extending far enough above and below the central approach to secure a sufficient wharf accommodation. Here will be the landings for the ferries from the Pennsylvania, Erie and other railroads from the South and West, also for various steamboat lines traversing Long Island Sound, Hudson River, the harbor of New York and neighboring waters.

But the property-owners and residents in that vicinity should not be satisfied with the expectation that Inwood will be decided upon because of its fitness, and in consequence exert no financial nor personal effort to effect a result that would so materially benefit them. They will reap rich harvest if such is the final settlement; but thus far no assistance has been offered by them to insure a consummation of the kind, and it may—possibly will—pass by on the other side.

The Bridge Bill.

There was a large attendance in the House of Assembly at Trenton on Monday night last, to hear the debate on the Washington street Bridge bill, which has been a bone of contention in the State Legislature for the past four years at least. The Central Railroad desired the passage of the bill, so that the Company could build a bridge across the narrow strip of water separating Communipaw from Jersey City, over which to run their tracks. The Pennsylvania R. R. Company desired not the bill to pass. Therefore, when the bill came up in the House last Monday night for final passage it was defeated by the following vote:

Ayes—Messrs. Bell, Bruemmer, Dunn, Elvins, Hipp. Johnson, Lawrence, Lindsley, Laffbarrow, S. M. Martin, Mathews, McDermott, Muss, Murphy, O'Connor, Parrott, Post, Potts, Robinson, Schoimp, Sheilson, Van Duyne, Vreeland, Williams and Wright—25.

Nays—Messrs. Albertson, Avis, Beckman, Barber, Bennett, Bonsall, Carter, Cavileer, Craft, Curran, Donnelly, Ferrell Freeman, Fritts, Garwood, Herr, Ladow, Latou, S. J. Martin, McMahon, McMurray, Mines, Morehead, Oakley, Payne, Richardson, Sisson, Taylor, Van Buskirk, Van Cleef and Wilkinson—31.

Messrs. Lindsley and McDermott then changed their votes, which made the vote stand 23 to 33.

The following day, (Tuesday) a motion to reconsider the vote was lost and therefore the "bridge bill" is "off" for this session.

G. A. R.

The annual encampment of the Department of New Jersey, G. A. R., was held last week at Camden. There were two hundred and fifty comrades in attendance, who were in almost continuous session from ten a. m. until eleven p. m. The following Department officers were elected for the ensuing year:

Col. C. H. Houghton of Gov. Olden Post, No. 44, of Metuchen, Department Commander; F. W. Sullivan, Post 14, Newark, Senior Vice Department Commander; John B. Grubb, Post 37, Camden, Junior Vice Department Commander; Dr. Hough of Rahway, Medical Director; Rev. Wm. Lane, Chaplain; Council of Administration: Isaac Van Houten, Post 29, Paterson; Chas. Bowers, Post 1, Newark; A. M. Way, Post 15, New Brunswick; Comrade Reiley, Post 2, Bridgeton, and W. W. Mines, Post 37, Camden. Comrade R. S. Roberts of Metuchen was appointed by Commander Houghton to be A. A. General. The balance of the staff will be announced in future orders.

Death of a well-known Official.

The many friends of Mr. Jacob Seipie, head clerk in County Clerk Vosseller's office, were shocked to hear of his sudden death at his house on East Jersey street Elizabeth, from the effects of a paralytic stroke with which he was attacked in the afternoon, at the office of the County Clerk, where he had been employed for many years by Dr. Cannon, and later by Mr. Vosseller. During the day he was in his usual health, and it was not until late in the afternoon that Mr. Vosseller noticed that he sat in his chair very quietly, with his head leaning a little on one side, as was often his habit. Physicians were summoned, but he could not be rallied, and was conveyed to his home, not having regained consciousness. From the Elizabeth *Herald* we learn that Mr. Seipie was a little over 63 years of age, and was well booked up in affairs of city and county. He carried on hotel and livery stable business for many years adjoining the Central Railroad depot, and succeeded his father. The hotel was well kept, and thousands of persons have been entertained there. It was during the occupancy of the hotel by deceased that a fire swept away all the barns, etc., on the premises. This was many years ago. He afterward went to California, but did not remain long. He was at one time very active in military affairs, and no man ever filled the position of Colonel with greater dignity. He was one of the last of the old-time military officers who flourished in the days of the "old borough," and among those who have passed away within a few years were Messrs. Whitehead, Cox, Sayre and the Hinchmans (father and son). In 1860, Mr. Seipie succeeded Mr. A. M. Elmer, since deceased, as City Clerk, holding the position until five years ago, when Mr. Coleman was chosen. As Clerk, Mr. Seipie's "minutes" were always well kept, he wrote an excellent business hand, and no man had a better knowledge of city affairs. It was always a pleasure to him to impart information to those who sought it. He was twice married—his first wife being Mary, daughter of Thos. Latham, and granddaughter of Dr. Isaac Morse. His second wife was a widow of Capt. Wahl. He leaves two children by *his first wife*—one by the latter. His home was pleasant, and he was most pleased when surrounded by friends. The annual reception given by him to members of the City Council and representatives of the press in by-gone years were occasions of genuine merrymaking. A few years since, when he retired from the duties of the Clerkship, the City Council passed complimentary resolutions in his honor, and on the occasion of the presentation, Mr. S. entertained a large circle of friends, and displayed his ability as a violinist, to the surprise of all. He was the friend of every one, and every one esteemed him. He was affable to all, had many friends and no enemies, assisted many persons in the days of his prosperity, and as an official was true and faithful. He was an active and zealous Democrat, and a worthy citizen. He was at one time actively connected with the Masonic fraternity, and was one of the Past Masters of Washington Lodge of Free Masons. His remains were interred with masonic honors in the Presbyterian cemetery, Elizabeth, on Monday afternoon, *Feb.* 28th, and the funeral was largely attended.

A New Post Office Order.

On Monday Postmaster General Maynard issued an order to postmasters, which revokes that of ex-Postmaster General Key, of April, 1879. The new order compels the payment of first-class rates, three cents per half ounce, on all commercial documents which are either wholly or in part in writing.

The following is the text of the order referred to:

"It is ordered that section 232, postal regulations, be revoked, and in lieu thereof the following order is made:

"Mailable matter of the first class shall embrace all matter wholly or partially in writing, except as herein provided—Act of March 3, 1879, sec. 8, 20 stat., p. 358.

The exceptions are as follows:

"1. Corrected proof sheets and manuscript copy accompanying the same.—*Ibid*, sec. 17, p. 359.

"2. Date and name of the addressed and of the sender of the circulars and the correction of mere typographical errors therein.—*Ibid.*, sec. 19, p. 360.

"5. Upon matter of the third class, or upon the wrapper enclosing the same, the sender may write his own name or address, with the word 'from' above and preceding the same and in either case may make simple marks, intended to designate a word or passage of the text to which it is desired to call attention.—*Ibid.*

"6. There may be placed upon the cover or blank leaves of any book or of any printed matter of the third class, a simple manuscript dedication or inscription. Such dedication or inscription must be consigned to a simple address or consignment of such book or other printed matter, as a mark of respect, and must contain anything that partakes of the nature of a personal correspondence.—*Ibid.*

"7. Upon matter of the fourth class the sender may write his own name and address preceded by the word 'from' and also the number and names of the articles inclosed. He may also write upon or attach to any such article, by tag or label, a mark or number, name or letter for purposes of identification.—*Ibid.*"

Road Overseers.

We would call the attention of the road overseers to the following from the laws of 1880:

Be it enacted, etc. That in all townships in this State where the qualified voters of each road district for the time being are authorized to elect overseers of the highways for said districts respectively, such elections shall be held on the Thursday next succeeding the regular annual town meeting (March 10th, 1881) in each and every year, and the overseer in each road district shall set up two notices in writing in two public places in such road district of election of overseers, five days before the day herein fixed for such elections, and in case of the failure of any overseer to give such notice, then the township committee shall appoint some suitable person to fill any vacancy.

Tramps Elsewhere.

This is how the Warren county board of freeholders propose to treat their tramps, hereafter. They have had a private boarding house for them heretofore, but now that is abolished, and they have:

"*Resolved*, That the sheriff be authorized by this board of freeholders to purchase twenty-five cords of hickory or oak wood, or more if necessary to keep the tramps at work, and the same to be kept in the jail yard, together with the necessary amount of saws and sawbucks, and the said sheriff be further instructed that any able bodied tramp committed to said jail shall saw up said wood in lengths as the sheriff shall direct.

"*Resolved*, That each tramp committed shall be obliged to work by order of the Sheriff eight hours each day, (Sundays excepted), for the whole time said tramp or tramps shall be committed to said jail.

"*Resolved*, That the said wood, after being sawed up, shall be disposed of as the board of freeholders shall direct."

Death of John H. Lyon.

John H. Lyon, a well-known, highly respected, and prominent citizen of New Jersey, who from 1859 to 1875 was proprietor of the *American Standard*, a newspaper published in Jersey City, and who has been an active leader in the Democratic Party of New Jersey, and for the past three years a Director of the Easton and Amboy Railroad Company, died at his residence in Lyons, N. J., at 4 o'clock Sunday morning.

The offer of a desirable residence on Arlington avenue for those looking for a moderate priced house will be noticed among our advertisements.

WESTFIELD WISPS.

The elite of this place were favored on Thursday of last week, with the most elegant and refined affair in the way of matrimonial ceremonies that had ever honored the town. The parties entering upon the duties of connubial felicity were Mr. William Bloodgood and Miss Mamie E. Van Boskerck; and invitations to the hymeneal rites being only issued to the flower of Westfield's most select society, a gathering was brought together that testified most flatteringly the position among the town aristocracy possessed by the lady and gentleman principally concerned. Grace church was most beautifully and elaborately decorated for the occasion, including among the attractive features displayed a magnificent floral marriage-bell swung suspended from above. The ceremonies were performed by the Rev. Dr. Abercrombie assisted by the Rev. Dr. Drum the resident pastor. Four brides-maids and the necessary grooms-men were in attendance; the appointments being entirely after the English fashion, even to the wearing by the maids of brown kid gloves and black silk—but the innocent confidences of a trusting bride's maid should be held sacred. At the conclusion of the ceremonies, a reception was held at the residence of the bride's father, G. W. Van Boskerck, Esq., after which the newly wedded pair left for an extended trip to the South, which will undoubtedly include the inaugural ceremonies of President Garfield among its pleasures.

Miss Annie Brown, daughter of the late Joshua Brown, is happily recovering from the severe attack of typhoid fever under which she has lately been suffering.

Mr Ernest C. Webb left on Tuesday for Washington, ostensibly to attend the inauguration of our new president but in reality with an eye to the position of Attorney-General.

Mr. J. S. Irving has added steam-power to his sash, blind and moulding factory—the work being done in a most satisfactory manner by Mr. John N. Schenck of North Plainfield. Mr. Irving contemplates adding facilities for grist-milling to his already extensive business.

A dramatic entertainment will be given at Lyceum Hall on the 10th inst., the proceeds of which will be devoted to the purposes of the Village Improvement Committee. A three-act drama, "Dearer than Life," and the merry farce of "Box & Cox" will be presented by artists of commendable talent.

Mr. Jos. W. Connely, son of the Collector, has been lying very ill of typhoid fever but is slowly recovering.

Nineteen contestants for the "O'Leary belt" started off on a six-days-go-as-you-please walking match Monday morning last at the Madison Square Garden, New York. Among them were Hart the colored pedestrian, who now holds the belt, and Hughes, the "Lepper," who has the best record of all pedestrians (568 miles in 142 hours.) At the start, Hart was the favorite, but after making some 62 miles, with Hughes ahead at 80 miles, he retired from the race at 1:20 on Monday afternoon. At 9:45 Monday night Hughes also left the race, being used up.

De Forest Weld, the heaviest dry goods dealer in Northern Pennsylvania, failed on Tuesday.

"SPRING, spring, beautiful spring."

ANOTHER tracking snow last Tuesday morning.

VENOR is now short only three snow storms of the twenty-six prognosticated.

THUNDER and lightning on Monday, Feb. 28. Make a note of it for future reference.

A BILL has been introduced in the Legislature to disfranchise all who do not pay their poll tax.

AT the Methodist Episcopal church, next Sunday, Rev. J. L. Hurlbut will preach in the evening.

MESSRS. Lewis & Co. have opened a fish-stand in connection with their meat market on Park avenue.

THERE is much business for the Common Council to transact at its regular meeting, Monday evening.

REGULAR monthly meeting of the Saengerbund an annual election of its officers, on Monday evening next.

MESSRS. French Bros., at their mills on Somerset street, are offering baled hay in quantities and at prices to suit all.

ABOUT this season of the year the wearer of the ulster is thinking of "hawking" the same for his Spring suit.

MARCH came in like a lion and should go out like a lamb. Therefore be prepared to see the farmer plowing before April 1st.

ELECTION of two members of the Board of Fire Commissioners will be held April 11th. Messrs. Steiner and Mayer's terms of office expire.

THE many month's accumulation of dirt on Park avenue between Front street and the rail road, was partly removed on Tuesday last.

IT is a lie. The ice crop has not been nipped by the frost or injured by the ice-worm. The weight of the ice-tongs will be added to that of the ice as usual next Summer.

IT is almost completely assured that our public will again be allowed the rare and valued opportunity of listening to Prof. John Lord in one of his entertaining and instructive lectures.

DOES the city have to pay for the full quota of lamps whether they are lighted or not? Some of them (the one at the corner of Second street and Central ave. especially) are not lit for a week at a time.

ANOTHER interesting letter on the state of political affairs in Westfield, is published in another column. Our correspondent displays a remarkable insight regarding such matters in that locality.

MESSRS. G. & I. A. Smith of Easton, Pa., call the attention of the public, by means of our advertising columns, to the fine quality of "Easton" wood-burned ashes, agricultural lime and hard-wood ashes that they are manufacturing.

THE advertisement of Messrs. Carney Bros., which appears in this issue, will call to mind the fact that these reliable and experienced workmen are ready to fill all contracts for tinning and plumbing and to furnish everything in the line of household utensils, &c.

THE Lecture of Prof. Nathan Shepard on "Why did she marry him," attracted a large audience at Van Deventer Hall on Monday evening. It is satisfactory to learn that the Women's Christian Temperance Union is greatly benefited financially by means of the affair.

THE next concert of the Plainfield Vocal Society, will be entirely different in the style and character of music selected, from the late affair. Fewer glees will be rendered, and heavier (we trust not consequently depressing) compositions will occupy the larger part of the programme.

THE collection for Foreign Missions taken in the Trinity Reformed church last Sunday morning, amounted to the exceedingly satisfactory sum of $95.56. The Board of Missions which has been engaged in paying off a debt of $40,000 has, with the help of the churches, reduced such obligation to $5,000.

RUMORS are being circulated to the effect that the Church building on the corner of Second street and Central ave., is to be turned into a blacksmith shop and carriage factory. Another instance of the advance of business prosperity as shown by the encroachment of objectionable trades upon localities of private residence.

ATTENTION is directed to the advertisement in another column, offering for sale the Edwards' Farm, near Westfield. As a desirable residence for a gentleman of leisure, we know of no place, equalling it in the county. Mr. Edwards has expended a large sum in improving and beautifying the property, and will sell at a great sacrifice.

IN the Spring a farmer's fancy lightly turns to thoughts of crops, and in consequence the old reliable firm of C. O. Meeker & Co., of No. 18 East Front street, calls the attention of such to their large and varied assortment of plows and other agricultural implements. Call and inspect their unusually fine line of hardware and household utensils.

THEY are making thermometers nowadays so intensely scientific in their attachments that a man must possess an extensive education in mental philosophy to interpret their register. We are informed that the one owned by the Plainfield Pharmacy marked only 21½ above zero on Tuesday night. Our feelings told us differently, but we have no duplex attachment to record our fluctuations.

AN injunction was granted in the U. S. Circuit Court on Monday last, restraining Chas. Sebring, Jeremiah Manning and Isaac Melbourne against placing, driving, selling, renting, using or in any way handling through themselves or another party, a driven well. The defendants in the suits were not present—ex-Judge Runyon and W. L. Hetfield, Esq., appearing for the plaintiff, Wm. D. Nelson.

AT the next Sociable of the Fraternal Association of the Congregational church, to be held at the residence of Mr. S. C. Roney on Jackson avenue, all the friends of the members are cordially invited. These gatherings alternate with literary entertainments on the first and third Fridays of each month—notice of place being announced from the pulpit. The committee in charge, with the pastor, by reason of their experience in such affairs, assure a thoroughly enjoyable time.

THE bird moulting season is coming on. When your canaries are moulting and cease to sing, do this: Put a little oxide of iron (iron rust from the drug store,) or put a couple of lath nails in the water they drink, and take away their bath so they can't get any drink but their medicine. In another cup immerse a little saffron. The latter gives color to their incoming feathers. The iron braces their system while moulting. In a little while they will sing loud enough to cause the headache.

As the spring opens business revives and all lines of trade experience renewed life, especially after such a severe winter as is at present passing slowly away. Successful merchants understand the necessity of bringing their wares prominently before the public, all others should follow the example set and advertise extensively but judiciously. To do this advantageously no paper should be selected that does not combine a large circulation with an established character that gives respectability to its columns.

IN order to introduce the justly admired Champagnes of Jules Mumm & Co., to the public, Mr. E. P. Thorn agent for the wines in this section, advertises elsewhere remarkably low quotations up to May 1st.

THE kind thoughtfulness of ex-Street Commissioner Geo. M. Angleman, as shown by his gratuitous labor in removing the upper layer of dirt from North avenue in front of this office, is greatly appreciated.

FOR Butterick's celebrated paper patterns in large variety including the fashions of the coming Spring, we would advise our readers to patronize Mrs. A. B. Warner on Front street, two doors below the post office.

IT is reported that large quantities of ice coming down the Newark bay this (Thursday) morning, carried away some of the spiles of the C. R. R., bridge at Elizabethport. The accident caused the shifting of the up-track to such an extent, that only one (the down-track) is now in use.

THERE were no regular or special policemen on hand Tuesday last, when a recently discharged employee of Mr. Potter near Alton, made Front street a place of exhibition for his acrobatic, pugilistic and contortion feats. The neighborhood was kept in an unusual state of liveliness for many hours, until with the arriving assistance of Chief Dodd and the help of a wagon, the man was taken to the "City Jail." No charge being made he was subsequently released.

DESPITE the fact that a large number of extra copies of the CONSTITUTIONALIST, over its regular edition, were printed last week and the week before, the same were soon exhausted, and there has been repeated calls for copies of the paper since which we have been unable to furnish. The best plan is to subscribe for the paper, and then those desiring to read a full account of all local matters, are sure to get it regular.

THIS week, we commence the publication of the Laws of New Jersey passed by the present Legislature. As our regular Spring advertisers encroach on the space in our columns, thus excluding miscellaneous reading matter, we shall issue supplements, containing interesting reading. We would advise our readers to preserve the copies of THE CONSTITUTIONALIST containing the Laws, as they will find them of interest and value for future reference.

THE Congregational Society will resume its evening services in the Seventh Day Baptist church on next Sunday evening at 7:30 o'clock. At these meetings the Rev. Wm. Manchee will deliver a course of special addresses during the present month, on "The Secular Illustrations of Scriptural Truth;" the subject for the evening of the 6th inst., being "The Plays of Shakespeare, a guide to Christian Faith." The abilities of the speaker as a fluent and instructive lecturer, will undoubtedly bring together a large gathering of listeners.

The Ball of the Total Abstinents.

As the present season of various evening entertainments draws to a close, it is specially noticeable that the later pleasures are remarkably enjoyable. The T. A. B. ball at St. Mary's Hall on Thursday, followed on the Saengerbund Masquerade as comparatively successful in every particular. The Society had placed the arrangements for the affair into the hands of Messrs. P. W. McDonough, Peter Galbraith and John Motley, who displayed commendable ability in such direction, and by their efforts assured the unalloyed happiness of more than two hundred seekers after amusement and sociability. At about half-past nine o'clock—when the grand promenade, that is the customary prelude of such affairs, was started—the dancing floor was filled with guests and large numbers lined the walls and occupied every inch of standing room. The manager, Mr. Thos. Marley, and the Floor and Reception Committees composed of Messrs. M. Moore, Rob't Manning and P. Flynn, Jr., and Messrs. Edward Bermingham, and Alexander McGuigan, had their hands full in the procuring of partners for all, the formation of sets and the direction of everything in general. Their duties were arduous but most satisfactorily performed. Dance and after dance followed in a continuous succession, to the admirable music of Mr. John Cahill of Elizabeth, and assistants. The selection of melodies played comprised the latest airs of the day, and the well-judged time that was kept afforded perfect measure to the moving feet and forms.

The decorations of the hall were bright and fitting—including the flags of Ireland and America, and the elaborate banners of some of the Societies of the parish. A supper extended in its proportions and most satisfactory in its quality, was served during an intermission—thoroughly appreciated, it is needless to say, by all. This, and the other numerous attractions that were obtainable in the presence of pretty partners, postponed any cessation of happiness and merriment until morning. The ball, consequently, was not adjourned until daylight; and sleep, for those who attended, was more gratefully put off until the succeeding night. Father Morris, who was present, beamed with satisfaction upon his kind visage at the success of the temperance organization of his flock; while all expressed audibly the same sentiment of sincere approval of the affair.

More Honor to Our Firemen.

Succeeding the substantial expression of fraternal good-fellowship displayed toward the Alerts by the Hook and Ladder boys of Morristown, came a like sentiment of regard from the Niagara Eng. Co., of the same place for No. 2 of Plainfield, as shown by a presentation personally made by a committee of the former Eng. Co. on Thursday evening. At a little after seven o'clock a four-in-hand arrived in this city, conveying Foreman Miller and firemen Stalter, Carr, Clifton and Hess who had been delegated by the Niagara Engine Co., of Morristown to express to No. 2 Engine Co. of this city, their sincere friendship and a slight token of the same. The Plainfield laddies assembled in their handsome meeting room and there collectively received from the hands of ex-Foreman Sidney W. Stalter, a massively constructed silver water-pitcher, porcelain-lined and elaborately engraved, swinging in a stand of the same metal and accompanied by gold-lined goblets and drip-pan. On the front of the article was carved: "Presented by Niagara Fire Co. No. 2, of Morristown, N. J., to Plainfield Fire Co. No. 2, of Plainfield, N. J., Feb. 24th, 1881."

Acceptance was ably expressed by Chief Voorhees, as the mouth-piece of the receivers. A handsome photograph of the arch that was erected across Front Street upon the last occasion the Niagara's were entertained by No. 2, was then presented to the former's representative. The picture showed the Plainfield company and its steamer in full uniform, standing beneath the motto: "Plainfield 2 Welcomes Niagara 2 and Brother Firemen," draped with flags and flowers and spanning the entire street. Speeches followed from various members and officers of other companies, the President of the Fire Board and many prominent citizens. The apparatus room below was entirely cleared—the steamer and carriage being rolled outside—and a table extending its whole length and capable of seating over a hundred comfortably, was loaded with substantial and enjoyable refreshments. To this part of the ceremonies justice was undoubtedly accorded by the hungry party that sat down to the repast. The Morristown boys finally departed overfed with the bounty of Co. 2 and overladen with kind wishes and good words.

Jno. B. Gough.

Notwithstanding the fact that John B. Gough has been compelled to cancel many of his engagements, we are authorized by the Lecture Com. of the Y.M.C.A. to say that he will lecture in this city as announced. The sale of reserved seats will begin on Monday next, 7th inst., at Reynolds' Pharmacy.

Church of the Holy Cross.

Lenten Services will be held as follows: Monday, 10:30 a. m; Tuesday, 4 p. m; Wednesday, 8 p. m; Thursday, 4 p. m; Friday, 4 p. m. and Saturday, 4 p. m.

GRACE CHURCH.

Mondays and Saturdays at 4½ p. m. Tuesdays and Thursdays at 8 p. m. Wednesdays and Fridays at 12 m.

Real Estate Transfers.

The following is a list of the real estate transfers in this city, the deeds for which were filed for record in the County Clerk's office during the past week:

Wm. B. Stewart to Ann L. Stoothoff, consideration $1,600, property on Sixth street, Plainfield.

Wm. B. Stewart to Harriet M. E. Stewart, consideration nominal, property on Sixth street, Plainfield.

Isaac W. Pangborn, et ux., to Edward Rushmore, consideration $6,400, property on Cherry street, Plainfield.

Elizabeth Randall and husband to H. Markham, consideration nominal, property on Church street, Plainfield.

Seth B. Ryder, Sheriff, to Wm. Hetfield, consideration $2,581, property on Second street, Plainfield.

Personalia.

U. S. Senator Randolph will please accept our thanks for a copy of the "U. S. Fish Commission," for the year 1878.

We are glad to state that Mr. H. P. Reynolds is in a most satisfactorily convalescent condition.

Thanks to U. S. Senator McPherson for Congressional documents of interest and value.

Randolph Coles, an old and well-known resident on Mountain avenue, between Plainfield and Scotch Plains, died of consumption at his home on Wednesday morning last.

The many friends of Mrs. John R. Thomas, formerly Allie Johnson, daughter of Col. Chas. F. Johnson, of this city, will learn with surprise and regret of her decease, which event occurred on Wednesday morning last, at her home in New Brunswick, after undergoing a successful operation for the removal of a tumor. Her funeral ceremonies will be conducted from the 1st Pres. Church, this city, Saturday next, at 11 a. m.

Dr. Stillman's Patent Sulky.

Our townsman, Dr. Chas. F. Stillman, has been granted a patent for a trotting sulky of his own invention that seems destined to revolutionize the sport of racing in many ways. The principal improvement claimed for it is the peculiar distribution of the weight of the vehicle and the driver in relation to the horse. The hitching gear is the same as is customary, but the wheels are attached to the shafts some distance forward of the whiffletrees, thereby being on each side of the horse's body and the driver sitting consequently over the animal's flanks. The advantages claimed by reason of such peculiar construction are numerous. It is believed that the driver from his position will have unrestricted control of his horse's gait, while it is assured that the drag and swing of a sulky in turning short tracks will be entirely overcome. We learn that a company is being formed for its manufacture, in which several prominent owners of trotting stock are interested.

Fortunate Presence of Mind.

A little son between one and two years of age, of Mr. M. M. Dunham of Union street, was almost burned to death on Saturday afternoon last. The child on waking up from a nap, reached down some matches from a bureau and in playing with them set fire to the curtains and other easily inflammable material in the room. His father having occasion to go to the apartment found it full of smoke, which his presence of mind easily understood the reason of. Instantly closing the door to interrupt any draft, he tore up the carpet and smothered the conflagration. The child was found sitting in one corner of the room unhurt; Mr. Dunham, however, was burnt severely about the face and hands during his efforts to arrest the flames. A lamp that was in the room, was discovered broken into hundreds of pieces, but whether from explosion or being knocked over is not known. The mother and grandfather of the little one were sitting down stairs throughout the whole affair, ignorant of its occurrence until the father appeared carrying the boy and related what had happened. The damage to the walls and furniture of the room is naturally considered of no account in view of the saving of the little one's life.

The Illegal Liquor-Selling Case.

The case of the Treasurer of the City of Plainfield against Patrick J. Flanagan for alleged selling of spirituous and fermented liquors without a license, was opened before City Judge Runyon in the Council Chamber on Tuesday afternoon. It was expected that after the many adjournments that had been granted some settlement would be reached; and it is fair to suppose from the confidence shown by Mr. Geo. P. Suydam for the defendant, upon opening his argument to quash the proceedings, that he held the belief that the Court would rule in accordance with the views presented. That gentleman opened by attacking the validity of the ordinance, which he characterized as illegal and of no effect. He claimed that the charging of a license fee of $300 for saloons and $200 for inns and taverns, imposed a tax for revenue purposes, was in restraint of trade and unreasonable in amount. The charter, it was held, provided that $10,000 should be raised for the use of the city and expressly designated how it should be raised. It gave no power to obtain a greater revenue, by the taxation of any business, but merely allowed the imposition of a reasonable fee to regulate trade. It was also held that the complaint was wanting in its failure to specify the kind of liquor sold, when it was sold in a definite manner and by whom it was purchased. It being provided that one-half of the fine should go to the party making the complaint, the counsel held that it was necessary that the name of the complainant should appear in order that such provision might be carried out. By the absence of books of decision, references and authorities, it was plainly noticeable that the counsel for the corporation, Mr. Kimball, was unprepared for the motion of the defendant to throw out the case. Nevertheless in a fluent and terse manner, Mr. Kimball replied to the several points made, with most effective result. His arguments were most surprisingly forcible and met with the appreciative admiration of the listeners present, including the—more or less—bright and shining lights of the city's legal profession. So convincing was the reasoning presented, that the Court refused to grant a motion to quash on any of the points held, and ordered the trial to proceed. Messrs. Suydam & Jackson entered objection to the rulings and demanded that such be entered on the docket that they might be handed up if an appeal should become necessary.

It being too late on that day to summon a jury as demanded by the defendant's counsel, the case was adjourned until the 4th inst. at 10 a. m.

We would suggest in the event of County Collector Sheridan getting a judgment against the city, that that officer seize the "park" to satisfy his claim.

No Money to run the City.

The New Jersey Supreme Court in the case of County Collector Sheridan against City Treasurer VanWinkle, has rendered as its decision that the full quota of state and county taxes shall be paid over to the County Collector as fast as any money is received by the City Collector on account of any tax whatsoever—said payment to be made as provided by the Charter of Plainfield, through the Treasurer of the city. Following such decision a mandamus as published in full below, was issued and served upon Mr. VanWinkle last Friday.

Some peculiar features arise in connection with the case that further developements will possibly make understandable. A glance at such may be allowed at present, and the future course of events depended upon for a more intelligible exposition. Treasurer VanWinkle is strictly enjoined to immediately pay the balance due of state and county taxes ($9,295.05) although he does not collect, receive or control in any shape the slightest portion of such monies. The Court holds him thus responsible because the charter expressly states that the Collector of the County shall receive such taxes from the Treasurer; and although neither City Collector Clark nor his predecessor have ever followed the provision calling upon them to pay the monies received into the Treasurer's hands, but have always turned over the amounts collected of state and county taxes directly to the County Collector, yet the Treasurer only is recognized as derelict and at fault.

The great injustice to our city by this decision, is plainly apparent. It is ruled that the full amount of state and county taxes shall be paid as fast as any money is collected, although not one cent of such assessment should be received. As the total amount collected each year from every levy will not more than pay the quota insisted upon, there will not remain anything with which to pay the city's expenses.

One palpable misstatement included in the mandamus, puts Collector Sheridan in a very awkward position. The demand is made for a total of $12,550.31 "less the payments by him [the Treasurer] made on account thereof since" &c. "And it appearing by affidavit of said relator [the County Collector] the said payments and interest amount to" &c. Now as according to the facts and evidence the Treasurer never paid the Collector a cent, the Collector's affidavit is remarkable, at least, by reason of the words quoted above.

The future action of the parties interested, the city authorities opinion of the matter and the final settlement (if such is effected) will be looked for with great interest. The following is

THE ORDER OF THE COURT.

NEW JERSEY—ss.

The State of New Jersey to Jeremiah Van Winkle, Treasurer of the City of Plainfield, Greeting:

WHEREAS, On the sixth day of July, A. D. eighteen hundred and eighty, a rule to show cause was issued out of the Supreme Court of Judicature of said State on the relation of Patrick Sheridan, County Collector of the county of Union in said State, commanding Lewis E. Clark, Collector, and Jeremiah Van Winkle, Treasurer of the City of Plainfield, to show cause before me, the said Court, at the State House in the city of Trenton, on the first Tuesday in November then next why a peremptory mandamus should not be issued on the relation of the said Patrick Sheridan, County Collector as aforesaid, commanding them or either of them to pay to the said Patrick Sheridan, County Collector aforesaid, the arrears of State and County taxes required to be assessed in said city in and for the year eighteen hundred and seventy-eight, amounting it is alleged to the sum of two thousand two hundred and seventy-eight dollars and sixty-one cents, besides interest, and in and for the year eighteen hundred and seventy-nine and amounting to the sum of nine thousand and eight hundred and seven dollars and fifty cents, besides interest, and whereas said rule to show cause was duly argued [illegible] having considered and being of the opinion that the said relator is entitled to his writ of peremptory mandamus against the said Jeremiah Van Winkle, treasurer as aforesaid, for the above sum of two thousand and two hundred and seventy-eight dollars and sixty-one cents ($2,278.61), and nine thousand eight hundred and seven dollars and fifty cents ($9,807.50), with interest thereon from the first day of July eighteen hundred and eighty, making a total of twelve thousand five hundred and fifty dollars and thirty-one cents ($12,550.31), less the payment by him made on account thereof since July first A. D. eighteen hundred and eighty—and it appearing by affidavit by said relator that said payments and interest amount to the sum of three thousand two hundred and fifty-seven dollars and twenty-six cents, leaving a balance now due of nine thousand two hundred and ninety-five dollars and five cents ($9,295.05), and being willing that due and speedy justice should be done in this behalf command and strictly enjoin you the said Jeremiah Van Winkle, Treasurer as aforesaid, that immediately after the receipt of this writ you do pay to the said Patrick Sheridan, County Collector as aforesaid, the sum of nine thousand two hundred and ninety-five dollars and five cents (9,295.05), the arrears of State and County taxes aforesaid, and in no wise omit at your peril, and when you shall have executed this our command certify to our Justices of our Supreme Court of Judicature at Trenton on the first Tuesday of June next, together with this our writ.

Witness Mercer Beasley, Esq., Chief Justice of our Supreme Court at Trenton, aforesaid, this twenty-third day of February, A. D. eighteen hundred and eighty-one.

A Fatal Fault.

On this (Thursday) morning at about 4:45 o'clock, the Jersey City freight-train for that place (engine No. 75) jumped the track at the Broad street crossing just before reaching the Westfield depot. At the time the train was running at a speed of 25 miles an hour, and was thrown from the rails by reason of an open switch leading to the siding. The train preceding it was also a freight train, drawn by locomotive No. 116 in charge of engineer Arnold. It left a number of freight cars on the side track, so the fault of not closing the switch seems to belong to the employees of that train. Instantly upon leaving the track, No. 75 plunged down an embankment of about 10 feet in height, ploughing up the ground generally and turning over on her side. In her cab were Conductor Wm. Staples who was somewhat cut on the head, Fireman Colbraith who was injured slightly about the knees and Engineer James Kinsman who was crushed and buried beneath the whole weight of his locomotive. Much difficulty was experienced in getting the latter's body from the ruins; the ground beneath had to be dug away before the dead man was found frightfully mangled and with his hand on the throttle. His companions who escaped the same fate are unable to tell how their lives were spared. Brakeman Wm. Cole was on car 522 which was forced on top of car 1088, in which elevated position it stood on end. He held on to the brake when the accident occured, and found himself in a few seconds swinging in the air by his hands. Engines Nos. 30 and 196 of the C. R. R., and No. 413 of the P. & R., arrived with their crews to clear the way. The first train passing over the side track was No. 413 with coal cars, at 10:22 a. m. to-day (Thursday). Much damage was done to the road's rolling stock by the occurrence—the cab of the engine leaving the track, being entirely destroyed, with the exception of the fireman's seat. The train was loaded with barrels of eggs, boxes of shad on ice and other perishable freight, which was scattered promiscuously around. Detectives Dodd, Marsh and Breen were placed in charge of the property.

The dead engineer, Kinsman, has been on the road for fourteen years and was considered one of its most faithful and efficient servants. He has never before had an accident happen to a train in his hands. He leaves a wife and five children at his late home in Elizabethport.

FIRE MATTERS.

The regular monthly meeting of the Board of Commissioners was called to order by President VanWinkle on Wednesday evening. Present: Morris, Mayer, Jones, Steiner and VanWinkle. Absent: Depew. Minutes of last meeting read and approved. The Com., on Wells reported one or two as short of water. The Chief Engineer, recommended that $5000 insurance be placed on each of the houses and apparatus of No's 1 and 2 Eng. Co's. Propositions from several fire assurance companies were read, offering to assume risks on the department's property at divers rates up to 80 cents per hundred dollars, net premium for three years. On motion it was resolved to place the insurance in the Liverpool, London & Globe—its rate of 44½ cents being the lowest quoted. Alert Hose Co., handed in the names for qualification of I. J. Mulford, O. T. Waring, W. S. Darling, F. E. Dickenson, A. H. Smith, T. A. Seguelin, Benj. R. Rabes and Mr. Martin. Laid over as customary. The following bills were ordered paid: F. A. Dunham, $30; S. T. Vernon, $4.75; Jewett & Co., $1.00. The bills of Mr. J. F. Hubbard for assessing fire tax for the years 1878, '79 and '80 at eight cents per name, amounting respectively to $125.32, $128.34 and $124.20, were referred to the Treasurer for examination. A communication was read from Messrs. Schepflin, Baldwin, Tweedy & Co., calling the attention of the Board to the fact that, by reason of the breaking of the dam at Sylvan Lake, water for use in case of a fire in the neighborhood was unobtainable and greater protection for property in the vicinity of the brook was necessary in that particular. A letter from Mr. A. Winter of the same firm, accompanied the above communication, stating that upon a personal examination he found insufficient depth in the present channel to cover the suction baskets, and suggested means whereby to overcome the present need that otherwise would subsequently become greater. The matter was referred to the Com. on Wells and the President, for their opinion as to its remedy. A resolution from No. 2 Eng. Co., requesting the Board to have a new lock placed on their house door, and four dozen keys procured, was referred to the Com., on Repairs and Supplies for its decision as to the necessity of such action. The President was empowered to act in relation to a resolution from the same company, asking some mode be decided on allowing of the tolling of the fire-bell during the funeral of a member of the company, should such occasion arise. The motion presented at a previous meeting by the Secretary, amending the Rules and Regulations to allow the appointment of the Chief Engineer by the Board instead of his election by the members of the several companies, was laid over at the mover's request that no vote should be taken on it except at a full meeting. The Secretary was instructed to examine the past actions of previous Boards, to discover if any rule had ever been adopted or followed in relation to the Board's rejection of a company's officers after their election. The offer of $200 for the truck of Zephyr H. & L. Co., was laid on the table. A communication from this organization in relation to its expulsion of three members for non-payment of dues and fines, which communication had been returned previously for a more full and explicit statement of their action, was read and after corrections and amendments by the Secretary of the company and commissioners Morris and Van Winkle, was laid over for thirty days before an endorsement of the action. Plans for a new truck and specifications of its construction and attachments were laid before the Board by the Spawn & Dennison Manufacturing Co., of N. Y. city. It was proposed to furnish the whole for $1,200, and an allowance to be granted of $300 for the old truck and two additional extinguishers for the old hand-engine. A little figuring showed that the repairs necessary to be made in order to put the present truck in working shape would cost about $75 for new wheels, $156 for new ladders and $100 for incidentals. The matter was laid over. The Alert Hose Co., through its foreman, Mr. Auguste Saltzman, offered the use of its parlors to the Board for the holding of special meetings. A vote of thanks was tendered and the offer accepted. It was resolved that the election of members to fill the vacancies occuring upon the expiration of the terms of officers of Messrs. Steiner and Mayer, be held at Laing's Hall on Monday the 11th of April, from 2 to 7 p. m. The Secretary was requested to notify the Treasurer to have the necessary notice posted and advertised as required. Messrs. Van Winkle and Morris were appointed a committee to audit the Treasurer's account to be presented at the next meeting. The Board then adjourned.

The alarm of fire in this city on Wednesday night of last week, was caused by the reflection from a burning barn, belonging to a Mr. Ash, near Metuchen, on the Plainfield road. Tramps caused it.

Last Wednesday evening, a committee from Zephyr H. & L. Co. No. 1 presented an engrossed set of resolutions of condolence to the family of the late George Miller. The resolutions were published in full in our last week's issue.

COMMUNICATED.

For "The Constitutionalist."

MESSRS. EDITORS:—I saw in your last issue a communication signed "Free Lance," stating that I was a candidate for the nomination for Freeholder for the Township of Westfield. I beg leave to say in answer that I am not a candidate for Freeholder or any other office in the gift of the people of Westfield. My desire at present is to sell my residence in Westfield, with a view of making Plainfield my future home.

I remain,
Your Obedient Servant,
ROBERT M. FAIRBAIRN.

Street Lights!

MESSRS. EDITORS:—

It is hoped that the Plainfield Gas Light Co. will not impose upon the tax-payers of Plainfield, the payment for lights during the last few months—including February and a part of March thus far—the charge of full service; as during that time a large number of the lamps of the Gas Company have not been lighted at times when the public necessity required it.

It is further hoped that our Common Council, who have been honored by the people of Plainfield by electing them, will *not see* their way clear to pay out of the public treasury, monies to the "Plainfield Gas Light Co.," for the lighting of our streets, for which adequate service has not been rendered.

We think the Common Council would do well to comply with an ordinance now on the "ordinance book" which makes it mandatory upon them to advertise for proposals for lighting our streets with gas, oil, or other material; instead of making *private* arrangements with the said gas company for the largest proportion of said public service.

The Globe Gaslight Co. are lighting a small portion of our city with great satisfaction to our tax payers—at a less cost to them than the Plainfield Gaslight Co. charges—and their lamps burn *all night*, instead of being turned off at 10 o'clock or sooner as often is the case, as citizens have observed, and complained of, with regard to the gas lamps.

The ordinance above referred to ought to be observed, and the Common Council are expected to comply with its requirements, which has not been done since 1878.

PRO BONO PUBLICO.

[From an Occasional Correspondent.]

"Politics at Westfield."—2d Edition.

The efforts of your correspondent to enlighten the citizens of Westfield by furnishing for publication the latest items regarding the political situation, seems to have resulted only in bringing a veritable "hornet's nest" around his or her head, and if my application of the term *fever heat* as being descriptive of the political canvass here in my last was correct, what heat would be a better description of the condition of the public mind since the arrival of THE CONSTITUTIONALIST of Friday last. Your correspondent could have been readily recognized by his composition to judge by conversations over-heard; his or her fate might be obliged to record the operation of lynch law in this law-abiding community; while no one seemed prepared to contradict the truth of your correspondent's deductions, many felt neglected, and to those to whom full notice had been accorded, the truth did not seem altogether satisfactory. Freeholder James L. Miller deemed the remarks regarding his contest in last Spring's election, and for Assembly delegates last Fall, as unfair. Why? Allow that the delegation admitted to seats in the Assembly Convention were his, it certainly does not follow that they were admitted without a contest; a contest is all that is charged, and coming from the candidate's own home bears all the more severely upon his case. The majority received by Mr. Miller in last Spring's election, in comparison with the others on the ticket is sufficient proof of an opposition then. The merest amateur in politics must know that a contest of this nature means at least opposition to the claims of one man in his own party. Mr. Miller's renomination seems an assured fact, (as this bring's him directly before the people, they can most assuredly be relied upon to decide as to his abilities and past conduct of the office.)

Mr. Geo. A. Bayard, mentioned as a probable contestant for this honor, dislikes being called a young citizen, upon the ground that this is no way bears upon the question of his ability to fill the office to the satisfaction of all concerned; certainly not, but the appellation is not a misnomer, however, as since my last, Mr. Bayard has advanced, by popular approval, from a probable to an almost certain candidate; the good or injury done by the use of the expression, "young citizen," is a question of the future. I regard Mr. Bayard as not only an entirely acceptable candidate, but as the strongest possible nominee of his party—one who can not only be relied upon to poll the strength of his own party vote, but one who will show a poll not confined in any sense to party lines. So far all the candidates mentioned in my last, continue in the field, and additions are made daily. Mr. S. S. Mapes is mentioned as a possible Democratic nominee for Freeholder; as the Pres. of the Democratic Association, this gentleman has certainly done good work for his party, and is in every way fitted to fill the position acceptably, if elected.

There is some talk of advancing John M. C. Marsh, the present, Democratic Assessor, to the position of Collector, and placing Chas. E. Clark in nomination for assessor; this would make a strong combination, but its success would depend entirely upon the character of the ticket nominated by the other side; it would seem, however, that this change would require a strong ticket from the opposition to defeat, and in that case the citizens could safely rely upon securing good officers by the success of either party. Mr. W. W. Connoly still seems the only probable nominee for Collector on the Republican side, and unless confronted by a very strong opposition, his election is almost certain; but as no candidate is certainly mentioned on the other side, I cannot judge of the matter until the tickets are in the field. Mr. Luther M. Whitaker is still the most probable nominee for Town Clerk on the Republican side, and will make a very strong candidate; his most formidable opponent would be the present encumbent, Mr. Clark. You will undoubtedly be favored with communications from the anxious regarding the questions I dealt with in my last; their publication will lead to a more full public knowledge of the questions discussed, and will so far be beneficial. The primaries of both parties will probably be held on Saturday night next; until then imagine the anxiety of those concerned.

RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a VIOLENT BLEEDING OF THE LUNGS followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and today I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work." Sold by druggists. 1 3

HURRAH FOR OUR SIDE.

Many people have lost their interest in politics and in amusements because they are so out of sorts and run down that they cannot enjoy anything. If such persons would only be wise enough to try that celebrated remedy, Kidney-Wort and experience its tonic and renovating effects they would soon be hurrahing with the loudest. In either dry or liquid form it is a perfect remedy for torpid liver, kidneys or bowels.—*Exchange.*

ANOTHER CANDIDATE.

By a large majority the people of the United States have declared their faith in Kidney-Wort as a remedy for all the diseases of the kidneys and liver, some, however, have disliked the trouble of preparing it from the dry form. For such a new candidate appears in the shape of Kidney-Wort in Liquid Form. It is very concentrated, is easily taken and is equally efficient as the dry. Try it.—*Louisville Post.*

It is earnestly requested by many citizens that the following Ordinance will be passed by the Common Council:

AN ORDINANCE.

Be it enacted by the Common Council of the city of Plainfield in lawful session met, and hereby enacted by the same, that its members heretofore and forever shall be authorized to purchase such articles of toilet and medicinal preparations as they need, at the Drug Store of Mr. Anthony Kilgore, situated at No. 20 East Front Street, under VanDeventer Hall.

SEC. 1. That before and after the passage of this act, it shall be the duty of all members of this body to procure at the before-mentioned establishment a bottle of Kilgore's Cough Cure, and forever after abstain from disturbing the meetings of the Council by coughing, hacking and sneezing.

SEC. 2. That when any member desires to buy a tooth or hair brush for the use of himself, his family, or his sister, or his cousin, or his aunt, he is hereby advised to select the same from the large variety and great stock to be found at the store of Mr. Kilgore at the place mentioned above.

SEC. 3. That no matter what family physician may be employed by a member of the Council, it shall under every consideration be the duty of each member to have any and all prescriptions compounded at Kilgore's pharmacy, as it is the desire of this Council to perpetuate its existence by the use of carefully prepared medicines.

SEC. 4. That every member shall be required, within ten (10) days after the publication of this act, to call at the store of Mr. Anthony Kilgore, and make a personal inspection of the department of perfumes, soaps, patent medicines and other articles contained in stock, and to immediately instruct his family, his heirs, his assigns, his man servant, his maid servant and the stranger within his gates, to purchase their needs and wants at that establishment and forever after hold their peace.

SEC. 5. Any member who shall violate or fail to comply with any provision of this act shall be deemed guilty of a nolle pros and upon the procurement of a habeas corpus shall be fined not less than two hundred dollars nor more than fifty cents for each and every offence: one-half of such fine when collected to be paid to Mr. Kilgore, one-half to be devoted to the aid of Charley Ross and the remainder to be equally divided among the members of the Council with the exception of the accused.

SEC. 6. All acts or parts of acts inconsistent with this act, are hereby repealed.

And be it enacted that this act shall be a public act and take effect immediately.

HOW TO SPOIL A CHILD.

Begin young to give him what he cries for.

Talk freely before the child about his smartness as incomparable.

Tell him that he is too much for you, that you can do nothing with him.

Have divided counsels as between father and mother.

Let him learn to regard his father as a creature of unlimited power, capricious and tyrannical.

Let him learn from his father's example, to despise his mother.

Do not know or care who his companions may be.

Let him read whatever he likes.

Let the child, whether boy or girl, rove the streets in the evenings—a good school for both sexes.

Devote yourself to making money, remembering that wealth is a better legacy for your child than principles in the heart and habits in life; and let him have plenty of money to spend.

Strain at a gnat and swallow a camel; chastise severely for a foible and laugh at a vice.

Let him run about from church, Electicism in religion is the order of the day.

These rules are not untried. Many parents having tried them, with substantial uniformity of results. If a faithful observance of them does not spoil your child, you will at least have the comfortable reflection that you have done what you could.

CHARCOAL.

Who knows the uses of charcoal? I have no doubt that many of you know it is is very handy to use in kindling a coal fire, but do you know its other uses?

Are you aware that a little of it pulverized and mixed into a poultice of any sort will effectually prevent the growth of proud flesh in a wound, allay the irritation and itching that often accompanies the healing, reduce the inflammation and greatly assist in the healing?

Do you know that if pulverized and mixed with the white of an egg, or even mixed in water and drank, a little of it will quickly relieve sour stomach and dyspepsia, and usually check a light attack of diarrhoea?

It will do all this for man or beast. Do you know that a lump of charcoal put in a pot where you are boiling cabbage, onions or strongly flavored meat, will prevent the scent itself from penetrating the whole house? A lady of my acquaintance was lamenting that she could not indulge in her favorite vegetable as often as she would like because she did not like to have her whole house flavored with it for a week afterward. I told her of this, and now she feasts as often as she likes without incommoding the other inmates of the house.

Do you know that you may keep a fowl or a piece of fresh meat sweet almost as long as you please by putting a lump of charcoal inside it (wrap it up in cloth if you wish) and then wrapping it in cloth and putting it upon a pan of charcoal?

CRIMES AND ACCIDENTS.

Any Fool can Destroy—Only the Man with Valuable Material can Save—Reader, take Warning Before it is too Late.

The summer of 1880 contributed largely to the records of disaster and death. Stupidity, ignorance and carelessness can take life; any fool can destroy. But the ability to restore, to crush disease, to make life worth having is the joint product of nature and education. For this reason Dr. David Kennedy, of Rondout, N. Y., has come to be both proud and thankful that his name is gratefully mentioned by so many whom he has healed or helped. "Kennedy's Favorite Remedy" has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. "Favorite Remedy" steps in at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaint, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear, "Kennedy's Favorite Remedy" has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. "Favorite Remedy" is economical, safe and pleasant. Buy it and try it; or, if you need advice as well, write to Dr. Kennedy, who is in active practice as a surgeon and physician at Rondout, N. Y. "Dr. Kennedy's Favorite Remedy" for sale by all druggists. mte4

HEADACHE

For Catarrh, Hay Fever, Cold in the Head, &c., insert with little finger, a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing, and healing the diseased membrane.

For Deafness, occasionally apply a particle into and back of the ear, rubbing in thoroughly.

ELY'S CREAM BALM

Is receiving the endorsement of the sufferer, the druggist and physician. Never has an article of so much merit been produced for the treatment of membranal diseases as this never-failing BALM, and is universally acknowledged as being all that is claimed for it. The application is easy and pleasant, causing no pain, is soothing, and is fast superseding the use of powders, liquids and snuffs. Price 50 cents. On receipt of 50 cents will mail a package free. Send for circular, with full information.

TOLU ROCK AND RYE

For COUGHS, COLDS, SORE THROAT, BRONCHITIS, ASTHMA, PNEUMONIA, CONSUMPTION, and all Diseases of the THROAT, CHEST and LUNGS.

BALSAM OF TOLU Has always been one of the most important weapons wielded by the MEDICAL FACULTY against the encroachments of COUGHS, COLDS, BRONCHITIS, ASTHMA, SORE THROAT, CONSUMPTION in its incipient and advanced stages and all diseases of the THROAT, CHEST and LUNGS, but it has never been so advantageously compounded as in the celebrated TOLU, ROCK and RYE. In addition to its soothing Balsamic properties, it affords a diffusive stimulant and tonic, to build up the System after the cough has been relieved.

Over 1,000,000 Bottles Consumed Annually.

Extract from Report of Com'r of Internal Revenue.

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE,
Washington, D. C., January 26, 1880.

Messrs. LAWRENCE & MARTIN, Chicago, Ill.

GENTLEMEN:—This compound (TOLU, ROCK and RYE), compounded according to the formula, has a sufficient quantity of the BALSAM of TOLU to give it all the advantages ascribed to [illegible] a Medicinal Preparation [illegible] and [illegible] may be sold by Druggists, Apothecaries and other Persons without being SUBJECT TO PAY SPECIAL TAX as liquor dealers.

Yours Respectfully,
(Signed) GREEN B. RAUM, Commissioner of Internal Revenue.

CAUTION! Don't be deceived by unprincipled dealers who try to palm off upon you Rock and Rye in place of our TOLU, ROCK and RYE, which is the ONLY MEDICATED article made, the genuine having the signature LAWRENCE & MARTIN on the Proprietary Government Stamp on each bottle.

PUT UP IN QUART SIZE BOTTLES FOR FAMILY USE.

LAWRENCE & MARTIN, Prop'rs, Chicago, Ill., and No. 6 Barclay Street, New York.

KINGSFORD'S
OSWEGO
CORN
STARCH
SILVER GLOSS
STARCH
OSWEGO N.Y.

AND SILVER GLOSS STARCH

For the Laundry, is the best and most economical in the world. Is perfectly pure, free from Acids and other foreign substances that injure Linen. Is stronger than any other, requiring much less quantity in using. Is uniform, stiffens and finishes work always the same. Kingsford's Pulverized Corn Starch for Puddings, Blanc-Mange, Cake, &c., is pure and delicate. Preferable to Bermuda Arrow-root.

T. KINGSFORD & SON, Oswego, New York.

LEGAL NOTICES.

IN CHANCERY OF NEW JERSEY.

To William Harmon Brown and Sarah J. Lewis:

By virtue of an order of the Court of Chancery of New Jersey made on the day of the date hereof, in a cause wherein William C. Stanbery is complainant and you and others are defendants, you are required to appear and plead, answer or demur to the bill of said complainant on or before the Twenty-[illegible] day of March next, or the said bill will be taken as confessed against you.

The said bill is filed to foreclose a mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbery, on lands in the city of Plainfield, in Union County, N. J., dated July 13, A. D. 1878. And also to foreclose a certain other mortgage given as collateral to the first described mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbery, on certain lands in the city of Plainfield, in the County and State aforesaid, dated July 13, A. D. 1878.

And you William Harmon Brown are made defendant, because you hold a mortgage on the lands described in the mortgage first above described.

And you Sarah J. Lewis are made defendant, because you hold a mortgage on the lands described in said collateral mortgage.

VAN WINKLE & MAXSON,

POETRY.

For "The Constitutionalist."

TRUE LENT.

Is this a fast—to keep
The larder lean,
And clean
From fat of veals and sheep?

Is it to quit the dish
Of flesh, yet still
To fill
The platter high with fish?

Is it to fast an hour—
Or ragged go—
Or show
A downcast look, and sour?

No! 'tis a fast to dole
Thy sheaf of wheat,
And meat,
Unto the hungry soul.

It is to fast from strife
From old debate
And hate—
To circumcise thy life.

To show a heart grief-rent
To starve thy sin,
Not bin;
And that's to keep thy Lent.

MISCELLANEOUS READING.

TOM BOLLIVAR'S WIFE.

Somebody knocked at the door. And such a night as it was!—the snow and the wind making it dreadful to think of while you sat beside a roaring fire, let alone being out on the dismal flat where the little house braved the fury of the elemental war. It was quiet inside, the loudest sound being the moan of the wind and the hiss of the feathery snow-flakes falling down the wide-mouthed chimney to the flaring logs below.

A woman was sitting by those flaring logs, mending a little child's frock. The six little shoes, in various worn stages, placed before the fire, told a story that oftentimes louder noises than the moan of the wind and the hiss of lost snow-flakes on the fire disturbed the room. Sitting there, sewing, and with a woman's mind far away from what she was busy at, and yet tied all the stronger here by reason of her wandering thoughts, the woman started—somebody knocked at the door.

She arose hurriedly, suppressing a cry, and unlocked and flung the door open. A man's voice in the snowy darkness said, harshly:

"Where do Tom Bollivar's wife live at—here?"

"Yes," she answered, her hand upon her heart, her eyes peering out in the night, "I am Tom Bollivar's wife; what do you want of me?"

"Lass, will you ask me in? I've news of Tom."

"You have! Come in, sailor, and tell me what you know."

Into the light and warmth stepped a rough, brawny fellow, dressed in the slipshod manner of a sailor upon shore. He shook the snow from his shaggy coat and his beard. Slapping his slouch hat upon his knees, and looking fiercely down into the little woman's face all the time, as though to intimidate her. She returned the look with an odd expression—not frightened, but startled, bewildered—the look that had come in her face when she opened the door and peered out at the man: then from the bewildered look another came, one of understanding, comprehension, and she said to him, calmly:

"Sit by the fire; you must be chilled through this gruesome night."

The startled look seemed to have flown from her face to his, but he said, more harshly:

"I am chilled through, Tom Bollivar's wife, and that ain't no lie, 'cordin' to Scripter. Are ye all alone here, woman?" and glanced about him.

"No," she said, pointing to the six worn little shoes. The man looked at them, and then turned his face away from her for an instant.

"Now, sailor," she said, "what's this great news o' yours?"

"Ain't ye afeared o' me, ye a lone woman?"

"Bosh! Tell me the news!"

"Tom Bollivar's wife, ye flustrate me. But it's right ye ain't afeared o' me—why should ye be? I—I kinder thought ye might be, though. But—I'm a rough sailor, and—"

"Oh, pshaw! hurry up with the news."

"I—I don't know how to commence the yarn, wi' you a settin' there so unskeered."

"Oh, it is a yarn, eh? Well, wait, sailor, till I put some wood on the fire—then fire away."

She put the wood on, sat down on the stool in the red light of the blaze and took up the little frock again.

"Now," she said, "I'm ready."

The man had his mouth open. Despite his bronzed skin and the fire from the logs, something else sent that flush over his face that now suffused it.

"Be'nt ye a little nervous, anyways?" he asked.

"Oh, my, no; not at all! I'm steady enough to count the threads while I stitch this band of our Susy's frock. Nervous! Me? Oh, dear!"

"Tom Bollivar's wife, I've that to tell as'll not make ye brag o' bein' steady. Tom Bollivar's been gone three year and over, eh?"

"If you know it, sailor, why do you ask me for? Don't you suppose I can count the months that make three years?"

"When did ye hear from Tom last?" He gulped, and his eyes were wrathy.

"Six months ago," she said, easily; "he was sailing for Madagascar, and hadn't time to say much."

"Tom Bollivar's wife," said the man, solemnly, and suppressing his strange anger, "ye'll not be likely to hear from him agin in a hurry; he won't write soon."

"I expect not. There ain't much use o' him writing, anyway, seeing I can't answer, not knowing if I'd send my letters to sea that they'd find him."

"Lass, he'll never write agin no more. Tom won't. There, now!"

"That's a pity for Tom," she said, biting off her thread, "for he always liked to write a bit about the children. Oh, dear!"

The man looked at her in blank amazement.

"Tom Bollivar's wife, I think I'll commence that there yarn I promised."

"Lor', sailor; you don't mean to say you ain't begun yet? What a tedious one you can be, to be sure! Bless my heart!"

Again the man gulped and gritted his teeth. He went on, madly:

"Ye know, six months ago, Tom he sailed around Madagascar, don't ye? Well, I was along wi' Tom, I was. Me an' him we was chums; whatsomever he done, that there done I; wheresomever he went, theresomever went I; whensomever he writ to ye, I seen that there letter, true as Gospel. When he was a-thinkin' o' ye, I knowed it. But there's storms at sea, lass—oh, sich storms! Why, this here storm outside is a baby squall compared wi' them there at sea, wi' creakin' an groanin,' and cussin' and orderin', and—there's storms as makes ye think o' home an' your wife an' babies, an' to look up in the face o' the angry sky an' try to spy out the pityin' face o' Jesus Christ as walked on the waters an' told them waves to be still; storms as makes ye look up at that sky that seems to be fightin' wi' the mad sea that rises up to clinch with it, and falls back all shattered and broke; there's storms as makes a sailor's heart cry for the help o' God for them as he loves, even if the help don't save his own life. Who knowed more about storms nor me an' Tom Bollivar? We'd follered the sea high on to twenty year, an' never separated. I can't tell ye, for ye'll feel that bad."

"No, I won't, sailor; upon my word I won't, I like it—I like to hear you talk; it sounds old-fashioned."

"Old-fashioned?"

"Yes; Tom used to sit where you sit, and I sitting in this blessed identical spot, sewing as I do now, and he'd tell his awful yarns and try to make me believe them. You see, I don't swallow all I hear."

"Ye don't think I'm a-deceivin' ye, do ye?"

"I don't think much about it, so you needn't have that in your noddle. Go on, do; for mercy's sake what ails the man?"

Such a look as he gave her!

"Well, there comes a storm one day, and the skipper he comes to us and says, says he: 'It's all up with us, as ye see. Try to save yourselves.' The ship had sprung a-leak, the whole side was stove in on a rock, and the pumps was no use, and we was a-goin' down, and—oh, Tom Bollivar's wife, how kin I say it!—your husband he wouldn't desert that there ship as he'd knowed, man and boy, since him and the ship was both young."

"That's right in him," she said, shaking her head and settling herself on the stool, a light in her eyes; "that's right in him. I wouldn't own Tom Bollivar if he'd forsook his work because it got troublesome."

"Yes—but, lass, Tom he was aboard till the last two timbers hung together. He wouldn't go. He got the others off and helped with the cargo; but there he stayed, a-lookin' out in the direction o' his home, and a-thinkin' o' ye and the babbies."

"True for you, sailor," she said, her voice tremulous and almost glad, "and good for Tom Bollivar."

"But why don't ye get flustrated? Didn't ye keer nothin' 'bout Tom? Why don't ye get into a reg'lar terror?"

"Oh, I'll get all that way after a bit."

Again that dreadful look at her.

"Then ye didn't keer nothin' for Tom?"

"Now, look here, sailor," she said, "you know Tom powerful well you say. Didn't Tom ever know of the time and time again when I've sat here all alone through the night, after I've tucked the children up in bed, and staid at the window looking out at the raving storm, thinking of my husband? Didn't he ever know at such times that my heart went away over the cruel sea hunting for him—went further than the sea, up to heaven to Him that holds the sea and the storm in the hollow of His hand? Didn't he ever know how I treasured up every hope, every dream of him, every word he'd ever said—that I searched the children's faces day after day, seeing his likeness there, so that I'd never forget his looks and should know him always, no matter when or how I met him? And didn't he know how, when I was tenderer for him than usual, and wanted him more than usual, I'd go to the children and cry, 'Babies, babies, wake with mammy and pray for daddy on the wild, wild seas?'—and how I'd fix their hands, and how we four would kneel down and say, 'Our Father,' and feel sure that the Lord knew what we were asking for and would answer our prayer? Didn't Tom ever know how I must have counted days, then weeks, then months and at last years, wanting him, waiting, watching for him, ever true in word and thought? Couldn't he tell you that he guessed I loved all sailors for his sake, and that I pitied lonely ones that came to port here and who made friends with me? For I've gone to them and I've said, 'Cheer up, my lads! I'm Tom Bollivar's wife, and he's on the briny deep. Let me help you all I can; if you're sick, or lonesome, or want little jobs of woman's work done for you, why, come to me. I'm Tom Bollivar's wife, and he's on the briny deep?' And how often and often has this room been crowded with sailor men! And how they've kissed the children, in case they'd pass Tom's ship, they said, and would seem to take the kisses to him; or they'd kiss 'em because they had little ones of their own far away who must be looking out to see and thinking of their daddies. And I've helped 'em all I could—indeed, indeed I have; and me and the children, why, we've gone down to see their ships off, and I've made the children wave their hands and say, 'Good-by!' right loud, and the men have called, 'Three cheers and a tiger for Tom Bollivar's wife,' and 'God care for the babies!' And I've done all this for love of Tom? And you don't say that he ever thought of that, only that I don't care for him. If he didn't know me without words, then he didn't love me as I always thought he did."

And she wiped her eyes on the frock she was mending. The man looked at her for a minute, seemed to hold back something he was about to say, put his hands nervously in his pockets and went on:

"Well, lass, yes, he knowed it. He thought he knowed it for a truth, but—and now comes the all-firedest awful part o' this here Gospel-truth yarn."

"Yes, sailor."

"Well—now don't ye cry out, an' don't ye flop down—but Tom Bollivar he won't never, never come home no more."

She smiled up in his face.

"Why?" she simply asked.

"Because—he's drownded dead," he replied.

"I don't believe it, sailor."

"But I was wi' him all the time, I orter know."

"Then why wasn't you drowned, too? If you thought so much of him as you say, why didn't you drown trying to save him, if nothing else?"

"I—I—well, I was washed ashore. But poor Tom!—oh, lor'! poor Tom, he's went."

"Oh, dear, if that's the case, I might as well make up my mind to be a widow."

"I rather think so. Well—why don't ye get flustrated, Widder Bollivar?" cried the man, aghast; "ye promised that, anyways."

"I'll get that way after a while, sailor."

"But I tell ye, Tom Bollivar ain't no more; he's drownded dead, him that was your husband."

"Well, I can't help it, can I? I didn't drown him, did I? I'm a widow, ain't I? Now I'll tell you what I think about it. You see, sailor, I can't live here all alone, now, can I?"

"What do ye mean, Widder Bollivar?"

"That's it—that's right—I'm Widow Bollivar. But I mustn't be Widow Bollivar all my life, so I must get married."

"*Married!* My God! woman, your husband he ain't cold yet."

"I can't wait until I'm cold because you say he ain't quite cold yet, can I?"

"Do you mean to say ye don't love him?"

"It would be foolish to love a dead man and yet marry a live one."

"Who—who'll have ye for a wife when they knows all I knows? Widder, I'll tell the whole town, I'll put ye in the 'log'—I mean the papers."

"Bosh, sailor, that's nonsense. Who'll have me? Why, you will, sailor; I know you will."

"Git out o' my way, Tom Bollivar's wife. Me have you? Lord! I thought I'd find you crazy mad at the idee o' him bein' dead and layin' rollin' around wi' the sharks an' sich in Davy Jones's locker. An' now to hear ye! Oh, woman, woman, ye don't know what ye've done! I'll go back to my ship; I'll hate all women for your sake; I'll never tell 'em I—"

"Sailor, you shall have me now."

"Let me out of this here blasted house!"

"Sailor, I'll lock the door. You shall not leave this room till you say you'll have me for your lawful wedded wife."

"Let me out! I'll never say sich words to you. Woman, *you're* a bad lot, that's what you are—a bad, ungodly, wicked creetur. You've lied to me about loving your husband so ye'd get me to marry ye; ye've saw so many sailors, an' thinks we're all green alike. I don't believe ye ever thought o' your husband; I don't believe even the babies thought o' their poor deceived father—"

"Not of their 'deceived' father, sailor," she said, coming towards him, the tears raining down her cheeks, her lips smiling; "but their father, who must always believe me to be true and loving—their father I saw this blessed night."

"Who—who—their father—this night? Where is he?—where is the—?"

She threw herself upon his breast: her arms clasped wildly about him. "He's here" she cried rapturously, "here is their father—my Tom, my dear old boy!" And then cried aloud: "Babies, children, wake up! Come to mammy, for daddy's come home, daddy's come home from the cruel, cruel seas, and he has tried to make mamma believe he was some body else, and that daddy was drowned. Oh, Tom! I knew you when I opened the door; I never could be mistaken in you, never, never, never!" And the patter of the children's feet, the crying of the children's voices, drowned Tom Bollivar's voice deeper than any sea had ever drowned Tom Bollivar.

WORDS OF WISDOM.

REMARKABLE SOMNAMBULISM.

Says the Lewiston (Me.) Journal: The night of the recent fire at North Turner bridge, Mrs. Albert Winship aroused her husband and cried:

Husband, Mr. Starbird's house is all on fire! Hurry up!

He did so, dressed on the double-quick and with pails ran to the fire, and did valiant service in saving surrounding buildings. When the fire had burned down, he quietly went to bed. Sunday morning he rubbed his eyes and said to his wife:

I feel dreadfully; I am lame, and feel dreadfully exhausted.

Well you may, said his wife; after working so hard at the fire last night.

What do you mean? said Mr. Winship.

Why, the Starbird house was burned down last night, and you worked like a hero saving the other buildings.

Mr. Winship looked dazed for an instant, then took his hat and looked over the premises and came back.

Well, Marcia, the buildings are surely gone, but I never would have believed even you, when you say that I went to that fire if they were not gone. I don't know a thing about it.

He had been through all the excitement in a state of somnambulism without being awakened.

About this time the member of the Legislature has told his wife the day he left home that he'd be the recognized leader of the house after the first week gets desperate and determines to take some part in the proceedings, if it is nothing more than to make a motion to adjourn.

AN EDITOR'S DREAM.

The editor fell asleep after a time, and lo! he dreamed a dream. And it seemed to him that, having armed himself with certain papers and books, he turned his steps once more to heaven and knocked at the gate.

"Hello! is that you again? What do wish?" said Peter.

"Let those persons again come forth," replied the editor; and Peter made them all pass through the gate and stand outside.

They came as before, and uttered the same cries as before.

"Why didn't you notice that big egg I sent you?" yelled the first.

"It was rotten," replied the editor.

"Why didn't you write up my soda fountain?" said the biggest.

"You had your tickets printed at another office," calmly replied the local man.

"Why did you write about old Tomlinson's hens, and never speak of my new gate?" shouted a third.

"Old Tomlinson paid for his advertising and you didn't. Here's the bill," said the editor.

"Why did you spell my name wrong in the 'programme'?" groaned the local talent.

"Take a look at your manuscript and see for yourself," replied the editor, with a grim smile.

The rest of the company yelled out their complaints in unison, and the editor calmly sorted out a pile of bills for unpaid subscriptions and presented each with one; and it was so when they received them they all tore their hair and rushed violently down a steep place to the sea; and St. Peter taking the editor calmly by the hand, led him within the gate, and said:

"Come, friend these chaps managed to slip through here in spite of us, but thanks to the press, we know not what sort of fellows they are. Come in and stay, we need a few such men as you in here."—*Schuylerville Standard.*

The Constitutionalist.

ECHO OF DEMOCRACY.

The inaugural of President Garfield contained this language—"That discussion which for half a century threatened the existence of the Union was closed at last in the high court of war by a decree from which there is no appeal—that the Constitution and the laws made in pursuance thereof are and shall continue to be the supreme law of the land, binding alike upon the States and the people."

Uttering which is but echoing a cardinal truth of Democracy, although not so intended by the President elect.

The Democratic party never wavered in boldly defending the supremacy of the Constitution of the United States and of all laws made *by authority* of that instrument.

It ever was and remains to be the making and executing of laws *clearly unauthorised by the Constitution* and in *defiance thereof*, that inspires the hostility of the Democratic party and opens the wide difference existing between it and the Republican.

The Democratic party contends that every act of both the National Legislature and Executive shall receive vitality from an expressed grant of the Constitution, and that no doubtful or usurped powers shall be exercised under any form or pretext, whether for the employment of military force, interference with the reserved rights of States, the freedom of elections, for the creation and subsidizing of corporations and monopolies, the manufacture of spurious legal-tender, or the many other ways in which supreme authority has been perverted or trampled down.

The supremacy of the Constitution, *both as regards its authorities and limitations*, in war and in peace, for the present and all times to come, is the corner stone of Democracy and safeguard of the Republic.

PRESIDENT GARFIELD.

James A. Garfield is now the legally installed President of the United States, and we hope his administration of the trust will be more distinguished for zealous devotion to the good of the people than for the perpetuation of political power. Mr. Garfield is a partisan, as he has the personal right to be, yet, as Chief Magistrate, he can prove himself a patriot by looking beyond the narrow confines of party and seeking to learn thereby the wants of the whole country.

The inaugural address of President Garfield was certainly a production of literary merit, easy flowing and well-worded, although unmarked by any positive declaration of policy.

We shall treat Mr. Garfield with justice and respect, and are glad of the opportunity to again associate with the occupant of the White House the name of President, a title we could not honestly accord to Mr. Hayes.

THE CABINET.

The following nominations were sent into the Senate by President Garfield on Saturday last and unanimously confirmed:—

SECRETARY OF STATE, James G. Blaine, of Maine.
SECRETARY OF TREASURY, Wm. Windom, of Minnesota.
SECRETARY OF WAR, Robert T. Lincoln, of Illinois.
SECRETARY OF NAVY, Wm. H. Hunt, of Louisiana.
SECRETARY OF INTERIOR, Sam'l J. Kirkwood, of Iowa.
ATTORNEY GENERAL, Wayne McVeagh, of Pennsylvania.
POST-MASTER GENERAL, Thos. L. James, of New York.

The Cabinet so formed is respectable, but far from being strong, and many Republicans express surprise that more solid material was not used in its construction.

The best appointment of the seven is by all odds that of Mr. James—Postmaster General. His proven efficiency as Post Master in the City of New York is a reliable guarantee that he will rightly discharge duty in a higher sphere.

The propriety of selecting a scheming politician like Mr. Blaine to conduct foreign affairs admits of grave doubt. That position has hitherto been filled by statesmen thoroughly versed in inter-national law, and men of sound judgment and prudent action. To reverse such a safe custom may be risky.

The appointment of a Minnesota lawyer to preside over the National Treasury is another strange freak. Why the centres of commercial trade and practical finance should be ignored, and the back-woods scoured to find a man to manage the money affairs of Government is inexplicable, unless based upon the theory—that a blacksmith ought to know how to pull a tooth as well as shoe a horse. The choice of Mr. Windom as Secretary of the Treasury has, however, a redeeming feature and we gladly credit him with it. In a letter addressed to the Anti-Monopoly League in New York, within the past month, he avowed determined enmity to the hydra-headed combinations now *menacing the rights and liberties of the* people. We trust Mr. Windom will freely use newly acquired ammunition and fight on that line without fear or favor.

GEN. HANCOCK AT WASHINGTON.

In accordance with what seemed to him the dictates of duty, Gen. Hancock accepted the invitation to visit Washington and take part in the inaugural ceremonies. From his reception upon the floor of the Senate Chamber it would have been difficult for an uninformed observer to judge whether he or Garfield had been elected President. Dressed in full uniform, a magnificently-imposing figure among the crowd of civilians, he crossed the Chamber, escorted by Gen. Mitchell and Senator Blaine. As they caught sight of the man who had received the largest popular vote ever cast for an American President, the people who were crowded into the galleries burst into enthusiastic cheers of welcome. All the Senators rose to do him honor. Conkling, K. S., with a politician's instinct, was the first to grasp his hand and welcome him to the Senate. Then came Senator Thurman and the other dignitaries followed. It was a historical scene, and General Hancock may well be proud of his reception, not only by the potent, grave and reverend Senators, but by the people who would have chosen him as their Chief Magistrate had not the constitutional machinery of the Electoral College interfered with their choice.

Senator Sewell will have much to say regarding New Jersey appointments, and a funny feature of the office seeking contest is, that every candidate now declares that he was for Sewell first, last, and all the time, and for Halsey or Robeson never.

Who is to be Post-master or Postmistress in Plainfield? Don't all speak at once?

Mr. Hayes has returned to Ohio a private citizen, but with pockets full of bonds. Who will move to give him a pension?

General Hancock attended the inauguration of President Garfield, and wherever he appeared popular enthusiasm greeted him.

The official returns give Hancock a popular majority of 8,142 over Garfield. A President should be elected by a direct vote of the people.

Republican office seekers would do well to remember that, if they favored Grant at Chicago Boss Conkling is the man to see, otherwise, call on Boss Blaine.

Two dozen or more aspirants for the office of Post Master in Plainfield and every one of them claiming to have elected Garfield and Arthur. How rich we are in patriots?

The Democrats in Congress endeavored to fund the national debt into a three per-cent bond, thereby saving the people millions of dollars, but a Republican veto overturned the project.

Republican Congressmen scoff at economy in public expenditures, saying the Democrats went before the people on that issue last November and were defeated. Time will tell the tale.

If the City of Plainfield is limited in public revenue, she can glory in scores of self-sacrificing Republican citizens who are willing and anxious to serve their bleeding country for the paltry allowance of $3,000 postal money a year.

The Delaware House of Representatives on Friday last adopted a resolution denouncing the "fraud" of 1876, regretting "the elevation to the Presidency of a man who was one of the chief actors in the perpetration and consummation of this great fraud," and directing the Governor to transmit a copy of the resolutions "to Hon. Samuel J. Tilden, who was legally elected President of the United States in 1876."

In the U. S. Senate, on Friday, the bill placing Gen. Thomas L. Crittenden on the retired list was passed. Gen. Hancock and Lt. Gen. Sheridan were received upon the floor of the Senate. A resolution was offered in the House by Mr. Hutchins, censuring a breach of the privileges of that body by the placing of armed guards at its doors. After some debate the resolution was suffered to fall. Speaker Randall, after an address, declared the House adjourned without day.

A most remarkable series of sentences were pronounced on the Earl gang of thieves, burglars, and highway robbers, in Syracuse. Two of the men each sentenced to sixty-five years in the State prison at Auburn, one to forty years, another to twenty; their sister, the receiver of the stolen property, fifteen years, and another woman to five years. These are probably the most remarkable sentences ever passed in this country, and there is not much chance that these enterprising burglars will ever burgle again.

Senator Francis has introduced an act concerning steam boilers and engineers. It provides for the appointment on or before the first of next July by the Governor of a chief boiler inspector for a term of five years, and also a local boiler inspector in each Congressional district, who shall inspect all steam boilers in their district, and it shall be unlawful for any person or corporation to use, after Jan. 1, 1882, any boiler whose fitness has not been properly certified to by the inspector, under a penalty of one hundred dollars for each month of such use. The same provision applies to engineers not licensed by the chief engineer after Jan. 1, 1882.

THE LEGISLATURE.

TRENTON, March 8, 1881.

Nothing of very great importance came before either branch of the Legislature last evening. A large number of new bills were introduced and two veto messages were sent in by the Governor. One of the vetoes was an act respecting the election of Chosen Freeholders, which proposes to require cities to elect one freeholder in each ward in such cities as now elect but one member from each city. The Governor declares the act unconstitutional, as it is a special act.

The other veto was of "an act relative to the assessment and revision of taxes in cities of this State." This veto will affect much of the legislation pending before one or the other of the houses. A bill had been passed that should be applicable only to the cities that might accept its provisions by ordinance. "In other words," the Governor says, after referring to this saving clause, "the bill says that when it shall have passed both houses, been approved by the Governor, and published in the books of law, it is no law—*it is a mere waste of paper and of words* until the Common Council or other legislative body of some city shall make it law. Should this principle be adopted, the statute-books would be filled with a mass of legislation the applicability of which could only be ascertained by research among the ordinances of cities and boroughs, and the minute-books of Chosen Freeholders and Township Committees. There would be no practical limit, and the spirit of the constitutional prohibition would be set at defiance. This, it seems to me, is the most insidious and baneful attack upon the Constitution that has been devised." The veto, of course, went over under the rules, but its wide application is a subject of general comment. It fixes the fate of the Fire and Police Life Tenure bill, and even the general act for the government of cities goes on the basis that it must first be accepted by the Councils of cities desiring to come in under it. The veto, if it be upheld, cuts off the last of the resources for dodging the constitutional clauses requiring general legislation, and wipes out all hope of the passage of such laws as are in consonance with the organic law of the State.

The following are some of the more important bills introduced:

S. 208. By Mr. Vail (for the President), an act in relation to the times of holding township elections. It authorizes township committees to change the time from the second Tuesday in March to the second Monday in April.

S. 209. By Mr. Youngblood, supplement to the act to establish a system of public instruction. Makes it a misdemeanor for any school trustee to vote to exclude from any public school in the State, any child between 5 and 18 years of age, on account of religion, nationality or color, the same to be punishable by a fine of from $50 to $250, or from 1 to 6 months imprisonment in the county jail.

S. 210. By Mr. Youngblood, supplement to the act concerning taxes. Requires the collector in each township on or before April 1st of each year to make out and file a list of the names of delinquents from whom he has been unable to collect taxes, whereupon the township committee may relieve him from further responsibility.

S. 212. By Mr. Youngblood, exempting firemen from taxation.

S. 218. By Mr. Youngblood. Providing for the care and keeping of insane convicts. Provides for the erection in the new wing of the State Prison of at least three wards for such convicts.

S. 219. By Mr. Vail, an act appropriating $4,000 to be expended by the Commissioners of Fisheries in stocking the rivers, streams and ponds of the State, with valuable food fishes.

H. 292. By Mr. VanCleef, amending the act concerning the property of married women. Provides that any married woman whose husband's property, or any part thereof, may have been or shall be sold under any judgment or decree, may, without her husband joining her, execute and deliver a release of such property from her inchoate right of dower therein.

H. 295. By Mr. Potts, repealing the act concerning the compensation of the Clerk in Chancery, approved March 14, 1879.

H. 297. By Mr. Elvins, act concerning the publication of ordinances, financial statements and other public notices. Provides for their publication in at least one newspaper, the papers in which published to have been published at least two years before such publication of ordinances, etc., the compensation the same as legal rates now fixed by law.

H. 298. By Mr. Lawrence, act in relation to arrears of taxes in cities. Provides that when in any city taxes shall remain unpaid one year after being due and payable, such taxes may be paid in any of the municipal bonds issued in anticipation of taxes, the same to be received by the city at par with accrued interest.

H. 300. By Mr. Robinson, act concerning cities. Provides that licenses under the existing ordinances may be imposed for revenue.

On Tuesday very little was done beyond the laying over of bills. There was a scarcity of members present. Governor Ludlow sent in three more vetoes as follows: Supplement to the act regulating proceedings in criminal cases; an act for the relief of Edward Heck, the paralytic son of a Union soldier in the Rebellion; an act empowering Boards of Chosen Freeholders to employ county prisoners upon the public roads; and the act abolishing the office of Superintendent of Weights and Measures. He declares them all unconstitutional.

A few bills passed, the more important being: Authorizing the establishment of sinking funds in cities; authorizing the Orphans' Court to sell the property of an intestate; enabling cities to contract for a supply of water; authorizing married women to convey their property upon the written consent of their husbands; and appropriating $1,000 to the Farnum Preparatory School.

A large number of new bills were *introduced into the House.*

On Wednesday in the House the General County bill and Local Option bills were passed to 3d reading.

A bill authorizing the City Council of Elizabeth to compromise that city's debt with the creditors and to issue bonds for the payment of the amount agreed upon, was passed.

The Senate passed the General Reapportionment bill.

The Governor has not as yet sent his nominations to the Legislature for Prison Keeper, Sec. of State, etc.

Mr. Whiton—The following com'n from His Honor, Mayor Randolph:

TO THE HONORABLE THE COMMON COUNCIL OF THE CITY OF PLAINFIELD:

GENTLEMEN: I respectfully ask your attention to the following question as of immediate importance:

Whilst the subject of the pond nuisance at Washington Avenue, was receiving daily thought by the Executive and the Corporation Counsel, the freshet of last month carried away a portion of the dam. It was found impracticable to negotiate for a definite abandonment of the pond as a reservoir attached to the water power, now for several months out of use.

An injunction until the 14th inst. against the restoration of the dam has been granted by the Chancellor at the instance of private individuals. Meantime considerable amount of [illegible] matter remains exposed to the rays of the sun, and this, as soon as the weather moderates, must prove dangerous.

The party claiming ownership, [illegible] to abate the nuisance. The Charter confers power on the Council to "abate or remove nuisances of every kind."

The Board of Health, in view of the importance of this subject, and the possible necessity of assuming pecuniary obligation in connection with the effectual abatement of the nuisance, desire the instruction of the body on whom the State has conferred the power conveyed in the Charter.

Certain facts are plain, viz: 1. The pond has been, and is in further danger of being, an aggravated evil.

1. Measures should be taken to prevent its present condition from becoming seriously harmful.

2. If possible the [illegible] should be made a charge upon the property.

3. The dam should not be restored. I earnestly request that [illegible] of this evil. Co-operation should be invited from the residents of North Plainfield.

I have to state that efforts have been measured and will be continued looking to the suppression of the illegal liquor traffic. My acknowledgments are due to the diligence and efficiency of the police and law officers. In the course of these efforts certain small legitimate expenses are incurred, for which I trust the Council will provide.

I am constrained to again allude to these two subjects, involving possible expenditure, notwithstanding the unfortunate mandamus just issued against the City Treasurer for the payment of some $9,000 county and state taxes, claimed from our well nigh empty city treasury. Warrants must issue, I think, in any case, for necessary services and supplies.

It may be that the mandamus was issued without a full apprehension by the Court of the facts. A different result may possibly be reached through a rehearing on an appeal. It is evident that the City Treasurer, on whom the demand is made, has acted in personal good faith. If it be finally held that the City must pay these County and State taxes, whether they are collected or not, from individuals, the subject of raising additional revenue must receive the attention of your honorable body.

Very respectfully,
L. V. F. RANDOLPH, Mayor.

Filed.

Also, com'n from City Treasurer:

TO THE HONORABLE THE COMMON COUNCIL OF THE CITY OF PLAINFIELD:

The subscriber respectfully represents to your honorable body that he has been for many years, and now is Treasurer of the City of Plainfield, and as such treasurer has received monies raised by taxation for city purposes and support of the poor, and whenever required has disbursed the same on warrants drawn by the city officials.

That on or about July, 1880, a rule of Court was served on him (Lewis E. Clark, City Collector, being also embraced in the order), requiring them to show cause before the Supreme Court on the first Tuesday of November, A. D. 1880, why a writ of mandamus should not issue commanding them to pay to the County Collector the State, state school and County taxes.

That he called the attention of the Corporation Counsel to the matter, and requested him to attend to the same. That he then stated to the said Corporation Counsel that he had never received any of these monies, raised by taxation for State, State school and county purposes, and by virtue of a subpoena produced his books before the commissioners to be examined in regard thereto. He was not examined and was informed that a stipulation as to facts had been made with the county Attorney. The fact that no State, State School and County taxes had ever been paid to the subscriber, did not appear, except by inference, in said stipulation. And on the 1st day of February, A. D. 1881, a writ of mandamus was issued by the Supreme Court, directed to the subscriber, commanding him forthwith to pay over to the County Collector the sum of $9,285 66.

The subscriber has frequently conversed with the City Collector as to the fact, that the monies received by him as collector, should under the law be paid over to him as treasurer, but that said collector has never paid over to him as treasurer, the state, State School and County taxes so collected.

The subscriber feels aggrieved that he should be the subject of the writ of mandamus aforesaid, inasmuch as he has never received any of the monies raised for State, state school and county purposes; and requests your honorable body to take such proceedings as in your judgment it may seem best, as will relieve the subscriber from responsibility in this matter.

J. VAN WINKLE,
City Treasurer.

Plainfield, March 7, 1881.

Ref'd to Corp. Counsel.

Mr. Darling—Peter I. TenBroeck's resignation as Constable. Accepted. Also, Treas. VanWinkle's statement of the *city's finances, which shows a balance to* the credit of the General Fund to Feb. 25th, 1881, of $2,452 09; and to the credit of the Poor Fund of $1,023 03. Filed.

Mr. H. Smith, from Alms Com., the following claims as correct: S. E. Young, $4 75; Alex. Warnock, 3 65; G. W. Townley, 25; H. H. Lowrie, 62 50. Ref'd to Aud. Com.

By the same—As correct from the Aud. Com.: N. Y. & N. J. Globe Gaslight Co., 2 bills, 218 03; James Maynard, 6; M. Bird, 62 50; Frank Conshay, 6; A. T. Shotwell, 25; Mrs. J. Wilkins, 3; P. Langenbahn, 6; David Hand, 180 28. Tabled for the present.

Mr. Darling, from Finance Com., as correct, bond of Constable Amos Moffett. Filed.

Mr. Tyler, from Law & Ord., that the executions of Manning Stelle and David J. Boice be ref'd to Corp. Counsel. All aye.

Mr. Finch, from License Com., reported that the petition of Chas. Smith, conforms to the ord., and would move that the license be granted. Agreed to by the following vote: Ayes—Darling, Finch, Guion, Hamilton, Waring, Whiton—6. Nays—Coriell, H. Smith, Tyler—3.

By the same—Favorably upon petition of Werner Heidloffe for hotel license, with a notification that Mr. H. see that no disturbances occur in the future. His license was granted, the vote being as above—6 to 3.

By the same—As to the petition of Theo. Mullen for a license to keep a saloon on North Ave., the Com. would not report for or against it. After some discussion in the premises, Mr. H. Smith moved that the license be not granted. Carried. Mr. Hamilton voting no.

By the same—As to the petition of Chas. Zimmer for a saloon license, after a careful investigation, they recommend that the license be not granted. Concurred in. All aye.

Mr. Hamilton, from Police Com., reported as correct the Police claims for months of January and February. Ref'd to Aud. Com.

Mr. Finch offered the following:

Resolved, That the mandamus proceeding heretofore brought against the City Judge to compel him to issue his warrant for enforcement and collection of delinquent taxes be and the same is hereby referred to the Counsel to the Corporation, and he is hereby directed to institute proceedings for obtaining a review of the decision of the Supreme Court therein if in his opinion it is expedient so to do.

Ref'd to Corp'n Counsel.

By the same—The following:

Resolved, That the sum of two hundred dollars be appropriated out of the monies received from licenses to be used by the Mayor with the approval of the Committee on Licenses to defray the expenses of city officers in suppressing illegal traffic in spirituous and other liquors.

Adopted. All aye.

By Mr. Hamilton—the following:

Resolved, That the pond, caused by the damming of Green brook at Washington avenue, is and has long been a nuisance.

Resolved, That it is expedient and necessary to the health and prosperity of the city of Plainfield that the nuisance of the said pond should be abated and abolished without delay, and that the danger of its continuance by the rebuilding of the dam should be avoided.

Resolved, That the Corporation Counsel be instructed to represent to the Chancellor the evil and danger created by this pond nuisance and to act officially on behalf of this Council in any practicable way which in his judgment may facilitate or expedite the permanent abatement of the nuisance.

Resolved, That the Board of Health are hereby empowered, after notifying the property owner as provided in the ordinance respecting nuisances, to expend, or incur obligation for, in their discretion, a sum not to exceed $500 in removing causes of disease or injury to health of any sort arising from said pond, or in connection with the water course of adjacent territory, and that the Corporation Counsel is instructed to take measures toward making any such expenditure a charge upon the property; provided, that the inhabitants of North Plainfield, with whom the Board of Health are requested to confer, contribute a sum equal to that furnished by this city for the same purpose.

Adopted. All aye.

By Mr. H. Smith—the following:

WHEREAS a writ of peremptory mandamus has lately been issued out of the Supreme Court of New Jersey, to Jeremiah VanWinkle, Treasurer of the city of Plainfield, commanding him to pay forthwith to the Collector of Union County the sum of $9,285.66, alleged to be due for State and County taxes; and whereas it appears that the Collector of the city of Plainfield has failed heretofore to pay to said City Treasurer the monies collected by him for State and County taxes as required by the provisions of the City Charter; therefore

Resolved, That the Collector of the city of Plainfield be, and he hereby is requested to inform this Council in writing at its next meeting, by what authority, if any, he has refused to pay such monies to said City Treasurer as required by the City Charter, what monies, if any, are now in his hands which are applicable to the payment of State and County taxes, what money, if any, he has paid over to the County Collector for State and County taxes for the year 1880, and whether it is his determination hereafter to pay State and County taxes directly to the County Collector as heretofore.

Adopted. All aye.

By Mr. Waring—a res. that the Lamp Com. advertise for sealed proposals for lighting and cleaning street lamps. Adopted. All aye.

By Mr. Darling—the following:

WHEREAS, a writ of peremptory mandamus has lately issued out of the Supreme Court of New Jersey to Jeremiah VanWinkle, Treasurer of the city of Plainfield, commanding him to pay forthwith to the Collector of Union County the sum of $9,285 66; and whereas, the subject demands immediate attention; therefore

Resolved, That the Corporation Counsel be, and he hereby is directed to take any and all such steps as to him seem advisable in the matter, and institute if in his judgment it is expedient so to do, mandamus proceedings in behalf of said Treasurer, against the Collector of this city for the purpose of compelling payment by said Collector to the City Treasurer of all monies required to be paid by the provisions of the City Charter.

Adopted. All aye.

By Mr. Tyler—the following:

WHEREAS, by Chapter 162 of the Laws of New Jersey, Session of 1879, it was enacted that the Common Council of each incorporated city of this state shall have power to establish and maintain a public library and reading room for the use and benefit of the inhabitants of such city.

Resolved, That the Common Council of the city of Plainfield have decided to establish and maintain a public library and reading room under said act, and that a special committee of three be appointed by the President of the Common Council to confer with the Honorable the Mayor of Plainfield as to the best means of giving effect to this decision.

Adopted. The Com. to be appointed later in the evening.

On motion of Mr. Darling, the Aud. Com. were appointed to examine the books of City Treas. VanWinkle, per his request.

By Mr. Guion—that the following be the salary of the different city officers for the ensuing year:

Corporation Counsel,	$300
City Clerk,	300
" Treasurer,	300
" Physician,	300
Overseer of Poor,	$200
Street Commissioner,	200
Police Captain Dodd,	700
Regular Policeman Walker,	500
" " Randolph,	500
Special Policemen, 25c. an hour when on duty.	
Janitor, $50, and $2 for each special meeting.	

The above amounts were agreed to, all aye, with the exception of Mr. Coriell, who voted no against raising the salary of City Clerk, as he did not think it expedient at this time.

By the same—a res. requiring the Collector to give bonds to the amount of $5,000, and the Treasurer for $10,000. Adopted.

By the same—an Ord. for the raising by tax, for the General Fund, of $10,000, and for the Poor Fund, $3,500, for the year 1881. Ord. read second time, and engrossed and ordered to a 3d reading. All aye.

Mr. Darling presented bond of Street Com'r. Wm. Hand. Ref'd to Finance Com.

By the same—a res. that when Council adjourn it adjourn to meet two weeks from to-night, (March 21). Adopted.

By Mr. Tyler—the following:

Resolved, That the City Clerk be and hereby is directed to procure from the Collector of the city of Plainfield a list of the names of all delinquent tax payers up to and including the year 1880, and publish the same in each of the official newspapers of the city [illegible] March, 1881, the list of the names of the tax payers [illegible] Corporation Counsel with instructions to collect the same by such legal process as to him shall seem advisable, and the City Clerk is also hereby instructed to serve on or before the 15th day of March, 1881, a notice by mail or personally upon each of said persons whose names appear on said list an abstract of the fact of his or her name appearing on said list together with a statement of the amount of such apparent delinquency.

Resolved, That all resolutions or parts of resolutions conflicting with this resolution be and hereby are revoked and rescinded.

Mr. Darling offered as an amendment that the names be referred to Corporation Counsel before publishing them. Lost. Mr. Tyler's res. was then adopted. Mr. Coriell voting in the negative.

On motion of Mr. Hamilton, the rules were suspended, and the police claims for the months of January and February were reported as correct from Aud. Com., and warrants ordered drawn for the several amounts, said warrants to be paid 30 days from date.

By the same—the Salary Com. were instructed to present at the next meeting of Council, a suitable person to fill the vacancy occasioned by the resignation of Constable Peter I. TenBroeck.

The Pres. appointed as Com. relative to Public Library, Messrs. Tyler, H. Smith, Hamilton.

Council then adjourned.

SPORTSMEN'S CORNER.

The open season for trout commenced in this State, March 1st and lasts until Oct 1st. The close season for black bass are the months of April May and June. There is no penalty attached to the taking of pike or pickerel with hook and line at any time of the year.

Considerable interest is manifested during the present session of the Legislature regarding the preservation of game birds and fish, about twenty different bills relating to the subject having thus far been introduced. Among them are bills prohibiting the killing of ruffed grouse, quail and rabbits for two, three and five years. After the House had passed two or three of the bills, on motion of Senator Sewell, the whole batch were referred to Senator Vail, Chairman of the Committee on Fisheries, for him to report back one bill consolidating the game laws in a proper manner. Last Monday evening the Senator reported a bill which undoubtedly will pass both houses. It provides that ruffed grouse, quail and rabbit may be killed from Nov. 1st to December 15th of each year, and woodcock during the month of July, closes the season again for August and allows shooting them again from Sept. 1st to Dec. 15th. The bill should give general satisfaction to sportsmen. We believe it will.

A club of sporting gentlemen from Jersey City and Hoboken, have leased a large number of acres along the Passaic River, near Sterling, for shooting privileges, adjoining lands leased by Mr. P. C. Ohl for same purposes. They propose *liberating a large number of quail* on the land this Spring.

FIRE MATTERS.

The election for two members of the Board of Fire commissioners of Plainfield to serve for three years each, occurs on Monday, April 11th, between 2 and 7 o'clock, p. m., and already names of candidates are being suggested and their merits canvassed. The retiring members of the Board are John Steiner and Gilford Mayer. The names of both gentlemen are mentioned in connection with a renomination, as are also those of T. O. Doane, T. J. Gillies, David Rogers and others. The various fire companies are represented in the present Board by the following members: For "Gazelle" steamer, No. 1, Wm. E. Jones; "Plainfield" steamer No. 2, Jeremiah VanWinkle; "Zephyr" H. & L. Co. No. 1, John M. Steiner and E. L. Morris; "Alert" Hose Co. No. 1, Gilford Mayer, with E. H. Depew as an associate member of same company. North Plainfield is represented by Steiner and Jones; the other four Commissioners representing Plainfield city. All tax-payers in the fire District have a right to vote for the Commissioners.

Ex-chief W. A. Halstead, of the Morristown fire department, has presented "Alert" Hose Company, No. 1, through their Foreman, A. Seltzman, three handsome hat fronts, (foreman, engineer and private) also his own foreman's belt. The trophies will adorn the rooms of "Alert."

We are informed by the Secretary of No. 2 Eng. Co. that the wording in the resolution offered to the Fire Board at last meeting, regarding the tolling of the fire alarm bell in case of funerals of firemen, should read "firemen of the department" instead of "fireman of that company."

COMMUNICATED.

[From an occasional Correspondent.]

"Election at Westfield."

The election is over and the result known, and verifies in a large measure your correspondent's views regarding candidates and their success as nominees. The primary meetings of both parties were held on Saturday night last, were both harmonious and largely attended. A third ticket headed Union Republican was placed in the field by those not satisfied with the Town Committee as nominated on the others, and although receiving only 27 votes out of a poll of 399, those advocating it succeeded partially in their object by the election of Henry F. Alpers, who was also a nominee on the regular Democratic ticket. The defeat of James L. Miller for Freeholder, and consequent election of S. S. Mapes, by a majority of 24, proves decidedly your correspondent's views regarding there being a strong opposition to him in his own party, and the fact of its possible growth since last Spring's contest, when his majority was 25. It is still my opinion that Geo. A. Sayard would have proved a stronger nominee for Freeholder than the gentleman elected, but as he declined to enter the primary as a candidate for nomination, it is stated for business reasons (although darkly hinted that he has higher aspirations, perhaps State Senator?) my views remain without opportunity of proof. The contest between Luther M. Whitaker and Charles B. Clark for Town Clerk, resulting in the election of the former by a small majority, proves the strength of both of these gentlemen as candidates for township honors. The Town Committee elected, is sufficient evidence that my views relative to the advisability of our citizens giving more attention to its selection have borne good fruit. W. W. Connolly's re-election as Collector, I had already considered an assured fact. John M. C. Marsh being the nominee for Assessor on both the Regular tickets as well as the Union, of course had a walk over, a compliment richly deserved. The minor offices are generally Republican.

Kidney Wort.
THIS GREAT REMEDY
In either Liquid or Dry Form acts at the same time on the diseases of the
Liver, Bowels and Kidneys,
This combined action gives it wonderful power to cure all diseases.
WHY ARE WE SICK?
Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.
Kidney-Wort Will Cure
BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS AND NERVOUS DISORDERS,
by causing free action of these organs and restoring their power to throw off disease.
Why Suffer Bilious Pains and Aches?
Why Tormented with Piles, Constipation?
Why Frightened over Disordered Kidneys?
Why endure Nervous or Sick Headaches?
Why have Sleepless Nights?
Use KIDNEY-WORT and rejoice in health.
It is put up in Dry Vegetable Form, in tin cans one package of which makes six quarts of medicine.
Also in Liquid Form, very Concentrated for the convenience of those who cannot readily prepare it. It acts with equal efficiency in either form.

CLEAN the mud out of your own particular gutter.

THERE was a full house at the city jail, Monday night.

DON'T imagine the backbone of Winter is broken yet.

JOHN B. GOUGH at the M. E. church on Tuesday evening.

INAUGURATION day came in like a lion and went out like a lamb.

THE tramped mud and the muddied tramp, are being thawed out.

THE Common Council meet again on the evening of the 21st inst.

THERE is every indication that the Spring trade will be a good one.

MONDAY was a real Spring day, with marbles, tops and kites in full bloom.

THE contractors about town expect a busy season when warm weather sets in.

To do business without advertising is like going bare-foot to save your shoes.

THE tramp nuisance has made itself omnipresent—a true harbinger of Spring.

WHEN is North Plainfield to have the new school house it needs and is worthy of?

MORE houses are now in demand than during any previous season, and fewer to be had.

A FEW more days like Sunday and Monday, will take all the frost out of the ground.

PLAINFIELD is to have a public library and reading room. A good thing—if she gets it.

IN many sections of this State, the city and town authorities are ordering that all dogs be either muzzled or shot.

PLAINFIELD'S delegation to the inaugural ceremonies returned with expressions of delight at the welcome accorded it.

THE Common Council will have to insert "alamagoozalum" among the liquors whose sale are prohibited by the ordinance.

PAY your taxes and thereby give your share of the cost of lighted streets, protected neighborhoods and available thoroughfares.

IT is not yet the accepted time to store the parlor stove in the garret and hang up the convivial ulster. Be patient, however, the time is coming.

TESTIMONY was taken to-day (Thursday) before a coroner's jury, in relation to the death of Engineer Kinsman who was killed in the Westfield accident of last week.

VENNOR predicted for Monday, "wind and snow followed by rain and slush." In consequence, we had the most spring-like weather with all that the term implies.

MR. Braun of the Saengerbund was unanimously elected a father as well as leader of the Society, on Monday evening. The young heir already sings a high tenor.

ON Friday night last, one of our guardians of the peace was compelled to seek the assistance a unicycle grants, and transport a weak-kneed imbiber to the city jail in a wheelbarrow.

THE hens have evidently been shamed into a more faithful performance of their duties by the stinging criticisms of the newspapers on their dilatory and reprehensible conduct. Eggs are lower.

THERE are all sorts and kinds of applicants for the position of our faithful and efficient postmaster, Mr. Wallace Vail. Gentlemen, give it up. As long as we are so satisfactorily served do not agitate a change.

NEW styles of pictorial advertising cards, menus, orders of dance, invitations, etc., are received at this office every day. THE CONSTITUTIONALIST steam presses do all the fine work of this vicinity.

FRIDAY night's fire was out of sight. It is strange that there are so many false alarms in spite of the fact (?) that only the Chief Engineer, the police and the officers of the different companies have keys to the tower.

MRS. A. SHEPHARD, of Scotch Plains, a cousin of ex-President Hayes, attended the inauguration ball at Washington last week, and attracted much attention by her handsome dress and ornaments of pearl and diamonds.

How is the city to pay the warrants against it in thirty days—or even twelve months—after date? A mandamus for about $6,000 that will become due by reason of the State and County taxes for 1880, will be issued soon.

WE have heard, as yet, of no formation of the customary base-ball nine without which no well-regulated city should exist. Why this backwardness on the part of the Crescents, the P. A. C., the Never-sweats and the Hardly-ables?

THERE is one thing Job couldn't have stood—a boil on the back of his neck just under the collar button. And as far as that is concerned, we do not believe he could have put up with the aggravating actions of the collar button itself when it is inclined to be obstinate.

THE property owners in the vicinity of Green Brook, who are dependent upon its waters for protection in case of fire upon their premises, rightly demand that the Committee on Wells shall lose no time in deepening the pools or sinking well holes along the bed of the stream.

THE following description of the condition of the roads in Tennessee, will apply to some of the roads in this section:

The roads are not passable,
Not even jackassable.
And all who would travel 'em
Must turn out and gravel 'em.

THE "Boot-Black" alias Jordan, was brought before Justice Wadsworth on Tuesday afternoon on a charge of assault and battery committed upon a female acquaintance. The accused plead guilty and stated as his belief that he would be "sent up." His expectations were realized.

THE saloon of Mr. James Conneely on Madison avenue, has lately been refinished and decorated in a most attractive manner. Messrs. Carney Bros., have put in a new ale pump and other bar fixtures, besides doing some satisfactory plumbing work; while Mr. Wm. J. Tobin has ably attended to the necessary carpentering.

A PUBLIC meeting of the Ladies' Auxiliary Sabbath Tract Society of the Seventh Day Baptist church of this city, will be held at that church on Tuesday evening, March 22d, at 8 o'clock. The meeting will be addressed by the pastor, Rev. A. H. Lewis upon "Sabbath Reform in America." The public are cordially invited to attend.

A PLEASANT evening was had on Saturday last at the residence of Mr. Charles Reybert on Union street, the occasion being a "Surprise" tendered to that gentleman and his estimable wife. Some thirty persons were present. Mr. and Mrs. R. were much surprised, indeed, and did all in their power to make the evening one of pleasure to all.

MR. Jacob Kirkner is about to begin the erection of a palatial residence at the corner of Eighth and Division streets, facing the property of J. Evarts Tracy, Esq. The lot is 225 by 250 feet, and the building is to be a magnificent brick mansion 40 ft. square with an extension 30 ft. in depth. Messrs. Jeremiah Manning and Isaac Pangborn have been awarded the contracts for doing the carpenter and mason work.

THE Rev. James W. Nightingale will preach in the Crescent avenue church, next Sunday morning.

To admit of more extended rehearsal, the Second Vocal Concert is postponed until Thursday the 24th.

THE young ladies of Plainfield will be glad to learn that a match factory is to be started in their midst.

THE next rehearsal of the Plainfield Vocal Society will be held on Monday evening, to allow of the members attendance at Gough's lecture.

T. J. GILLIES will sell at Union Village, on Thursday the 24th inst., all the real and personal property of the late Christopher Zukschwert, by order of the administrators.

ATTENTION is directed to the advertisement in another column, offering for sale the Edwards' Farm. This is a rare chance for some person wishing to secure a cheap and desirable property.

THE Young Ladies' Benevolent Society of the New Market Seventh Day Baptist Church, held a barbecue at Dunn's Pavilion, on Tuesday last. An attache of this paper reports the affair a great success.

THE Blatz property at the corner of Front and Somerset streets, part of which is occupied by Charles Smith as a Saloon, is to be greatly improved by the lowering of the ground floor even with the sidewalk.

THE premises formerly occupied by Geo. Egel at 53 Somerset street, have been secured by Mr. H. DeMott who will open thereat a first-class fish and meat market. Greatly reduced prices will be a feature of the business.

THE executors of the Randolph Estate have been restrained and enjoined, by order of the Court, from re-building the late dam at Washington avenue. A permanent injunction is prayed for by Elizabeth M. Leonard, complainant.

THE Memphis *Appeal* thus speaks of Callender's Georgia Minstrels which are to be at Van Deventer Hall on the 17th: "We might write a column of praise, and even then there would be something unsaid of their merit. They are good in everything they attempt."

MR. H. P. REYNOLDS is to be congratulated upon his securing the services of Mr. T. S. Armstrong as head clerk and manager of the Plainfield Pharmacy. Mr. Armstrong has been long and favorably known as an efficient and conscientious Druggist during the continuance of his business as such in North Plainfield; and his personal popularity will increase among his new patrons while retaining the favor of his old customers.

Saengerbund Officers.

The new officers chosen at the annual election of the Plainfield Saengerbund, held on Monday evening, are as follows: President, Carl Maas; Vice President, Charles Dresselt; Secretary, Theodore Heinemann; Treasurer, Michael Koller; Finance Committee, Klein, Bremer and Brown; Flag Carriers, Rowether, Kormann and Goeller; Leader, George Braun; Property-man, Wm. Feibel; Janitor, "Jake."

Proposed Church Building.

A member of the Congregational church society of this city has lately purchased a most remarkably available and attractively situated piece of property at the corner of Seventh street and Madison avenue. The house upon it is at present occupied by the family of the late Abraham Hooley, Esq., but it is the intention of the new owner to donate its use to the church as a parsonage, until about April 1st. At that time it is expected the society will be ready to commence the erection of a place of worship, whereupon the land will be presented to the organization, free and clear. The untiring labors of the Rev. Wm. Manchee, together with the valuable and willing assistance of his congregation, have impelled of late a most enviable progress in the affairs of this church, and the present good fortune has deservedly fallen upon it.

The Second Vocal.

The programme for the second concert of the Plainfield Vocal Society, not having as yet been completely selected, we are unable to announce decisively the many interesting features it is to contain. It is, however, unnecessary to urge upon the public the prospective excellence of the entertainment, as an universal verdict of flattering admiration has already been conceded the efforts—or rather successes—of this organization. It is understood that both a Soprano and a Tenor soloist from other fields, will add their talents to the general welfare and attractiveness of the entertainment. The music will be—as we announced last week—entirely different in character from that previously set forth; although none the less enjoyable by reason of such variation. Those who were so fortunate as to hear "The Cruiskeen Lawn" sung by the New York Vocal Union, on Feb. 1st., will be glad to learn that this melodious arrangement of an old Irish air, will be interpreted by the Plainfield Society at its Second Concert, Thursday evening, the 24th inst.

Youthful Depravity.

The occurrence of many petty thefts upon the premises of our merchants during their absence from such on Sundays past, has received the attention of Captain Dodd for some days. Three establishments were broken into on last Sunday, and the attention of the officer being directed to three young lads who were observed as acting suspiciously, he arrested them the next day. The boy's Lewis Gamberton, Edward Cuff and John Cary, were confined in the City Jail over Monday night, and appeared before Justice of the Peace, Wadsworth, Tuesday afternoon, at 1:30 o'clock.

Those who have suffered from the depredations of the youthful band are Messrs. Charles Zukschwert, who lost on Sunday last about $6.50 worth of cigars and cigarettes, a merchaum holder worth $3 and $3.75 in cash; Wm. Williams, who was robbed the Sunday preceding of about $3 in money; M. Estil; on the same day, four penknives and some loose change; Gabriel Bachman, silk handkerchiefs and cologne; while from the grocery stores of P. M. Demarest and Geo. W. Rockfellow on the 6th inst., were probably taken cigars, apples and such articles of consumption as were not noticeably missing. Messrs. Zukschwert, Bachman and Williams appeared in court and swore to the losses mentioned above. They were possessed of no evidence to convict the suspected parties; but this was not only voluntarily offered by young Gamberton, but even more than he was questioned about did he insist upon telling. John Cary—who is a colored boy—testified to his participation with Gamberton in the robberies committed at the stores of Messrs. Bachman and Williams, and substantiated the evidence against the party. Ed. Cuff—also colored—who was concerned in the Zukschwert affair, declined to make any statement. The seeming desire of the lads to be sent to the State Reform School, was an unusual experience for the court, but they were nevertheless accommodated as far as its power extended. After the usual steps and ceremonies necessary, the trio was committed to the County Jail to there await the action of the Grand Jury—unless their plea of guilty is brought before the Court of Sessions on Saturday, and thereupon passed upon.

Some of the stolen goods are recovered, but the money has been spent as confessed by the boys. Such articles as were hidden or left at their houses, were also owned up to and subsequently secured by Captain Dodd to be returned to the rightful owners.

Guilty.

The Treasurer of the City against Patrick J. Flanagan, had a hearing before an intelligent judge and jury on Friday morning at 10 o'clock. Of the selection of eligible jurors chosen by officer Walker, many were challenged by the defence and it was not until such privilege had been exhausted that the following were sworn in: Foreman, Peter Hoagland and Messrs. J. B. Jenkins, Geo. Belcher, N. T. Martin, Jacob Laing, H. H. Baker, Elias Boice, J. H. House, Geo. Angleman, Thos. Clarkson, Geo. Moore and E. L. Lanphear.

Corporation Counsel Kimball in opening the prosecution, stated briefly but clearly the provisions of the Charter and the enactments of the liquor ordinance, so far as they related to the case. He read the complaint which he designated the preliminary proofs of the violation, and gave an outline of the circumstances of the case. The first witness was City Clerk Leonard, who testified as to the passage, adoption and present force of the ordinance claimed to have been violated. He knew the defendant personally, and also that he was not licensed.

Jno. Bergen (colored) was called and testified in effect, as follows: "I know Flanagan who keeps a billiard room at the corner of Third and Liberty st's. I have never played billiards there. He has another room. I don't know how near the 12th of February I was in his place, but it was within a week or two of such time. That night I had a drink of brandy. Henry Jackson, George Smith and myself drank together. I don't know whether they had brandy but we all drank out of the same bottle. It was poured out by Mr. Flanagan, but I don't know who ordered it. George Smith treated us but I can't say who paid for it. I know it was on Saturday night. [The Court was here asked by the prosecution to note that the 12th of February was a Saturday] Have before drank beer there, about election time. I only once paid for liquor at Mr. Flanagan's. I treated Charley Manning to brandy and paid 10 cents." On cross-examination Geo. P. Suydam, for the defendant, sought to show that the witness and others had been approached by Captain Dodd (who signed the complaint) and the testimony arranged and bargained for. This line of examination was objected to by the prosecutor who was sustained by the ruling of the Court.

Henry Jackson (colored) was about as hostile a witness as ever endeavored to answer his questioner unsatisfactorily. The following was mainly what could be drawn out by the patient labors of Counsel Kimball: "I know Flanagan and the last witness. Have seen Bergen drink sarsaparilla and soda-water in Flanagan's and beer at election time when it was sent there by another party. I have drank beer there within a month. Flanagan poured it out. We played seven-up and the one who lost treated. Have seen Bergen and Smith drinking beer in the place. Smith treated me and paid for it, once. Flanagan poured it out." On cross-examination: "Didn't see anybody pay for the liquor. Mr. Smith didn't pay for it." Re-examined: "Smith, Verity, Flanagan and myself played for ten cents a corner, then went to the bar and had drinks. We had 'alamagoozalum,' which tastes something like whisky. I might drink two quarts of the stuff without feeling its effects. Never had a chance to try. It smelt like whiskey but tasted mostly of water. Think it must have had wiskey in it." In reply to juror Angleman: "Mr. Flanagan has refused to sell me liquor at times on the ground that he had no license."

Geo. Smith (colored) testified: "Have been in Flanagan's place frequently. Was in there on Saturday night about three weeks ago, I think. Drank apple whisky. Flanagan gave it to me. Think that is what is called 'alamagoozalum.' I paid for one round—Bergen, Jackson, Flanagan and myself. Laid the money on the counter but don't know who took it up. Flanagan didn't object to my laying it down. Was also there on Friday and played seven-up. Flanagan, Nelson, Jackson and myself after the game had a drink. Took beer which Flanagan poured out. We each lost a game and I laid my twenty cents on the counter."

The Clerk was recalled, and said: "I do not think Mr. Flanagan is a druggist in any sense of the word. He does not so place himself before the public. I have known him a great many years and he has never been engaged in such a business. If so it would appear on the insurance policies I have made out to cover his building. The business of a druggist is 'extra-hazardous' and must be so stated in the policy."

The prosecution here rested and as no evidence in rebuttal or defence was offered, Mr. Geo. P. Suydam addressed the jury for the defendant. The technical points presented to the Court at a previous hearing, were reviewed and their soundness insisted upon. A scathing criticism of Captain Dodd's course, the Court's rulings and the Prosecutor's line of action, was delivered with a misjudged idea of its effect. The Counsel closed in a defence of his position on the case—as the champion of an alleged unlicensed liquor-dealer.

Mr. Kimball's summing up and Judge Runyon's charge, were merely reviews of the law and evidence. No defence had been made except upon technical points of law, which the court charged did not cover the present action. After an absence of less than thirty minutes the jury brought in a verdict of "guilty." Judge Runyon imposed a fine of thirty dollars and dismissed the Court.

Immediately after the sentence, Mr. John H. Jackson of the defendant's counsel left for the Supreme Court at Trenton where he laid before Judge Van Syckel a petition for a writ of certiorari. The foundation of the application was based upon a recent decision of Judge Van Syckel delivered regarding a similar case covered by the charter of Lambertville. The counsel claimed that the name of the party to whom the liquor was sold should have been inserted in the complaint. In the case that they stand on, however, the charter expressly states that such a complaint should specifically mention all circumstances connected with the affair—while the Plainfield charter makes no such compulsory provision. The writ was granted and the case will now be received and ruled upon by the Supreme Court.

A Happy Time.

The anniversary of Willie Addis' tenth birthday was made especially merry on Monday evening last. Thirty-six of his school-mates headed by Miss Gertie Haskard and Miss Lillie Bird, agreeably surprised him by unexpectedly calling at his house and transposing it into a scene of enjoyment and happiness. Baskets of tempting refreshments were not forgotten, and the evening passed in mutual fun and satisfaction.

A Sad Affair.

The notice published in the N. Y. papers of yesterday, of the death of a son of Frederic A. Potts Esq., was read with mingled sorrow and regret by the many friends of the family in this city, and those of the lad's former companions still living in Plainfield. The deceased Harry, had been at school in Germany with his brother Fred for some time past, and the two were spending a month's vacation, of late, in Italy. While at Naples they both were taken with the Roman fever which resulted in the death of Harry at the age of 19 years on Tuesday. Fred, just 21, was, when last heard from, not expected to live, and it is feared that his life, also, has been taken before this. Another brother George, left on the Scythia yesterday, unaware of the terrible news and intending to meet his brothers in Europe.

The Y. M. C. A. Course.

Although one more number is necessary to complete the Y. M. C. A's course of entertainments, yet it is not premature at this date to testify as to the remarkable excellence of the entire list. The close of the course will occur on next Tuesday evening, with a lecture on "Platform Experience" by Mr. John B. Gough. The customary success of that gentleman will not be wanting, so we may feel justified in believing that the evening's result will detract naught from the verdict of appreciation and approval that is justly due the entire series. Such a consummation has been brought about by the committee in whose charge was placed the selection and construction of the course—Messrs. Charles W. McCutchen, Alex. Gilbert and H. Otis Newman. Variety of entertainment, such as would attract, retain and satisfy completely the desires of a many minded public, was secured; and no great financial benefit was attempted by the engagement of artists of minor or even medium talents and reputation. The patronage of the public was generally favorable, but not as extensive as was deserving. In consideration, however, of the proverbial lack of appreciation our residents are possessed of, the attendances were on the whole, praiseworthy.

It is not out of any disregard of the meritorious character of previous occasions, that we accord Miss Nella F. Brown's readings a place among the admirable features of the Course. The lady proved herself possessive of most wonderful gifts in her particular line. Added to a personal appearance of face and figure unusually perfect, was intense grace of action and beauty of voice. A well judged knowledge of the sentiments and articulations she was capable of portraying and rendering, prevented an attempt to interpret any character or dialect beyond her powers. Although her idea of the state of mind of Bret Hart's heroine—when the creation referred to the time she danced "down the middle with the man that shot Sandy McGee"—may not coincide with the intended suggestion of the author, yet the selection was ably given, and brought into use various gifts of facial expression, gesture and intonation that demanded only favorable criticism. The other selections proved Miss Brown's efficiency to far surpass in excellency the average capacity of our professional elocutionists.

The programme was agreeably varied by the piano and organ executions of Messrs. Clark W. Evans and David Lyon. The former in reply to an encore, playing an arrangement of "Auld Lang Syne," composed by himself.

John B. Gough.

Will lecture in the M. E. Church Tuesday Evening next, 15th inst. Subject "Platform Experiences." Reserved seats can be procured at Reynolds' Pharmacy.

An Interesting Discourse.

The lecture to be delivered at St. Mary's church on Thursday the 17th inst., will be a most interesting and instructive review of "Ireland, its heroic past and present crisis." The Rev. M. J. Holland of Newark will be the speaker, and an unusual opportunity will be given to hear the principles of the Land League organization intelligently explained from an Irish-American stand-point. The lecturer was born in this country and is thus calculated to speak unbiased on the subject.

Personalia.

Congressman Henry S. Harris has taken rooms at the Willard House, Washington.

We are glad to learn of the steady and continued improvement of the health of Mr. Wright Robins of Metuchen.

Mayor Randolph returned from a trip to Washington on Saturday. His main business there was the procuring of a grant of land in Chicago to be used by the Illinois Central R. R., of which he is Treasurer, for the erection of necessary buildings.

The Rev. Wm. Manchee's first lecture on "Secular Illustrations of Christian Truth," was largely attended at the Seventh Day Baptist church, last Sunday evening. It was an exceedingly intelligent and applicable discourse.

The choir of St. Mary's church has been additionally improved by the voice of Mr. M. DeCourcy, its latest member.

Messrs. Wallace Vail, George Hallock and Rogers were among the representatives of this city at Washington on Friday last.

Dr. Charles R. Thiers has just completed a purchase of the office fixtures and dental tools of the late Geo. Smillie. He will open at the former office of the latter on Front street, about April 1st.

Mr. Auguste Saltzman, "Alert" Hose Company's popular foreman, sails on the French line steamer *Amerique*, May 4th, to visit his place of nativity, Switzerland. He will combine business with pleasure in the trip, by importing a large invoice of the famous A. Saltzman watches direct from the factory in Switzerland to his wholesale house, No. 15 Maiden Lane, New York.

The Rev. T. H. Stockton is slowly recovering his former health and strength. Although an unfortunate relapse occurred recently, it is expected that the pastor will be able to return to his duties in a short time.

Mr. T. A. Beguelin, for the past year a resident of North Plainfield, has taken up his residence in this city, on Front Street, opposite J. Taylor Johnston. We are glad to welcome to "our side of the brook" so staunch a Democrat and good citizen.

Mr. H. Mayer having returned from his trip to Mexico, intends with his wife, to spend the Summer in Plainfield, as the guest of Mr. T. A. Beguelin.

SCOTCH PLAINS SCRATCHINGS.

Charles Messler had a narrow escape from death while engaged in sinking a well on the premises of Mr. Cooper, near Fanwood depot on Saturday last. He was down the well about 80 feet, when in removing some of the stone work, the whole mass caved in upon him. He was severely cut about the head and bruised. Dr. Coutin attended and dressed his wounds.

Frazee Coles, Esq., aged 95 years, is lying very sick at the residence of his son, Jacob Coles.

WESTFIELD WISPS.

Considerable excitement has been caused by a complaint, signed by some of our citizens and presented to the Health Board at its last meeting, complaining of the large use of beer grains by our milk producers. The matter was referred to the Town Physician, Dr. Harrison, and we understand that after careful examination he reports the milk examined as being fully up to the standard required by law.

The sympathy of the entire community is extended to F. R. Baker and family in the loss of their daughter, Annie.

The Westfield Social Club, which has already given one invitation social at Moffett's Hotel Hall during the past Winter, propose giving a Ball at the same place on the evening of the 17th inst. Tickets 50 cents.

A dead goat, on Elmer Street, whose remains remained uncovered for at least a week, should have attracted the attention of the Health Board earlier.

Dr. C. E. Aguiare, Dentist, a graduate of the Royal Dental College, of Havana, Cuba, has located permanently at Westfield and can be found by those desiring his services at the Pharmacy of Dr. Wm. Gale.

Rev. Henry Neill has accepted the call as pastor of the Congregational Church, and will be installed at an early day.

Rev. Wm. H. Gill will deliver a lecture entitled—"William III and the Revolution of 1688," in the Presbyterian Church of Westfield, Thursday evening, March 17th, for benefit of Mite Society of that village. The lecture is an interesting one.

SPRING ELECTIONS.

The Annual Township Elections in this State, were held on Tuesday last, and resulted in many Democratic gains and victories. In our immediate vicinity occured, the election in North Plainfield Township, which proved rather an exciting contest in more than one respect. The Township is so strongly Republican that until within a very short time of the election, the Democrats had no thought of running a straight or even a mixed ticket. The Republicans in caucus last Saturday night nominated Mr. Wm. E. Jones for Freeholder. A large percentage of the party, however, did not like the nomination, in consequence of the fact that Mr. Jones' troubles with the County had not as yet been adjudicated. It will be remembered that Mr. Jones was indicted by the Grand Jury of Somerset County, in conjunction with Daniel Cory, both Freeholders, on a charge of malfeasance in office. However guiltless Mr. Jones may be of the charge, the circumstance nevertheless, laid against his desired return to the Board, at the recent election. On Monday afternoon, preceding the election, a Citizens' Meeting was called in Blatz's Hall which was presided over by S. O. Horton, Esq., and another ticket nominated and headed "Citizens' Ticket." With the exception of Chosen Freeholder, Overseer of the Poor, two Town Committeemen and two or three other minor offices, the same ticket was put in nomination as that of the Republican caucus the Saturday evening previous. For Freeholder, the present Democratic incumbent, Charles Shepherd, was nominated. Mr. Daniel Smalley was also nominated for Overseer of the Poor in place of Joseph N. Randolph, both Republicans. The result of the election showed that a large number of Republicans voted for Mr. Shepherd as he was the only one on the Citizens' Ticket elected, the entire Republican Ticket being elected, otherwise.

For the first time in a local election, the Township was divided off into two polling districts. Below we give the total vote of each candidate, with the majorities received by the successful candidates:

" 6, S. O. Staats, *	114	77	191
" 7, Harmon Trust, *	262	199	461

* Denotes no opposition; R. Republican and C. Citizens. The name of S. O. Staats was only printed on the Citizens' ticket.

The following was also adopted as if appeared on the Republican ticket, differing but slightly from the Citizens:

Repairs of Roads, $2,000. $500 of the above sum to be put in the hands of the Town Committee.

Support of Poor, $1,400. $300 of the above to be left in hands of Town Committee.

Treasurer's Salary, - - - $100.

Two Committeemen, Salary $25 each.

Total vote cast—1st Dist. 260; 2nd Dist. 200.

The flattering votes received by Assessor Brokaw and Collector Van Norstrand, evidence their popularity in the Township, they receiving but three scratches each.

The many friends of Wm. B. Dunn and Rowland B. Smith congratulate those gentlemen on their first accession to public office, the former receiving but one scratch for Constable and the latter being elected District Clerk.

Our staunch Democratic friend, Stephen O. Horton, made a gallant run for office of Justice of the Peace, coming within a very few votes of being elected.

The next Board of Freeholders of Somerset County will stand as follows:

Bedminster—Isaac Voorhees, (D.)
Bernards—Henry Baird, (D.)
Bridgewater—Oscar Dew, (D.)
Branchburgh—Hugh Gaston, (R.)
Hillsborough,—James A. VanNuys, (R.)
Franklin—Isaac I. Voorhees, (R.)
Montgomery—J. V. H. Whitlock, (R.)
North Plainfield—Chas. Shepherd, (D.)
Warren—Daniel Cory, (D.)
Democrats, 5; Republicans, 4.

FANWOOD TOWNSHIP.

In Fanwood Township there was also an exciting contest. There were three tickets in the field; Democratic, Republican and Greenback. The latter ran Harvey Dean for Freeholder, the Republicans, Stites M. Parse and the Democrats, the present incumbent, C. W. L. Martine. The main interest centered on the Town Committee, who, under a recent law, will have the power to grant or refuse liquor licenses. Mr. Martine won a handsome victory over his opponent, *and a majority of the whole Democratic* ticket was elected as follows:

Town Clerk—Jas. A. Baker (D.) 58 maj.
Freeholder—C. W. L. Martine (D.) 52 "
Assessor—J. L. Darby (D.) 19 "
Collector—Wm. Hetfield, (R.) no opposition.
Town Com.—D. L. Scudder (D.) 13 maj.
" " —L. W. Miller, Jr. (R.) 3 maj.
" " —John J. Marsh (R.) 1 maj.
Constables—James B. Farley (D.) 3 yrs.
" —Wm. N. Pangborn (D.) 2 "
" —Henry Goodwin (D.) 1 "

Geo. R. Nicholl (D.) was elected Judge of Election by 1 majority over his two competitors on the Republican and Greenback tickets.

There were 221 votes cast, of which 20 are of the Greenback session.

WESTFIELD TOWNSHIP.

In Westfield Township there was a bitter fight over the Freeholder, Mr. Stephen S. Mapes, a sterling Democrat, running against the present incumbent, Mr. Miller. Mr. Mapes was elected by the handsome majority of 24. We are sorry to record the defeat of the present incumbent of the office of Town Clerk, Mr. Charles R. Clark, who has so ably filled the position the past eight years. His successor is Mr. L. M. Whittaker, a Republican, who is in every way well qualified to perform the functions of the office. The following are the majorities received for the principal offices:

Town Clerk—L. M. Whittaker (R.) 13 maj.
Freeholder—Stephen S. Mapes (D.) 24 "
Collector—W. W. Connelly (R.) 36 "
Assessor—J. M. C. Marsh (D.) no oppo.
Town Committee—R. R. Sinclair (R.)
" " —H. F. Alpers (D.)
" " —James Moffett (D.)
Constables—J. M. C. Marsh (D.) 3 years.
" —J. R. Barkalow (D.) 2 "
" —Gustave H. Koester (D.) 1 year

The average majority on Town Committee was 10.

Summit Township went Democratic and returns Cornelius Rankin (D.) to the Board of Freeholders.

New Providence goes Democratic and returns Wm. H. Briant (D.) to Board of Freeholders.

Union returns Geo. W. Doty (D.) to the Board of Freeholders.

Clark Township is reported to have selected Mr. Thompson (R.) Freeholder over Robt. A. Russell (D.)

Linden elected a Republican, Edward S. E. Newbury, to the Board of Freeholders.

Cranford and Springfield have undoubtedly elected Republican Freeholders.

The Union County Board of Freeholders will stand 12 Democrats to 5 Republicans.

Throughout Monmouth County the Democrats have made gains in Township Officers and Freeholders.

In Piscataway Township the Democratic candidate for Freeholder, Mr. Cortelyou, was defeated by 2 majority.

HOW TO SECURE HEALTH.

It seems strange that anyone will suffer from the many derangements brought on by an impure condition of the blood, when SCOVILL'S SARSAPARILLA AND STILLINGIA, or BLOOD AND LIVER SYRUP will restore perfect health to the physical organization. It is indeed a strengthening syrup, pleasant to take, and has proven itself to be the BEST BLOOD PURIFIER ever discovered, effectually curing Scrofula, Syphilitic disorders, Weakness of the Kidneys, Erysipelas, Malaria; all Nervous disorders and Debility, Billious complaints and all Diseases indicating an impure Condition of the Blood, Liver, Kidneys, Stomach, Skin, etc. It corrects Indigestion. A single bottle will prove to you its merits as a health renewer, for it ACTS LIKE A CHARM, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

It is earnestly requested by many citizens that the following Ordinance will be passed by the Common Council:

AN ORDINANCE.

Be it enacted by the Common Council of the city of Plainfield in lawful session met, and it is hereby enacted by the same, that its members henceforth and forever shall be authorized to purchase such articles of toilet and such medicinal preparations as they need, at the Drug Store of Mr. Anthony Kilgore, situated at No. 10 East Front Street, under VanDeventer Hall.

SEC. 1. That before and after the passage of this act, it shall be the duty of all members of this body to procure at the before-mentioned establishment a bottle of Kilgore's Cough Cure, and forever after abstain from disturbing the meetings of the Council by coughing, hacking and sneezing.

SEC. 2. That when any member desires to buy a tooth or hair brush for the use of himself, or his family, or his sister, or his cousin, or his aunt, he is hereby advised to select the same from the large variety and great stock to be found at the store of Mr. Kilgore at the place mentioned above.

SEC. 3. That no matter what family physician may be employed by a member of the Council, it shall under every consideration be the duty of each member to have any and all prescriptions compounded at Kilgore's pharmacy, as, it is the desire of this Council to perpetuate its existence by the use of carefully prepared medicines.

SEC. 4. That every member shall be required, within ten (10) days after the publication of this act, to call at the store of Mr. Anthony Kilgore and make a personal inspection of the fine assortment of perfumes, soaps, patent medicines, and other articles contained in stock, and immediately instruct his family, his heirs, his assigns, his man servant, his maid servant and the stranger within his gates, to purchase their needs and wants at that establishment and forever after hold their peace.

SEC. 5. Any member who shall violate or fail to comply with any provision of this act shall be deemed guilty of a *nolle pros* and upon the procurement of a *habeas corpus* shall be fined not less than two hundred dollars nor more than fifty cents for each and every offence; one-half of such fine when collected to be paid to Mr. Kilgore, one-half to be devoted to the Discovery of Charley Ross and the remainder to be equally divided among the members of the Council with the exception of the accused.

SEC. 6. All acts or parts of acts inconsistent with this act, are hereby repealed.

And be it enacted that this act shall be deemed a public act and take effect immediately.

CONCERNING CATS.

Is it not strange that the favorite, one might say the domestic friends and companions of the human race are the representatives of the two classes of carnivorous animals, a feline and a canine.

At present, leaving the dog for future consideration, we are disposed to treat of the cat, which represents the feline, just as the dog represents *the* canine species.

In one respect the cat is regarded as unworthy of consideration—that is, while there is rather a heavy tax upon dogs in the British Islands, the cat has never been subject to any thing like a fiscal notice.

In a Natural History, published in 1775, extending to twelve volumes, and written by the Reverend Samuel Ward, the domestic cat, that Pussy which has a home in every household, however *humble*, is hardly dealt with.

He describes it as an useful but deceitful domestic. The dog's caresses are sincere, he says, but the cat has but the appearance of attachment. "Nothing," he adds, "so discovers the natural malignity of the cat as its fondness for sporting with its living prey before killing it."

In ancient times, cats were more favorably regarded. In Egypt, they were looked upon as sacred animals. To kill one was an offense punished with death; and when a cat died, in the course of nature, all the inmates of the house had to go into mourning.

Among the Egyptian statues, a cat headed deity is familiar, and mummies of that sacred animal are abundant. They are to be seen, some two or three thousand years old, in most modern collections of antiquities.

As late as the time of King Richard II., who died in the year 1400, a race of wild cats abounded in England. They are mentioned by name in a charter to *the Abbot of Peterborough*, permitting him to hunt game in the royal forests.

Cat-skins, probably of the wild cat, were a favorite trimming of handsome dresses in the middle ages, and restricted to the use and adornment of certain ranks by the sumptuary laws of the period.

According to Home's "Everyday Book," cats were introduced into England from the Island of Cyprus, by merchants who came to trade for tin, a metal which then, as now, was largely *found in the southwestern shire of* Cornwall.

By the ancient law of Wales, a considerable money-value was fixed on cats and kittens. A good mouser fetched fourpence (the same price as a calf), while a new-born kitten was valued at a penny.

In the middle ages, a cat was the only animal allowed to be kept by the "Ankers"—recluses who lived in little cells, built against the walls of a church or a cathedral, without any opening *into the sacred building*.

In Providence, in the south of France, a singular survival of the Egyptian cat-worship lingered long. At the feast of Corpus Christi, the finest tom-cat in the country was wrapped in swaddling clothes and exhibited on a magnificent shrine; but, in the same place, on St. John's day, a number of cats were burned in the public square, on suspicion of being accomplices of wizards or witches.

It is said that cats are naturally *more clever* than dogs, and can be more successfully trained for performing purposes. At present, in the streets of London, is an exhibition of two cats who box cleverly—feline pugilists!

There exists more than a tradition, actually a credible record, of a concert of cats that was gratuitously exhibited in Paris. It was called a "Concert Miaulant" from the mewing of the animals.

They were trained, it was discovered, by having their tails pulled every time a certain note was struck, and the disagreeable remembrance caused them to mew each time they heard the sound again.

There are many stories of feline intelligence, but, as a general rule, the cat is less popular than the dog, and the household do not know much about it. The breakage of crockery, and the absence of cold viands from the larder are liberally declared to have been caused by Grimalkin, but perhaps the servants know more about it.

The cat has settled down into service, as guarding the domicile from the mischievous mouse—its natural enemy. The dog is a drawing room favorite, if not too bulky, and associates with its master.

The cat remains mostly in the basement, and is expected to earn its own living by waging perpetual warfare against the rats and mice. A kitten, only a few weeks old recognizes its enemy and its prey, on seeing it for the first time.

Cats have got a bad name from their habit of slinking out of the house at nights, and joining, toward the "wee, sma' hours," in the caterwauling concert in the yard and on the house-roof, which deprives many of their sleep.

They are punctual, however, in their attendance at meal-times. In Sir Henry Meux's great brewery, in London, where a large number of cats are part of the establishment, they are called to their dinner by the peal of a bell, and gathered in simultaneously, with the punctuality of hungry gourmands.

The Glasgow (Kentucky) *Times*, under the heading "Where all the robins are," says "Down near Old Rocky Hill, one mile from Settle's mill, on the farm of Mr. Persly Smith, is a robin's roost that equals the pigeon roost of olden times. A cedar thicket of about sixty acres furnishes the birds a lodging place. About sundown every evening constant streams from every direction pour into the grove and almost obscure the heavens in their flight. Night finds almost every bush in the thicket bending with its red-breasted load. For the past few weeks lovers of sport for miles around have visited the place, and every night the thicket is illuminated with torches of men with clubs and sacks gathering the feathery harvest. Mr. Smith has killed over 2,000 and hundreds are carried away every night, but they don't seem to decrease; there are millions of them. Large quantities of them have been sold in town. They are very fat and make, when well cooked, a dish good enough for anybody."

Lovin' a cottage is more common than lovin' the cottage's mistress.

A certain grocer calls his scales "ambush" because they lie in weight.

Some men are called muffs because they are used to keep a flirt's hand in.

The best of us are very apt to be mealy mouthed about three times a day.

The experiment has been tried often enough to prove that a jack-knife is not a night-key.

"Well, wife, you can't say I ever contracted bad habits." "No, sir, you generally expand them."

Some time ago a difficulty arose between the Aquetong Fire Company and the city of Lambertville, and the city brought suit against the company to recover $1,600, which had been contributed by the corporation toward the purchase of the steamer, the decision ultimately being made in favor of the company. After the case had been tried, and while the decision was still pending, the Aquetong boys, early one morning, ran the engine and carriage over into Pennsylvania, and after that all trace of them was lost. The Lambertville *Record* gives the following sequel:

A committee of the Aquetong Fire Company, we learn, sold the steamer and hose carriage which were run off from this city recently, to Peto of Philadelphia, for $230. This sum was subsequently reduced to $170 because the lamps and branch pipes had been stolen from the engine. The engine was delivered on the cars at Doylestown, and that cost $12. The engine and hose carriage cost, some years ago, about $3,300. The hose carriage was worth $200 alone. On Monday evening of last week the company (nineteen in number) met to divide the plunder. After paying lawyer's expenses, etc., there was left $7.04 for each member. After pocketing this sum, all but two or three, who refused to be co-partners in the shameful transaction, the company resolved to disband.

The steamer was an Allerton build.

Laws of New Jersey.

CHAPTER XXV.

An act to authorize railroad corporations to construct, acquire, maintain and operate lines of telegraph for commercial and public uses.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall be lawful for every railroad corporation of this state organized by virtue of any special act of incorporation, or otherwise, and for every railroad corporation organized under the laws of another state, but leasing or operating a railroad or canal in this state, and such corporations are hereby authorized and empowered to erect, establish and maintain a line or lines of telegraph [illegible]

2. And be it enacted, That it shall be the duty of every railroad corporation availing itself of this act [illegible]

3. And be it enacted, That any railroad corporation availing itself of this act, shall be and is hereby authorized to charge, receive and to collect before transmission, for each message of not more than ten words, twenty-five cents; and for each additional word, one cent; provided, however, that said messages are intended to be transmitted only over the telegraph lines of the company to whom such messages are tendered.

4. And be it enacted, That it shall be lawful for any railroad corporation, availing itself of this act [illegible]

5. And be it enacted, That this act shall take effect immediately, and all acts and parts of acts inconsistent herewith, are hereby repealed.

Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever the property, rights, powers, immunities, privileges and franchises of any turnpike, bridge, plank road, gas, water, or gas and water corporation organized by or under any law of this state, shall be or has been sold and conveyed under and by virtue of any process or decree of any court in this state, or of the circuit court of the United States [illegible]

2. And be it enacted, That it shall be the duty of such new corporation [illegible]

3. And be it enacted, That this act shall take effect immediately.

Approved February 17, 1881.

CHAPTER XXVII.

An act to amend "An act relative to the writ of certiorari" (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That section nine of "An act relative to the writ of certiorari" (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four, be hereby amended so as to read as follows:

9. And be it enacted, That in all cases of writs of certiorari brought to remove any tax or assessment [illegible]

2. And be it enacted, That all acts and parts of acts inconsistent herewith, be and the same are hereby repealed, and this act shall take effect immediately.

Approved February 17, 1881.

CHAPTER XXVIII.

A further supplement to an act entitled "An act concerning roads," approved March twenty-seventh, one thousand eight hundred and seventy-four.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in order to avoid the expenses necessarily attendant upon the vacation of private roads in the manner now authorized by law, whenever any private road, laid out according to law by the surveyors of the highways [illegible]

2. And be it enacted, That this act shall take effect immediately.

Approved February 23, 1881.

CHAPTER XXXIX.

An act to defray the incidental expenses of the special joint committee appointed by virtue of assembly joint resolution, number eight, of one thousand eight hundred and eighty, to examine and consider the reports of the special tax commission, and the commission to draft a system of general laws for the government of municipalities of this state, and the bills accompanying the same and report thereon.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall be lawful for the treasurer of the state of New Jersey to pay upon the warrant of the comptroller, to the persons hereinafter named, the following amounts, viz.:

Item No. 1. To William J. Bruce, for services and expenses as clerk to said joint committee, five hundred dollars, $500 00

Item No. 2. To the chairman of said joint committee, to defray the expenses of the members of said committee, the sum of one thousand five hundred dollars, $1,500 00

2. And be it enacted, That this act shall take effect immediately.

Approved February 23, 1881.

JOINT RESOLUTION, NO. 1.

Joint Resolution for the better ventilation of the senate and assembly chambers.

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That the needed alterations and improvements shall be made in the ventilation of the senate and assembly chambers upon such plan as may be adopted and approved by the governor and treasurer, for the better ventilating of the same, and for the prevention of the downward currents of cold air [illegible] at an expense not exceeding five hundred dollars, and the necessary amount for that purpose is hereby appropriated [illegible]

2. And be it resolved, That this resolution shall take effect immediately.

Approved February 23, 1881.

JOINT RESOLUTION, NO. II.

Joint Resolution in reference to Revision of the Statutes for the use of the courts.

Whereas, the number of copies of the Revision of the statutes of the State of New Jersey, in the State Library, is insufficient for the use of both the courts and the legislature;

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That the state treasurer be hereby authorized and directed to furnish to the state librarian twelve copies of the Revision of the statutes of the State of New Jersey, the same to be stamped "State Library of New Jersey," and delivered to the sergeants-at-arms of the state courts for use in said courts while in session at the State House in Trenton.

2. And be it resolved, That this resolution shall take effect immediately.

Approved February 24, 1881.

CRIMES AND ACCIDENTS.

Any Fool can Destroy—Only the Man with Valuable Material can Save—Reader, take Warning Before it is too Late.

The summer of 1880 contributed largely to the roll of disease and death. Stupidity, ignorance and carelessness can take life any fool can destroy. But the ability to rescue, to crush disease, to make life worth having is the joint product of nature and education. For this reason Dr. David Kennedy, of Rondout, N. Y., has reason to be both proud and thankful that his name is gratefully mentioned by so many whom he has aided or helped. "Kennedy's Favorite Remedy" has become a household word. Everybody sooner or later, gets sick, and sickness is lurking everywhere. "Favorite Remedy" steps in at this point. It is not expensive and it is efficient. For all diseases of the Blood, Biliousness, Kidney Complaint, Constipation, and the aches and ills which make the domestic life of women a cross too hard to bear, "Kennedy's Favorite Remedy" has been successfully used. It will build up a system which has broken down by overwork. It is the thing for the student and literary man to have at hand. [illegible] in the home of every mechanic. "Favorite Remedy" is economical, safe and pleasant. Buy it and try it; or, if you need advice as well, write to Dr. Kennedy, who is in active practice as a surgeon and physician at Rondout, N. Y. LEGAL ADVERTISEMENTS.

Surrogate's Order to Limit Creditors.
Union County, Surrogate's Office,
January 29th, 1881.

Daniel A. Runyon, Administrator of Charlotte Runyon, deceased.

On application of the above named Administrator, it is ordered that said Administrator give Public Notice to the Creditors of the estate of said decedent to bring in their debts, demands or claims against the same, under oath, within nine months from this date, by setting up a copy of this Order, within twenty days hereafter in five of the most public places in the County of Union, for two months, and also within the said twenty days, by advertising the same in THE CONSTITUTIONALIST for the same space of time; and if any Creditor shall neglect to exhibit his or her debt, demand or claim, within the said period of nine months, public notice being given as aforesaid, such Creditor shall be forever barred of his or her action therefor against the said Administrator.

Surrogate's Order to Limit Creditors.
Union County, Surrogate's Office,
February 7th, 1881.

Joseph A. Hatz, Administrator of Augustus Smith, deceased.

On application of the above named Administrator it is ordered that said Administrator give Public Notice to the Creditors of the estate of the said decedent, to bring in their debts, demands or claims against the same, under oath, within nine months from this date, by setting up a copy of this order, within twenty days hereafter, in five of the most public places in the County of Union, for two months, and also within the said twenty days, by advertising the same in the CONSTITUTIONALIST for the same space of time; and if any Creditor shall neglect to exhibit his or her debt, demand or claim, within the said period of nine months, public notice being given as aforesaid, such Creditor shall be forever barred of his or her action therefor against the said Administrator.

By JAMES J. GERBER, Surrogate.

Union Orphan's Court.
Term of January, 1881.

Rule to Show Cause for Sale of Lands to Pay Debts.

William H. Shotwell, Administrator of Alexander Dunham, deceased.

The said Administrator having made and exhibited to this Court, under oath, a true and just account of the personal estate and debts of said deceased, as far as he can discover the same, and it appearing that the personal estate of said deceased is insufficient to pay his said debts, and praying the aid of the Court in the premises. The Court thereupon orders, *that all persons interested in the estate* which was of said deceased, appear before this Court on Wednesday, the twentieth day of April next, to show cause, if any they have, why so much of the lands and real estate of said deceased, in the County of Union, should not be sold as will be sufficient to pay his said debts.

Dated Feb'y 8, 1881.
JAMES J. GERBER, Surrogate.

LEGAL NOTICES.

IN CHANCERY OF NEW JERSEY.

To William Harman Brown and Sarah J. Lewis:

By virtue of an order of the Court of Chancery of New Jersey made on the day of the date hereof, in a cause wherein William C. Stanbery is complainant and you and others are defendants, you are required to appear and plead, answer or demur to the bill of said complainant on or before the Twenty-eighth day of March next, or the said bill will be taken as confessed against you.

The said bill is filed to foreclose a mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbery, on lands in the city of Plainfield, in Union County, N. J., dated July 15, A. D. 1873. And also to foreclose a certain other mortgage given as collateral to the first described mortgage given by Kate E. Fuller and Henry C. Fuller, her husband, to said William C. Stanbery, on certain lands in the city of Plainfield, in the County and State aforesaid, dated July 15, A. D. 1873.

And you William Harman Brown are made defendant, because you hold a mortgage on the lands described in the mortgage first above described.

And you Sarah J. Lewis are made defendant, because you hold a mortgage on the lands described in said collateral mortgage.

POETRY.

SMILES INSTEAD OF TEARS.

When shadows hide the sun away,
What use to sigh about it?
Keep up a cheerful heart, and say,
If sunshine can't be ours to-day,
We'll get along without it.

If things go wrong, let worrying go;
What good will come of fretting?
It may be it is better so,
God plans it all, and must know;
So spare your vain regretting.

There is a sunshine that makes good
The lack of sun above us,
In cheerful words and happy mood,
And hearts that will not darkly brood,
In smiles of those who love us.

We cannot help what happens here,
So make the best, my brother,
Of what fate sends from year to year;
A smile is better than a tear
For us and for each other.

MISCELLANEOUS READING.

READING THE RECIPE.

Old Mrs. Jones borrowed Mrs. Brown's recipe for making watermelon pickle the other day, and, being hard of hearing, as she couldn't see to read very well, she got her grandson Jakie to read it for her. Jakie took the paper, like a dutiful child, and, holding it upside down, commenced:

"Take a green watermelon—"

"Why, Jakie, ain't you mistaken? I thought the melon must be ripe."

"Oh, what's the matter wid yer! Who ever see a watermelon that wasn't green?"

"Cut the watermelon into four halves—"

"But there ain't only two halves to anything. I don't believe you are reading that, Jakie."

"Well, I don't have to, anyhow that's what the resect says. Then soak it in a pint cup—"

"Oh, dear me! How in the world can you put a watermelon in a pint cup?"

"Well, I ain't here to tell the wheres and howfores. I'm just readin' the facts and you can put in the filosofee to suit your taste. After soakin' the melon put it in a skillet and fry it fur five days."

"I wonder if Mrs Brown sent me such a recipe as that?" said the old lady; but Jakie kept on:

"Then put the watermelon in a quart bowl and pour over it a gallon of vinegar, taking care not to spill the vinegar."

"I'd just like to know how you can pour a gallon into a quart bowl without spilling any of it;" but Jakie continued:

"Then sift a peck of red pepper through a milk strainer over the melon, and one cup of butter and the white and yolks and shells of three eggs, and throw in the old hen that laid them, and four sticks of cinnamon [illegible] and two tablespoonfuls of quinine and run it through a coffee mill and let it stand until it ferments, and then put it in a tin can and tie the can to a dog's tail—this will stir it up to the right consistency—and then you can turn it off in crocks and have it ready for use. Serve it cold and spread it on mince pie and it makes capital dessert," and Jakie slid out of the door and left the old lady looking like a wrinkle on a monument.—*Detroit Free Press.*

THE MINISTERS COW.

It is a good thing for a preacher to stick to his text. But if he is tied to it, it may run away with him, especially if it goes on all fours. An exchange tells this droll story of a clergyman's experiment, and how it ended:

Some years ago there lived in Central New York a very worthy but eccentric divine, known as Father Goss. He had a hired man named Isaac, who always obeyed orders without question.

Father Goss bought a cow one day which proved refractory when milked, refusing to surrender the lacteal fluid, although Isaac used all the persuasive arts of which he was master. He finally reported her delinquencies to his master.

"Well, Isaac," said he, "go to the barn and get those pieces of new rope."

Isaac obeyed; the cow was driven into the stable, tied with a piece of the rope, when the Rev. came out armed with a knife.

"Now," he explained to Isaac, "I will get on the cow's back and you tie my feet beneath her, then you go on with your milking and with my weight on her back she must give down her milk."

Isaac obeyed. The feet were tied, the pail got and milking commenced.

But bossy objected, and plunged wildly about. The stable was low and the Rev's head was fearfully thumped. "O Isaac! Isaac!" bawled he, "cut the rope."

Isaac seized the knife and cut, not the rope which tied the master's feet, but the one that tied the cow. The stable door was open, also the yard gate.

Away darted the cow, the terrified man on her back, helpless, roaring, "Stop her, stop her!"

While madly careering down the road he met a parishoner who excitedly called, "Why, Mr. Goss, where are you going?"

"Only God and this cow knows," groaned he; "I don't."

The animal was finally caught and the man released, much frightened but unhurt.

BOUND TO HAVE IT.

Elder Traverse was once the most noted man in Eastern New York as a camp-meeting leader. He had a powerful voice, was a fluent speaker and in the prime of life could get away with any man who ever sought to disturb his meetings.

The elder was once holding a camp-meeting near Yonkers, and word reached him that a notorious rough, known as "Chicago Bob," intended to be on hand on Sunday for a row. He made no reply and took no precautions, and when Bob appeared on the grounds with a lighted cigar in his mouth and a slung-shot in his sleeve, the elder didn't grow pale for a cent. Bob had come out there to run things and he took a forward seat. When the people started to sing he began crowing, and thus created confusion.

"Robert, you had better sit down," observed the elder, as he came forward.

"Chicago Bob sits down for no man," was the reply.

"Sit down, Robert," continued the elder, as he put his hand on the loafer's arm.

"Here goes to clear out the crowd and you'd better look out!" crowed Bob, as he peeled off his coat.

Next instant the elder hit him under the ear, and, as he fell over the bench he was followed up and hit again and again, and while in a semi-unconscious state he was carried off by his friends.

Next day he was the first one to go forward for prayers. The elder put his hand on his head and asked:

"Robert, are you in earnest?"

"I am."

"Are you really seeking after faith?"

"You bet I am! If faith helps a man to get in his work as quick as you did yesterday I'm bound to have it if I have to sell my hat!"

He didn't get it very strong, but did no more crowing while the meeting lasted.

READING ALOUD IN THE FAMILY.

"Why do you never read aloud, Maria?" asked Mr. Jones of his wife. "The *Scientific American* says that reading aloud is one of the bonds that cement families together; wonder you never thought of it."

"I think of it, Mr. Jones! Why didn't you think of it yourself?"

"Well, you see, I am often hoarse and tired, and then I want to smoke at night; but you have nothing else to do. Suppose we try it; you read and I'll listen."

"Very well; when will we begin?"

"Why, to-night, with the morning paper. I haven't half read it; now I'll smoke and listen. This is comfortable, I can tell you. After all, there's no place like home."

Mrs. Jones was pleased, and said, "No, dear," and took up the paper. She turned it over once or twice, and rustled it a good deal, but finally, in a clear, distinct, but feminine voice, she began: "Wedding bells—"

"Stop, Maria!" said Mr. Jones; "read the markets first."

A long rustling and turning over of the paper. "I can not find them, dear; they're left out; but her's a lovely murder!"

"Well," in a disappointed voice, "go on."

So Mrs. Jones read the "Horrible Murder of an Entire Family," which recital made Jones so sick that he threw away his cigar; and then she came to the "Boston Woman's Deposit Company," which Jones was anxious to hear about, but when she had read about three lines she said, "O, pshaw! No woman would act that way; there isn't a word of truth in it," and read an account of a baby that was found on the doorstep, and an opening of fall millinery. Jones was sound asleep by this time, but she did not know it. Then she turned the paper again, and Jones was suddenly aroused by a firm grip on his shoulder.

"Hey, hallo! what time is it, Maria? It's too early to get up yet."

"Mr. Jones!" shouted his wife; she stood over him like an avenging angel and held the paper before his hazel eyes.

"Who—cut—that—piece—out—Mr. Jones?"

Yes there was a quarter of a column cut cleanly from the paper. Jones had done it, but, to save his life, the wretched man could not tell what for. As a desperate venture he said:

"It was an article on oleomargarine; I remember now."

"Old Margarine! And what did you want of her?"

He explained that it was a kind of butter, but she didn't believe it. Guilt was written all over him. She stared at that empty place in the paper until it seemed to her that she must die if she did not know what was there. Then she broke down and sobbed;

"And, you—you—said there was no place like home, and—and—now—"

"There isn't!" shouted Jones, as he took his hat and plunged into the darkness. "For pure, unadulterated misery, there is no place like it!"

Reading aloud is not encouraged in the Jones family any more. Mrs. Jones bought a duplicate copy of that paper the next day and found out that it was only a stupid old list of sales in real estate, and Jones says that any other kind of cement for keeping families together is preferable to reading aloud.

FEMININE FANCIES.

Slate-gray is revived.

Strings of bonnets are short and wide.

New styles of dress uncover the throat.

Bracelets are worn outside the sleeves.

Red is in especial favor for millinery devices.

Shades of honeysuckle is used on new bonnets.

Golden buttercup is the newest shade of yellow.

The new ginghams are nearly all in large gay plaids.

The coal-scuttle shape is heralded as the coming bonnet.

Black net vails, with polka dots of chenille, are worn in the street.

There is no torture that a woman would not suffer to enhance her beauty.

Necklaces are worn even over high-necked dresses.

Handsome silver jewelry is becoming as fashionable as gold.

Slashed sleeves, showing a gay lining underneath, are a promised novelty.

The immense collars which come to a point in front are Anne of Austria collars.

Box-plaited skirts will probably succeed the kilt skirts which have been worn so long.

A bird's claw with gilt talons replaces the tiger's paw, which has been used on winter hats.

The old-fashioned flowing sleeves of lace are again popular. The wide directoire collars are worn with them.

Dove-colored silk stockings embroidered in colors to match the toilet are the very latest novelties in French hosiery.

Egyptian scarabees and South American beetles have been supplanted by locusts and Texas tarantulas formed of gold and enamel inlaid with imitation jewels.

Bridesmaids wear short vails of white silk tulle, and shoulder capes, and dainty mouchoir muffs, formed entirely of white flowers and edged with frills of rich lace.

Chenille flowers and foliage are very fashionable; they are used for coiffures and the trimming of bonnets, and are especially pretty and effective when twisted among the braids and coils of the hair.

Brocaded and plaided surah is much used for brides on Spring bonnets. A pair of those broad scarfs like strings, with an Alsacian bow on the crown of the hat, is all the trimming that is needed to transform a Winter bonnet into a bright-looking head-dress suitable to wear until the June breezes blow.

Proceedings of the Board of Chosen Freeholders of the County of Union, N. J.

[OFFICIAL.]

ELIZABETH, N. J., Mar. 3d, 1881.

Pursuant to adjournment the Board of Chosen Freeholders, of the County of Union, met at the Court House on Thursday, March 3d, 1881, at 11 o'clock a. m.

Regular meeting.

Present—Director Martine and Freeholders Briant, Crowell, Doty, Forsyth, Hubbard, Isenmann, Jewell, Miller, Nolte, O'Sullivan, Randolph, Thompson and Wilcox—14.

Absent—Freeholders Roll, Smith—2.

The minutes of the preceeding meeting were read (omitting bills ordered paid) and on motion approved as read.

COMMUNICATIONS.

The following from the County Attorney was read:

LAW OFFICES OF
GILHOOLY & MARSH.
ELIZABETH, N. J., March 3, 1881.

To C. W. L. Martine, Director, etc.:

DEAR SIR—The Supreme Court of this State at the present term rendered these decisions in favor of the County of Union in the following cases, Fairbanks vs. Sheridan, Collector, Sheridan, Collector, vs. New Providence, and Sheridan, Collector, vs. Plainfield, with the two latter you are already familiar. The former is a suit brought by Henry F. Fairbanks about three years ago, for fees claimed by him as Police Justice of Elizabeth. In February, 1880, he obtained an alternative writ of mandamus against the Collector, to which a demurrer was filed by me in May last, and argued in November last; at this term the demurrer was sustained and leave given to Mr. Fairbanks to serve an amended writ.

Yours respectfully,
P. H. GILHOOLY.

Freeholder Forsyth moved the communication be received and spread upon the minutes.

Which was carried.

Director Martine presented the following statement which was read by the Clerk:

To the Honorable the Board of Chosen Freeholders of Union County:

GENTLEMEN:

In accordance with your resolution of May last authorizing your Director, Collector and Attorney to collect all taxes due the County, proceedings were taken against all delinquents, the places involved were Summit, Rahway, New Providence and Plainfield. Proceedings were instituted to collect all arrearages with interest, and mandamus would have been issued in each case at the last term of the Court had it not been for the interest claim, the consideration of which passed the decision over to the present term; in the case of Summit by resolution passed at you last meeting the case was stayed. Rahway having changed her city treasurer will cause some delay; as to New Providence and Plainfield mandamuses have been awarded with interest from July 6th, 1880, New Providence having in the meantime paid the claim in full.

In these opinions it has been again shown that the State and County must be paid out of the first monies collected and it is also settled for the first time that interest is chargeable on the whole amount after December 23d in each year if an amount has then been collected sufficient to pay the State and County, or in other words, interest is not to commence until a sufficient amount has been collected to pay the State and County tax.

The importance of our insistment upon the prompt payment of all monies due the State and County is shown by the complications that always arise when a portion of the taxes of two and sometimes three years fall in arrear, when new Collector's bondsmen and other officials take the place of old ones; also, by the condition of sister counties seeking legislation, authorizing them to issue Tax Arrears Bonds to meet the demands of the State, thereby giving themselves temporary relief from present embarrassments.

Many look upon it as a hardship that the State and County should insist upon taking their quota out of the first money collected. A little thought it appears to me ought to dispel that idea, for while the State runs its government, executive, legislative and judicial, and the County provides for the public records, courts, constables, buildings, criminals, lunatics, and in many instances the paupers, society has that which is the most necessary for its protection and safety, therefore the means should be provided to meet these obligations promptly, and if temporary loans on tax arrears or "tax arrears bonds" should be required, they should be raised or issued by the cities and towns that have the individual accounts of those arrearages. Therefore it appears that the law in justice to all has provided that all shrinkage in the collection of tax levies shall fall on each city or township that may be responsible for those shrinkages, which may have been brought on by small embezzlements, carelessness in the collections or other causes.

A considerable amount of interest is charged on the Collector's books against some of the cities and townships, and as these mandamus opinions debar us from collecting, where the claim has not been properly made in time, I would suggest that a resolution be passed, authorizing the Collector (after consultation with County Attorney) to cancel all that cannot be collected. Also a resolution authorizing the continuance of such steps as the Attorney may suggest to collect unpaid taxes of 1880.

Most Respectfully,
C. W. L. MARTINE,
Director.

Elizabeth, Feb. 3d, 1881.

COMMITTEE REPORTS.

Freeholder Randolph, from the special committee on maintaining county lunacy patients in the county, presented a supplementary report.

Freeholder Forsyth moved the report be received and printed as a supplement to the regular report presented at the last meeting.

Which was carried by a unanimous vote.

RESOLUTIONS.

By Freeholder Randolph:

Resolved, That the collector be requested to consult with the County Attorney as to the amounts of interest charged up to the various cities and townships, and report back to this Board at its next meeting such amounts of interest respectively, as the decision of the Supreme Court in mandamus cases decided were uncollectable.

On motion adopted.

By Freeholder Crowell:

Resolved, That the Committee on Milton avenue draw bridge, Rahway, be empowered to renew the contract with Peter Van Pelt, draw tender for said bridge, at the same compensation he now receives. Said contract having expired March 1st, 1881.

On motion adopted by a unanimous vote.

By Freeholder Forsyth:

Resolved, That the Special Committee on Elizabeth draw be authorized to make a contract with suitable persons to properly tend the three draw bridges in said city, at salaries not to exceed $375 for the South Front street, and $100 for South street, and $50 for Bridge street.

On motion adopted by unanimous vote.

By Freeholder Doty:

Resolved, That the Director, Collector and County Attorney are hereby authorized to take such steps as the Attorney may suggest to collect all taxes due the county for the year 1880.

On motion adopted by a unanimous vote.

By Freeholder Bryant:

Resolved, That $500 be transferred to the Bridge account and $200 to the Interest account from the Lunacy account.

On motion adopted.

PAYMENT OF BILLS.

The following bills were read and ordered paid, all bills on which the roll was called being by unanimous vote:

Innocent Men Lynched.

Information was on Thursday last received by Mr. Gaven Spence, a well-known watch-maker and jeweler of Newark, that his brother-in-law, Frank J. White, thirty years of age, had met with a terrible death at the hands of a vigilance committee, in Colorado. Mr. White was a member of a law firm in Washington, D. C., and went to Colorado during the past summer to attend to land claims for a client. While there he purchased an interest in a gold mine. He bought some mules, and, with a male servant, set out upon a prospecting tour. In the mountains he and his companion were overtaken by a vigilance committee who, finding them in possession of the mules, which had been stolen, hung him and his servant to a tree.

Rev. Dr. Wilson, who communicates this intelligence, states that the murderous Vigilantes would not hear Mr. White's explanation of the matter in which the mules came into his possession, but cruelly carried out the edict of Judge Lynch, and they put to death two innocent men. White has a brother living in Union County, N. J., and both he and the wife of Gaven Spence are burdened with grief at the terrible death of their brother.—*Exchange.*

Catholics in New Jersey.

The diocese of Newark, which comprises the State of New Jersey, according to the Catholic Directory, has a Catholic population of 175,000. The population of the State of New Jersey, according to the last census, was 1,130,892, so that the proportion of Catholics is over 15 per cent., or almost 1 to every 6 of the population. There are 192 priests and 820 religious—85 men and 735 women. There are 56 churches, 40 stations, 4 monasteries, 8 convents and 1 seminary. There are 3 colleges, 22 academies and 153 parochial schools, attended by 26,355 pupils; 10 orphanage schools, with 839 pupils, and 3 industrial schools, with 230 pupils.

A Genealogical Problem.

Our exchanges which are claiming for the city they represent the honor of being the birthplace of William Lehman Ashmead Bartlett-Coutts Bartlett, will please notice the following from London: "The Queen has been pleased to grant unto William Lehman Ashmead Bartlett, her royal license to bear the arms of Burdett-Coutts quarterly with those of his own family." A description of the arms of the Ashmead-Bartlett family would be information surprising to us and, we surmise, also to the family itself.

HONOR.

One of the very best Governors the State of New York ever had was Lucius Robinson, because he was a vigilant sentinel at the post of public duty, carefully examining and impartially deciding every measure placed before him, thoughtfully discharging all official acts, and unhesitatingly doing what he believed to be right.

New Jersey has a Chief Magistrate of like sterling worth and accomplishments. Sound in judgment, constant in application and resolute in action, no safer hand ever held the helm of State than that of Governor Ludlow.

TIGHT.

They have a tight time in Washington. By which we do not mean to insinuate, that, since Mrs. Hayes and cold water abdicated the White House, the denizens of the National Capitol are on a prolonged spree.

Nothing of the sort.

The Senate is tight.

What?

Don't understand us as saying that all the grave and honorable Senators are controlled by spiritual influences of a wrong kind.

The thought is horrible.

The Senate is politically tight. Now we come to the kernel of the nut. Equally divided, not 7 to 8, as was that Electoral Commission of unsavory record.

With the vacancies all filled, as they soon will be, and counting Davis, of Illinois, on the Democratic side, and Mahone, of Virginia, on the Republican, where negotiations of doubtful virtue are aiming to place him, parties will stand exactly even, with Vice President Arthur to give casting votes as Conkling may nod his head.

Most too tight.

ABSURDITY.

Closer the subject is investigated, clearer appears the absurdity of trying to govern Cities by a general law, as the amended Constitution of New Jersey now demands. According to Sam Patch—"some things can be done as well as others," but that is not one of them.

The present Legislature has before it a bill for such ostensible purpose. It is a formidable printed document, evincing great skill and labor in the way of preparation, yet in effect utterly impracticable, for the simple reason, that scarcely two cities can be found alike adapted to the legal authority it seeks to confer. They all differ to a greater or less degree in local needs and particulars, and what may be beneficial to one would prove injurious to another. To fasten upon Plainfield the same governing conditions required by Jersey City is lowering common sense far below par.

If we rightly understand the position taken by Governor Ludlow, a law may be entitled "general," yet become in fact "special," if its local validity is made wholly or in part dependent upon the ratification vote of a City or Township. A law to be "general" must be positive and uniform. For one locality to accept its provisions and another to reject them is, in effect, calling a thing by a wrong name and doing specifically what the Constitution prohibits.

That, to us, is an intelligent view of the case, and makes manifest the necessity of revising our State Constitution as the Governor recommended.

MANDAMUS.

A mandamus, ordering the City Treasurer of Plainfield to immediately pay over to the County Collector several thousand dollars alleged to be due on taxes levied for State and County purposes, has been served, and it certainly looks like a singular command, in face of the fact, that not a dollar of such funds ever passed into the City Treasury.

An act of the Legislature, approved March 6, 1878, decreed—"That the township of Plainfield is hereby abolished; that the assessor and collector of said township elected or appointed shall remain in and perform the duties of their respective offices for the term for which they were elected or appointed, after which the assessor and collector of said city shall have the same powers and perform the duties as the assessor and collector of said township are now required to perform."

And the present City Charter provides—"That the collector of revenue shall pay over all monies received by him for the city, as soon as collected, to the treasurer of said city, who shall pay over to the treasurer of the state, or to the collector of Union county, the full quota of taxes required by law to be raised in said city for state and county purposes, so far as the same may have been collected."

From which it is plainly apparent that the Common Council, as a body, stands the successor of the former Township Committee, and that the City Collector is obligated to act in the name and on behalf of the City in all matters connected with his office.

If the City of Plainfield is responsible for State, County and School taxes, should not all such revenue be handed over by the Collector to the City Treasurer, as fast as collected, and by that official be disbursed according to law?

That is the question, and the time has arrived to have it satisfactorily answered.

The duty of the Common Council is plain and imperative, and ought to be discharged and the result made public, as fully as practicable, at the earliest possible date. It consists in ascertaining through direct examination—

1st—The amount of taxes levied for State, County and School purposes in each of the past five years including 1880.

2nd—The precise amount collected for those several accounts in each of said years.

3rd—Exactly how the money so collected was disposed of, to whom and when paid.

4th—The detailed amount of taxes remaining unpaid for each of said years.

5th—The reason why the Collector has ignored the City Treasurer as the custodian of collected funds.

6th—What legal measures, if any, have been instituted for the realization of back taxes.

The Collector is no doubt prepared and willing to facilitate any investigation the Common Council may make, and the people, whose right it is, are anxious to know the exact condition of affairs. We hope there will be no delay. A mandamus is an unpleasant missive.

In the redistricting of the State, the Republicans have placed Summit and New Providence in the Second district.

THE GOVERNOR'S APPOINTMENTS.

The appointment for State officers by Gov. Ludlow on Monday last, created no little stir among the Republicans. They don't like them, especially that of State Secretary Kelsey. But as our excellent Governor has a habit of consulting the interests of the people, as well as that of his own party, in all his doings as Chief Magistrate of the State, the howls of the opposition will avail them nothing. Regarding the nomination for Prison Keeper, the many friends of Hon. Charles Campbell, from Middlesex, in this section, would have been pleased at that gentleman's nomination for the position. The Governor, however, cannot please everyone, and undoubtedly has made the best appointments he could under the circumstances. In the case of Prosecutor of Pleas for Union County, the many friends of Wm. B. Maxson would have been pleased at his appointment for the position. However, in the selection of Mr. William R. Wilson, of Elizabeth, the citizens of the County may rest assured that the Governor has made a good selection. Mr. Wilson, although a young man, has talent and material in him to make a worthy successor to his predecessor, Gen. Fay, who has so ably filled the office for two terms.

AN INIQUITOUS BILL.

Every year there is to be found some would-be "Reformer," acting in the capacity of State Legislator, intent on carrying out his one pet scheme of depriving the legitimate press of the State of a pittance in publishing the laws enacted by the Legislature, with the idea in his own mind that he is faithfully serving his constituents and the public generally by "reducing expenses." In nine cases out of ten this self-constituted "reformer" is found to be some one who has a personal axe to grind by legislating against some particular editor who has not written him up in proper shape when running for office, or else has declared through his columns that said aspirant for political favor was not the proper person to receive the votes and suffrages of the people. Numerous attempts have been made during the present session of the Legislature to pass such a bill. Senator Beckman, a chronic hater of the press, has tried it—and failed. But the "boss" bill of the session, is that introduced into the Senate by Mr. Havens, and passed that body 12 to 7, which authorizes the publication of the laws in all newspapers of the State having a circulation of 500, and which is two years of age, at a compensation of $25 each. Should this bill pass the House, here is a chance for some of the newly-fledged news (?) papers of the State to struggle along until they "become of age," and then receive their reward for services in the interest of dear party in the shape of $25. Mr. Havens should be awarded "the cake" for his noble efforts toward "Reform."

THE RUSSIAN REGICIDE.

The whole world was horrified on Sunday to hear of the last attempt upon the life of the Czar of Russia—which attempt had resulted as intended. While returning from a parade about two o'clock p. m. on Sunday, a hand-bomb of glass filled with nitro-glycerine was thrown by a person whom it is believed accompanied the parade with three others in an open barouche. The missile exploded upon striking the ground in the rear of the Czar's sleigh. The terrible force of the explosive was attested by the torn pavement and by a hole in the frozen ground four feet in depth and four feet in width. Singularly enough, the only injury the Czar received from this bomb, which completely shattered the back of his sleigh, was a wound over the eye. He showed great coolness on alighting, and immediately approached Rousskaoff, the would-be assassin, and ordered his arrest. But a few moments after the Czar had alighted, another bomb exploded at his feet shattering both legs and inflicting other terrible injuries. The Emperor was raised from the ground and conveyed to the Winter Palace in Col. Dorjibky's sleigh. Physicians at once were summoned and both legs amputated, but the loss of blood was too copious to admit of the victim's recovery. The Czar drew his last breath at 3:45 o'clock, less than two hours after receiving his mortal wounds.

The Grand Duke Michael was driving behind the Czar's sleigh with Col. Dorjibky seated beside him. The Grand Duke escaped without a scratch, but Col. Dorjibky was much injured. So far as is present known 20 persons were wounded by the flying fragments of the deadly missile, 13 of whom are in the hospital. During the night a Cossack and a civilian, who declined to give his name, died of their injuries.

Rousskaoff, the man who hurled the first bomb, was with difficulty protected by the police from the populace, who would have torn him to pieces. When he was searched, in addition to a revolver which he attempted to level at the head of the Czar, a dagger was found upon him. While he admitted having thrown the explosive, he persistently denied all knowledge of the person who hurled the second one.

One of the events of Monday was the taking of the oath of allegiance to Alexander III. the new Czar, by the members of the imperial family. In the afternoon all the officers of the guards, the civil officers, and the Court dignitaries met at the Winter Palace and took the oath. When all were assembled the Emperor and Empress and the imperial family issued from the cabinet where the dead Czar lay. In passing through St. George's Hall, on the way to the chapel, the Emperor stopped before the guard of honor and said, with emotion: "I should not like my son to ascend the throne under such circumstances as the present."

THE GOVERNOR'S NOMINATIONS.

Thursday, Governor Ludlow sent the following nominations to the Senate:

Secretary of State—Henry C. Kelsey.

Clerk in Chancery—Geo. Duryea, of Essex county.

State Prison Keeper—P. H. Laverty, of Hudson county.

Prosecutors of the Pleas—Union county, Wm. R. Wilson; Hunterdon county, Edward F. Conkling, of Flemington.

Judges of the Court of Errors and Appeals—Jonathan S. Whitcar, of Cumberland county; Martin Cole, of Sussex county.

Common Pleas Judges Richard J. Byrnes, Atlantic county; Hiram C. Clark, Sussex county.

Mr. Pearson, has succeeded his father-in-law, Mr. James, as Post master of the great city of New York. It took but a few moments to settle Mr. James' accounts, which were correct to a cent, and it's safe to presume that he will make a model Postmaster-General.

THE LEGISLATURE.

TRENTON, March 15, 1881.

The ninth weeks session of the Legislature has passed. We are now on the tenth. This week has the nominations of the Governor under consideration. The nominations were sent in last Thursday: Henry C. Kelsey, for Sec. of State; George Duryea, of Essex, for Clerk in Chancery; ex-Sheriff Patrick Laverty, of Hudson, for State Prison Keeper. It was expected that the Senate would go in executive session last evening, and reject or confirm the nominations, instead of which in open Senate, Senator Wortendyke, of Bergen, offered a resolution that the Governor be requested to withdraw the aforesaid nominations, which to the surprise of every one, it was passed by the Senate without so much as one word said against it. It is a very strange and unusual proceeding, in the first place, that a Democrat should offer the resolution, and secondly, that the Senate should show such disregard of the privacy of matters which are always considered in executive session. Until the meeting of the executive session, the nominations are considered a secret, and not to be made public. This morning the motion to reconsider was laid upon the table, so the Sec'y has not yet carried the resolution to the Governor, and I doubt if the Senate will ever permit him to do so, and thus violate a standing rule. Of course there is very much dissatisfaction expressed in consequence of the nomination of Mr. Kelsey. I have no doubt but the Governor has considered the matter well, and will not recede from his position until the Senate refuses to confirm one or all of them. There is a rumor that Hon. Miles Ross has a finger in the movement, hoping thereby to secure the appointment of his friend Gordon, for Sec'y of State.

There are serious apprehensions as to the confirmation of Mr. Kelsey. It is also reported that the Senate will continue in session until after April 6th, the date at which his office expires; and as the Governor cannot appoint while the Senate is in session, they will thus force him to send in one nomination after another until they choose to confirm one.

It is thought the others will be confirmed.

The Local Option was withdrawn to-day from the House by its friends, who said that it was so amended that they scarcely recognized it as their pet child.

The General Tax bill will not be passed, that is now conceded. A resolution was passed by the House to-day agreeing to adjourn on the 25th inst; they may rescind but, I doubt it.

It is expected that the Water bill, Senate 67, will come up to-night. It has passed the Senate and has been amended in the House, so as to exclude springs and mill ponds, and in other ways to satisfy opposition to it, yet there is violent opposition to it, and it will create almost as much excitement as the Bridge bill.

A bill to prevent the sale of skimmed or adulterated milk (unless so marked), has been on this afternoon. It was amended and ordered to a third reading.

A bill, Senate 86, abolishing the act concerning weights and measures, was vetoed by the Governor, but was passed over his veto this afternoon, the first time his veto has not been sustained. Mr. Schomp, of Somerset, made a telling speech against the bill to release Sooy's bondsman. It was lost by a decided vote. He stands up fearlessly for economy and all proper legislation.

P.

March 16.

Another legislative day has passed. The General City bill was killed in the Senate. The School bill to raise $4 per scholar passed the Senate, and is now a law. It places 10 per cent of the 2 mill tax in the hands of the State Board of Health, to be apportioned and distributed by them. Such counties as seem to pay too much of this excess, some part will be returned to them. It causes a tax of half-a-mill in addition to what was raised before, but those counties who have paid in excess, will get back a proper proportion.

THE NOMINATIONS.

The Senate in executive session to-day confirmed the appointment of Geo. S. Duryea, for Clerk in Chancery, and rejected the nomination of Henry C. Kelsey, for Sec. of State.

The State Prison Keeper was not acted upon, and I understand was not reported from the Judiciary Committee. It is thought that Lafferty will be confirmed. Unless the nomination of Sec. of State is sent in next week, the Senate will continue in session. The Governor vetoed the bill for relief of Plainfield Fire Department yesterday, and the House to-day sustained his veto; his grounds were that it was entirely special in its character to regulate the internal affairs of one city, and therefore unconstitutional.

House bill 306, in reference to publishing laws in counties under 35,000 population was reported engrossed.

A bill passed providing for elevated rail roads applied for from Jersey City.

Assembly bill 127, was up last evening. It emanated from Jersey City, and asked that all taxes now paid to the State by railroads, be returned or paid in to Jersey City where the most of the railroad property is. Their claim was that as the city protected the buildings and property, they should receive the taxes; it would take several hundred thousand dollars out of the State Treasury, or receipts to the same, and would of course cause the levy of a State tax for a like amount. It was promptly voted down, almost all the members except Hudson voting against it. The House passed a bill to-day by which local or township Boards of Health shall have power to expend $250 per year, if necessary, to benefit the health of the people.

There will be a session this evening.

The nomination of ex-Senator Thurman, Democrat, as a Commissioner to the Paris Monetary Conference, was a graceful and commendable act on the part of President Garfield. The appointment of Henry G. Pearson to be Post-master at New York, also reflects credit on the President, Mr. Pearson being the choice of commercial men rather than of professional politicians.

The Governor has filed the bill appropriating $10,000 to complete the Monmouth Battle Monument in the office of the Secretary of State without his approval.

A gentleman recently had his curosity aroused, while the trees were covered so thickly with ice, as to the relative weight of the ice and the wood it surrounded. So at ten o'clock he cut off a limb and it weighed 2¼ pounds; after the ice was melted off it weighed two ounces. Two hours after another trial was made: at first it weighed 4½ pounds; after the ice was removed it weighed three ounces. A third trial, nine pounds; limb, four ounces. Fourth, 32 pounds, and limb 2 pounds, making thirty pounds of ice on a limb weighing two pounds.—Ex.

WESTFIELD WISPS.

Mr. Chas. F. Courtney will occupy Joel Moffett's house on Central avenue for the ensuing year.

Eleven pounds of boy arrived on the evening of the 13th. Mr. John Roulston is the happy parent.

The new Town Committee organized on Saturday night last. Particulars of the meeting are given below.

The March winds, now so prevalent, have resulted in giving Westfield's youths a great deal of enjoyment—"flying kites."

Mr. John M. Ledley, Mason & Builder, of this place, has secured the contract for the interior alterations of the Hotel Netherwood.

Mr. Jas. W. Connolly, who has been confined to the house for the past month by illness, is out again greatly to the satisfaction of his many friends.

Rev. Henry Neill, pastor of the Congregational church, has hired and proposes to occupy the house of Chas. F. Conant on Prospect street, for the ensuing year.

Rumors are rife of a grand Pigeon Shooting Match at Moffett's Hotel, at an early date. Our citizens can safely rely on our many artists of the gun upholding the honor of the place.

Rev. James Riggs will deliver his Lecture on "Education" at Cranford Hall on Wednesday evening, March 23d, for the benefit of the Cranford Library Association. The Orphans' Society will furnish music.

Mr. C. E. Vail, has located in Hanaman's Row next to Traynor's store, and proposes to conduct the general jeweler's business. Particular attention paid to repairs. This new enterprise fills a much needed want here.

Mc Neill, our justly celebrated decorative artist, has with his assistants been devoting the past week to the adornment of Gale's Pharmacy, and the result, to judge from the expressions of those visiting it, has been highly gratifying.

Mr. Nathan Buramith, one of our most esteemed citizens, who has been in poor health for some time, sailed for Charleston, S. C., on Saturday last, intending to try the air of Aiken, S. C., for a couple of months as a curative. The well wishes of the entire community follow him.

The regular annual meeting of Westfield Hook & Ladder Co. No. 1, was held at their house on Monday evening last. The following offices were elected for the ensuing year: Foreman, Dr. Wm. Gale; 1st Assistant Foreman, Andrew Z. Chambers; 2d Assistant Foreman, John Barcalow; Secretary, Joseph R. Connolly; Treasurer, George W. Tice.

The Dramatic entertainment, held at the Lyceum on Thursday evening, March 10th, attention to which was called in your issue of March 4th, proved a success in every way. A crowded house attested to the interest of our citizens in it, and we understand that the funds of the "Village Improvement Committee," for whose benefit it was given, were considerably increased. Where all did so well it is hardly fair to single out one for praise, but we should consider it injustice to fail to call attention to the ability of Mr. A. Westbrook, who gave his many friends here a complete surprise by so ably filling the parts assigned him both in "Box and Cox" and "Dearer than Life," the Improvement Committee could not do better than to engage the Company permanently.

TOWN COMMITTEE MEETING.

March 12th, 1880, 7:30 p. m.

Present—Henry F. Alpers, James Moffett, R. R. Sinclair and L. M. Whitaker, Town Clerk.

On motion Mr. Alpers was elected permanent chairman and Mr. Moffett, Treasurer.

The certified oaths of the several Township Officers were read and on motion placed on file.

On motion the following amounts were decided upon as the proper bonds of the different officials: Collector $15,000; Treasurer, $1,500; Constables, $500 each; Overseer of the Poor, $600.

The notices of the election of Road Overseers and amount of extra tax voted on the different districts, on motion rec'd and ordered placed on file.

Bill of Dr. J. B. Harrison, Township Physician, for balance of $10 due on contract, on motion ordered paid.

On motion the clerk was instructed to communicate with the resident physicians, inviting them to forward the committee sealed proposals for attending the sick poor of the township, and for furnishing necessary medicines for the ensuing year, the same to apply to all cases within a radius of 2½ miles of the centre of the village, said bids to be tendered within three days. The committee reserving the right to reject any and all bids.

On motion the Assessor was authorized to purchase three Field books, such as he may select. On motion committee adjourned until Thursday, March 17th, at 7:30 p. m.

L. M. WHITAKER,
Town Clerk.

BOARD OF HEALTH MEETING.

Present—Henry F. Alpers, R. R. Sinclair, James Moffett and John M. C. Marsh.

On motion Mr. Alpers was elected President and Mr. Marsh Secretary.

Minutes of last meeting were read and approved.

Complaint was presented by James T. Pierson and others relative to a nuisance said to exist on the premises of M. Schweinforth on Cumberland street. On motion it was received and the Secretary instructed to communicate with Mr. Schweinforth and to request the abatement of said nuisance.

On motion the committee on the England nuisance was continued upon its report that a satisfactory settlement of the matter would be secured.

The Secretary was directed to notify John Roulston to abate nuisance on his premises, complaint received at a previous meeting, without further notice. Adjourned.

JOHN M. C. MARSH,
Secretary.

SCHOOL MEETING.

In pursuance of the call the voters of School District No. 10, met at the school house on Tuesday evening last, to vote for the appropriation for school purposes for the ensuing year. The amount claimed as necessary by the Trustees was $1,900. Mr. Chas. Leveridge was on motion elected chairman of the meeting, and Mr. R. R. Sinclair, the Dist. Clerk, Secretary. The Dist. Clerk for the information of voters made the following statement of estimated expenses and receipts for the ensuing year:

RECEIPTS.

State Tax,	$ 125 00
Two Mill Tax,	1,375 00
Rentals,	100 00
Total,	$1,600 00

EXPENDITURES.

Teachers,	$2,700 00
Janitor,	200 00
Fuel,	125 00
Interest on Bond & Mortgage,	180 00
Incidentals (including repairs),	295 00
Total,	$3,500 00

The appropriations for the previous year, 1880, for school purposes was $2,200, $400 of which amount was devoted to the repair of the school building. Motions were made and seconded to grant the amount asked by the Trustees, and to give $1,700, and upon a ballot being taken the amount requested $1,900, was carried by a vote of 27 to 13.

A man who has had occasion to use the hydrophobia cure, compounded by Mrs. Reeves, of Pompton, says the medicine looks like red paint, and he pitied a dog that took it, but it saved his life.

NORTH PLAINFIELD PARAGRAPHS.

The Board of Health of the Township has served a written notice upon Mayor Randolph to the effect that if any case of small-pox or other contagious disease is moved into the Township from the city, the Town Committee will immediately proceed to prosecute the city authorities.

The new Town Committee met and organized on Monday evening by the re-appointment of the following officers: David Weaver, Chairman; F. H. Gardiner, Treasurer, and Messrs. Suydam & Jackson, Attorneys.

The annual meeting of the School Trustees of Dist. No. 26, was held on Tuesday last. It was voted to raise the sum of $1,600 as was done last year.

Collector Van Norstrand has given his last notice to delinquents to settle their arrearages. Unless this final warning is heeded, he will immediately proceed against them according to law.

A most pleasant "Surprise Sociable" was given Mrs. J. B. Haskard, on Tuesday evening, at her residence on the corner of Chatham and Warren streets, North Plainfield. The committee of arrangements was composed of Mrs. Wm. Addis, Mrs. C. Westphal and Mrs. F. Gee—who used their utmost endeavors successfully toward the enjoyment of all.

The newly elected Constable, C. Elsele, is soliciting patrons in North Plainfield with the intention of engaging in the occupation of night-watchman. Those who secure his services may feel assured of his faithfulness and efficiency.

Republican Gerrymandering.

The Re-districting bill proposed by the Republicans makes the three Assembly districts of Union County as follows:

1st District—Wards 1, 2, 3, 4 and 8 of Elizabeth.

2d District—Wards 5, 6 and 7 of Elizabeth and Cranford, Linden, Springfield, Union, New Providence and Summit Townships.

3d District—Plainfield and Rahway cities, and Clark, Fanwood and Westfield Townships.

This makes the Third District stronger Republican by taking from it Summit and New Providence, and giving them to the Second.

Somerset County is apportioned into one district with 27,161 inhabitants.

SPRING weather—*Elizabeth Journal.*

ON March 27th, Lent will be half over.

BUT little frost remains in the ground.

PLENTY of blackbirds are now to be seen.

IT is rotting away fast. Our Nicholson pavement.

SOUTHERN shad are offered for sale on our fish stalls.

SHAD fishing in the Raritan river will soon commence.

PRUNE your grape vines, trees and shrubbery. Now is the time.

NOW get out your fishing tackle and examine it for future operations.

THE country roads are in fair condition considering the season of the year.

ELECTION of two fire commissioners of the Plainfield Department, April 11th.

READ the laws published on our fourth page to-day. There are some of interest to all.

THE latest whim with fashionable women is to wear elaborately bordered linen towels as aprons.

THE Elizabeth Athletic Club has chosen Saturday, the 21st of May, as the day of its annual Spring meeting.

MUCH grain is said to result from much snow. Our farmers may in consequence look forward to satisfactory crops.

A SCHOOLMASTER named McColly has just married his aunt, in Sussex county. He speaks of her as McColly flower.—*Ex.*

THE frost is out of the ground and the roads in our vicinity are steadily attaining a satisfactory and passable condition.

IT was an unusual sight to see heavily laden coal trains pass through our city over the Central R. R. tracks on Sunday last.

EASTER Sunday comes this year on the 17th of next month. Being later than usual, propitious weather for the display of new clothes may be expected.

NEW Spring goods are being advertised in THE CONSTITUTIONALIST and displayed in store windows, by the most enterprising and successful of our merchants.

TWO final rehearsals previous to its second concert, will be had by the Plainfield Vocal Society on the evenings of next Monday and Tuesday, at Assembly Hall.

LOST. Anyone finding a stray shoe, supposed to have been left in the mud at Bound Brook, is hereby notified that it belongs to a prominent Spanish tonsorial artist of this city.

JUST about the time that *materfamilias* wants the little ones at school and out of the way of the customary Spring house-cleaning, a week's vacation is given. It commences this year on the 28th inst.

THE vernal equinox occurs on Monday next, when the day and night are of the same length. It used to be a time of storm, but during late years such result has failed to "catch on" at the proper date.

THE Common Council meet on Monday evening. The arising circumstances that bear so specifically upon Plainfield's continued prosperity, will possibly necessitate fortnightly meetings for some time to come.

THIS evening will probably be stormy, as the Crescent avenue Church Young People's Association holds one of its social gatherings, and upon such occasions, of late, the weather has displayed a contrariness most reprehensible.

IN different parts of the country where springs and wells have been dry for a considerable length of time, they are again reported to be filling up rapidly, indicating that the ground is being well soaked by the thaws and rains.

THE New York *Star* of Sunday last speaks of the towns along the C. R. R., as desirable places of country residence, where the rents are low and property in slight demand. The journal, however, makes an exception in favor of Plainfield, which is designated as "aristocratic" and high-priced.

PHOTOGRAPHER Langhorne is having his hands full to complete the many orders that the excellency of his work is daily attracting. "Of those for whom we fond emotions cherish, we should preserve the shadow 'ere the substance perish"—and no one can so fully satisfy such sentiment as Mr. F. C. Langhorne.

ADDITIONAL contracts upon the residence about to be erected by Jacob Kirkner, Esq., have been awarded to Mr. Wm. Addis and Messrs. Woolston and Buckle. The former will put his most satisfactory system of sanitary plumbing throughout the house, while the latter firm have in charge the painting and decorating of the building both inside and out.

A MOST pleasing ballad has just been published by Messrs. Spear & Dehnhoff, entitled "Old Winter is Stern and Cold"; the words by Dr. W. J. Wetmore, set to music appropriately harmonious, by a composer not unknown to the Plainfield public—Prof. E. H. Bard. It is dedicated to F. A. Runyon, Esq., of this city, and Mr. Jos. Howatt is the agent for its sale.

MESSRS. Milford Estil and Wm. H. Williams will remove their stationery and news business to No. 7 Park avenue, on or about April 1st. Their new quarters are those lately occupied by Mr. A. V. Searing, and as increased room will be attained thereby, the consequent greater facilities will induce the keeping of a larger stock and greater assortment of goods in their particular lines.

THE Union Congregational Church, of Brooklyn, N. Y., under the Pastorate of Rev. N. Everett Smith, D. D., has added to the church 102, by certificate and profession, to wit: 71 on first Sunday in January and 31 on the first Sunday in March, and the congregation during the same period has increased fully three-fold—The outlook is very encouraging—in fact Dr. Smith has been doing a good work ever since he left Plainfield.

THE precocious petty burglars, whose exploits we recorded in our last issue, pleaded guilty in the Court of Sessions at Elizabeth, on Saturday morning. Prosecutor Fay gave a most extended review of their shocking wickednesses, in which he accused them of breaking into places at night (which is not so), and in which he divided the robbery of Messrs. Williams and Estil into two separate and distinct burglaries. Judge McCormick ordered the exportation of the culprits to the Reform School at Jamesburg.

AN exchange, in the following humorous manner, speaks slightingly of the thoroughness of Sunday School tuition in Plainfield, as shown in an exaggerated case:

> "Little Florence went to visit her aunt last Sunday, and remarked: 'Aunty, I went to Sunday School last summer at Plainfield, and the teacher said if you turned round when God didn't want you to you was turned into a pillar—she read it out of a book'; then pausing, she added: 'I don't believe it, though.'"

A contradiction from the teacher who is quoted, would be in order.

THE withdrawal of Mr. Daniel Roberts from the livery business at the corner of Second street and Park avenue, and the purchase of his share by Mr. Jasper O. Cadmus, places the entire establishment and its management in the hands of the latter. Mr. Cadmus will continue to conduct the business with the same efficiency and commendable consideration for the demands of its patrons, as have been maintained by the former firm during past years, in such a satisfactory manner. Mr. Cadmus has already added some new carriages to his stock, from the manufactory of Mr. L. M. French, including a very handsome Surrey.

THE idea of a public Library meets with the approval of our best citizens.

SUBSCRIBERS to this paper should not fail to notify us of any change in residence.

CENTRAL R. R. employees were made happy by a visit of the "Pay Car" during the past week.

ON Wednesday last, Union Co. Bonds sold in Newark at 104, the purchaser agreeing to take all or more.

THE soil pants for Spring weather, and the young man considers whether the soil on his Spring pants can be eliminated.

GIVE your straw hat a dose of sulphur, with a view to the recuperation of its pristine freshness and renewed availability.

THE regular meeting of the Building Loan and Saving's Institution will be held at the Saengerbund Hall, on next Tuesday evening.

YESTERDAY being St. Patrick's day in the morning, it was appropriately observed in the many and divers ways adopted by his disciples.

THE Hon. Robert O. Fuller will speak in the First Baptist Church, next Sunday morning, on what he has seen in fields of missionary work.

"THE subject chosen for the Rev. Wm. Manchee's discourse at the Seventh Day church, Sunday evening, next, is "Are natural helps sufficient for human perfection."

THE P. A. C. (Park Avenue Church) will give a sociable in its chapel next Wednesday evening. The occasion will celebrate the sixth anniversary of the organization.

MESSRS. VanWinkle and Maxson, counsel for the defendants in the Randolph dam injunction case, have secured a postponement of its hearing before the Chancellor, until Monday.

THE attention of our readers is called to the advertisement of Messrs. W. H. & R. Burnett of Newark. This firm takes furs on storage and insures them against all loss from moth or fire.

ATTENTION is called to the Singing Class to be formed by Prof. E. H. Bard at the Y. M. C. A. Hall on Wednesday next, at 4 o'clock p. m. Particulars may be found in our advertising columns.

MR. Geo. W. Force, the popular boot and shoe dealer of Front street, is not only daily adding new and desirable goods to his large stock, but is now about to add to the general attractiveness of his store by enlarging the show windows.

FOLLOWING the intentions expressed by the Congregationalists, the Church of the Holy Cross has bought a lot on Washington avenue just across the iron bridge, where will be erected at once a house of worship suited to its increasing membership.

AT the Seventh Day Baptist church Tuesday evening next, the Rev. A. H. Lewis will discuss the three leading phases of the Sabbath Reform in America, viz: "The no Sabbath Theory," "The Puritan or Change of Day Theory," and "The Sabbatarian Theory."

FROM the tenor of an article in the columns of our cotemporary, the *Times*, this week, we are led to believe that we have been imposed upon by a contributor to our columns. If it should ever occur again from the same quarter, there will be a thorn in somebody's side.

PRINCIPAL Gross has instructed all the scholars of the public school who have not been vaccinated within seven years, to have such operation performed at once. Those who have been treated inside of six years, are advised to consult their physician regarding the present necessity.

THE Fifth Annual Ball of the A. O. H. No. 4, will take place at Laing's Hall, on Monday evening, April 18th. The arrangements for its success are in the able and willing hands of Messrs James Conneely, Hugh O'Donnell and John Shea, who will leave nothing undone that would tend to the benefit of the affair.

THE Catholic Young Men's Union will give an "Easter Reception" in St. Mary's Hall corner of Fourth and Liberty streets on Wednesday evening, April 20th. Messrs. Thos. Carty, Michael Sweeny Jr., Daniel McCarthy, Thomas Harding and Thos. Marley have the enjoyments of the occasion in charge, which is a guarantee that joy and pleasure will result.

THE Parnell Land League, No. 1, of Plainfield, will try its hand at furnishing merriment and pleasure for its friends on Wednesday evening, April 27th. At that time its first annual sociable will take place in St. Mary's Hall, whereat the wonderful piper Kerrigan and assistants will furnish music, Mr. Welch will favor the assemblage with a song and dance, and all will be "as merry as a marriage bell."

MR. B. O. Bowers is the gentleman who is about to establish a match factory in the building known as Bird's Mills, and with such view is now removing the machinery necessary from his former establishment in Connecticut. Mr. John N. Schenck is to set it up on its arrival, besides putting in the shafting and other appurtenances needful. The Superintendent and Manager of the works will be Mr. J. S. Carman.

EX-Street Commissioner John Wilson, has brought suit against the city for alleged damage done him by the flow of the New street sewer into Green Brook and thence to Randolph pond. He claims that certain deposits of mud and objectionable matter have thereby collected in the pond to such an extent as to destroy the ice-crops he would otherwise have gathered. He places his damages at the moderate sum of $10,000.

Important Laws.

On our last page will be found Chapters XLVI and LV of the laws of New Jersey, that are especially interesting to our public. The first allows of the imposition of either a fine or an imprisonment or both, upon anyone not a passenger or employee, who jumps on or off or rides on a railroad car or train. The latter authorizes the mayor or common council of any city to issue bonds to provide a sum not exceeding $15,000 to be used in the purchase of land and erection of buildings thereon for the use of the fire department of the city, and to provide for the redemption of such bonds inside of twenty years by taxation.

Platform and Personal Experiences.

The announcement of a lecture by John B. Gough, of course attracted a large attendance at the Methodist Episcopal church on Tuesday evening. The change from the lecturer's customary and violent declamation of the evils of intemperance, to an interesting review of his experiences personal and on the platform, in private and in public, was greatly appreciated and thoroughly enjoyed. The circumstances that have surrounded the life of Mr. Gough, are such as few men have been brought in contact with; and in consequence, many novel and instructive features combined to make the discourse uncommonly engaging. The physical efforts brought into service in speaking to over 8,000 audiences of both the old and new Worlds, have told upon the vocal powers of this admired speaker with such effect as to make it improbable that many of us will ever experience the enjoyment of again hearing him in public. His mental faculties, however, are unimpaired; while the fire of his younger days burns as intensely as ever, and his sense of humor—with that wonderful judgment of its appropriate use and effective application—is as keen as of old.

Attempted Murder.

On Saturday afternoon last, a colored man by the name of John Henry Peterson called at the house of Mr. George C. Owens between Liberty Corners and Mt. Bethel. That gentleman was not at home, but Peterson entered and staid about an hour and a half talking to Mrs. Owens and another woman. He expressed a desire to see Owens in relation to the hiring of a tenement house belonging to him, and on leaving stated that he would come back again. He told the woman that his name was John Anderson, and accounted for a missing end of the first finger of his left hand with a story of how it had been cut off in an Elizabeth sash and blind factory. Returning the same evening he knocked at the rear door from whence he was directed to the barn as the place where Mr. Owens was engaged at work. The latter was sitting down in a rather narrow stall, milking a cow, as Peterson approached him. Almost immediately the firing of a shot was heard by those in the house, and Owens ran out of the barn, across the cow-yard and endeavored to shut himself into an adjoining stable. He was closely pursued by Peterson who fired twice, and upon then reaching him beat him about the head and face with some weapon not yet discovered. Having vented his spite, grudge, rage or pure wickedness—as the case may be—upon his victim, Peterson started back for the house, but seeing the approach of a neighbor who was attracted by the reports, he turned and fled into the woods.

No necessarily fatal bullet wounds were found upon Owens, but the contusions and bruises—caused by what is supposed to have been a slung-shot—about the unfortunate man's face, are terrible. What had formerly been a rather thin and indrawn countenance, is now swelled and disfigured. At this writing Owens is still in too precarious a condition to be questioned in relation to the meeting in the barn. Whether anything was said by either, before Peterson fired the first shot, is consequently unknown. Dr. Vandeveer, who has the case in charge, expects a recovery unless inflamation should set in.

From the description of the person who was enquiring after Mr. Owens during the afternoon, Peterson was suspected. Constable Manning T. Crow, who is also a member of the N. J. Detective Bureau, went to Peterson's house in Dunellen, near the brick yard, on Sunday afternoon about half past three, and arrested him. Peterson denied any knowledge of the affair—stating that he was in Plainfield during the time of its occurrence. He was taken to Somerville and locked up. On Monday, Mrs. Owens and Mrs. Topham, who was present in Owens' house Saturday afternoon, recognized Peterson as being the man who called. Before seeing him again they mentioned a small scar on his under lip, a piece of his finger missing and other designating peculiarities which were found about the prisoner. Justice of the Peace A. P. Sutphen and Constable C. V. H. Williamson, were present and pronounced the recognition and description complete. The prisoner was also taken to the bedside of Owens who identified him as the man who attacked him. At some time between Saturday and Sunday afternoons, Peterson had shaved off a mustache which he wore when Mrs. Owens first saw him, but its absence made no perceptible difference in his looks.

The cause that impelled the deed is not to be found. Peterson has never been an excessive drinker, and for the past two years was most moderate in that direction. His wife is white, with long blonde hair. He has served a sentence at the State Prison for horse-stealing, where his finger was cut off by a die in the shoe shop. The result of Owens injuries is awaited before action in Peterson's case will be taken.

Lewis vs. Bloodgood.

The suits of Mr. George Lewis against the Wm. Bloodgoods, both father and son, are no doubt remembered. The complainant first claimed payment by Wm. Bloodgood, Sr., for damages done the former's phaeton by being driven into by the latter's coachman who was out for an evening's ride with a lady friend. The defence mainly rested on the fact that the coachman was employed by Wm. Bloodgood, Jr., and upon the disagreement of the jury before whom the first trial was brought, a second one was instituted but against the younger Bloodgood. The defence this time was based upon the argument that a master was not responsible for the acts of a servant when such employee was engaged in his own pleasure and was not upon business of his master. Again the jury disagreed, and for a settlement the case was taken before the Court of Sessions at Elizabeth. Mr. R. V. Lindabury conducted the plaintiff's side in so able a manner, that Judge McCormick rendered a decision on Wednesday of last week in favor of Mr. Lewis for $78 and costs. Mr. Bloodgood, Jr., subsequently forwarded his check for the amount and the matter is thus finally settled.

Two More Cases.

Since our last publication day two of our city's inhabitants have been taken with small-pox and their condition is at present furnishing work for City Physician Lowrie, and attending physician Boone, as well as a conversational topic of interest and excitement for the public at large. The first case was that of Mr. Wm. McNabb, residing on East Fifth Street, who will be remembered as one of the firm of Coddington, McNabb & Co., formerly engaged extensively in the coal and lumber business on Madison Avenue. Mr. McNabb feeling unwell the latter part of last week, called in Dr. W. C. Boone who at once judged the illness to be premonitory symptoms of small-pox. An expression of such belief was met with a decided contradiction by the patient, and the doctor was assured by him that he had experienced an attack of such disease in Philadelphia some seven years ago and no similarity of feeling was apparent. Declining to be satisfied, Dr. Boone called in Drs. C. H. Stillman and H. H. Lowrie who at once agreed with his diagnosis of the case, and measures were at once taken to prevent a spread of the disease. Printed placards notifying the public of the presence of "Small-Pox Within," were conspicuously posted on the outside of the house, and all intercourse with the premises provided against. Where the disease is likely to have been taken is not known. The patient declines thus far to state what places he has visited and what associates he has been in company with during the past few weeks. His immediate family do not know of his having been away from this city, but he might have been without their being aware of the fact. At this writing he is in a most precarious condition with little hopes of recovery.

The other case is that of a twelve year old son of Mr. Edward Ashton, residing at the corner of Sixth and Division Sts. Before the attack—which is a light one of varioloid—had reached a contagious stage, the entire family removed from Plainfield with the exception of the patient and his mother. The parties concerned being in indigent circumstances, the Overseer of the Poor was requested by Mayor Randolph to furnish them coal and such necessaries until the sickness had passed and the family was once more in a position to help itself. Dr. Boone has charge of this case also, and has every expectation of the boy's recovery.

H. S. BARNES, at No. 6 W. Front street, has a full supply of new papers (gilt and plain) which he is prepared to sell at New York prices. A visit to his establishment would repay the trouble.

Look out for Your Bottles.

A bill passed the Senate last week, which authorizes bottlers and others to search any junk shop or other suspected place for the recovery of bottles stamped with their name. The possession of such bottles by a junk dealer will subject him, without further proof, to arrest, and upon being brought before a magistrate, he must furnish bail in the sum of $100 or be committed to await trial.

State Boundary Lines.

A communication has been received by the Legislature from Gov. Ludlow, enclosing a letter from His Excellency Gov. Cornell, of New York, in reference to an act passed by the Legislature of that State regulating the boundary line between New York and New Jersey. In accordance with that act a commission has been appointed to consult with a similar one from this State and to decide in the question of the boundaries.

A Horse Trade.

Some strange trader with more business sharpness than justice, swapped horses with Mr. Lewis Willets, of North Plainfield, at the Somerset House, on Monday. The horse that thereby came into the possession of Mr. Willets was, to all appearance, sound and kind; but on being turned out into Mr. Peter Wooden's lot on Emily street, the next day, it displayed a desire to lie down, that was impossible to overcome. During the afternoon two boys combined their efforts—with the persuasive power of switches and the help of an impromptu derrick consisting of a leather bridle—in an endeavor to overcome what they seemed to think was an equine sentiment of laziness. The horse was induced to stand on its feet and lean against the fence for an instant, at one time, but almost immediately succumbed to the inevitable and fell over again. Mr. John Hughes, the proprietor of the Somerset House, was the only one who seemingly understood the animal's condition and felt pity for it. He subsequently hired another to knock the horse on the head, put an end to its misery and start its soul on a journey to the happy pastures of the unknown world beyond the grave. Moral: Don't trade horses unless you get the best of the bargain.

Important Legislative Bills.

Up to Monday evening, March 14th, there had been over 500 bills introduced in both branches of the State Legislature, of which probably one-third have been passed. At that date the Governor had signed 100 passed bills. Among the many important bills yet to be acted upon, and which effect Plainfield are those introduced by Mr. Sheldon, concerning taxes and assessments in cities—which provides that when the taxes raised are wholly or nearly absorbed by the quota of the State and county taxes the Common Council may raise an additional tax for current expenses and to borrow for the collection of such tax; also an act concerning the assessment and collection of taxes in cities—provides that where any city is debarred by law from raising in any one year more than $10,000 without a popular vote, it may raise an additional sum not exceeding a percentage of fifty cents upon each hundred dollars; provides a method of levying the tax. Another introduced by Mr. Morehead authorizes Common Councils or committees thereof of not less than three members in numbers to adjust a compromise or purchase taxes and assessments, provided that in cities where there is a Board of Finance or Sinking Fund Commission such body shall act.

Plainfield Wins Again.

The second installment of the chess tournament between this city and Plainfield took place Thursday evening in the Arcade in this city, and resulted in Plainfield's favor, thus giving the tournament to our sister city by force of sheer good playing. The first tournament resulted in favor of Plainfield by a score of two to three, Mr. Pope winning the hotly contested game that was so long delayed. Thursday night Plainfield sent down fifteen men. Our club was short the valuable services of Quien, and had to add four new players to their former list, so as to make a team of eight to play the first eight of the Plainfield club. The players were divided as follows, the Plainfield players being named first: Reed vs. Pope; Opdyke vs. Crane; Boice vs. Deihl; Collier vs. Puigner (Little Max); Long vs. Luster; Dunham vs. Conger; Dewey vs. Volsschwitz; Suydam vs. Guldan. Messrs. Crane and "Little Max" were the only ones who won their games for Elizabeth, the others yielded gracefully though necessarily to the players from Plainfield. The game between Reed and Pope was four hours in length and closely contested.

After the tournament the Elizabeth club furnished a handsome collation to the victors, and have concluded to brush up and meet the Plainfield men again. It was also suggested that a Union County Club be formed.—*Elizabeth Journal.*

Personalia.

Mr. Auguste Saltzman, forman of Alert Hose Co. No. 1, attended a grand ball of the Veteran Firemen, at New Haven, Conn., on Thursday evening, March 10th, per invitation, and experienced a most enjoyable time. From the 'Personal' column of the *Courier and Journal* of New Haven, we extract the following:

> "Among the old firemen at the veterans' ball last night was W. W. Hubbell of Waterbury, a well-remembered popular foreman of old Peacock Ten. Also prominent in the grand march were Mr. A. Saltzman, the watch importer, of Plainfield, N. J., and Miss Jennie A. Nepel, daughter of Jacob Nepel, of this city. Mr. Saltzman is a leading fireman in Plainfield."

A most severe neuralgic-headache, to which the Rev. A. V. V. Raymond is frequently subject, incapacitated that gentleman from preaching at the Trinity Reformed church on Sunday evening last.

The patrons of Mr. H. P. Reynolds' pharmacy deeply sympathize with Mr. Samuel M. Aller—formerly head-clerk of that establishment—in the ill-health that has necessitated his retiring from the position he has so faithfully and courteously filled for the past two years. The many friends he has gained, will be glad to hear of his speedy recovery.

Mr. Uzal M. Osborn, for seventeen years publisher of the Rahway *Advocate and Times*, has established a newspaper advertising agency at No. 9 Murray street, New York, where only New Jersey newspapers will be represented.

The many friends of Wm. S. Potter, residing in this section, will be pleased to learn that he has been re-elected assessor of Bridgewater Township, Somerset County; the Board of Canvassers having, on a re-count, declared him elected by two majority. There is no man in Somerset County more capable of filling the position than Mr. P.

The many friends of Mr. and Mrs. David Boehm will be glad to hear of the continued growth of their baby girl and the recovered health of her mother.

Our enterprising tobacco merchant, Mr. Chas. Zuckschwert, is to be congratulated upon having secured a most desirable piece of property on Front street nearly opposite Washington avenue, as a permanent home for himself and family.

That popular and rising young lawyer Mr. Walter Hetfield, has been shown an appreciative honor by his election as Secretary and Treasurer of the Plainfield Mutual Assurance Co.

After some months absence among the rich mines of Colorado, Mr. Gershom France has returned to this city. His friends feel called upon to congratulate him on his improved health and spirits, and to wish him success in the bonanza which, it is reported, he has struck.

Relief Association.

There is still a demand for cast-off clothing, shoes, &c. Any person having such articles to contribute, will confer a favor upon the Association and its beneficiaries, by sending to the rooms, corner of Madison avenue and Second street.

By order of the Ex. Committee,
MRS. H. D. BURLINGHAM,
Secretary.

Retirement of a Veteran.

Mr. John W. Laing, widely and favorably known as a veteran Hotel keeper and Livery merchant of Plainfield, has disposed of his Livery business to Mr. Daniel Roberts (late of the firm of Roberts & Cadmus). Mr. Laing will now have a chance to rest and enjoy himself after his many years of arduous work. For the present he will remain in this city, having mapped out no definite plan of action for his future. Mr. Roberts is too well known with the Plainfield public as a successful Livery merchant to need any lengthy recommendation from the press. Among other improvements to be made about the premises, will be a commodious and substantial brick office in front of the Livery grounds, adjoining the engine house.

A New School Building Possible.

A meeting having been called for the evening of Tuesday the 29th inst., of all the legal voters of District No. 33, of North Plainfield township, it is safe to expect that in view of the business in hand, a large attendance will come together. The meeting is to be held in the school house, and its object is to consider and decide the momentous question whether the District is to have a new and more commodious school building or not.

On the fourth page of this issue will be found a law passed on the 3d inst., (Chap. LXVIII), which possibly gives our neighbors over the brook certain privileges that may be desired. We call their attention to it, and also wish them every success in their endeavors to provide increased educational facilities for the young of the Township.

The World's Fair.

A bill has been introduced into the Senate of New Jersey, (No. 231) by Mr. Taylor, entitled—"An act relative to a proposed international exposition to be held in New York in the year one thousand eight hundred and eighty-three." It provides for the appointment by the Governor, by and with the consent of the Senate, of one resident from each Congressional District to co-operate with the International Commission and to stimulate and encourage such action as will secure a proper representation of the industries of the State. No compensation other than necessary expenses, will be allowed.

At a meeting of the Executive Committee of the Fair Commission, held in New York on Wednesday, $356,500 were reported as subscribed up to date, and resolutions were passed looking towards the ultimate success of the proposed scheme.

Veto by the Governor.

The following is Gov. Ludlow's veto of the Plainfield Fire Department bill, sent to the House of Assembly on Tuesday last:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, March 15, 1881.

To the House of Assembly:

I herewith return to the House of Assembly, in which it originated, Assembly Bill No. 122, entitled "A further supplement to an act entitled 'An act to incorporate the Plainfield fire department,'" approved March 3d, 1864, without my approval.

This bill is entirely special in its character, and as such attempts to regulate an affair internal to the city of Plainfield, and continues and increases powers given to a special corporation therein.

For this reason, it is, in my opinion, clearly unconstitutional, and I have accordingly withheld my approval.

Respectfully,
G. C. LUDLOW,
Governor.

The Governor's veto was sustained by the House on Wednesday.

The R. R. Accident Verdicts.

The coroner's jury in the inquest in the case of Engineer Kinsman who was killed in the railroad accident at Westfield, brought in the following verdicts: The majority found "That James M. Kinsman came to his death on the morning of March 3d, by an accident caused by the negligence of some person or persons unknown to this jury, in leaving open a switch on the line of the Central Railroad of New Jersey, leading to a side track at or near Westfield, in the county of Union and State of New Jersey. And we do further find that the said Central Railroad Company of New Jersey were negligent in not providing a suitable signal-light at the switch at which said accident happened, and we do express our unqualified censure of the same." This is signed by Messrs. Gale, Faulks, Newberger, Martin, Bell, Swift, Blakely, Coleman and Gorham.

The minority verdict is the same as the above, except that the words: "we do express our unqualified censure of the same" are stricken out. This is signed by Messrs. Voorhees, Bird and Marsh.

The Vocal Concert.

It is hardly necessary to call attention to the second concert of the Plainfield Vocal Society, which takes place next Thursday evening. The unexampled superiority of the first, in its vocal selections and their execution, will not be forgotten; and we are entirely justified in predicting for the coming entertainment still greater appreciation.

One feature, however, deserves special mention and will be received with intense satisfaction. Our public has long desired to hear and judge for itself as to the vocal powers of Miss Josephine Holcomb of this city. It is now some time since the lady has favored a Plainfield audience with her ability—singing last, if we are not mistaken, about three years ago in the Crescent avenue church—and such flattering reports of her talents as displayed in the Church of the Holy Trinity at Brooklyn, reach the ears of our residents, there arises a natural curiosity and desire to attain a personal experience thereof. An endeavor is being made to secure Miss Holcomb as the soprano soloist of the coming concert, and as she has assented so far as to promise an attendance at a rehearsal, it is to be supposed that her dislike to the proverbial and critical coldness of a Plainfield audience, will be overcome.

FIRE MATTERS.

The regular quarterly meeting of the Firemen's Relief Association was held in the parlors of 's Engine House, on Monday evening. President Jos. A. Hubbard being absent during the early part of the meeting, Mr. D. W. Rogers occupied the chair. Chief Wm. H. Voorhees was present ex-officio, and all the companies were represented excepting Zephyr H. & L. The Relief committee reported no applications for assistance presented. Mr. R. J. Shaw, Treasurer, sent in the following report to date:

Sep. 27, '80.	Balance on hand,	$983.54
	Dues rec'd,	2.00
Jan. 29, '81.	Insurance Co's; June 30, to Dec. 31, 1880,	147.90
		$1133.44
Dec. 31, '80.	Expenses to State Convention,	$5.90
Mch. 14, '81.	Balance in bank,	1,127.54
		$1,133.44

The Secretary, Wm. R. Cock, was instructed to notify the fire companies of the city to select two members each, at the May election, to represent their respective companies in the association. A bill of $3 for necessary printing was passed, and the meeting adjourned until the next regular quarterly meeting in June, to be held at the same place—unless called together earlier.

Among the many bills that have so conscientiously been vetoed by Gov. Ludlow for various well-judged reasons, was the one presented in the interest of the Plainfield Fire Department authorizing it to raise $6000 by the issuing of bonds. It was returned on Tuesday without the Governor's signature, for the stated reason that its legislation was special and not general.

Real Estate Transfers.

From the Elizabeth *Journal's* compiled list of real estate transfers for the past week, we clip the following relating to Plainfield:

Eli Rosenbury to Margaret S. Dederick, consideration $160, property in Plainfield.

John H. Cosgrove to Barnet Cosgrove, consideration $500, property in Plainfield.

James T. Tiller and wife to John B. Weighton, consideration $3,500, property in Plainfield.

COMMUNICATED.

For "The Constitutionalist."

MESSRS. EDITORS:—The following extract from a case in 4th Vroom, may be useful to Collectors, Treasurers, Councils and Town Committees at the present time, which explains something in which they are all interested:

"Prior to April 11th, 1866, it was the duty of the Township Collector to pay the County and State tax to the County Collector, from time to time, as he received it. Nix. Dig., 911, § 34. This law led to a dilatory and irregular payment of the State and County revenues, and the result was an inability on the part of the State and County to meet the expenses of government as promptly as was necessary. The act of April 11, 1866, supplied the legislation designed to remedy this mischief; sec. 25 provides that the township, city or ward collectors shall pay out of the first moneys which shall be collected, to the County Collector the State and county tax required to be assessed at the time required by law. This provision postpones the right of the township, city or ward to use for its own purposes any of the moneys raised by a given assessment, until the revenues of the State and county are supplied, and clearly require the Township Collector to pay the general county and State quotas out of the first moneys which come to his hands, making no distinction whether those moneys are raised from the general polls or from the property, or partly from one and partly from the other; but in no case is the township liable to pay until moneys come to hand from one or the other, or both of the two subjects of taxation, the polls and property.

The general county and State tax are sums in gross which the township is required to assess in connection with the necessary local tax upon polls and property, and out of the moneys raised, the State and county are entitled to priority in payment." 4 Vroom, page 365 and 366. RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a VIOLENT BLEEDING OF THE LUNGS followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work." Sold by druggists. 1 s

THE POPULAR DEMAND.

So great has been the popular demand for the celebrated remedy Kidney-Wort, that it is having an immense sale from Maine to California. Some have found it inconvenient to prepare it from the dry compound. For such the proprietors now prepare it in liquid form. This can be procured at the druggists. It has precisely the same effect as the dry, but is very concentrated so that the dose is much smaller.—*Lowell Mail.*

HAVING GIVEN ELY'S CREAM BALM a trial, I advise those suffering from Catarrh to lay other remedies aside. I believe it to be the only remedy that will cure this terrible disease, from which I have been suffering for 20 years. The Balm is doing wonders for me. I have used everything advertised, but have never found its equal. CHARLES GARRABRANT, Dealer in Boots and Shoes, 665 Broad St., Newark, N. J.—See Adv't.

is a common complaint. If you feel so, get a package of Kidney Wort and take it and you will at once feel its tonic power. It renews the healthy action of the kidneys, bowels and liver, and thus restores the natural life and strength to the weary body. It can now be had in either dry or liquid form, and in either way is always prompt and efficient in action.—*New Bedford Standard.*

Statistics often prove unwelcome facts and none more so than that twenty per cent. of the people of this State die from consumption and kindred diseases. The great question how to reduce this terrible mortality has engaged the minds of our most eminent scholars and physicians. From the testimonials of thousands who have used ARTHUR'S ELIXIR OF SULPHUR, nothing in the way of medicine has ever done so much toward this end. It is earnestly requested by many citizens that the following Ordinance will be passed by the Common Council:

AN ORDINANCE.

Be it enacted by the Common Council of the city of Plainfield in lawful session met, and it is hereby enacted by the same, that its members henceforth and forever shall be authorized to purchase such articles of toilet and such medicinal preparations as they need, at the Drug Store of Mr. Anthony Killgore, situated at No. 20 East Front Street, under VanDeventer Hall.

SEC. 1. That before and after the passage of this act, it shall be the duty of all members of this body to procure at the before-mentioned establishment a bottle of Killgore's Cough Cure, and forever after abstain from disturbing the meetings of the Council by coughing, hacking and sneezing.

SEC. 2. That when any member desired to buy a tooth or hair brush for the use of himself, or his family, or his sister, or his cousin, or his aunt, he is hereby advised to select the same from the large variety and great stock to be found at the store of Mr. Killgore at the place mentioned above.

SEC. 3. That no matter what family physician may be employed by a member of the Council, it shall under every consideration be the duty of each member to have any and all prescriptions compounded at Killgore's pharmacy, as it is the desire of this Council to perpetuate his existence by the use of carefully prepared medicines.

SEC. 4. That every member shall be required, within ten (10) days after the publication of this act, to call at the store of Mr. Anthony Killgore and make a personal inspection of the fine assortment of perfumes, soaps, patent medicines, and other articles contained in stock, and immediately instruct his family, his heirs, his assigns, his man servant, his maid servant and the stranger within his gates, to purchase their needs and wants at that establishment and forever after hold their peace.

SEC. 5. Any member who shall violate or fail to comply with any provision of this act shall be deemed guilty of a *nolle pros* and upon the pronouncement of a *habeas corpus* shall be fined not less than two hundred dollars nor more than fifty cents for each and every offence: one-half of such fine when collected to be paid to Mr. Killgore, one-half to be devoted to the discovery of Charley Ross and the remainder to be equally divided among the members of the Council with the exception of the second.

SEC. 6. All acts or parts of acts inconsistent with this act, are hereby repealed.

And be it enacted that this act shall be deemed a public act and take effect immediately.

JOINT RESOLUTION, NO. III.

Joint Resolution to authorize the payment of the expenses of the New Jersey State Rifle Team.

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That the comptroller of the treasury be and he is hereby authorized and empowered to draw his warrant for, and the treasurer is authorized to pay the expenses incurred by the military state team that represented this state at the late fall meeting of the National Rifle Association at Creedmoor, provided the amount thereof shall not exceed two hundred and fifty dollars.

2. And be it resolved, That this resolution shall take effect immediately.

Passed February 28, 1881.

CHAPTER XLI.

2. And be it enacted, That the newspapers directed to be designated by this act shall be in addition to the number heretofore authorized to publish the laws; that they shall be entitled to publish the laws enacted at the present session of the legislature, and that this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LII.

A further supplement to an act entitled "An act relative to sales of lands under a public statute, or by virtue of any judicial proceeding" (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four.

Whereas, the provisions in laws relative to the sales of lands and the advertisement and adjournment of the same, have not been in all respects known, or complied with, whereby the titles to certain lands are alleged to be defective and uncertain;

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That no sale of land heretofore made shall be invalidated by reason of the omission to publish the advertisement of such sale in two newspapers printed and published in the county in which such lands are situate, but that any purchaser of lands at such sale who shall have paid the price thereof and received a deed therefor, shall have as good and complete a title thereto as if the advertisement of such sale had in all particulars conformed to the provisions of the act to which this is a supplement; provided, that the advertisement of such sale shall have been duly published in one newspaper printed and published at the county seat of said county; and provided further, that nothing in this act shall be held to affect any litigation now pending.

2. And be it enacted, That no sale of lands heretofore made by any executor or administrator shall be invalidated by reason of such sale having been adjourned for a time or times exceeding two months in the whole, or by reason of the omission to advertise adjournments, but that the purchaser or purchasers of any lands at such sale who shall have paid the price thereof and received a deed therefor—such sale having been duly reported to and confirmed by the proper court—shall have as good and complete a title thereto as if said sale had been adjourned from time to time, not exceeding two months in the whole, and the adjournments thereof duly published.

3. And be it enacted, That this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LIII.

A further supplement to the act entitled "An act to incorporate societies for the promotion of learning" (Revision), approved April ninth, one thousand eight hundred and seventy-five.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever any society now existing in this state, composed of delegates from Baptist churches in this state, and organized for the purpose of assisting indigent young men in prosecuting their studies, preparatory to entering upon the work of gospel ministry, shall desire to become an incorporation under the laws of this state, and shall, by a majority vote of the delegates assembled at any regular meeting of such society, resolve to become incorporated, such society shall thereupon proceed to adopt a corporate name, shall elect a president, one or more vice presidents, a secretary and a treasurer, and a board of managers of not less than ten nor more than thirty-five persons, and a certificate of such vote shall be prepared containing in addition thereto the following particulars:

I. The name of such corporation;

II. The name and residence of each member of the board of managers of said corporation;

III. The name and residence of each officer of the corporation;

IV. The general purpose of said corporation;

Which certificate shall be signed by the said officers and managers, and the execution thereof shall be acknowledged before some person or persons authorized by the laws of the state of New Jersey to take the acknowledgments of deeds, and after being so acknowledged shall be filed and recorded in the office of the secretary of state, for which such secretary shall be entitled to charge the sum of one dollar.

2. And be it enacted, That upon the filing of such certificate, the said society shall be and is hereby constituted a body corporate, with power to sue and be sued, to adopt and use a common seal, to make by-laws for its government and regulation, and shall have all the rights and powers and be subject to all the liabilities of the corporations created by the act to which this is a supplement, so far as the same do not contravene the provisions of this act.

3. And be it enacted, That the executive and routine business of said corporation shall be managed by a board of managers consisting of not less than ten nor more than thirty-five persons, of whom the president, vice president or vice presidents, secretary and treasurer shall be ex-officio members, the persons signing the above mentioned certificate shall be the officers and managers for the first year, and shall hold office until their successors are chosen; at each annual meeting thereafter of said society there shall be chosen, in such manner as the society may determine, a president, one or more vice presidents, a secretary and treasurer, and members of the board of managers, who shall hold their offices for one year and until their successors are elected; any vacancy in the board of managers occasioned by death, resignation, or removal from the state, may be filled by a majority of the remaining members of the board.

4. And be it enacted, That this act shall be deemed and taken to be a public act, and shall take effect immediately.

Approved March 2, 1881.

CHAPTER LIV.

Supplement to "An act to legalize certain newspapers, the issues of which have been temporarily suspended," approved March third, one thousand eight hundred and eighty.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That section one of "An act to legalize certain newspapers, the issues of which have been temporarily suspended," be amended so as to read as follows:

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That such temporary suspension shall not be regarded as an invalidation of the legal age of said newspapers, but that upon their resumption of publication within twelve weeks of their suspension as aforesaid, such papers shall be considered as to age as dating from their first publication, and they shall be as fully entitled to the state and other legal printing the same as though such suspension had never occurred.

2. And be it enacted, That this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LV.

An act to authorize the erection of engine houses in cities of this state.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the mayor or common council of any city in this state are hereby authorized and empowered to erect one or more buildings suitable for the use of the fire department of said city, and to purchase land whereon to erect said building or buildings; provided, that the aggregate cost of such land and of the erection of said building or buildings in such city shall not exceed fifteen thousand dollars.

2. And be it enacted, That to provide moneys necessary to carry this act into effect, each mayor and common council shall have power to issue bonds of such city, to an amount not exceeding fifteen thousand dollars, having no more than twenty years to run, and bearing interest at a rate not exceeding six per centum per annum, and to pledge the faith, credit and property of said city for the payment of the principal and interest thereof, and to provide for the redemption of said bonds by taxation.

3. And be it enacted, That this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LVI.

A supplement to "An act to regulate fees," approved April fifteenth, one thousand eight hundred and forty-six.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That hereafter no fees in which any judge of the court of common pleas, court of general quarter sessions of the peace or orphan's court in any county in this state shall be entitled for services performed in court shall be paid by the parties liable for the same to any such judge, but shall be paid to the clerk of the court, under such rules as the court may prescribe, and shall be paid over by him to the judge or judges entitled to the same; and if any of the judges of said court shall be in receipt of a fixed salary allowed by law in lieu of all fees, then in that case it shall be the duty of the said clerk to pay over to the collector of the county, at least once in each quarter, for the use of the county, all fees received by him during the preceding quarter, for services performed by any such salaried judge or judges; for collecting the same the said clerk shall be entitled to five per cent of all fees collected by him.

2. And be it enacted, That it shall be the duty of the clerk of each county to report on the first day of July next and quarterly thereafter, under oath, to the collector of the county, whether or not he has received during the preceding quarter any fees for services of any kind, granted by the court of which he is clerk, and, if so, from whom, the amount in each case, and the disposition made of the same; and when not otherwise provided by law it shall be the duty of each clerk to pay over to the collector of the county, at the time of making each quarterly report, the amount of such license fees so received by him during the preceding quarter; and the said collector shall forthwith report to the board of chosen freeholders of the county the amount of fees so received by him during the preceding quarter, and the said collector shall forthwith report to the board of chosen freeholders of the county the amount of fees so received by him from such county clerk.

3. And be it enacted, That any clerk failing to make the report and payment required by the second section of this act at the time named, shall be liable to a penalty of one hundred dollars for every such failure, which penalty shall be recoverable with costs by the collector of the county in any court of competent jurisdiction, in an action of debt, for the use of the county.

4. And be it enacted, That this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LVII.

An act further to amend "An act respecting the orphans' court, and relating to the powers and duties of the ordinary and the orphans' court and surrogates" (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the one hundred and fifty-ninth section of the act to which this is amendatory, and which was amended by chapter thirty-eight of the laws of one thousand eight hundred and seventy-nine, be and the same is hereby amended to read and be in the words following, to wit:

159. And be it enacted, That all examinations to be taken and made use of at the hearing of any cause in the orphans' court of any county, may be taken and reduced to writing before the surrogate of such county, or a master in chancery, which examinations shall be taken on ten days' notice of the time and place of taking the same, given by the party or his attorney to the opposite party or his attorney, and either of the parties may, in person or by his attorney, be present and examine and cross-examine the witnesses testifying at such examinations; and the examination so taken shall be of the like force and effect as if taken in the orphans' court, before the judges thereof, and shall be filed with the clerk of the said court and read in evidence upon the hearing of the cause, saving all just exceptions; and in particular cases it shall be lawful for the president judge of said court to employ a competent stenographic reporter to take down the evidence of such witnesses as may be examined in the particular causes, for the use of the court and the parties in the cause; and to fix, allow and tax the fees and compensation of such reporter for taking down and writing out such evidence, and to apportion the same between the parties in the same manner as the fees of examiners are apportioned; and each party shall forthwith pay the part so apportioned to him, which shall be a part of the taxable costs in the cause.

2. And be it enacted, That this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LVIII.

Supplement to an act entitled "An act concerning savings banks" (Revision), approved April twenty-first, one thousand eight hundred and seventy-six.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall be lawful for the trustees, directors or managers of any savings bank or savings institution in this state, whether such savings bank or savings institution shall have been organized under a special act, or under the act to which this is a supplement, to pay to the president of any such savings bank or savings institution, who shall devote his time and labor to the management and care thereof, such reasonable compensation for his services as president, as shall be fixed by the said trustees, managers or directors.

2. And be it enacted, That this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LIX.

An act relative to fees paid for copies of records used as evidence.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the fees and charges paid for official copies and abstracts from the records and files in any public office in this state, used as evidence in actions brought or to be brought in any of the courts of this state, shall be allowed and taxed as part of the taxable costs therein; provided, the amount of such fees and charges be endorsed on such copies by the officer making the same.

2. And be it enacted, That this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LX.

A further supplement to an act entitled "A supplement to an act entitled 'An act relating to municipal or other authorities owing or managing works for the supplying of water to the public,'" which supplement was approved March fourteenth, one thousand eight hundred and seventy-nine.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the third section of the supplement above mentioned, be amended so as to read as follows:

3. And be it enacted, That for the purpose of raising such gross sum which shall be designated as a "district, fire and water tax," the assessors and board of commons shall fix and review the valuations of all lands within said district in the same manner as they now fix the valuations for tax purposes of all land in said city; and all proceedings now required or authorized to be taken for the assessment, collection and enforcement of the collection of taxes shall be equally applicable to the assessment, collection and enforcement of the collection of the district, fire and water tax.

2. And be it enacted, That this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LXI.

An act respecting the time of payment of the annual salaries of the law or president judges of courts of common pleas.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That for convenience and uniformity, in all counties in this state in which the law or president judges of the courts of common pleas are now compensated by annual salary, said salaries shall be paid in monthly installments.

2. And be it enacted, That all acts or parts of acts inconsistent with this act be and are hereby repealed, and this act shall be a public act, and take effect immediately.

Approved March 2, 1881.

CHAPTER LXII.

An act relating to claims against the inhabitants of townships.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in all cases in which any claim shall be made by any person or persons against the inhabitants of any township, in their corporate capacity, for moneys heretofore borrowed by the township committee of such township for township uses, and said inhabitants, in their corporate capacity, may have a legal defense to such claim, they may at any subsequent annual town meeting vote to raise, by taxation, in the manner that other taxes are raised, a sufficient sum to pay the amount of any such claim, or in the same manner at any such meeting order the same paid out of any moneys of such township in the hands of the collector thereof, not otherwise appropriated.

2. And be it enacted, That when such sum shall be so voted and raised, or ordered paid, it shall be used to pay the claim for which it was raised and for no other purpose.

3. And be it enacted, That this act shall take effect immediately.

Approved March 2, 1881.

CHAPTER LXIII.

An act providing for the sale of certain lands in cities, subject to dedication for public uses, and vesting the title thereto in the purchaser.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That where land has been dedicated to public uses in any city in this state, other than streets or parks, and is now in the possession of and being used by the city authorities of such city, that the city board having control of and using such property as aforesaid, may, without the action of any other board, at any time, when in its judgment the location where such property is situated, has or shall become unfit for the purposes for which the same is being used, sell said property at public auction, upon two weeks' advertisement, to the highest bidder therefor, and the mayor shall execute upon behalf of the city, under its corporate seal, attested by the city clerk, a deed conveying said property to the purchaser, upon the purchase money being first paid to the city treasurer; the purchase money shall be held by the city treasurer and his successors in office to be used exclusively for the purchase of other real estate and the erection thereon of buildings and furnishing the same for the same public uses as the property sold; the expenditure of money therefor to be by said city board making said sale.

2. And be it enacted, That the said city board may, in any case provided for in section one, when they deem it necessary, make a contract, upon such terms as said board shall deem just, with the owner or owners of the fee of the land desired to be sold, by which said owner or owners will execute a conveyance of said land to the city, or to the purchaser of said land, as may be deemed best, and carry out the terms thereof; and upon such sale and such action of the owner or owners, the title of the land in fee simple so sold, shall vest in the purchaser, his heirs and assigns forever, free from any and all dedications for public uses of every kind whatever.

3. And be it enacted, That this act is a general public act and shall take effect immediately.

Approved March 3, 1881.

CHAPTER LXIV.

An act to provide for the payment of the difference between old and new assessments for improvements in cities.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall be lawful for any city in this state, from time to time, to borrow money for the use of said city, in such sums as it may think best, to pay the difference between any assessment, on any real estate for any improvement in said city, and any reassessment thereof for the same improvement when the original assessment has been vacated or set aside by court or any city board, together with any interest or damages due or to fall due thereon; that the city in order to procure said money may issue bonds, payable as to principal and interest at such times and at such place and in such form as it shall deem best, and the same shall bear interest not exceeding 6 per centum per annum, and may be sold at not less than par; the bonds shall be signed by the mayor, sealed with the city seal and attested by the city clerk, and may be registered or coupon bonds or both, and may be convertible from one form to the other from time to time, and in converting coupon bonds to registered bonds, one registered bond may be issued for several coupon bonds or several coupon bonds may be issued for one registered bond, as may be determined from time to time; provided the issue of bonds under this act does not exceed in any city of this state the limit now provided by law.

2. And be it enacted, That the board having the control of the finances of the city, shall have all power to act for the city under section one of this act, and to do all things therein authorized to be done, except the signing, sealing and attesting of the bonds therein mentioned, and shall from time to time place or cause to be placed in the tax levy an amount sufficient to pay the interest on said bonds, and such percentage of the principal thereof as it may deem proper.

3. And be it enacted, That this act shall take effect immediately.

Approved March 3, 1881.

CHAPTER LXV.

An act authorizing the cities of this state to make limited appropriations for the publication of the minutes of the proceedings of their municipal boards.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That with a view to the furnishing of prompt and accurate public information of the proceedings of the municipal boards of the cities in this state, it shall be lawful for the board of aldermen, common council, board of finance or other governing body of any city where provision is not now made for reporting or publishing the official minutes, to appropriate, annually, a sum not exceeding five hundred dollars for the reporting and publishing, during each year, of the proceedings of the different boards, in the several newspapers published and circulated in such city which will be designated for that purpose; said appropriation, if made, to be distributed in such manner as the governing body of said city shall determine.

2. And be it enacted, That this act shall be a public act, and take effect immediately.

Approved March 3, 1881.

CHAPTER LXVI.

Supplement to the act entitled "An act relative to the publication of the laws of this state in the newspapers" (Revision), approved April twenty-first, one thousand eight hundred and seventy-six.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That section one of the act entitled "An act relative to the publication of the laws of this state in the newspapers," approved April twenty-first, one thousand eight hundred and seventy-six, be amended to read as follows:

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That hereafter the public laws of this state passed at each session of the legislature, shall be published in the newspapers in the several counties, which papers shall be selected and designated as hereinafter provided, and the number of papers authorized to make such publication in each county, shall be in proportion to the representation of the county in the house of assembly; provided, that there shall not be more than four nor less than two papers so authorized in any one county, excepting in such counties having a population in excess of sixty thousand, where the number may be increased to six, and in the counties of Essex, Atlantic, Union, Mercer, Hudson and Passaic, in each of which counties there shall be one additional paper so authorized published in the German language.

2. And be it enacted, That this act shall take effect immediately.

Approved March 3, 1881.

CHAPTER LXVII.

A further supplement to an act entitled an "Act concerning evidence," approved March twenty-seventh, one thousand eighteen hundred and seventy-four.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That upon the trial of any indictment, allegation or accusation of any person charged with crime, the wife or husband of the person indicted or accused shall be admitted to testify as a witness in behalf of such person upon such trial if he or she shall be offered and produced as a witness thereon by the person indicted or accused.

2. And be it enacted, That this act shall take effect immediately.

Approved March 3, 1881.

CHAPTER LXVIII.

An act to authorize incorporated towns to build and furnish school houses in special cases.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in a town where an incorporated town has previously by provision of its charter, been constituted one large and separate school district, and has since partially been divided into several school districts, it shall be lawful for such town at any annual town meeting, or at a special town meeting called for that purpose, lawful notice of the same having been given, to provide for purchasing a lot, building a school house thereon and furnishing the same for any such district, or to build and furnish a school house on a lot already purchased, and to raise the money therefor by taxation upon its taxables at large, in the same manner as it might have been done if such division into districts had not been made.

2. And be it enacted, That all acts and parts of acts inconsistent with the provisions of this act are hereby repealed, and that this act shall take effect immediately.

Approved March 3, 1881.

CHAPTER LXIX.

A supplement to "An act to amend and consolidate the several acts relating to game and game fish," approved the twenty-seventh day of March, one thousand eight hundred and seventy-four.
